Medicare Entitlement Based on End Stage Renal Disease (ESRD)	Revised Final	Technical	Secs.226A and 1881 of the Social Security Act.,	Recent changes in law specifically require regulation.	The regulations will extend Medicare coverage to ESRD patients who are 65 years of age or older permit coverage to begin earlier for patients who receive renal transplants or training in self dealysis and lengthen the duration of Medicare payments following a renal transplant. Comments received in response to publication of final regulation on September 28, 1978, are being considered to determine if revisions are needed.	NO	John Russell Medicare Bureau HCFA,RM-1-H-5, East High Rise Blvd., Baltimore,MD., 21235 301-594-8260
End Stage Renal Disease (ESRD) Services Networks.	NPRM	Policy Significant	Sec. 1881 of the Social Security Act.	Recent changes in law require implementing instructions.	The proposed regulation would require at least one patient representative on each network coordinating council and executive committee. It would also require disclosure of information when network members or thier relatives own or have controlling interest in a renal dialysis facility, or have received compensation in excess of reasonable costs for any services or goods.	No	Cor Denion, Medicare Bureau, HCFA,RM 1-G-3 East Low Rise Bldg. 6401 Security Blvd. Baltimore,MD,21235 301-594-9029

Cost to Related Organizations	NPRM	Policy Significant	Secs. 1102 and 1861(v)(1)(A) of the Social Security Act.	Department is considering change in policy and is requesting public comments on proposals.	These regulations would clarify existing policy on Medicare reimbursement for services, facilities, and supplies furnished to a provider of services by an organization related to a provider by common ownership or control. They will also codify policy now in program instructions in manuals. This revision supplements the NPRM published on August 17, 1978 on reimbursement to shared services organizations.	No	Bruce Oliver Medicare Bureau, HCFA, Room 440, East High Rise Bldg., 6401 Security Blvd., Baltimore, Md. 21235 301-594-8224
Membership on Carrier Boards	NPRM	Policy Significant	Secs. 1102, 1816 (b), 1842(f)(1), 1871, and 1902 (a)(4) of the Social Security Act.	Department is considering change in policy and is requesting public comments on proposals.	Comments received in response to a notice of intent to limit the number of physicians or other peraons with financial interest on the boards of directors of fiscal intermediaries and carriers, published on June 23, 1978, are being evaluated. The regulation would be designed to eliminate potential conflicts of interest.	No	Marty Kappert Medicare Bureau, HCFA, Room 256, East High Rise Bldg., 6401 Security Blvd., Baltimore, Md. 21235 301-594-9415
Coverage of End-Stage Renal Disease (ESRD) Services.	Revised Final	Policy Significant	Sec. 1881 of the Social Security Act.	Recent changes in law specifically require regulation.	This regulation defines the specific ESRD services that will be covered and the conditions under which these services must be provided to be reimbursed under Medicare. Comments received in response to publication of final regulation on October 24, 1978 are being considered to determine if revisions are necessary.	No	Hugh McConville Medicare Bureau, HCFA, Room 412 East High Rise Bldg., 6401 Security Blvd., Baltimore, Md. 21235 301-594-9430

Medicaid Quality Control Fiscal Disallowances	Final	Policy Significant	Sec. 1102 of the Social Security Act.	Department has set new policy that requires new or modified regulations.	This regulation provides for a reduction in Federal financial participation for erroneous Medicaid expenditures to insure proper use of Federal and State Medicaid funds.	No	Victor Kugajevsky, Medicaid Bureau, HCFA, Room 3094, 330 C St., S.W., Washington, D.C. 20201, 202-245-3846
Medicaid Quality Control Systems: Expansion of Information Requirements.	Revised Final	Policy Significant	Secs. 1102 and 1902(a)(4) of the Social Security Act.	Department has set new policy that requires new or modified regulations.	These regulations expand the Medicaid quality control system for eligibility review to include the extent to which payments for Medicaid services: (a) took account of available medical insurance; and (b) were based on complete and accurate claims. Comments received in response to regulation published on March 31, 1978 are being considered to determine whether a revised regulation should be published.	No	Victor Kugajevsky, Medicaid Bureau, HCFA, Room 3094, 330 C St., S.W., Washington, D.C. 20201, 202-245-3846.

HCFA REGULATION AGENDA

Title	Stage of Development	Classification	Statutory Base	Need to Regulate	Description	*RA	Contact
State Residency Requirements for Medicaid	Final	Policy Significant	Sec. 1102 of the Social Security Act.	Department is considering changes in policy and has requested public comments on proposal.	This regulation establishes new criteria for determining State residency of applicants for Medicaid benefits.	No	Elizabeth Barnes, Medicaid Bureau, HCFA, Room 2625, Switzer Bldg., 330 C St., S.W., Washington, D.C. 20201, 202-245-0384.
Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Penalty	Final	Policy Significant	Sec. 403(g) of the Social Security Act.	Law in general terms; implementing instructions needed.	This regulation specifies standards States are required to meet to insure that EPSDT services are provided to Medicaid eligible individuals under 21. A 1-percent penalty reduction in Federal funding for the aid to families with dependent children program is required if States do not meet the standards.	No	Senora Simpson, Medicaid Bureau, HCFA, Room 4621, Switzer Bldg., 330 C St., S.W., Washington, D.C. 20201, 202-245-0111.
General Contract Requirements for Medicaid	NPRM	Policy Significant	Secs. 1102 and 1902(a)(4) of the Social Security Act.	Law in general terms; implementing instructions needed.	This regulation proposes requirements to strengthen protections against questions on contract practices and possible program abuse and to remedy ambiguities and omissions in existing regulations.	No	Pat McCarthy Medicaid Bureau, HCFA, Room 4314, Switzer Bldg., 330 C St., S.W., Washington, D.C. 20201, 202-245-0786.
Hearing Aid and Eyeglass Reimbursement	NPRM	Policy Significant	Sec. 1102 of the Social Security Act.	Department is considering changes in policy and has requested public comments on proposal.	Comments received in response to a notice of intent that requested suggestions on practical ways to lower the cost and improve the quality of eyeglasses and hearing aids provided to Medicaid recipients.	No	Larry Rima, Medicaid Bureau, HCFA, Room 2613, Switzer Bldg., 330 C St., S.W., Washington, D.C. 20201, 202-245-9264.

				listing colors for use in medical devices.		
Proposed Revision of Temporary Tolerances.	Regulation.	do	To update the temporary tolerances for provisionally listed color additives to be consistent with current scientific data.	Section 81.25 prescribes temporary tolerances for the use of certain provisionally listed color additives pending a decision on their "permanent" listing. These were developed on the basis of early preliminary toxicity data. The proposed revision of this section would change the tolerances for most of the colors in Section 81.25.	No	do
Cholesterol-free Egg Substitute—Petition for Reconsideration.	Proposal.	do	To establish consistency in labeling of cholesterol content of foods.	The broad issue of cholesterol labeling needs to be discussed and a policy established. The issue is one that is undergoing considerable study in the Bureau. This proposal deals with the issue of the term cholesterol-free being used in the name of food products.	No	do

Significant New Regulations Currently Under Development

By The

Food and Drug Administration

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Recommendations Concerning Mammography Screening	NOI	Public Health Service Act	Guidance on when mammography screening is appropriate	Mammography screening of the general population of asymptomatic women has been recommended by various organizations including the American Cancer Society and the American College of Radiology. Because of the potential cancer risks, NIH recently convened an expert committee to review these issues and to develop guidelines for the mammography screening projects being supported by NCI. A Notice of Intent will be published which will seek to obtain information and opinion concerning such questions as the population to be screened, the usefulness of a base-line mammogram, etc. Interim guidelines will also be proposed as part of the Notice. These will be based primarily on the recommendations made by the NIH expert committee.	No	Mr. Michael S. Terpilak Bureau of Radiological Heal 5600 Fishers Lane Rockville, MD 20857 301/443-3426
Diagnostic Ultrasound	NOI	do	To get public opinion on risks of diagnostic ultrasound and appropriate action program	Diagnostic ultrasound equipment is being used widely with little evidence of the degree to which human exposure levels may be harmful, especially to the developing fetus. This notice will announce the potential development of standards and/or recommendations related to the manufacture and use of these devices. The guidance, which is included in the notice, will encourage manufacturers to employ the lowest power levels practicable and will caution against unnecessary exposure to patients and others.	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Nuclear Medicine Quality Assurance of Scintillation Cameras	NOI	do	To minimize radiation exposure while obtaining high quality diagnostic information	Quality assurance procedures, which include quality control procedures, are needed broadly in nuclear medicine to assure maximum benefit from nuclear medical techniques, consistent with obtaining high quality images at minimum cost and minimum radiation dose to the patient. Voluntary recommendations, to be based on BRH technical reports, will be developed in cooperation with representatives of professional, public and private groups that have an interest and knowledge in the field. These recommendations, therefore, would represent a consensus of expert opinion upon which individual practitioners and allied health personnel can rely and would be implemented through educational programs and cooperative activities with professional organizations and State health agencies.	No	do
Recommendations for Diagnostic Examinations	NOI	do	To get public opinion on need and type of action program to narrow range of exposures from diagnostic x-ray procedures	There exists a considerable range in the entrance skin exposure and the resulting organ doses for the same X-ray procedure conducted at different medical facilities and often within the same facility. Radiation exposure recommendations are being investigated that will permit radiologists, radiation protection personnel, and others to evaluate exposure values used in a given facility. Following the analysis of the comments generated by the Notice of Intent, a program decision will be made as to the course of action the Bureau will pursue.	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Recommendation for Routine Chest X-ray Screening for Cardiopulmonary Disease	NOI	do	To get public opinion on need and content of recommendations concerning use of chest x rays in screening programs	The Bureau is evaluating the use of chest X-ray examinations as part of routine screening programs in the detection of cardiopulmonary disease. Numerous studies have shown that routine chest X-ray screening of asymptomatic persons for certain types of pathology is neither efficacious nor cost effective. The Bureau has prepared a preliminary analysis report evaluating the impact of the Department's 1972 Policy Statement on Routine Chest X-ray Screening.	No	do
National Standards for Medical Radiation Technologists	NOI	do	To get public opinion on present credentialing practices and the need for national standards	This Notice of Intent will be published to announce that the Bureau of Radiological Health will be establishing recommended qualifications for medical radiation technologists. The Notice will solicit professional and public input about existing practices of credentialing, the need for uniform national standards, and possible approaches for ensuring that all medical radiation technologists demonstrate a certain level of competence in conducting medical radiation examinations.	No	do
Phototherapy Recommendations	NOI	do	To minimize risks of ultraviolet radiation exposure in treatment of psoriasis	In this Notice, FDA is announcing that radiation safety guidelines are to be developed and proposed for equipment used as a radiation source (in combination with the drug, psoralen) in the photochemotherapy of psoriasis. Psoriasis is a disfiguring, often incapacitating, disease of the skin	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				that affects 1 to 3 pct. of the world's population. Derivatives of the drug psoralen are currently being used, along with an ultraviolet radiation source, to treat this disease.		
Recommendation Advocating Use of Improved X-Ray Intensifying Screens	NPRM	do	Reduction of patient exposure by advocating use of high speed x-ray intensifying screens	Recent advances in the manufacture of X-ray intensifying screens offer the opportunity for significant reductions in X-ray exposure to patients for many radiological examinations. The new generation of phosphor materials could enable the performance of many radiological examinations with exposure reductions of one-half or more over previous imaging systems without loss of image quality. It is proposed to develop an FDA radiation protection recommendation designed to encourage rapid adoption of these imaging systems. Such a recommendation, supplemented by performance data on the new intensifying screens, could provide the incentive for facilities to use these newer imaging systems sooner than otherwise would occur.	No	do
Recommendation for Utilization of Skull Radiography Following Trauma	NOI	do	To get public opinion on need and form of action program to eliminate unnecessary skull radiographs	Literature and several clinical studies support the contention that the number of X-ray examinations of the skull for trauma could be reduced by as much as 40 pct. without adversely affecting the quality of health care. The Bureau has prepared a preliminary analysis of the use of skull radiography following trauma, and is supporting a study to survey several clinical facilities to more adequately	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				define the problem. Data from this study will lead to the development of questions and concepts for recommendations which are expected to be published in a Notice of Intent. Following analysis of the comments generated by the Notice, the program will be reviewed and a decision made concerning its future.		
Advisory Opinions and Recodification	Final Rule	do	Clarification and updating of performance standard for diagnostic x-ray equipment	These amendments will codify various interpretations and advisory opinions under which the Bureau currently operates. In addition, the section on assembly and reassembly of diagnostic X-ray systems and components will be moved from § 1000.16 to § 1020.30(p) in order in incorporate the provisions into the body of the standard.	No	do
Recommendations for State and Local Agencies Concerning Accidental Radioactive Contamination of Human Food and Animal Feeds	NPRM	do	To define levels of dose commitments which necessitate protective actions after a release of radioactive material	The proposed recommendation would consist of Protective Action Guides (PAGs), defined as the projected radiological dose equivalent or dose commitment in individuals in the general population that warrants protective action following a release of radioactive material. The Department of Health, Education, and Welfare was assigned agency responsibility for this task in the FEDERAL REGISTER of December 24, 1975 (40 FR 59494) by the Federal Preparedness Agency, General Services Administration. Within HEW, this function has been delegated to the Commissioner of Food and Drugs.	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Regulatory Standard for Mercury Vapor Lamps	Final Rule	do	To reduce risk of ultraviolet radiation exposure from broken mercury vapor lamps	This Agency has decided to develop a regulatory product safety standard for high intensity mercury vapor discharge lamps. A potential radiation hazard associated with the use of such lamps occure when the outer bulb of the lamp is broken while the inner arc tube of the lamp continues to operate. This results in the emission of hazardous short wavelength ultraviolet radiation. The injury reports received by this Agency further indicate an acute radiation hazard from broken mercury vapor lamps. The standard is intended to reduce the possibility of such injuries by requiring that some performance safety feature be incorporated into the lamp for general lighting purposes so that the lamp will cease operation within a short period of time following the breakage of the outer envelope. Lamps without such a safety feature shall be limited to restricted uses only. Further, adequate information for the safe use of both types of lamps is also required to be provided to the user.	No	do
Amendments to the Performance Standard for Laser Products	Final Rule	do	Clarification and updating of performance standard for laser products	Administration of the laser standard since it became effective on August 2, 1976, indicates that some provisions of the standard may need to be clarified. These changes would reduce, in most cases, the burden on affected manufacturers without compromising the public health. Changes would be made in the measurement provisions, more flexibility would be permitted in	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				labeling, and allowance would be made for the unlikelihood of a potentially dangerous eye exposure to low-level stationary and rapidly scanning laser radiation.		
Regulatory Standard for Microwave Diathermy	NPRM	do	To reduce unnecessary microwave radiation exposure from microwave diathermy equipment	The purpose of this standard is to provide general requirements for microwave diathermy products to assure that to the extent that safety and performance can be controlled, microwave diathermy products are effective for their intended use, and the risk of injury to patient and attending personnel is minimized. The proposed standard includes provisions on minimum microwave radiation output to achieve therapeutic heating, limits on microwave leakage, product interlocks and controls, product performance, labeling, warnings and user instructions, and test requirements.	No	do
Recommendation for X-ray Exposure of Women of Childbearing Age	NPRM	do	To advise physicians on the advisability and methods of minimizing the exposure of pregnant females to diagnostic radiography	The guideline to be proposed will address and explain three particular points in an effort to reduce this risk. It will advise physicians: (a) To ascertain whether their female patients are or could be pregnant, prior to ordering abdominal radiological examinations; (b) to utilize modified or limited studies when possible for female patients who are likely to be or who are definitely pregnant, as a means of reducing fetal exposure; and (c) to use alternative procedures for radiological examinations when appropriate.	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Recommendation for Quality Assurance Programs in Diagnostic Radiology Facilities	Final Rule	do	To reduce unnecessary exposure while improving diagnostic information	The purpose of this publication is to encourage diagnostic radiology facilities to establish their own quality assurance programs with the goals of improving diagnostic image quality and reducing unnecessary patient radiation exposure. The recommendation will also suggest elements which should be included in such programs.	No	do
Amendments to the Diagnostic X-ray Equipment Standard	Final Rule	do	Clarification and updating of performance standard for diagnostic x-ray equipment	Certain of these amendments will codify various interpretations and advisory opinions under which the Bureau currently operates or will clarify the Bureau's intent concerning provisions of the standard. Other amendments concerning spot-film and fluoroscopic X-ray field limitation were proposed in a June 11, 1975, FEDERAL REGISTER Notice of proposed rulemaking (40 FR 24909). As a result of comments received, these latter amendments were withdrawn for further study and are now being reproposed in a modified form.	No	do
Amendments to Diagnostic X-ray Standard Beam Limitation	Final Rule	do	Clarification and updating of performance standard for diagnostic x-ray equipment	These amendments to the diagnostic X-ray standard would revise and simplify the requirements for Positive Beam Limitation (PBL) contained in § 1020.31(e)(2). In addition, provisions for overriding automatic X-ray field adjustment systems on fluoroscopic X-ray equipment will be addressed and a warning label required. The changes in the PBL requirements would allow more flexibility in the	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				conditions under which PBL is required, and should promote more upgrading of old equipment.		
Recommendations or Regulations for Radiation Therapy Equipment	NPRM	do	To improve the use of ionizing radiation therapy through enhanced accuracy of dose delivery	Initiation of a program of quality assurance in therapeutic radiology, principally related to the development of recommendations concerning accurate dose delivery.	No	do
Beam Quality Amendment for Dental X-ray Systems	NPRM	do	Reduction of unnecessary patient exposure in dental radiography	The beam quality amendment for dental X-ray systems would reduce patient exposure resulting from the use of low kilovoltage dental X-ray systems.	No	do
Amendments to the Diagnostic X-Ray Standard Tomographic Systems	NPRM	do	To amend the standard to account for special features of computerized tomographic x-ray systems	Computerized tomographic (CT) x-ray systems are diagnostic x-ray systems which represent a major new technical break-through, not available when the standard was issued. Although some provisions of the standard are appropriate for CT systems, it is recognized that other requirements may not be appropriate for such complex equipment, and that additional requirements may be necessary to assure adequate public health protection.	No	do
Nuclear Medicine Evaluation of Diseases of Thyroid Gland Recommendations	NPRM	do	To lower patient dose in nuclear medicine evaluation of the thyroid gland	Over the past 20 years, increased attention has been drawn to the association between ionizing radiation and the development of nodules and cancer of the thyroid gland. The Bureau is proposing guidance on the need to formulate voluntary recommendations to encourage techniques in nuclear medicine which lower or eliminate patient radiation dose in	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				thyroid studies, without compromising clinical information.		
Suggested State Regulations	Notice of Availability	do	To provide model regulations to State agencies on a wide range of radiation control subjects	State radiation control regulations are essential to effective national protection because they provide protection in areas where Federal agencies have no jurisdiction. The Suggested State Regulations for Control of Radiation was first prepared in 1962 and is periodically updated. A model code, offered through this notice, assists the State in developing their regulation and encourage uniform regulations among States to complement Federal regulations (e.g., in areas beyond certain Federal regulatory authority as in the user area). This is a cooperative project of the Conference of Radiation Control Program Directors (representing the State and local agencies), FDA, and other Federal agencies with responsibilities in radiation control (including the Nuclear Regulatory Commission and the Environmental Protection Agency).	No	do
Regulatory Standard for Sunlamps	Final Rule	do	To minimize ultraviolet radiation exposure related to sunlamps and their use	This standard under development since 1975, is intended to allow continued use of a sunlamp product and yet to minimize the danger of injury. This purpose is achieved through the provisions of safety performance criteria in the standard including the limitation of shorter wavelength emissions, more adequate warnings, requirement of special lamp base and a timer to control the duration of the exposure.	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
Emergency Radiation Dose Limits for Health and Safety of Ambulance Services, Hospital and Other Health Care Personnel	NPRM	do	To provide recommended radiation dose limits for emergency workers	Interagency responsibilities for Radiological Incident Emergency Response Planning, Fixed Facilities and Transportation Accidents published in the FEDERAL REGISTER (FR 59191) stated that HEW is responsible for issuance of guidance on emergency radiation doses related to health and safety of ambulance services, hospital and other health care personnel, in cooperation with EPA. The guidance will establish dose limits for emergency medical personnel for planned and unplanned lifesaving actions during the transportation and treatment of persons contaminated with radioactivity. Recommendations will be based on a review of national and international standards relevant to this matter. They will be consistent with present radiation risk and effects information and based on the principle of avoiding unnecessary radiation exposure when possible and that any radiation exposure should be balanced by commensurate benefit.	No	do
Recommendations for Post-Treatment Dental Radiographs	NPRM	do	To reduce the use of dental radiography for non-diagnostic purposes	A practice which appears to be on the increase is the requirement for post-treatment dental radiographs by third party carriers as evidence of dental treatment. Proper justification for the application of radiation to humans requires that there be some potential benefit to the individual receiving the examination. Post-treatment radiographs, however, are not always needed for patient management. It is likely that this	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
				project will culminate in recommendations stating that post-treatment radiographs should not be taken merely as evidence of treatment.		
Recommendations on Radioluminous Timepieces	NPRM	do	To reduce radiation exposure from radioluminous timepieces	Over the past several decades, radium has been used extensively as the luminizing activator in the paint used on the hands and dials of timepieces available to the consumer public. More recently, tritium and promethium-147 have also come into use for this purpose. Radium constitutes a source of unnecessary radiation exposure that could be significantly reduced or avoided by the use of radionuclides emitting lower energy radiations. The proposed recommendations are directed to the State's radiation control program directors and include the efficacy of the luminescence, the occupational exposure parameters, the dose commitment to the individual and population, alternatives to the use of radium, and radiation warning labeling. Because of the responsibilities of other Federal agencies in this area, involvement in the review and development of these recommendations would also include the Nuclear Regulatory Commission, Consumer Product Safety Commission, U.S. Customs, and the Department of Transportation.	No	do
Policy on Assembly and Reassembly of Diagnostic	NPRM	do	To minimize undesirable economic effects of present policy without	This amendment would revoke or extend the effective date of 21 CFR 1000.16(d) which presently requires that only certified components be	No	do

Title of Regulation	Stage of Development	Statutory Authority	Need to Regulate	Description	Regulatory Analysis	Contact Person
X-Ray Systems			adversely affecting the public health	installed into diagnostic x-ray systems which are sold and reassembled after August 1, 1979.		
Radiation Therapy Simulators	NPRM	do	Revision of the performance standard for diagnostic x-ray equipment to account for the special features of radiation therapy simulators	These amendments will codify various interpretations, advisory opinions and variance criteria with respect to radiation therapy simulator systems. They will also bring the standard up to date with new equipment and current usage and practices.	No	do
Microwave Ovens	NPRM	do	To codify various compliance policies as part of the performance standard for microwave ovens	The purpose of this amendment is to bring the language of the performance standard for microwave ovens into conformity with current compliance policy. The specific measuring instrument accuracy would be replaced with a requirement to account for all measurement uncertainties in making compliance measurements.	No	do

DEPARTMENT OF THE INTERIOR

Office of the Secretary

EMPLOYEE RESPONSIBILITIES AND CONDUCT

Final Rules; Revisions and Miscellaneous Amendments

[4310-10-M]

Title 43—Public Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 20—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Revision and Miscellaneous Amendments

AGENCY: Office of the Secretary of the Interior, U.S. Department of the Interior.

ACTION: Final rules.

SUMMARY: Department of the Interior regulations governing the conduct and responsibilities of regular and special employees of the Department are hereby revised and amended. This revision and amendment involves changes to update organizational position and office titles; deletions to revoke regulations which applied to the Mining Enforcement and Safety Administration; addition of public disclosure requirements imposed by the Outer Continental Shelf Lands Act Amendments (Pub. L. 95-372); addition, by reference, of regulations governing restrictions of financial interests under the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95-87); and amendments to Appendices B, C, D, E, and F to this part.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. William L. Kendig, Acting Department Ethics Counselor, U.S. Department of the Interior, Washington, D.C. 20240.

SUPPLEMENTARY INFORMATION:

I. BACKGROUND

This part is being partially revised and amended to provide Department of the Interior employees with more complete and correct rules for the financial interest statement filings due on February 1, 1979. Later in 1979 this entire part will be completely revised in order to comply with the Ethics in Government Act of 1978 (Pub. L. 95-521). The complete revision of this part will be based on guideline regulations issued by the new Office of Government Ethics under Section 207 of Pub. L. 95-521. Because the guideline regulations will not be ready in time for us to meet our February 1, 1979 annual filing date, and because of new provisions contained in Section 605 of the Outer Continental Shelf Lands Act Amendments of 1978 (Pub. L. 95-372) it is necessary for us to partially revise portions of our existing regulations.

II. REVISIONS

Fifteen changes are being made in 43 CFR Part 20. The changes are presented consecutively in Table of Sections order.

Pub. L. 95-372, Section 605, requires the Secretary of the Interior to establish methods for the filing of written financial statements by officers and employees performing functions or duties under the Outer Continental Shelf Lands Act as amended. Changes numbered 3, 6, 9, and 11 satisfy this legislative requirement. Appendix G is added to these regulations to identify bureaus and offices of the Department, or subunits thereof, performing functions or duties under the Outer Continental Shelf Lands Act, as amended, and to list positions within such bureaus, offices and subunits that have been specifically exempted by the Secretary from the public disclosure requirements of the Act because the positions are nonregulatory and nonpolicymaking.

Section 201(f) of the Surface Mining Control and Reclamation Act (Pub. L. 95-87) places financial restrictions on employees performing duties under the Act. Regulations implementing these restrictions were published in the FEDERAL REGISTER as final rules on October 20, 1977 (42 FR 56066-56069). Changes 4 and 9 make these regulations part of our total employee conduct provisions by reference and by statutory citation respectively.

Effective in March 1978 the Mining Enforcement and Safety Administration was transferred from the Department of the Interior to the Department of Labor. Changes 5 and 10 revoke specific prohibitions relating to this office.

Changes 5 also excepts Office of Water Research and Technology employees from specific prohibitions extended by regulation to Office of the Secretary organizations. This exception is adopted because of the specific program functions conducted by the Office and because employees of the Office are not directly responsible for substantially affecting or setting Departmentwide policies.

Change number 8 moves one paragraph of general provisions for clarity of understanding. The remaining changes (1, 2, 7, 12, 13, 14 and 15) update pertinent office names, position titles and lists of positions required to file special financial interest statements.

Because Part 20 consists of rules of agency organization, procedure and practice, adoption of the revised Part 20 through the rulemaking procedure prescribed in 5 U.S.C. 553 is not required and the revised Part 20 is accordingly adopted without resort to that procedure. In accordance with the policy expressed in 5 U.S.C. 553 and the Department's policy on rulemaking procedures, interested persons may, however, submit written comments, suggestions, data or arguments concerning the revised Part 20 to the Inspector General, U.S. Department of the Interior, Washington, D.C. 20240. All such comments received will be given full consideration.

The primary authors of this revision are Gabe Paone and Andrew Fedors of the Department Ethics Counselor's staff in coordination with William Holeman, John Trezise and Paula Goldberg of the Solicitor's Office.

NOTE.—The Department of the Interior has determined that this rule is not a significant rule under E.O. 12044.

Dated: January 15, 1979.

JAMES A. JOSEPH,
Under Secretary of the Interior.

AUTHORITY: The provisions of this revision to Part 20 are issued under E.O. 11222 of May 8, 1965, 30 FR 6469, 3 CFR 1964—1965, Comp.; 5 CFR 735.104; 5 U.S.C. 301; Pub. L. 94-163; Pub. L. 94-429; Pub. L. 94-579; Pub. L. 95-87, Pub. L. 95-372.

43 CFR Part 20 is revised as follows:

1. The Table of Sections to 43 CFR Part 20 is amended by adding reference to recent and new additions as follows:

Sec.

• • • • • •

20.735-17 Specific regulations under the Outer Continental Shelf Lands Act Amendments of 1978

• • • • • •

Appendix B-6 Public Disclosure Statement of Known Financial Interests (Outer Continental Shelf Lands Act Amendments of 1978—Form DI-211C)

• • • • • •

Appendix G—List of Bureaus and Offices, or Subunits Thereof, Performing Functions or Duties Under the Outer Continental Shelf Lands Act Amendments of 1978 and Positions Which the Secretary has Determined to be Exempt From Reporting Requirements of Section 605.

2. The entire 43 CFR Part 20 is amended by changing office and position title references throughout the part as follows:

(1) Assistant Secretary—Administration and Management is revised to read Assistant Secretary—Policy, Budget and Administration.

(2) Director, Office of Audit and Investigation is revised to read Inspector General.

(3) Office of Audit and Investigation is revised to read Office of Inspector General.

(4) In addition, § 20.735-22(c)(2) is amended by revoking the clause:

• • • • •

"the Governor and Secretary of American Samoa; * * *

• • • • •

3. Section 20.735-11 is amended by adding requirements under Section 605 of the Outer Continental Shelf Lands Act Amendments of 1978 as a new paragraph (g) as follows:

§ 20.735-11 Scope of subpart.

• • • • •

(g) Outer Continental Shelf Lands Act Amendments of 1978 requirements. Section 605(a) of the Amendments, 43 U.S.C. 1864, requires each officer or employee of the Department who performs any function or duty under the Outer Continental Shelf Lands Act, as amended, to file annually with the Secretary a written statement disclosing all such interests held during the preceding calendar year. Such statement is subject to examination and is available for copying by the public upon request. Subsection 605(c) provides that specific positions or classes thereof which are nonregulatory and nonpolicymaking may be identified and officers or employees occupying such positions shall be exempted from the requirements of section 605. Subsection 605(d) provides that any officer or employee who is subject to, and knowingly violates section 605(a) shall be fined not more than $2,500 or imprisoned not more than one year, or both. Section 20.735-17 implements the statutory requirements of section 605 of the Outer Continental Shelf Lands Act Amendments of 1978.

4. Section 20.735-12 is amended by adding paragraph (c) as follows:

§ 20.735-12 Statutory prohibitions.

• • • • •

(c) Section 201(f) of the Surface Mining Control and Reclamation Act, Pub. L. 95-87, 91 Stat. 450, requires that: No employee of the Office or any other Federal employee performing any function or duty under this Act shall have a direct or indirect financial interest in underground or surface coal mining operations. Whoever knowingly violates the provisions of the above sentence shall, upon conviction, be punished by a fine of not more than $2,500, or by imprisonment for not more than one year, or both.

For purposes of this Act, "Office" means Office of Surface Mining Reclamation and Enforcement. Provisions implementing Section 201(f), Pub. L. 95-87, are contained in 30 CFR Part 706 and are incorporated here by reference. Therefore, if you are an employee of the Office or a Federal employee who performs any function or duty under the Act, you are required to comply with 30 CFR Part 706. Compliance with the filing requirements established by the Act and 30 CFR Part 706 satisfies the requirements for other confidential financial reporting under 43 CFR 20.735-22.

§ 20.735-13 [Amended]

5. Section 20.735-13 is amended by revoking and reserving paragraph (a) and revising paragraph (c) as follows:

(a) [Reserved]

• • • • •

(c) Office of the Secretary: The statutory restrictions quoted in § 20.735-12(b) shall also apply to the employees of the Office of the Secretary and other organizational entities reporting directly to the Secretarial officer who are required to file a statement of employment and financial interests under § 20.735-22. Employees in the Office of Water Research and Technology are exempted from the statutory prohibitions in § 20.735-12(b). The Secretary of the Interior may authorize other exceptions to this restriction for individual employees or a class of employees for cause.

6. Section 20.735-17 is added as follows:

§ 20.735-17 Specific regulations under the Outer Continental Shelf Lands Act Amendments of 1978.

(a) *Definitions.* (1) "Act as amended" means the Outer Continental Shelf Lands Act, 43 U.S.C. 1331 *et seq.*, 67 Stat. 462, as amended by the Outer Continental Shelf Lands Act Amendments of 1978, Pub. L. 95-372, September 18, 1978.

(2) "Covered employee" means an officer or employee of the Department of the Interior performing a function or duty under the Act as amended, whose position has not been exempted by the Secretary of the Interior from the reporting requirements of section 605 of Pub. L. 95-372.

(3) "Person" means an individual, corporation, partnership, association, consortium, company, firm, society, trust, joint venture, joint stock company, or any entity organized for a common business purpose, wherever situated, domiciled, or doing business.

(4) "Outer Continental Shelf" means all submerged lands lying seaward and outside of the area of lands beneath navigable waters as defined in 43 U.S.C. 1301, and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control.

(5) "Minerals" means oil, gas, sulphur, geopressured-geothermal and associated resources, and all other minerals which are authorized by an Act of Congress to be produced from "public lands".

(6) "Engaged in business subject to the Act as amended" means the conduct of any business involving the exploration for or the development or production of, minerals of the Outer Continental Shelf. A parent company or holding company is "engaged in business subject to the Act as amended" if one or more of its subsidiaries is "engaged in business subject to the Act as amended". A mutual fund or investment club is within the definition if it specializes in a business or businesses involved in the exploration for or the development or production of, minerals of the Outer Continental Shelf.

(7) "Pecuniary interest" means any monetary or financial interest (whether owned directly by a covered employee or held for the employee's benefit by a trustee), including, but not limited to (i) the ownership of common stock, preferred stock, bonds, debentures, warrants or a partnership share, (ii) a leasehold, rental permit, license, right of way, or contract, or (iii) a pension or retirement plan, shared income or other arrangement as a result of current or prior employment or professional association.

(8) "Known Financial Interest" means any pecuniary interest in any person who you know or could reasonably be expected to know (i) is applying for or has received any permits or leases authorizing exploration for or the development or production of, minerals of the Outer Continental Shelf or (ii) is otherwise engaged in any business subject to the Act as amended.

(b) *Who Shall File.* (1) The Act as amended applies to all officers and employees of the Department who perform functions or duties under it. All such officers and employees must file a public disclosure statement unless they occupy a position which has been specifically exempted by the Secretary of the Interior from reporting requirements of section 605 of the Act as amended or are no longer employed by the Department at the time a filing is due.

(2) Appendix G to this part lists the bureaus and offices of the Department, or subunits thereof, performing functions or duties under the Act as amended and also lists positions which the Secretary has determined are of a nonregulatory and nonpolicymaking nature and has exempted from the reporting requirements of section 605 of the Act as amended.

(3) The head of each affected bureau or office will annually review

and update the related portion of Appendix G to this part. Proposed revisions or a certification that revision is not required shall be submitted to the Department Ethics Counselor by no later than October 31 of each year. The Secretary may revise Appendix G by the addition or deletion of positions at any time he determines such revisions are required to carry out the purpose of the law or the regulations of this part. Additions to, deletions from and other amendments of the list of positions in Appendix G are effective upon notification to the incumbents or publication in the FEDERAL REGISTER.

(c) *When to File.* Each covered employee required to file a public disclosure statement shall file such a statement on form DI-211C (See Appendix B-6). The Ethics Counselor shall notify each such employee, and furnish the form to the employee by December 15 of each year. The employee shall file a completed statement with the appropriate ethics counselor no later than February 1 of each year showing applicable holdings and interests for the previous calendar year.

(d) *Where to File.* The Secretary shall file his statement with the Department Ethics Counselor. All other covered employees shall file their statements as provided in § 20.735-22(c) for form DI-212 (Statement of Employment and Financial Interests).

(e) *What to Report.* (1) Covered employees will report all information required on form DI-211C (Appendix B-6). An employee is not required to report: (i) Holdings owned by his/her spouse or children. (ii) Holdings acquired by trustee for blind trust. Covered employees who are beneficiaries of blind trusts are required to disclose only interests that are initially committed to the blind trust, not of interests thereafter acquired by the trustee of which the employee or officer has no actual knowledge.

(2) Covered employees having no known financial interests to report shall file a Form DI-211C indicating thereon where appropriate, "None".

(f) *Procedure.* (1) Review and analysis of statements. The head of each affected bureau or office will annually review and update Appendix G in accordance with paragraph (b) of this section. After the employee files a statement pursuant to paragraphs (b), (c), (d), and (e) of this section, review and analysis of the statement shall be pursuant to § 20.735-23, insofar as what is provided there is not inconsistent with the provisions of this § 20.735-17.

(2) Procedures for remedial action shall be pursuant to § 20.735-24 insofar as what is provided there is not inconsistent with the provisions of this § 20.735-17.

(3) Appeals procedures shall be pursuant to § 20.735-25, insofar as what is provided there is not inconsistent with the provisions of this § 20.735-17.

(4) The annual report required by section 605(b)(2) of the Act as amended shall be prepared under the supervision of the Department Ethics Counselor for submission to the Congress by June 1.

(g) *Public Access to and Copying of Statements: Fees.* (1) Form DI-211C shall be available for review or copying at those offices where employees are required to file pursuant to § 20.735-22(c). Within 30 days after receipt (by March 1) the DI-211C forms will be available to the public centrally at the Department Library, 18th and C Streets, N.W., Washington, D.C. 20240.

(2) The fee schedule for services performed in obtaining or copying a statement is set forth in 43 CFR Part 2, Appendix A, which is applicable to this regulation.

7. Section 20.735-31 is amended by adding paragraph (b) as follows:

§ 20.735-31 Scope of subpart.

• • • • •

(b) *Actions to be avoided.* An employee shall avoid any action, whether or not specifically prohibited by this subpart, which might result in, or create the appearance of:

(1) Using public office for private gain;

(2) Giving preferential treatment to any person;

(3) Impeding Government efficiency or economy;

(4) Losing complete independence or impartiality;

(5) Making a Government decision outside official channels; or

(6) Affecting adversely the confidence of the public in the integrity of the Government.

8. Section 20.735-32 is amended as follows:

Paragraph (d) is vacated (transferred to § 20.735-31) and reserved.

§ 20.735-32 Gifts, entertainment, and favors.

• • • • •

(d) [Reserved]

• • • • •

9. Section 20.735-51 is amended by adding items (22) and (23) to paragraph (a) as follows:

§ 20.735-51 Miscellaneous statutory provisions and restrictions.

• • • • •

(a) • • •

(22) The requirement that each employee of the Office of Surface Mining Reclamation and Enforcement or any other Federal employee performing any function or duty under Pub. L. 95-87, 91 Stat. 445, file a written statement disclosing any direct or indirect financial interest in underground or surface coal mining operations.

(23) The requirement that each officer or employee of the Department of the Interior performing a function or duty under the Outer Continental Shelf Lands Act, as amended, file a written statement disclosing known financial interest in any person who applies for or receives any permit or lease under, or is otherwise subject to the provisions of that Act.

• • • • •

Appendix A-5 [Reserved]

10. Appendix A to 43 CFR 20.735 is amended by revoking Appendix A-5 as follows:

• • • • •

Appendix A-5 is reserved.

• • • • •

11. Appendix B to 43 CFR 20.735 is amended by adding Appendix B-6 as follows:

• • • • •

[4310-10-C]

Form DI-211C Form DI-211C

UNITED STATES DEPARTMENT OF THE INTERIOR
PUBLIC DISCLOSURE STATEMENT OF KNOWN FINANCIAL INTERESTS
(Outer Continental Shelf Lands Act Amendments of 1978, Sec. 605, P.L. 95-372)

TYPE OR PRINT

1. NAME (Last, First, Initial)	2. TITLE OF POSITION
3. CALENDAR YEAR	4. BUREAU AND OFFICE

KNOWN FINANCIAL INTERESTS:
You must report any pecuniary interest in any person whom you know or could reasonably be expected to know (1) is applying for or has received any permits or leases authorizing exploration for or the development or production of, minerals of the Outer Continental Shelf or (2) is otherwise engaged in any business subject to the Act as amended. You are under an obligation to exercise diligence in determining whether companies or other business entities in which you own interests fall in this category. Include all interests held at any time during the previous calendar year. If as of the reporting date an interest is no longer held, so indicate. If no such interests were held, write "NONE". SEE INSTRUCTIONS AND DEFINITIONS ON REVERSE.

Name and Kind of Business	Address	Nature of Known Financial Interests

Privacy Act Notice:
Subsection 605(a) of P.L. 95-372 provides for filing a statement disclosing all known financial interests. Subsection (d) provides that any officer or employee who is subject to, and knowingly violates subsection (a) shall be fined not more than $2,500 or imprisoned not more than one year, or both.

I am aware of the provisions of the law and regulations which require the filing of this statement and that such statement shall be subject to examination and available for copying by the public upon request and subject to review by the designated Ethics Counselor in accordance with the Departmental conflict of interest regulations (43 CFR 20.735 Subpart B). As such the contents may be routinely disclosed to authorized auditors, the Civil Service Commission, the Department of Justice and to appropriate law enforcement agencies.

I certify that the statements I have made are true, complete, and correct to the best of my knowledge and belief.

UNITED STATES DEPARTMENT OF THE INTERIOR
PUBLIC DISCLOSURE STATEMENT OF KNOWN FINANCIAL INTERESTS
(Outer Continental Shelf Lands Act Amendments of 1978, Sec. 605, P.L. 95-372)

INSTRUCTIONS

1. TYPE OR PRINT.

2. All "Covered employees" shall complete this form in accordance with 43 CFR 20.735-17.

3. You may exclude from this form any holdings owned solely by your spouse, minor child, or other relative residing in your home. This exclusion applies only to public disclosure statements and not to the regular confidential financial disclosure statements (form DI-212 or DI-212A). You are cautioned that such holdings (spouse, minor children, etc.) are subject to the regular conflict of interest statutes, Executive Order, and Departmental regulations.

4. You may also exclude holdings in mutual funds, holding companies, banks, savings and loan associations, investment clubs or regulated investment companies which do not specialize in any person or business subject to the Act as amended.

5. With respect to a blind trust, you are only required to disclose holdings of which you have actual knowledge; for example, those holdings initially committed to the blind trust, if subject to the provisions of the Act as amended must be disclosed.

6. Signed statements shall be sent to and reviewed by your appropriate Ethics Counselor. Please retain a copy.

DEFINITIONS

"Act as amended" means the Outer Continental Shelf Lands Act 43 U.S.C. 1331 et. seq. 67 Stat. 462 as amended by the Outer Continental Shelf Lands Act Amendments of 1978, Pub. Law 95-372, September 18, 1978.

"Covered employee" means an officer or employee of the Department of the Interior performing a function or duty under the Act as amended whose position has not been exempted by the Secretary of the Interior from the reporting requirements of Section 605 of P.L. 95-372.

"Person" means an individual, corporation, partnership, association, consortium, company, firm, society, trust, joint venture, joint stock company, or any entity organized for a common business purpose, wherever situated, domiciled, or doing business.

"Outer Continental Shelf" means all submerged lands lying seaward and outside of the area of lands beneath navigable waters as defined in 43 U.S.C. section 1301, and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control.

"Minerals" means oil, gas, sulphur, geopressured - geothermal and associated resources, and all other minerals which are authorized by an Act of Congress to be produced from "public lands".

"Engaged in business subject to the Act as amended" means the conduct of any business involving the exploration for or the development or production of, minerals of the Outer Continental Shelf. A parent company or holding company is "engaged in business subject to the Act as amended" if one or more of its subsidiaries is "engaged in business subject to the Act as amended". A mutual fund or investment club is within the definition if it specializes in a business or businesses involved in the exploration for or the development or production of, minerals of the Outer Continental Shelf.

"Pecuniary interest" means any monetary or financial interest (whether owned directly by a covered employee or held for the employee's benefit by a trustee), including, but not limited to (i) the ownership of common stock, preferred stock, bonds, debentures, warrants or a partnership share, (ii) a leasehold, rental, permit, license, right of way, or contract, or (iii) a pension or retirement plan, shared income or other arrangement as a result of current or prior employment or professional association.

12. Appendix C to 43 CFR 20.735 as published in 43 FR 1072-1086—Friday, January 6, 1978, is amended for those bureaus, offices or subunits having changes to update the list of positions in addition to GS-15's and higher, who are required by Executive Order 11222 and by 43 CFR 20.735-22 to file a Confidential Statement of Employment and Financial Interests. Lists of positions for some of the bureaus, offices or subunits having changes are completely revised and others are amended by additions and deletions. Bureau, office, and subunit lists not revised or amended remain the same. The revisions and amendments to Appendix C are as follows:

APPENDIX C—LIST OF EMPLOYEES, IN ADDITION TO GS-15'S AND HIGHER, REQUIRED TO FILE CONFIDENTIAL STATEMENTS OF EMPLOYMENT AND FINANCIAL INTERESTS

[10 CFR Parts 205 and 210]

[Docket No. ERA-R-79-2]

ADMINISTRATIVE PROCEDURES AND SANCTIONS SUBPOENAS, SPECIAL REPORT ORDERS, AND INVESTIGATIONS

Proposed Rulemaking and Public Hearing

AGENCY: Economic Regulatory Administration. Department of Energy.

ACTION: Notice of proposed rulemaking and public hearing.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of a proposal to amend provisions of 10 CFR Part 205 concerning subpoenas and investigations. ERA also proposes to modify its regulations concerning special report Orders (SRO) currently found at 10 CFR 210.91 and consolidate them with the subpoena regulations in Part 205. The proposed amendments would be applicable to Parts 207, 209 through 214 of Title 10 of the Code of Federal Regulations. The proposed amendments set forth in detail the law enforcement authority of ERA, which is granted under existing statute and which ERA and its predecessors have exercised. In addition, the proposed amendments are designed to streamline the administrative procedures applicable to the issuance, enforcement. And administrative review of subpoenas and SRO's. ERA believes that the proposed amendments will enable it to carry out more effectively its responsibility to enforce the Emergency Petroleum Allocation Act of 1973 (EPAA) and the Mandatory Petroleum Price and Allocation Regulations issued under EPAA.

DATES: Written comments by March 21, 1979, 4:30 p.m. e.s.t. Requests to speak by January 31, 1979, 4:30 p.m. Public Hearing: February 15, 1979, 9:30 a.m.

ADDRESSES: All comments to Office of Public Hearing Management, Docket No. ERA-R-79-2 Department of Energy, Room, 2313, 2000 M Street, N.W., Washington, D.C. 20461. Public Hearing: Economic Regulatory Administration, Room 2105, 200 M Street, NW., Washington, D.C. 20461.

SUPPLEMENTARY INFORMATION:

I. Background
II. Proposed Amendments
A. Subpoenas and SRO's
1. Review
2. Other Amendments
B. Investigations
III. Comment Procedures
IV. Other Matters

I. Background

The procedures which govern the issuance of subpoenas relating to the petroleum price and allocation regulations are found at 10 CFR 205.8; procedures governing the issuance of SRO's are found at 10 CFR 210.91; and procedures relating to ERA investigations are found at 10 CFR 205.201.

The provisions relating to subpoenas and SRO's provide for a complex procedure for administrative review of these documents. An application to quash or modify a subpoena or SRO first is directed to the issuing DOE official. Then, within 10 days of an adverse decision by that official, a second application may be made to the Regional Administrator for the issuing region, or the Assistant Administrator, or the Director of the issuing office in case of a subpoena or SRO issued by the National Office. Finally, if the application to quash or modify the subpoena or SRO is denied in any part by the reviewing official, an application for relief may be filed within 10 days with the Office of Private Grievances and Redress. Further, a subpoena or SRO is reviewable by a United States District Court.

ERA's enforcement experience has led to the tentative conclusion that the existing provisions for review of subpoenas and SRO's are unduly cumbersome and unnecessarily impede ERA's efforts to carry out its enforcement responsibilities under the EPAA. Accordingly, we propose to amend the regulations to streamline the procedures applicable to the issuance and review of subpoenas and SRO's. In addition, since subpoenas and SRO's are related enforcement tools and the procedures as to both have been identical in many respects, it is considered desirable to combine the procedures for both in one regulatory provision.

We have also tentatively concluded that amendments to the rules regarding investigation procedures also are desirable in order to improve DOE's efficiency in carrying out its enforcement responsibilities.

II. Proposed Amendments

A. Subpoenas and SRO's

1. *Review.* The amendments proposed today eliminate some of the procedures for administrative review of subpoenas and SRO's, which are unduly duplicative and impede expeditious judicial review of subpoenas and SRO's under the EPAA and the petroleum price and allocation regulations.

The proposed amendments replace the current three levels of DOE review with a single level of review. There is no administrative appeal of a subpoena or SRO.

Under the proposal, a person served with a subpoena or SRO, may file a request for review of the document with the official who issued the subpoena or SRO prior to the time specified for compliance, but no more than 10 days after the date of service. The issuing official in turn forwards the request to his supervisor. The supervisor is required to inform the person requesting review of receipt of the request. If the SRO or subpoena is not rescinded or modified within 10 days of notification by the supervisor, the subpoena or SRO is effective as issued.

2. *Other amendments.* The proposed amendments set forth the procedures for issuance of subpoenas and SRO's and the authority of issuing officials, and would promote full compliance with subpoenas and SRO's.

Under the proposal, a person who issues a subpoena or SRO is referred to as a "DOE Official." The term includes the Secretary of DOE, the Administrator of ERA, the Administrator of Energy Information Administration, the General Counsel of DOE, the Special Counsel for Compliance, the Director of the Office of Hearings and Appeals, any person authorized to issue a subpoena or SRO under the proposed amendments, or the authorized agent of any of the foregoing, who issued a subpoena or SRO. The term "DOE Official" includes the Administrator of Energy Information Administration since by virtue of Part 207 and existing statutes he is authorized to issue subpoenas under this section. A DOE Official is authorized to sign, issue and serve subpoenas; adminster oaths and affirmations; take sworn testimony; compel attendance of and sequester witnesses; control dissemination of any record of testimony taken pursuant to amended § 205.8; subpoena and reproduce books, papers, correspondence, memoranda, contracts, agreements, or other relevant records or tangible evidence including, but not limited to, information retained in computerized or other automated systems. A DOE Official also is authorized to issue a Special Report Order requiring any person subject to the jurisdiction of the ERA to file a special report, including but not limited to written answers to specific questions. Under the proposed amendments an SRO may be issued in addition to other reports required by DOE.

The proposed amendments set forth detailed procedures for the taking of testimony pursuant to a subpoena. Under the proposal, the DOE Official is authorized and required to take all necessary action to regulate the giving of testimony and to avoid unnecessary delay and prevent or restrain contemptuous or obstructionist conduct or contemptuous language.

Further, the DOE Official determines whether to record testimony and the means for recording testimony. A witness is permitted to obtain a copy of his testimony, if recorded, upon request, unless the DOE Official denied the request for good cause. Upon proper identification, any witness or his attorney has the right to inspect the official transcript of the witness' own testimony.

In addition, the DOE Official is empowered to sequester any person subpoenaed to furnish documents or give testimony. Neither a witness nor his attorney is permitted to be present during the examination of another witness, unless permitted by the DOE Official.

The proposed amendments set forth the manner in which a witness is permitted to be accompanied, represented and advised by his attorney. The witness and his attorney are permitted to confer privately on any question asked. The witness or his attorney is required to state briefly the legal grounds for any refusal to answer a question. However, if the witness refuses to answer a question on the grounds of the constitutional privilege against self-incrimination, the witness is required to assert the privilege personally.

To promote full compliance with subpoenas and SRO's, proposed § 205.8 requires documents produced in response to a subpoena and information furnished in response to an SRO to be accompanied by a sworn certification under penalty of perjury by the person to whom the subpoena or SRO is directed. In the case of a subpoena, the person is required to certify that a diligent search had been made for all responsive documents and that each responsive document is being produced unless withheld on the ground of privilege. A person to whom an SRO is directed, or an authorized agent of the person who actually provides the information is required to certify that a diligent effort had been made to provide all information required by the SRO and that all information furnished was true, complete, and correct unless withheld on the ground of privilege. If any document responsive to a subpoena is not produced or any information required by an SRO is not furnished, the certification is required to include a statement setting forth all reasons for failing to comply with the subpoena or SRO.

The proposed amendments include a provision concerning withholding of documents on the ground of the attorney-client privilege or any other privilege. The person submitting the certification described above is required to submit a written list describing each document or the information withheld, a description of the document, the date of the document, each person shown on the document as having received a copy, each person shown on the document as having prepared or been sent the document, the privilege relied upon as the basis for withholding the document or information, and an identification of the person whose privilege is being asserted.

The proposed amendments provide that, upon written request, any person served with a subpoena or SRO shall be notified as to the general purpose for which any testimony, information or documentary material is sought.

Under the proposed amendment, an action may be commenced in the United States District Court to enforce a subpoena or SRO if any person upon whom the subpoena or SRO was served refuses or fails to comply with any provision of the subpoena or SRO.

Proposed § 205.8 includes provisions with respect to service of subpoenas and SRO's and payment of witness fees and mileage. The proposed provisions are substantially the same as those of the current § 205.8. However, under the proposed amendment, the existing requirement that service of a subpoena must include tendering of one day's witness fees and mileage is omitted.

B. Investigations

We are proposing to amend 10 CFR 205.201 relating to procedures in DOE investigations. The proposed amendments set forth in detail DOE's investigatory procedures as authorized by existing statutes and modify certain procedures to enhance DOE's efficiency in carrying out its enforcement responsibilities.

In accordance with current practice under Part 205, Subpart N, a new provision expressly permits any person to request DOE to initiate an investigation. Under these simplified procedures, however, no particular forms or procedures are required to initiate such a request. A request for an investigation is required only to set forth the subject matter to be investigated as fully as possible and include supporting documentation and information. In light of this new provision, the duplicative and somewhat complex procedures of Subpart N relating to the filing of complaints are proposed for deletion.

Another proposed new provision expressly sets forth the well-established principle that there are no parties, as that term is used in adjudicative proceedings, in a DOE investigation. Similarly, the proposed rule also provides in this regard that no person may intervene or participate in an investigation as a matter of right.

The proposed amendment also includes new provisions which amplify current provisions as to disclosure of information or documents obtained during an investigation. Under the proposed regulation, DOE is not permitted to disclose such information or documents unless: (1) DOE directs or authorizes the public disclosure of the investigation; (2) the information or documents have been made a matter of public record; or (3) disclosure is required by the Freedom of Information Act, 5 U.S.C 552. A request for confidential treatment of information for purposes of that act does not prevent disclosure by DOE if in the public interest and otherwise permitted by law.

The proposed section permits any person to submit any document, statement of facts or memorandum of law for the purpose of explaining the person's position or furnish evidence which the person considers relevant to a matter under investigation. A person is permitted to submit any statement of facts, memorandum of law, and evidence at any time during an investigation.

The proposed amendment modifies existing § 205.201(c) to provide that the DOE, upon written request, shall notify any person who is under investigation by the DOE and who is requested to furnish information or documentary evidence of the general purpose of the investigation.

The proposed amendment clarifies the provision concerning the authority of DOE investigators. The proposed amendment expressly authorizes any duly designated and authorized representative of DOE to take such action as he deems necessary and appropriate to the conduct of an investigation, including any action pursuant to § 205.8.

The proposed amendment deletes the existing provision of § 205.201(a) which expressly declares that DOE encourages voluntary cooperation with its investigations. Although DOE intends to retain its current policy of welcoming voluntary cooperation, it will not permit enforcement proceedings to be overly delayed by prolonged efforts to obtain voluntary cooperation.

III. COMMENT PROCEDURES

A. WRITTEN COMMENTS

You are invited to participate in this proceeding by submitting data, views or arguments with respect to the issues set forth in this Notice. Comments should be submitted to the address indicated in the "ADDRESSES" section of the Notice and should be identified on the outside envelope and on documents submitted with the designation "Subpoenas, SRO's and Investigations, Docket No. ERA-R-79-2". You should submit 15 copies. All comments received will be available for public inspection in the DOE Reading Room GA-152, James Forrestal Building, 1000 Independence Avenue S.W., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. We will consider all comments received by March 21, 1979, 4:30 p.m.

You should identify separately any information or data you consider to be confidential and submit them in writing, one copy only. We reserve the right to determine the confidential status of the information or data and to treat them according to our determination.

B. PUBLIC HEARING

Although it has been determined that opportunity for public hearing is not required by Section 501 of the Department of Energy Organization Act, a public hearing as described below will be held to facilitate full development of the proposed regulations.

1. *Requesting opportunity for oral statement.* The times and places for the hearing are indicated in the "DATES" and "ADDRESSES" sections of this notice. If necessary to present all testimony, the hearing will be continued to 9:30 a.m. of the first business day following the date therefor shown above.

You may make a written request for an opportunity to make an oral presentation at the hearing. You should be prepared to describe the interest concerned; if appropriate, to state why you are a proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where you may be contacted through the day before the hearing.

If you are selected to be heard, you will be so notified before 4:30 p.m., February 2, 1979, and must submit 100 copies of your statement before 4:30 p.m., February 15, 1979. Statements for the public hearing should be sent to the Office of Public Hearings Management, Economic Regulatory Administration, Room 2313, Docket No. ERA-R-79-2, 2000 M Street N.W., Washington, D.C. 20461.

2. *Conduct of the hearing.* We reserve the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An ERA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Questions to be asked of any person making a statement at the hearing may be submitted to the Office of Public Hearings Management at the above address before 4:30 p.m., February 14, 1979. You may also submit any questions, in writing, to the presiding officer at the time of the hearing. The ERA or, if the question is submitted at the hearing, the presiding officer will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing, including the transcripts, will be retained and made available for inspection at the DOE Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. You may purchase copies of the transcripts from the reporters.

IV. OTHER MATTERS

Since the proposed regulation is not a regulation affecting the quality of the environment, the provisions of Section 7(a) (1) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, have been determined to be inapplicable to this proposal.

We have determined that this proposal will not have a major impact as that term is defined in DOE Order 2030 signed December 18, 1978 (44 F.R. 1040) (January 3, 1979) to implement Executive Order 12044, and, therefore, no regulatory analysis pursuant to Executive Order 12044 is required.

Pursuant to the requirements of Section 404 of the Department of Energy Organization Act (Pub. L. 95-91), upon issuance of these proposed amendments, a copy of this Notice will be referred to the Federal Energy Regulatory Commission for a determination, in its discretion, whether these proposed amendments may significantly affect any function within the Commission's jurisdiction pursuant to Section 402(a) (1), (b) and (c) (1) of that Act. The Commission will have until March 21, 1979, the date the public comment period closes, to make this determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-332, Pub. L. 94-385, Pub. L. 95-70, and Pub. L. 95-91; Energy Supply and Environmental Coordination Act of 1974, Pub. L. 93-319, as amended; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385, and Pub. L. 95-70; Department of Energy Organization Act, Pub. L. 95-91; E.O. 11790, 39 FR 23185; E.O. 12009, 42 FR 46267)

In consideration of the foregoing, Part 205 and Part 210 of Chapter II, Title 10 of the Code of Federal Regulations, are proposed to be amended as set forth below.

Issued in Washington, D.C., January 15, 1979.

DAVID J. BARDIN,
Administrator, Economic Regulatory Administration.

1. Section 205.8 is amended to read as follows:

§ 205.8 Subpoenas, special report orders, oaths, witnesses.

(a) In this section the following terms have the definitions indicated unless otherwise provided.

(1) "DOE Official" means the Secretary of the Department of Energy, the Administrator of the Economic Regulatory Administration, the Administrator of Energy Information Administration, the General Counsel of the Department of Energy, the Special Counsel for Compliance, the Director of the Office of Hearings and Appeals, any person authorized to issue a subpoena of SRO under this section, or the authorized delegate agent of any of the foregoing officials, who issues a subpoena or SRO pursuant to this section.

(2) "SRO" means a Special Report Order issued pursuant to Subsection (b) of this section.

(b)(1) In accordance with the provisions of this section and as otherwise authorized by law, a DOE Official may sign, issue and serve subpoenas; administer oaths and affirmations; take sworn testimony; compel attendance of an sequester witnesses; control dissemination of any record of testimony taken pursuant to this section; subpoena and reproduce books, papers, correspondence, memoranda, contracts, agreements, or other relevant records or tangible evidence including, but not limited to, information retained in computerized or other automated systems in possession of the subpoenaed person. Unless otherwise provided by Subpart O, the provisions of this section apply to subpoenas issued by the Office of Hearings and Appeals with respect to matters in proceedings before it.

(2) A DOE Official may issue a Special Report Order requiring any person subject to the jurisdiction of the ERA to file a special report, including but not limited to written answers to specific questions. The SRO may be in addition to any other reports required by this chapter.

(3) The DOE Official who issues a subpoena or SRO pursuant to this section, for good cause shown, may extend the time prescribed for compliance with the subpoena or SRO and negotiate and approve the terms of satisfactory compliance.

(4) Prior to the time specified for compliance, but in no event more than 10 days after the date of service of the subpoena or SRO, the person upon whom the document was served may file a request for review of the subpoena or SRO with the DOE official who issued the document. The DOE Official then shall forward the request to his supervisor who shall provide notice of receipt to the person requesting review. If the subpoena or SRO is not modified or rescinded within 10 days of the notification date, the subpoena or SRO shall be effective as issued.

(5) There is no administrative appeal of a subpoena or SRO.

(c) (1) A subpoena or SRO shall be served upon a person named in the document by delivering a copy of the document to the person named.

(2) Delivery of a copy of the document to a natural person may be made by:

(i) Handing it to the person;

(ii) Leaving it at the person's office with the person in charge of the office;

(iii) Leaving it at the person's dwelling or usual place of abode with a person of suitable age and discretion who resides there;

(iv) Mailing it to the person by registered or certified mail, at his last known address; or

(v) Any method that provides the person with actual notice prior to the return date of the document.

(3) Delivery of a copy of the document to a person who is not a natural person may be made by:

(i) Handing it to a registered agent of the person;

(ii) Handing it to any officer, director, or agent in charge of any office of such person;

(iii) Mailing it to the last known address of any registered agent, officer, director, or agent in charge of any office of the person by registered or certified mail, or

(iv) Any method that provides any registered agent, officer, director, or agent in charge of any office of the person with actual notice of the document prior to the return date of the document.

(d) (1) A witness subpoenaed by the DOE shall be paid the same fees and mileage as paid to a witness in the district courts of the United States.

(2) If in the course of a proceeding conducted pursuant to Subparts M or O, a subpoena is issued at the request of a person other than an officer or agency of the United States, the witness fees and milage shall be paid by the person who requested the subpoena. However, at the request of the person, the witness fees and mileage shall be paid by the DOE if the person shows:

(i) The presence of the subpoenaed witness will materially advance the proceeding; and

(ii) The person who requested that the subpoena be issued would suffer a serious hardship if required to pay the witness fees and mileage.

The DOE Official issuing the subpoena shall make the determination required by this subsection.

(e) If any person upon whom a subpoena or SRO is served pursuant to this section, refuses or fails to comply with any provison of the subpoena or SRO, an action may be commenced in the United States District Court to enforce the subpoena or SRO.

(f) (1) Documents produced in response to a subpoena shall be accompanied by the sworn certification, under penalty of perjury of the person to whom the subpoena was directed that (i) a diligent search has been made for each document responsive to the subpoena, and (ii) each document responsive to the subpoena is being produced unless withheld on the grounds of privilege pursuant to subsection (g).

(2) Any information furnished in response to an SRO shall be accompanied by the sworn certification under penalty of perjury of the person to whom it was directed or his authorized agent who actually provides the information that (i) a diligent effort has been made to provide all information required by the SRO, and (ii) all information furnished is true, complete, and correct unless withheld on grounds of privilege pursuant to subsection (g).

(3) If any document responsive to a subpoena is not produced or any information required by an SRO is not furnished, the certification shall include a statement setting forth every reason for failing to comply with the subpoena or SRO.

(g) If a person to whom a subpoena or SRO is directed withholds any document or information because of a claim of attorney-client or other privilege, the person submitting the certification required by paragraph (f) of this section also shall submit a written list of the documents or the information withheld indicating a description of each document or information, the date of the document, each person shown on the document as having received a copy of the document, each person shown on the document as having prepared or been sent the document, the privilege relied upon as the basis for withholding the document or information, and an identification of the person whose privilege is being asserted.

(h) Upon written request any person served with a subpoena or SRO shall be notified as to the general purpose for which any testimony, information or documentary material is sought.

(i) (1) If testimony is taken pursuant to a subpoena, the DOE Official shall determine whether the testimony shall be recorded and the means by which the testimony is recorded.

(2) A witness whose testimony is recorded may procure a copy of his testimony by making a written request for a copy and paying the appropriate fees. However, the DOE official may deny the request for good cause. Upon proper identification, any witness or his attorney has the right to inspect the official transcript of the witness' own testimony.

(j) The DOE Official may sequester any person subpoenaed to furnish documents or give testimony. Unless permitted by the DOE Official, neither a witness nor his attorney shall be present during the examination of any other witnesses.

(k) (1) Any witness whose testimony is taken may be accompanied, represented and advised by his attorney as follows:

(i) Upon the initiative of the attorney or witness, the attorney may advise his client, in confidence, with respect to the question asked his client, and if the witness refuses to answer any question, the witness or his attorney is required to briefly state the legal grounds for such refusal; and

(ii) If the witness claims a privilege to refuse to answer a question on the grounds of self-incrimination. The witness must assert the privilege personally.

(l) The DOE Official shall take all necessary action to regulate the course of testimony and to avoid delay and prevent or restrain contemptuous or obstructionist conduct or contemtuous language. DOE may take actions as the circumstances may warrant in

V 4 4 / 1 4 JAN 19 79

regard to any instances where any attorney refuses to comply with directions or provisions of this section.

2. Section 205.201 is amended to read as follows:

§ 205.201 Investigations.

(a) The DOE may initiate and conduct investigations relating to the scope, nature and extent of compliance by any person with the rules, regulations or statutes of the DOE or any order, court decree or agency action relating thereto.

(b) Any duly designated and authorized representative of DOE has the authority to conduct an investigation and to take such action as he deems necessary and appropriate to the conduct of the investigation including any action pursuant to § 205.8

(c) There are no parties, as that term is used in adjudicative proceedings, in an investigation under this subpart, and no person may intervene or participate as a matter of right in any investigation under this Subpart.

(d) Any person may request the DOE to initiate an investigation pursuant to paragraph (a) of this section. A request for an investigation shall set forth the subject matter to be investigated as fully as possible and include supporting documentation and information. No particular forms or procedures are required.

(e) Any person who is requested or compelled to furnish documentary evidence or testimony in an investigation, upon written request, shall be informed of the general purpose of the investigation.

(f) DOE shall not disclose information or documents that are obtained during any investigation unless (1) DOE directs or authorizes the public disclosure of the investigation; (2) the information or documents are a matter of public record; or (3) disclosure is not precluded by the Freedom of Information Act, 5 U.S.C. 552 and 10 CFR Part 1004. A request for confidential treatment of information Act for purposes of the Freedom of Information shall not prevent disclosure by DOE if disclosure is determined to be in the public interest and otherwise permitted by law.

(g) During the course of an investigation any person may submit at any time any document, statement of facts or memorandum of law for the purpose of explaining the person's position or furnish evidence which the person considers relevant to a matter under investigation.

(h) If facts disclosed by an investigation indicate that further action is unnecessary or unwarranted, the investigative file may be closed without prejudice to further investigation by the DOE at any time that circumstances so warrant.

§ 210.91 [Deleted]

3. Section 210.91 is deleted.

§§ 205.180—205.185 [Deleted]

4. Sections 205.180 through 205.185 are deleted.

FEDERAL PESTICIDE ACT OF 1978

Implementation Plan and Preliminary Solicitation of Views

[6560-01-M]

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1039-4; OPP-00083]

FEDERAL PESTICIDE ACT OF 1978

Implementation Plan and Preliminary Solicitation of Views

AGENCY: Environmental Protection Agency (EPA or Agency), Office of Pesticide Programs.

ACTION: Agency's plan for carrying out the Federal Pesticide Act of 1978, and solicitation of views.

SUMMARY: On September 30, 1978, the President signed into law the Federal Pesticide Act of 1978 (Pub. L. 95-396, 92 Stat. 819) amending the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 et seq. This notice summarizes the changes these new amendments will effect in the FIFRA, and the Agency's general plan and timing for implementing them. Any comments on the Agency's general approach in addressing issues and implementation plans are invited.

DATES: Comments on this notice should be submitted by February 21, 1979.

ADDRESS: Address all comments to Federal Register Section, Program Support Division, (TS-757), Office of Pesticide Programs EPA, 401 M Street, SW., Washington, D.C. 20460. Comments received will be available for public inspection in Room E-401, Waterside Mall East Tower, 401 M Street, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Ms. Susan H. Sherman, Chief, External Affairs Unit (TS-766), (see mailing address above), telephone 202/775-8020.

SUPPLEMENTARY INFORMATION: The following information describes the legislative history of the Federal Pesticide Act of 1978, the legislation itself, and a section-by-section implementation plan.

LEGISLATIVE HISTORY

In March of 1977, the Administrator of EPA testified before the House Committee on Agriculture and the Senate Committee on Agriculture, Nutrition, and Forestry that the pesticide registration and reregistration program was in need of modification and streamlining, requiring statutory amendment as well as administrative changes. The Administration shortly thereafter presented for the Committees' consideration a proposed bill intended to significantly alter the pesticide law. The objectives of the Administration bill were to provide greater flexibility to the Agency in regulating pesticides, eliminate inequitable aspects of the registration process, and provide a framework for a simpler, more focused registration and reregistration program. These issues were explored in testimony by EPA, the States, the pesticide-producing industry, farm and other user organizations, and environmental groups during hearings held in the spring and summer of 1977.

On July 29, 1977, the Senate passed S. 1678, a comprehensive bill designed to remedy the problems identified by the Administration and the other parties who presented views. The House, after holding further hearings, passed H.R. 8681 on October 31, 1977. The House bill contained some of the same basic elements of the Senate bill (although treating some of the issues differently) and added other unique provisions. A Conference Committee convened in April 1978 and issued a Conference Report on September 12, 1978. The Conference bill was adopted by the Senate on Septemberr 18, 1978, by the House on September 19, 1978, and was signed into law on September 30, 1978.

DESCRIPTION OF THE LEGISLATION

The FIFRA has been the primary vehicle for regulating pesticides since 1947. Uniti 1972, the law was focused on the proper labeling of pesticide products shipped in interstate commerce. In 1972, however, Pub. L. 92-516 strengthened the law considerably, changing it from a labeling law to a comprehensive regulatory statute. The 1972 amendments reflected the public concern about potential adverse health impacts of pesticides only then becoming apparent, the need to adequately assess the "reasonableness" of the risks posed by these products and to permit continued sale and use of those products found to not pose unreasonable risks. Pub. L. 92-516 charged EPA with the responsibility not only for requiring adequate premarket data review of new products, but also for reexamining previously registered products, and reregistering those which continue to meet today's safety standards.

The Agency encountered numerous obstacles in attempting to carry out the registration responsibilities imposed by the 1972 law. Registration came to a near standstill due to ongoing litigation over use of one company's data by another, and because for many products data sufficient to meet today's data requirements have not yet been generated. At the same time, however, the law allowed earlier-registered products, identical to those for which registration is now sought, to remain on the market pending reregistration, giving rise to a "double standard" among manufacturers of like products. The new legislation recognizes and remedies the inequities of the present system, and permits some far-reaching changes in the registration program which will simplify the regulation of pesticides in this country.

The new law incorporates several important features considered by the Administration and Congress to be laudable goals of contemporary environmental legislation:

- Regulatory reform—lessening burdens on the private sector and simplifying the regulatory process;
- Decision making in the "sunshine"—making the Agency's information base accessible to the public; and
- Direction of resources to highest priority health and safety questions.

1. *Registration.* Several major provisions of the legislation significantly affect the registration process. These provisions authorize EPA to:

•Issue conditional registrations, to expedite the registration process, and give the Agency and the industry greater flexibility in fulfilling data requirements.

•Develop generic pesticide standards for each pesticide active ingredient encompassing all of its approvable formulations and uses. The Agency in the future will adopt a chemical-by-chemical approach to registration rather than the current product-by-product approach.

•Classify registered pesticides for restricted use by regulation prior to full reregistration.

•Waive the finding of efficacy, reducing data requirements to industry, allowing the marketplace to determine efficacy, and allowing the Agency to devote its limited resources primarily to the assessment of health and safety questions.

The Agency plans to review all pesticides currently on the market chemical-by-chemical over the next 10-15 years, and to develop a generic standard (basically a profile of formulations and uses which the Agency has determined will not pose unreasonable adverse effects on humans or the environment) for each pesticide active ingredient. This process involves the review and validation of all data in EPA files, the identification and filling of data gaps by registrants, and the reregistration of currently registered products which are approvable under the standard. Conditional registration will under sections 3(c)(7) (A) and (B) serve as a bridge to generic standards involving "old" chemicals over a 10-15 year period. In other words, a product will be conditionally registered until the generic standard for its active ingredient is developed, after that time, it will be reregistered unconditionally if it is in compliance with the new

standard. Conditional registration will be used after a standard is developed only when the Administrator imposes a new data requirement in order to allow applicants an appropriate amount of time to meet the new requirement.

Under section 3(c)(7)(C) of the Act EPA is also authorized to issue conditional registrations for new chemicals under certain special circumstances. These include cases where the early registration is in the public interest as a substitute for an RPARed or cancelled pesticide, would provide control for a pest now having no adequate control or would provide other socially beneficial effects.

An important change in thrust of the registration program expressed by the Administration during the legislative process is the rejection of a piecemeal approach to data consideration for individual registration actions, which wastes both Agency resources and applicant effort. This change in philosophy underlies both the generic standards (reregistration) program and the conditional registration program. The Agency will use all relevant data available in establishing generic standards. The standard will not be based on one item of data, or five items of data or any particular pieces or combinations of individual items of data—it will be based on *all* data reviewed by the Agency which is pertinent to a finding of no unreasonable adverse effects. The legislative history provides added incentive to adopt this course by endorsing the Agency's proposal to validate data only once for each chemical rather than on a product-by-product basis.

As the Agency explained in Congressional testimony, it has no intention of examining the existing data base on a chemical in reaching conditional registration decisions, for product uses similar or identical to currently registered products. Comprehensive review of this data base will occur systematically with the establishmentof generic standards. Therefore, EPA will be implicitly relying on what is already known (i.e., the existing decision base) about pesticides now on the market in granting conditional registrations; only new data in support of a new use or a new chemical will be actually reviewed and scientifically assessed.

This approach to data consideration will effect changes in the registration process. In the long run, it will result in simpler, more efficient procedures for registrants who apply for registration under an established generic standard, and increased saving of EPA's time and resources since it will make health and safety decisions once for each chemical rather than hundreds of times over for individual applications. The Agency envisions in the future—after the data base has been validated, data gaps have been filled, and generic standards established—a system under which (in most cases) an applicant will certify that his product is in conformance with the standard, will submit only limited product—specific data, and will certify that he has taken the appropriate steps to comply with the data compensation provisions of the Act. Applicants will need to submit substantial data only when they propose new uses, new chemicals or other deviations from the established standard.

In the short run, this approach means that we expect to change the data citation and compensation procedures (discussed in detail below) which may cause some initial, temporary confusion. Because the Agency is relying on its "institutional knowledge" about pesticides, based on all data already in the files, rather than relying on individual ad hoc review of discrete items of data, we are proposing that applicants for conditional registration must rely on (and offer to pay for) all items of data in Agency files pertinent to the active ingredient contained in the product for which registration is sought, if those data are the kinds of data required under today's criteria to support the *initial* registration of such a product. These procedures are contained in draft conditional registration regulations now out for public review. During the interim three options are available to the registrant which are detailed in PR Notice 78-5, issued on December 8, 1978. In any case, the universe of data for which any registrant must actually pay compensation is limited by three primary factors: (1) The 1970 cut-off date for compensation in the statute; (2) the Agency's waiver of efficacy data requirements for many use patterns; and (3) the separation between data on technical active ingredients and formulated products for compensation purposes. These factors are discussed in the following section and in number 2 below.

2. *Data Sharing and Disclosure.* The degree of control over data any registrant should be allowed to maintain after the data are submitted to EPA to support a pesticide registration was a major issue in developing the new legislation.

The two principal concepts discussed by the Conferees were: (1) Compensation for data (registrants who rely on data submitted by another must pay the submitter compensation for use of that data) and (2) exclusive use of data (data submitter has the right to allow or deny use of data by other registrants, at his discretion). The compromise struck by the Conferees combines part of each of these concepts.

The new law provides for compensation for data for a period of 15 years after submission for active ingredients in already-registered pesticides ("old" chemicals). That provision applies to data already in EPA files, and to new data which will be required by EPA in the future to maintain registrations of "old" active ingredients ("defensive data"). The compensation requirement does not apply to data submitted prior to 1970 (nor did it under the prior law).

The Federal Pesticide Act further provides that data pertaining to a pesticide containing a new active ingredient in a product first registered after September 30, 1978, will be entitled to exclusive use protection for 10 years after the date of initial registration. Any data supporting new uses of such new active ingredients will enjoy whatever period of exclusive use is still in effect from the initial registration. Exclusive use will in no case apply to defensive data.

Any disputes between registrants over the amount of compensation will be resolved by binding arbitration under the rules of the Federal Mediation and Conciliation Service. The old FIFRA provided that the EPA Admin-

istrator would decide such disputes by formal adjudication with opportunity for court review.

A new concept in cost sharing is also introduced by the Federal Pesticide Act of 1978. Some of the data required for registration are generated by tests on the active ingredient or technical product alone, while others are conducted with the pesticide product as formulated. The new cost sharing concept recognizes this fact by assigning costs of data on active (technical) ingredients to registrants of such ingredients and costs of data on formulated products to registrants of formulated products. In other words, compensation will operate horizontally between registrants competing at the same market level, not vertically between registrants at different market levels. The Act specifies that formulators (who purchase registered active ingredient chemicals for use in making end-use products) will not have to pay separate compensation to producers of the active ingredients for data concerning the safety of the active ingredients, beyond that amount of compensation implicit in the price of purchased technical materials. This provision should reduce the administrative and financial problems of formulators who no longer will be obliged to separately compensate producers of active technical ingredients for use of their expensive long term safety testing data submitted to EPA.

The law also clarifies the degree to which data underlying Agency regulatory decisions should be accessible to the public. It reflects the agreement of the Administration and the Congress that most data underlying EPA's decisions on pesticide regulation should be routinely available to the general public, so they can review Agency decisions. Bona fide trade secrets, however, such as confidential formula, manufacturing process, quality control processes, and production and sales data, will not be routinely releasable to the public. (These data can be disclosed in certain circumstances, if procedural safeguards are followed.)

The Act also provides that representatives of multinational pesticide producers will not have access to data otherwise available to the public. This prohibition was introduced because Congress was concerned about the impact of use of data overseas on international competition, when compensation provisions would not pertain. However, data pertaining to a pesticide which is the subject of an intensive public review proceeding (e.g., rebuttable presumption against registration, suspension, or cancellation) will be accessible to multinational companies in order to assure complete public accessibility to the data, and in order to permit such companies to participate in the proceedings.

3. *State responsibilities.* The Federal Pesticide Act provides additional flexibility and authority to States in two areas: State registrations for special local needs, and primary use enforcement authority. The States played a very active role in the legislative process, and the amended Act provides expanded responsibilities for States in permitting uses of pesticides and ensuring their proper use within State boundaries.

4. *Other changes.* The new legislation defines "use inconsistent with the label"; imposes new requirements on exporters of pesticides cancelled or never registered in the United States; mandates the priority reregistration of food use pesticides insofar as practicable; confirms the Agency authority to certify applicators in States without approved plans; directs the Agency to consider restriction of a pesticide as an alternative to cancellation; requires an agricultural impact statement for any regulations promulgated under the Act; directs EPA to work with USDA in developing a list of agricultural pests; requires an annual report on conditional registrations issued over the previous year; and directs the Agency to conduct special studies on ultra-low-volume pesticide applications; minor use pesticides, and the possibility of charging fees for pesticide registrations.

Description of Each Section and Implementation Plan

Most of the provisions of the Federal Pesticide Act of 1978 are immediately effective. Plans to issue regulations to further define Administrative procedures which are not clear under the statute or as required by the statute are noted.

The Administrative Procedure Act, 5 U.S.C. 552-553, requires that Agency rules of general applicability and future effect be published in the Federal Register. Thus, when the Agency determines that in the future it will implement a provision of FIFRA in a certain uniform manner, it will publish an explanation of its intended manner of implementing the Act as a rule or general policy statement, as appropriate. Additionally, various changes in existing Agency regulations will be necessary to conform the regulations to the new provisions of FIFRA. Regulations will be promulgated in accordance with Executive Order 12044, with opportunity provided for public comment and participation.

A description of each section of the Federal Pesticide Act and a discussion of the Agency implementation plans follow.

1. *Definitions* (effective immediately; amendment to § 7 regulations to follow).

Section 1 of the new amendments defines for the first time the phrase, "to use any registered pesticide in a manner inconsistent with its labeling," as meaning any use not permitted by labeling with the exception of four specific use practices as well as any uses otherwise authorized by other sections of the Act, and permits the Administrator to find other uses "consistent" which are not in literal accord with the label. It is the Agency's view that this definition is effective immediately, and does not require implementing regulations. EPA will publish a Federal Register notice formally rescinding those Pesticide Enforcement Policy Statements (PEPS) which were rendered obsolete by the new law. In addition, the Agency plans to develop regulations, to be published in the Federal Register establishing procedures for declaring other uses which are not in literal accord with labeling in the future to be "consistent" with the purposes of the Act.

The new legislation also specifies that an applicator of pesticides who follows label directions and applies registered pesticides as a service to control pests is not a seller or distributor of pesticides, changes the definition of "commercial applicator," and clarifies the term "producer." Because these are but three of several sections affecting certain applicators, a concise description of all changes in this area should be clearer than piecemeal attention. That discussion is found in number 17 below.

Section 1 of the new amendments also amends the definition of "Establishment" in the Act to include "any place where a pesticide or device *or active ingredient used in producing a pesticide*" (new words italicized). This new definition will require a change in the § 7 regulations, "Registration of Establishments."

Two other changes in definitions concern exporters of pesticides and ultra-low-volume pesticide application, which will be discussed in numbers 18 and 27 below respectively.

2. *Use of data* (effective immediately, regulations to follow).

(a) *Compensation and exclusive use.* Section 2 of the new legislation amends § 3(c)(1)(D) of the FIFRA to specify how data submitted by one registrant can be used for registration purposes by subsequent applicants. The general scheme envisioned by the amendments (i.e., 15 years of compensation from the date of submission of data, and 10 years of exclusive use from the date of first registration of future new pesticides containing new active ingredients) has been discussed above.

Draft 3(c)(1)(D) regulations have been publicly available since October 5, 1978, and have been discussed in a public meeting November 6, 7, and 8 in Washington. The Agency plans to issue final regulations by February 1979 in conjunction with the regulations implementing conditional registrations (discussed in number 6 below).

The new procedures dealing with compensation and exclusive use are effective now, and will be clarified in regulations. Thus, for all registrations issued after September 30, 1978, registrants must comply with the compensation and exclusive use portions of the Federal Pesticide Act of 1978. This means that in addition to furnishing to EPA a statement offering to pay reasonable compensation when applicable as in the past, applicants must also write directly to the submitters of data pertinent to their registration, and EPA must be notified by the applicant that the data submitters have been contacted.

In addition, data on a new active ingredient first registered after September 30, 1978, will be entitled to 10 years exclusive use from the date of the original registration, and can be used by subsequent applicants only with the express permission of the data submitter.

The Agency procedures for implementing compensation for data and other changes to the registration process which are applicable between the enactment of the new amendments and the effective date of regulations is explained in detail in PR Notice 78-5, available from the Registration Division, Office of Pesticide Programs (TS-767), EPA, Washington, D.C. 20460.

(b) *Compensation disputes.* The concept of required sharing of data and compensation is not new. The 1972 and 1975 FIFRA amendments provided for reasonable compensation of owners of data submitted in support of product registration when those data were used by subsequent applicants to support additional registrations. Disputes over the appropriate amount of compensation were to be settled by the Administrator, and reviewable in the court.

The new amendments substantially change the procedures for settling disputed compensation issues arising from registrations issued after September 30, 1978. Henceforth, disputes will be resolved by binding arbitration under the auspices of the Federal Mediation and Conciliation Service. The findings and determinations of the arbitrator shall be final and conclusive, and not subject to judicial review except upon verified complaint of fraud, misrepresentation or other misconduct. However, claims resulting from registrations issued prior to enactment of the new amendments will be settled in accordance with the old procedures unless the parties mutually elect to use binding arbitration or otherwise resolve their disputes.

As under the old Act, the law directs that the Agency need not wait until a compensation dispute is resolved to issue a registration to an applicant who has offered to pay compensation. The Act provides that if the Administrator determines that the original data submitter has failed to participate in binding arbitration or failed to honor the terms of the arbitration, the submitter forfeits his rights to compensation. On the other hand, the Act provides that the Administrator shall deny or cancel the registration without any further hearing if the applicant fails to enter into arbitration or fails to honor an arbitration decision. In either case EPA will advise the party of the intended action by certified mail, and will allow 15 days for response before taking action.

3. *Minor uses* (effective immediately; policy statement of current practice; regulations as part of guidelines).

The new legislation directs the Administrator to consider the anticipated extent of use, pattern of use, and the level and degree of potential exposure to the pesticide in determining appropriate data requirements for registration. The Agency will review the regulations governing data requirements in light of this amendment; in the interim, EPA will issue a general policy statement on various aspects of the minor use problem, including the relationship of registration to the tolerance setting procedures of the Federal Food, Drug, and Cosmetic Act (FFDCA), in the Federal Register in the next month. In addition, the Agency will complete a report to Congress by June 30, 1979 (see number 25 below) regarding the minor use problem.

As a result of these analyses, EPA may well find areas where changes in regulations are necessary and appropriate. The most likely examples involve the specification of data requirements in the Registration guidelines. Regulations will be issued to reflect such changes in data requirements as needed.

4. *Simplified registration* (Act mandates regulations within 9 months; exemption for data citation effective immediately).

As noted above, one of the innovations in the new legislation is the concept of limiting direct compensation transactions according to whether safety data are generated on the active ingredient or formulated product. This provision is effective immediately, and is discussed in the data compensation registration regulations which are scheduled to be completed by February 1979.

It was also in the context of this limitation on compensation transactions that the Committees discussed the generic approach to registration. As EPA testimony explained, "* * * it has become increasingly clear that we are spending far too much time on individual end-use formulation applications, and that the whole structure for registration needs to be focused primarily on the chemicals themselves rather than thousands of individual applications for products containing mixtures of chemicals. Section 1 of our bill would facilitate that restructuring. We envision a system in which it is the technical material which becomes the focal point for registration, with the bulk of the safety data obtained from manufacturing-use, rather than end-use, registrations." Section 1 of the administration bill—the "generic pesticides standards" amendment—is embodied in § 4 of the Federal Pesticide Act of 1978. The Agency plans to publish a Federal Register notice within the next month describing how EPA will go about the development of generic standards and the reregistration program.

5. *Efficacy waiver* (effective immediately; waiver to be stated in conditional registration regulations preamble; amendment to § 3 regulations to follow as needed.)

The new legislation allows EPA to waive submission of efficacy data and to register a product without a determination that the pesticide's composition is such as to warrant claims of efficacy. EPA sought this amendment in order to concentrate limited Agency resources in the health and safety area, and because efficacy demonstrations in the laboratory or in field trials do not necessarily remain valid for very long, because of regional climatic situations, crop production technology changes and pest resistance factors. In order to implement the efficacy waiver provision, the Agency will incorporate a new efficacy waiver policy in the conditional registration regulations (see number 6 below). As a general rule, efficacy data will continue to be required in cases in which a human health impact could result from ineffectiveness of the product. The Conference Committee Report also gives EPA the option of waiving review of efficacy data if needed to determine efficacy of a product if the Agency has established data requirements and test protocols for such a product, if the required data are submitted and if the applicant provides a certified summary stating the product meets the efficacy requirements.

Congress, USDA, industry, and user groups have generaly applauded the concept, but some States and other in-

V 4 4 / 1 4

terested parties believe it will signal an open season to fly-by-night operators who will defraud the public. Since this is a major deregulation action, EPA will consider it an experiment in social policy and EPA, in cooperation with the Experimental Technology Incentives Program of the National Bureau of Standards, will monitor the impacts of the efficacy waiver policy to determine if:

• Consumer fraud increases;

• Consumer fraud is effectively reported and curtailed through existing market institutions including State regulation processes, USDA and the Extension Service, farmers associations, and the marketplace;

• Reductions in data requirements have any impact on innovation in the pesticide industry;

• Expected Agency resource savings (because of reduced data review) are realized.

6. *Registration under special circumstances* (effective immediately; regulations to follow).

The Agency believes that this provision will provide the greatest relief to pesticide formulators and users, and also believes it has a commitment to the Congress to implement this program immediately. Coupled with new data use and trade secret provisions, it will remove the double standard that has existed for three years and has caused the rejection of numerous applications. EPA is therefore planning to issue interim final regulations which specify the basis on which it will grant conditional registrations for products identical or substantially similar to those already on the market, and for new uses of old (already registered) chemicals. The Agency's current schedule calls for the regulations to be issued by February 1979. Regulations regarding the conditional registration of new chemicals will be proposed 6 to 10 months after the promulgation of interim final regulations pertaining to old chemicals. Any application for a conditional registration of a new chemical will be handled on a case-by-case basis until that time.

The Agency desires to reconcile the need for public participation in the rulemaking process. Thus, in the FEDERAL REGISTER of July 25, 1978, EPA announced its intention to issue final regulations governing conditional registration of old and new uses of old chemicals without first formally proposing regulations. This expedited procedure, authorized by § 553(b)(3)(B) of the Administrative Procedure Act, is considered necessary due to the serious hardship being experienced by companies in certain segments of the pesticide producing industry who have been essentially deprived of a mechanism to attain registration since 1975. Public comment was solicited. EPA held three days of public meetings on November 6, 7 and 8, during which the public was invited to express views and ask questions about the proposed approach to conditional registration. A draft of the regulations and preamble has been sent out to all interested parties, and is available upon request from Bob Rose, Registration Division, Office of Pesticide Programs (TS-767), EPA, 401 M Street, SW., Washington, D.C. 20460.

Section 6 of the new law also prohibits the Agency from initiating an interim administrative review process (i.e., a notice of rebuttable presumption against registration) unless it is based on "a validated test or other significant evidence." The Act also directs the Agency to define those terms in the FEDERAL REGISTER.

The Agency will shortly publish a FEDERAL REGISTER notice in compliance with this requirement.

7. *Classification prior to reregistration; change in classification from restricted use to general use* (effective immediately; regulations required; partially issued)

The new amendments authorize classification of pesticides by regulation, prior to full reregistration.

The first 23 pesticide active ingredients having restricted uses were classified in this manner (final regulations were published on February 9, 1978, in the FEDERAL REGISTER (43 FR 5783)) and the Agency published on January 9, 1979, proposed rulemaking in the FEDERAL REGISTER to classify uses of an additional 14 active ingredients.

The Act now provides that a registrant may petition the Agency to change a classification from restricted use to general use. The Agency is directed to act upon such a petition within 60 days after receipt; any denial of such a petition by the Administrator will be subject to judicial review under § 16 of FIFRA. The Agency will modify its current regulations to accommodate the procedures to be used in petitioning for such change.

8. *Priority of food uses in reregistration* (effective immediately).

The new amendments direct EPA to reregister food use pesticides on a priority basis to the extent practicable. The Agency's compliance with this provision will be discussed in the forthcoming generic standards notice which will explain the rationale for and describe the generic standards approach. The notice will be submitted to USDA and the Scientific Advisory Panel for review and comment.

9. *Certification in States without approved plans* (effective immediately; regulations to follow).

The new amendments give the Administrator explicit authority to certify applicators who intend to purchase and use restricted use pesticides in States which do not have approved plans. Although the 1972 FIFRA was silent on the question of the consequences of a State's not having an approved plan for certification purposes, EPA believed all applicators should have the opportunity to come into compliance with the statute. EPA thus decided to provide a program in the absence of State action. Federal programs have been instituted in the States of Nebraska and Colorado, and the procedures followed in those States were consistent with the requirements of the new law, i.e., consultation with the Governor, publication of the plan in the FEDERAL REGISTER, and opportunity for a hearing in the State. The 1978 amendments also provide that EPA may by regulation require record keeping by commercial applicators in those States in which a Federal certification program is conducted. The Agency will amend current regulations as necessary to accomplish this.

10. *Experimental Use Permits* (effective immediately; Act requires final § 5(f) regulations).

The new amendments direct the Agency to review applications for experimental use permits within 120 days, and to issue regulations implementing § 5(f) of the FIFRA authorizing States to issue experimental use periods to support State registrations under § 24(c) of the Act.

The Agency will continue to review applications for experimental use permits as quickly as possible and expects that such review will be completed in less than 120 days in most cases. It would be of great assistance to EPA if applicants would submit applications at regular intervals throughout the year, rather that inundating the Agency with applications shortly before the growing season for which experimental use is sought.

Regarding § 5(f) regulations, proposed regulations were published for comment on September 3, 1975 (40 FR 40545). The Agency is planning to publish final regulations in the FEDERAL REGISTER in the next six months.

11. *Alternative to cancellation* (effective immediately; no regulations required).

The new amendments direct the Agency to consider restriction of a pesticide as an alternative to cancellation. One of the benefits of the restricted use/certified applicator program has always been to retain uses of pesticides which would otherwise have to be cancelled unless used by knowledgeable applicators. For example, the Agency modified an earlier cancellation decision to allow use of sodium cyanide in the M-44 device with additional restrictions on who may use the device, where and in what situations.

J A 1 9 7 9

UMI

Likewise when the Agency suspended registrations of products containing dibromochloropropane (DBCP), the suspension action did not apply to certain DBCP products if the products' registrations were amended to restrict use to certified applicators and appropriate labeling changes to safeguard applicators were made. The viability of this option will depend on a continuing applicator certification program in the future.

12. *Cancellation of conditional registrations* (effective immediately; regulations to follow with conditional registration regulations).

The amendments provide for an expedited cancellation procedure for conditional registrations if the registrant fails to meet the conditions specified at the time of registration. Any hearing pursuant to such a cancellation will be limited to the issue of whether the condition was or was not met, rather than a full risk/benefit determination for the chemical in question. Cancellation procedures will be included in the conditional registration regulation package scheduled for early 1979 completion.

13. *Establishment registration for manufacturers of active ingredients* (effective immediately; amendment of § 7 regulations to follow).

The new bill amends § 7 of FIFRA to require manufacturers of any "active ingredient used in producing a pesticide subject to this Act" to register their establishments with EPA. The Agency will propose an amendment to the § 7 regulations regarding this provision.

The amendments also provide that the names of pesticides or active ingredients used in producing pesticides produced, sold, or distributed at an establishment which are submitted to EPA in accordance with § 7 are not confidential under § 10 of the FIFRA, and are thus available under the Freedom of Information Act.

14. *Inspection of Books and Records* (effective immediately).

Section 14 of the amendments requires any individual conducting an inspection under § 8 of FIFRA to present his or her credentials and a written statement as to the reason for the inspection, including a statement as to whether a violation of the law is suspected, to the owner, operator, or agent in charge of the establishment. The amendment also specifies that inspections shall be completed with reasonable promptness.

These requirements have been spelled out in the Pesticides Inspection Manual, which is the procedural guidebook for EPA inspectors. This manual is available to the public through Freedom of Information Act Procedures. All pesticide enforcement personnel in the EPA Regional Offices were advised by memorandum of August 22, 1978, that these procedures would be required by the amendment to FIFRA § 8.

15. *Trade Secrets* (effective immediately; regulations to follow; Act requires regulations on contractor access to trade secret information).

One of the most important amendments sought by the Agency was a clarification in the statute of what information is to be made generally available to the public, and what is to be released only under specified conditions.

The new amendments provide a clear and detailed answer on this point. The Agency may routinely disclose pesticide effects data, including human, animal and plant hazard evaluation data, efficacy data, and environmental chemistry data, after complying with procedures to safeguard data submitters' legitimate rights. Four categories of data are not routinely disclosable: (1) Data on manufacturing and quality control processes; (2) data on methods for testing, detecting, or measuring deliberately added inert ingredients; (3) data on the identity or percentage quantity of deliberately added inerts; and (4) data on production, distribution, sale and inventories of pesticides. However, the Federal Pesticide Act provides that these data may be released under circumstances in which disclosure is necessary to protect health or the environment. Procedures for such release will be covered in regulations which the Agency will be proposing governing the confidentiality of business information.

The Agency may disclose data entitled to confidential treatment to any contractor with the Federal government who is performing work required by the FIFRA. Such disclosure will be made only when requfred so the contractor can successfully complete his work for the government. However, contractors (and their employees) are required to keep such data in confidence and are subject to penalties of up to $10,000 or one year imprisonment for willful or knowing disclosure of any confidential information. In addition, the Agency will be proposing regulations specifically required by the new amendments to prescribe the proper security precautions a contractor must take in order to ensure confidential treatment of data which are trade secrets.

In addition, the new amendments prohibit the Agency from knowingly disclosing *any* data submitted by an applicant or registrant to foreign or multinational pesticide producers or pesticide exporters without consent of the data owner (except, as explained earlier, if the chemical in question is undergoing an intensive public review). The Agency will be developing procedures for data release, including a statement from the party seeking access to the data that he or she does not intend and will not purposefully or negligently deliver such data to foreign or multinational pesticide producers.

As noted, the Agency plans to amend existing regulations governing confidentiality of business information to reflect the changes of FIFRA § 10. However, because the provisions of the Federal Pesticide Act are effective immediately and because the amendment of the existing regulations will take some time in order to afford appropriate opportunity for review and comment, the Agency published a FEDERAL REGISTER notice on December 19, 1978, detailing interim procedures.

16. *Sale of restricted pesticides to an uncertified applicator* (effective upon promulgation of regulations; regulations to be amended).

The Federal Pesticide Act of 1978 amends § 12(a)(2)(F) of FIFRA so that it shall not be unlawful for an individual to sell a restricted use pesticide to an uncertified applicator for application by a certified applicator as authorized in regulations promulgated by EPA. This provision was added to the law to allow uncertified farmers to continue the traditional practice of purchasing pesticides (some of which will be restricted) in advance of actually contracting with an applicator to apply the products. Often this practice results in substantial economic savings to farmers.

Conditions under which this practice may be continued are described in the Preamble to the classification regulations (43 FR 5783, February 9, 1978). The procedures outlined in that preamble will remain in effect until regulations amending the FIFRA § 4 regulations (40 CFR Part 171) are promulgated.

17. *Penalty provisions* (effective immediately).

Several sections of the Federal Pesticide Act of 1978 affect "for hire" applicators, notably the definitions section (§ 1) and the penalty provisions (§ 17).

The new legislation specifies that "any applicator who holds or applies registered pesticides, or use dilutions of registered pesticides consistent with section 2(ee) of this Act, only to provide a service of controlling pests without delivering any unapplied pesticide to any person so served is not deemed to be a seller or distributor of pesticides under this Act." For purposes of brevity these applicators referred to above who provide a service of controlling pests, where that service is in whole or in part their occupation, shall henceforth be referred to as "for hire" applicators. Previously, it had

V 4 4 / 1 4 JAN 19 79 UMI

been EPA's position that "for hire" applicators "distributed" pesticides as a part of their service when they applied them (policy memorandum of March 25, 1976). As distributors, these applicators were held to a higher standard under the law than other users. For example, their place of business and their books and records were subject to administrative inspection and they were liable for higher penalties for misuse of pesticides.

The new Act treats these applicators somewhat differently. "For hire" applicators are no longer to be considered sellers or distributors except in certain circumstances (for example, if they hold or apply an *unregistered* pesticide, or they deliver any unapplied pesticide to the customer). In situations such as these, the applicator would be considered a seller or distributor for any violation of FIFRA, and subject to the higher penalties set forth in § 14(a)(1) and § 14(b)(1).

Section 1 of the new amendments also changes the definition of the term "Commercial Applicator" in section 2(e)(3) of the FIFRA. Previously, the term "commercial applicator" meant "*a certified* applicator who uses or supervises the use of any pesticide which is classified for restricted use for any purpose or on any property other than [as a private applicator]" (emphasis added). The new Act reads, "The term 'commercial applicator' means *an applicator* • • • who uses or supervises • • •." (emphasis added). In other words, a commercial applicator is no longer defined as being a *certified* applicator. Thus, *any* applicator (except a certified private applicator) who uses or supervises the use of a restricted use pesticide, whether or not that applicator is certified, is a commercial applicator subject to the higher penalties under § 14(a)(1) and § 14(b)(1) of the Act.

Section 1 of the new amendments also specifies that an individual who dilutes a formulated pesticide for his own use in accordance with the label directions cannot be considered a "producer" under the Act.

Section 17 of the new amendments revises §14(a) of the FIFRA regarding civil penalties for violations of the Act. The new amendments, unlike the 1972 FIFRA, differentiate between restricted use and general use pesticides in terms of the maximum fine that a "for hire" applicator can incur. Any "for hire" applicator who violates any provision of FIFRA while holding or applying a registered *general use or unclassified* pesticide is liable for a maximum fine of $500 for the first offense and $1000 for subsequent offenses; the maximum fine for a violation which occurs with a *restricted use* pesticide is $5,000. Previously, the Agency had considered "for hire" applicators subject to a maximum penalty of $5,000 whether they were using general or restricted pesticides.

The new law also recasts a provision of the 1972 Act which directs the Agency to consider the size of the business of the person charged with the violation, the effect on the person's ability to continue in business and the gravity of the violation in determining the size of a civil penalty. The Agency has the discretion to issue a warning in lieu of assessing a civil penalty in situations where a violation occurred "despite the exercise of due care or did not cause significant harm to health or the environment." This amendment, directed principally at misuse violations governed by §12(a)(2)(G), will be taken into account when determining whether to take action under §14 (civil penalties) or § 9(c)(3) (minor warnings for use of a pesticide in a manner inconsistent with labeling). The agency plans to publish a new chart providing guidance on assessing civil penalties in the FEDERAL REGISTER which will take the legislative changes into account.

18. *Pesticides and devices intended for export* (effective within 180 days after enactment; regulations required).

Exporters of pesticides will be significantly affected by the new legislation. Under the 1972 FIFRA, an exporter did not have to meet any labeling or packaging requirements other than those specified by the foreign purchaser. The new amendments, however, specify that a pesticide intended for export will be misbranded if it does not conform to several provisions of § 2 of FIFRA, meaning that exporters have to conform to certain U.S. labeling requirements for the first time. The new amendments also specify that exporters are subject to § 7, establishment registration, as well as § 8, books and records, of the Act.

In addition, labels of pesticides which are not registered in the U.S. and which are intended for export must bear the following statement: "Not Registered for Use in the United States of America." The foreign purchaser must sign a statement acknowledging that he understands that such pesticides are not registered for use in the U.S. and cannot be sold in the U.S. under FIFRA. A copy of the statement must be transmitted to an appropriate official of the government of the importing country.

The amendment also directs EPA to provide foreign nations with information on alternatives to cancelled pesticides upon request. This provision augments the current requirement that EPA notify foreign governments, via the State Department, of all significant pesticide cancellation actions.

The provisions of modifying section 17 of FIFRA regarding labeling for exports, and related § 7 and § 8 requirements, become effective 180 days after enactment (March 29, 1979). EPA will, within that time, notify pesticide registrants and export firms of the new requirements through the FEDERAL REGISTER. The Agency plans to amend to § 8 regulations to accommodate the additional recordkeeping to which exporters will be subjected and to develop procedures for transmittal of the acknowledgement statements.

19. *Disposal* (effective immediately).

The new amendments direct EPA to provide information on pesticide disposal when action is taken to finally cancel a pesticide. The Agency will do so as cancellations occur in the future. A directive to Agency employees will be included in internal procedural manuals.

20. *IPM & Monitoring* (effective immediately).

In accordance with the new amendments, EPA will continue to coordinate programs in integrated pest management (IPM) with the U.S. Department of Agriculture. The Conference Committee's directives on monitoring humans and environmental media for pesticide exposure will be accommodated in the National Monitoring Plan already being developed under § 20 of the 1972 FIFRA.

21. *State Cooperation, Aid, and Training* (effective FY 1980; EPA general grant regulations to follow).

Section 21 of the new bill provides that EPA may enter into cooperative agreements with States and Indian tribes to assist in enforcement of the Act, and to assist in developing and administering State and Indian programs to train and certify applicators.

The legislation also authorizes to be appropriated such funds as necessary for EPA to provide through cooperative agreements an amount equal to 50 percent of the anticipated costs to each State and Indian tribe. If funds sufficient to pay 50 percent are not appropriated, each State's and tribe's share shall be reduced in a like proportion.

EPA is planning to propose regulations in the next 6 months governing general grant procedures for enforcement and certification and training purposes. Development of proposed regulations was nearing completion when the law was amended, and draft regulations are now being revised accordingly. In addition, the Agency will be working closely with the States and Indian tribes in deciding what costs should be included in the 50/50 sharing plan. EPA will ask each State what proportion of Federal funding supports their certification programs, since estimates were available only on National totals rather than a State by State basis at the time the Conferees considered the funding amendment.

The Agency will report its findings to the States and to the House and Senate agriculture committees before the appropriations hearings next spring.

This amendment is an authorization but not a guarantee of appropriations. Funds for each year will still need to be justified and appropriated through the normal budget process.

22. *State Registration for Special Local Needs* (certain portions effective immediately; remainder upon issuance of regulations).

The new legislation amends §24(c) of FIFRA to provide the States with greater flexibility and independence in issuing registrations for "special local needs." There are certain changes in FIFRA §24(c) which are effective immediately upon enactment of the Federal Pesticide Law of 1978. Most notable of these are:

• States no longer need to submit a program for EPA approval in order to obtain permission to issue local needs registrations;

• EPA cannot disapprove a State registration on the basis of lack of essentiality of a pesticide or if its composition and use patterns are similar to those of a Federally registered pesticide (unless such use has been previously denied, disapproved, or cancelled by the Administer.) EPA can, however, disapprove State registrations within a 90-day period if the use pattern or composition is dissimilar to a Federally registered product (and if EPA determines that such a registration would be harmful to health or the environment.) EPA can immediately disapprove registrations for use of a pesticide on a food crop for which there is no established tolerance under the FFDCA, or if the State registration constitutes an imminent hazard.

• EPA must notify States if it intends to disapprove a State registration and provide time for the State to respond.

• States nay register uses not considered, or considered and approved, by EPA in disapproving, cancelling, or denying registration of other uses of such products. Products containing an ingredient subject to an intensive review of risks and benefits (i.e., rebuttable presumption against registration) are also eligible for State registrations if otherwise acceptable under the new amendment.

Because of these changes, and the obvious need for cooperative guidelines, the Agency in consultation with the States has prepared a policy memorandum which addresses the transition period between enactment of the new amendments and development of new §24(c) regulations. This document is now available to the public. Copies may be obtained by writing to Mr. Ralph Colleli, Operations Division, Office of Pesticide Programs (TS-770), EPA, 401 M Street, SW., Washington, D.C. 20460.

Because the new amendments have significantly affected the State registration provisions of the law, the Agency intends to repropose §24(c) regulations in the FEDERAL REGISTER. EPA will work closely with the States through the State FIFRA Issues Research and Evaluation Group in the development of these regulations.

23. *Agricultural vs. non-agricultural uses, agricultural impact statements, Scientific Advisory Panel* (effective immediately.)

Section 23 of the new amendments directs EPA to consider the differences in environmental risk and the appropriate data for evaluating such risk between agricultural and non-agricultural pesticides. This amendment was developed primarily in response to complaints by registrants of household products that EPA does not properly distinguish between the potential risks their pesticides may pose as compared to pesticides used on crops.

EPA has considered the differences in risk potential of various product types in establishing data requirements. The amendment ensures that the Agency will continue to do so in the future.

In a effort to clarify how the Agency in its regulations distinguishes between crop uses and households uses of pesticides regarding data requirements and hazard evalution, EPA will publish a descriptive paper as a Pesticide Regulation notice in Spring 1979.

Section 23 of the new legislation also directs EPA to analyze the impact of regulations promulgated under FIFRA on the agricultural economy, and to publish that analysis in the FEDERAL REGISTER. The Agency will comply with this requirement during the rulemaking process. The Agency has published on July 11, 1978 (43 FR 29891), a proposed plan for improving environmental regulations which require the Agency to analyze all routine regulations for "insights into the potential effects on the economy and on those who are subject to the regulation." Factors to be taken into consideration in these economic analyses are described in that notice.

Regarding the Scientific Advisory Panel, the new legislation extends the termination date of the Panel to September 30, 1981. It also directs the Panel to consult and coordinate its activities with the Science Advisory Board. In addition, §23 of the new bill directs the EPA Administrator to "solicit from the advisory panel comments, evaluations, and recommendations for operating guidelines to improve the effectiveness and quality of scientific analyses made by personnel of the Environmental Protection Agency • • •" We intend to present questions of scientific policy to the Panel as they arise in the future.

24. *State Enforcement, Pest List, Annual Report* (effective as described below).

The Federal Pesticide Act of 1978 adds two new sections to FIFRA (Sections 26 and 27) which outline conditions under which a State will be judged to have primary authority to enforce FIFRA's prohibitions on the misuse of pesticides and the conditions under which EPA can exercise such enforcement responsibilites.

A State has primary use enforcement authority if EPA determines that it has adequate use laws and regulations, has adequate procedures for the enforcement or those laws and regulations, and will keep records and make reports as the Administrator may require by regulation. The new law further provides that any State which has a cooperative enforcement agreement with EPA "automatically" has primary use enforcement authority. It also directs EPA to review State plans submitted in accordance with §4 of FIFRA within six months of the enactment of the amendments to determine if the laws and regulations in those States meet the criteria to grant them the responsibility for primary use enforcement.

Those States that currently have Cooperative Enforcement Agreements with EPA, and thus have "automatic" primary use enforcement responsibilities, are:

Arizona*	Nevada
Arkansas	New Hampshire
California	New Jersey
Connecticut	New Mexico
Delaware	New York
District of Columbia	North Carolina
Guam	Oklahoma
Hawaii	Oregon
Idaho	Pennsylvania
Indiana	Puerto Rico
Iowa	South Dakota
Kansas	Tennessee
Kentucky	Texas
Louisiana	Vermont
Maryland	Virginia
Michigan	Virgin Islands
Mississippi	Washington
Montana	West Virginia

*EPA has a cooperative enforcement agreement with the State's Structural Pest Control Board only. Primary use enforcement responsibility has therefore been delegated only for the structural pest control area. Primary use enforcement responsibility in the agricultural area is retained by EPA.

Those States with no cooperative enforcement agreement and which therefore do not have automatic primary use enforcement responsibility are:

Alabama**	Nebraska
Alaska**	North Dakota**
Arizona**	Ohio**
Colorado	Rhode Island**
Florida**	Samoa
Georgia	South Carolina**
Illinois	Trust Territories
Maine**	Utah**
Massachusetts	Wisconsin**
Minnesota**	Wyoming**
Missouri**	

** States with fully approved § 4 plans.

The Agency will examine the § 4 State plans for the States with fully approved plans to determine whether their enforcement authorities are appropriate to qualify them for primary use enforcement authority. Failure to review such plans within six months will result in automatic State primary use authority for the the unreviewed States.

For those States without either a cooperative enforcement agreement or fully approved § 4 plan, no primary use enforcement responsibility will be conferred until such time as (a) the State's § 4 plan is given full approval by EPA and its enforcement authorities have been reviewed for adequacy, or (b) the State applies for review of its enforcement authorities and EPA finds they are consistent with FIFRA § 26(a).

In addition, the Agency plans to propose regulations to implement the suspension provisions of the new § 27 concerning a State's failure to carry out its primary use enforcement responsibilities. These regulations will address the procedures for referral of complaints to States, define "appropriate enforcement action" and "significant violation of the pesticide use provisions" of the Act describe when an "emergency condition" exists, and outline procedures for rescinding primary use enforcement responsibility as appropriate. These proposed regulations will be developed with cooperation from the States and other interested groups.

Regarding the provision of § 4 of the Federal Pesticide Act of 1978 directing the EPA Administrator to identify agricultural pests in coordination with the Secretary of Agriculture, the Agency plans to solicit the assistance of USDA in this endeavor. EPA anticipates that a list can be developed in 12 months.

The new Act also directs the Agency to submit an annual report to Congress before February 16 of each year beginning in 1979 describing the conditional registrations issued for the previous year. The Agency will comply with this requirement as specified in the legislation.

25. Studies

Section 27 of the Federal Pesticide Act of 1978 directs the Agency to conduct three studies:

(a) Feasibility of charging fees for Federal registration of pesticide products, in order to reduce taxpayer expense. Statutory deadline: nine months after enactment.

(b) Review of all available scientific information dealing with methods of pesticide application, particularly ultra-low-volume application. Statutory deadline: Six months after enactment.

EPA plans to work with the States, USDA, and concerned private industry and environmental groups and user groups on this study. EPA has published (43 FR 54697) a FEDERAL REGISTER notice soliciting comment on the issues believed by the Agency to be the most important to resolution of the safety questions surrounding ultra-low-volume application. The study to Congress will be followed by a regulation or advisory opinion by March 31, 1979. If the Agency fails to issue any regulation or advisory opinion by that date, ultra-low-volume application becomes "consistent" with the label as defined in FIFRA § 2.

(c) An updated review of the problems of minor uses. The Agency will coordinate with the States, the experiment stations, IR–4, and other interested parties in re-examining the minor use area. Statutory deadline: nine months after enactment.

SUMMARY

The following regulations will be developed by the Agency under the Federal Pesticide Act of 1978. Generally speaking, the Agency anticipates proposing new regulations where appropriate within the next 9–12 months. Better estimates will be provided in Advance Notices of Proposed Rulemaking as developed.

Amend § of FIFRA	Per § of FPA	Purpose and Timing
24(c)	22	Repropose State special local needs registration regulations.
3(c)(1)(D)	2	Final regulations on compensation (by February 1979).
3 (addition to)	6	Interim final conditional regulations (by February 1979).
3 (addition to)	4	Simplified registration: line between data requirements for registration of technical materials & formulations (by February 1979).
3 (addition to)	5	Condition of efficacy waiver; conditional registration regulations.
26 & 27 (new)	24	Proposed primary use enforcement regulations.
10	15	Proposed regulations on disclosure of information to the public and to contractors.
3(d)	7	Procedural regulations have been issued (FR February 1978); additional pesticides proposed (FR January 1979).
4	9	Proposed regulations for record keeping for dealers in States without approved plans.
5(f)	10	Final regulations for state experimental use permit authority.
7	13	Proposed amendment to regulations to add producers of active ingredients.
4	16	Proposed amendment to allow sale to uncertified applicators.
6	18	Proposed amendment to include exporters.
2	1	Propose regulation regarding procedures for finding uses "consistent."

The following additional policy statements, FEDERAL REGISTER notices, Pesticide Registration notices, or other public documents will be prepared.

§ of FIFRA	§ of FPA	Purpose and Timing
2	1	Rescind PEPS (Pesticide Enforcement Policy Statement); FR notice by Spring 1979.
17	16	FR notice describing new export requirements by March 29, 1979.
2	1, 27	FR notice published asking for public comment on ULV (Ultra Low Volume); comment period closed December 22, 1978. Study on advisability of ULV (Ultra Low Volume) by March 31, 1979. Regulation or advisory opinion by March 31, 1979.
3	4	FR notice describing generic standards plans in February 1979.
	27	Minor use policy statement by January 1979; Minor use study to Congress by June 30, 1979. Guidelines and/or registration regulations as needed by September 1979.

§ of FIFRA	§ of FPA	Purpose and Timing
3	6	FR notice defining "validated test" and "other significant evidence" in February 1979.
10	15	FR notice regarding trade secret policy published December 19, 1978.
14	17	New civil penalty schedule in FR by Spring 1979.
24(c)	22	Notice detailing transition policy already issued.
25	23	FR (Pesticide Regulation) notice—agricultural vs. nonagricultural by Spring 1979.
26	24	Publish names of States which have automatic authority/which § 4 plans OK by March 29, 1979.
29 (new)	24	Annual conditional registration report beginning February 15, 1979.
	27	Study to Congress on feasibility of registration fees by June 30, 1979.
28 (new)	24	Pest list by October 1, 1979. Will be published for public comment.

Dated: December 18, 1978.

STEVEN D. JELLINEK,
Assistant Administrator for Toxic Substance.

Dated: January 10, 1979.

MARVIN B. DURNING,
Assistant Administrator for Enforcement.

DEPARTMENT OF LABOR

Employment and Training Administration

COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Proposed Rules for Programs under Titles I, II, VI, and VII of the Act

[4510-30-M]

DEPARTMENT OF LABOR

Employment and Training Administration

[20 CFR Parts 675-679]

COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Regulations for Programs Under Titles I, II, VI, and VII of the Act

PROPOSED RULEMAKING

AGENCY: Department of Labor.

ACTION: Proposed rules.

SUMMARY: This document proposes new rules at 20 CFR Parts 675-679, implementing provisions of the Comprehensive Employment and Training Act Amendments of 1978 (Public Law 95-524). The purpose of this publication is to request review and comment on these proposed rules.

DATES: Comments on the proposed rulemaking are due on or before February 19, 1979.

ADDRESSES: Comments should be addressed to the Assistant Secretary for Employment and Training, U.S. Department of Labor, 601 D Street NW., Washington, D.C. 20213. Attention: Robert Anderson, Administrator, Office of Comprehensive Employment Development.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Anderson, Telephone: (202) 376-6254

SUPPLEMENTARY INFORMATION: The Comprehensive Employment and Training Act Amendments of 1978 (Public Law 95-524) was signed into law on October 27, 1978.

The new statute contains, in Section 4, provisions for transition from the programs in operation under the old law to the programs authorized under the new law. To be effective on October 27, 1978 were new eligibility requirements for participation in public service employment activities, and new language amending the criminal provisions in Title 18 of the United States Code providing for prosecution leading to imprisonment for criminal activity for obstruction of investigations.

The transition provisions further required the implementation within 90 days of enactment (that is January 26, 1979) of the new eligibility criteria for participation in all programs, and the limitations on wages and wage supplementation from other funding sources.

Also, the provisions relating to the prevention of fraud and abuse in the program were to be implemented as soon as possible. Both these provisions and the above 90 day requirements were implemented through transitional regulations (Part 93 of the CFR) published in the FEDERAL REGISTER on December 29, 1978, and effective January 26, 1979. During this transition period, the Secretary has the authority to continue operation under the previously applicable regulations, but the new law must be implemented by April 1, 1979.

To accommodate the April 1, 1979, deadline, these proposed regulations are being published for a 30 day review and comment period. This will allow the Department an opportunity to receive and reconcile comments from a nationwide audience prior to publishing final regulations which must be effective on April 1. This publication schedule also serves to orient the CETA system and the general public to the new law, and provides guidance for planning and modifying existing plans in order to comply with the new law.

The regulations included in this publication will amend Chapter 5 of Title 20 of the Code of Federal Regulations by adding parts 675 through 679. Later publications will contain regulations in parts 680 through 695. The regulations included here generally cover Titles I, II, VI, and VII of the Act.

CETA is a combination of programs which are designed to provide specific employment and training services needed to prepare and place eligible individuals in unsubsidized employment.

These different programs share a common administrative bond in Title I of the Act. Those provisions generally applicable to all CETA activity are stated in the initial title of the law and Part 676 of the regulations. Deviations from this are specifically noted as appropriate in the rest of the Act.

The programs include those under Title II of the Act for the structurally unemployed. Training, services, and public service employment in II. D are all allowable activities, but the activities are to be designed to meet the needs of each participant.

Title VI of the Act is designed to provide short term public service jobs to low income persons who are temporarily out of work because of economic conditions causing a contraction of the job market.

Title VII of the Act authorizes new initiatives in developing private sector opportunities for the economically disadvantaged. This includes the involvement of the business community in CETA, and efforts to increase employment opportunities for participants in the private sector.

The presentation of the regulations is patterned on the sequence of the Titles described above, and is based on a grouping of programs according to operator. The programs under Title II, VI, VII, are administered by units of State and Local governments, and accordingly, federal regulations for such programs are being promulgated together.

The development of the regulations has included significant and regular input from different segments of the CETA system. Meetings have been held in Washington, D.C. in August, November, and December with representatives of public interest groups, organized labor, prime sponsors, private industry groups, federal agencies, community based organization and other groups. Meetings have also been held in each region during December with the prime sponsors and interested organizations. These meetings were to review the regulations development process, and the product in draft form to that date.

By including these groups in the process from the beginning, the Department sought to ensure a final product which would be responsive to the needs of the CETA system, and which could be implemented quickly and effectively.

An implicit goal of the process is the publication of regulations which are as easy to use and understand as possible, considering the requirements of the statute and the management needs of the system. This goal has been realized to an extent with the implementation of a comprehensive administrative Part, reducing, and in many cases eliminating, the need for repetition of generally applicable provisions. To the extent possible, jargon has been reduced or eliminated, and the requirements are written in plain and precise English. Cross references within the regulations and to other laws have been kept to a minimum. Sections dealing with participant eligibility, nondiscrimination, and prevention of fraud and abuse have been consolidated for ease of reference.

In proposing these regulations, the Department has purposely undertaken a series of major objectives which are intended to enhance the effectiveness of CETA programs. These include targeting services to those persons most in need; ensuring comprehensive planning and delivery through coordination of the various employment and training opportunities; focusing on the transition of participants into unsubsidized employment; providing for improved management control to ensure the integrity and efficiency of the program; and initiating new requirements to eliminate fraud and abuse. These provisions are identified and discussed in the following paragraphs.

TARGETING SERVICES TO THOSE PERSONS MOST IN NEED

The eligibility criteria for prime sponsor programs under Titles II, VI, VII, and IV are consolidated in section 675.5 of the regulations. For each program, a person must meet criteria based on both income and employment status. Furthermore, service is to be provided equitably to the significant segments of the eligible population based on age, race, sex, and national origin, according to Section 676.54. Special consideration in enrollment shall be given Vietnam-era and disabled veterans and public assistance recipients as described in Section 676.30(a).

Within the eligible population for each prgram, efforts are to be made to serve those most in need. This will be accomplished not only through enrollment provisions, but also through designing jobs in public service employment programs to accommodate new average wage provisions and limitations on the extent to which wages may be supplemented from non-CETA resources.

COORDINATION OF PLANNING AND DELIVERY OF SERVICES

New requirements for planning provide for a much more extensive involvement within the community of groups and organizations concerned with employment and training activities. This includes private employers, the educational system, organized labor, community based organizations, (CBO's) State employment security agencies (SESA's) and other such groups. All such groups are to be involved in planning, whether included on the planning council or not, as described in Section 676.7.

TRANSITION INTO UNSUBSIDIZED EMPLOYMENT

A number of new provisions provide for a strengthened effort to transition CETA participants into unsubsidized employment. New involvement of the private sector is provided under Title VII, through the establishment of a private industry council not only to enhance planning but also to provide direct involvement by the council in the administration of programs. Such private sector involvement is also intended to enhance the design of programs under other titles.

Particular effort is to be undertaken in Title VI for the transition of public service employment participants into unsubsidized jobs through the designation of 10 percent of funds in FY 1979 and 5 percent in subsequent fiscal years for training, counseling and other services to assist in such transition. Employability plans are required for participants in Title II programs, and are principally intended to assist in guiding participants through activities and into unsubsidized employment in a more effective manner.

IMPROVED PROGRAM MANAGEMENT

Central to improving the effectiveness of CETA programs is the development of a strengthened management capacity. Implementing monitoring and eligibility verification systems is to be the basis for eliminating fraud and abuse and limiting the number of ineligible participants in program. Instituting assessment systems to continually determine program effectiveness is intended to provide the basis for correcting problems and enhancing program planning. Better and more timely systems for handling complaints will serve to make the program more responsive to problems. Enhancing the overall management control of programs will serve to effectively assist participants.

PREVENTION OF FRAUD AND ABUSE

Part 676, subpart E describes on a consolidated basis the requirements to prevent program fraud and abuse. Included are new requirements for prime sponsor systems to eliminate such abuse, including an independent monitoring unit and participant eligibility determination systems. Also included in Part 676, Subpart F are new requirements to improve the consideration of complaints and the provision of hearings. Procedures for disallowance of improper costs or activities and the application of sanctions are described in this subpart.

The Department of Labor has also proposed in these regulations new procedures for on-the-job training. Section 676.25(b), has been revised to streamline the OJT process in order to place as few administrative burdens as possible on participating employers while still satisfying the requirements of the Act. The section reflects comments made at meetings on OJT throughout the country attended by representatives of business, labor, educational agencies, CBO's, recipients, GAO, Congress, and DOL audit and Solicitor staff, as well as over 400 responses to a questionnaire sent to interested parties on the OJT process.

The Department also is examining the provisions of § 676.24 regarding equitable service in CETA programs to the significant segments of the population according to race, age, sex, and national origin. During the past two years, prime sponsors have been required to plan service levels to such segments within 15 percent of their incidence in the eligible population. The new law requires the continuation of the equitable service approach. However, questions have been raised regarding the latitude provided by the 15 percent benchmark. Particular concern has also been indicated regarding the sufficiency of local data on which to base planning. Accordingly, comment is specifically requested on establishing requirements that will afford the effective implementation of this provision in the law. It is the intent of the Department to examine options (such as reducing the benchmark to 10 percent) and consider comments in anticipation of revising the requirements for providing equitable service for FY 1980.

The Department has also undertaken a revision of the administrative cost provisions for Title VII programs. Due to the unique nature of many of the activities anticipated under Title VII, the "services" cost category has been expanded for Part 679 to include activities which are employment generating, but which are not directly related to the immediate training or employment of participants.

Provisions implementing new statutory requirements for the use of CETA funds for retirement benefits are included at § 676.28. Comment is particularly requested for new provisions for retirement benefits included in package arrangements.

The Department has involved both DOL and prime sponsor staff in the development of revised grant procedures, particularly the structure of the Master Plan and Annual Plan. The structure as presented in these regulations is intended to include as many provisions as possible in the Master Plan in order to not require yearly descriptions which do not change. The annual plan has been structured in a manner to eliminate duplicate descriptions among Titles. Full procedures for the development of the comprehensive employment and training plan are to be included in the *Forms Preparation Handbook*.

The *Forms Preparation Handbook* is cited in numerous sections of these regulations as containing more detailed or specific descriptions of requirements. Many organizations have requested an opportunity to also comment on the handbook. We are hereby advising the public of the opportunity to comment by requesting a copy of the draft handbook from Mr. Robert Anderson at the address noted above. Such comment should be provided within the 30 day period from the time when the handbook is generally made available.

Concern has been expressed regarding anticipated changes in the manner in which the CETA program may be charged for its share of administrative costs previously paid by the local jurisdiction. This is normally done according to procedures described in Federal Management Circular 74-4. The possibility of restricting charges to CETA to those additional administrative costs which result only from the CETA program is under consideration. We would welcome comments on this question, particularly as to the

V 4 4 / 1 4 J A 1 9 7 9 UMI

manner in which this would affect indirect cost computation.

New provisions are included in the Act regarding audit procedures including unified audit arrangements. The Department is undertaking a careful examination of such requirements in order to provide more specific guidance on audit provisions in the final regulations than is included in these proposed regulations. Part of this examination shall include consultation with prime sponsor jurisdictions. Specific comment is requested on such new audit requirements.

Accordingly, Title 20 of the CFR, Parts 675–695, is proposed to be added as follows:

PART 675—INTRODUCTION OF THE REGULATIONS

Sec.

675.1 Scope and Purpose of the Act.
675.2 Format of these Regulations.
675.3 Table of Contents.
675.4 Definitions.
675.5 Eligibility.
675.6 Intake and Assessment.

AUTHORITY: Sec. 126 of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), unless otherwise noted.

§ 675.1 Scope and purpose of the Act.

(a) It is the purpose of this Act to:

(1) Provide training and employment opportunities to increase the earned income of economically disadvantaged, unemployed, or underemployed persons;

(2) Establish a flexible, coordinated and decentralized system of Federal, State, and local programs so that services will lead to maximum employment opportunities and enhance self-sufficiency; and

(3) Provide for the coordination of programs, under CETA with other employment and training related and social service programs, economic development, community development, and related activities, such as vocational education, vocational rehabilitation, public assistance, self-employment training, and social service programs.

(b) *The Act is comprised of eight titles.* (1) Title I sets forth the administrative provisions governing programs under the other titles.

(2) Title II establishes programs administered by State and local prime sponsors to provide comprehensive employment and training services for economically disadvantages persons.

(3) Title III establishes national programs administered by the Secretary:

(i) To provide employment and training services for groups of persons with disadvantages in specific and general labor markets or occupations.

(ii) To provide comprehensive employment and training programs for Indians and Native Americans, and for migrant and seasonal farmworkers;

(iii) To provide research, and technical assistance programs and to evaluate activities under CETA.

(4) Title IV establishes a broad range of coordinated employment and training programs for youth.

(5) Title V establishes a National Commission for Employment Policy to examine issues of development, coordination and administration of employment and training programs, and to advise the President and the Congress on these issues.

(6) Title VI authorizes temporary employment in public service jobs during periods of high unemployment.

(7) Title VII authorizes activities to increase the involvement of the private sector in employment and training activities.

(8) Title VIII establishes a Young Adult Conservation Corps to provide conservation work on public lands and waters and other benefits to youth.

§ 675.2 Format for these regulations.

(a) Regulations promulgated by the Department of Labor to implement the new provisions of the Act and are set forth in Parts 675 through 695 of Title 20 of the Code of Federal Regulations.

(b) Statutory authority for the regulations is found at section 126(a)(1) of the Act. Specific statutory authorities other than section 126(a)(1) are noted throughout the regulations.

§ 675.3 Table of contents.

PART 675—INTRODUCTION OF THE REGULATIONS

Sec.

675.1 Scope and Purpose of the Act.
675.2 Format of These Regulations.
675.3 Table of Contents.
675.4 Definitions.
675.5 Eligibility.
675.6 Intake and Assessment.

PART 676—GENERAL PROVISIONS

SUBPART A—GRANT PROCEDURES

676.1 General.
676.2 Prime Sponsor Applicants.
676.3 Preapplication for Federal Assistance.
676.4 Consortium Agreements.
676.5 Prime Sponsor Designation.
676.6 Planning Process.
676.7 Prime Sponsor Planning Councils.
676.8 Area Planning Bodies.
676.9 Comprehensive Employment and Training Plan (CETP)
676.10 Master Plan.
676.11 Annual Plan.
676.12 Comment and Publication Procedures.
676.13 Submission of CETP.
676.14 Review, Approval and Disapproval of the CETP.
676.15 Use of Alternative Prime Sponsors; Services by the Secretary.
676.16 Modifications.

SUBPART B—PROGRAM DESIGN AND MANAGEMENT

676.21 General Responsibilities of CETA.
676.22 Program Management Systems.
676.23 Program Linkages and Selection of Deliverers.
676.24 Labor Organization Consultation and/or Concurrence.
676.25 Employment and Training Activities.
676.26 Compensation for Participants.
676.27 General Benefits and Working Conditions for Program Participants.
676.28 Retirement Benefits for Program Participants.
676.29 Non-Federal Status of Participants.
676.30 Termination Conditions; Participant Limitations.
676.30a Procedures for Serving Specific Target Groups.

SUBPART C—ADMINISTRATIVE STANDARDS

676.31 General.
676.32 Methods of Payment to Recipients of CETA Funds.
676.33 Depositories.
676.34 Management Information Systems.
676.35 Retention of Records.
676.36 Program Income.
676.37 Recipient Contracts and Subgrants.
676.38 Procurement Standards.
676.39 Property Management Standards.
676.40 Allowable Costs Under CETA.
676.41 CETA Costs Allocation.
676.42 Administrative Cost Annual Plan Supplement.
676.43 Administrative Staff and Personnel Standards.
676.44 Reporting Requirements for Prime Sponsors.
676.45 Annual Plan Subpart.
676.46 Secretary's Responsibilities.
676.47 Reallocation of Funds Based on Nonutilization.

SUBPART D—EQUAL OPPORTUNITY

676.51 General.
676.52 Nondiscrimination and Equal Employment Opportunities.
676.53 Affirmative Action.
676.54 Equitable Provision of Services to Significant Segments of the Eligible Population.

SUBPART E—PREVENTION OF FRAUD AND PROGRAM ABUSE

676.61 General.
676.62 Conflict of Interests.
676.63 Kickbacks.
676.64 Commingling of Funds.
676.65 Charging of Fees.
676.66 Nepotism.
676.67 Child Labor.
676.68 Political Patronage.
676.69 Political Activities.
676.70 Lobbying Activities.
676.71 Sectarian Activities.
676.72 Unionization and Antiunionization Activities/Work Stoppages.
676.73 Maintenance of Effort.
676.74 Theft or Embezzlement from Employment and Training Funds; Improper Inducement; Obstruction of Investigations and Other Criminal Provisions.
676.75 Responsibilities of Recipients and Subrecipients for Preventing Fraud and Program Abuse and for General Program Management.
676.76 Action Required of the Secretary.

SUBPART F—COMPLAINTS, INVESTIGATIONS, AND SANCTIONS

676.81 Scope and Purpose.
676.82 Non-Adjudicative Procedures; Investigation; Compulsory Processes.
676.83 Complaint and Hearing Procedures at the Recipient Level.
676.84 Exhaustion of Recipient Level of Procedure.
676.85 Complaints, Investigations and Hearing Procedures at the Federal Level.
676.86 Grant Officer's Final Determination; Request for Hearing.
676.87 Rules of Procedure.
676.88 Hearings.
676.89 Post-Hearing Procedures.
676.90 Final Action, Judical Review.

PART 677—PROGRAMS UNDER TITLE II

SUBPART A—GENERAL PROVISIONS

677.1 Purpose.
677.2 Participant Assessment.
677.3 Agreements with State or Local Educational Agencies.

SUBPART B—TRAINING ACTIVITIES FOR THE ECONOMICALLY DISADVANTAGED

677.11 Purpose.
677.12 Participant Eligibility.
677.13 Program Activities under Title IIB.
677.14 Allocation of Funds.
677.15 Annual Plan Subpart.
677.16 Administrative Limitations.

SUBPART C—UPGRADING AND RETRAINING

677.21 Purpose.
677.22 Eligibility for Participation.
677.23 Activities and Services.
677.24 Agreement with Employers.
677.25 Compensation and Benefits to Participants.
677.26 Reimbursement to Employers.

SUBPART D—SPECIAL GRANT FOR GOVERNORS

677.31 Purpose.
677.32 Allocation of Funds.
677.33 Grant Application; Annual Plan.
677.34 Government Distribution of Vocational Educational Funds.
677.35 Nonfinancial Agreement Between Prime Sponsor and Vocational Education Board.
677.36 State Employment and Training Council.
677.37 Governor's Coordination and Special Services.
677.38 Coordination and Establishment of Linkages with Education Agencies.
677.39 Vocational Educational Activities.
677.40 Funding; Grant Administration.
677.41 Reporting.
677.42 Coordination with Prime Sponsor.

SUBPART E—TRANSITIONAL EMPLOYMENT OPPORTUNITIES FOR THE ECONOMICALLY DISADVANTAGED

677.51 Purpose.
677.52 Participant Eligibility.
677.53 Activities and Services.
677.54 Eligibility for Funds.
677.55 Allocation of Funds.
677.56 Annual Plan Subpart.
677.57 Wages and Wage Supplementation.
677.58 Special Cost Provisions.

PART 678—PUBLIC SERVICE EMPLOYMENT PROGRAMS UNDER TITLE VI

678.1 Purpose.
678.2 Participant Eligibility.
678.3 Activities and Services.
678.4 Eligibility for Funds.
678.5 Allocation of Funds.
678.6 Annual Plan Subpart.
678.7 Wages and Wage Supplementation.
678.8 Special Cost Provisions.

PART 679—PRIVATE SECTOR INITIATIVE PROGRAM FOR THE ECONOMICALLY DISADVANTAGED

679.1 Scope and Purpose.
679.2 Private Industry Councils.
679.3 Allocation of Funds.
679.4 Annual Plan Subpart.
679.5 Administrative Standards and Procedures.
679.6 Program Operations.

PARTS 680–695 [RESERVED]

§ 675.4 Definitions.

Academic Credit means credit for education, training or work applicable toward a secondary school diploma, a postsecondary degree, or an accredited certificate of completion, consistent with applicable State law and the requirements of an accredited educational agency or institution.

Act means the Comprehensive Employment and Training Act of 1973.

Annual Plan means that part of the Comprehensive Employment and Training Plan which consists of the yearly description of program activities and services to be provided by prime sponsors.

Appropriate Labor Organizations means a local labor organization that has jurisdiction to represent employees in the prime sponsor's area in the same or substantially equivalent jobs as those for which recipients provide, or propose to provide, employment and training under the Act.

Architectural Barriers means physical conditions of a building or facility which reduce the accessibility to or usefulness of such building or facility to the physically handicapped.

Area of Substantial Unemployment (ASU) means an area within a prime sponsor's jurisdiction:

(1) Which has a population of at least 10,000;

(2) In which all the units which comprise the area (census tracts, census divisions, cities, counties, etc.) are contiguous; and

(3)(i) Which has an average unemployment rate of at least 6.5 percent for the most recent twelve-month period, as determined by the Bureau of Labor Statistics (BLS); or

(ii) Which for fiscal year 1979, and for Parts A, B, and C of Title II of the Act for all fiscal years, has an average unemployment rate of at least 6.5 percent for any three consecutive months during the most recent 12-month period as determined by the Bureau of Labor Statistics.

Artificial Barriers to Employment means limitations (such as: age, sex, race, national origin, parental status, credential requirements, criminal record, lack of child care, physical or mental status and absence of part-time or alternative working patterns/schedules) in hiring, firing, promotion, licensing, and conditions of employment which are not directly related to an individual's fitness or ability to perform the tasks required by the job.

Balance of State (BOS) means the area which consists of all areas within a State which are not within the jurisdictions of local prime sponsors and, therefore, are served by the State acting as the prime sponsor.

Capital Improvement means any modification, addition, restoration or other improvement:

(1) Which increases the usefulness, productivity, or serviceable life of an existing building, structure, or major item of equipment;

(2) Which is classified for accounting purposes as a "fixed asset"; and

(3) The cost of which increases the recorded value of the existing building, structure, or major item of equipment and is subject to depreciation.

CETA means the Comprehensive Employment and Training Act.

Community Based Organization (CBO) means a private nonprofit organization which is representative of the community or a significant segment of a community, and which provides employment and training services and/or activities. (Examples include: Opportunities Industrialization Centers, the National Urban League, SER-Jobs for Progress, United Way of America, Mainstream, the National Puerto Rican Forum, agencies serving women, neighborhood groups and organizations, community action agencies, community development corporations, vocational rehabilitation organizations, rehabilitation facilities (as defined in Sec. 7(1) of the Rehabilitation Act of 1973), agencies serving youth, union-related organizations, and employer-related nonprofit organization).

Comprehensive Employment and Training Plan (CETP) means the approved plan under which a prime sponsor operates programs under the Act.

Construction means the erection, installation, assembly or painting of a new facility or a major addition, expansion, or extension of an existing facility, and the related site preparation, excavation, filling and landscaping or other land improvements.

Contract means a procurement instrument by which the Department, a recipient, or a subrecipient pays for property, services, supplies, materials or equipment.

Contractor means any person, corporation, partnership, public agency, or other entity which enters into a contract with the DOL, a recipient or a subrecipient under the Act.

Consumer Price Index means the "All Urban Consumer Index" as determined by the Bureau of Labor Statistics (BLS).

Department means the United States Department of Labor (DOL) including its agencies and organizational units.

Dependent means:

(1) Any relative for whom the participant or applicant has assumed a responsibility for support, and who is either:

(i) A member of the immediate household; or

(ii) One of the following relatives:

(A) A parent of the participant;

(B) A child of the participant;

(C) A relative of the participant who is unemployed because of a physical or mental disability; or

(2) Any individual who is currently being supported by the participant, is a member of the participant's immediate household, and during the preceding twelve months earned less than $1,000.

Displaced Homemaker means an individual who:

(1) Has not worked in the labor force for a substantial number of years but has, during those years, worked in the home providing unpaid services for family members; and

(2) (i) Has been dependent on public assistance or on the income of another family member but is no longer supported by that income; or

(ii) Is receiving public assistance on account of dependent children in the home; especially where such assistance will soon be terminated; and

(3) Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

DOL, see *Department*.

Economically Disadvantaged means a person who is either:

(1) A member of a family which receives public assistance;

(2) A member of a family whose income during the previous 6 months on an annualized basis, was such that

(i) The family would have qualified for public assistance, if it had applied for such assistance; or

(ii) It does not exceed the poverty level; or

(iii) It does not exceed 70 percent of the lower living standard income level;

(3) A foster child on whose behalf State or local government payments are made;

(4) A client of a sheltered workshop;

(5) A handicapped individual with a family income of 100 percent or less of the Lower Living Standard Income level.

(6) A person confined to an institution or facility providing 24 hour support such as a prison or hospital; or

(7) A regular out patient of a mental hospital, rehabilitation facility or similar institution.

Employing Agency means any public or private nonprofit employer which employs PSE or work experience participants.

Entry Level means the lowest position in any promotional line, as defined locally by collective bargaining agreements, past practice, or applicable personnel rules.

Family means, except as provided in paragraph (2) or (3):

(1) One or more persons living in a single residence who are related to each other by blood, marriage, or adoption. A step-child or a step-parent shall be considered to be related by marriage.

(2) Except for any person who would be eligible for assistance under Title V of the Older Americans Act of 1965 or a handicapped individual who is 16 years of age or older, any one claimed as a dependent on another person's Federal Income Tax return for the previous year shall be presumed, unless otherwise demonstrated, to be a part of that person's family for the current year.

(3) An individual 18 or older, except as provided in (2) above, who receives less than 50 percent of his/her maintenance from the family, and who is not the head nor the spouse of the head of the household, shall not be considered a member of the family. Such an individual shall be considered a family of one living in group quarters.

Family Income means all income actually received from all sources by all members of the family.

(1) Family income shall include:

(i) Gross wages and salary (before deductions), except wages paid for work experience under the Act, but including wages and salary received by individuals in public service employment or on-the-job training;

(ii) Net self-employment income (gross receipts minus operating expenses);

(iii) Other money income received from sources such as net rents, OASI social security benefits, pensions, allmony, child support, and periodic income from insurance policy annuities, and other sources of income.

(2) Family income shall exclude:

(i) Non-cash income such as food stamps, or compensation received in the form of food or housing;

(ii) Imputed value of owner-occupied property, i.e., rental value;

(iii) Public assistance payments;

(iv) Cash payments received pursuant to a State plan approved under Titles I, IV, X, or XVI of the Social Security Act, or disability insurance payments received under Title II of the Social Security Act;

(v) Federal, State or local unemployment benefits;

(vi) Payments made to participants in employment and training programs, except wages paid for PSE and OJT;

(vii) Capital gains and losses;

(viii) One time, unearned income, such as but not limited to:

(A) Payments received for a limited fixed term under income maintenance programs and supplemental (private) unemployment benefits plans;

(B) One-time or fixed-term scholarship and fellowship grants;

(C) Accident, health, and casualty insurance proceeds;

(D) Disability and death payments, including fixed term (but not lifetime) life insurance annuities and death benefits;

(E) Inheritance, including fixed term annuities;

(G) Fixed term workers' compensation awards;

(H) Terminal leave pay;

(I) Soil bank payments;

(J) Agriculture crop stabilization payments;

(ix) Pay or allowances which were previously received by any veteran while serving on active duty in the Armed Forces; and

(x) Educational assistance and compensation payments to veterans and other eligible persons under Chapters 11, 13, 31, 34, 35, and 36 of Title 38, United States Code.

(xi) Payments received under the Trade Readjustment Act of 1974 and the Redwood Forest Act of 1978.

Federal Reservation means lands as identified by the Bureau of Indian Affairs which have been set aside for Indian tribes and for which the United States is trustee, or non-trust land under the tribal jurisdiction.

Financial Assistance means any grant, loan, or any other arrangement (other than a procurement contract or a contract of insurance or guaranty) by which the Department provides or otherwise makes available assistance in the form of:

(1) Funds;

(2) Services of Federal personnel; or

(3) Real and personal property or any interest in or use of such property, including:

(i) Transfers or leases of such property for less than fair market value or for reduced consideration; and

(ii) Proceeds from a subsequent transfer or lease of such property if the Federal share of its fair market value is not returned to the Federal Government.

Governor means the chief executive, or her/his designee, of any State.

Handicapped Individual means any person who has a physical or mental disability which, at the time of enrollment, constitutes in a substantial barrier to employment and the individual

is unemployed as a result of this disability, as determined by the prime sponsor.

Hawaiian Native—means any individual whose ancestors were natives, prior to 1778, of the area which now consists of the Hawaiian Islands.

Indian or Alaskan Entity means an Indian tribe, band, or group, or an Alaskan native village or corporation or a private nonprofit Indian or Alaskan organization.

In-School Youth means a person age 14 to 24 inclusive, who:

(1) Is currently enrolled full-time in, and attending, a secondary, trade, technical, vocational school or community college or is scheduled to attend full-time the next regularly scheduled quarter or semester of any of these schools; or

(2) Has not completed high school and is scheduled to attend a program leading to a secondary school diploma or its equivalent.

Job restructuring means:

(1) The procedure which includes:

(i) Identifying the separate tasks that comprise a job or group or jobs;

(ii) Developing new positions descriptions which retain some of the tasks of the original job; and

(iii) Developing a career ladder which builds upward from the new positions containing the lesser skilled tasks to regular jobs.

(2) A restructured job shall be clearly different from the original one in terms of skills, knowledge, abilities, and experience needed to perform the work. (sec. 432(a)(3)(L)).

Local Education Agency means:

(1) Except for purposes of Youth Employment and Training Programs (YETP) under Part 680, a board of education or other legally constituted local school authority having administrative control and direction of public elementary or secondary schools in a city, county, township, school district, or politicial subdivision in a State, or any other public educational institution or agency having administrative control and direction of a vocational education program;

(2) For purposes of YETP under Part 680, a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivison of a State, or a combination of such school districts or counties which are recognized in a State as an administrative agency for their public elementary or secondary schools.

Lower Living Standard Income Level means that income level (adjusted for selected Standard Metropolitan Statistical Areas and regional metropolitan and non-metropolitan differences and family size) determined annually by the Secretary based upon the most recent lower living family budget issued by the Bureau of Labor Statistics.

Low Income Housing means:

(1) Those dwellings which are occupied by persons whose family income does not exceed 125 percent of the poverty level, and which are either:

(i) Owned by the occupant;

(ii) Publicly owned; or

(iii) Owned by a private nonprofit organization.

(2) For weatherization or winterization projects funded and approved by the Federal Energy Administration, "Low Income Housing" shall include privately owned rental housing.

Low Income Level means $7,000 with respect to income in 1969, and for any later year means that amount which bears the same relationship to $7,000 as the Consumer Price Index for that year bears to the Consumer Price Index for 1969, rounded to the nearest $1,000.

Master Plan means that part of the Comprehensive Employment and Training Plan (CETP) which serves as the long-term agreement between the Department and a prime sponsor.

Offender means any adult or juvenile who is or has been subject to any stage of the criminal justice process for whom employment and training services may be beneficial or who requires assistance in overcoming artificial barriers to employment resulting from a record of arrest or conviction.

Participant means an individual who is eligible for, and takes part in, activities under provisions of the Act or receives services funded under the Act, except for an individual who receives only outreach and intake services. An individual applicant becomes a participant when:

(1) The individual is declared eligible upon intake; and

(2) The individual receives employment, training or services funded under the Act following intake, except for an individual who receives only outreach and/or intake services.

Placement means the act of securing unsubsidized employment for or by a participant.

Poverty Level means that annual income level at, or below, which families are considered to live in poverty, as annually determined by the Office of Management and Budget.

Prime Sponsor A recipient of financial assistance designated pursuant to § 676.5.

Program Agent means:

(1) A unit of general local government with a population of at least 50,000 within the jurisdiction of a single prime sponsor,

(2) A combination of units of general local government (preferably contiguous) with a total population of at least 50,000 within the jurisdiction of a single prime sponsor which possesses:

(i) The legal authority to receive funds and to transact business throughout its jurisdiction in accordance with the Act and regulations; and

(ii) The administrative capability to plan, administer and operate an employment and training program.

Program of Demonstrated Effectiveness means a program which has demonstrated the capacity to achieve planned goals at reasonable costs within acceptable timeframes, and is either; (1) a program which has demonstrated to the prime sponsor that it has performed effectively within the prime sponsor's jurisdiction, or (2) a program which can demonstrate to the prime sponsor that it has carried out effectively a similar program under similar circumstances in other jurisdictions and can carry out such program effectively within the prime sponsor's jurisdiction.

Project means:

(1) For the purpose of public service employment in Parts 677 and 678, a definable task or group of related tasks which will be completed within eighteen months, has a public service objective, will result in a specific product or accomplishment, and would otherwise not be done with existing funds;

(2) For the purposes of Youth Community Conservation and Improvement Projects in Part 680, an activity which provides constructive work, conducted by youth, under the guidance of skilled supervisors, which (1) results in tangible outputs or a specific product; (2) benefits the participants in terms of work habits, skills, and attainment of academic credit where applicable; and (3) will be completed within a definable period of time not to exceed 12 months (sec. 421).

Project Applicants means States and agencies thereof, units of general local government and agencies thereof, combination or associations of such governmental units when the primary purposes of such combinations or associations is to assist such governmental units to provide public service, special purpose political subdivisions having the power to levy taxes and spend funds or serving such special purpose within an area served by one or more units of general local government, local educational agencies, institutions of higher education, community based organizations, nonprofit groups and organizations serving Native Americans, and other private nonprofit organizations or institutions engaged in a public service.

Public Assistance means Federal, State, or local government cash payments for which eligibility is determined by a need or income test.

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 / 1 4 J A 1 9 7 9 UMI

Public Service means the type of service normally provided by government and includes, but is not limited to, work (including part-time work) in such fields as environmental quality, child care, health care, education, crime prevention and control, prisoner rehabilitation, transportation, recreation, maintenance of parks, streets and other public facilities, solid waste removal, pollution control, housing and neighborhood improvement, rural development, conservation, beautification, veterans outreach, development of alternative energy technologies, and other fields of human betterment and community improvement.

RA means Regional Administrator of the Employment and Training Administration.

Recipient means State or local government, a Federally recognized Indian tribal government, a public or private institution of higher education, a public or private hospital, an Indian or Native American entity other than a Federally recognized Indian tribal government, or other quasi-public or private profit or nonprofit organization which receives financial assistance directly from DOL, through a grant to perform substantive work under the Act (employment, training, supportive services, etc.). Recipients do not include contractors as defined in this section.

Residence means an individual's permanent dwelling or home. Maintenance of an address is not necessarily the same as residence.

Secretary means the Secretary of Labor.

Significant Segments means the groups of the population identified in terms of the following demographic characteristics: age, sex, race, and national origin.

Special Disabled Veteran means a person who served in the Armed Forces and was discharged or released, with other than a dishonorable discharge, and who had been given a disability rating of 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.

State means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Marianas Islands, American Samoa, and the Trust Territory of the Pacific Islands.

State Employment Security Agency (SESA) means the State agency which exercises control over the Unemployment Insurance Service and the Employment Service.

Subrecipient means any person, organization or other entity which receives financial assistance under CETA through a recipient to carry out substantive work (e.g., employment, training, supportive services).

Underemployed person means:

(1) Persons who are working part time but seeking full time work; or

(2) Persons who are working full time but receiving wages, not in excess of, the higher of either:

(i) The poverty level; or

(ii) 70 percent of the lower living standard income level.

Unemployed person means for purposes of determining eligibility:

(1) A person who is without a job for at least seven consecutive days prior to application for participation. A person shall be considered as being without a job if, for seven consecutive days, such person:

(i) Worked no more than 10 hours; and

(ii) Earned no more than $30; and

(iii) Was seeking and available for work; or

(2) A person who is:

(i) A client of a sheltered workshop;

(ii) A prisoner eligible for, or in, a work release program, or

(iii) Institutionalized in a hospital or similar institution; or

(3) A person who is 18 years of age or older whose family receives public assistance, or whose family would be eligible to receive public assistance if both parents were not present in the home; or

(4) A person who is a veteran who has not obtained permanent unsubsidized employment since being released from active duty. Such person shall be considered to meet "unemployed" eligibility requirements regardless of the specific term of unemployment required.

Unit of general local government means any city, municipality, county, town, township, parish, village, or other general purpose political subdivision which has the power to levy taxes and spend funds, as well as general corporate and police powers.

Veteran means a person who:

(1) Served on active duty for more than 180 days, and was released with other than a dishonorable discharge; or

(2) Was discharged or released from active duty for a service connected disability.

Veterans Outreach means the recruitment, counseling, and registration of eligible veterans for participation in appropriate employment and/or training programs provided under the Act and under acts administered by the Veterans Administration.

Vietnam-era Veteran means a veteran under 35 years of age who served on active duty between August 5, 1964, and May 7, 1975 and who was discharged or released within four years preceding application for this part.

§ 675.5 Eligibility requirements to participate in programs under CETA.

(c) All recipients shall establish effective systems to determine participant eligibility in accordance with § 675.75(d). To assist in eligibility determination, a consolidated list of all eligibility requirements for programs administered by prime sponsors under CETA is presented in this section.

(b) Participants shall be limited to citizens of the United States, United States Nationals, permanent resident aliens, or other aliens who have been permitted to accept permanent employment in the United States by the Immigration and Naturalization Service. (sec. 132(e) and 121(p)).

(c) Participants may be transferred from one activity under the Act into another activity under the Act administered by the same prime sponsor only if they met the eligibility requirements for such other activity or title at the time that they were originally determined eligible for their first CETA activity, except that if the second activity has an age limitation, participants shall meet the age limitations upon being transferred into that activity or title.

(d) The following eligibility requirements for each program must be met at the time of enrollment into a program activity, except as provided in paragraph (c) above, or as otherwise provided in this section.

(e)(1) For programs described in Subpart B of Part 677, a person shall be

(i) Economically disadvantaged; and

(ii) Unemployed, underemployed, or an in-school youth. (sec. 213).

(2) For Upgrading programs described in Subpart C of Part 677.

(i) A person must be:

(A) Operating at less than full skill potential, and

(B) Working for at least the prior six months with the same employer in an entry level, unskilled or semi-skilled position, or a position with little or no advancement opportunity in a normal promotional line;

(ii) Priority consideration shall be given to those workers who have been in entry level positions for the longest period of time, and who have potential for upward mobility.

(3) For Retraining programs described in Subpart C of Part 677, a person must (i) Have received a bona fide notice of impending layoff within the last 6 months; and

(ii) Have been determined by the prime sponsor with the assistance of the local Employment Service as having little opportunity to be reemployed in the same or an equivalent occupation or skill level within the labor market area.

(4) For programs under the Special Grants for Governors described in

Subpart D of Part 677, a person must be economically disadvantaged, and unemployed, underemployed or an in-school youth, except for Public Service Employment for which the eligibility requirements are the same as those for Title II D or VI which are described in paragraph (f) or (g) of this section.

(f) For Title II D PSE programs described in Subpart E of Part 677, a person must:

(1) (i) Be economically disadvantaged, be unemployed at the time of enrollment, and have been unemployed during 15 of the 20 weeks immediately prior to enrollment; or

(ii) Be a member of a family which is receiving public assistance (sec. 236(a)); and

(2) Reside within the prime sponsor's jurisdiction except that:

(i) As authorized under the following paragraph, a program agent or a unit of general local government with a population of 100,000 or more which is not a prime sponsor, may not hire persons outside of its jurisdiction nor may their prime sponsors hire persons from their jurisdictions. This does not require the layoff of participants eligible under the residency requirements that were applicable at the time of their selection; and

(ii) A prime sponsor, program agent or unit of general local government with a population of 100,000 or more which is not a prime sponsor may receive additional funds as a subrecipient of another such entity only to enroll residents of such other jurisdictions;

(3) Not have within the immediately prior six months voluntarily terminated, without good cause, his or her last previous full-time employment at a wage rate not less than the Federal minimum wage under Section 6(a)(1) of the Fair Labor Standards Act, or the State or local minimum wage, if higher, (Sec. 122(n)).

(g) For Title VI PSE programs described in Part 678, a person must:

(1) Reside within the prime sponsor's jurisdiction as provided in § 675.5(f); and

(2) (i) (A) Be unemployed at the time of enrollment; and

(B) Have been employed for at least 10 out of 12 weeks immediately prior to enrollment; and

(C) Have a family income as defined in § 675.4 which does not exceed 100 percent of the lower living standard income level based on the three-month period prior to the individual's application for participation, or

(ii) Be a member of a family which has been receiving public assistance for 10 of the last 12 weeks (sec. 236(a)).

(3) The provisions of § 675.5(f)(3) shall apply to the eligibility of persons who voluntarily terminated their last employment (sec. 122(n));

(h) For programs described in Part 679, Private Sector Initiative Program, the eligibility requirements are the same as set forth for Title II B paragraph (e)(1) of this section.

(i) (1) For Youth Employment and Training Program (YETP) programs described in Subpart A of 680, except as provided in paragraph (j) of this section, at the time of enrollment a youth must: (sec. 435)

(i) Be unemployed or underemployed or in school;

(ii) Be 16 through 21 years of age inclusive; and

(iii) Be a member of a family with a total family income at or below 85 percent of the lower living standard income level; and

(2) Preference shall be given to economically disadvantaged youth. Appropriate efforts shall be made to give service to those youth who have severe handicaps in obtaining employment, such as those who lack credentials (such as high school diploma), require substantial basic and remedial skill development, are women or minorities, or veterans, or offenders, or handicapped individuals, or have dependents or those who otherwise demonstrated special needs as determined by the Secretary (sec. 444(a)).

(3) A youth may not be enrolled in full-time employment opportunities if:

(i) The youth has not attained the age with respect to which any requirement of compulsory education ceases to apply, under the laws of the State in which such individuals reside except:

(A) During periods when school is not in session; and

(B) If employment is undertaken in cooperation with school-related programs awarding academic credit for work; or

(ii) The youth has not attained a high school degree or its equivalent and it has been determined, by the prime sponsor that the youth dropped out of high school in order to participate in YETP (sec. 443(f)).

(j) For YETP programs (extraordinary):

(1) Individuals otherwise eligible under paragraph (i) above who are in school, and who are 14 or 15 years old, may participate when the YETP plan specifies a youth development strategy which provides broad career exposure for these youths (sec. 435).

(2) Youth need not meet the income criteria described in paragraph (i)(1)(iii) above, if they participate in a special component, as described in § 680.11(d) (sec. 435), which provides for the participation of youth of various income levels.

(3) Youths, who do not meet the income criteria defined in paragraph (i)(1)(iii) above, and who are not in a special component described in § 680.11(d) may be given only the following services:

(i) Counseling, including occupational information;

(ii) Occupational, education, and training information including information on apprenticeship training;

(iii) Placement services;

(iv) Job referral information through coordinated intake systems; and/or

(v) Assistance in overcoming employment related sex-stereotyping in job development, placement, counseling, and guidance.

(k) (1) For Youth Community Conservation Improvement Projects (YCCIP) described under Subpart B 680; at the time of enrollment a youth must be:

(i) 16 through 19 years of age, inclusive; and

(ii) Unemployed.

(2) Preference shall be given to economically disadvantaged youth.

(3) Appropriate efforts shall be made to serve youths who have severe handicaps in obtaining employment, as described in paragraph (i)(2) above (sec. 444(a)).

(4) A youth may not be enrolled in full-time employment opportunities if:

(i) The youth has not attained the age with respect to which any requirement of compulsory education ceases to apply under the laws of the State in which such individuals reside, except:

(A) During periods when school is not in session; and

(B) If employment is undertaken in cooperation with school-related programs awarding academic credit for work experience; or

(ii) The youth has not attained a high school degree or its equivalent and it has been determined by the prime sponsor that the youth dropped out of high school in order to participate in YCCIP (sec. 443)).

(5) Each participant shall be limited to a maximum enrollment of 12 months with no more than two terminations and reenrollments, provided age eligibility is met at the time of each reenrollment.

(l) For Summer Youth Employment Programs (SYEP) described in Subpart C of Part 680; a youth must be:

(1) At the time of application, economically disadvantaged; and

(2) At the time of enrollment 14 through 21 years of age inclusive (sec. 402)

(m) Eligibility requirements for programs in Parts 680–695 are found in the specific regulations for those programs.

§ 675.6 Intake and assessment.

(a) Each recipient of funds shall, at the time of intake, assess every indi-

V 4 4 / 1 4 JAN 19 79

vidual to determine what activities and services are most appropriate for that individual. Recipients shall ensure that every participant is afforded services or activities which will enable him or her, to obtain unsubsidized employment and increase earned income.

(b) Recipients shall establish appropriate mechanisms to ensure that available employment and training activities available under the grant are provided to those most in need (sec. 103(a)(5)(A)).

(c) Recipients shall afford participants an opportunity to participate in the full range of program activities and services available.

(d) Enrollment and referral of participants to activities shall be based on the initial assessment at intake. For example, participants who are structurally unemployed shall be assigned to activities which are designed for the structurally unemployed. In making these determinations, recipients shall plan for the utilization of all available CETA and community resources, such as those from SESA, the prime sponsor's Private Industry Council, area apprenticeship opportunities, CBO's, the educational system, and all other resources. Such assessment does not mandate a central intake system, but does require that recipients provide an opportunity for referral to the full range of services.

(e) In designing programs, all recipients shall develop goals and provide maximum efforts for transitioning participants into unsubsidized employment.

(f) In designing and operating programs recipients and subrecipients shall give special consideration to providing for alternative working arrangements such as flexible hours of work, work-sharing and part-time jobs, particularly for older workers, and those with household obligations including parents of young children (sec. 121(d)(3)).

PART 676—GENERAL PROVISIONS

Subpart A—Grant Procedures

Sec.
676.1 General.
676.2 Prime Sponsor Applicants.
676.3 Preapplication for Federal Assistance.
676.4 Consortium Agreements.
676.5 Prime Sponsor Designation.

676.86 Grant Officer's Final Determination; Request for Hearing.
676.87 Rules of Procedure.
676.88 Hearings.
676.89 Post-Hearing Procedures.
676.90 Final Action, Judicial Review.

AUTHORITY: Sec. 126 of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), unless otherwise noted.

Subpart A—Grant Procedures

§ 676.1 General.

This Subpart specifies the procedures by which prime sponsors may obtain funds to operate programs under the Act.

§ 676.2 Prime sponsor applicants.

The following entities may apply to the prime sponsors: (sec. 101)

(a) A State;

(b) A unit of general local government which has a population of 100,000 or more;

(c) Any consortium of units of general local government which includes a unit of general local government qualifying under paragraph (b) of this section;

(d) Existing Concentrated Employment Program (CEP) prime sponsors.

(e) Any unit of general local government previously designated as a prime sponsor, with a population below 100,000 persons, which the Secretary certifies has demonstrated its effectiveness in, and continues to have the capability for, adequately carrying out programs under the Act.

(f) Any unit of general local government or any consortium of such units with a population below 100,000 which believes:

(1)(i) It has the capacity to serve a substantial portion of a functioning labor market area, or

(ii) It is a rural area having a high level of unemployment; and

(2)(i) It has the capability for adequately carrying our programs under the Act,

(ii) That there is a special need for services within the area to be served, and

(iii) That it will carry out programs and services in the area as effectively as any larger unit of general local government in its jurisdiction or as the State.

§ 676.3 Preapplication for Federal assistance.

(a) The Secretary, through a notice in the FEDERAL REGISTER, shall annually invite all potential prime sponsor applicants to apply for financial assistance by a specified date. The notice may include a list of those potential applicants which the Secretary believes may wish to apply. This, however, shall not preclude other applicants from applying. An applicant interested in being designated as a prime sponsor shall submit a preapplication to the RA, the Governor, and the appropriate State and areawide clearinghouses pursuant to Office of Management and Budget (OMB) Circular A-95, not later than 30 days prior to the submission of its completed CETP to the clearinghouses for formal review. The preapplication shall consist of Standard Form 424 described in 41 CFR 29-70.

(b) Prime sponsors shall comply with State and areawide OMB A-95 clearinghouse review procedures. If the prime sponsor applicant receives no notification as specified in § 676.12, from the A-95 clearinghouse, the prime sponsor applicant may submit its CETP to the RA without submitting it to the A-95 clearinghouses.

(c) All applicants with populations below 100,000 shall include documentation showing that they meet the requirements for such applicants.

§ 676.4 Consortium agreements.

(a) Except as provided in paragraph (b) of this section, each consortium applicant, at a date established by the RA, shall submit to the RA a consortium agreement signed by the chief-elected official or chief executive officer of each consortium member. The agreement shall include the following:

(1) A statement that the agreement has been formed under CETA or that another agreement has been amended to conduct programs under CETA and a statement of the duration of the agreement which shall be at least one fiscal year.

(2) A listing of the units of general local government which are members of the consortium.

(3) A listing of any unit of general local government which is within the area covered by the consortium but has not joined the consortium.

(4) An identification of the geographical area(s) which will be served.

(5) A certification that State and local law permits services under the consortium agreement to be provided within the entire geographical area covered by the agreement.

(6) A letter from each member's chief legal officer assuring that the member has the legal authority to enter into the consortium agreement.

(7) A statement that: (i) The grant shall be signed by the chief-elected official or chief executive officer of each consortium member; or

(ii) As designated in the consortium agreement, the grant shall be signed by the chief-elected official or chief executive officer of one or more consortium members or by the chief executive of the administrative unit.

(8) A certification that, pursuant to State or local law, each consortium member jointly and separately accepts responsibility for the operation of the program.

(9) The agreement shall clearly delineate the division of powers and responsibilities between the consortium members and the administrative unit. It shall describe the powers and responsibilities reserved by the consortium members specifying the process by which decisions will be made, the process by which each member will review and approve the CETP, and the procedure by which chief-elected officials will participate in the planning and operation of the program. It shall also describe the powers and responsibilities which will be delegated to an administrative entity, which may be a consortium member or a separate entity, to operate the program, and the name and organizational structure of that entity. The administrative unit may be delegated the power to enter into contracts, subgrants and other necessary agreements; to receive and expend funds; to employ personnel including participants under the Act for the purposes of administering the program; to organize and train staff; to develop procedures for program planning, operation, assessment and fiscal management; to evaluate program performance and determine resulting need to reallocate resources; and, to modify the grant agreement with the Department. The administrative arm of the consortium should have responsibility for the entire operation of the program, except that the consortium members shall reserve to the consortium the right of evaluation and the decision to reprogram funds.

(b) The chief-elected official or chief executive officer of each consortium member of a consortium which was a prime sponsor in the prior year shall attest in writing that the agreement remains the same or note the specific changes.

(c) Consortia incentive funds. In order to encourage the formation of consortia, that comprise at least 75 percent of labor market areas, the Secretary may use up to 5 percent of the funds available for Title II of the Act to provide additional funding only for such consortia. Prior to making decisions concerning these funds, the RA shall consult with the Governors of the appropriate States and afford them an opportunity to make recommendations.

§ 676.5 Prime Sponsor Designation.

(a) Upon receipt of a completed preapplication and a consortium agreement, if required, the RA shall designate prime sponsor applicants as prime sponsors and shall notify all applicants in writing of the determination. A grant application package (§ 676.10 and § 676.11) shall be sent to each prime sponsor designee.

(b)(1) A State shall not be designated as a prime sponsor for any geographical area within the jurisdiction of any prime sponsor applicant described in § 676.2(b) (c) (d) (e) and (f) unless such prime sponsor applicant has not submitted an approvable CETP for such area (sec. 101(b)(1)).

(2) A larger unit of general local government shall not be designated as a prime sponsor with respect to the jurisdiction within its area of any smaller eligible unit of general local government unless such smaller unit has not submitted an approvable CETP for such area (sec. 101(b)(2)).

(c) The Secretary shall not designate as a prime sponsor any applicant with less than 100,000 population except in exceptional circumstances and unless it has demonstrated that it qualifies pursuant to § 676.2(e) and (f).

§ 676.6 Planning process.

(a) Each prime sponsor shall have a planning process which shall involve a broad spectrum of groups and individuals, in the development of the CETP. This process shall utilize the prime sponsor planning council and shall include community groups insofar as they are not represented on the planning council, local educational agencies, community-based organizations, appropriate labor organizations, organizations serving women, local apprenticeship programs, local advisory councils established under the Vocational Education Act of 1963, the youth and private industry councils, and post-secondary institutions (sec. 103(a) (6) and (14)).

(b) Prime sponsors are specifically encouraged to join or initiate local public/private approaches to the coordinated planning and operation of economic, community and employment development activities to accomplish such objectives as reducing outmigration from an area and encouraging private sector investment in order to enhance existing employment opportunities (sec. 103(a)(20) and 105(b)(5)).

(c) Where employment opportunities already exist, or where there is a reasonable expectation of near term expansion of such employment potential, prime sponsors shall plan to provide, to the extent consistent with the

needs and interests of program participants, employment and training opportunities in the development and use of solar, geothermal, hydroelectric and other alternative energy technologies, and conservation (sec. 121(m)).

(e) Prime sponsors shall contact the Bureau of Apprenticeship and Training (BAT) in establishing arrangements to promote the use of apprenticeship training or other on-the-job training for veterans, under section 1787 of Title 38, United States Code (sec. 121(b)(2)(c)).

§ 676.7 Prime sponsor planning councils.

(a) Each prime sponsor shall establish a planning council (sec. 109(a)).

(b) Each prime sponsor shall appoint to its Planning Council members who are representative of the eligible population (including significant segments thereof), CBO's, the employment service, veterans organizations (a congressionally chartered veterans organization or an organization incorporated as a veteran's service organization under appropriate laws of the State in which they are located), representatives of handicapped individuals, vocational education agencies, public assistance agencies, other education and training agencies and institutions, business (e.g., representatives of a locally-based business firm, the National Alliance of Business, or Chamber of Commerce), organized labor (e.g., representatives of the central labor council, or the principal labor organizations in the areas where employment or training activites are expected or apprenticeship programs), employees who are not represented by organized labor, and, where appropriate, agricultural employers and workers (sec. 109(b)). Staff of State or local government agencies shall not take the place of representatives of the participant communities which their agencies serve.

(c) The prime sponsor shall appoint the members of the planning council, designate a person who is not an elected official of or an employee of the prime sponsor as chairperson and furnish staff to provide professional, technical, and clerical assistance to the council (sec. 109(c)).

(d) The Planning Council shall:

(1) Meet no less than five times per year. The meetings shall be publicly announced, open and accessible to the general public, and a record of the proceedings shall be maintained by the prime sponsor at a location accessible to the public (sec. 109(d));

(2) Actively participate in the development of, and submit recommendations regarding, the prime sponsor's CETP and the basic goals, policies, and procedures of the prime sponsor's program (sec. 109(e));

(3) Consider any comments and recommendations of the Private Industry and Youth Councils (sec. 109(f)); and

(4) Continuously analyze the need for employment, training and related services in the prime sponsor's area, including efforts to reduce and eliminate artificial barriers to employment, and shall monitor and evaluate employment and training programs in the prime sponsor area and make recommendations with respect to them (sec. 109(e)); and

(5) Plan for the coordination and involvement of the local CETA program with the Targeted Jobs Tax program created by the Revenue Act of 1978.

(e) Special consideration shall be given to the recommendations of the planning council, but any final decisions with respect to such recommendations shall be made by the prime sponsor. (sec. 109(e)).

§ 676.8 Area planning bodies.

(a) Balance of State (BOS) prime sponsors, in coordination with units of general local government, shall make arrangements for appropriate area planning bodies to assist in the effective planning and delivery of programs in the BOS (sec. 101(d)).

(b) The BOS shall appoint members of area planning bodies, considering nominations made by local elected officials. The membership shall be composed of groups and individuals which represent a broad cross section of the area to be served and may include the groups and individuals described in § 676.7(b)).

(c) The BOS shall convene the planning bodies at least quarterly to review plans and programs.

(d) Area planning bodies shall be given the opportunity to review and comment upon services to be provided in their area under the CETP.

§ 676.9 Comprehensive employment and training plan (CETP).

(a) Designated prime sponsors shall submit a CETP to apply for financial assistance. The CETP shall consist of two distinct parts, the Master Plan and the Annual Plan.

(1) The Master Plan shall serve as the long-term agreement between the Department and the prime sponsor which describes the established administrative and programmatic arrangements that will govern all programs under the Act operated by the prime sponsor. (sec. 103(a))

(2) The Annual Plan shall be the prime sponsor's yearly plan for providing activities and services to the eligible population.

(3) Detailed instructions for completing the CETP are contained in the *Forms Preparation Handbook.*

(b)(1) The Secretary will, not later than March 31 of the fiscal year preceding the fiscal year for which an Annual Plan is to take effect, establish a date for submission of the Annual Plan. The Secretary will make available to each prime sponsor a complete and final set of all applicable regulations and necessary application materials no later than May 15 preceding the fiscal year for which such plan is to take effect. With respect to funds allocated to prime sponsors under the Act on the basis of a formula, the Secretary will also provide such prime sponsors a preliminary planning estimate. If for any reason the Secretary cannot provide a complete and final set of all applicable regulations and necessary application materials by May 15, the Secretary will extend the date for submittal of such plan to allow the prime sponsor to review such regulations and to complete such materials prior to submittal (sec. 104(e)(1)).

(2) Between May 15 and the date for submittal of the Plan, the Secretary will not issue any regulations or guidelines or interpretations thereof that require any change in the prime sponsor's CETP which is a condition for the Secretary's approval or disapproval of the CETP, unless the Secretary allows at least one fiscal quarter for the prime sponsor to submit such change, except that the prime sponsor, however, may at its own discretion, submit the required change as part of its plan submitted under paragraph (1) (sec. 104(e)(2).

§ 676.10 Master plan.

(a)(1) A prime sponsor applying for financial assistance for the first time shall have approved by the RA a signed copy of the Master Plan prior to the execution of an Annual Plan.

(2) A prime sponsor which has already entered into the Master Plan during a previous year, shall submit to the RA with its Annual Plan a certification that the Master Plan remains the same or a modification reflecting any changes. In submitting the initial Plan and subsequent certification, the prime sponsor shall comply with the comment and publication procedures of Sec. 676.12, and the planning process in Sec. 676.6. The Master Plan shall consist of the Signature Page, Narrative Description of General Information, and Assurances and Certifications.

(b) *Signature Page.* By signing the signature page the prime sponsor agrees that all work performed under its CETP will be in accordance with the Act and the regulations.

(c) *Narrative Description of General Information.* The narrative description of general information shall include:

(1) *Statement of purpose.* (2)(i) A detailed description of the geographic

area to be served and demographic characteristics of the population (with data, if available, indicating the number of potential eligible participants from each significant segment and their income and employment status) (sec. 103(a)(1)(A)).

(ii) A comprehensive analysis of the local labor market and economic conditions, using existing sources such as the Employment Service, which includes identification of the availability of employment and training in the public and private sectors and the potential for job growth in those sectors (sec. 103(a)(1)(B)).

(3) A statement of long-term program goals related to the improvement of the labor market and economic conditions (sec. 103(a)(2)).

(4)(i)(A) A description of arrangements to ensure that employment and training services are provided to those individuals most in need, including low-income persons, handicapped individuals, older workers facing artificial barriers to employment and persons of limited English-speaking ability (sec. 103(a)(5)(A)).

(B) The method used to determine priorities for service based on objective locally established criteria using such factors as employment status, household status, level of employability development, handicap, veteran status, age, race, sex or other criteria established by the prime sponsor (sec. 103(b)(12)).

(ii) A description of the recruitment, intake, and selection methods to be used to identify, and place participants in programs (sec. 103(a)(4)(B) and 103(a)(5)(A)).

(iii) A description of the system for developing participant employability plans, including the methods for determining the appropriate training and services to provide to each participant (sec. 205).

(iv) A description of job development and placement services, and how these services will relate to, and be coordinated with, other area employment and training opportunities not provided under the Act, including any special activities designed to orient participants for their job responsibilities (sec. 103(b)(6).

(v) A description of arrangements to provide participants with job search assistance, counseling and other services (sec. 103(a)(4)(B)).

(vi) A description of methods to insure compliance with personnel procedures and collective bargaining agreements where participants are engaged in employment and training activities (sec. 103(a)(18)).

(5) *Service deliverers.* (i) A description of procedures and criteria used to select service deliverers (sec. 103(a)(3)(B)).

(ii) A description of the criteria used to designate programs of demonstrated effectiveness (sec. 103(a)(4)(A)).

(iii) A description of procedures for giving special consideration to employment and training programs of demonstrated effectiveness which are operated by community-based organizations (sec. 123(1)).

(6) *Coordination.* (i) A description of the methods for coordination between the prime sponsor and local State Employment Security Agencies, as provided in the agreement under § 676.23(g) (sec. 103(a)(15)).

(ii) A summary of the agreement made with State or local educational agencies or post-secondary institutions for the conduct of employment and training programs (sec. 103(b)(16)).

(iii) A description of procedures used to ensure the participation of and consultation with local educational agencies, vocational education agencies, community-based organizations, Federal and State agencies, organized labor, apprenticeship programs, business and other institutions and organizations, including women's organizations, in the conduct of programs (sec. 103(a)(9)).

(iv) A description of methods to coordinate programs with employment and training programs administered by the Secretary (sec. 103(a)(8)(B)).

(v) A description of efforts to promote maximum feasible use of apprenticeship or other on-the-job training opportunities available for veterans under Section 1787 of Title 38 United States Code, and coordination with the local Bureau of Apprenticeship and Training (sec. 103(a)(8)(C)).

(vi) A description of procedures concerning academic credit developed in conjunction with the appropriate local educational agency or institution of higher education and approved by the appropriate State educational agency (sec. 103(a)(16)).

(vii) A description of plans and activities to coordinate, strengthen, and expand employment and training activities with economic development activities in the private sector. (sec. 103(a)(20)).

(viii) A description of arrangements for implementing responsibilities under the Targeted Jobs Tax Credit Program created by the Revenue Act of 1978.

(7) *Prime sponsor planning.* (i) A description of the functions and responsibilities of the prime sponsor Planning Council (secs. 109(e) and 103(a)(10).

(ii) A description of the procedures used to ensure that council meetings are publicly announced, open and accessible to the general public, and that minutes of such meetings are maintained (sec. 109(d)).

(iii) A description of staff support provided by the prime sponsor to the council (sec. 109(c)).

(iv) A list of the groups within the community represented on the council (sec. 109(b)).

(v) A description of procedures used to select members of the council (sec. 103(a)(4)(c)).

(vi) A description of the methods and arrangements for the participation of groups not directly represented on the council as required by § 676.6 (sec. 103(a)(6) and 103(a)(14)).

(vii) A description of efforts to involve the private sector in the design and/or implementation of programs (sec. 103(b)(8)).

(viii) A description of coordination and consultation linkages between the prime sponsor Planning Council, Youth Council, and Private Industry Council (secs. 109(f) and 103(a)(4)(C)).

(8) *Management and Administration.* (i) Organizational Structure and Staffing.

(A) A description of the prime sponsor's organizational structure (sec. 103(a)(4)(A)).

(B) A description of procedures to recruit and select administrative staff (sec. 103(a)(4)(A)).

(C) A description of the Personnel Merit System including any plan for obtaining an acceptable personnel system as required in § 676.43.

(ii) Administrative Controls. A description of arrangements and procedures for:

(A) Management Information System (including accounting, participant tracking system, client record and reporting systems); (sec. 103(a)(11));

(B) Evaluation and monitoring system, including the independent unit responsible for monitoring programs and subrecipients (secs. 103(a)(12) and 121(o)(3));

(C) Fiscal and program auditing, including procedures for auditing subrecipients and bonding (secs. 103(a)(12) and 134);

(D) Supervising deliverers of services (sec. 103(a)(4)(A)).

(E) Determining and verifying eligibility of applicants (sec. 103(a)(11));

(F) Allowance payments system, including waiver provisions (sec. 124);

(G) A description of methods to ensure compliance with the retirement provisions set forth in § 676.28 (sec. 121(j)).

(iii) Grievance procedures. A description of the procedures for resolving any compliants or grievances alleging violation of the Act, regulations, and CETP and CETA participants, contractors, subrecipients and other parties (secs. 106 and 103(a)(4)(A)).

(9)(i) *Nondiscrimination and equal employment opportunity.* A description of the mechanisms which will be

V 4 4 - 1 4 JAN 19 79 UMI

V 4 4 / 1 4 J A 1 9 7 9 UMI

used to ensure nondiscrimination and the provision of equal employment opportunities (sec. 103(a)(5)(B)).

(ii) *Affirmative action.* A description of plans and procedures concerning affirmative action, as outlined in § 676.53, including a description of:

(A) Efforts and procedures to eliminate artificial barriers to employment and occupational advancement, for CETA participants, including the hiring, licensing and contracting activities of subrecipients and contractors of the prime sponsor (secs. 103(a)(19) and 103(b)(11));

(B) Efforts to remove architectural barriers to employment of the handicapped (sec. 121(a)(5)).

(10) *Public Service Employment.* (i) An explanation of the basis for distributing funds and the basis upon which job allocation to each employing agency will be made.

(ii) A description of the process for selecting project applicants including:

(A) The methods and criteria to be used for soliciting and approving project applicants.

(B) The role of the planning council in the approval process.

(iii) A description of the items required on the project applications including at least the following information:

(A) Description of project;

(B) Goals and objectives;

(C) Number of persons to be served; and

(D) Length of project.

(d) Assurances and Certifications. The Assurances and Certifications form appears in the *Forms Preparation Handbook.* Prime Sponsors shall assure compliance with the Act, the regulations under the Act, and the CETP and for consortia, the approved consortium agreement (sec. 103(a)(21)).

§ 676.11 Annual plan.

(a)(i) The Annual Plan shall be prepared pursuant to provisions in this section and §§ 676.41, 677.15, 677.33, 677.56, 678.6, 679.4, 680.5, 680.107, and 680.207 as appropriate.

(ii) In submitting the Annual Plan for RA approval, prime sponsors shall comply with the comment and publication procedures of § 676.12 and the planning process in § 676.6. The Annual Plan shall consist of an Application for Federal Assistance (SF–424), Narrative Description of Programs, and Program Planning Summaries, Budget Information Summaries and other forms as appropriate.

(b) Application for Federal Assistance shall identify the total amount of funds requested under Parts 677, 678, 679, and 680.

(c) *Narrative description of programs.* The Narrative Description of Programs shall include:

(1) A summary of any evaluation conducted of the program(s) in the previous year and current year to date and a description of use made of such evaluation (sec. 103(b)(14)).

(2) A detailed summary of the expenditures made during the preceding year, and of results achieved and changes made in the Annual Plan for the program year (sec. 103(b)(5)).

(3) A suumary of the extent to which special needs of the handicapped have been met during the previous year, including the number record served, type of training provided and the number placed in unsubsidized employment (sec. 103(b)(15)).

(4) A list of the specific training subgrants and agreements from the current year, including the rate of positive termination for program completers (sec. 103(b)(13)).

(5) *Approach.* (i) A description of specific programs or services, including apprenticeship programs, if any, designed for those segments of the population who are experiencing severe handicaps in obtaining employment, including individuals who lack credentials, require basic and remedial skills development, have limited English-speaking ability, are handicapped, are disabled or Vietnam-era veterans, are offenders, are displaced homemakers, are public assistance recipients, are persons 55 years of age or older, are youth, are single parents, are women or other individuals having particular disadvantages in the labor market (sec. 103(b)(3); sec. 214; sec. 215; and sec. 216).

(ii) A description of services and activities planned to be provided with funds available under the Act which are not allocated by formula, and coordinated with the activities and services described in this Plan (sec. 103(b)(9)).

(iii) A description of the efforts to be undertaken to increase the participation of qualified disabled and Vietnam-era veterans (sec. 121(b)(2)(A)).

(iv) A description of the plans and methods to be used to provide opportunities for minority-owned businesses and small businesses (including those owned by women), to compete for procurement contracts such as through the use of set asides where appropriate. (sec. 121(k)).

(v) A description of activities which will contribute to occupational development, upward mobility, development of new careers and overcoming of sex sterotyping, including procedures which will lead to skill development and job opportunites for participants in occupations tradionally limited to individuals of the opposite sex (sec. 103(a)(5)(C)).

(6) Information specific to each program to be operated under the Act as required by §§ 677.15, 677.33, 677.56, 678.6, 679.4, 680.5, 680.107, and 680.207.

(7)(i) Attach recommendations of the planning council, including minority reports, which were not included in the plan, together with the reasons for the prime sponsor's rejection of them (sec. 103(a)(17)).

(ii) Attach recommendations and comments of the Governor and the State employment and training council.

§ 676.12 Comment and publication procedures relating to submission of the CETP.

(a) Prime sponsors shall make public the provisions of the Plan prior to submission to the RA through such means as public hearings, public notice in newspapers, bulletins, or other media, including publications that primarily serve significantly segments of the eligible population. (sec. 104(a) and 104(a)(3)). At a minimum, each prime sponsor shall comply with paragraphs (b), (c), (d), and (e) of this section.

(b)(1) Each prime sponsor shall publish at a minimum in one issue of a newspaper or newspapers of general circulation in the prime sponsor's area (including minority newspapers, where applicable) a statement indicating the following information:

(i) The source of funds;

(ii) The amount requested;

(iii) A brief summary of the purpose of the proposed program and activities; and

(iv) The location and hours when the CETP and a comparison of performance against the prior year's plan through the most recent quarter, can be reviewed and the address and phone number where questions and comments may be directed.

(2) The prime sponsor shall publish the statement at least 45 days prior to the submission of the CETP to the RA in order to allow at least 30 days of review and comment. In addition, a copy of the newspaper article shall be transmitted to the RA (sec. 104(a)(3)).

(c) Each prime sponsor shall, at least 45 days before submitting its CETP to the RA, provide the Plan for comment to the Governor, the State employment and training council, the prime sponsor planning council, the private industry council, appropriate units of general local government in its area, appropriate Native American recipients, and appropriate labor organizations. Prime sponsors shall allow at least 30 days for review and comment. (sec. 104(a)(1)).

(d) At the same time, each prime sponsor shall provide written notification of the availability of the Plan to each House of the State Legislature for appropriate referral, to appropriate community-based organizations of

demonstrated effectiveness including appropriate women's organizations, and appropriate educational and apprenticeship agencies and institutions (sec. 104(a)). Prime sponsors shall allow at least 30 days for review and comment.

(e) If a State or areawide Clearinghouse notifies a prime sponsor that it wishes to review the complete Plan, the applicant shall also provide a copy of such to the Clearinghouse(s) 45 days prior to its submission to the RA.

(f) When the PSE Occupational Summary has not been finalized at the time the Plan is made available for public comment, the prime sponsor shall make the document available for a 30-day comment period at the time of submission to the RA as described in § 676.12(c). 29341

(g) A prime sponsor shall acknowledge any written comment and shall inform in writing any party submitting a substantive written comment of whether any plan revision will be made in response to the comment and the reasons for the prime sponsor's determination. The prime sponsor shall provide, upon request, copies of all written comments to the Planning Council and the Governor. In addition, copies of the comments and recommendations of the Governor, the State employment and training council and the planning council shall be transmitted to the RA with submission of the Plan, or if the comments are received after the Plan's submission, they may be sent separately to the RA (sec. 104(b)).

(h) If no comments are received from an A–95 Clearinghouse, or if the Clearinghouse has not requested to review the CETP, the prime sponsor applicant shall so note this on Standard Form 424.

§ 676.13 Submission of the CETP.

(a) Each designated prime sponsor shall simultaneously submit to the RA by a date set by the Secretary:

(1) An Annual Plan;

(2) A certification that the Master Plan remains the same or a modification reflecting any changes; and

(3) An Approval Request Letter.

(b) Newly designated prime sponsors shall submit and have the Master Plan approved by the RA prior to the approval of the Annual Plan. An Approval Request Letter shall accompany the submission.

§ 676.14 Review, approval, and disapproval of the CETP.

(a) *Plan review.* The RA shall review each CETP to determine if:

(1) It is complete and meets the requirements of the Act and regulations (sec. 104(c)).

(2) Prime sponsor's performance and placement goals are adequate in light of performance standards which recognize that performance will vary with local conditions and the nature of employment barriers faced by the eligible population to be served (sec. 126(a)(2)).

(3) The Plan is adequately designed to carry out an effective and well-administered program, taking into account such factors as past program performance and the recommendations made by the Governor, the State employment and training council, and the prime sponsor planning council (sec. 104(c)(1)).

(b) If a Clearinghouse has recommended against approval of a Plan because it conflicts with or duplicates another Federal or federally-assisted project, the RA shall consult with the agency assisting the referenced projects prior to taking action on the Plan.

(c) *Plan approval and disapproval.* (1) The RA shall notify a prime sponsor applicant, the Governor, and the A–95 Clearinghouse within 7 days after approving, disapproving, partially or conditionally approving the CETP on the Standard Form 424. In addition, a letter shall be sent to the prime sponsor and Governor. If any party commenting to the RA pursuant to the A–95 Clearinghouse review process has made recommendations, and if the RA, after review of the recommendations, makes a determination contrary to the recommendations, the RA shall inform the party making the comment of the reasons for the determination on the Standard Form 424.

(2) With respect to approved plans, the Department shall issue a Notice of Funding Availability to provide funding authority. When funds are obligated incrementally, a new Notice of Funding Availability shall not require a revision of the Annual Plan, or publication, comment or A–95 clearance procedures.

(3) If the Plan is disapproved fully or partially or conditionally approved, the RA shall notify the prime sponsor and the Governor in the letter required by paragraph (c)(1) of this section:

(i) of the reasons for disapproval;

(ii) of corrective steps needed to remedy the defects within a specified time but not less than 30 days; and

(iii) that failure to comply with the corrective steps within the specified time will result in final disapproval, which shall be subject to the appeal procedures in Subpart F of this Part.

(4) The approval of the Plan shall not preclude DOL from a subsequent determination that the prime sponsor is in violation of the Act or regulations.

§ 676.15 Use of alternative prime sponsors; services by the Secretary.

If a Plan is not filed or is disapproved, or if a Plan is terminated in whole or in part, which results in services not being provided in the area:

(a) The Secretary may allocate the funds to service the area to another prime sponsor or, if this is inappropriate, to the Governor; or

(b) The Secretary may make financial assistance directly to public agencies or private nonprofit organizations as if the Secretary were the prime sponsor for that area (sec. 102).

§ 676.16 Modifications.

(a) The RA may modify the CETP only once each fiscal quarter except as otherwise provided in the regulations.

(b) Modifications of the Master Plan.

(1) The Assurances and Certifications may only be modified by the RA.

(2) Prime sponsors shall obtain prior RA approval of a modification initiated by a prime sponsor which proposes to make a significant change in the Narrative Description of General Information.

(3) Modification requests from prime sponsors shall consist of the following:

(i) Approval Request Letter;

(ii) Revised Narrative Description of General Information and/or revised Assurances and Certifications, if appropriate; and

(iii) A copy of the newspaper announcement required in paragraph (d) of this section, for significant changes to the narrative description.

(c) Modifications to the Annual Plan.

(1) Prior written RA approval is required to modify:

(i) The duration of the Annual Plan or subparts of the Annual Plan.

(ii) The Annual Plan allocation;

(iii) An increase or decrease of 15% or more in the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placements, terminations or individuals to be served within significant segments.

(iv) For Annual Plan Subparts of $100,000 or less, a cumulative transfer of $15,000 among program activities or cost categories.

(v) For Annual Plan Subparts of over $100,000, the cumulative transfer among program activities or cost categories of $50,000 or more or 15 percent of the total plan budget, whichever is greater; or

(vi) Significant changes in program design.

(2) Prime sponsors may not modify their Annual Plan solely to adjust planned performance to meet actual performance.

V 4 4 / 1 4 J A 1 9 7 9

(3) Modifications to the Annual Plan requested by prime sponsors shall consist of:

(i) Approval Request Letter;

(ii) Revised Form SF 424 (if required);

(iii) Revised Program Planning Summary and Budget Information Summary for current and future quarters only;

(iv) Description of any conforming changes made in the narrative descriptions.

(v) Revised Occupational Summary and other forms, if appropriate.

(4) A prime sponsor must notify the RA of changes not set out in paragraph (c)(1) within 30 days from the beginning of the quarter in which the changes are effective.

(d) Publication and comment procedures specified in § 676.12 shall apply to modifications for which prior RA approval is necessary except that:

(1) Each prime sponsor shall comply with the comment and publication requirements at least 30 days prior to submission of its modification to the RA.

(2) The required newspaper announcement shall include a notice of the prime sponsor's intent to modify, a brief summary of the nature and purpose of the proposed modification, the location where and hours when the complete modification can be reviewed, and the telephone number to which questions may be directed.

(3)(i) The prime sponsor shall clear modifications through the A-95 Clearinghouses only if:

(A) There is a cumulative increase or decrease in funds equal to or more than 15 percent of the allocation for any Annual Plan Subpart for the current program year; or

(B) The Annual Plan, or any Subpart, is extended for a period of more than 3 calendar months.

(ii) When A-95 clearance is required, the notice from the prime sponsor to the Clearinghouse shall consist of a revised SF 424 and a brief description of the anticipated modification. If within 15 days of the notice, the prime sponsor receives no notice from the A-95 Clearinghouses that it wishes to review the modification, the prime sponsor may submit the modification to the RA without A-95 clearance.

(e) The RA shall approve or disapprove proposed modifications fully or partially within 30 days of receipt, and, within 7 days of such action, notify the prime sponsor and the Governor in writing of the decision. The procedures in § 676.14(b) and (c)(1) shall apply to modifications.

Subpart B—Program Design and Management

§ 676.21 General responsibilities of CETA grantees.

This Part sets out program operation requirements for CETA recipients including program management linkages, coordination, and consultation, allowable activities, participant benefits, and duration of participation provisions.

§ 676.22 Program management systems.

(a) All recipients shall establish management systems to assess all programs. Recipients shall take necessary corrective action to improve underperformance and to plan for more effective programs for subsequent operations (Sec. 104(c)(1), (2), (3)). Prime sponsors must institute and maintain effective systems for the overall management of all titles of their programs, including but not limited to:

(1) Program monitoring systems as described in § 676.75.

(2) Eligibility verification systems as described in § 676.75.

(3) Complaint and Hearing Procedures as described in § 676.83.

(4) Mechanisms for taking immediate corrective action where problems have been identified and for restitution of CETA funds, as noted in Subpart F, for improper expenditures.

(b) All recipients shall establish and maintain financial management and participant tracking systems in accordance with § 676.34. The principal objective of such systems shall be to provide the recipient with systems necessary to effectively manage its program and to provide information necessary to design program activities and delivery mechansims best suited to resolve employment and training problems in the area. (Sec. 104(c)(3))

(c) Each recipient shall establish and use procedures for the continuous, systematic assessment of program performance in relation to the goals contained in its grant. Recipents shall (except for Job Corps and the Young Conservation Corps): (sec. 103(a)(4)(A)).

(1) Establish written quantified goals for each activity and service and for each subrecipient based on the specific program purposes of the service, activity or subgrant.

(2) Establish and use procedures for collecting performance information (including information on the status of individuals subsequent to entering unsubsidized employment) and for assessing such information in terms of the goals contained in its grant.

(3) Establish and use procedures for identifying performance problems and for developing and implementing appropriate remedial actions.

(d) Recipients shall establish and use procedures whereby the information collected and assessments conducted shall be considered in subsequent program planning and in the selection of deliverers. Prime sponsors shall provide program assessments to their Planning Council and, as appropriate, to their Youth and Private Industry councils.

§ 676.23 Program linkages and selection of deliverers.

(a) In designing programs and in the selection of delivery agents, prime sponsors shall follow the procedures as presented in this section.

(b) In determining service deliverers the prime sponsor shall compile and maintain a publicly available inventory of potential deliverers which have expressed an interest in writing (Sec. 103(3)(B)).

(c) In designing programs under the Act and in selecting service deliverers, prime sponsors shall give special consideration in carrying out programs, to community based organizations of demonstrated effectiveness in the delivery of employment and training programs as follows: (Sec. 123(1)).

(1) Community based organizations shall be actively involved in the Prime Sponsors' planning process, as described in §§ 676.5, 676.7, and 676.12.

(2) Prime sponsors shall establish a mechanism for providing special consideration, including at least the following steps:

(i) Written or other public notification which ensures that appropriate CBO's are notified of the availability of funds and a request that all potential deliverers of employment and training services who wish to be placed on the inventory submit to the prime sponsor the following information:

(A) The name of the organization interested in receiving funds;

(B) The types of service and activities the organization is interested in providing; and

(C) The types of services and activities the organization has provided in the past, the number and types of people served, and documentation regarding the effectiveness of these services.

(ii) The prime sponsor shall determine from the inventory of all potential deliverers of service described in paragraph (b) of this section which have demonstrated effectiveness as defined in § 675.4, based on specific objective criteria.

(iii) The prime sponsor shall provide notice to all CBO's of demonstrated effectiveness on the inventory list of the planned activities and services so that they may make application to deliver such activities and services.

(iv) In the selection of service deliverers, prime sponsors shall give special consideration to CBO's of demonstrated effectiveness in the delivery of employment and training services. For example, in competitive procurement procedures, the prime sponsor may afford special consideration through additional points in a rating system.

(v) If the prime sponsor, after considering a CBO of demonstrated effectiveness as a service deliverer does not select such CBO, it shall upon request provide the reasons for non-selection in relation to its criteria for selection to the affected CBO or the RA.

(d) Consideration shall be given to making use of appropriate services currently available in the community, with or without reimbursement, which the prime sponsor has determined to be effective. Agencies which typically provide such services include, but are not limited to the State Employment Security Agency, State Vocational Education and Rehabilitation agencies, State public assistance agencies, area skill centers established under Sec. 231 of the Manpower Development and Training Act of 1962, local education institutions, community based organizations, and other public agencies. The purpose of this consideration shall be to avoid duplication and to obtain such services at a cost saving over establishing another such service or activity (Sec. 103(a)(7) and 121(g)).

(e) Nothing in paragraphs (a) through (d) of this section shall be construed as prohibiting the prime sponsor from utilizing the services and facilities of public or private agencies, institutions or organizations, such as private business, labor organizations and private educational and vocational institutions which the prime sponsor reasonably believes can provide substantially equivalent or better services or facilities, on the basis of such factors as quality of service or cost effectiveness. (sec. 103(a)(7)).

(f) Each prime sponsor shall enter into a written cooperative agreement with the State Employment Security Agency which delineates the responsibilities of each and covers, at a minimum:

(1) Coordination of the employment and training services under the prime sponsor's plan with those funded under the Wagner-Peyser Act;

(2) A description of arrangements for coordination of employer contacts and other activities involving contact with employers;

(3) Allowance payment systems;

(4) Arrangements to coordinate activities including certification, referral, and publicity functions under the Targeted Jobs Tax Credit program of the Revenue Act of 1978; and

(5) Arrangements to provide the SESA with information on available public service employment positions, in order that such information may be provided to unemployment insurance recipients and other applicants for services from the State Employment Security Agency (sec. 122(1)).

(g) A copy of the agreement described in paragraph (f) of this section shall be made available to the RA upon request.

(h) If a prime sponsor plans to provide a service which is available from the SESA at no cost, the prime sponsor shall justify such non-use in its Annual Plan.

(i) Each prime sponsor shall to the maximum extent feasible:

(1) Coordinate the employment and training services provided under its plan with those available under other programs funded through the Department of Labor (sec. 103(a)(8)), and with self-employment training programs;

(2) Coordinate services to veterans provided under this Act with those activities authorized by Chapter 41 of Title 38, United States Code (relating to counseling and employment services to veterans provided by SESA's) and with other similar activities carried out by other public agencies and organizations. Coordinate services with the appropriate Veterans Administration facilities in utilizing the apprenticeship and other on-the-job training activities available under section 1787 of Title 38 U.S. Code (sec. 121(b) and sec. 103(a)(8)).

(3) Notify the appropriate apprenticeship agency of any training activities in apprenticeship occupations.

(j) Prime sponsors shall coordinate services to AFDC recipients with public assistance agencies and the local sponsor of the Work Incentive Program (WIN) if any.

§ 676.24 Labor organization consultation and/or concurrence.

(a) To ensure the most effective development of employment and training opportunities, prime sponsors are to provide for the participation of organized labor in the planning and design of programs and activities, and coordination in the subsequent operation of such programs (sec. 103(a)(9)).

(b) In addition to involving labor organizations in the planning process as specified in (a) above, prime sponsors shall:

(1) Consult with appropriate labor organiations in the design and content of the training, work experience, public service employment, VEP, OJT, and other appropriate activities with respect to job descriptions, wage rates, training arrangements, and occupations planned; and

(2) Obtain written concurrence from the appropriate bargaining agent where a collective bargaining agreement exists with the participating employer covering occupations in which training or subsidized employment is proposed. Such concurrence shall apply to the elements of the proposed activity which may affect the bargaining agreement, such as wages, benefits, and other factors. If no response is received within 30 days, the program may proceed. (sec. 103(a)(18)).

(3) Maintain evidence of the results of such consultation or concurrence.

§ 676.25 Employment and training activities.

Recipients and subrecipients may conduct the following activities:

(a) *Classroom training.* (1) This program activity is any training of the type normally conducted in an institutional setting, including vocational education, and designed to provide individuals with the technical skills and information required to perform a specific job or group of jobs. It may also include training designed to enhance the employability of individuals by upgrading basic skills, through the provision of courses such as remedial education, training in the primary language of persons with limited English-speaking ability, or English-as-a-second-language training.

(2) In designing and operating training programs recipients and subrecipients shall:

(i) Refer a person for occupational training only after determining that there is a reasonable expectation of employment in the occupation in which such person would be trained (sec. 121(f)(4)).

(ii) Not refer a person to an occupation which requires less than two weeks of preemployment training unless there are immediate employment opportunities for that person available in that occupation (sec. 121(f)(2)).

(iii) Train persons only for jobs which are not in industries nor occupations with lower wages than the average for nondurable goods industries in the area, as set forth in the BLS Handbook of Labor Statistics, except that training is permissible for those jobs for which there exists a training program of a specified length of time designed to teach specific skills, and for which the rate of labor turnover does not exceed substantially the rate of labor turnover in the same area, as noted above. (sec. 123(a)).

(b) *On-the-job-training.* (1) *General.* (i) On-the-job training (OJT) is training in the private or public sector given to a participant, who has been hired first by the employer, while he or she is engaged in productive work which provides knowledge or skills essential to the full and adequate performance of the job. This does not preclude a participant who has been hired by, and received OJT from, one employer from being ultimately placed with another employer.

(ii) OJT may involve individuals at the entry level of employment or be used to upgrade or retrain present employees into occupations requiring higher skills in accordance with Part 677, Subpart C. OJT may be coupled with other CETA employment and training activities as specified in paragraph (g) of this and § 676.26(a)(6). As needed, OJT participants may receive any of the employment and training services and/or supportive services specified in paragraph (e) of this section through the CETA system, through community resources, or through employer resources.

(2) *Participation.* All OJT participants must be eligible for CETA in accordance with the requirements described in Section 675.5 of these OJT regulations. Recipients should establish procedures for the referral of OJT participants utilizing the information available through the Participant Assessment System (see § 675.6). The following guidelines should be considered in determining priorities of service:

(i) Primarily, OJT opportunities should be offered to those most in need, who lack the related education, training, or work experience for the job for which training is offered.

(ii) Recipients may also refer persons to OJT who have related education, training or work experience when no other suitable opportunities exist for such individuals, either in unsubsidized employment or within the CETA system.

(3) *Selection.* From among those referred for OJT opportunities, the employer may make the final selection of participants based on suitability for the training opportunity.

(4) *Length of training.* The length of time for which payments from CETA funds may be made shall not exceed that period of time generally required for acquisition of skills needed for the position within a particular occupation (sec. 121(1)). Recipients shall develop standardized methods for determining the length of training for OJT occupations, and shall describe or identify such methods in the Annual Plan or grant application. The Dictionary of Occupational Titles (D.O.T.) Specific Vocational Preparation (S.V.P.) codes, or other equivalent standardized tools may be used to fulfill this requirement.

(5) *Eligible jobs.* The requirements of § 676.25 of this section shall apply to OJT. In the selection of jobs for which training will be offered, recipients should consider those which provide opportunities not otherwise available, lead to economic self-sufficiency, and provide upward mobility.

(6) *Reimbursement.* (i) *For private sector OJT.* (A) Based upon past experience, DOL has determined that a fixed unit cost method of reimbursement based on 50 percent of the participant's wages represents the difference between the costs of recruiting and training and the costs of lower productivity associated with employing CETA participants who lack the requisite skills to perform the job, and such costs for those otherwise employed (sec. 121(1)).

(B) To maximize limited available resources, recipients may choose to negotiate lower reimbursement levels with employers.

(C) (*1*) Should an employer or recipient feel that special circumstances warrant a reimbursement level higher than the 50 percent limitation, each circumstance, along with the specified level and its rationale, shall be presented in the recipients's Annual Plan or grant application. Recipients may then negotiate OJT agreements under these circumstances at the reimbursement level approved in the plan without any further DOL approval. The circumstances and the reimbursement level in such cases should also be documented in each OJT agreement.

(2) If a circumstance not covered in the annual plan or grant arises which the recipient believes warrants reimbursement at higher than the 50 percent level, a letter specifying the circumstances and the proposed reimbursement level shall be sent to DOL for approval prior to signing the OJT agreement. Once approved, the terms of the approval shall be incorporated into the recipient's Annual Plan or grant, and the recipient may sign the OJT agreement, documenting the approved circumstances and the reimbursement level in the OJT agreement.

(3) Special circumstances are envisioned as those where the characteristics of the participant indicate greater obstacles to employment than those of the normal CETA participant or where the training would provide the participant with unusually high skills. Examples might include the following, among others: handicapped or mentally retarded participants; disabled veterans; ex-offenders; and exceptionally costly programs providing an above-average quality of training.

(D) Recipients may provide OJT reimbursement on a declining ratio to wages over the period of training, as long as the planned average reimbursement does not exceed the specified reimbursement level for the planned period in which the participant is in training. Recipients shall monitor the declining reimbursement provisions of OJT agreements closely. Should abuse occur (i.e., significant numbers of participants leaving after the "high end of the scale" reimbursement period), the arrangements should be immediately curtailed.

(E) In addition to the reimbursement allowed by paragraphs (b)(6)(c)(i) through (4) of this section, the actual costs incurred by a employer for employment and training services and supportive services for OJT participants which are different than or above the level of those normally provided by the employer to regular employees may be paid on a cost reimbursement or fixed cost basis.

(ii) *For public sector OJT.* Costs incurred for public sector OJT may be paid only in accordance with § 676.41(f)(2). Public sector OJT may be used only to provide opportunities for participants deemed to be eligible in accordance with § 676.25(b)(2) above. It may not be used specifically to avoid the wage level and other requirements of public sector employment contained in these regulations, when PSE in fact offers the more suitable opportunity for the participant. Wages for participants in public service OJT shall meet the criteria outlined in § 676.25(b)(6)(i).

(7) *OJT Agreements.* At a minimum the OJT agreement shall contain the elements listed below. Recipients may place additional provisions in the OJT agreement only after a careful assessment is made of the additional burdens imposed on participating employers. Agreements may only be entered into with employers which have not been seriously deficient in their conduct of or participation in any DOL program pursuant to § 676.38(e). (Sec. 121(o)).

(i) Brief training outline, including the length of training and the nature of the training;

(ii) Method and maximum amount of reimbursement; justification if reimbursement amounts exceed 50 percent of participant's wages;

(iii) Number of participants to be trained;

(iv) Job description and participant wage rates;

(v) Reporting requirements;

(vi) An assurance that payroll records, time and attendance records, job duties and documentation of employment and training or supportive services costs for which the employer is being reimbursed will be subject to review;

(vii) A termination clause for nonperformance;

(viii) An assurance that the employer will comply with the Act and regulations.

(8) *Labor Organization Consultation and Concurrence.* Labor organization consultation and concurrence must be obtained as specified in § 676.24.

(c) *Public service employment.* (1) Public service employment is subsidized employment with public and private nonprofit employers who provide public services.

(2) PSE jobs shall be provided, to the extent feasible, in occupational fields which are most likely to expand within the public or private sector. (sec. 122(m)).

(3) Except for Federal agencies PSE jobs shall be developed where the employer has the capacity to provide the best possible employment opportunities. Worksites employers which can provide employment opportunities should do so as an employing agency. However, where the capacity of a worksite to function as an employing agency is limited by such factors as the lack of administrative capability to accommodate additional employees and lack of employment benefits, it may be considered a suitable site for outstationing.

(i) Recipients shall not outstation participants to worksites also operated by a prime sponsor or program agent. Participants who were outstationed to such worksites on or before the effective date of these regulations, however, may remain outstationed for the duration of their CETA participation.

(ii) The administrative arm of a prime sponsor consortium, except for those which are units of general local government, shall not employ any participant except in an administrative capacity.

(iii) Outstationed participants are still to be considered employees of the employing agency and shall have the same working conditions and benefits as received by other similarly employed employees of the employing agency (not of the outstationed worksite). However, maximum efforts should be made by the employing agency to accommodate the outstationed worksite by coordinating work hours and holidays.

(4) When filling teaching positions in Title VI, prime sponsors shall subgrant with the appropriate local educational agencies pursuant to section 678.3(j) of these regulations. (sec. 603(a)).

(5) PSE participants shall not be employed in building and highway construction work (except that that which is normally performed by the recipient or subrecipient) or in any work which primarily benefits a private-for-profit organization.

(6) Except for projects under Part 678, PSE jobs shall be entry level (sec. 232(a)(1) and sec. 605(a)).

(7) To the extent feasible, the public services provided by the jobs should be designed to benefit the residents of the area (sec. 122(a)).

(8) *Participant Compensation for PSE.* Wages shall be paid in accordance with § 676.26(a)(3).

(9) Take into account the household obligation of those persons who it is the purpose of the Act to serve, and give special consideration to provisions for alternative working arrangements such as flexible hours of work, worksharing and part-time jobs, particularly for older workers, and parents of young children (§ 121(d)(3));

(d) *Work experience.* (1) (i) Work experience is a short-term and/or part-time work assignment with a public employer or a private nonprofit employing agency. It is prohibited in the private-for-profit sector. It shall be designed to enhance employability of individuals through the development of good work habits and basic work skills. Work experience shall be limited to persons who need assistance in becoming accustomed to basic work requirements including basic work skills, in order to be able to compete successfully in the labor market. Work experience shall not be used as a substitute for PSE. It is for persons who have either never worked or who have not been working for an extended period of time, such as students, youth in transition from school to employment, youth with no definite employment goals, chronically unemployed, retired persons, handicapped individuals, residents of institutions, and older workers in such programs as Operation Mainstream, who have no alternative job opportunities (sec. 121(i)).

(ii) Persons who do not satisfy the conditions of subparagraph (d)(1)(i) of this subsection may be placed in work experience for no more than 30 days while an appropriate classroom training, OJT, PSE or unsubsidized job is being developed for them. (sec. 211(6)).

(iii) Participation in work experience shall be for a reasonable length of time based on the needs of the participants, and subject to the restrictions set forth in § 676.30(d), (e), and (f).

(iv) The provisions of § 676.25(c)(9) apply.

(2) At least every 60 days, recipients shall review, and document the progress of each work experience participant to determine whether transfer to another activity or placement in unsubsidized employment, is more appropriate, based on whether the work experience has achieved its purpose. However, this shall not apply to a participant in a summer program.

(3) Work experience participants may be outstationed pursuant to paragraph (c)(3) of this section.

(e) *Services to participants.* This program activity is designed to provide participants with supportive services, employment and training services, and post termination services which will lead to maximum employment opportunities and retention of employment or which will facilitate participation in other employment and training program activities funded under this Act or in an other Act, leading to their eventual placement in unsubsidized employment. Such services include, but are not limited to, the following:

(1) Services to applicants:

(i) Outreach;

(ii) Intake: This includes screening for eligibility; the initial determination as to whether the program can benefit the individual; the determination of the employment and training activities and services which would be appropriate for the applicant; the determination of the availability of an appropriate employment and training activity; a decision on selection; and dissemination of information on the program. The appropriate items on the Participant Record found in the *Forms Preparation Handbook* shall be completed for each applicant during the intake process. All such applications should be retained, regardless of eligibility or enrollment of the applicant.

(2) Employment and training services:

(i) Orientation to the world of work;

(ii) Counseling. This includes employment related counseling, and testing;

(iii) Employability Assessment (other than that involved during intake);

(iv) Job Development;

(v) Job Search Assistance. This includes transition services, such as job seeking skills instruction, individualized job search plan, labor market information, and other special activities for transition to unsubsidized employment;

(vi) Job Referral and Placement; and

(vii) Vocational exploration program (VEP). A recipient may conduct a VEP program to expose youth to jobs available in the private sector through observation of such jobs, instruction, and, if appropriate, limited practical experience. (sec. 432).

(A) A detailed curriculum shall be developed prior to enrollment in VEP.

(B) Organizations which participate in VEP through an agreement with a recipient may be reimbursed for the costs incurred in the conduct of the program, except that private-for-profit organizations may be reimbursed only for costs for training which is over and above that normally provided by the organization.

(C) An individual may not be involved in any activity that contributes, or could be expected to contribute, to additional sales or profit, or results in the subsidization of wages, of a private-for-profit organization.

(D) Where a vocational exploration program funded directly by DOL operates in a recipient's area, the recipient shall enter into an agreement with the local representative of the program which contains arrangements for re-

cruitment, selection, referral and eligibility certification.

(3) Supportive Services include:

(i) Health care and medical services;

(ii) Child care. Child care programs shall comply with applicable State and local standards including State licensing requirements;

(iii) Transportation;

(iv) Residential support;

(v) Assistance in securing bonds;

(vi) Family planning services. These shall be made available to a participant only on a voluntary basis and shall not be a prerequisite for participation in, or receipt of, any services or benefits from the program; and

(vii) Legal Services.

(4) Post-termination services. For 30 days following termination from the program, employment and training services and supportive services, as described in paragraphs (e)(2) and (3) of this subsection, may be provided, to participants who have obtained unsubsidized employment to enable them to retain employment.

(f) *Other employment and training activities.* Recipients may conduct activities not described in paragraph (a) through (e) of this section. The approved grant application shall describe the basic design of activities undertaken as "other employment and training activities" and their objectives. These activities may include:

(1) Removal of artificial barriers to employment;

(2) Job restructuring;

(3) Revision or establishment of merit systems; and

(4) Development and implementation of affirmative action plans.

(g) Combined activities:

(1) A participant may be simultaneously or sequentially enrolled in two or more activities.

(2)(i) Reimbursement may be up to 100 percent to employers, including private-for-profit employers, for expenditures for the costs of classroom training, employment and training services or supportive services for participants in combined activities including the costs of participants' wages paid by the employer for time spent in classroom training.

(ii) Reimbursement may be made on a cost reimbursement or fixed cost basis and shall be supported by business receipts, payroll, or other records normally kept by the employer.

(iii) Nothing in this paragraph (3) shall allow reimbursement to private-for-profit employers for the costs of on-the-job training to exceed the amounts allowable in paragraph (b) of this section.

§ 676.26 Compensation for participants.

(a) *Payment of wages. General.* Except as authorized under § 676.25(g), (7) each participant in on-the-job training, work experience, and public service employment shall be paid wages.

(1) *On-the-job training.* (i) Participants in OJT shall be compensated by the employer at such rates, including periodic increases, as are reasonable considering such factors as industry, geographic region, and trainee proficiency. In no event shall the rate be less than the highest of the following: (sec. 124(c)):

(A) The minimum wage rate specified in Section 6(a)(1) of the Fair Labor Standards Act;

(B) The minimum hourly wage rate prescribed by applicable State or local law (sec. 124(c));

(C) The prevailing rates of pay for persons employed in similar occupations by the same employer;

(D) The minimum entrance rate for inexperienced workers in the same occupation in the establishment or, if the occupation is new to the establishment, the prevailing entrance rate for the occupation among other establishments in the area;

(E) The minimum rate required by an applicable collective bargaining agreement; or

(F) The prevailing rate established by the Secretary in accordance with the Davis-Bacon Act, when required by paragraph (a)(7) of this section.

(ii) For hours spent in the production of goods or services, the rate of compensation to be paid to trainees by employers, public or private, shall be specified in a written agreement entered into by the training or employing facility and the prime sponsor.

(2) *Work experience.* Participants in work experience shall be paid at a rate not less than the highest of (sec. 124(d)):

(i) The minimum wage rate specified in Section 6(a)(1) of the Fair Labor Standards Act;

(ii) The minimum wage rate prescribed by applicable State or local law; or

(iii) The prevailing rate established by the Secretary in accordance with the Davis-Bacon Act, when required by paragraph (a)(7) of this section.

(3) *Public service employment.* (i) Participants in PSE shall be paid wages at rates not less than highest of the following (sec. 124(b)):

(A) The minimum wage rate set out in Section 6(a)(1) of the Fair Labor Standards Act;

(B) The minimum wage rate prescribed by applicable State or local law;

(C) The prevailing rate for persons employed in similar public occupations by the same employer (sec. 124(b));

(D) The minimum entrance rate for inexperienced workers in the same occupations in the establishment, or, if the occupation is new to the establishment, the prevailing entrance rate for the occupations among other establishments in the area;

(E) The minimum rate required by an applicable collective bargaining agreement; or

(F) The prevailing rate established by the Secretary in accordance with the Davis-Bacon Act, when required by paragraph (7) of this section.

(ii) The Secretary shall publish annually an area wage adjustment index, which shall include the maximum wage rates for each prime sponsor's area. The wage adjustment index shall be based on the ratio that the annual average wages in regular public and private employment in an area served by a prime sponsor bears to the average of all such areas.

(A) Data on average annual wages shall be derived from information provided by employers to State Employment Security Agencies which are responsible for administering State and Federal unemployment insurance (UI) laws. Each quarter of the year, employers in both the private and public sectors of the economy covered by UI laws are required to submit reports containing data on a complete count of workers during the payroll period including the 12th of each month and the total wages paid to all employees for the calendar quarter. Each covered employer is requested to report employment and wages in the county where workers are employed.

(B) The average annual wage for each county shall be computed as the ratio of total wages paid during the fiscal year to average monthly employment for the year in the respective counties. In cases where CETA areas represent county combinations and portions of counties, the average annual wage is computed as a weighted average of the wages in component counties based on the relative employment in each. In those instances where more than one CETA area is contained entirely within a county, the average annual wage for each prime sponsor is that for the county as a whole, as the basic payroll data are not produced below the county level.

(iii) Wages, including money received for overtime work and time on leave, paid to any public service employment participant from funds under the Act are limited to a full-time rate of $10,000 per year (or the hourly, weekly, or monthly rate which, if annualized, would equal a full-time rate of $10,000 per year), except where this maximum is adjusted upward by the Secretary to the amount set forth in the area wage adjustment index described above in paragraph (ii). This $10,000 shall not be adjusted upward by more than 20 percent, except for Alaska. In Alaska, the amount in the area wage adjustment index shall be computed by adjusting the $10,000 upward by the exact percentage that the area wage index exceeds the national average wage index.

(iv) Fringe benefits to any PSE participants may not exceed those regularly afforded to similarly employed non-CETA workers, and shall never exceed those afforded to non-CETA workers earning an amount equal to the maximum wage.

(v) The average annual wage for public service participants hired on or after the effective date of these regulations, shall not exceed $7,200, adjusted on an area basis in accordance with the area wage adjustment index described in paragraph (a)(3)(ii). Where public service participants are also enrolled in activities other than PSE for which they receive allowances, or where they are participating in a part-time (less than a normal full-time schedule for the occupation) public service position, the average annual wage for these participants shall be computed by annualizing the PSE wages received by these participants.

For fiscal year 1980 and each subsequent year, the average annual wage limitation shall be further adjusted by a percentage equal to the change in the average wage in regular employment not supported under the Act. In no case shall this wage be adjusted downward to a level that is less than 10 percent above the annualized Federal, State, or local minimum wage rate, whichever is highest (sec. 122(i)).

(vi) Except as provided in § 678.7 and in paragraph (a)(3)(vii), no public service employment participant may be provided wages for any public service employment job from sources other than the Act. For participants hired after September 30, 1978 this applies even if a participant is entitled to a promotion, a general salary increase or overtime pay. In such cases, such participants must be transferred to other positions or be terminated (sec. 122(i)(4)(A)).

(vii) Any person in public service employment on September 30, 1978, receiving wages from non-CETA sources may continue to receive such wages, so long as such person remains in the same position. However, the non-CETA portion shall not be reduced if the maximum wage has been adjusted upward above $10,000 after September 30, 1978, as long as the incumbent participant is in this position or until the next prime sponsor budgetary cycle (sec. 122(i)(4)(B)).

(viii) Any person in public service employment on September 30, 1978, who was receiving wages on September 30, 1978, less than $10,000 may have such wages supplemented above $10,000 from non-CETA sources after September 30, 1978, if such increase is a bona fide cost of living increase or a scheduled raise, and the person remains in the same position.

(4) *Services to Participants.* Allowances may be paid to a participant enrolled in employment and training services when such services are combined with another activity or when such services are provided on a regularly scheduled basis.

(5) *Other employment and training activities.* Allowances may be paid to a participant enrolled in other employment and training activities as described in § 676.25(f) when such activities are a component of another activity, or when such activities are provided on a regularly scheduled basis.

(6) *Combined Activities.* (i) Primary activity. A primary activity is one in which a participant is enrolled for more than 50 percent of scheduled time. Participants enrolled in a primary activity for which wages are payable and simultaneously in an activity for which allowances are payable may, at the recipient's option, be paid wages for all hours of participation, except when OJT is the non-primary component. Before placing an individual in such an activity, the recipient shall request a determination from the Internal Revenue Service as to whether income from the non-primary component is taxable. Nothing in this subsection shall authorize compensation at rates less than those required by paragraphs (a) or (b) of this section.

(ii) Employed Participants. Wages may be paid to a participant by the participant's employer for hours spent in classroom training, whether or not such hours constitute a primary component.

(7) Recipients and subrecipients are required to ensure that prevailing wages, as determined by the Secretary pursuant to the Davis-Bacon Act, are paid:

(i) by their contractors and subcontractors to laborers and mechanics, excluding participants, employed in construction (including alteration, repair, painting, decorating, etc.) which is federally assisted under the Act and related to a facility or building which is used primarily for programs under the Act; and

(ii) to laborers and mechanics, including participants, who are employed in construction (including alteration, repair, painting, decorating, etc.) on any project which is funded wholly or partially under a Federal statute, other than CETA, which requires the payment of prevailing wage rates determined in accordance with the Davis-Bacon Act.

(b) *Payment of training allowances. General.* (i) Subject to paragraph (viii) of this section and section 676.25, a basic hourly allowance shall be paid to participants for time spent in classroom training. In addition, allowances may be paid for time spent in employment and training and supportive services only in accordance with § 676.25(e), (sec. 124(a)).

(ii) No participant may receive allowances for classroom training for more than 104 weeks in a 5-year period. However, this shall not prohibit a recipient from paying for books, tuition and related expenses within the limits set forth in section 121(c).

(1) *The allowance payment system.* A standard system for payment of allowances shall be maintained by every recipient to ensure prompt and efficient payment to all participants. (sec. 124(a)). The standard payment system shall consist of a uniform set of procedures, but may be operated by one or more service delievers. It shall include:

(i) Determination of entitlement and computation of amount to be paid;

(ii) Issuance and distribution of payments;

(iii) Maintenance of payment records and preparation of required reports;

(iv) Maintenance of a system to detect and collect overpayments; and

(v) Arrangements with other agencies to obtain information to minimize unauthorized payments, including arrangements with:

(A) The State Employment Security Agency for verifying the receipt of unemployment compensation by participants (sec. 124(a)).

(B) Appropriate agencies for verification of public assistance payments (e.g., local welfare agencies); and

(C) Training facilities for submittal of payment requests and certifications of attendance.

(2) *Selection of delivery agent.* The recipient is required to provide a standard allowance payment system either directly or through an organization or organizations it considers appropriate for its particular circumstances. The recipient, in selecting the delivery agent for the payment of participant allowances should give consideration to the use of existing agencies which have experience in operating an allowance payment system, e.g., the Unemployment Insurance Service.

(3) *Basic allowances.* (i) A basic hourly allowance shall, except as provided in paragraphs (8) and (9) of this section, equal the higher of:

(A) The minimum hourly wage prescribed by State or local law for most employment in the recipient's area, multiplied by the number of hours during which the trainee attends or is absent for good cause; or

(B) The minimum hourly wage specified in Section 6(a)(1) of the Fair Labor Standards Act, multiplied by the number of hours during which the

V 4 4 / 1 4 J A 1 9 7 9 UMI

trainee attends or is absent for good cause;

(ii) To compute the number of hours of participation the recipient shall count the time spent in classroom training, and may count the time spent in employment and training services or other activities as specified in sec. 676.25 (e) and (f);

(iii) Dependent allowances, incentive allowances, and additional allowances as described in (4), (5) and (7) of this section are not to be included as part of the basic allowance.

(4) *Dependents allowances.* (i) In the case of an individual with dependents, an additional $5 a week shall be provided for each dependent over two (2) up to a maximum of four (4) additional dependents for participants receiving basic allowances or who would be receiving basic allowances were it not for adjustments which are permitted pursuant to paragraph (b)(8)(viii)(A) of this section (sec. 124(a)).

(ii) Dependent allowances shall be reduced prorate for absence without good cause. The methodology for making the reduction shall be described in the prime sponsor's Master Plan or grant application. Except as provided in paragraph (b)(i)(iv) of this section, dependents allowances may not be reduced (sec. 124(a)).

(5) *Incentive allowances for persons receiving public assistance.* (i) Except for trainees receiving allowances under Subparts A, B, and D of Part 680 incentive allowances in the amount of $30 per week, in lieu of basic allowances, shall be paid to participants receiving public assistance or whose needs or income are taken into account in determining such public assistance payments to others (sec. 124(a)(3)).

(ii) Incentive allowances shall be reduced pro rata for absences without good cause. The methodology (e.g., daily or hourly proration) for making the reduction shall be described in the prime sponsor's Master Plan or grant application.

(iii) Incentive allowances shall be disregarded in determining the amount of public assistance payments individuals are entitled to receive under Federal or federally assisted public assistance programs (sec. 124(a)(3).

(6) *Payments to persons in correctional institutions.* For participants who are prisoners, all or part of the allowances, as determined by the recipient and the head of the institution, may be held in reserve by the institution and delivered upon the participant's release from the institution.

(7) *Additional allowances.* Additional reasonable allowances, such as allowances for transportation or subsistence, may be paid to participants to cover extraordinary costs associated with participation in an activity. The circumstances in which additional allowances will be paid shall be described in the Master Plan on the grant application (sec. 124(a)).

(8) *Adjustments in allowances.* (i) The basic allowance shall be reduced on a weekly basis by the amount of any unemployment compensation, received. Where eligible, participants should be encouraged to apply for and claim unemployment compensation benefits, if they are not already receiving such benefits. The basic allowance shall not be reduced because of any unemployment compensation received prior to enrollment. If unemployment compensation is paid on a biweekly basis, it shall be prorated over the two weeks before the allowance is reduced (sec. 124(a)).

(ii) The basic allowance may be adjusted upward if conditions for such increases are described in the approved Master Plan or grant.

(iii) Periodic increases to the basic allowances may be provided as an incentive to participation when such increases are described in the approved Master Plan.

(iv) Where a participant is employed by an employer as part of a training or employment activity under the Act, the basic hourly allowance may equal up to the hourly wage of the position in which the participant is employed.

(v) (A) The basic allowance for a participant may be reduced, at the option of the recipient, on a weekly basis, by the total amount of any Basic Education Opportunity Grant (BEOG) during the period in which he/she is enrolled in classroom training divided by the number of weeks in which the participant is enrolled in the classroom training; and

(B) The recipient may, however, make arrangements with the training institution to apply BEOG payment to tuition, books and related training costs normally funded by the recipient. The recipient should then pay the training institution the difference, if any, between the actual training costs and the BEOG.

(vi) The basic allowance may be reduced by the amount of wages received by classroom training participants who are also enrolled full-time during the same payment period in either work experience, PSE or OJT. The determination or whether the activity is full-time shall be based on the number of hours that constitute full-time employment for regular employees similarly employed at the employing agency or worksite.

(9) *Waivers of allowances.* (i) The payment of all or part of the basic allowance, described in paragraph (3) of this section, may be waived only in accordance with paragraphs (9) (ii) or (iii) of this section under the conditions described in the grant (sec. 123(a)).

(ii) Waivers of basic allowances shall be allowable only when the following conditions have been met and documented, and a statement of understanding has been signed by each participant:

(A) That the waiver will be applied to the total enrollment in a course and will not be imposed on an individual basis, except as provided in paragraph (9)(3) of this section; and

(B) That the waiver will not have the effect of denying participation to individuals who could not participate without receipt of allowances; and

(C) That the waiver will increase the number of participants served or the level of services provided; and

(D) That the waiver will otherwise promote the purposes of the Act; and

(E) That all participants for whom allowances are waived will be so notified in writing; and

(F) That documentation of the waiver signed by the participant will be made a part of the participant's record.

(iii) In exceptional circumstances, individual waivers, when described in the plan may be granted under the following conditions:

(A) The waiver is at the written agreement of the participant; and

(B) Individual waivers may only be granted when all of the funds allocated in the Budget Information Summary for allowances have been obligated and training opportunities are still available and are unfilled.

(iv) The dependent allowances described in paragraph (4) of this section may not be waived except in cases where the entire basic allowance is waived.

(v) Allowance payments may not be waived solely because a participant is a veteran and receives benefits through the Vietnam Era Veteran's Readjustment Assistance Act, as amended.

(vi) Incentive allowances shall not be waived.

(10) *Repayments.* Prime sponsors shall require participants to repay the amount of any overpayment of allowances under this Part, except if the overpayment was made in the absence of fault on the part of the participant. Where the recipient requires repayment, any overpayment not repaid may be set off against any future allowance or other benefits under the Act to which the participant may become entitled, but in no case shall the wage be reduced below the applicable minimum wage.

§ 676.27 General benefits and working conditions for program participants.

(a)(1) Each participant in an on-the-job training, work experience, or public service employment program under the Act shall be assured of workers' compensation at the same level and to the same extent as other employees of the employer who are covered by a State or industry workers' compensation statute. Whether provided through the State's compensation agency or a private insurance carrier, this coverage includes medical and accident insurance as well as income maintenance insurance. (sec. 121(d)(5)).

(2) Where a participant is employed or engaged in any CETA program activity, i.e., work experience, public service employment, on-the-job training, classroom training, services to participants and other activities where others similarly employed or engaged are not covered by an applicable workers' compensation statute, the participant shall be provided with medical and accident insurance coverage. Whether provided through the State's workers compensation agency or a private insurance carrier, the recipient shall provide such participants with coverage which is adequate and comparable to the medical and accident insurance provided under the applicable State workers' compensation statute. However, recipients shall not be required to provide these participants with the income maintenance insurance coverage in the statute (sec. 121(d)(5)).

(b) Each participant in an on-the-job training or public service employment program shall also be provided health insurance, coverage under collective bargaining agreements, unemployment benefits and other benefits and working conditions at the same level and to the same extent as other employee working a similar length of time, doing the same type work, at the same level, and similarly classified with respect to employment status (e.g., temporary, probationary).

(1) Any such classification shall be reasonable and shall include non-federally financed employees. Where only federally subsidized employees work for an employer, classifications may be limited to them.

(2) Classifications shall not be established exclusively for CETA participants nor shall participants be placed in existing or new classifications in order to reduce or deny benefits to which they are entitled.

(3) Within a single classification, a distinction may be made between CETA participants and other employees with respect to retirement systems or plans which provide benefits based on age or service or both pursuant to § 676.28(a) and (c)(1).

(c) Conditions of employment and training shall be appropriate and reasonable, in light of such factors as the type of work, geographical region, and proficiency of the participant, (sec. 124(d)(1)).

(d) Every participant, prior to entering upon employment or training, shall be informed of his or her rights and benefits in connection with such employment or training. This includes the information that family planning services are voluntary. Participants shall be informed of the name of their employer. (sec. 121(a)(3))

(e) No participant will be required or permitted to work, be trained, or receive services in buildings or surroundings or under working conditions which are unsanitary, hazardous or dangerous to his or her health or safety. Participants employed or trained for inherently dangerous occupations, e.g., fire or police jobs, shall be assigned to work in accordance with reasonable safety practices. (sec. 121(d)(2))

§ 676.28 Retirement benefits for program participants.

(a) CETA participants may be excluded from retirement systems or plans which provide benefits based on age or service or both which cover similarly employed, non-CETA employees. (sec. 122(k))

(b) Except as provided in paragraph (d) of this section, funds may be used for contributions to retirement systems or plans on behalf of CETA participants in on-the-job training in public or private nonprofit agencies, work experience and public service employment only when such contributions bear a reasonable relationship to the cost of providing benefits to participants. The determination of such a reasonable relationship is based on the following contingencies: The participant

(1) obtains unsubsidized employment with the employer, provided the time spent as a CETA participant is accredited service under the employer's retirement plan; or

(2) obtains unsubsidized employment with another employer, provided benefits are transferable or portable; or

(3) obtains vesting. (sec. 121(j)).

(c) Examples of acceptable methods for payment into retirement systems are as follows:

(1) Recipients may use funds for the employer's contribution to a retirement system or plan where the system adopts a "buy-back" or "buy-in" arrangement on behalf of participants who obtain covered unsubsidized employment provided such employment is obtained within 90 days of termination from subsidized participation. Although such individuals are not covered under the appropriate retirement system or plan during their period of CETA participation, that participation period must be creditable under such system or plan. The employer's contribution shall be paid at the rate applicable during the creditable period of CETA participation. Any interest which would have been earned during that period may be paid from CETA funds.

(2) Recipients may establish a separate reserve retirement account for participants. The employer's contribution made with CETA funds contributed on behalf of participants who do not obtain a status described in paragraph (b)(1), (2), or (3) of this section shall be retrievable and the reserve account shall be adjusted quarterly to reflect the turnover of participants and the projected funds needed to cover current participants. Funds set aside in a reserve account may earn interest.

(3) Payments from CETA funds may be made directly into a regular retirement account on behalf of CETA participants, provided the payments are based on the actuarially determined cost of benefits for participants who can expect to obtain a status described in paragraph (b)(1), (2) or (3) of this section.

(d) Except for those recipients which have come into compliance with the provisions of paragraph (b) and (c) this section at an earlier date, funds available for retirement benefits under the Act may be used for contributions on behalf of participants who are enrolled in retirement systems or plans, prior to July 1, 1979, without regard to the provisions set forth in paragraphs (b) and (c) of this section. These contributions may be made on behalf of such individuals for the duration of their CETA participation (sec. 121(j)).

(e)(1)(i) When a recipient intends to use CETA funds for retirement benefits on behalf of participants the method for doing so shall be described in the Annual Plan.

(ii) Recipients may purchase packages of benefits which include retirement and non-retirement benefits. In such cases:

(A) CETA funds may be used to pay for costs reasonably attributable to the non-retirement benefits, and, to the extent allowed by (b) through (d) of this section, to pay costs reasonably attributable to retirement; or

(B) CETA funds may be used to pay for the costs excluding the difference between the total cost of the package (including retirement) and the cost of a similar benefits package for the whole jurisdiction without a retirement component.

(2) Extensions to the provisions in this section may not be granted, except that under very limited circumstances, the RA, with the approval of the Regional Solicitor, may allow an extension until the end of the regular 1979 legislative session under the following circumstances:

V 4 4 / 1 4 J A 1 9 7 9 UMI

(i) the State has a law prohibiting the implementation of procedures required by this section;

(ii) the State legislature did not have a regular session in Calendar year 1978, and the calendar 1979 session will not end prior to July 1, 1979; and

(iii) the recipient has made efforts to have the State legislature change the law.

(f) Expenditures may be made from program funds for taxes under the Federal Insurance Contributions Act (FICA), 26 U.S.C. 3101 et. seq.

§ 676.29 Non-Federal status of participants.

Except where specifically provided to the contrary, participants in a program under the Act shall not be deemed Federal employees and shall not be subject to the provisions of law relating to Federal employment, including those related to hours of work, rates of compensation, leave, umemployment compensation, and Federal employment benefits.

§ 676.30 Termination conditions; participant limitations

(a) Personnel procedures applicable to regular employees shall apply to any participant who is to be terminated by an employer from a position subsidized with CETA funds. Participant recourse shall be the same as that available to any other similarly employed person with the same employer. Except as noted below, termination of employment does not require termination of participation under CETA.

(b) When a suitable job offer or offer of referral to a suitable job is made to and rejected by a participant, this can be acceptable grounds for termination of the participant by the prime sponsor, regardless of how long the individual has been in the program. Suitable job shall mean a job which is: (1) comparable to the participant's CETA job in terms of working conditions and benefits; and (2) the same or equivalent to the participant's CETA job or otherwise commensurate with his/her skill level; and (3) located within a commuting distance of the participant's home comparable to the distance travelled by others in the jurisdiction similarly employed; and (4) not vacant due to a strike, or based on a requirement that an employee must join or resign from a union.

(c) A grantee which has not successfully placed a participant in appropriate unsubsidized employment or training within the established time limits for participation set forth in paragraph (d) and (c) of this section shall provide the participant with written notice of the impending termination and a contact person for questions and further information at least two (2) weeks prior to the effective date. A dated copy of the notice shall be maintained with the participant's file.

(d) Participation in individual program activities shall be limited to a maximum of:

(1) 1000 hours of work experience during any one year and 2000 hours of work experience during the five year period, beginning October 1, 1978, as provided under paragraph (g) of this section. Participants in YCCIP shall not be subject to this limitation.

(2) 78 weeks of public service employment during a five year period beginning October 1, 1978. In computing this 78 weeks, prime sponsors shall include any public service participation from April 1, 1978, to October 1, 1978. (sec. 122(h)(2)).

(e) No participant may receive allowances for classroom training for more than 104 weeks in a 5-year period (sec. 121(c)(1)).

(f) Except as otherwise provided in paragraphs (g) and (h) of this section, recipients shall limit participation in CETA by any person to a maximum of 30 months during a 5 year period beginning October 1, 1978.

(g) The limitation on total participation in CETA set forth in paragraph (d)(1) and (f) of this section: (1) shall not apply to time spent by in-school youth enrolled in a work experience program under the Act (secs. 121(c)(2) and 212(b)); and (2) may be waived by DOL with respect to time spent by other persons enrolled in a work experience program under the Act based on the inclusion in the Annual Plan or grant application of satisfactory evidence that, due to the lack of alternative job opportunities in the area, this limitation is impractical. Depending on the circumstances in the recipient's area the waiver may be granted for all work experience participants or for one or more subgroups, such as older workers. However, the exemption of in-school youth shall end when the youth is no longer an in-school youth. Those individuals exempt from the 30-month limitation, may continue to participate after the 30-month period has elapsed if they continue in a work experience activity (sec. 121(c)(2)).

(h) A temporary waiver of the limitations set forth in paragraph (d)(2) and (f) of this section of not more than 12 months may be granted by DOL for a limited number of PSE participants hired prior to October 1, 1978, for:

(1) A prime sponsor that has faced unusually severe hardships in its efforts to transition public service employment participants to regular public or private employment not supported under the Act; and

(2) Native American entities that operate programs authorized by section 302 (c)(1) of this Act (sec. 122(h)(4)(A)).

(i) A temporary waiver of the limitation in subsection (d)(2) of this section of not more than 12 months may be granted by the RA for PSE participants hired on or after October 1, 1978 in the case of an area which

(1) (i) Is a unit of general local government which qualifies to be a prime sponsor and that has, at the time of the request for extension, an unemployment rate of at least 7 percent; or

(ii) Is a Native American jurisdiction that has, at time of application for the extension, an unemployment

(iii) Is a unit of general local government that is served by a BOS, or that would have been served by the BOS had it not become part of a consortium, and that has, at the time of the request for the extension, an unemployment rate of at least 7 percent; and

(2) Has faced unusually severe hardship in its efforts to transition public service employment participants into regular public or private employment not supported under tha Act (sec. 122(h)(4)(B)).

(j) A prime sponsor desiring an extension under subsection (h) or (i) of this section for itself or for any area within its jurisdiction believed to qualify for such an extension shall make a request to the RA. This request shall be submitted not more than 60 days prior to the scheduled termination date of any participant for whom the extension is being requested. This request shall include:

(1) The name of each participant for whom the extension is being requested;

(2) The date each individual was hired;

(3) The currently required termination date for each participant;

(4) The length of the extension requested and the proposed new date by which the participant will be terminated from public service employment;

(5) The reason the extension is necessary;

(6) The unemployment rate in the area served by the affected recipient;

(7) A general description of the efforts which have been made to place the individuals in unsubsidized employment; and

(8) A description of the additional efforts that will be undertaken if the extension is granted.

(k) DOL shall notify the recipient in writing of the DOL approval or disapproval and reasons for disapproval. When DOL disapproves a prime sponsor's request for an extension under paragraph (h) or (i) of this section, the Department shall include in the written notice of disapproval the specific reasons for such disapproval.

§ 676.30a Procedures for serving specific target groups.

(a) *General.* Recipients shall take appropriate steps to provide for the increased participation of qualified special disabled and Vietnam-era veterans with special emphasis on qualified veterans who served in the Indo-China theater on or after August 5, 1964, and on or before May 7, 1975, through assuring adequate training and employment opportunities for such veterans in their programs. Such steps may include:

(1) Cooperative arrangements and programs with other agencies or programs (such as veterans service organizations, veterans' cost of instruction programs, national and local organizations of business and labor, community and mental health centers, the Veterans Administration and community-based veterans organizations) to provide comprehensive education, employment, training, outreach, job development, veterans' benefits counseling, and personal adjustment counseling.

(2) Creation, maintenance, or expansion of private sector veterans employment and training programs, such as special OJT efforts for veterans, and cooperative programs using supplemental funding for eligible persons pursuing on-the-job training under Chapters 31 and 34, of Title 38, United States Code.

(3) Programs to facilitate effective placement of, and entry by, veterans into readjustment or employment programs.

(4) Other programs or initiatives, such as split-work experience programs, necessary to serve the unique readjustment, rehabilitation and employment needs of veterans (sec. 121(b)(2)).

(5) Providing information on job and training opportunities to veterans organization (sec. 121(b)(2)).

(b) Public service employment programs.

(1) Within a PSE program, preference in enrollment shall be given to those who are the most severely disadvantaged in terms of lenth of unemployment and their prospects for finding unsubsidized employment (sec. 122(b)(1)).

(2)(i) Recipients shall give special consideration in filling public service jobs to qualified public assistance recipients (or persons who would be eligible to receive public assistance according to established criteria if they would apply for such assistance), and special disabled and Vietnam-era veterans (sec. 122(b)).

(ii) Special consideration shall at a minimum consist of the following:

(A) Outreach mechanisms;

(B) Special referral and selection mechanisms, which may include point systems for weighing applications; and

(C) Specific local goals for participation of target groups.

(iii) In providing special consideration, the prime sponsor shall take advantage of community resources to identify and reach specific target groups. The Master Plan shall specify the mechanism for providing special consideration and shall specify the involvement of SESA's and organizations representing the target groups in the design and/or implementation of these procedures.

(3)(i) Recipients shall provide special emphasis to eligible persons who are offenders, persons of limited English language proficiency, handicapped individuals, women, single parents, displaced homemakers, youth, older workers, and individuals who lack educational credentials (sec. 122(b)).

(ii) Such special emphasis shall include, but not be limited to, taking into consideration the needs of these groups when developing program services and activities, establishing outreach procedures to facilitate the participation of such groups and other steps as the recipient determines to be appropriate.

(iii) Special efforts (e.g., newspaper notices) shall be made to acquaint these groups with the services and activities available under the Act and to coordinate those efforts with other programs serving such persons (sec. 122(b) (3) (B)).

Subpart C—Administrative Standards and Procedures

§ 676.31 General.

(a) This section describes Federal requirements relating to the administration of grants by recipients under CETA. Administrative requirements found in this subpart apply to all programs under the Act unless stated to the contrary for any specific program.

(b) As referenced in this subpart the requirements set forth in 41 CFR 29-70, "Administrative Requirements Governing All Grants and Agreements by which Department of Labor Agencies Awards Funds to State and Local Governments, Indian and Native American Entities, Public and Private Institutions of Higher Education and Hospitals, and other Quasi-Public and Private Nonprofit Organizations," shall apply to grants under CETA.

(1) The requirements in 41 CFR 29-70.1 set forth the policies which apply to all basic grants and agreements.

(2) The requirements in 41 CFR 29-70.2 implement OMB Circular Nos. A-102 and A-110, and applies to all CETA grants and agreements.

§ 676.32 Methods of payment to recipients of CETA funds.

Payments will be made to all recipients according to provisions in 41 CFR 29-70.210, "Grant or Agreement Payment Requirements."

§ 676.33 Depositories for CETA funds.

The standards covering the use of banks and other institutions as depositories for CETA funds are found at 41 CFR 29-70.201, "Cash Depositories."

§ 676.34 Management information systems.

(a) All recipients shall establish and maintain a financial management system which meets the standards set forth in 41 CFR 29-70.207, "Standards for Grantee Financial Management Systems." These systems will include audit procedures in conformance with the "Audit Requirements and Responsibilities" in 41 CFR 29-70.207.4 (sec. 103(a)(11), (sec. 133)).

(b) The recipient may be required to participate in a unified audit established by the Secretary which provide for the audit of both the recipient and its subrecipients and contractors. A unified audit is a coordinated audit of a recipient and its subrecipients and contractors performed by the same public or private organization. The recipient may be required to pay from funds available to it for administrative expenses, that portion of the unified audit expenses allocable to the audit of such subrecipients and contractors. When the recipient arranges for the audit, the following conditions apply:

(1) The request for proposal and the bidding evaluation process must be approved by the Division of Audit; and

(2) Each audit agency or public accounting firm selected must be determined by the Division of Audit to be able to provide an independent audit in accordance with procedures established by the Department (sec. 106(j)).

(c) All recipients shall establish and maintain a client tracking system consisting of records on applicants, participants and terminees which will allow for the audit and monitoring of the recipient's programs, particularly with respect to the eligibility of participants and the propriety of participant selection procedures and practices (sec. 103(a)(11)).

(d) Procedures for establishing additional management controls are specified in §§ 676.22 and 676.75.

§ 676.35 Retention of records.

(a) All records, reports, documents and files required under these regulations shall be the responsibility of the recipient. Retention of and access to those records, reports, documents and files shall be as provided for at 41 CFR 29-70.203, "Retention and Custodial

Requirements for Records." (sec. 133(a)(1)).

(b) Notwithstanding paragraph (a), the recipient shall retain necessary information to ensure that the length of CETA participation for any individual does not exceed the limits on duration found at § 676.30(d) through (i).

(c) Financial records relating to public service employment programs and records of the names, addresses, positions and salaries of all persons employed in public service jobs shall be maintained and made available to the public. (sec. 122(g)).

§ 676.36 Program income.

(a) Except as provided in paragraph (b) of this section, all income realized in CETA activities shall be subject to 41 CFR 29-70.205, "Program Income and Interest Earned."

(b) Any income generated or realized in an activity may be retained by the recipient or subrecipient to continue any CETA activity notwithstanding the expiration of financial assistance. The RA may require the recipient or subrecipient to account for expenditure of such income for a period not to exceed 2 years from the expiration date of the annual plan (sec. 123(h)).

§ 676.37 Recipient contracts and subgrants.

(a) *Recipient responsibility.* (1) The recipient is responsible for development, approval and operation of all contracts and subgrants and shall require that its contractors and subrecipients adhere to the requirements of the Act, regulations promulgated under the Act, and other applicable law.

(2) The recipient shall require contractors and subrecipients to maintain effective control and accountability over all funds, property and other assets covered by the contract or subgrant.

(3) The recipient shall ensure that contractors and subrecipients maintain and make available for review by the recipient and the Department of Labor all records pertaining to the operations of programs under such contracts and subgrants, consistent with the maintenance and retention of record requirements.

(4) Each recipient shall take action against its contractors and subrecipients to eliminate violations of these regulations, and to prevent misuse of CETA funds (sec. 123(i)), (sec. 106(d)(1)).

(5) Subrecipients are entitled to funding for administrative costs. The amount of such funding will be determined during the development of subgrants.

(b) In the event an agreement or subgrant is cancelled, in whole or in part, the recipient shall develop procedures for ensuring continuity of service to participants.

(c) Recipients are authorized to enter into contracts or subgrants which extend past the expiration date of the Annual Plan, but such extension shall not exceed 1 year. In such cases, the recipient shall continue to be responsible for the administration of such contracts and subgrants.

§ 676.38 Procurement standards.

(a) Recipients shall comply with the procurement systems and procedures found in 41 CFR 29-70.216, "Procurement Standards."

(b) Small and minority-owned businesses, including small businesses owned by women, within the jurisdiction of the prime sponsor, shall be provided maximum reasonable opportunity to compete for contracts for supplies and services. One means to provide for this is the use of set-asides (sec. 121(k)).

(c) Prime sponsors shall maintain an inventory of potentially available deliverers of services, including their names, addresses and types of services offered, which have expressed an interest in writing, and use this inventory to select such deliverers of services. This inventory shall be available for public review (sec. 103(a)(3)(B)).

(d) Selection of deliverers shall be in accordance with § 676.23 of these regulations.

(e) No funds will be paid to any nongovernmental organization for the conduct of programs (other than under Title VII or on-the-job training) under the Act unless:

(1) It has submitted an acceptable written proposal;

(2) Selection is performed on a merit basis, after thorough review by the prime sponsor, or Secretary as appropriate;

(3) It has not been seriously deficient in its conduct of, or participation in, any Department of Labor program in the past, or is not a successor organization to one that was seriously deficient in the past, unless the Secretary in his/her discretion certifies after a clear, convincing and detailed showing that the deficiencies will be eliminated and performance substantially improved;

(4) A comprehensive monitoring system operated in accordance with § 676.75(c) is in effect;

(5) It has the administrative capability to perform effectively (sec. 121(o)).

(f) No funds will be paid to any nongovernmental organization for the conduct of on-the-job training and Title VII programs under the Act unless:

(1) Payment is supported by a written agreement which has been evaluated and found acceptable against standards established by the recipient;

(2) The organization has not been seriously deficient in its conduct of, or participation in, any Department of Labor program (sec. 121(o)).

§ 676.39 Property management standards.

Recipients shall comply with the property management standards set forth in 41 CFR 29-70.215.

§ 676.40 Allowable costs under CETA.

(a) *General.* To be allowable, a cost must be necessary and reasonable for proper and efficient administration of the program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out overall responsibility of State or local governments.

(b) *Direct costs.* Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the accumulation of costs pending distribution in due course to grants and other ultimate cost objectives.

(c) *Indirect costs.* Indirect costs are those:

(1) Incurred for a common or joint purpose benefiting more than one cost objective; and

(2) Not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the recipient entity, as well as those incurred by other entities in supplying goods, services, and facilities, to the recipient.

(d) *Restrictions on use of funds.* (1) The amount of funds available for any specific cost category or activity shall be limited as specified in the regulations for the specific programs.

(2) Funds made available through one grant or Annual Plan subpart may not be used to support costs properly chargeable to another grant or Annual Plan subpart with the exception that funds available for administration shall be pooled under a separate subpart and used to cover all allowable administrative costs incurred under the Annual Plan (sec. 123(f)).

(e) *Allowable CETA costs.* Except as modified by these regulations, the cost principles to be used in determining allowable CETA costs are referenced in 41 CFR 29-70.103 "Cost Principles."

(1) CETA funds may be used to satisfy cost sharing or matching requirements where authorized by Federal law, other than CETA, when seeking other Federal funds and shall be subject to the provisions of 41 CFR 29-70.206, "Matching Share."

(2) Funds may be used for construction activities only to:

(i) Pay wages and fringe benefits for participants employed by public or private non-profit agencies;

(ii) Purchase equipment, materials, and supplies for use by participants while on the job and for use in the training of such participants;

(iii) Cover costs of a training program in a construction occupation, including costs such as instructors' salaries, training tools, books, and allowances and wages; (sec. 123(c))

(iv) Cover costs of material and supplies, in Titles IID and VI projects, weatherization activities and Youth Community Conservation and Improvement Projects, which becomes part of the construction.

(3) Costs associated with building repairs, maintenance, and capital improvements of existing facilities used primarily for programs under the Act are allowable.

(4) The costs of home repair and weatherization are allowable when:

(i) The work is performed either:

(A) On dwellings of individuals whose family income is at or below 125 percent of the poverty level and which are privately owned and owner occupied, privately owned by a nonprofit organization or are units of public housing; or

(B) In weatherization projects funded by the Community Services Administration pursuant to section 222(a)(5) of the Economic Opportunity Act of 1964 or the Department of Energy pursuant to Title IV of the Energy Conservation and Production Act of 1976; or

(C) In rehabilitation projects of housing for lower income families as defined in section 8(f)(1) of the United States Housing Act of 1937 as part of community revitalization or stabilization projects (sec. 123(c)(4)).

(ii) Such activities are supervised by an adequate number of supervisory personnel who are adequately trained in the skills needed to carry out such activities and to instruct participants in the skills needed to perform in the work involved (sec. 123(c)).

(5) Recipients shall not use funds under the Act, to assist, including placing participants, in an establishment which has relocated from one area to another, or located new branches, subsidiaries, or affiliates within the past two calendar years, when such relocation or location has resulted in an increase in unemployment in the area of original location or any other area.

(6) Unemployment insurance benefit costs are allowable for administrative staff hired in accordance with the administrative provisions of these regulations, and for participants in other than public service employment. Unemployment insurance benefit costs for public service employment participants including such participants who are also administrative staff, who become eligible for unemployment insurance by reason of their participation in the program shall be paid not from funds under the Act, but from available funds under Part B, Section 220(a) of Pub. L. 94-444. However, administrative costs associated with the recordkeeping requirements necessary to implement Part B, Section 220(a) of Pub. L. 94-444, shall be allowable as an administrative cost under the Act. Each recipient, subrecipient, or contractor shall cooperate with the SESA's in providing data necessary to implement the provisions of Part B of Pub. L. 94-444.

(7) *Administrative costs.* (i) Administrative cost contribution shall not exceed 20 percent of the total planned costs for each Annual Plan Subpart other than Title II D, Title VI and the Youth Community Conservation and Improvement Projects unless the Program Narrative Description sets forth an explanation of how all administration costs have been determined and a detailed documentation to support that amount. The restriction on the use of funds for administration in Title II D and Title VI programs is set forth in § 677.58(a) and § 678.8(a)(3) and (b). The restriction on use of administration funds in the Youth Community Conservation and Improvement Projects is set forth in § 680. Administrative cost limitations for Title VII programs are found in Part 679 and for Special Governor's Grant programs in Part 677 Subpart D.

(ii) No funds made available for administrative costs under any Title of this Act may be used by a prime sponsor for making payments on contracts for legal or other associated services unless the prime sponsor certifies in writing that:

(A) The payments are not unreasonable in relation to the fees charged by other contractors providing similar services; and

(B) the services could not be competently provided through employees of the prime sponsor or other available State or local governmental employees (sec. 123(f)(2)).

(8) *The cost of participant travel and staff travel necessary for the operation or administration of programs under the Act is allowed as provided herein.*(i) Travel costs of governmental officials not part of the Office of the Governor of a State or the chief executive of a political subdivision are allowable if costs specifically relate to programs under the Act. These costs shall be charged to administration.

(ii) Travel costs for CETA administrative staff, including participants in administrative positions, are allowable when the travel is specifically related to the operation of programs under the Act.

(iii) Travel costs for participants using their personal automobiles in the performance of their jobs are allowable if the employing agency normally reimburses its other employees in this manner. These costs shall be charged to fringe benefits.

(iv) Travel costs to enable participants to participate in programs under the Act are allowable. Such travel shall be restricted to the recipient's jurisdiction or within daily commuting distance, except:

(A) To pay for transportation costs at the beginning and end of a training course which is more than daily commuting distance but within the State in which the recipient is located;

(B) As permitted for good cause by the RA, on a case-by-case basis, within the U.S.

§ 676.41 CETA cost allocation.

Allowable costs shall be charged against the following cost categories: Administration; wages; training; fringe benefits; allowances; and services.

(a) Costs are allocable to a particular cost category to the extent that benefits are received by such category.

(b) All recipients are required to plan, control, and report expenditures against the aforementioned cost categories.

(c) All recipients are responsible for insuring that subrecipients and contractors plan, control, and report expenditures against the aforementioned cost categories.

(d) Classification of costs by category. The following principles shall be followed in classifying cost by cost category:

(1) Participants' wages shall be charged to wages. All wages paid to participants receiving on-the-job training in public or private nonprofit organizations, and all wages paid to participants in public service employment and work experience are considered wages. Cost-of-living increases are considered wages.

(2) Participants' fringe benefits shall be charged to fringe benefits. Fringe benefits costs for participants include, but are not limited to, the following: provisions for annual, sick, court and military leave pursuant to an approved leave system; employees' life and health insurance plans, unemployment insurance where applicable, workers' compensation insurance and retirement benefits; and, under public service employment programs, uniforms, tools, or other equipment ordinarily provided by the employer to its regular employees, provided these are for the benefit and ownership of the participants.

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 - 1 4 J A 1 9 7 9 UMI

(3) Allowances paid to program participants shall be charged to allowances.

(4) Training costs consisting of goods and services which directly and immediately affect program participants in either a work environment or classroom setting shall be charged to training. Training costs include, but are not limited to, the following: salaries; fringe benefits; equipment and supplies of personnel engaged in providing training; books and other teaching aids; equipment and materials used in providing training to participants; classroom space and utility costs; and that part of tuition and entrance fees which represent instructional costs having a direct and immediate impact on participants. The compensation of individuals who both instruct and supervise other instructors must be prorated among the training and administration cost categories on the basis of time records or other equitable means. Similarly, tuition fees, and the costs of supplies used in the course of both participant instruction and other activities should be prorated among the benefiting uses.

(5) Supportive and employment and training service costs which consist of goods and services which affect program participants shall be charged to services. Services include, but are not limited to, supportive and employment and training services and services to applicants. Services costs include, but are not limited to, salaries and fringe benefit, space, utility, equipment and travel costs, when an integral part of the job of personnel engaged in providing services to participants; and that part of single unit charges for child care, health care and other services which represent only the costs of services directly beneficial to participants. Transportation of participants, as provided § 676.40(e)(8)(iv), is properly chargeable to services.

(6) Administrative costs shall consist of all direct and indirect costs associated with the management of the program. These costs shall include the administrative costs, both direct and indirect, of subrecipients and contractors. Administrative costs shall be limited to those necessary to effectively operate the program.

(i) Indirect administrative costs represent the general management and support functions of an organization as well as secondary management and support functions at the bureau or division level. Included are salaries and fringe benefits of personnel engaged in executive, fiscal, personnel, legal, audit, procurement, data processing, communications, maintenance, and similar functions, related materials, supplies, equipment, office space costs, and staff training.

(ii) Direct administrative costs are comprised of goods and services which neither contribute to the general management and support functions of an organization, nor directly and immediately affect participants (e.g. training costs). Also included are salaries and fringe benefits of direct program administrative positions such as supervisors, program analysts, labor market analysts, and project directors. Additionally, all costs of clerical personnel, materials, supplies, equipment, space, utilities, and travel which are identifiable with these program administration positions shall be charged to administration. Some examples of administrative costs are: the salary of a clerical assistant to a supervisor; that part of an instructor's salary representing time spent supervising other instructors; desk-top supplies used by supervisors; and, in general, office administration, rent, depreciation or maintenance of nonclassroom space; staff training; consultant services under contract not involving direct training or srvices to participants; costs incurred in the establishment and maintenance of a planning or advisory council under CETA, or in publishing a grant application; and costs of monitoring and providing technical assistance to contractors and subrecipients.

(iii) Services normally chargeable to administration shall be charged to wages or fringe benefits, as appropriate, when performed by program participants.

(e)(1) Except under the optional fixed price performance agreement method provided for in paragraph (2) below, when contractors or subrecipients bill the recipient with a single unit charge containing costs which are chargeable to more than one cost category, the recipient will charge these costs to the proper cost categories. For unit charges such as tuition fees for which the necessary detail cannot be provided, an estimate of the breakdown of the single unit charge among cost categories will be obtained, except when such unit charges are normally billed as a single charge and the cumulative amount of such charges does not exceed $25,000 within the Annual Plan year. These exempted charges do not need to be prorated among the benefiting categories but can be charged to the category receiving the most benefit. Any profit or loss should be prorated among all affected cost categories.

(2) This paragraph provides for an optional method, for agreements to be used only for classroom training. Under the method provided for in this paragraph, costs which are billed as a single unit charge do not have to be allocated or prorated among the several cost categories but may be charged entirely to training. This does not preclude the use of other methods for this purpose as long as the cost allocation requirements of this section are followed.

(i) Agreements under this paragraph must:

(A) Be fixed unit price;

(B) Stipulate that full payment for the full unit price will be made only upon the completion of training by a participant and placement of the participant into unsubsidized employment in the occupation trained for and at not less than the wage specified in the agreement; and

(C) Include a payment schedule which sets out that portion, if any, of the full unit price which may be paid for less than full performance. The payment schedule that is to be used must have been approved by the RA.

(ii) No funds under this Act may be used to pay any private-for-profit organization for training of participants under the method provided herein unless:

(A) That organization is part of (including a subsidiary of) an employer; or

(B) Unless written statements of intent to hire participants trained under the contract have been obtained from employer(s).

(3) In the case of multiuse equipment there must be a proration of costs or, if there is a predominant usage relating to one cost category, a charge shall be made to that category.

(4) Any single cost, such as staff salaries and/or fringe benefits, which is properly chargeable to more than one cost category shall be prorated among the affected categories.

(f) The extent to which the cost categories are assignable to specific program activities is set forth below:

(1) *Classroom training.* Cost categories chargeable are: training; allowances; services; wages when paid to participants during classroom training; and fringe benefits (medical and accident insurance for participants only).

(2) *On-the-job training.* Cost categories are: wages and fringe beneifts (attributable to public or private nonprofit employers only); training; and services.

(3) *Public service employment.* Cost categories are: wages; fringe benefits; services; and training.

(4) *Work experience.* Cost categories are: training; services; wages; and fringe benefits.

(5) *Services to participants (not part of another program activity).* Cost categories are: allowances; fringe benefits (medical and accident insurance for participants only); and services.

(6) *Other activities.* Cost categories are: training; allowances; and services.

§ 676.42 Administrative cost Annual Plan Subpart.

(a) All administrative funds from all Annual Plan Subparts shall be contained in a separate Administration Annual Plan Subpart unless specifically exempted by regulations or grant agreement. The amount each subpart contributes to the Administrative Cost Subpart shall not exceed the limits set in § 676.40(e)(7), § 677.58 (a) and (b), § 678.8(a)(3) and (b), and 680 (sec. 123(f)(1)).

(b) The Administrative Cost Subpart to the Annual Plan shall consist of the following:

(1) *Budget Information Summary (BIS).* Provide on the BIS the proposed administrative costs for the program year. This shall include the sum of the contributions from all subparts under the Annual Plan.

(2) *Budget Information Summary Backup.* List separately on this attachment to the BIS each Annual Plan Subpart and the amount it contributed to the administration pool.

(c) When the Administrative Cost Subpart is approved, the funds may be expended for all allowable administrative costs. There is no requirement that administrative costs be allocated back to Title or program activity.

(d) The Administrative Annual Plan Subpart may be modified during the program year. The amount of funds in the subpart may be decreased with the funds going back to the program subparts provided that not program subpart receives back more than it contributed to the Administrative Cost Subpart. The administrative subpart may also be increased up to the percent allowed by the regulations for each program.

(e) At the end of a program year unexpended administrative funds may be carried over into the new subpart or they may be returned to the program subparts. In the new program year the amount of new funds which will go into the Administrative Cost Subpart will be determined by using only the new obligational authority.

§ 676.43 Administrative staff and personnel standards.

(a) *Staffing.* Members of the eligible population shall be provided maximum employment opportunities at all levels of the CETA administration. Recipients shall establish systems to enhance the recruitment and hiring of qualified persons reflecting the significant segments, and to provide opportunities for further occupational training and career advancement (sec. 121(b)(1)(B)).

(b) *Basic personnel standards.* (1) Methods of personnel administration shall be established and maintained by each recipient for its employees, including participants, engaged in the administration or operation of programs under the Act. Such methods shall be in conformity with the Intergovernmental Personnel Act (IPA) Merit Principles, P.L. 91-648, Section 2, administered by the U.S. Office of Personnel Management.

(2)(i) Except as provided in paragraph (3), below, a recipient whose personnel system does not conform to the merit principles of the IPA shall develop a plan outlining steps to be taken for attaining an acceptable system, and a reasonable date within the grant year for implementing the steps in the plan.

(ii) Recipients whose personnel systems have been accepted by the U.S. Civil Service Commission or the U.S. Office of Personnel Management as being in conformity with the Standards for a Merit System of Personnel Administration, 5 CFR Part 900, Subpart F, shall be deemed to be in compliance with this section.

(3) The following are not subject to the requirements of paragraphs (1) and (2) above:

(i) Any nongovernmental recipient;

(ii) A consortium administrative unit which is not a unit of government;

(iii) Employees of the recipient not engaged in the administration or operation of programs under the Act.

(4) Units whose staff are exempt under paragraph (3) of this section shall ensure equal employment opportunity based on objective procedures of recruitment, selection, promotion, classification, compensation, performance evaluation, and employee management relations, and are encouraged to develop procedures reflective of the principles contained in the IPA.

(c) *Bonding.* Every officer, director, agent or employee of a recipient or subrecipient of funds who is authorized to act on behalf of a recipient or subrecipient for the purpose of receiving or depositing funds into program accounts or issuing financial documents, checks or other instruments of payment for program costs, shall be bonded to provide protection against loss. The provisions of the bonding arrangements shall be included in the description of the administrative systems in the Master Plan or grant application. Existing bond coverage of recipients or subrecipients shall be considered acceptable. For all others, the amount of coverage shall be the lower of the following:

(1) $100,000; or

(2) the highest advance received through check or drawdown during the preceding grant year, or for new recipients, the highest advance through check or drawdown planned for the present grant year (sec. 134).

§ 676.44 Reporting requirements for prime sponsors.

(a) Each prime sponsor shall submit four periodic reports which will be used by the Secretary to assess its performance in carrying out the objectives of the Act. These four reports are:

(1) The Program Status Summary (sec. 127(d)(1));

(2) The Financial Status Report (sec. 127(d)(3));

(3) The Quarterly Summary of Participant Characteristics (sec. 127 (d)(2)); and

(4) Classroom and On-the-Job Training Report (sec. 313(g)).

Prime sponsors may from time to time be required to prepare and submit additional reports requested by DOL and other Federal agencies for the performance of the legal responsibilities of these agencies, except that such reports will not be required by DOL more than once each fiscal quarter. Detailed descriptions of the four reports are in the *Forms Preparation Handbook.*

(b) The reports required by this section shall be prepared to coincide with the ending dates of Federal fiscal year quarters. These reports shall be sent by the prime sponsor to be received by the RA no later than 30 days after the end of the reporting period.

(c) Separate reports will be required for each Annual Plan Subpart.

§ 676.45 Annual plan subpart settlement procedures.

(a) The settlement of an Annual Plan Subpart is the process by which the Department of Labor determines that all applicable administrative actions and all required work of the Annual Plan Subpart have been completed by the prime sponsor and DOL.

(b) The RA shall determine, from the best information available, for each expiring Annual Plan Subpart:

(1) Total fund availability;

(2) Estimated accrued expenditures;

(3) Estimated carryout.

(c) The RA shall issue a notice of fund availability to transfer estimated carryout from the previous Annual Plan Subpart. A second notice of fund availability shall be issued by the RA to transfer the carryout into the new Annual Plan Subpart.

(d) By a date specified by the RA, each recipient shall submit a final Financial Status Report for each of the previous year's Annual Plan Subparts.

(e) If the final reports are acceptable, the RA shall effect a preliminary settlement by transferring remaining funds into the current year's Annual Plan Subpart. Final settlement of expired Annual Plan Subparts shall not be complete until an audit has been performed, audit findings have been

resolved, and final reports have been submitted.

(f) End of the Master Plan. The Master Plan has no end or termination date. However, under the following conditions the Master Plan shall no longer be in effect:

(1) When all activity under the Annual Plan has been completed or the Annual Plan has been terminated and final settlement of the Annual Plan, including an inventory settlement, has been reached.

(2) When the Master Plan is a multiparty agreement and one or more signatory parties has legally withdrawn from the agreement and an inventory settlement under the Master Plan has been reached.

§ 676.46 Secretary's responsibilities.

(a) As used in this section, the term "assessment" refers to the Federal review of grant applications and performance of individual recipients and the term "evaluation" refers to the Federal study of overall effectiveness and impact of programs and activities under the Act.

(b) The Secretary shall provide for the continuing evaluation of all programs, activities, and research and demonstration projects including their cost effectiveness in achieving the purposes of the Act, their impact on communities and participants, their implication for related programs, the extent to which they meet the needs of persons by age, sex, race, and national origin, and the adequacy of the mechanism for the delivery of services. In conducting evaluations the Secretary shall compare the effectiveness of programs conducted by prime sponsors of the same class and of different classes, and shall compare the effectiveness of programs conducted by prime sponsors with similar programs carried out by the Secretary under the Act. The Secretary shall also arrange for obtaining the opinions of participants about the strengths and weaknesses of the programs (sec. 313(a)).

(c) The Secretary shall assess annually the adequacy of each prime sponsor's proposed performance and placement goals in accordance with performance standards which recognize that performance will vary with local conditions and the nature of employment barriers faced by the eligible population to be served.

§ 676.47 Reallocation of funds based on nonutilization.

(a) The RA may reallocate any amount of any allocation under the Act to the extent that it is determined that a recipient will not be able to use such amount within a reasonable period of time. To the extent that nonutilization is determined, a level of 10% of the annual allocation to a program may be carried over into the subsequent fiscal year without being considered nonutilization. (sec. 108(a)).

(b) When the RA determines that a reallocation from a prime sponsor is appropriate, he shall give the prime sponsor, the general public, and the appropriate Governor notice of proposed action to remove funds from the grant. Such notice shall include specific reasons for the action being taken and shall invite the prime sponsor, the appropriate Governor, and general public to submit comments on the proposed reallocation of funds. These comments shall be submitted to the RA within 30 days from the date of the notice. After considering any comments timely submitted, the RA shall notify the Governor and affected prime sponsors on any decision to reallocate funds and shall have any such decision published in the FEDERAL REGISTER. (sec. 108(b) (1) and (2)).

(c) The procedures set out in this section are in lieu of any other procedures which might otherwise be applicable under the Complaints and Sanctions provisions in Subpart F.

(d) In reallocating such funds, priority shall be given first to other prime sponsors within the same State and then to prime sponsors within other States, taking into consideration the number of unemployed individuals in those areas. (sec. 108(b) (3)).

Subpart D—Equal Employment Opportunity Under CETA

§ 676.51 General.

This subpart sets out the Department of Labor's regulations for insuring that discrimination is specifically prohibited in all CETA programs, and that services are provided on an equitable basis to the significant segments of the eligible population. This subpart covers the various equal opportunity provisions of this Act, and incorporates by reference other equal opportunity statutes, regulations and executive orders to which recipients under CETA are subject, such as those pursuant to Title VI of the Civil Rights Act of 1964, the Age Discrimination and Employment Act of 1967, the Equal Pay Act of 1967, the Rehabilitation Act of 1973, and the Uniform Guidelines on Employee Selection Procedures (1978).

(a) No person shall, on the ground of race, color, religion, sex, national origin, age, handicap, or political affiliation or belief, be discriminated against, or denied employment as a participant or staff person, in connection with any program under the Act.

(b) Recipients shall comply with the Department of Labor's nondiscrimination requirements at 29 CFR Part 31 under Title VI of the Civil Rights Act, which prohibits discrimination by race, or national origin. They shall also comply with the Department of Labor's regulations under Section 504 of the rehabilitation Act, which prohibits discrimination by handicap. The latter regulations will soon be published for comment in the FEDERAL REGISTER.

(c) All programs shall to the maximum extent feasible, contribute to the elimination of sex stereotyping. Prime sponsors shall in planning their program activities:

(1) Recruit for and encourage female entry, through such means as training, in occupations with skill shortages where women represent less than 25 percent.

(2) Recruit for and encourage male entry, through such means as training in occupations with skill shortages where men represent less than 25 percent.

(d) All programs shall contribute to the maximum extent feasible to the elimination of architectural barriers (sec. 121(a)(4) and (5)).

(e) *Artificial barriers.* (1) No person shall be denied training or employment in any program or activity funded in whole or in part with CETA funds because of a qualification requirement which is not directly related to the individual's fitness or ability to perform the duties required by the training or employment position.

(2) Prime sponsors shall analyze and re-evaluate job descriptions and qualification requirements at all levels of employment, including civil service requirements and practices relating thereto, with a view toward removing artificial barriers to public service employment (sec. 122(f)).

(f) Prime sponsors shall establish procedures to ensure against discrimination and foster equal employment opportunity.

(g) Where practicable, the prime sponsor shall assign EEO responsibilities on a full-time basis to an individual or staff; or if this is not practicable, explain why in the Master Plan.

(h) Recipients shall compare the racial, age, handicapped worker, national origin and sex composition of the CETA staff with that of the civilian labor force in the recipient's area and make a determination of the extent of under representation.

§ 676.53 Affirmative action.

(a) Each recipient shall establish an affirmative action plan for outreach to, and training, placement, and advancement of handicapped individuals in employment and training programs under the Act. Such an affirmative action plan shall be described in the annual plan or grant application (sec. 103(b)(15)).

(b) Any recipient which has been determined by DOL or another Federal, State or local agency to have discriminated in its CETA program, shall take Affirmative Action to overcome the effects of that discrimination.

(c) Such plans and procedures required by (a) and (b) above will include as minimum:

(1) The development and implementation of specific steps along with the assignment of management responsibility, to achieve the objectives stated above, within specific timeframes, e.g., special recruitment efforts, test validation, display of EEO posters, review of eligibility and selection standards to determine discriminatory impact, identification of artificial barriers, and development of upward mobility programs.

(2) The establishment of monitoring and evaluation procedures to measure progress in meeting the goals of the affirmative action program within the projected timeframes.

(3) Internal dissemination of the affirmative action policy statement to all CETA management officials, staff, and participants, and external dissemination of the prime sponsor's affirmative action policy statement to community groups, community-based organizations, minority and female organizations, and the general public, in the same procedure as notice is provided for the Master Plan.

(4) Written documentation that subgrantees and contractors are aware of the prime sponsor's affirmative action program and the specific staffing and service goals.

§ 676.54 Equitable provision of services to the significant segments of the eligible population.

(a) CETA recipients shall provide employment and training opportunities available under each title of the Act on an equitable basis to significant demographic segments in the eligible population (sec. 121(b)(1)).

(b) When planning and developing employment and training opportunities, prime sponsors shall set planned service levels on an equitable basis according to age, race, sex, and national origin categories, in relation to the incidence of such groups in eligible population, taking into account the employment and training needs of those groups. The prime sponsor's Annual Plan shall include a description of the proposed levels of participation for each of these groups and shall provide adequate justification where those planned levels of participation very by more than 15% from the group's incidence in the eligible population. The prime sponsor shall serve those most in need and may select specific target groups.

The selection of such groups shall be included in the justification of the variances noted above, and should constitute the principal reason for such variance. Variances for planned male and female service levels may warrant review even within the 15% benchmark.

(c) The recipient shall take positive steps, such as active recruitment, to ensure that the planned levels of participation are realized.

Subpart E—Prevention of Fraud and Program Abuse

§ 676.61 General.

(a) To ensure the integrity of the CETA programs, special efforts are necessary to prevent fraud and other program abuses. Fraud includes deceitful practices and intentional misconduct, such as willful misrepresentation in accounting for the use of program funds. "Abuse" is a general term which encompasses improper conduct which may or may not be fraudulent in nature. While any violation of the Act or regulations may constitute fraud or program abuse, this Subpart E identifies and addressed those specific program problems which were of most concern to the Congress during the reauthorization of CETA.

(b) This Subpart further sets forth specific responsibilities of recipients and subrecipient and of the Secretary to prevent fraud and program abuse in CETA programs.

§ 676.62 Conflict of interest.

(a) No member of any council under the Act shall cast a vote on any matter which has a direct bearing on services to be provided by that member or any organization which such member directly represents or on any matter which would financially benefit such member or any organization such member represents (sec. 121(h)(2)). Members of the PIC may vote on the Title VII Supplement. However, they may not vote on agreements or other matters which would financially benefit themselves or their organization.

(b) Each recipient and subrecipient shall avoid personal and organizational conflict of interest in awarding financial assistance and in the conduct of procurement activities involving funds under the Act in accordance with the code of conduct requirements set forth in 41 CFR 29-70.216-4 (sec. 123(g)).

(c) Neither the Secretary nor any recipient or subrecipient shall pay funds under the Act to any nongovernmental individual, institution or organization to conduct an evaluation of any program under the Act if such individual, institution or organization is associated with that program as a consultant or technical advisor (sec. 121(h)(1)).

§ 676.63 Kickbacks.

No officer, employee or agent of any recipient or subrecipient shall solicit or accept gratuities, favors or anything or monetary value from any actual or potential subrecipient or contractor or supplier (sec. 123(g) and 41 CFR 29-70.214-4).

§ 676.64 Commingling of funds.

Recipients shall comply with the applicable requirements of 41 CFR 29-70.201-2, regarding separate bank accounts (sec. 123g)).

§ 676.65 Charging of fees.

(a) No funds under this Act shall be used for the payment of a fee charged to an individual for the placement of that individual in a training or employment program under the Act.

(b) No person or organization, including private placement agencies, may charge a fee to any individual for the placement or referral of that individual in or to such program.

(c) Any contract requiring the individual to pay such fees therefore, shall not render the individual liable for such fees (sec. 123(j)).

(d) Nothing in this section shall be interpreted as prohibiting the recipient or subrecipient from entering into an agreement for the purpose of obtaining outreach, recruitment and/or intake services, as part of its approved intake system, provided the individuals served are not charged a fee.

676.66 Nepotism.

(a) *Restriction.* No recipient, subrecipient, or employing agency may hire a person in an administrative capacity, staff position, public service employment position, or on-the-job training position funded under the Act if a member of that person's immediate family is engaged in an administrative capacity for that recipient, subrecipient, or employing agency. The extent that an applicable State or local legal requirement regarding nepotism is more restrictive than this provision, such State or local requirement shall be followed (sec. 123(g)).

(b) For purposes of this section:

(1) The term "immediate family" means wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent, and stepchild.

(2) The term "person in an administrative capacity" includes those persons who have overall administrative responsibility for a program including all elected and appointed officials who have any responsibility for the obtaining of and/or approval of any grant funded under the Act, as well as other officials who have influence or control over the administration of the pro-

V 4 4 / 1 4 A 1 9 7 9 J A UMI

gram, such as the project director, deputy director and unit chiefs, and persons who have selection, hiring, placement or supervisory responsibilities for public service employment or OJT participants. Persons who are economically disadvantaged and serving on the prime sponsor's planning council, youth council, PIC, or State employment and training council shall not be considered persons in an administrative capacity.

676.67 Child labor.

All recipients and subrecipients shall comply with applicable Federal, State and local child labor laws.

676.68 Political patronage.

(a) No recipient or subrecipient may select, reject, or promote a participant based on that individual's political affiliation or beliefs. The selection or advancement of employees as a reward for political services or as a form of political patronage, whether or not the political service or patronage is partisan in nature, is prohibited.

(b) There shall be no selection of subrecipients or contractors based on political affiliation (sec. 123(g)).

§ 676.69 Political activities.

(a) No program under the Act may involve political activities (sec. 131(a)).

(1) No participant may engage in partisan or nonpartisan political activities during hours for which the participant is paid with CETA funds.

(2) No participant may, at any time, engage in partisan or nonpartisan political activities in which such participant represents himself/herself as a spokesperson for the CETA program.

(3) No participant may be employed or outstationed in the Office of a Member of Congress or a State or local legislator or on any legislative committee or staff.

(4) No participant may be employed or outstationed in the offices of any elected executive official, chief executive officers or officers of a State or a unit of general local government.

(b) Persons governed by Chapter 15 of Title 5, United States Code, the Hatch Act, shall comply with its provision as interpreted by the United States Civil Service Commission. These provisions apply:

(1) to persons (including participants) employed by State and local government in the administration of the CETA program; and

(2) generally to any participant whose principal employment is in connection with an activity financed by other Federal grants or loans (sec. 131(b)).

§ 676.70 Lobbying activities.

No funds provided under the Act may be used in any way:

(a) to attempt to influence in any manner a member of Congress to favor or oppose any legislation or appropriation by Congress (sec. 123(g) and 18 USC 1913); or

(b) for lobbying State or local legislators (sec. 123(g)).

§ 676.71 Sectarian activities.

(a) No funds under the Act may be used in support of any religious activity.

(b) No participant may be employed in the construction, operation, or maintenance of such part of any facility as is used or will be used for sectarian instruction or as a place of religious worship (sec. 121(a)(2)).

(c) Funds may not be used to support any anti-religious activities, such as the preparation or the dissemination of anti-religious materials, whether directed against any particular religion or religions or against the practice of religion in general (sec. 123(g)).

(d) This does not preclude religious organizations from the administration or operation of CETA programs or the use of religious facilities in the operation of such programs.

§ 676.72 Unionization and antiunionization activities/work stoppages.

(a) No funds under the Act shall be used in any way to either promote or oppose unionization (sec. 123(g)).

(b) No individual shall be required to join a union as a condition for enrollment in a program in which only institutional training is provided, unless such institutional training involves individuals employed under a collective bargaining agreement which contains a union security provision (sec. 121(n)(2)).

(c) No participant in work experience or public service employment may be placed into, or remain working in, any position which is affected by labor disputes involving a work stoppage. If such a work stoppage occurs during the grant period, participants in affected positions must either be relocated to positions not affected by the dispute, or be suspended through adminstrative leave or other means. The grantee shall make every effort to relocate participants, who wish to remain working, into suitable positions unaffected by the work stoppage.

(d) No person shall be referred to or placed in an on-the-job training position affected by a labor dispute involving a work stoppage and no payments may be made to employers for the training and employment of participants in on-the-job training during the periods of work stoppage.

§ 676.73 Maintenance of effort.

(a) To ensure maintenance of effort under all programs under the Act,

(1) Recipients and subrecipients shall ensure that such programs:

(i) Result in an increase in employment and training opportunities over those which would otherwise be available (sec. 121(e)(1));

(ii) Not result in the displacement of currently employed workers, including partial displacement, such as reduction in hours of nonovertime work, wages, or employment benefits (sec. 122(e)(2)); and

(iii) Not impair existing contracts for services or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed (sec. 121(e)(3) and (g)(1)), including services normally provided by temporary, part-time or seasonal workers or through contracting such services out.

(2) Funds under this Act shall supplement, and not supplant, the level of funds that would otherwise be made available from non-Federal sources for the planning and administration of programs (sec. 121(g)(1)(c)).

(b) In addition to the requirements of paragraph (a) of this section, for public service employment programs funded under this Act:

(1) Recipients and subrecipients shall ensure that such public service employment positions shall not

(i) Substitute for existing federally assisted jobs (section 122(e)); and

(ii) Be created in any promotional line that will infringe in any way upon promotional opportunities of persons currently in jobs not funded under the Act (sec. 122(d)).

(2) Whenever a promotional freeze affects non-CETA funded employees it shall apply to CETA participants similarly employed.

(3) No participant shall be hired into, or remain working in, any position when:

(i) The same or substantially equivalentposition is vacant due to a hiring freeze, unless the prime sponsor can demonstrate that the freeze resulted from lack of funds to sustain staff levels and was not established in anticipation of the availability of funds under the Act;

(ii) Any other person not supported under the Act or by other Federal funds (other than general revenue sharing) is on lay-off from the same or any substantially equivalent job. The same or equivalent job means any job or classification for which:

(A) Per a personnel code or practice or per a collective bargaining agreement, a recall list is maintained of former employees, who have the first right to any job vacancies occurring within a specific period of time in the classification(s).

(B) If there is no recall list, without other policy, practice or contractual obligation, one or more employees

have been laid off due to a lack of funds or work from a job in the classification any time during the last two operating years of the department or agency (sec. 122(c)(1)).

(4) When termination of CETA participants is imminent due to conditions noted in (3) above, the prime sponsor shall make every feasible attempt to place such participants into other nonaffected positions or otherwise attempt placement into unsubsidized jobs or into Title II B.

(5) No former employees laid off or terminated in anticipation of CETA funding of a position may be rehired under CETA into such a position.

(6) A recipient or subrecipient shall not use CETA funds in any manner which results in a reduction of the customary level of public service provided by itself or another public entity in the area, by allowing PSE participants to be placed with or outstationed to private nonprofit organizations.

(c) Prime sponsors shall notify the RA in writing of any layoff or hiring freeze and of any recall rights of employees on layoff, in a department or agency where public service employment participants are employed. Prime sponsors shall, at the direction of the RA, submit documentation and budgetary expenditure records, revenue statements, and other available information relevant to determination under this Section. RA's shall not approve any plan unless prime sponsors have submitted, when directed by the RA, conclusive evidence that the proposed use of funds fully meets the requirements of this Section.

§ 676.74 Theft or embezzlement from employment and training funds; improper inducement; obstruction of investigations and other criminal provisions.

The criminal provision of 18 U.S.C. 665 states that:

(a) Whoever, being an officer, director, agent or employee of, or connected in any capacity with, any agency receiving financial assistance under the Comprehensive Employment and Training Act knowingly hires an ineligible individual or individuals; embezzles, willfully misapplies, steals, or obtains by fraud any of the moneys, funds, assets, or property which are the subject of a grant or contract of assistance pursuant to such Act shall be fined not more than $10,000 or imprisoned for not more than 2 years, or both; but if the amount so embezzled, misapplied, stolen, or obtained by fraud does not exceed $100, such person shall be fined not more than $1,000 or imprisoned not more than 1 year, or both.

(b) Whoever, by threat of procuring dismissal of any person from employment, or of refusal to renew a contract of employment in connection with a grant or contract of assistance under the Comprehensive Employment and Training Act, induces any persons to give up any money or thing of any value to any person (including such grantee agency) shall be fined not more than $1,000, or imprisoned not more than 1 year, or both.

(c) Any person whoever willfully obstructs or impedes, or endeavors to obstruct or impede, an investigation or inquiry under the Comprehensive Employment and Training Act or the regulations thereunder, shall be punished by a fine of not more than $5,000, or by imprisonment for not more than 1 year, or by both such fine and imprisonment.

(d) In addition to the criminal provisions set forth in paragraph (a), (b) and (c) of this section, individuals may be held criminally liable under other Federal laws such as 18 USC sections 600 and 601 if they:

(1) Directly or indirectly, promise any employment, position, compensation, contract, appointment, or other benefit, provided for or made possible in whole or in part by funds under the Act, or any special consideration in obtaining any such benefit, to any person as consideration, favor, or reward for any political activity or for the support of, or opposition to, any candidate or any political party in connection with any general or special election to any political office, or in connection with any primary election or political convention or caucus held to select candidates for any political office (18 USC 600); or

(2) Directly or indirectly, knowingly causes or attempts to cause any person to make a contribution of a thing of value (including services) for the benefit of any candidate or any political party, by means of the denial or deprivation, or the threat of the denial or deprivation, of any employment or benefits funded under the Act (18 USC 601).

§ 676.75 Responsibilities of recipients and subrecipients for preventing fraud and program abuse and for general program management.

(a) Each recipient and subrecipient shall establish and use internal program management procedures sufficient to prevent fraud and program abuse.

(b) Each recipient and subrecipient shall ensure that sufficient, auditable, and otherwise adequate records are maintained which support the expenditure of all funds under the Act. Such records shall be sufficient to allow the Secretary to audit and monitor the recipients' and subrecipients' programs and shall include the maintenance of a management information system in accordance with the requirements of § 676.34 (secs. 103(a)(1) and 123(g)).

(c)(1) Prime sponsors, as part of their internal program management procedures, shall establish a monitoring unit which shall be independent of, and not accountable to, any other unit being monitored. This unit shall report to a level of management, which may include the CETA director or the chief-elected official, which will insure adequate monitoring coverage and appropriate action on findings and recommendations. The organizational location of this unit shall be sufficient to maximize its objectivity, facilitate its access to information necessary to carry out its monitoring responsibilities and to minimize organizational conflict of interest.

(2) The independent monitoring unit shall periodically monitor and review through on-site visits, program data, program administration and management practices supported with funds under the Act in order to insure compliance with the Act, the regulations and the terms of any subagreements entered into under the prime sponsor's grant. Examples of areas of monitoring are:

(i) Review all systems for controlling program administration, particularly systems for determining participant eligibility;

(ii) Review pay records and attendance reports;

(iii) Interview participants to determine job-related problems;

(iv) Examine worksites and work conditions;

(v) Review plans/procedures and subrecipient capability to carry out programs and activities;

(vi) Review of participant progress with subrecipient;

(vii) Insure subrecipient is maintaining records on all expenditures of CETA funds;

(viii) Review affirmative action plans as applicable.

(3) The independent monitoring unit shall:

(i) Make recommendations to the prime sponsor for corrective action whenever it identifies noncompliance with the Act, the contract or these regulations;

(ii) Document its monitoring and review activities, the findings resulting therefrom, and any recommendation made for corrective action;

(iii) Maintain on file the prime sponsor's replies to its monitoring reports pursuant to paragraph (5) below.

(4) The prime sponsor shall ensure that the monitoring unit is adequately staffed and trained to fulfill its responsibilities (sec. 121(q)).

(5) The prime sponsor shall review all monitoring reports submitted to it by the monitoring unit, acknowledge receipt thereto and respond to the

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 / 1 4 J A 19 7 9 UMI

monitoring unit with respect to the corrective action taken or planned in response to the recommendations made.

(6) The prime sponsor shall further require each subrecipient which has the administrative capability to establish and maintain an independent monitoring unit which shall monitor the subrecipients' program through review of data, observation of operations and examination of records relating to the subrecipient's agreement in order to ensure compliance with:

(i) The Act and the regulations;

(ii) The provisions of its subagreement; and

(iii) The provision of subagreements awarded by it.

(d) Eligibility determination and verification. Except for Job Corps and YACC, each recipient, and any subrecipient(s) delegated responsibility for the determination of eligibility in accordance with subparagraph (e)(2) of this section, shall be responsible for developing and maintaining a system which ensures an accurate determination of eligibility based on the information provided at the time of application and the verification of that information (sec. 104(c)(3)). The system shall, at a minimum, include:

(1) An application form to record all information necessary to determine eligibility which shall include such items as the:

(i) Applicant's age

(ii) Applicant's residence

(iii) Applicant's citizenship or legal residency status

(iv) Size of applicant's family

(v) Amount and sources of family income

(vi) Applicant eligibility for public assistance

(vii) Applicant's employment status and history including:

(A) Applicant's present employment status

(B) Whether applicant was laid off from most recent job or has received a notice of layoff from present job

(C) Length of employment in present position

(D) Skill level of applicant's present job

(E) Opportunity for applicant's reemployment at present skill level

(F) Dates of applicant's employment for the 20-week period preceding application

(G) Reason(s) for applicant's employment termination during the 26 weeks preceding application

(viii) Applicant's handicapped status

(viii) Applicant's status as institutionalized person

(ix) Applicant's school status

(x) Applicant's veteran status including date of separation

(xi) Applicant's previous period of participation within the same or other prime sponsor's programs.

(2) The signature of the applicant on an application form attesting that the information on the application is true to the best of the applicant's knowledge and acknowledging that such information is subject to verification and that falsification of the application shall be grounds for the participant's termination and may subject the applicant to prosecution under law. In the case of an applicant who is a minor, (except minors who are heads of households) the signature of the parent, responsible adult or guardian is also required.

(3) The signature of the intake officer on the application.

(4) Review of all applications within 30 days of the date of enrollment, by someone other than the intake officer, to determine that:

(i) The application is complete;

(ii) The determination based on the information contained on the application was correct; and

(iii) The information on the application is internally consistent and in all other regards reasonable.

(5) Immediate verification of the eligibility of those participants whose applications are determined by the review in paragraph (4) to be deficient or internally inconsistent.

(6) Verification of participant eligibility on a quarterly basis of a statistically significant sample of participants enrolled during the preceding 3 months.

(7) Maintenance of adequate documentation to ensure the credibility of the eligibility determination, which shall at a minimum consist of the following:

(i) A completed application for participation;

(ii) Documentation of the review conducted pursuant to paragraph (d)(4) of this section and the verification conducted pursuant to subparagraphs (5) and (6) of this section; and

(iii) Records of all actions taken to correct deficiencies identified in the eligibility determination procedures.

(8) Immediate termination of any participant determined to be ineligible.

(9) Prime sponsors may delegate the responsibility for determination of eligibility, under reasonable safeguards which include, in addition to the requirements of (d)(1-8) of this section, provision for reimbursement of costs, incurred as a result of erroneous determinations made deliberately or with insufficient care (sec. 123(i)).

§ 676.76 Action required of the Secretary.

The Secretary shall annually assess the effectiveness of the monitoring units established in accordance with the requirements of § 676.75(d)(1) of these regulations (sec. 121(q)).

Subpart F—Complaints, Investigations, and Sanctions

§ 676.81 Scope and purpose.

(a) *General.* This part establishes the procedures adopted by the Secretary to receive, investigate and resolve complaints, and conduct hearings to adjudicate disputes in matters arising under the operation and conduct of programs funded under the Comprehensive Employment and Training Act, as amended, 29 U.S.C. § 801 *et seq.* (CETA). The amendments to CETA enacted by Public Law 95-524, 92 Stat. 1909 (October 27, 1978) substantially increase the federal responsibility for monitoring and correcting deficiencies in CETA funded programs by providing significant new remedies and sanctions that may be invoked by the Secretary to correct deficiencies. Judicial review of final action of the Department after opportunity for an administrative hearing (except as provided for emergency situations described in section 106(e) of the Act) has been exclusively established in the United States Courts of Appeals for the circuits in which the affected parties reside. Accordingly, it is the purpose of this part to establish orderly procedures for receiving complaints, conducting investigations and, where required, invoking sanctions upon notice and hearing as provided in the Act. These regulations govern the practice for adjudicative hearings, the rendering of decisions and final action by the Department of Labor pursuant to the Act.

(b) *Investigations initiated; delegations of authority.* CETA inquiries, investigations and hearings may be originated upon the request of the President, Congress, governmental agencies or the Attorney General; upon referrals by the courts; upon complaint by members of the public; or by the Department of Labor upon its own initiative. The Secretary hereby delegates to the Assistant Secretary for the Employment and Training Administration, the authority to initiate investigations. The Assistant Secretary of Labor for Employment and Training shall establish appropriate procedures for conducting investigations into noncriminal matters.

(c) *Policy.* It is the policy of the Secretary of Labor to receive information concerning alleged violations of the Act, the regulations, or the terms of any grant, cooperative agreement, contract, subgrant, subcontract, or other agreement from any person. It is also the policy of the Secretary to refuse to disclose the identity of any person who has furnished information relating to, or assisting in, and investigation of a possible violation of law relating to a program funded or operated pursuant to the Act in order to effectively accomplish the federal responsibilities for insuring compliance with the Act and regulations; provided however, that where

(1) the identity of the person furnishing the information has already been disclosed, or

(2) disclosure of the person's identity is essential to assure a fair determination of the issues, the Inspector General, or Administrative Law Judge presiding over a hearing in which the matter arises, may disclose upon such conditions as will promote the continued receipt of confidential information by the Department and effectuate the protections and policies stated in paragraph (d) of this section.

(d) *Discriminatory discharge prohibited.* No person, and no recipient under the Act, in connection with the administration of a program, may discharge or in any other manner discriminate or retaliate against any person because such person has filed any complaint or instituted or caused to be instituted any proceeding under or related to the Act, or has testified or is about to testify in any such proceeding or investigation, or unlawfully deny to any person a benefit to which that person is entitled under the provisions of the Act or the regulations in Parts 675-695 of this Chapter.

(e) Whenever any person believes that a prime sponsor or other recipient has violated any provisions of the Act or regulations, and that violation also constitutes a violation of the Federal or a State Constitution, a Federal statute other than CETA, or a State or local law, that person, as to the non-CETA violation may institute a civil action or pursue other remedies authorized under Federal, State, or local law or against the prime sponsor or other recipient without first exhausting the remedies in this subpart. For example, if a subrecipient believes that a prime sponsor has breached the subgrant agreement between the prime sponsor and itself, the subrecipient may institute a civil action for breach of contract in a State court if so authorized by State law. Nothing in this paragraph shall allow any person to join or sue the Secretary except after exhausting the remedies in this subpart. Furthermore, nothing in this paragraph shall allow a person to file a suit which includes a violation of CETA or these regulations without first exhausting the administrative remedies described in this subpart. This paragraph shall not be construed to create a private right of action. (Secs. 106(1) and 132(d).

(f) With the consent and consideration of State agencies charged with the administration of State laws, the Secretary may elect for the purpose of carrying out this subpart and Section 133 of the Act, to utilize the services of State and local agencies and their employees, and notwithstanding any other provision of law, may reimburse, in whole or in part, such State and local agencies and their employees for services rendered for such purposes. (Section 106(h)).

§ 676.82 Non-adjudicative procedures; investigation; compulsory processes.

(a) *Investigational policy.* The Department of Labor encourages voluntary cooperation in its investigations of activities under the Act. Where the public interest requires, however, the Department may, in any matter under investigation, invoke any or all of the compulsory processes authorized by law.

(b) *By whom conducted.* Inquiries and investigations are conducted by Department of Labor Representatives designated and duly authorized for the purpose. Such representatives are authorized to exercise and perform the duties of their office in accordance with the laws of the United States and the regulations of the Department of Labor. Included among such duties is the administration of oaths and affirmations in any matter under investigation by the Department of Labor.

(c) *Notification of purpose.* Any person under investigation compelled or requested to furnish information or documentary evidence is entitled to be advised with respect to the purpose and scope of the investigation upon the request of such person.

(d) *Subpoenas in investigations.* (1) The Assistant Secretary of Labor for Employment and Training, may issue a subpoena directing the person named therein to appear before a designated representative at a designated time and place to testify or to produce documentary evidence, or both, relating to any matter arising under the Act being investigated. The Associate Solicitor for Employment and Training Legal Services and the Regional Solicitors and Regional Attorneys (without power of redelegation) for good cause shown, may extend the time prescribed for compliance with subpoenas issued during the investigation of any matter. Any official who is authorized to issue any subpoena under this paragraph is authorized to consider and approve the terms of satisfactory compliance therewith. The Chief Administrative Law Judge, without power of redelegation, may issue investigational subpoenas for matters involving standards of conduct for attorneys practicing beore an Administrative Law Judge in a proceeding under the Act.

(2) Any motion to limit or quash any investigational subpoena shall be filed with the Chief Administrative Law Judge within ten (10) days after service of the subpoena, or, if the return date is less than ten (10) days after service of the subpoena, within such other time as may be allowed. All motions to limit or quash any investigational subpoenas shall be ruled upon by an Administrative Law Judge.

(3) The timely filing of a motion to limit or quash any investigational subpoena shall stay the requirement of a return on the portion challenged. If the Administrative Law Judge has not ruled upon the motion by the return date, or if the ALJ rules subsequent to the return date, and the ruling denies the motion in whole or in part, the Administrative Law Judge shall either specify a new return date or direct that the office which issued the subpoena do so.

(4) All motions to limit or quash investigational subpoenas, and the investigator's responses thereto, shall be part of the public records of the Office of the Administrative Law Judges except as otherwise provided in these regulations.

(e) *Noncompliance.* (1) In cases of failure to comply with compulsory processes (such as a subpoena or a summons), appropriate action may be initiated by the Attorney General, including actions for enforcement, forfeiture, penalties or criminal actions.

(2) The Solicitor of Labor, with the consent of the Attorney General, is hereby authorized by the Secretary of Labor to institute on behalf of the Secretary an enforcement proceeding.

(i) in connection with the failure or refusal of a person, partnership, corporation, recipient or other entity to comply with or to obey a subpoena if the return date or any extension thereof has passed;

(ii) and to request on behalf of the Secretary the institution of civil actions, as appropriate, if the return date or any extension thereof has passed including seeking civil contempt in cases where a court order enforcing compulsory process has been violated;

(iii) and to request, on behalf of the Secretary, the commencement, when deemed appropriate by the Solicitor, of a civil action in connection with the failure of a person, partnership, corporation, recipient or other entity to timely file any report required by the Act or regulations if the due date or any extension thereof has passed.

§ 676.83 Complaint and hearing procedures at the recipient level.

(a) Each recipient shall establish and maintain a procedure for resolving any complaint alleging a violation of the Act, the regulations under the Act, the terms of the grant, or its subgrants including any complaint arising in connection with programs operated

by its subrecipients. Such complaint procedures must meet the requirements of this section. The complaint procedure shall provide for final resolution of complaints within 60 calendar days after filing the complaint. Where existing complaints or grievance procedures include the elements set forth in this subsection, recipients may adopt such mechanism as, or as part of, their CETA procedure. (Section 106(a)(1)).

(1) When a participant is an employee of a recipient and alleges a violation of the Act, the regulations, or the grant as well as a violation of the terms and conditions of employment under State or local law or a collective bargaining agreement; such participant may pursue either the complaint and hearing procedures set forth in this section or applicable grievance procedures under state or local law or a collective bargaining agreement. Where they choose such other grievance procedures in lieu of the procedures set forth in this section, the time constraints specified in paragraphs (a) and (f) of this section shall not apply.

(i) Nothing in paragraph (1) shall require a private for profit employer to establish a new grievance procedure or to modify an existing procedure as a condition of participating in programs for the training and hiring of participants under the Act. (106(a)(1)).

(ii) Nothing in paragraph (1) shall be construed to deny the availability to any of the elements in the procedure for resolving complaints detailed in paragraphs (e) and (f) of this section.

(2) Complaints which involve activities under the Act but which do not allege violations of the Act, the regulations under the Act or the grant shall not be subject to the procedures set forth in this section. The recipient should endeavor to informally resolve such complaints or refer such complainants to appropriate enforcement agencies or applicable regular complaint or grievance mechanism of the jurisdiction or agency.

(3) Except for issues between the recipient and its subrecipients, issues involving more than one of its subrecipients, or complaints directly involving the operations or responsibilities of the recipient, the recipient may delegate the authority to operate and maintain the complaint and hearing procedure to its subrecipient. Where the procedure is delegated, the recipient may provide for an appeal to itself from the decision of the subrecipient, or the recipient may provide that the subrecipient's decision is the final decision of the recipient. Where the procedure is delegated, the recipient shall assure that the complaint is resolved properly and promptly within 60 days after a complaint is filed.

(4) With the exception of complaints alleging fraud or any criminal activity, the filing of a grievance must be made within one year of the alleged occurrence. (Section 106(a)(1)).

(5) Complaints may be brought by any individual or organization including but not limited to, program participants, subrecipients, contractors, staff of the recipient or subrecipient, applicants for participation or financial assistance, Labor unions, and community-based organizations. (Section 106(a)(1)).

(6) Nothing in this section precludes an individual or an organization from filing a grievance or complaint simultaneously on the same issue with other agencies or under other procedures where applicable, such as filing a grievance under a collective bargaining agreement where there is an alleged violation of the labor agreement as well as a possible violation of the Act.

(b) Participants shall be provided, upon enrollment, a written description of the complaint procedures including notification of their right to file a complaint and instructions on how to do so. Recipients should designate an individual to monitor the operation of the complaint procedures, to asure that complaints and related correspondence are logged and filed, to assure that assistance is available in properly filing complaints to those with complaints, and to assure the availability, coordination, and promptness, of all elements of the procedures. Upon filing a complaint and at each stage thereafter, each complainant should be notified in writing of the next step in the procedure.

(c) Complainants alleging discrimination by race, color, or national origin (violations of Title VI of the Civil Rights Act of 1964) shall be fully apprised of their right to choose whether the complaint be handled pursuant to the procedures set forth in this subpart or pursuant to 29 CFR Part 31 which covers nondiscrimination in federally-assisted programs of the Department of Labor. Such complaints should be logged and filed separately by the recipient. Those complainants electing to have such complaints handled according to the procedures set forth in this subpart, shall exhaust the recipient procedure specified in this section before they may file a complaint at the Federal level. Those electing to resolve the complaint pursuant to 29 CFR Part 31 may file directly with the appropriate RA.

(d) Where local law requires regular employees of a recipient to receive notice and an opportunity for a hearing prior to or subsequent to any adverse action including termination of employment, similarly employed CETA participants shall receive the same benefit period.

(e) The complaints resolution procedure shall include:

(1) Opportunity to file a written complaint. Assistance shall be available to the complainant.

(2) Opportunity for informal resolution of the complaint.

(3) Notification of an opportunity for a hearing when an informal resolution has not been accomplished. The notice shall state the procedures for requesting a hearing and shall describe the elements in the recipient's hearing procedure including those set forth in paragraph (f).

(4) Opportunity to amend the complaint prior to a hearing.

(5) Opportunity for a hearing pursuant to paragraph (f) of this section within 30 days of filing the complaint.

(6) A final written decision of the recipient which shall be made within 60 calendar days of the filing of the complaint (section 106(a)(1)) and shall include:

(i) The reason(s) for the decision;

(ii) A statement that the procedures delineated in this section have been completed; and

(iii) Notice of the right to file a complaint at the Federal level pursuant to section 676.85 of this subpart where any party disagrees with aspects of the recipient's decision.

(f) *Hearing procedure.* A hearing shall be provided to a participant or subrecipient within 30 working days after filing of a complaint. The hearing procedure shall include but shall not be limited to:

(1) Written notice of the date, time and place of the hearing, the manner in which it will be conducted, and the issues to be decided. Other interested parties may apply to the recipient for notice. Such other interested party is a person or organization supporting the position of the complainant, or any person or organizations potentially affected by the outcome of the complaint. The notice to other interested parties shall include the same items as to the complainant shall further state whether such interested parties may participate in the hearing and if applicable, the method by which they may request such participation;

(2) Opportunity to withdraw the request for hearing in writing before the hearing;

(3) Opportunity to request resched>uling of the hearing for good cause;

(4) Opportunity to be represented by an attorney or representative appointed by the complaint;

(5) Opportunity to bring witnesses and/or documentary evidence;

(6) Opportunity to have records or documents relevant to the issues to be decided at the hearing produced by their custodian when such records or documents are kept by or for the recipient or its subrecipient in the ordinary course of business;

(7) Opportunity to question any witnesses or parties;

(8) The right to an impartial hearing officer;

(9) A written decision from the hearing officer to the recipient, complainant(s), and any other interested parties. The written decision shall include synopsis of facts, statement of reason for the decision and statement of remedies to be applied; and

(10) Where a complaint procedure provides for a recipient review of the hearing officer's decision, the recipient shall provide a final written decision to the complainant(s) and any other parties.

§ 676.84 Exhaustion of recipient level procedure.

(a) Except as provided in § 676.83(c), no complainant who is a participant or subrecipient may file a complaint at the Federal level until the recipient level procedure specified in section 676.83(e) of this subpart has been exhausted. Other complainants shall exhaust the procedures specified in section 676.83(g) of this subpart before filing a Federal level complaint.

(b) Complainants who have not exhausted the procedures at the recipient level may file the complaint directly at the Federal level when the grant officer determines that:

(1) The recipient has not acted within the time frames specified in § 676.83;

(2) The recipient's procedures are not in compliance with § 676.83; or

(3) An emergency situation exists.

§ 676.85 Complaints, investigations, and hearing procedures at the Federal level.

(a)(1) *General; Final determination of substantial evidence.* Section 106(b) of the Act requires that a final determination of complaint shall be made within 120 days after receiving a complaint that satisfies the conditions specified in Section 106(a) of the Act (relating to exhaustion of a recipient's complaint procedure as provided in § 676.83 and .84). The non-criminal investigation and the final determination of substantial evidence (either supporting or not supporting the allegations of the complaint or the belief that a recipient is failing to comply with the requirements of the Act or the regulations) and procedures regarding notice, informal resolution or lack of informal resolution and notice of opportunity for hearing contained in section 106(i) of the Act as established in § 676.86 below are part of the "final determination" process. The Grant Officer's resolution pursuant to section 106(i)(1) of the Act constitutes the "final determination" required to be accomplished within the 120 days specified in section 106(b) of the Act.

(2) *Final action distinguished.* Section 107 of the Act provides for judicial review of "final action" with respect to disapproval of a prime sponsor's "comprehensive employment and training plan under section 104 of the Act, or "final action" taken with respect to any recipient in the nature of a sanction under section 106. Such "final action" is not the same as a "final determination" subject to the 120 day time limitation used in section 106(b). Principles of due process as well as the public interest require that persons shall not be prejudiced by the imposition of unduly restrictive or arbitrary time limits on the preparation and presentation of essential evidence relating to a matter in controversy. Because section 106(i)(2) requires that an opportunity for a hearing shall be given prior to imposition of a sanction or disapproval of a comprehensive employment and training plan (except under the emergency conditions specified in section 106(e) of the Act), the Grant Officer's compliance with section 106(i)(1) of the Act within 120 days from the filing of the complaint satisfies the requirements of section 106(b) of the Act. Nevertheless, the rules of procedures for hearings "shall be construed to secure the just, speedy and inexpensive determination of every proceeding."

(b) *Contents of complaints.* Every complaint shall be filed in writing before the commencement of any investigation or corrective action shall be required. The complaint shall be deemed filed after satisfying the provisions of Section 106(a) of the Act, as amended, and §§ 676.83, 676.84 of these regulations and no later than 30 days from the date of the Notice of Final Action by the recipient. The complaint shall contain the following:

(1) The full name, telephone number (if any), and address of the person making the complaint.

(2) The full name and address of the respondent (the recipient or person against whom the complaint is made).

(3) A clear and concise statement of the facts, including pertinent dates, constituting the alleged violation.

(4) Where known, the provisions of the Act, regulations, comprehensive employment and training plan, or other agreement believed to have been violated.

(5) A statement disclosing whether proceedings involving the subject of the complaint have been commenced or concluded before any State or local authority, including the recipient's complaint procedure (see § 676.83) and, if so, the date of such commencement or conclusion and the name and address of the authority.

(6) A statement that the procedures established by the recipient have been followed to completion by the complainant.

(7) A copy of the final decision of the recipient issued pursuant to § 676.83(e)(6) and (g)(3) of this subpart.

(8) A complaint when filed may be withdrawn only with the consent of the Grant Officer. If the complainant fails to cooperate or is unavailable, the complaint may be dismissed upon reasonable notice to the last known address of the complainant.

(c) *Initiation of investigations.* Whenever the Grant Officer receives a complaint filed in accordance with sections (a) and (b) above, the Grant Officer shall investigate the complaint if it alleges that any person or recipient is failing to comply with the requirements of the Act, the regulations or the terms of the Comprehensive Employment and Training Plan, or other agreement. In the absence of a complaint, an investigation may be initiated regarding whether a person or recipient is failing to comply with the requirements of the Act, the regulations or the terms of the Comprehensive Employment and Training Plan or other agreement. Investigations may also be initiated when the Grant Officer has reason to believe, because of an audit, report, onsite review, or otherwise that a recipient is failing to comply with those requirements.

(d) *ETA; Utilization of the Office of Investigation and Compliance.* the Assistant Secretary for Employment and Training may, for purposes of making any investigation, assign a complaint or classes of complaints to the Office of Investigation and Compliance of the Employment and Training Administration, under such conditions as may be appropriate. Such delegation shall not provide any bases for contesting any remedial action or not taken under the Act.

(e) *Reports.* Within 60 days after the filing of a complaint, or such additional time not to exceed 30 days as the Grant Officer may allow, an investigation shall be conducted and a conclusion made pursuant to § 676.86(a).

(1) If there is insufficient evidence to support the allegation informal resolution of the complaint may be undertaken or other action as may be appropriate, including dismissal.

(2) If there is substantial evidence to support the allegation, recommendations shall be made for any corrective action deemed appropriate, including imposition of any sanctions.

V 4 4 - 1 4

(f) *Criminal investigations.* Notwithstanding any other provision of this subpart, investigation of any matter concerning a potential federal criminal violation shall be conducted as the Inspector General shall direct pursuant to the powers granted by the Inspector General Act of 1978, Pub. L. 95-452, 92 Stat. 1101.

§ 676.86 Grant officer's final determination; request for hearing.

(a) Upon receipt of findings of questioned costs or activities, the grant officer shall review such findings through a specific examination of the regulations regarding the alleged violation to determine the allowability or disallowability of the costs or activity. Where specific mechanisms, management, monitoring, eligibility determination, corrective action or other systems or procedures are in the regulations, the grant officer shall review the manner in which the prime sponsor conformed to or implemented such requirements. Based on the circumstances regarding the questioned activities or costs and the conformance to requirements for implementation of systems, mechanism, or procedures, the grant officer shall initially determine whether to allow or disallow activities or costs. In any case in which the grant officer determines that there is sufficient evidence that funds have been misspent, the grant officer shall disallow the costs, except that costs associated with ineligible participants and public service employment programs may be allowed when:

(1) The activity was not fraudulent and the activity did not take place with the knowledge of the recipient or subrecipient;

(2) Immediate action was taken to remove the ineligible participant;

(3) Eligibility determination or other such systems were properly followed and monitored;

(4) Immediate action was taken to remedy the problem causing the questioned activity or ineligibility; and

(5) The magitude of questioned costs or activities is not substantial.

(b) *Informal resolution.* Except as provided in paragraph (b) of this section, following the initial determination prescribed in paragraph (a) above, the Grant Officer shall immediately give written notice of an opportunity for informal resolution of the matters to the appropriate parties, which should include all interested parties specified by the Grant Officer in the notice. The Grant Officer shall not revoke a prime sponsor's plan, in whole or in part, nor institute corrective action or sanctions against a prime sponsor without first providing the prime sponsor with such written notice of his intended actions and the reasons upon which those intended actions are based, and also providing the prime sponsor with an opportunity to inforall resolve those matters contained in the Grant Officer's notice.

(c) *Impasse.* If all the parties and Grant Officer cannot informally resolve any matter pursuant to paragraph (a), the Grant Officer shall, not later than 120 days after the filing of the complaint provide each party, with a written notice in duplicate by certified mail return receipt requested that (1) indicates that efforts to informally resolve matters contained in the original notice pursuant to paragraph (a) have been unsuccessful, and (2) lists those matters upon which the parties continue to disagree, and (3) lists any sanctions and corrective action, including any other alteration or modification of the plan, grant, agreement or program intended by the Grant Officer, and (4) informs the parties of their opportunity to request a hearing pursuant to these regulations.

(d) *Request for hearing.* Within 10 days of receipt of the Grant Officer's notice under paragraph (c) preceding, any affected prime sponsor, recipient, or complainant may request a hearing by filing a request for hearing with the Office of the Chief Administrative Law Judge of the Department of Labor, Room 700, Vanguard Building, 1111 20th Street, N.W., Washington D.C. 20036. The request for hearing is effective only when mailed by certified mail return receipt requested not later than 10 days after receipt of the Grant Officer's notice and received at the Office of the Chief Administrative Law Judge. The request for hearing shall be accompanied by a copy of the grant officer's notice issued pursuant to paragraph (b) of this section. The request for a hearing shall provide essentially as follows:

UNITED STATES DEPARTMENT OF LABOR,
WASHINGTON, D.C.

In the Matter of (name) ———— CETA
Prime Sponsor. Docket No. ————.

REQUEST FOR HEARING

Notice is hereby given that ———— hereby requests a hearing on the enclosed final determination of the Grant Officer entered on the ——— day of ———, 19—, and that (counsel) (if any) is authorized to represent the undersigned and to receive all further communications concerning this case.

Attorney for Requesting Party: (If any) (name) ———— Address ————. (Requesting Party) ————, Address ————.

(e) *Same; notification of filing.* Upon the receipt of a request for hearing by any person or organization named in the Grant Officer's final determination, the Chief Administrative Law Judge shall by order promptly notify the Grant Officer and each party named in the Grant Officer's final determination by certified mail, return receipt requested, that the request has been filed and the date of filing, that a complaint conforming to the rules contained in § 676.87 of the regulations must be filed by the party requesting the hearing and served upon the parties by a specified date, and of the right of all other parties to answer the complaint within 20 days of service of the complaint and to appear and participate in the proceeding provided they file a notice of intent to participate with the Office of the Chief Administrative Law Judge upon such terms as the Administrative Law Judge hearing the case shall order.

(f) *Automatic participation.* Attorneys employed by the Solicitor of Labor shall represent the Grant Officer. Whenever service is required to be made upon the Grant Officer after the filing of a request for hearing, service upon the Associate Solicitor for Employment and Training Legal Services, Room N-2101, 200 Constitution Avenue N.W., Washington, D.C. 20210, shall be deemed sufficient.

(g) *Discretionary hearing.* An opportunity for a hearing may also be extended when the Secretary determines that fairness and the effective operation of CETA programs would be furthered.

(h) *Emergency sanctions.* In emergency situations as determined by the Assistant Secretary, where it is necessary to protect the integrity of the funds, or insure the proper operation of the program, the Assistant Secretary may immediately terminate or suspend a grantee's authority to obligate funds, in whole or in part and withdraw unexpended funds and make alternative, temporary arrangements to carry out the grant program. Within 30 days after such termination of suspension the Secretary shall notify the grantee of the reason for the action and provide an opportunity to request a hearing. (Section 106(e)).

§ 676.87 Rules of procedure.

(a) *Referral to the Federal Rules of Civil Procedure.* On any procedural question not regulated by this subpart, the Act, or the Administrative Procedure Act, the Administrative Law Judge shall be guided to the extent practicable by any pertinent provision of the Federal Rules of Civil Procedure.

(b) *Filing.* All papers after the request for hearing required to be served on a party shall be filed with the Administrative Law Judge either before service or within a reasonable time thereafter. The filing of pleadings and other papers with the Office of Administrative Law Judges as required by these rules shall be made by filing them with the clerk, except that the

JAN 19 79

UMI

Administrative Law Judge may permit the papers to be filed with him, in which event, he shall note thereon the filing date and forthwith transmit them to the Clerk.

(c) *Consolidated or joint hearings.* In cases in which the same or related facts are asserted to constitute noncompliance with these regulations and the regulations of one or more other federal departments or agencies, the Administrative Law Judge may, by agreement with such other departments or agencies, where applicable, provide for the conduct of consolidated or joint hearings conducted in accordance with these rules.

(d) *Amicus curiae.* A brief of an amicus curiae may be filed only if accompanied by written consent of all parties, by leave of the Administrative Law Judge granted or on motion or on the request of the Administrative Law Judge, except that consent or leave shall not be required when the brief is presented by an officer or agency of the United States, or by a state, territory or commonwealth. The brief may be additionally filed with the motion for leave. A motion for leave shall identify the interests of the applicant and shall state the reasons why a brief of an amicus curiae is desirable. The amicus curiae shall file its brief within the time allowed the party whose position the amicus brief will support unless the Administrative Law Judge for cause shown shall grant leave for later filing, in which event the Administrative Law Judge shall specify in what period an opposing party may answer. A motion of an amicus curiae to participate in the oral argument will be granted only for extraordinary reasons, and the amicus curiae shall not partcipate in the conduct of the hearing, including the presentation of evidence and the examination of witnesses.

(e)(1) *Discovery.* The provisions governing discovery as provided in the Rules of Civil Procedure for the United States District Courts, Title V, 28 U.S.C., Rules 26 through 37, may be made applicable in any proceeding conducted under these regulations to the extent that the Administrative Law Judge concludes upon application that their use would contribute to the just, speedy, and inexpensive determination of the proceeding. A subpoena necessary to secure the attendance of a witness at a deposition (including the production of documents or things) shall be obtained and issued as provided in section 676.88(a) of these regulations.

(2) *Prehearing conference.* The Administrative Law Judge may direct the attorneys for the parties to appear before the Administrative Law Judge for a prehearing conference to consider the simplification of the issues and such other matters as may aid in the disposition of the proceeding. The Administrative Law Judge shall make an order which recites the action taken at the conference and the agreements made by the parties as to any of the matters considered and which limits the issues to those not disposed of by admissions or agreements of counsel, and such order when entered controls the subsequent course of the proceeding, unless modified to prevent manifest injustice.

(3) *Prehearing procedures.* Prehearing conferences may be scheduled by the Administrative Law Judge upon reasonable notice in advance of the hearing in order to permit time in which to complete any prehearing stipulation. The purpose of this conference is to make a good faith effort.

(i) Discuss the possibility of settlement;

(ii) Stipulate to as many facts or issues as possible;

(iii) Examine all exhibits or documents and other items of tangible evidence to be offered by any party at the hearing;

(iv) Exchange the names and address of all witnesses; and

(v) prepare a prehearing stipulation in accordance with subsection (4) following.

§ 676.88 Hearings.

(a) *Time and place.* Hearings shall be held at a time and place ordered by the Administrative Law Judge upon reasonable notice to the parties. Due regard shall be given to the convenience of the parties and the witnesses in selecting a place for the hearing. Subpoenas necessary to secure the attendance of witnesses and the production of documents or things shall be obtained from the Office of the Administrative Law Judges and shall be issued pursuant to the authority contained in section 133(a)(3) of the Act incorporating 15 U.S.C. § 49.

(b) *Purpose.* The hearing is directed to receiving factual evidence and expert opinion, and sworn testimony related to the issues in the proceeding. Argument will not be received into evidence and witnesses will not be permitted to read prepared testimony into the record. Brief opening statements of the parties positions and what a party intends to prove may be permitted in the discretion of the Administrative Law Judge.

(c) *Evidence.* Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination, shall be applied where reasonably necessary by the Hearings Officer conducting the hearing. The Hearings Officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(d) *Amendments to conform to the evidence.* When issues not raised by the pleadings are tried by express or implied consent of the parties, they shall be treated in all respect as if they had been raised in the pleadings. Such amendment of the pleadings as may be necessary to cause them to conform to the evidence and to raise these issues may be made on motion of any party at any time; but failure to so amend does not affect the result of the hearing of these issues. If evidence is objected to at the hearing on the ground that it is not within the issues made by the pleadings, the Administrative Law Judge may allow the pleadings to be amended and shall do so freely when the presentation of the merits of the action will be subserved thereby and the objecting party fails to satisfy the Administrative Law Judge that the admission of such evidence would prejudice him in maintaining his action or defense upon the merits. The Administrative Law Judge may grant a continuance to enable the objecting party to meet such evidence.

(e) *Non-appearance of parties.* If a party fails to appear at a hearing the Administrative Law Judge may hear the cause on behalf of the remaining parties, or may accide the cause on the briefs or dismiss the cause. If no present party appears, the cause will be decided on the briefs unless the Administrative Law Judge shall otherwise order.

(f) *Record for decision.* The transcript of testimony, exhibits and all papers and requests filed in the proceedings (except the correspondence section of the docket), including rulings and any proposed findings of fact and conclusions of law shall constitute the exclusive record for decision. Letters expressing views or urging action and other unsponsored written material regarding matters in issue in a hearing will be placed in the correspondence section of the docket file for the proceeding. These data are not deemed part of the evidence or record in the hearing.

§ 676.89 Post-hearing procedures.

(a) *Post-hearing briefs; findings and conclusions.* The Administrative Law Judge shall fix the time for filing post hearing briefs, which may contain proposed findings of fact and conclusions

of law and, if permitted, reply briefs. Briefs should include a summary of the evidence relied upon together with references to exhibit numbers and pages of the transcript, with citations of the authorities relied upon.

(b) *Decision.* After the time for submission of post-hearing briefs has expired, the Administrative Law Judge shall render a final decision adjudicating the cause. A copy of the final decision shall be served upon all parties and each amicus curiae, if any, as provided in section 676.86(d).

(c) *Contents of final decisions.* The decision of the Administrative Law Judge on the merits shall adjudicate and may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance in whole or in part, and may contain such terms, corrective action, conditions, sanctions, back pay awards, and other provisions as are consistent with and will effectuate the purposes of the Act and regulations issued thereunder, including provisions designed to insure that no federal financial assistance will thereafter be extended under such program unless and until the prime sponsor or recipient corrects its noncompliance and makes satisfactory assurance that it will fully comply with the Act and regulations.

(d) *Adjustments in payments.* When after a hearing pursuant to this subpart it appears that program funds have been expended in violation of the Act, the regulations or grant, the Administrative Law Judge may direct, in order to prevent further unauthorized expenditures, that unexpended funds be returned or that funds otherwise payable under the Act be withheld in order to recover any amount expended for unauthorized purposes in any fiscal year. When such action is taken the recipient shall neither reduce program operations, nor reduce compensation to any participant, or otherwise expend less than those sums called for in the grant. Any such reduction in expenditures may be deemed sufficient cause for emergency termination.

(e) *Termination of grant.* When the final decision terminates the grant in whole or in part after hearing pursuant to this subpart, the final decision shall specify the extent of termination and the date upon which such termination becomes effective. Upon receipt of this notice, the recipient shall:

(1) Discontinue further commitments of grant funds to the extent that they relate to the terminated portion of the grant;

(2) Promptly cancel all subgrants, agreements and contracts utilizing funds under this grant to the extent that they relate to the terminated portion of the grant;

(3) Settle, with the approval of the Secretary, all outstanding claims arising from such termination;

(4) Submit, with a reasonable period of time, after the receipt of the notice of termination, a termination settlement proposal which shall include a final statement of all unreimbursed costs related to the terminated portion of the grant.

(f) *Reallocation based on noncompliance.* When the final decision after hearing pursuant to this subpart reallocates funds based on a determination of recipient noncompliance with the Act, regulations or grant, the final decision shall specify:

(1) Any revocation of the recipient's grant for the area, in whole or in part;

(2) The extent to which no further payments shall be made under the Act to the recipient; and

(3) The amount of funds which shall be returned from unexpended funds paid to the recipient during that fiscal year.

(4) Any funds that may be reallocated to the State or another recipient to serve the area formerly served by the recipient, including the desirability of providing direct federal service to the area through appropriate means.

§ 676.90 Final action; Judicial review.

(a) The final decision of the Administrative Law Judge constitutes final action within the meaning of the Act and the Administrative Procedure Act, 5 U.S.C. § 704, and shall be deemed accomplished upon the date of service of the final decision by the Office of the Administrative Law Judge in accordance with § 676.86(d).

(d) *Judicial review.* Judicial review of final action as defined in paragraph (a) preceeding shall be in accordance with section 107 of the Comprehensive Employment and Training Act, as amended.

(c) *Savings clause.* Nothing contained in this subpart shall be deemed to prejudice the separate authority of other law enforcement officials to pursue remedies and sanctions available outside the Comprehensive Employment and Training Act, such as 18 U.S.C. § 665 and other provisions of federal, state or local law; and nothing in this subpart shall be deemed to reduce the responsibility and full liability of the prime sponsors and other recipients.

PART 677—PROGRAMS UNDER TITLE II

Subpart A—General Provisions

Sec.
677.1 Purpose.
677.2 Participant assessment.
677.3 Agreements with State or local educational agencies.

Subpart B—Training Activities for the Economically Disadvantaged

677.11 Purpose.
677.12 Participant eligibility.
677.13 Program activities under Title IIB.
677.14 Allocation of funds.
677.15 Annual Plan Subpart.
677.16 Administrative limitations.

Subpart C—Upgrading and Retraining

677.21 Purpose.
677.22 Eligibility for participation.
677.23 Activities and services.
677.24 Agreement with employers.
677.25 Compensation and benefits to participants.
677.26 Reimbursement of employers.

Subpart D—Special Grant for Governors

677.31 Purpose.
677.32 Allocation of funds.
677.33 Grant application; Annual Plan.
677.34 Government distribution of Vocational Education Funds.
677.35 Nonfinancial agreement between prime sponsor and vocational education board.
677.36 State Employment and Training Council.
677.37 Governor's coordination and special services.
677.38 Coordination and establishment of linkages with education agencies.
677.39 Vocational educational activities.
677.40 Funding; grant administration.
677.41 Reporting.
677.42 Coordination with prime sponsor.

Subpart E—Transitional Employment Opportunities for the Economically Disadvantaged

677.51 Purpose.
677.52 Participant eligibility.
677.53 Activities and services.
677.54 Eligibility for funds.
677.55 Allocation of funds.
677.56 Annual Plan Subpart.
677.57 Wages and wage supplementation.
677.58 Special cost provisions.

AUTHORITY: Sec. 126 of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), unless otherwise noted.

Subpart A—General Provisions

§ 677.1 Purpose.

It is the purpose of this Part to provide employment and training to ease barriers to labor force participation encountered by economically disadvantaged persons, to enable such persons to secure and retain employment at their maximum capacity, and to increase their earned income.

§ 677.2 Participant assessment.

(a) Prime sponsors shall assess each participant upon entry into the program to determine which activities and services would be appropriate. Based on the assessment, the prime sponsor, in conjunction with each participant, shall develop an Employability Development Plan shall identifying the program options and services available and appropriate for the participant.

(b) In establishing such a plan, the prime sponsor shall consider the participant's skills, interest and career objectives, subject to the availability of services, and barriers to employment or advancement faced by the participant (sec. 205(a)).

(c) The Employability Development Plan shall include, but need not be limited to, the following: (sec. 205).

(1) Assessment data showing the participant's employability readiness;

(2) Barriers to employment faced by the participant;

(3) Specific employment and training needs;

(4) Specific services and activities to be developed and provided to meet those needs; and

(5) A specific plan for individualized transition from program activities to placement in unsubsidized employment.

(d) A copy of the plan shall be retained in the permanent record, and a copy given to the participant.

(e) The Employability Development Plan shall be reviewed periodically throughout the duration of participation, and revised accordingly. (sec. 205(b)).

§ 677.3 Agreements with State or local education agencies.

(a) The prime sponsor shall make arrangements through nonfinancial or financial agreements with State or local educational agencies or post-secondary institutions for the provision of employment and training programs. Such programs shall be designed to prepare individuals for employment. Educational agencies in the area shall be notified by the prime sponsor of the opportunity to enter into such agreements.

Specific arrangements for entering into such agreements shall be provided to those which express an interest, and the procedures in (e) shall apply to such agencies. (sec. 203(a)).

(b) In the development of the agreement, the prime sponsor shall carefully examine educational resources, consider use of services available at no cost and, where appropriate, coordinate programs with school systems.

(c) Such programs may consist of:

(1) Vocational training;

(2) Instruction in basic cognitive skills;

(3) Employment of persons in schools controlled by such agencies or in post-secondary institutions; and

(4) Other employment and training activities. (sec. 203(c)(1)).

(d) Each agreement shall contain provisions to assure that funds will not supplant State or local funds expended for the same purpose. (sec. 203(c)(2)).

(e) If a prime sponsor is unable to reach an agreement with the educational agencies or institutions, or if the agencies or institutions are dissatisfied with the utilization of their facilities proposed by the prime sponsor, they may request the RA to review such arrangements. The RA, after affording an opportunity for a hearing, may take appropriate action within 90 days after receiving such a request. (sec. 203(c)(3)).

Subpart B—Training Activities for the Economically Disadvantaged

§ 677.11 Purpose.

This subpart contains the regulations for comprehensive employment and training programs and services authorized under Title II, Part B of the Act. These regulations also implement the administrative provisions found in sections 201 through 216 of the Act.

§ 677.12 Participant eligibility.

Eligibility requirements governing this program may be found in section 675.5.

§ 677.13 Program activities under Title II B.

(a) Programs shall provide comprehensive employment and training services which are needed to enable individuals to obtain unsubsidized employment or to participate in other employment and training program activities leading to their eventual placement in unsubsidized employment.

(1) Services may include: classroom training; OJT; work experience; and services to participants as described in § 676.25. PSE as described in § 676.25 is not an allowable activity under this Subpart.

(2) Job search assistance which shall include transitional services such as job seeking skills instruction, individualized job search plans, and labor market information.

(3) Supported work programs. Supported work is a transitional work experience program directed toward those groups of people who have traditionally had great difficulty in getting or keeping a regular job, i.e., ex-offenders who have recently been released from prison or jail; ex-addicts currently in treatment; young school dropouts; youth with delinquent histories; and women who are long-time recipients of welfare payments under (AFDC) programs. Programs shall be designed to lead to full-time unsubsidized employment (sec. 211(c)).

(4) Training leading to self-employment in small business (sec. (211)(5));

(5) Development of labor market information;

(6) Activities such as job restructuring (sec. 211(1));

(7) Part-time, flexi-time, and other alternative work experience arrangements for individuals, who, because of age, handicap, or other factors are unable to work full-time (sec. 211)(1));

(8) Services to individuals to enable them to retain employment such as post-placement follow-up, counseling, and supportive services not to exceed thirty days (sec. 211(8); and

(9) Any programs or activities authorized by Part A of Title III, Title IV and Title VII of the Act with prior approval of the RA (sec. 211(14)).

(c) *Youth.* (1) Activities and services for youth shall be designed to assist them in overcoming barriers to employment. Such barriers include: lack of basic educational or vocational skills; insufficient preparation for labor force participation; inability to find or successfully apply for employment; financial barriers to labor for labor force participation; and lack of appropriate job opportunities (sec. 214(a)).

(2) Prime sponsors shall coordinate activities with those under Part A of Title IV of this Act, and have plans reviewed by the youth council. To the maximum extent feasible, programs similar to those authorized in Title IV, Part A, Subpart 3, except for public service employment will be utilized to serve youth under this Part (sec. 214(b)).

(d) *Older workers.* (1) Activities and services for older workers shall be designed to assist them in overcoming the particular barriers to employment experienced by older workers, including: skills that are obsolete or no longer needed in the community; physical characteristics associated with aging; employer reluctance to hire older workers; financial barriers to labor force participation; and the lack of appropriate job opportunities (sec. 215(a)).

(2) Prime sponsors shall use activities described in Section 308 of the Act and coordinate activities under this Part with programs and services provided by senior centers, area agencies on aging, and State agencies on aging (as designated under the Older Americans Act) (sec. 215(b)).

(e) *Public assistance recipients.* (1) Activities and services for public assistance recipients shall be designed to assist them in overcoming the particular barriers to employment experienced by such recipients, including: lack of basic education or vocational skills; insufficient preparation for adapting to labor force participation; inability to find or successfully apply for employment; inability to obtain satisfactory child care; and lack of appropriate job opportunities (sec. 216(a)).

(2) Prime sponsors shall coordinate services with other programs under

V 4 4 - 1 4 J A 1 9 7 9 UMI

the Act, Work Incentive Program (WIN), and services provided by State and local public assistance agencies (sec. 216(b)).

§ 677.14 Allocations of funds.

Allocations shall be provided to States and prime sponsors, pursuant to section 202 of the Act (section 202).

§ 677.15 Annual plan subpart.

(a) *General.* To receive financial assistance under Subparts B and C of Title II, a prime sponsor shall submit the following information, which will become part of the Annual Plan described in § 676.11. This Subpart shall consist of a Narrative Description, Program Planning Summary, and Budget Information Summary specific to Subparts B and C of Title II.

(b) The Narrative Description shall include:

(1) *Objectives and needs for assistance.* A breakout of the eligible population by race, sex, national origin, and age, and the planned level of services to be provided for these significant segments in terms of the percent each group will constitute of those to be served (sec. 103(b)(2)). Where the planned level of service to any group varies by more than 15 percent above or below the group's incidence in the eligible population, an explanation must be provided.

(2) *Results and benefits.* Provide a statement on:

(i) Specific quantified performance and placement goals, by program activity;

(ii) Any performance and placement goals, with respect to groups designated to be served (sec. 103(b)(4));

(iii) Explain any variation between the prime sponsor's performance and placement goals and the Secretary's performance standards (sec. 103(b)(4));

(iv) Any non-quantifiable goals or outcomes.

(3) *Approach.* (i) Program Activities and Services.

(A) A description of the program activities and services to be provided.

(B) A description of upgrading and/or training activities including the prime sponsor's system for determining eligibility for participation, the criteria used for selection of occupations and employers, and the length of the training period (sec. 221(a) and (b).

(ii) A description of arrangements to ensure that funds under subparts 2 and 3 of Title IV will not be used to replace opportunities available for eligible youth under Title II (secs. 421 and 431).

(iii) A description of arrangements to ensure that funds under Title VII will not be used to replace on-the-job training opportunities available under Title II (sec. 703(b)(2)).

(iv) A list of the selected service deliverers and the services or facilities to be provided by each (sec. 103(b)(7)).

(c) The prime sponsor shall attach a Program Planning Summary (PPS) which reflects the goals, objectives and activities for the program year.

(d) The prime sponsor shall attach a Budget Information Summary (BIS) containing the proposed budget for programs under Subparts A, B, and C of Title II. If any item of capital equipment which individually costs more than $1,000 is to be purchased, a list, including quantity and prices of items, must be provided.

§ 677.16 Administrative limitations.

(a) Prime sponsors shall not use funds allocated under § 677.14 for public service employment (sec. 212(a)).

(b) Not more than 6.5 percent of each prime sponsor's allocation may be used for programs and activities under Subpart C (Upgrading and Retraining) of this Title (Sec. 203(b)).

(c) (1) At least 80 percent of the funds allocated to a prime sponsor shall be expended for wages, fringe benefits, allowances, training, and services to participants enrolled under subparts B and C of this Part.

(2) The remaining funds may be used for administrative costs incurred by the prime sponsor, program agents, project applicants, or subgrants, or subgrantees or contractors.

(3) The RA may waive the limitations on expenditures in (1) and (2) above when adequate justification is provided in the Annual Plan Subpart.

Subpart C—Upgrading and Retraining

§ 677.21 Purpose.

This part contains the regulations for upgrading and retraining services, under Title II, Part C of the Act. Upgrading and retraining programs offer additional opportunities to those groups, particularly minorities and women, who are frequently locked into low-paying, dead-end jobs.

§ 677.22 Eligibility for participation.

Eligibility requirements governing these programs are found in § 675.5.

§ 677.23 Activities and services.

(a) Classroom training, on-the-job training (OJT), supportive services and employment and training services are the only allowable program activities and services for upgrading and retraining programs. Supportive and employment and training services are the only allowable services to participants (sec. 221(a)).

(b)(1) Prime sponsors may conduct retraining programs directly or through financial assistance to public and private employers.

Upgrading programs may be conducted only through financial assistance to such employers.

(2) Employers may conduct training through other organizations.

(c) Prime sponsors should coordinate upgrade and retraining programs with Private Industry Councils, particularly in developing and conducting upgrading and retraining programs.

(d) *Upgrading programs.* (1) The positions for which participants are being upgraded shall be those:

(i) which would not otherwise have been available to entry-level employees;

(ii) which provide opportunities for upward mobility beyond the occupation for which training is provided; and

(iii) for which adequately trained personnel are not currently available within the employing organization (sec. 221(a)(1)).

(2) The education and skill content of upgrading programs shall provide participants with qualifications for positions of greater skill, responsibility, remuneration or career advancement in the employer's own enterprise (sec. 221(3)).

(3)(i) The upgrade program must clearly qualify trainees to work at a particular occupation, identified prior to the start of training.

(ii) The training period shall be consistent with periods customarily required for comparable training (sec. 221(A)(4)).

(4) The prime sponsor shall make every effort to ensure that participants receive, upon completion, placement in the occupation for which training was provided, and at the prevailing wage rate for the occupation (sec. 221(a)(8)).

(5) Prime sponsors shall first give consideration to those employers who indicate that, for every employee to receive upgrading, at least one new individual is to be hired into unsubidized employment at the entry level:

(i) Under this agreement, the filling of the unsubsidized, vacated or lower-level job should occur by or before the time the participant completes training; and

(ii) Employers shall hire from the prime sponsor's pool of eligible applicants or from those individuals currently enrolled in activities funded under any of the Titles.

(e) *Retraining programs.*

(1) Retraining programs must qualify participants to work at skill levels distinct from those of their previous occupations, and shall be for those occupations in which skill shortages exist (sec. 221(b)(3)).

(2) The skill training shall be for those occupations characterized by high stability which provide a reasonable expectation of continued employment (sec. 221(b)(3)).

(3)(i) Programs are to be operated only if there is a prior commitment from the employer providing the retraining to hire the participant into the position for which the participant has been retrained (sec. 221(B)(3)).

(ii) Where an individual's current employer expresses no interest in retraining programs, the individual may seek retraining services elsewhere in anticipation of securing employment with another employer.

§ 677.24 Agreements with employers.

Prime sponsors shall enter into written agreements with the employers whose employees are to receive upgrading or with the providers of retraining services prior to the start of the programs. Those fulfilling this requirement are not obliged to enter into an OJT agreement provided for in § 676.26. The agreement shall include:

(a) Identification of parties and a signatory page;

(b) Training outline:

(1) Criteria for successful completion of the program;

(2) Occupation and wage rate of participant prior to training;

(3) Identified occupation and wage rate upon completion of training;

(4) Skill level of participant prior to and upon completion of training;

(c) Methodology and maximum amount of reimbursement;

(d) Reporting requirements.

§ 677.25 Compensation and benefits to participants.

(a) Except as provided in paragraph (b), participants in OJT, classroom training, or combined activities and receiving other services, shall receive compensation in accordance with § 676.26, as appropriate.

(b) Participants in upgrade programs shall not be compensated at a rate lower than that received before entering the program.

§ 677.26 Reimbursement to employers.

(a) Reimbursement to employers shall be as provided in § 676.25, except as provided in paragraph (b).

(b) The reimbursement rate for OJT in upgrading programs shall not exceed 40 percent of the participant's wage for the portion of time spent in OJT, except when documented in the manner described in sec. 676.25(b)(6)).

Subpart D—Special Grants to Governors

§ 677.31 Purpose.

(a) This Subpart contains the regulations for programs to be operated under the Special Grant to Governors which are authorized in Section 202(b)(c)(d) and (e) of the Act. These programs address issues of employment and training which are generally beyond the scope of local prime sponsor programs. These regulations also implement the administrative provisions found in sections 105, 110, and 204 of the Act. The regulations found in Part 676 and Subpart (B) and (C) of this part also apply to programs under the Special Grants to Governors except as indicated in this Subpart.

(b) It is the purpose of the programs under the Special Grant to:

(1) Provide supplemental vocational education assistance in areas served by prime sponsors;

(2) Encourage coordination and establish linkages between prime sponsors and appropriate educational agencies and institutions;

(3) Conduct Governors' coordination and special services within the State; and

(4) Provide support to State employment and training councils.

§ 677.32 Allocation of funds.

(a) An amount equal to 6 percent of the funds available for Parts A, B, and C of Title II shall be made available to Governors for supplemental vocational assistance in the State, as described in sec. 202(b) of the Act.

(b) An amount equal to 1 percent of the funds available for Parts A, B, and C of Title II shall be made available to Governors for costs of the State Employment and Training Council provided for in sec. 202(c) of the Act.

(c) An amount equal to 1 percent of the funds available for Parts A, B, C and D of Title II shall be made available to Governors for coordination and establishment of linkages with educational agencies as provided in sec. 202(d) of the Act.

(d) An amount equal to 4 percent of the funds available for Parts A, B, and C of Title II shall be made available to Governors for coordination and special services as provided for in sec. 202(e) of the Act.

§ 677.33 Grant application; annual plan.

(a)(1) Upon notification by the Secretary of the amount of funds available for a special grant to the State, the Governor shall submit a Special Grant Annual Plan to the RA. Copies of all forms and instructions are contained in the *Forms Preparation Handbook.*

(2) The Governor shall comply with the comment and publication requirements specified in S676.12

(3) In addition, the Governor shall 45 days prior to submission of the plan to the RA, provide: (sec. 104(a))

(i) A summary of the Annual Plan to each prime sponsor in the State and to units of general local government within the Balance of State with a population of at least 25,000;

(ii) A summary of the Annual Plan to appropriate Native American program sponsors and to appropriate labor organizations, and

(iii) A description of any programs to be funded within a prime sponsor's area with State coordination and special services funds to the prime sponsor in whose jurisdiction the program is to be funded.

(b)(1) The Master Plan for the Special Grant shall be as described in S676.10, as applicable.

(2) The Governor may elect to use the Master Plan developed for the Balance of State program, in lieu of developing a separate Master Plan for the Special Grant, where there is a statewide BOS by submitting a certification that the Balance of State Master Plan applies except as revised in an attachement which reflects different or unique items in the Special Grant.

(c) The Annual Plan Subpart shall contain the following:

(1) Approval Request Letter.

(2) Application for Federal Assistance, Standard Form 424.

(3) Special Grant Program Planning Summary specifying numbers of participants served by vocational education projects and State Coordination and Special Services and educational linkages.

(4) Special Grant Budget Information Summary specifying funding of vocational education projects, State Employment and Training Councils, State Coordination and Special Services, activities and/or projects, and activities for establishing linkages and services between prime sponsors and educational agencies.

(5) Special Grant Program Narrative as set forth in (d) below.

(d) The Special Grant Program Narrative shall consist of:

(1) *Vocational Education Services Program Narrative.*

(i) A description of the manner in which the Governor will allocate funds to prime sponsor areas and the rationale for the method used;

(ii) A description of the arrangements for conducting the vocational education programs and activities through the State Board for Vocational Education, and for ensuring the accountability of the State Board to the Governor for these funds;

(iii) A description of the statewide activities, training or services that will be developed including, but not limited to:

(A) The utilization of funds under this Act and the Vocational Education Amendments of 1976 to enhance economic growth and development in the State (sec. 204(c)(2)(B));

(B) The extent to which information, curriculum materials, and technical assistance in curriculum and staff development will be provided to prime

V 4 4 / 1 4 JA 19 79 UMI

sponsors by State Vocational Education agencies (sec. 204(c)(2)(E)).

(iv) A description of the activities and services provided to, or with, prime sponsors for the prime sponsor areas, including:

(A) How such funds are to be used to coordinate programs under this Act with existing vocational education programs (sec. 204(c)(2)(A));

(B) How linkages between vocational education, education, and training programs under this Act and private sector employers will be developed (sec. 204(c)(2)(C));

(C) How technical assistance will be provided to local vocational education and educational institutions to aid them in making cooperative arrangements with prime sponsors 204(c)(2)(D).

(v) An explanation of any nonfinancial agreements which have been negotiated between a prime sponsor and the State Vocational Education Board, including:

(A) The steps the Governor will use to ensure that agreement will be reached; and

(B) The process for mediating and resolving any disagreements over the provision of training or services under the nonfinancial agreements.

(2) *State Employment and Training Council Program Narrative.*

(i) A list of groups represented on the council;

(ii) A description of the Council's responsibilities pursuant to § 677.36(e).

(3) *State Coordination and Special Services Program Narrative.*

A description of arrangements or planned activities for carrying out each of the activities provided for in § 677.37.

(4) *State Coordination and Establishment of Linkages Between Prime Sponsor and Educational Agencies and Institutions Program Narrative.*

A description of arrangements for carrying out each of the activities provided for § 677.38.

§ 677.34 Governor's distribution of vocational education funds.

Upon notification of the funds available to the State for vocational education, the Governor shall inform in writing the State Vocational Education Board and each prime sponsor of the amount of funds available to be spent in each prime sponsor's area and the methodology used to determine that amount. If a prime sponsor elects not to use all or part of the funds available for its area, it shall notify the Governor, who shall redistribute the funds among other eligible prime sponsors.

§ 677.35 Nonfinancial agreement between prime sponsor and Vocational Education Board.

(a)(1) Upon notificaiton of the funds available for its area, the prime sponsor shall develop, in a non-financial agreement in conjunction with the Vocational Education Board, consisting of a statistical, and narrative plan for the expenditure of the funds from the Governor by the Vocational Education Board in the prime sponsor's area. (sec. 204(a)(1)).

(2) Prior to making any agreement with a prime sponsor, the State Vocational Education Board shall consult with, and obtain, the written advice of the State agencies' committee involved in the formulation of the plan for vocational education required by Section 197(a)(1) of the Vocational Education Amendments of 1976. (sec. 204(a)(2)).

(b) The nonfinancial agreement shall consist of:

(1) Prime sponsor's vocational education nonfinancial agreement signature sheet;

(2) Part I of the Special Grant Program Planning Summary;

(3) Appropriate columns of the Special Grant Budget Information Summary; and

(4) Vocational educational program narrative, including the identification of the potential recipient(s) of the funds for program administration.

(c) After the agreement is signed, a copy shall be sent by the Vocational Education Board to the Governor for review and approval.

(d) The Governor shall develop procedures for modifying the nonfinancial agreement.

(e) The Governor shall ensure that the Vocational Education Board provides services consistent with the Governor's Special Grant plan for vocational education services and the nonfinancial agreements.

(f) If, within 90 days after the notification of available funds for the area, the prime sponsor and the Board are unable to reach an agreement, the Governor shall mediate the dispute, so that the local vocational needs of the prime sponsor's area are met. If mediation by the Governor does not result in a solution acceptable to both parties within 120 days after the notification of available funds, the RA shall arbitrate the dispute.

§ 677.36 State Employment and Training Council.

(a) The Governor shall establish a State Employment and Training Council (SETC) which shall be in addition to the Balance of State planning council, and representative of the geographic area to be served. The SETC function is advisory and does not relieve the State of its final decisionmaking responsibilities under the Act.

(b) The Governor shall appoint Council members, as follows;

(1) At least one quarter of the membership of the Council shall be representatives of units or combinations of units of general local government, including those which are prime sponsors, who have been nominated their chief executive officers. (sec. 110(a)(3)(A))

(2) One quarter of the membership of the council shall be representatives from organized labor, business and agricultural employers and workers. (sec. 110(a)(3)(B)).

(3) One quarter of the council shall be representatives of the eligible population to be served under the Act (including significant segments) and of the general public (sec. 110(a)(3)(c)). At least one half of such representatives should be economically disadvantaged at the time of appointment.

(4) Not more than one quarter of the council shall be representatives of service deliverers, including:

(i) One representative from each of the following: the State Public Employment Service; the State Advisory Council on Vocational Education; the State Board of Vocational Education; the State public assistance agency; any State agency the Governor believes has an interest in employment and training and human resource utilization within the State.

(ii) Representatives of community-based organizations, veterans organizations, and organizations representative of handicapped individuals (sec. 110(a)(3)(d)).

(c) The Governor shall, provide the Council with professional, technical, and clerical staff and other necessary support services. (sec. 110(a)(2)).

(d) The Governor shall appoint someone other than an elected official or an employee of the prime sponsor as chairperson of the Council. The Council shall meet as it deems necessary, but not less than five times annually. All meetings shall be announced in advance, and shall be open and accessible to the general public. (sec. 110(a)(2)(B)(4)).

(e) Funds not needed for the State Employment and Training Council may be used for State Coordination and special services. (sec. 202(c)).

(f) The Council shall:

(1) Review continuously (i) the operation of programs conducted by prime sponsors in the State and (ii) the availability responsiveness, and adequacy of State services provided by all employment-related agencies. The reviews conducted by SETC's shall include an emphasis upon the following: statewide and inter-prime sponsor issues of utilization and coordination; employment and training resources of

State agencies, and the coordination of plans and operations in continguous areas. The procedures for monitoring prime sponsors and State agencies must be publicized to all prime sponsors and affected State agencies prior to being implemented;

(2) Submit a public Annual Report to the Governor no later than February of each year, with copies to the State Advisory Council on Vocational Education and the RA, and issue such other studies, reports or documents to the Governor and prime sponsors as the SETC believes necessary to effectively carry out the Act. The Annual Report shall analyze the coordination of employment and training programs during the previous fiscal year, and recommend improvements. It shall also describe any special programs or linkages.

(3) Consult with the State Advisory Council on Vocational Education to identify employment, training, and vocational education needs of the State and to assess the extent of coordination among employment and training, vocational education, vocational rehabilitation, public assistance and other programs.

(4) Comment at least once annually on the reports of the State Advisory Council on Vocational Education which shall incorporate such comments in the annual report it submits pursuant to Section 105 of the Vocational Education Amendments of 1976.

(5) Review proposed CETP modifications, and comment thereon, particularly with respect to non-utilization or duplication of existing services.

(6) Review plans of State agencies providing employment, training and related services. Provide comments and recommendations to the Governor, appropriate State agencies, prime sponsors, the general public and the appropriate Federal agencies on the relevancy and effectiveness of employment, training and related service delivery systems in the State and on means of improving effectiveness.

(7) Participate in the development of the Governor's coordination and special services plan.

(8) No later than May 15, to the maximum extent feasible, the council shall share with prime sponsors information on economic development, vocational rehabilitation, SESA activities, occupational demands and labor market demands.

(g) *Combined planning and services councils.* In any State where the State is the only prime sponsor, the prime sponsor planning council may also serve as of the State Employment and Training Council. In such instances, the membership of the prime sponsor's planning council shall reflect the membership requirements of the State Employment and Training Council, in addition to meeting the membership requirements of a prime sponsor planning council, except that paragraphg (b)(1) of this section is not applicable.

§ 677.37 Governor's coordination and special services.

(a) Funds provided under § 677.32 (d) of these regulations shall be used for the following activities (sec. 105(b)):

(1) Coordination of all employment, training, education and related services provided by the State, by prime sponsors, by State education agencies and other appropriate institutions of vocational and higher education, by State and local public assistance agencies by apprenticeship programs and by other providers of such services (sec. 105(b)(1));

(2) Coordination of programs financed unde the Wagner-Peyser Act and this Act, including assisting in the negotiation of any agreement (including partnership arrangements described in section 307) between prime sponsors and State employment security agencies (sec. 105(b)(2));

(3) Minimizing the duplication of services (sec. 105(b)(3));

(4) Assistance to the Secretary in enforcing the requirements for Federal contractors and subcontractors to list all suitable employment openings with local offices of the State employment service agencies and to take affirmative action, as required in Section 2012(a) of Title 38, United States Code (sec. 105(b)(4));

(5) Promotion of prime sponsor planning that takes into account conditions prevailing in labor market areas covering more than one prime sponsor area, as well as related activities such as community development, economic development, vocational education, vocational rehabilitation, and social services (sec. 105(b)(5));

(6) Exchange of information between Statcs and prime sponsors with respect to State, interstate and regional planning for economic development, human resources development, education and other subjects relevant to employment and training planning (sec. 105(b)(6));

(7) Development and provision to prime sponsors of information on a State and local area basis regarding economic, industrial and labor market conditions (sec. 105(b)(7));

(8) Provision to prime sponsors, upon request, appropriate information and technical assistance to assist them in develping and implementing their programs (sec. 105(b)(8));

(9) Conduct of special model training and employment programs and related services which may include programs for offenders (sec. 105(b)(9));

(10) Provision of financial assistance for special programs and services designed to meet the needs of rural areas outside major labor market areas (sec. 105(b)(11));

(11) Provision of labor market and occupational information to prime sponsors and appropriate educational agencies and institutions without reimbursement (sec. 105(b)(11));

(12) Facilitating and fostering the activities of the State Occupational Information Coordination Committee established with special emphasis on the systematic use of occupational information for prime sponsor planning as well as assisting and encouraging the development and use of career outlook information for individuals who are receiving rehabilitation services, students in local schools and individuals using the services of prime sponsors and local offices of State employment security agencies (sec. 105(b)(11));

(13) Assistance to or support of local activities under the Targeted Jobs Tax Credit program of the Revenue Act of 1978.

(c) When using funds provided under § 677.32(d) for employment and training activities (e.g., work experience, classroom training), the requirements of § 676.39, as appropriate apply.

(d) PSE may be funded only as a model or demonstration program with the approval of the RA.

§ 677.38 Coordination and establishment of linkages with education agencies.

(a) Funds provided under § 677.32(d) shall be available for encouraging coordination and establishing linkages between prime sponsors and applicable educational agencies and institutions, and institutions providing training programs approved by the Secretary such as State apprenticeship councils. Funds may be used for activities such as:

(1) Providing assistance to prime sponsors or education institutions in the development of agreements between prime sponsors and State Boards of Vocational Education and State or local educational agencies or post-secondary educational institutions as required under secs. 203(c), 433(d)(2), and 436(c) of the Act;

(2) Establishing mechanisms to increase information exchange between prime sponsors and educational agencies and institutions;

(3) Developing and disseminating models of linkages which can be shared with all prime sponsors in the State;

(4) Providing technical assistance to prime sponsors and educational agencies in the extension of educational offerings to prime sponsor jurisdictions which lack access to various education opportunities;

(5) Providing information, curriculum materials and technical assistance

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 - 1 4 J A 1 9 7 9 UMI

in curriculum development and staff development to prime sponsors;

(6) Providing assistance in development of systems for assessment and testing of educational attainment of participants in prime sponsor programs;

(7) Providing assistance to eliminate barriers in the educational system which hamper employment and training activities, such as development of open entry/open exit courses and academic credit for CETA training.

(b) Funds for services to eligible participants shall be used for the purposes of encouraging and supporting training activities which are jointly delivered by employment and training agencies and appropriate educational agencies and institutions including apprenticeship councils, or hometown plans. Funds may be used to:

(1) Expand the size of jointly delivered programs;

(2) Enhance training and services available to participants in jointly delivered programs;

(3) Assist in the planning, development and evaluation of jointly delivered programs.

§ 677.39 Vocational education activities.

(a) The Governor shall provide vocational education funds received by special grant to the State Vocational Education Board as described in § 677.34 of this Subpart D and approve the plans for expenditure of those funds.

(b)(1) The State Vocational Education Board representatives will provide the training and services detailed in a nonfinancial agreement with the prime sponsor as described in § 677.35 of this Subpart D.

(2) If no Vocational Education Board exists within a State, the Governor may provide financial assistance to an alternate agency which serves the same purpose as a State Vocational Education Board. If the Vocational Education Board refuses to participate in this program the Governor shall make alternative arrangements to provide these services.

(c) Vocational education services which may be provided by a State Vocational Education Board include, but are not limited to, basic or general education, educational programs conducted for offenders, institutional training, and supportive services. Vocational education funds under the Act may be used for the payment of allowances to participants in vocational education training and for administrative costs incurred for the vocational education programs funded under the Act.

(d) When funds for vocational education services are used for the payment of allowances to participants, the method of payment utilized must be that of the prime sponsor whose participants are receiving such allowances.

(1) Where the prime sponsor has an established delivery system for the payment of allowances pursuant to § 676.26, the State Vocational Education Board shall utilize the agency or agencies administering that system.

(2) Where the prime sponsor has no allowances payment delivery system, the method of payments shall be developed between the prime sponsor and the State Vocational Education Board subject to the requirements of § 676.26

(e) For funds for vocational education assistance, not less than 85 percent shall be used only for providing vocational education services to prime sponsor's participants in programs under the Act.

(1) Of this amount, not more than 20 percent of the funds used for such education and services may be used for administration.

(2) At least fifty percent (50%) of the vocational education funds allocated to administration shall be made available to local prime sponsor areas unless adequate justification for not doing so is provided to the RA by the Governor.

(f) Subject to the limitations specified in § 676.39 and (e) above, the remaining funds may also be used for the following activities:

(1) To coordinate programs under this Act with existing vocational education programs;

(2) To coordinate the utilization of funds under this Act with the Vocational Education Amendments of 1976 to enhance economic growth and development in the State;

(3) To develop linkages between vocational education and training programs under this Act with private sector employers;

(4) To provide technical assistance to vocational education agencies to aid them in making cooperative arrangements with appropriate prime sponsors;

(5) To provide information, curriculum materials and technical assistance in curriculum development and staff development to prime sponsors.

(g) Of the total amount provided for vocational education assistance the Governor may retain the minimum funds necessary as provided in Sec. 677.39(e)(1) or (f) to carry out his/her responsibilities under § 677.39

§ 677.40 Funding; grant administration.

(a) *Funding.* Special grants will be funded in the same way as basic grants under this Part.

(b) *Grant administration.* The requirements related to grant administration contained in Part 676 are applicable to special grants to Governors, except as provided in this Subpart. The overall 20 percent limitation on funds used for administration as set out in § 676.39 shall not apply to the special grant.

§ 677.41 Reporting.

(a) Financial and statistical reports, as described in the *Forms Preparation Handbook*, shall be submitted quarterly. In addition, an end of year narrative report will be submitted which describes achievement during the year.

(b) The following financial and statistical reports are required:

(1) A Special Grant Program Status Summary;

(2) A Special Grant Financial Status Report; and

(3) A Quarterly Summary of Participant Characteristics (QSPC). The QSPC shall be required only for participants where the State coordination and special services or educational linkages funds are utilized to fund training and employment opportunities. A QSPC shall not be required for vocational education services since all participants will be involved in a prime sponsor program and will be reported through regular quarterly reports.

(c) The Governor shall supply to each prime sponsor to which vocational education services are provided, a Special Grant Program Status Summary and a Special Grant Financial Status Report for funds expended in the prime sponsor's area and shall submit a summary Special Grant Program Status Summary and a Special Grant Financial Status Report to the RA.

(d) Each of the three reports in (b) above shall be submitted to the RA no later than 30 days after the end of the reporting period. The narrative report required under paragraph (a) shall be submitted no later than 30 days after the end of the fiscal year. Instructions for completion of these reports are in the *Forms Preparation Handbook.*

§ 677.42 Coordination with prime sponsor.

(a) The financial and statistical information from the approved Nonfinancial Agreement Program Planning Summary and Budget Information Summary shall be entered into the relevant columns of the Governor's Special Grant Program Planning Summary and Budget Information Summary. If the Governor's Special Grant Annual Plan has been signed prior to final approval of the Vocational Education Agreement, a modified Special Grant Program Summary and Budget Information Summary shall be submitted.

(b) The prime sponsor shall provide to the State Vocational Education Board a list of the participants enrolled in classroom training under the nonfinancial agreement quarterly. The list shall include names, social security numbers, date of birth and Title under which enrolled. The State Vocational Education Board shall prepare the Vocational Education Program Status Summary and submit the report to the Governor for submittal to the RA.

(c) The prime sponsor need not report the participant or financial information on the Program Status Summary or their Financial Status Report unless prime sponsor funds are also expended.

Subpart E—Transitional Employment Opportunities for the Economically Disadvantaged

§ 677.51 Purpose.

This subpart contains the regulations for transitional employment opportunities for economically disadvantaged persons under Title II, Part D of the Act. This program provides public service employment only for unemployed, economically disadvantaged persons and provides related training and services to these individuals to enable them to move into employment or training not supported under the Act. This program targets resources to those structurally unemployed persons who lack the necessary skills and/or employment experience to enable them to successfully compete in the labor market and obtain meaningful skill-developing jobs. The program combines public service employment with other employment and training activities including employability counseling and job search assistance (sec. 231).

§ 677.52 Participant eligibility.

Eligibility requirements governing this program may be found in § 675.5

§ 677.53 Activities and services.

(a) Subject to § 677.58, prime sponsors shall use funds for entry-level public service employment, including projects carried out by project applicants, or for activities authorized under § 677.13 (secs. 232(a)(1) and 234).

(b) Prime sponsors shall periodically assess each participant in relation to that participant's employability plan to determine if the participant needs additional training or services (sec. 205(b)).

(c) (1) All public service employment participants shall be given appropriate training and services, when such training and services are available from the prime sponsor or other sources in the area (sec. 232(a)(2)).

(2) Prime sponsors should combine public service employment with training and services. However, training and services may be offered before, during, or after the public service employment to which they are related.

(3) (i) Such training shall be in the form of classroom training or individualized instruction which:

(A) provides technical skills and information required to perform a specific job or group of jobs;

(B) is designed to enhance the employability of the participant in terms of upgrading basic skills (e.g., remedial education); or

(C) provides skills in job-search techniques.

(ii) Training for public service employment participants shall not be in the form of on-the-job training.

(d) Training and services conducted by program agents shall be coordinated with those conducted by the prime sponsor.

(e) Prime sponsors should work with the Bureau of Apprenticeship and Training to develop public-sector apprenticeship programs that provide training applicable to the private sector.

(f) In carrying out PSE activities, the provisions of § 676.73, relating to maintenance of effort, shall apply.

§ 677.54 Eligibility for funds.

(a) The Secretary shall provide funds only to:

(1) Prime sponsors, and

(2) Native American recipients qualified under Section 302(c)(1)(A) of the Act (sec. 606(a)).

(b)(1) Prime sponsors shall subgrant to program agents those funds allocated to the prime sponsors for use within the program agents' jurisdictions (sec. 606(b)(1)). If a program agent declines to operate a program under Title II, Part D of the Act, the prime sponsor, with the review and concurrence of the RA, shall make other arrangements to serve that jurisdiction.

(2) Program agents shall have administrative responsibility for developing, funding, overseeing, and monitoring programs within their areas, consistent with the comprehensive employment and training plan. The subgrant shall be jointly developed by the prime sponsor and the program agent (sec. 606(b)(2)).

(3) If a program agent fails to comply with paragraph (b)(2) of this section, the prime sponsor, after review and concurrence of the RA, shall ensure compliance by such action as reallocating funds to an alternative program agent to serve the area, or serving the area itself.

(4) When two or more units of general local government qualify as program agents with respect to the same area qualifying for assistance, the provisions in § 676.5(b)(2) shall apply (sec. 606(b)).

§ 677.55 Allocation of funds.

Funds shall be allocated by the Secretary in accordance with Section 233 of the Act.

§ 677.56 Annual plan subpart.

(a) *General.* To receive financial assistance under Part D of Title II of the Act, a prime sponsor shall submit the following information, which will become part of its Annual Plan.

The subpart shall consist of a Narrative Description, Program Planning Summary, Budget Information Summary, Monthly Schedule, and PSE Occupational Summary.

(b) *Narrative description.* The narrative description shall include:

(1) Objectives and needs for assistance. A breakout of the eligible population by race, sex, national origin, and age, and the planned level of services to be provided these groups in terms of the percentage each group will constitute of those to be served (sec. 103(b)(2)). Where the planned level of service to any group varies by 15 percent above or below the group's incidence in the eligible population, an explanation must be provided.

(2) *Results and benefits.* (i) Specific quantifiable performance and placement goals by program activity.

(ii) Performance and placement goals with respect to groups designated to be served (sec. 103(b)(4)).

(iii) The relationship between the prime sponsor's performance and placement goals and the Secretary's performance standards (sec. 103(b)(4)).

(iv) Non-quantifiable goals which the prime sponsor intends to achieve.

(3) *Approach.* (i) Program Activities and Services. Program activities and services to be provided, including a description of the arrangements for the provision of training and services that will assist participants in obtaining unsubsidized employment.

(ii) How the prime sponsor will provide for an orderly transition from the number of jobs funded in the current fiscal year to the number of jobs that will be funded with the allocation for the next fiscal year (sec. 602(c)).

(iii) The wages or salaries and fringe benefits for public service employment participants and a comparison of these with the wages or salaries and fringe benefits paid to persons in similar public occupations by the same employer; levels of employment not supported under the Act; layoffs, and hiring and promotional freezes in each employing agency (sec. 103(b)(10)).

(iv) The methods to be used to ensure that, at the end of the fiscal year, the annual average wage rate meets the area's required annual average wage rate, described in § 676.26.

(v) The methods to be used to determine wage rates if wage rates for com-

parable jobs have not been established.

(vi) How the public service employment program is integrated with other programs under the Act.

(4) *Delivery Agents.* A list of the selected service deliverers and the services or facilities to be provided by each (sec. 103(b)(7)).

(c) *Program Planning Summary (PPS).* A PPS reflecting the goals and activities for the program year.

(d) *Budget Information Summary (BIS).* A BIS containing the proposed budget and a list specifying the quantity and price of each piece of capital equipment exceeding $1,000 to be purchased during the fiscal year.

(e) *Monthly schedule.* A monthly schedule which contains an estimate of the total number of participants who will be enrolled in Title II, Part D programs at the end of each month and the total cumulative expenditures expected to have been incurred by the end of each month.

(f) *Public Service Employment Occupational Summary.* A Public Service Employment Occupational Summary which includes a listing, by employing agency, of proposed public service employment positions and wages and a comparison of such wages with those paid persons in similar unsubsidized jobs.

(g) *Project Data Summary.* Where PSE in projects is to be undertaken, the Project Data Summary, which provides a description of each project funded, shall be submitted to the RA within 30 days of the commencement of a project.

§ 677.57 Wages and wage supplementation.

Wages paid to public service employment participants and the supplementation of such wages shall be in accordance with § 676.26(a)(3) (sec. 237(a)).

§ 677.58 Special cost provisions.

(a) The following cost restrictions shall apply to the funds utilized by prime sponsors for project and non-project public service employment:

(1) Not more than 10 percent of the funds may be contributed to the administrative cost pool and used for administrative costs (sec. 232(b)(1)).

(2)(i) Prime sponsors shall use only for training for PSE participants not less than:

(A) 10 percent of such funds for fiscal year 1979;

(B) 15 percent of such funds for fiscal year 1980;

(C) 20 percent of such funds for fiscal year 1981;

(D) 22 percent of such funds for fiscal year 1982 (sec. 232(b)(2)).

(ii) Wages and/or allowances paid to PSE participants during the period of training in conjunction with their employment may be counted towards the percentage amounts that are required to be used for such training. Records of the wages shall be maintained separately by the prime sponsor and available for audit when the percentage amount expended for training for PSE participants is being confirmed.

(3) The remaining funds may be expended only for wages, fringe benefits, training and services to persons employed in public service employment (sec. 232(b)(3)).

(b) In addition to PSE, funds under this title may be utilized by prime sponsors for other activities as set forth in § 677.13 (sec. 234). Not more than 20 percent of the funds utilized for such activities may be contributed to the administrative cost pool and used for administrative costs.

PART 678—PUBLIC SERVICE EMPLOYMENT PROGRAMS UNDER TITLE VI

Sec.
678.1 Purpose.
678.2 Participant eligibility.
678.3 Activities and services.
678.4 Eligibility for funds.
678.5 Allocation of funds.
678.6 Annual Plan Subpart.
678.7 Wages and wage supplementation.
678.8 Special cost provisions.

AUTHORITY: Sec. 126 of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), unless otherwise noted.

§ 678.1 Purpose.

This Part contains the regulations for countercyclical public service employment under Title VI of the Act. This program provides temporary employment during periods of high unemployment when the national rate of unemployment is in excess of 4 percent. It is intended that the number of jobs funded shall be sufficient to provide jobs for 20 percent of the number of unemployed in excess of 4 percent, and, when the national rate of unemployment is in excess of 7 percent, to provide jobs for 25 percent of the number of unemployed in excess of 4 percent (sec. 601).

§ 678.2 Participant eligibility.

Eligibility requirements governing this program may be found in § 675.5.

§ 678.3 Activities and services.

(a) Prime sponsors shall use at least fifty percent of the funds received under this Part available for new hires between April 1, 1979, and September 30, 1979, for public service jobs in projects, except where the prime sponsor is, on April 1, 1979, utilizing at least fifty percent of the funds received under this Part for PSE jobs in projects and maintains a fifty percent level in projects for the remainder of the fiscal year. After September 30, 1979, prime sponsors shall use fifty percent of the funds received under this Part for PSE jobs in projects. Public service jobs in projects are not limited to entry level positions (sec. 605(a)). To the extent feasible, all public service jobs shall be provided in occupational fields which are most likely to expand (sec. 122(m)).

(b) Each prime sponsor shall establish procedures for its own use and the use of its program agents:

(1) For notifying potential project applicants of the application process and cut-off date for acceptance of project applications;

(2) For submitting, upon receipt, a copy of each project application to the prime sponsor's planning council to allow the council to submit comments and recommendations with respect to the project application.

(c) Prime sponsors and programs agents shall consider providing a substantial portion of the project funds to project applicants that are nonprofit organizations.

(d) All projects shall be planned not to exceed eighteen months from their commencement. Projects may be extended, in increments of up to 18 months, if, after a documented review of the project, the prime sponsor determines that the project has been effective. Projects may be extended for reasons such as:

(1) Expanding the geographic area of the project; or

(2) Expanding the project to serve additional persons; or

(30) Expanding the scope and design of the original project; or

(4) Continuing weatherization projects, as described in § 676.25.

(e) In addition to providing public service employment in projects, prime sponsors may utilize funds under this Part for entry-level PSE not in such projects, in accordance with § 678.8.

(f) Prime sponsors shall periodically assess each public service employment participant to determine whether the participant needs additional training, employability counseling or other services, in order to obtain unsubsidized employment. Prime sponsors shall utilize funds in accordance with § 678.8(a)(2) to provide services, such as employability counseling, including job search techniques, intensified job development, and training for public service employment participants to enable them to obtain unsubsidized employment. Such training or services provided by program agents shall be coordinated with those provided by the prime sponsor.

(g) Activities other than PSE authorized under Title II, Part A of Title III, Title IV, and Title VII may be provided in accordance with § 678.8(b) (sec. 610).

(h) Prime sponsors should work with the Bureau of Apprenticeship and Training to develop public-sector apprenticeship programs which provide training applicable to the private sector.

(i) In carrying out public service employment activities, the provisions of § 676.4 relating to maintenance of effort shall apply.

§ 678.4 Eligibility for funds.

(a) The Secretary shall provide funds only to:

(1) Prime sponsors, and

(2) Native American recipients qualified under Section 302(c)(1)(A) of the Act (sec. 606(a)).

(b)(1) Prime sponsors shall subgrant to program agents those funds allocated to the prime sponsors for use within the program agents' jurisdications (sec. 606(b)(1)). If a program agent declines to operate a program under Title VI of the Act, the prime sponsor, with the review and concurrence of the RA, shall make other arrangements to serve that jurisdication.

(2) Program agents shall have administrative responsibility for developing, funding, overseeing, and monitoring programs within their areas consistent with the comprehensive employment and training plan. The subgrant shall be jointly developed by the prime sponsor and the program agent (sec. 606(b)(2).

(3) If a program agent fails to comply with paragraph (b)(2) of this section, the prime sponsor, after review and concurrence of the RA, shall ensure compliance by such action as reallocating funds to an alternative program agent to serve the area, or serving the area itself.

(4) When two or more units of general local government qualify as program agents with respect to the same area qualifying for assistance, the provisions in § 676.5(b)(2) shall apply (sec. 606(b)(3)).

§ 678.5 Allocation of funds.

Funds shall be allocated by the Secretary in accordance with Section 604 of the Act.

§ 678.6 Annual plan subpart.

(a) *General.* To receive financial assistance under Title VI of the Act, a prime sponsor shall submit the following information which will become part of its Annual Plan. The subpart shall consist of a Narrative Description, Program Planning Summary, Budget Information Summary, Monthly Schedule, PSE Occupational Summary, and Project Data Summary.

(b) *Narrative Description.* The narrative description shall include:

(1) Objectives and needs for assistance. A breakout of the eligible population by race, sex, national origin and age, and the planned level of services to be provided these groups in terms of the percentage each group will constitute of those to be served (sec. 103(b)(2)). Where the planned level of service to any group varies by 15 percent above or below the group's incidence in the eligible population, an explanation must be provided.

(2) *Results and benefits.* (i) Specific quantifiable performance and placement goals by program activity.

(ii) Performance and placement goals, with respect to groups designated to be served (sec 103(b)(4)).

(iii) The relationship between the prime sponsor's performance and placement goals and the Secretary's performance standards (sec. 103(b)(4)).

(iv) Any non-quantifiable goals which the prime sponsor intends to achieve.

(3) *Approach.* (i) Program Activities and Services. Program actvities and services to be provided, including a description of the arrangements for the provision of training and services that will assist participants in obtaining unsubsidized employment.

(ii) How the prime sponsor will provide for an orderly transition from the number of jobs funded in the current fiscal year to the number of jobs which will be funded with the allocation for the next fiscal year (sec. 602(c)).

(iii) The extent to which the prime sponsor will supplement wages of persons other than those who were in the program on September 30, 1978, including:

(A) The maximum amounts of funds used to supplement any one particular job funded under this Part; and

(B) The total amount of funds used to supplement all jobs funded under this Part.

(iv) The wage rates or salaries and fringe benefits for public service employment participants and a comparison of these with the wages or salaries and fringe benefits paid to persons in similar public occupations by the same employer; levels of employment not supported under the Act; layoffs, and hiring and promotional freezes in each employing agency (sec. 103(b)(10)).

(v) The methods to be used to ensure that, at the end of the fiscal year, the annual average wage rate meets the area's required annual average wage rate, described in § 676.26

(vi) The methods to be used to determine wage rates if wage rates for comparable jobs have not been established.

(vii) How the public service employment program is integrated with other programs under the Act.

(4) *Delivery agents.* A list of the selected service deliverers and the services or facilities to be provided by each (sec. 103(b)(7)).

(c) *Program Planning Summary (PPS). A PPS reflecting the goals and activities for the program year.*

(d) *Budget Information Summary (BIS).* A BIS containing the proposed budget and a list specifying the quantity and price of each piece of capital equipment exceeding $1,000 to be purchased during the fiscal year.

(e) *Monthly schedule.* A monthly schedule which contains an estimate of the total number of participants who will be enrolled in Title VI programs at the end of each month, and the total cumulative expenditures expected to have been incurred by the end of each month.

(f) *Public Service Employment Occupational Summary.* A Public Service Employment Occupational Summary which includes a listing by employing agency of proposed public service employment positions and wages and a comparison of such wages with those paid persons in similar unsubsidized jobs.

(g) *Project Data Summary.* The project Data Summary provides a description of each project funded by the prime sponsor, and shall be submitted to the RA within 30 days of the commencement of a project.

§ 678.7 Wages and wage supplementation.

(a) Wages paid to public service employment participants and the supplementation of such wages shall be in accordance with § 676.26(a)(3) (sec. 608).

(b) Wages paid to public service employee hired on or after January 26, 1979, under this Title may be supplemented by additional wages from non-CETA sources only if:

(1) The total amount of funds used in any fiscal year to provide such supplemented wages does not exceed an amount equal to 10 percent of the prime sponsor's Title VI allocation for such fiscal year; and

(2) The wage supplementation to any public service employee does not exceed:

(i) ten percent of the maximum wage applicable for the prime sponsor's area; or

(ii) twenty percent of the maximum wage applicable for the prime sponsor's area in any area where the average wage (during the fiscal year preceding the beginning of the applicable fiscal year) in employment covered under Federal or State unemployment compensation laws (without regard to any limitation on the amount of such wages subject to contribution under such law) exceeds 125 percent, but does not exceed 150 percent, of the na-

tional average wage in such employment.

(c) Any public service employee hired between September 30, 1978, and January 26, 1979, receiving wages supplemented from non-CETA sources may continue to receive such wages after January 26, 1979, only if such supplementation is in accordance with the provisions in paragraph (b) above.

(d) Any person in public service employment position on September 30, 1978, receiving wages from non-CETA sources may continue to receive such wages, so long as such person remains in the same position. These wages are not subject to the limitations of paragraph (b) of this section. However, the non-CETA portion shall not be reduced if the maximum wage has been adjusted above $10,000 after September 30, 1978, as long as the incumbent participant is in this position or until the next prime sponsor budgetary cycle. (sec. 122(i)(4)(B)).

(e) Any person in public service employment on September 30, 1978, who was receiving wages on September 30, 1978, less than $10,000 may have such wages supplemented above the $10,000 from non-CETA sources after September 30, 1978, if such increase is the result of a bona-fide cost of living increase or a scheduled raise, and the person remains in the same position. These wages are not subject to the limitations of paragraph (b) above.

(f) When a public service employment participant, hired after September 30, 1978, is eligible for a promotion, a general salary increase or overtime pay, the employer shall pay from non-CETA funding sources that amount in excess of the maximum amount payable from CETA funds as well as a pro-rata share of the increased fringe benefits, unless such payments would be in violation of the limitations on public service wage supplementation contained in paragraphs 2(i) and (ii) above. If such payment would be in violation, then the participants affected must be transferred to other positions or be terminated.

§ 678.8 Special cost provisions.

(a) The following cost restrictions shall apply to the funds utilized by prime sponsors for project and non-project public service employment:

(1) At least 80 percent of such funds shall be expended for wages and fringe benefits (sec. 603(a)).

(2) At least 10 percent of such funds for fiscal year 1979, and at least 5 percent of such funds for all subsequent fiscal years, shall be expended for training and services to PSE participants employed in public service jobs under this Part (sec. 603(d)).

(3) Not more than 10 percent of such funds for fiscal year 1979, and not more than 15 percent for subsequent fiscal years, may be contributed to the administrative cost pool and used for administrative costs.

(b) The remaining funds may be used for activities authorized under Title II, Part A of Title III, Title IV and Title VII (sec. 616) not more than 20 percent of the funds utilized for such activities may be contributed to the administrative cost pool and used for administrative costs.

PART 679—PRIVATE SECTOR INITIATIVE PROGRAM

Sec.
679.1 Scope and Purpose.
679.2 Private Industry Councils.
679.3 Allocation of Funds.
679.4 Annual Plan Subpart.
679.5 Administrative Standards and Procedures.
679.6 Program Operations.

AUTHORITY: Sec. 126 of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), unless otherwise noted.

§ 679.1 Scope and purpose.

This Part contains the regulations for activities under Title VII of the Act, known as the Private Sector Initiative Program.

(a) Title VII of the Act is a demonstration title. It authorizes a variety of approaches to increase the involvement of the business community in employment and training activities under the Act.

(b) Title VII is designed to increase private sector employment and training opportunities for persons eligible under this Part.

(c) As a primary vehicle to assist prime sponsors in meeting these goals, Title VII provides for the establishment of Private Industry Councils (PIC's) which are to participate jointly with the prime sponsor in the local development and implementation of programs under this Part, and to consult with the prime sponsor on other employment and training activities.

(d) The ultimate goal of Title VII is to increase private sector employment and training opportunities under all Titles of the Act, commensurate with reduced emphasis on public and private nonprofit subsidized employment. Title VII, then, is a shift in emphasis in CETA programs from subsidized public service employment to unsubsidized private sector jobs.

(e) An important thrust of the Act is to provide for maximum feasible coordination of programs under the Act with related functions supported by the Department and by other Federal, State and local agencies. Accordingly, prime sponsors and PIC's are encouraged to work together with State and local counterparts involved in planning and operating programs through Job Service Improvement Program (JSIP) employer committees and the Bureau of Apprenticeship and Training, as well as the Economic Development Administration, Small Business Administration, Community Services Administration, and U.S. Department of Housing and Urban Development, among others, in order to increase the effectiveness of programs under this Part and under the Act in securing employment for economically disadvantaged persons (sec. 701).

(f) This Part, in conjunction with Parts 675 through 677, Subpart B, comprise the regulations for Title VII of the Act.

§ 679.2 Private Industry Councils (PIC's).

(a) *Purpose.* (1) To receive financial assistance under this Part, each prime sponsor shall establish a Private Industry Council (PIC). Its purpose shall be to increase the involvement of the business community, including small business, minority business enterprises, and labor organizations, in employment and training activities under the Act, and to increase private sector employment opportunities for economically disadvantaged persons (secs. 701 and 704(a)(1)).

(2) Given the diversity of local circumstances and the differing environments in which PIC's will operate, the structure, level of activity, and composition of PIC's may vary considerably from one prime sponsor jurisdiction to another. Title VII of the Act is designed to encourage the formulation of a local partnership between the private sector and the prime sponsor that will most effectively satisfy the labor demand needs of the business community and enhance the economic well-being of the community.

(b) *Appointment of PIC members.* Each prime sponsor shall appoint the members of the PIC. (sec. 704).

(1) *General.* (i) A majority of the PIC membership shall be representatives of industry and business (sec. 704(a)).

(ii) Ultimate decisions regarding the establishment of the PIC rest with the prime sponsor. In making such decisions, the prime sponsor shall solicit and consider the recommendations of the business and industrial community (sec. 704(a)).

(iii) Existing local councils or committees may be designated or adapted to serve as the PIC (sec. 704(a)).

(iv) In establishing a PIC, the prime sponsor should consult with business and industry, labor organizations, community-based organizations, educational agencies and institutions, the apprenticeship community, and existing councils and committees.

(v) In prime sponsor jurisdictions in which a National Alliance of Business (NAB) metro organization exists, it should be given consideration in the establishment of the PIC.

(vi) Nothing in this section is meant to give a presumptive role to any particular organization in the establishment of the PIC (sec. 704(2)(d)).

(2) *Business and industry members.* (i) The business and industry membership of the PIC shall be representative of the private for profit employment community in terms of the types of business represented (sec. 704(a)(1)).

(ii) Where possible, at least half of the industry and business representatives shall be representatives from small business. For purposes of this Part, "small business" means any private for profit enterprise employing five hundred or fewer employees (secs. 704(a)(1) and (2)).

(iii) Minority business enterprises shall be represented on the PIC, at least consistent with their representation in the business community (sec. 704(a)(1)).

(3) *Other required members.* The PIC membership shall include representation from the following:

(i) Organized labor. In appointing members from organized labor, the prime sponsor should consult State or central labor bodies, the Human Resources Development Institute (HRDI) and unions representing major occupations in the area.

(ii) Community-based organizations that have demonstrated a record of effectiveness in their relationships with the business community.

(iii) Educational agencies and institutions that provide education or vocational training oriented towards the needs of the business community.

(4) *Other members.* Prime sponsors may also appoint to the PIC other members such as representatives of persons eligible to participate in activities under this Part (sec. 704(a)(1)).

(c) *Chairperson.* (1) Prime sponsors should appoint a chairperson pro tem who shall be from the business and industrial community and who shall assist in identifying potential members and in establishment of the PIC.

(2) Once established, the PIC shall have a chairperson who shall be selected by the members of the PIC, from among the representatives of business and industry discussed in Section 679.2(b)(2) above.

(d) *Organizational position.* (1)(i) The organizational position occupied by the PIC within the overall employment and training delivery system shall be determined by the prime sponsor in consultation with the PIC.

(ii) Such position and relationship shall be designed to enable the PIC to carry out its responsibilities.

(2) To carry out its duties, the PIC should meet regularly, should appoint subcommittees to deal with particular areas of concern, and should secure either through its staff or other means, the expertise of persons in the private sector having knowledge of business practices and policies (sec. 704(c)).

(3) *PIC relationship to the prime sponsor's planning council.* (i) The activities of the PIC shall be coordinated by the prime sponsor with those of the prime sponsor's planning council, and area planning bodies in the case of State prime sponsors. The planning council shall review and comment on the Title VII plan, and otherwise operate with respect to the Title VII program in the same manner as with other prime sponsor programs.

(ii) For purposes of Title VII, the PIC shall not be subordinate in its authority to the prime sponsor's planning council.

(iii) The PIC chairperson (or designee) shall, at a minimum, serve as an ex-officio, nonvoting member of the prime sponsor's planning council, and the chairperson of the prime sponsor's planning council (or designee) shall, at a minimum, serve as an ex-officio, nonvoting member of the PIC. However, this does not preclude assigning either chairperson the status of a full voting member on the respective councils (secs. 704(a)(1) and 704(b)).

(e) *Staff.* The PIC shall be appropriately staffed. It should select or hire staff commensurate with its responsibilities. The staffing composition of the PIC shall be determined through mutual agreement between the PIC and the prime sponsor.

(1) When the PIC is a subgrantee or contractor of the prime sponsor it shall hire its own staff in a manner consistent with that status and with the terms of the subgrant or contract.

(2) If the PIC is other than a subgrantee or contractor, it shall be consulted by the prime sponsor on the matter of its staffing. To the extent possible, consistent with applicable personnel rules, the PIC should be party to decisions on staff selection or hiring.

(f) *PIC's that serve more than one prime sponsor area.* Because business and industry typically draw upon the labor supply of a broad geographical area without regard to jurisdictional boundaries, prime sponsors are encouraged to join together to form PIC's that serve labor market areas. Additionally, an established PIC serving one prime sponsor jurisdiction may extend its functions to cover additional prime sponsor areas, pursuant to arrangements and agreements between the prime sponsors involved and the PIC. Such arrangements will serve to lessen the degree of duplication of activity in developing and utilizing labor market information, in soliciting participation in training programs, and in job development activities. Accordingly, financial incentives may be provided to prime sponsors that make such arrangements, as discussed in Section 679.3(b)(2) (sec. 704(a)(1)).

(g) *Functions of the PIC.* The prime sponsor and the Private Industry Council shall determine those functions that the PIC will perform, based upon local conditions, the interests of the private sector, and the needs of the community. The PIC shall serve as an intermediary to assist the local employment and training structure to become more responsive to the business community. Those functions include the following, among others:

(1) *General.* (i) the PIC shall be a primary vehicle of the prime sponsor for redirecting employment and training activities under the Act from public and private non-profit subsidized employment of CETA participants to permanent unsubsidized positions in the private sector.

(ii) The PIC shall serve as the business and industry contact point in the local employment and training system, to present the private sector's views and recommendations for making programs more responsive to local employment needs.

(iii) The PIC shall advise and provide direction to the local employment and training system on ways to increase private sector job placements for persons eligible under this Part (secs. 701 and 704(c)).

(2) *Planning and coordination.* (i) The PIC shall, in conjunction with the prime sponsor, design and develop the Title VII program and subpart to the prime sponsor's Annual Plan (sec. 703(b)).

(ii) In designing the plan, and on a continuing basis, the PIC shall analyze private sector job opportunities, including estimates by occupation, industry, and location. The analysis should survey employment demands in the private sector and training possibilities, such as apprenticeship, in order to develop projections of short and long range labor needs, and to refine employment and training programming so that it becomes increasingly responsive to private sector labor needs. In undertaking such analysis, the PIC should assess and utilize information contained in economic development plans for the area and currently available labor market information from sources already in place, such as the State Employment Security Agency (SESA) (sec. 703(b)(3)).

(iii) The PIC should, in conjunction with the prime sponsor, develop specific private sector employment and training projects.

(iv) The PIC should, in conjunction with the prime sponsor, develop standards for the types of occupations to be selected for the expenditure of training funds.

(v) The PIC should, in conjunction with the prime sponsor, develop stand-

V 4 4 - 1 4

ards and specification for training in particular occupations.

(vi) In designing the plan, the PIC and prime sponsor should, to the extent possible, ensure that the plan is consistent with plans, funding applications and grants for programs related to private sector employment and training which are funded by other Federal agencies. For planning purposes and to coordinate PIC activities with activities under other related Federal programs, the PIC should where possible review and comment on such plans and funding applications (including those of the Economic Development Administration, Department of Housing and Urban Development, Small Business Administration and Community Services Administration) (secs. 103(a)(20), 704(c) and 705(a)(4)).

(vii) The PIC shall have the opportunity to review and comment on other Annual Plan subparts under the Act (sec. 704(c)).

(3) *Operational functions.* (i) The PIC should actively solicit public and private support for and participation in the Private Sector Initiative Program and other programs and activities designed to increase private sector employment and training opportunities for persons who are economically disadvantaged.

(ii) The PIC should market and disseminate information on the Targeted Jobs Tax Credit, created by the Revenue Act of 1978 (P.L. 95-600), and the WIN tax credit.

(iii) The PIC should, pursuant to the provisions of Section 676.23(f), enter into cooperative written agreements with the SESA, JSIP Committees, and other private sector intermediaries in order to carry out its responsibilities.

(iv) The PIC may receive funds to administer and directly operate local private sector employment and training programs. Such an operational function may involve directly marketing on-the-job and other training agreements with private employers, developing training programs, entering into contracts with private firms, community-based organizations, and educational agencies and institutions, and other related activities.

(v) Organizations represented on the PIC may be directly involved in the operation of employment and training programs funded under this Part, consistent with the conflict of interest provisions of Section 679.2(i).

(vi) The PIC may, in consultation with the prime sponsor and in accordance with section 676.37(e), develop criteria for the selection of any nongovernmental organization, association, firm or other entity for the conduct of programs or activities under this Part (secs. 121(o) and 704(c)).

(4) *Monitoring and evaluation.* (i) The PIC shall, in consultation with the prime sponsor, develop standards to monitor activities under this Part. Programs under this Part are also subject to the prime sponsor monitoring responsibilities of Section 676.76 (sec. 704(c)).

(ii) The PIC may, in consultation with the prime sponsor, identify the factors to be addressed in an evaluation or assessment of activities under this Part.

(iii) In consultation with existing groups, such as Job Service Improvement program employer committees and prime sponsor's planning and youth councils, the PIC may examine the performance of the local CETA and SESA delivery system to determine how to better meet the needs of business and industry and increase private sector employment opportunities for the economically disadvantaged, and advise the prime sponsor and the SESA of its observations and recommendations (sec. 704(c)).

(5) Nothing in this section is intended to limit the functions of the PIC, with respect to assisting the prime sponsor to improve the responsiveness of employment and training programs to employment opportunities in the private sector. The business community should be involved in determining the functions of the PIC so that these will be responsive to the needs and interests of business and industry.

(h) *Accountability.* The Department holds the prime sponsor accountable for activities conducted and funds expended under this Part. The PIC, in working with the prime sponsor to develop activities under this Part, must recognize the prime sponsor's ultimate liability for such activities. The PIC and the prime sponsor are thus both responsible for program performance, and the Department will take the PIC's performance of its functions into account in conducting the annual Title VII performance assessment. Additionally, where the PIC is a contractor or subgrantee of the prime sponsor, it is financially liable to the prime sponsor for funds received.

(i) *Conflict of interest.* (1) While the members of the PIC must vote on whether they concur in the overall Title VII Annual Plan Subpart, no member may vote on any portion of the plan or on any contract or subgrant in contravention of Section 676.62(a) (sec. 121(h)(2)).

(2) Prime sponsors may provide broad administrative responsibility to the PIC, including the authority to enter into contracts and subgrants. However, contracts between the PIC and private organizations with which PIC members are associated shall be subject to the final approval of the prime sponsor.

§ 679.3 Allocation of funds.

(a) *Prime sponsor basic allocations.* Ninety-five percent of funds available under Title VII of the Act shall be allocated to prime sponsors as provided in Section 202 of the Act except that:

(1) In order to ensure that every prime sponsor receives an allocation of sufficient size to mount a viable program, a minimum allocation level may be established; and

(2) In the case of Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and the Northern Marianas, these shall be allocated the same percentage of Title VII funds as the percentage of Title II Parts A, B and C funds allocated to them.

(b) *Other allocations.* The remaining five percent of the funds shall be allocated in the following manner:

(1) *Assistance to Native American entities.* No less than two percent of the total funds available under Title VII of the Act will be used to support Title VII programs for Native American entities described in Sections 302(c) (1) (A) and (B) of the Act.

(2) *Assistance to prime sponsors who join together to establish a single Private Industry Council.* Additional funds shall be provided to prime sponsors who join together to establish a single Private Industry Council that serves a substantial portion of a functioning labor market area, as determined by the Secretary. Included may be:

(A) Existing consortia which qualify for incentive funds under Section 676.4(c);

(B) Two or more prime sponsors establishing a PIC that serves at least 75% of a functioning labor market area; and

(C) To the extent that funding is available, other combinations of prime sponsors forming a single PIC, based on the degree of coverage of the functioning labor market area (sec. 702(b)).

(c) Funds may be reallocated pursuant to the provisions of Section 676.47 (sec. 108).

§ 679.4 Annual plan subpart.

(a) *General.* To receive financial assistance under this Part, a prime sponsor shall submit the following information, which will become part of the Annual Plan as described in Section 676.11. This subpart shall consist of a Narrative Description, Program Planning Summary, and Budget Information Summary, specific to Title VII (sec. 103.(b)).

(b) The prime sponsor shall transmit a copy of the Title VII Annual Plan subpart to the prime sponsor's planning council, to appropriate labor organizations, community-based organizations, educational agencies and institutions, Overall Economic Development Program committees and to such other parties as are required by Section 676.12(d). The comment and publication procedures of Section 676.12 apply to this Part (secs. 703 (b) (4) and (5)).

(c) The Annual Plan Subpart shall have the concurrence of both the PIC and the prime sponsor in order to be approved. Therefore, the PIC chairperson as well as the prime sponsor shall sign the Annual Plan Subpart.

(d) *Narrative description.* The Narrative Description shall include:

(1) *Objectives and need for assistance.* (i) State the objectives and need for funding under this Part, including an identification of private sector occupations where there are labor shortages, and discuss how activities will be integrated with other training and placement activities under the Act (sec. 703(a)).

(ii) Analyze the eligible population by race, sex, national origin and age, and present the planned levels of service to be provided these significant segments in terms of the percent each group will constitute of those to be served. Where the planned level of service to any group varies by more than 15 percent below the group's incidence in the eligible population, an explanation must be provided.

(2) *Results and benefits.* Provide a statement on:

(i) Specific quantified performance and placement goals, by program activity.

(ii) Any performance and placement goals with respect to groups designated to be served.

(iii) Explain any variation between such performance and placement goals and the Secretary's performance standards (sec. 103(b)(4)).

(iv) Any nonquantifiable goals or outcomes.

(3) *Approach.* Provide a description of:

(i) The specific activities to be conducted.

(ii) The procedures and standards to be used for the selection of occupations in which training is to be provided.

(iii) The system that will be used to monitor and evaluate the success of activities, including a description of the role of the PIC in monitoring and evaluating.

(4) *Private Industry Council (PIC).* Provide the following:

(i) The responsibilities assumed and the functions to be performed by the Private Industry Council in the planning, operation and review of programs.

(ii) The procedures used to assure that meetings are held on a regular basis, that they are publicly announced, open and accessible to the general public, and that minutes are maintained.

(iii) The procedures used to select members of the PIC.

(iv) A list of the PIC membership indicating representation from among those membership categories identified in § 679.2(b).

(v) Staffing arrangements for support of the PIC agreed upon by the PIC and the prime sponsor.

(vi) A description of procedures established to ensure periodic consultation and coordination of activity between the PIC and the prime sponsor's planning council and other appropriate agencies in the labor market area.

(e) *Program Planning Summary (PPS).* The PPS reflects the goals, objectives and activities planned under Title VII for the program year.

(f) *Budget Information Summary (BIS).* The BIS contains the planned budget under Title VII for the program year.

§ 679.5 Administrative standards and procedures.

(a) *General.* The provisions of section 676 shall apply except as otherwise indicated.

(b) *Prime sponsors who join together to establish a single Private Industry Council.* Special provisions for prime sponsors who join together to establish a single PIC, including reporting requirements, are discussed in the *Forms Preparation Handbook.*

(c) *Allowable costs and cost allocation.* The provisions of §§ 676.40 and 676.41 shall apply to programs under Title VII except as follows:

(1) *Employment generating services.* (i) For Title VII only, costs for activities which are not directly related to the immediate provision of training or employment for participants but which are intended to result in the creation or expansion of employment opportunities for persons eligible under this Part are to be classified as employment generating services and shall be charged to the "Services" cost category. Examples are:

(A) Those items enumerated in paragraphs (b)(2) (i), (ii), (iii), (iv), (vi), (vii), (ix), (x), (xii), (xiii), (xiv), and (xv) of Section 679.6.

(B) The costs for the salaries and fringe benefits of labor market and program analysts, consultants under contract for employment generating services, and the costs for technical assistance to contractors and subgrantees.

(ii) While such activities are allowable and desirable under Title VII, no more than 50 percent of a prime sponsor's Title VII funds may be used for employment generating services.

(iii) The program activity against which the costs for employment generating services are to be allocated is "Other Activities" described in § 676.41(f)(6).

(iv) No costs attributable to the general administration of the Title VII program shall be charged to the "Services" cost category.

(2) *Administrative costs.* (i) For purposes of Title VII, administrative costs are those costs which fall within the category of administration as defined in §§ 676.40(e)(7), 676.41(d)(6), exclusive of employment generating services.

(ii) The total amount of administrative costs incurred by all prime sponsors in carrying out programs under this Part shall not exceed 20 percent of the total cost of carrying out all prime sponsor programs. Each prime sponsor and PIC must make every effort to limit administrative costs to only those that are necessary to assure the effective operation of programs under this Part. If the prime sponsor and PIC determine that more than 20 percent is necessary to operate the planned program, a higher amount may be requested by providing a satisfactory explanation of the need for such amount in the Title VII Annual Plan Subpart. The special needs of urban and rural areas and other relevant factors shall be considered by the RA in reviewing requests for administrative costs in excess of 20% (sec. 705(b)).

(iii) It is recognized that initial startup and implementation of programs under this Part may require administrative expenditures greater than those necessary for the operation of established programs. Thus, it is anticipated that it will subsequently become possible for administrative costs to be reduced such that they are brought to a more appropriate level of 10%. Prime sponsors and PIC's should therefore plan to reduce administrative costs to no more than 10% in subsequent fiscal years.

(3) Payments to private-for-profit employers through methods not specifically authorized under Parts 676 through 677, Subpart B shall not be allowable unless and until the method of payment is explained in advance and authorization for its use is specifically granted. Prime sponsors shall transmit to the RA requests to permit such new payment methods. The RA shall transmit such requests, with comments and recommendations, to the Assistant Secretary for Employment and Training. The final decision shall be made within 60 days after the prime sponsor's submission of a request to the RA. Nothing in this paragraph authorizes wage subsidies (sec. 703(c)).

JAN 19 79 UMI

V 4 4 / 1 4

§ 679.6 Program operations.

(a) *Eligibility.* Eligibility requirements governing this program may be found in § 675.5.

(b) *Allowable activities.* Funds shall be used to provide employment and training and related activities consistent with the purposes of Title VII including:

(1) Activities authorized in Part 677, Subpart B, and

(2) The following:

(i) Coordinating programs of jobs and training and education enabling individuals to work for a private employer while attending an education or training program;

(ii) Developing a small business intern program to provide a practical training enabling youths and other individuals to work in small business firms to acquire first-hand knowledge and management experience about small business;

(iii) Developing relationships between employment and training programs, educational institutions, and the private sector;

(iv) Developing useful methods for collecting information about Federal Government procurement contracts with private employers, new and planned publicly supported projects such as public works, economic development and community development programs, transportation revitalization, alternative energy technology development, demonstration, and utilization projects, energy conservation projects, and rehabilitation of low income housing as part of a community revitalization or stabilization effort, which provide work through private sector contractors;

(v) Conducting innovative cooperative education programs for youths in secondary and postsecondary schools designed to coordinate educational programs with work in the private sector;

(vi) Developing and marketing model contracts designed to reduce the administrative burden on the employer and model contracts to meet the needs of specific occupations and industries;

(vii) Coordinating programs under this Part with other job development, placement, and employment and training activities carried out by public and private agencies;

(viii) Providing on-the-job training subsidies on a declining ratio to wages over the period of training;

(ix) Providing followup services with employees placed in private employment and employers who hire recipients of services under the Act,

(x) Encouraging employers to develop job skill requirement forecasts and to coordinate such forecasts with prime sponsors;

(xi) Using direct contracts for training and employment programs with private for profit and private nonprofit organizations;

(xii) Developing apprenticeship or comparable high-skill training programs for workers regardless of age in occupations where such programs do not exist presently in the area;

(xiii) Increasing opportunities for upgrading from entry level jobs by providing counseling and other services to employees and employers beyond initial training periods;

(xiv) Providing technical assistance to private employers to reduce the administrative burden of employment and training programs;

(xv) Disseminating information to private employers so that they may more fully utilize programs under the Act; and

(xvi) Other program activities which demonstrate effective approaches to the training and employment of persons eligible to participate in programs under this Part (sec. 705(a)).

Signed at Washington, D.C., the 16th day of January 1979.

RAY MARSHALL,
Secretary of Labor.

FRIDAY, JANUARY 19, 1979
PART X

DEPARTMENT OF ENERGY

ELECTRIC AND HYBRID VEHICLE RESEARCH DEVELOPMENT AND PRODUCTION

Loan Guaranties

[6450-01-M]

DEPARTMENT OF ENERGY

[10 CFR Part 791]

ELECTRIC AND HYBRID VEHICLES

Research, Development, Demonstration, and Production Loan Guaranties

AGENCY: Department of Energy.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Energy proposes to amend its regulations on Electric and Hybrid Vehicle Research, Development, Demonstration, and Production Loan Guaranties in order to implement certain amendments to the Electric and Hybrid Vehicle Research, Development and Demonstration Act of 1976 contained in the Department of Energy Act of 1978—Civilian Applications, including the offering of principal as well as interest assistance and the establishment of the Electric and Hybrid Vehicle Development Fund. Written comments will be received and a public hearing will be held with respect to this proposal.

DATES: Written comments must be received by 4:30 p.m. e.s.t. on March 20, 1979. The public hearing will be held on February 20, 1979. Requests to speak at the hearing must be received by 4:30 p.m. e.s.t. on February 14, 1979, and speakers will be notified by February 16, 1979. Written copies of a speaker's statement must be received by 4:30 p.m. e.s.t. on February 19, 1979.

ADDRESSES: Send written comments and requests to speak to Public Hearing Management, Department of Energy, 2000 M Street, N.W., Room 2313, Box VO, Washington, D.C. 20461. Send copies of speaker's statement, as provided below, to Room 1214, 20 Massachusetts Avenue, N.W., Washington, D.C. 20545. The public hearing will be held at 9:30 a.m. e.s.t. on February 20, 1979, in Room 3000A, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Anthony H. Ewing (Program Office), U.S. Department of Energy, Office of Conservation and Solar Applications, 20 Massachusetts Avenue, N.W., Washington, D.C. 20545, (202) 376-4747.

Pamela M. Pelcovits (Office of General Counsel), 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, (202) 633-8788.

Vivian Sande (Media Relations), 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, (202) 633-9385.

SUPPLEMENTARY INFORMATION:

I. Background

On May 9, 1978, the Department of Energy (DOE) issued final regulations establishing policies and procedures for loan guaranties by which lenders, as well as borrowers, may participate in accelerating the development and production of electric and hybrid vehicles (43 FR 20476, May 12, 1978). These regulations were intended to provide for the implementation of section 10 ("Loan Guaranties") of the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976 (EHV Act) (Pub. L. 94-413, 15 U.S.C. 2501 *et seq.*).

Section 603 of the Department of Energy Act of 1978—Civilian Applications (DOE Act) (Pub. L. 95-238) has amended section 10 of the EHV Act in several respects. Accordingly, DOE proposes to amend its regulations in order to conform the regulations, as appropriate, to the amendments to section 10.

II. Proposed Amendments

Section 603(a)(1) of the DOE Act amended the EHV Act by adding at the end of section 10(e) provisions establishing the Electric and Hybrid Vehicle Development Fund. This fund is available for carrying out the loan guaranty principal and interest assistance program authorized by the EHV Act, as amended. DOE proposes to amend 10 CFR Part 791 by adding a new section, 791.41A, "Electric and Hybrid Vehicle Development Fund."

Section 603(a)(2) of the DOE Act amended section 10 of the EHV Act by adding a new subsection (j) which pledges the full faith and credit of the United States to the payment of all obligations incurred under section 10. DOE proposes to amend §791.1 in order to reflect this pledge by adding after the words "Federal guaranty" the words "backed by the full faith and credit of the United States."

Section 10(g) of the EHV Act has been amended by section 603(b) of the DOE Act. Section 10(g)(1), as enacted, authorized the Secretary to enter into a contract to pay the lender, on behalf of the borrower, the interest charges which become due and payable on the unpaid balance of any loan guarantied pursuant to section 10 if the Secretary made certain findings. Section 10(g)(2) authorized the Secretary to make payment in the event of a default on a guarantied loan, and authorized the Attorney General to take appropriate action to recover the amount of these payments (including any interest payment under (g)(1)) from certain assets and surety of the borrower. Section 603(b) of the DOE Act amended section 10(g) to authorize the Secretary to enter into a contract to pay the lender principal, as well as interest charges, and to authorize the Attorney General to recover principal, as well as interest payments. DOE proposes to amend §791.10, which provided for the implementation of section 10(g), to conform to the amendments to that section by adding the words "principal and" before the word "interest" in the appropriate places. DOE also proposes to amend §791.11, §791.32, and §791.37 in the same manner so that these sections, which referred to "interest assistance," will now refer to "principal and interest assistance."

Section 603(c) of the DOE Act amended section 10(h) of the EHV Act by extending by two years the date for making loan guaranties or entering into assistance contracts. DOE proposes to amend §791.12 to provide for this extension.

DOE also proposes to amend §791.9, in which the EHV Act is referenced, and the authority for Part 791, in order to make these references reflect the fact that the EHV Act has been amended.

III. Opportunities for Public Comment

A. *Written Comments.* Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the amendments to Part 791 set forth in this notice to: Department of Energy, Public Hearing Management, Room 2313, Box VO, 2000 M Street NW., Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on the documents submitted to DOE with the designation "Electric and Hybrid Vehicle Research, Development, Demonstration, and Production Loan Guaranties." Fifteen (15) copies should be submitted. All comments received by DOE by 4:30 p.m. e.s.t. on (60 days from publication), and all other relevant information, will be considered before final action is taken on the proposed amendments.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted on writing, one copy only. DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

B. *Public Hearing.* The public hearing will be held at 9:30 a.m. e.s.t., on February 20, 1979, in Room 3000A, 1200 Pennsylvania Avenue NW., Washington, D.C.

Any person who has an interest in this proceeding or who is a representative of a group of persons that has an interest in this proceeding may make a written request for an opportunity to make an oral presentation. Such a request should be directed to DOE at the address given at the beginning of this preamble, and must be received before 4:30 p.m. e.s.t., on February 14, 1979. A request may be hand-delivered between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Requests should be marked as for written comments, with the additional notation "Request To Speak."

The person making the request should briefly describe the interest concerned, if appropriate, state why she or he is a proper representative of a group of persons that has such an interest, and give a concise summary of the proposed oral presentation and a phone number where she or he may be contacted through February 16, 1979. Each person selected to be heard will be notified by DOE before 4:30 p.m. e.s.t., February 16, 1979. Each person selected to be heard must submit 15 copies of her or his statement to the address given above before 4:30 p.m. e.s.t., February 19, 1979. In the event that any person wishing to testify cannot provide 15 copies, alternative arrangements can be made with the hearing coordinator in advance of the hearing by so indicating in the letter requesting an oral presentation or by calling Anthony Ewing at (202) 376-4747.

C. *Conduct of Hearing.* DOE reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

A DOE official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked of speakers only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by DOE with respect to the subject matter of the hearing will be based on all information available to DOE. At the conclusion of all initial oral statements at the hearing, each person who has made an oral statement will be given the opportunity, if she or he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked by those conducting the hearing of any person making a statement. Questions should be received at the address given for written comments before 4:30 p.m. e.s.t., February 19, 1978. DOE will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any person making an oral statement who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The presiding officer will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by DOE and made available for inspection at DOE Freedom of Information Office, Forrestal Building, Independence Avenue and L'Enfant Plaza SW., Washington, D.C. 20585, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

IV. Significance Review

It has been determined that the proposed amendments are significant, as that term is used in Executive Order (E.O.) 12044 and amplified in the DOE procedures for developing Department of Energy regulations. This determination is based upon the importance of the amendments extending the program for two years and authorizing principal assistance under certain circumstances, and upon an appreciation of the importance of the overall electric and hybrid vehicle program in encouraging the development of alternative means of transportation.

It has been further determined that this regulatory action is not likely to have a major impact, as defined by Executive Order (E.O.) 12044 and the DOE procedures governing the development of regulations; consequently, no regulatory analysis will be prepared in this instance.

(Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976, Pub. L. 94-413, as amended by the Department of Energy Act of 1978—Civilian Applications, Pub. L. 95-238; Energy Reorganization Act of 1974, Pub. L. 93-438; Department of Energy Organization Act, Pub. L. 95-91; E.O. 12009 (42 FR 46267); E.O. 12044 (43 FR 12661, 43 FR 18634)).

In consideration of the foregoing, it is proposed to amend Part 791 of Chapter III of Title 10 of the Code of Federal Regulations as set forth below.

Issued in Washington, D.C., January 15, 1979.

Omi Walden,
Assistant Secretary, Conservation and Solar Applications.

Chapter III of Title 10, Code of Federal Regulations, Part 791 is amended as follows:

1. §791.1 is revised to read as follows:

§791.1 Purposes.

The purpose of this regulation is to set forth policies and procedures under which lenders may obtain a Federal guaranty backed by the full faith and credit of the United States on loans to qualified borrowers for purposes related to the research, development, demonstration, and commercial production of electric or hybrid vehicles in an environmentally acceptable manner.

2. §791.9 is amended in paragraph (1) to read as follows:

§791.9 Loan guaranty criteria.

* * * * *

(1) The amount of the guaranty on any loan shall not exceed $3,000,000 principal unless the Secretary finds that a higher guaranty level for specific loan guaranties is necessary in order to carry out the purposes of Pub. L. 94-413, as amended by Pub. L. 95-238;

* * * * *

3. §791.10 is revised to read as follows:

§791.10 Principal and interest assistance.

With respect to any loan guarantied pursuant to the regulation, the Secretary may enter into a principal and interest assistance contract with the borrower to pay the lender, on behalf of the borrower, the principal and interest charges which become due and payable on the unpaid balance of any such loan if the Secretary finds:

(a) That the borrower is unable to meet principal and interest payments, and that it is in the public interest to permit the borrower to continue to pursue the purposes of the project, and that the probable net cost to the Federal Government in paying such principal and interest will be less than that which would result in the event of a default;

(b) That the amount of such principal and interest charges which the Secretary is authorized to pay is no greater than the amount of principal and interest which the borrower is obligated to pay under the loan agreement; and

(c) That the borrower has agreed to repayment of principal and interest charges paid by the Federal Government, to the payment of any deferred user charge as provided in §791.32, "User charge," and to the payment of interest on such principal, interest, and deferred user charges at an annual rate to be set by the Secretary and as stated in the principal and interest assistance contract.

4. §791.11 is revised to read as follows:

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 / 1 4 J A 1 9 7 9 UMI

§ 791.11 Default payment.

In the event of default by a borrower, as defined in paragraph (b) of § 791.3, "Definitions," with respect to any loan guaranteed pursuant to this regulation, and except as provided in § 791.10, "Principal and interest assistance," and paragraph (b) of § 791.31, "Loan servicing by lender," the Secretary will, as provided in § 791.37, "Default and demand," make payment of principal and accrued interest in accordance with the terms and conditions of the guaranty contract. Thereupon, the Attorney General of the United States shall take such action as deemed necessary to recover the amounts of such payments including any obligations under paragraph (c) of § 791.10, "Principal and interest assistance," from such assets of the defaulting borrower as are associated with the project or as specified in the guaranty agreement. This includes patent and proprietary rights resulting from the project as provided in § 791.44, "Patent and proprietary rights," or from any other surety, security, collateral, guaranty, asset, or bond included in the terms of the guaranty. Any recovery achieved by the Attorney General, which exceeds the cost of recovery amounts included in paragraph (c) of § 791.10, "Principal and interest assistance," and the amount paid to the lender including principal and interest on any nonguarantied portion, in accordance with the guaranty agreement or principal and interest assistance contract, shall be returned to the borrower, unless the guaranty agreement provides otherwise.

5. § 791.12 is revised to read as follows:

§ 791.12 Period of guaranties and principal and interest assistance.

No loan guaranty agreements will be made, or principal and interest assistance contracts entered into, after September 17, 1983. Guaranty agreements in effect at that time will continue until the term of the loan is completed or until the guarantied portion of the loan is repaid in full with accrued interest, whichever occurs first. Principal and interest assistance contracts in effect on that date will remain in effect thereafter until the contract term expires or the contract is terminated in accordance with its provisions.

6. § 791.32 is revised to read as follows:

§ 791.32 User charge.

User charges imposed on the guaranteed portion of the loan are computed at a rate of one percent per annum on the estimated outstanding balance. Payments of the user charge will be made by the lender at the time each disbursement is made and annually on the anniversary date of closing, or at other intervals to be determined by the Secretary. The user charge will be collected from the lender and used for the purposes of defraying the cost of administration and possible Federal loss associated with the program. The user charge may be passed from the lender to the borrower, and, in such instances, may be included in the aggregate net cost. If principal and interest assistance is in effect, payments of this charge, if passed from the lender to the borrower, may be deferred for the term of the principal and interest assistance contract.

7. § 791.37 is amended in paragraph (a) to read as follows:

§ 791.37 Default and demand.

• • • • •

(a) The Secretary shall, pursuant to the provisions of § 791.10, "Principal and interest assistance," determine whether a principal and interest assistance contract shall be executed. In the event that principal and interest assistance is not warranted, the Secretary shall so notify the borrower and the lender. The lender shall make available without delay such documents and certifications as the Secretary may reasonably require, evidencing the lender's compliance with notification provisions of the guaranty agreement.

• • • • •

8. A new section, § 791.41A, is added to read as follows:

§ 791.41A Electric and hybrid vehicle development fund.

(a) As provided in section 603(a)(1) of Pub. L. 95-238, there is established in the Treasury of the United States an Electric and Hybrid Vehicle Development Fund (hereinafter referred to as the fund), which is available to the Secretary in carrying out the loan guaranty and principal and interest assistance program, including the payment of administrative expenses incurred in connection therewith.

(b) That part of the amounts appropriated pursuant to section 16 of Pub. L. 94-413, as amended by Pub. L. 95-238, as the Secretary deems necessary to carry out the purposes of the program and any amounts which may be returned to the United States pursuant to § 791.11 shall be paid into the fund.

(c) Moneys in the fund not needed for current operations may, with the approval of the Secretary of the Treasury, be invested in bonds or other obligations of, or guaranteed by, the United States.

(d) The amounts in the fund shall remain available until expended, except that after September 17, 1983, such amounts in the fund which are not required to secure outstanding guaranty obligations shall be paid into the general fund of the Treasury of the United States.

(e) If at any time the moneys available in the fund are insufficient to enable the Secretary to discharge his responsibilities under the program, he shall issue, to the Secretary of the Treasury, notes or other obligations in such forms and denominations bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Secretary of the Treasury. This borrowing authority shall be effective only to such extent or in such amounts as are specified in appropriation acts. Such authority shall be without fiscal year limitation. Redemption of such notes or obligations shall be made by the Secretary from appropriations or other moneys available for the program. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, which shall not be less than a rate determined by taking into consideration the average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes or other obligations issued hereunder, and for that purpose he is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under that act are extended to include any purchase of such notes or obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

(f) Business-type financial reports covering the operations of the fund shall be submitted to the Congress by the Secretary annually upon the completion of the appropriate accounting period.

9. The Authority of 10 CFR Part 791 is amended to read as follows:

(Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976, Pub. L. 94-413, as amended by the Department of Energy Act of 1978—Civilian Applications, Pub. L. 95-238; Energy Reorganization Act of 1974, Pub. L. 93-438; and Department of Energy Organization Act, Pub. L. 95-91, E.O. 12009 (42 FR 46267).)

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

AFFIRMATIVE ACTION GUIDELINES

Technical Amendments to the Procedural Regulations

[6570-06-M]

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1608—AFFIRMATIVE ACTION APPROPRIATE UNDER TITLE VII OF THE CIVIL RIGHTS ACT OF 1964, AS AMENDED

Adoption of Interpretative Guidelines

AGENCY: Equal Employment Opportunity Commission.

ACTION: Adoption of final Guidelines on Affirmative Action appropriate under Title VII of the Civil Rights Act of 1964, as amended.

SUMMARY: The Equal Employment Opportunity Commission wishes to encourage voluntary action to eliminate employment discrimination, and hereby publishes its final Guidelines on Affirmative Action. Proposed Guidelines were published on December 28, 1977 (42 FR 64,826) for public comment. The Commission has now analyzed those comments and taken them into consideration in preparing its final Guidelines. The Preamble, below, describes the Commission's purpose for issuing these Guidelines and explains how the issues raised by the comments have been addressed. These Guidelines clarify the kinds of voluntary actions that are appropriate under Federal law. They describe the action the Commission will take when the procedures outlined herein have been followed. By elucidating the standards for voluntary action in these Guidelines, the Commission encourages affirmative action without resort to litigation.

EFFECTIVE DATE: February 20, 1979.

FOR FURTHER INFORMATION CONTACT:

Peter C. Robertson, Director, Office of Policy Implementation, Room 4002A, 2401 E Street, N.W., Washington, D.C. 20506, (202) 254-7469, 634-7060

SUPPLEMENTARY INFORMATION:

An Overview of the Guidelines on Affirmative Action

The Equal Employment Opportunity Commission ("EEOC", "the Commission") enforces Title VII of the Civil Rights Act of 1964, as amended, ("Title VII," "the Act"), which makes it illegal to discriminate in employment on the basis of race, color, religion, sex, or national origin. The Act requires the Commission to investigate complaints and attempt to correct violations it discovers, informally and through conciliation, or, if necessary, through court action. The Act also authorizes private individuals to bring lawsuits if their complaints are not resolved to their satisfaction or within the statutory time period.

Since the enactment of Title VII of the Civil Rights Act of 1964, many employers, labor organizations, and other persons subject to the Act have altered employment systems to implement the purposes of Title VII by improving employment opportunities for previously excluded groups. Because of what Congress has called the "complex and pervasive" nature of systemic discrimination against minorities and women (see H.R. Rep. No. 92-238, 92nd Cong., 2nd Sess. 8 (1972)), these voluntary efforts often involve significant changes in employment relationships. Some of these actions have been challenged under Title VII, as conflicting with statutory language requiring that employment decisions not be based on race, color, religion, sex, or national origin considerations. Accordingly, the Commission believes it is important to announce the legal principles which govern voluntary affirmative action under Title VII and other employment discrimination laws, so that persons subject to the Act have appropriate guidance. These Guidelines constitute the Commission's interpretation of Title VII, harmonizing the need to eliminate and prevent discrimination and to correct the effects of prior discrimination with the need to protect all individuals from discrimination on the basis of race, color, religion, sex, or national origin.

Requests for guidance have been received by the Commission from persons subject to Title VII concerning the relationship between affirmative action and so-called "reverse discrimination." There is no separate concept under Title VII of "reverse discrimination." Discrimination against all individuals because of race, color, religion, sex, or national origin is illegal under Title VII. *McDonald* v. *Sante Fe Trail Transportation Co.*, 427 U.S. 273 (1976).

To clarify the relationship between affirmative action and a countervailing claim of discrimination, a new section 1608.1 of these Guidelines sets forth the historical and legislative foundation for the Commission's interpretation of Title VII. Section 1608.1(b) explains that Congress enacted Title VII in order to overcome the effects of past and present employment practices which are part of a larger pattern of restriction, exclusion, discrimination, segregation and inferior treatment of minorities and women in many areas of life. Congress sought to accomplish this objective by establishing a national policy against discrimination in employment and encouraging voluntary affirmative action to eliminate barriers to equal employment opportunity. It is the Commission's interpretation that appropriate voluntary affirmative action, or affirmative action pursuant to an administrative or judicial requirement, does not constitute unlawful discrimination in violation of the Act.

It is essential to the effective implementation of Title VII that those who take appropriate voluntary affirmative action receive adequate protection against claims that their efforts constitute discrimination. The term affirmative action means those actions appropriate to overcome the effects of past or present practices, policies, or other barriers to equal employment opportunity. Section 1608.3 of these Guidelines identifies circumstances in which voluntary affirmative action is permissible under Title VII. When such circumstances exist, and a plan or program otherwise complies with these Guidelines, the Commission will find that there is no reasonable cause to believe that the affirmative action plan or program violates Title VII. See § 1608.10(a). In addition, § 1608.10(b) provides that where the plan or program is in writing and was adopted in good faith, in conformity with, and in reliance upon these Guidelines, the Commission will provide the protection authorized under section 713(b)(1) of Title VII to the employer, labor organization, or other person taking the action. See *EEOC* v. *AT&T*, 419 F. Supp. 1022, 1055, n. 34 (E.D.Pa. 1976), *aff'd*, 556 F.2d 167 (3rd Cir. 1977), *cert. denied*, 98 S.Ct. 3145 (1978).

On December 28, 1977, at 42 FR 64826 the Commission published proposed "Guidelines on Remedial and/or Affirmative Action" in the FEDERAL REGISTER and invited comments from the public. Comments were received from almost 500 individuals and organizations. The paragraphs below summarize the major issues raised by the comments and indicate the way in which the final Guidelines address the concerns raised by the comments.

On December 11, 1978, the Commission voted to approve the Guidelines in final form. Pursuant to Executive Order 12067, the Guidelines were then distributed to all Federal agencies for their review. Comments received in this process are also reflected in the discussion below.

I. Change of Guidelines' Title

The proposed Guidelines were titled "Proposed Guidelines on Affirmative and/or Remedial Action" and the phrase "remedial and/or affirmative action" was utilized throughout the document. A number of comments questioned the difference, if any, between remedial action and affirmative action. The term "remedial" has been

dropped because of the possible erroneous implication that a violation of the law was required before affirmative action could be taken.

II. The Commission Will Process Complaints Alleging Discrimination Against Any Aggrieved Person

Many of the comments interpreted the Guidelines as indicating a Commission position that whites or males are entitled to less protection against discrimination than minorities or females, and that the Commission would either ignore complaints filed by whites or males, or process them in a different manner from those filed by females and minorities. The Commission maintains its position, articulated prior to *McDonald* v. *Santa Fe Trail Transportation Co.*, 427 U.S. 273 (1976), that discrimination on the basis of race, color, religion, sex, or national origin, is prohibited under Title VII, regardless of the individual or class against whom such discrimination is directed. See, e.g., Commission Decision No. 74-31, 7 FEP Cases 1326, 1328, CCH EEOC Decisions, ¶6404, (1973). The Commission will follow the same procedures in processing complaints filed by all individuals, regardless of their race, color, religion, sex, or national origin.

To avoid any ambiguity on these issues, language in the proposed Guidelines suggesting that complaints filed by whites and males would be "dismissed" under certain circumstances has been amended. Proposed paragraph V stated that the Commission would "issue a notice of dismissal of the charge" when an affirmative action program conformed to the Guidelines' requirements. The word "dismissal" is a term of art used by the Commission in its procedural regulations to refer to all determinations other than "reasonable cause." Because its use was misconstrued in many comments, final sections have been amended by substituting the phrase "a determination of no reasonable cause" where such a finding is justified by the facts of the case.

III. Consideration of Race, Color, Religion, Sex, and National Origin in Employment Decisions

Some commentators objected to the draft Guidelines because of their belief that Title VII requires that all employment decisions be made without consideration of race, color, religion, sex, or national origin, regardless of the circumstances. This conclusion does not comport with United States Supreme Court decisions interpreting Title VII, nor with the recent decision in *Regents of the University of California* v. *Bakke*, 98 S. Ct. 2733 (1978) (discussed infra). In the Title VII cases, the Supreme Court has called upon employers "'* * * to self-examine and to self-evaluate their employment practices and to endeavor to eliminate, so far as possible, the last vestiges of an unfortunate and ignominious page in this country's history.'" *Albemarle Paper Co.* v. *Moody*, 422 U.S. 405, 418 (1975). See also, *Griggs* v. *Duke Power Co.*, 401 U.S. 424 (1971).

Thus, the Supreme Court recognizes that persons subject to Title VII will consider race, sex and national origin in their analyses and evaluations. In addition, the Court has emphasized the concept of conciliation and voluntary action rather than litigation as the primary method of enforcing Title VII. See *Occidental Life Insurance Co. of California* v. *EEOC*, 432 U.S. 355 (1977). Voluntary action necessarily implies latitude to make a reasonable judgement as to whether action should be taken and the nature of such action.

At the same time, the Commission recognizes that considerations of race, color, religion, sex, and national origin are not permissible in other contexts. For example, in *McDonald* v. *Santa Fe Trail Transportation Co.*, 427 U.S. 273 (1976), the Court held that the anti-discrimination principle of Title VII could be invoked by white employees as well as minority employees. No question of affirmative action was involved. The Court held that disparate treatment violated Title VII, but specifically stated that its decision did not address any issues relating to affirmative action programs. *McDonald, supra*, at 280, n. 8. For the reasons set forth in § 1608.1, the Commission considers that these Guidelines are consistent with the statute, the Congressional intent behind it, and the decisions of the Supreme Court.

IV. Two Different Justifications of Voluntary Action: The Relationship Between Title VII and Executive Order No. 11246, As Amended

A number of comments indicated uncertainty as to the relationship in the proposed Guidelines between the references to Title VII and the references to the Executive Order. These commentators apparently understood the Guidelines to mean that affirmative action required by Executive Order No. 11246, as amended, and its implementing regulations would be lawful under Title VII *only* where the contractor has a reasonable basis for concluding that such action is necessary under Title VII. The structure of the Guidelines has been changed to clarify the Commission's original interpretation that action taken pursuant to, and in conformity with the Executive order, as amended, and its implementing regulations, does not violate Title VII.

The legislative history of the Equal Employment Opportunity Act of 1972 shows that Congress repeatedly rejected limitations on affirmative action under the Executive Order, including the goals and timetables approach that had become by that time a central feature of the implementation of the Order. See, e.g., 118 Cong. Rec. 1385–1386 (1972) (remarks of Sen. Saxbe); 118 Cong. Rec. 1664–1665 (1972) (remarks of Sen. Javits); 118 Cong. Rec. 1676 (1972) (rejecting amendment offered by Sens. Allen and Ervin that would have prohibited requirements for certain types of affirmative action, including the goals approach, under the Executive Order); 118 Cong. Rec. 4918 (1972) (rejecting amendment offered by Sen. Ervin that would have applied section 703(j) of Title VII to the Executive Order).

The Commission concludes that Congress intended to permit the continuation of the Executive Order program which required affirmative action by government contractors. The Congress which acted to allow the Executive Order program to continue would not, in the same measure, invalidate it under Title VII. The statute should be construed to avoid such a contradictory conclusion, especially where such a conclusion would undermine the expressed Congressional purpose of opening employment opportunities to minorities and women who had in the past been denied such opportunities.

In the Equal Employment Opportunity Act of 1972, Congress recognized the contractor's right to rely on affirmative action plans that had been approved under the Executive Order. See section 718 of Title VII. Furthermore, Congress in section 715 established the Equal Employment Opportunity Coordinating Council (composed of the Secretary of Labor, the Chair of the EEOC, the Attorney General, the Chair of the U.S. Civil Service Commission, the Chair of the U.S. Commission on Civil Rights, or their respective delegates) "to minimize effort, promote efficiency, and eliminate conflict, competition, duplication and inconsistency among * * * branches of the Federal Government responsible for the implementation and enforcement of equal opportunity legislation, orders, and policies." 42 U.S.C. 2000e-14. This coordination responsibility now rests in the Commission by virtue of 5 U.S.C. 901 et seq., as applied by Reorganization Plan No. 1 (1978), which was implemented by Executive Order 12067 (43 FR 28,967, July 30, 1978). In order to achieve the objectives of section 715 and Executive Order No. 12067, the Commission concludes that it must recognize compliance with the requirements of Executive Order No. 11246, as amended, and

its implementing regulations, as a defense to a charge that the affirmative action compliance program is discriminatory. The Commission concludes that adherence to an affirmative action compliance program approved by an appropriate official of the Department of Labor or its authorized agencies is lawful under Title VII. This interpretation thus insures that government contractors will not be subject to inconsistent standards by the Equal Employment Opportunity Commission and the Office of Federal Contract Compliance Programs.

Thus, the Commission recognizes that affirmative action by government contractors may be lawful under Title VII for either of two distinct reasons: (a) Such efforts constitute reasonable action to implement the legislative purposes of Title VII, or (b) the action was taken pursuant to, and in conformity with Executive Order No. 11246, as amended, and its implementing regulations. The Guidelines have been revised to reflect these two independent justifications for affirmative action under Title VII. A separate § 1608.5 governs affirmative action under Executive Order No. 11246, as amended.

The three step analytical process required under § 1608.4,, when action is being justified under Title VII, is not necessary under § 1608.5, when action is being justified as undertaken pursuant to an approved program under Executive Order No. 11246, as amended. The circumstances in which such affirmative action is required under the Executive Order and the nature of such affirmative action are established by the Department of Labor.

V. Appropriate Steps for Taking Voluntary Action

A number of comments suggested that the Guidelines did not clearly define the steps the Commission believes are appropriate in taking voluntary affirmative action. A new § 1608.4 has been added to explain the three step process applicable to action justified under Title VII: reasonable self analysis, reasonable basis for concluding that action is appropriate, and reasonable action to correct that situation. The process set forth in § 1608.4 should be utilized to determine whether the circumstances set forth in § 1608.3 are present. Section 1608.5 covers action pursuant to Executive Order No. 11246, as amended.

VI. Reasonable Self Analysis

Some commentators requested further elaboration on the meaning of the term "self analysis." Section 1608.4(a) has been amended to make it clear that there is no single mandatory method of conducting the self analysis, and to refer to the methodology used by government contractors under Revised Order 4 as a model which employers and others may use in conducting a self analysis. Whatever method is used, the primary objective must be to determine whether the employment practices operate as barriers to equal employment opportunity.

Some commentators suggested that the Guidelines may be subject to abuse unless the self analysis is required to be in writing. The Commission believes that the protection from Title VII liability which may be available under section 713(b)(1) should only be recognized where the affirmative action plan or program has been carefully and consciously developed. Accordingly, the section 713(b)(1) defense will be recognized by the Commission only where the analysis and the affirmative action plan or program are in writing and are adopted in good faith, in conformity with, and in reliance upon these Guidelines. See §§ 1608.4(d) and 1608.10.

However, a respondent who has undertaken the analysis, self-evaluation, and development of an affirmative action plan of the type described in the Guidelines, but has not reduced the analysis and plan to writing, may assert these facts as a defense to a charge of discrimination. The analysis and plan need not be in writing because the Commission does not generally require that employer defenses be based on written documents. However, employers are encouraged to have written documentation since such written evidence would make it easier to establish that an analysis was conducted and that a plan or program exists. See § 1608.4(d)(2).

In response to comments which expressed concern that adoption of a plan or program might constitute an admission of discrimination, § 1608.4(d)(1) makes it clear that it is not necessary to state in writing the conclusion that a Title VII violation exists.

VII. The Guidelines Do Not Approve Inadequate Remedies

A number of commentators were concerned that violators of the Act could use the Guidelines and the section 713(b)(1) defense to shield themselves from liability for the underlying discrimination inadequately addressed by an affirmative action plan or program. The Guidelines do not lend themselves to this interpretation.

The proposed Guidelines stated in paragraph VII that the Guidelines were not intended to provide standards for determining whether voluntary action had fully remedied discrimination. The analysis and plan contemplated by these Guidelines will not establish whether discrimination existed before the plan was adopted. Furthermore, the plan cannot determine whether discrimination might take place subsequent to its adoption. In addition, the judgment as to whether affirmative action is sufficient to eliminate discrimination is a complex one which may take into account circumstances that may not have been included in the analysis which underlies the affirmative action plan. For these reasons the existence of the plan cannot provide the basis for determining whether discrimination existed, or whether the plan itself provided an adequate remedy for such discrimination. Therefore, the Guidelines state that they do not apply to a determination of the adequacy of an affirmative action plan to eliminate discrimination against previously excluded groups. Furthermore, the section 713(b)(1) defense is not involved in a determination of the adequacy of such a plan or program. Section 1608.11(a) is intended to make it clear that employers, labor organizations, or other persons who take affirmative action may still be liable under Title VII if the plan or program does not adequately remedy illegal discrimination.

VIII. No Admission of Discrimination Required

Another group of comments stated that, because the Guidelines do not require an admission or finding of discrimination, the Commission may thereby approve affirmative action which might constitute unlawful discrimination prohibited by Title VII. This interpretation is incorrect.

The proposed Guidelines stated in paragraph II that the lawfulness of affirmative action was not "dependent upon an admission, or a finding, or evidence sufficient to prove" that the person taking such action had actually violated Title VII. After careful analysis and consideration, the Commission is of the opinion that the statement, as amended, appearing in § 1608.4(b), represents an appropriate interpretation of Federal law and policy for the reasons set forth in § 1608.1(c).

These Guidelines provide a sufficient basis to determine whether affirmative action is appropriate. Persons subject to the Act should not, by taking reasonable affirmative action, be exposed to liability under the very Act they are seeking to implement. Similarly, the law should not force the employer or other person to speculate whether an arguable defense to a Title VII charge would be recognized by a court before taking affirmative action. Section 1608.4(b) makes it clear that this reasonable basis exists without regard to arguable defenses to a Title VII action.

IX. The Scope of Appropriate Voluntary Action

Several comments raised questions concerning the appropriate scope of voluntary affirmative action intended by the Guidelines. Some perceive the Commission's use of the words "ratios and other numerical remedies" in proposed Paragraph IV, in addition to the words "goals and timetables", as indicating that the Commission was endorsing "absolute quotas" or "fixed quotas" without regard to qualifications or the circumstances in which they were used. The words "ratios and other numerical remedies" have been omitted from these Guidelines in order to avoid ambiguity and to make it clear that any numerical objective is subject to the availability of sufficient applicants who are qualified by proper, validated standards.

Affirmative Action under these Guidelines must be reasonable and must be related to the problems disclosed by the self-analysis. A new § 1608.4(c) has been added to make this clear. Affirmative action under these Guidelines may include interim goals or targets. Such interim goals or targets for previously excluded groups may be higher than the percentage of their availability in the workforce so that the long term goal may be met in a reasonable period of time. In order to achieve such interim goals or targets, an employer may consider race, sex, and/or national origin in making selections from among qualified or qualifiable applicants. Courts have ordered actions of this kind in litigated cases and in consent decrees. *Carter* v. *Gallagher*, 452 F.2d 315 (8th Cir. 1972), *en banc, cert. denied* (98 S. Ct. 3145 (1978); *U.S.* v. *Allegheny-Ludlum Industries, Inc.*, 517 F.2d 826 (5th Cir. 1975), *cert. denied*, 425 U.S. 944 (1976).

X. Relevance of Certain Court Cases

A number of comments indicated that there were court decisions rendering inappropriate the approach taken by the Commission in these Guidelines. Because the proposed Guidelines were issued for comment prior to the decision of the United States Supreme Court in the case of *Regents of University of California* v. *Bakke*, 98 S. Ct. 2733 (1978), a number of commentators suggested that either the Guidelines were inappropriate in light of the decision of the California Supreme Court in that case, or that the Commission should wait until the U.S. Supreme Court had issued its opinion. As recommended, the Commission awaited the action of the Supreme Court in that case before promulgating these Guidelines. The Commission has reviewed these Guidelines in light of the opinions of the Justices of the Supreme Court in *Bakke*. The Commission concludes that these Guidelines are consistent with the action of the Supreme Court in that case.

In the *Bakke* case the university did not assert reliance on any detailed guidance and procedures for crafting an affirmative action plan. These Guidelines seek to provide such guidance and thereby to establish an appropriate legal foundation for voluntary action under Title VII.

Perhaps the case most frequently cited by the commentators as conflicting with the principles articulated in the proposed Guidelines was a split decision in *Weber* v. *Kaiser Aluminum Corp.*, 563 F.2d 216 (5th Cir. 1977), *cert. granted*, —— U.S. ——. *Weber*, however, was decided prior to *Bakke*, and therefore did not take into account the opinions in that case. In addition, it is fundamentally unfair to expose those subject to Executive Order No. 11246 to risks of liability under Title VII when they act in compliance with government requirements or when they act voluntarily and appropriately to achieve statutory objectives. Furthermore, the clarification provided by these Guidelines is necessary because the *Weber* decision may be interpreted to unduly interfere with the range of affirmative action which Congress intended to permit under Title VII.[1]

The Commission has examined all the decisions brought to its attention in the comments and other recent decisions of the United States Supreme Court and concludes that none of these decisions affect its interpretation of the circumstances in which affirmative action is lawful under Title VII.

By virtue of the authority vested in it by section 713 of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-12, 78 Stat. 265, and after due consideration of all comments received, the Equal Employment Opportunity Commission hereby issues as new Part 1608 of Title 29 of the Code of Federal Regulations its "Guidelines on Affirmative Action Appropriate Under Title VII of the Civil Rights Act of 1964, as Amended" as set forth below.

Signed at Washington, D.C., this 16th day of January 1979.

For the Commission.

ELEANOR HOLMES NORTON,
Chair.

Sec.
1608.1 Statement of purpose.
1608.2 Written interpretation and opinion.
1608.3 Circumstances under which voluntary affirmative action is appropriate.
1608.4 Establishing affirmative action plans.
1608.5 Affirmative action compliance programs under executive order No. 11246, as amended.
1608.6 Affirmative action plans which are part of commission conciliation or settlement agreements.
1608.7 Affirmative action plans or programs under State or local law.
1608.8 Adherence to court order.
1608.9 Reliance on directions of other government agencies.
1608.10 Standard of review.
1608.11 Limitations on the application of these guidelines.
1608.12 Equal employment opportunity plans adopted pursuant to section 717 of title VII.

AUTHORITY: Sec. 713 of title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-12, 78 Stat. 265.

§ 1608.1 Statement of Purpose.

(a) *Need for Guidelines.* Since the passage of Title VII in 1964, many employers, labor organizations, and other persons subject to Title VII have changed their employment practices and systems to improve employment opportunities for minorities and women, and this must continue. These changes have been undertaken either on the initiative of the employer, labor organization, or other person subject to Title VII, or as a result of conciliation efforts under Title VII, action under Executive Order No. 11246, as amended, or under other Federal, state, or local laws, or litigation. Many decisions taken pursuant to affirmative action plans or programs have been race, sex, or national origin conscious in order to achieve the Congressional purpose of providing equal employment opportunity. Occasionally, these actions have been challenged as inconsistent with Title VII, because they took into account race, sex, or national origin. This is the so-called "reverse discrimination" claim. In such a situation, both the affirmative action undertaken to improve the conditions of minorities and women, and the objection to that action, are based upon the principles of Title VII. Any uncertainty as to the meaning and application of Title VII in such situations threatens the accomplishment of the clear Congressional intent to encourage voluntary affirmative action. The Commission believes that by the enactment of Title VII Congress did not intend to expose those who comply with the Act to charges that they are violating the very statute they are seeking to implement. Such a result would immobilize or reduce the efforts of many who would otherwise take action to improve the opportunities of minorities and women without litigation, thus frustrating the Congressional intent to encourage voluntary action and increasing the prospect of Title VII litigation. The Commission

[1] The Commission has taken the position that the decision of the Court of Appeals is incorrect and that the affirmative action program there was lawful. The Solicitor General has taken the same position, and the Supreme Court has now granted petitions for a writ of certiorari.

V 4 4 / 1 4
J A 1 9 7 9
UMI

believes that it is now necessary to clarify and harmonize the principles of Title VII in order to achieve these Congressional objectives and protect those employers, labor organizations, and other persons who comply with the principles of Title VII.

(b) *Purposes of Title VII.* Congress enacted Title VII in order to improve the economic and social conditions of minorities and women by providing equality of opportunity in the work place. These conditions were part of a larger pattern of restriction, exclusion, discrimination, segregation, and inferior treatment of minorities and women in many areas of life.[3] The Legislative Histories of Title VII, the Equal Pay Act, and the Equal Employment Opportunity Act of 1972 contain extensive analyses of the higher unemployment rate, the lesser occupational status, and the consequent lower income levels of minorities and women.[3] The purpose of Executive Order No. 11246, as amended, is similar to the purpose of Title VII. In response to these economic and social conditions, Congress, by passage of Title VII, established a national policy against discrimination in employment on grounds of race, color, religion, sex, and national origin. In addition, Congress strongly encouraged employers, labor organizations, and other persons subject to Title VII (hereinafter referred to as "persons," see section 701(a) of the Act) to act on a voluntary basis to modify employment practices and systems which constituted barriers to equal employment opportunity, without awaiting litigation or formal government action. Conference, conciliation, and persuasion were the primary processes adopted by Congress in 1964, and reaffirmed in 1972, to achieve these objectives, with enforcement action through the courts or agencies as a supporting procedure where voluntary action did not take place and conciliation failed. See § 706 of Title VII.

(c) *Interpretation in furtherance of legislative purpose.* The principle of nondiscrimination in employment because of race, color, religion, sex, or national origin, and the principle that each person subject to Title VII should take voluntary action to correct the effects of past discrimination and to prevent present and future discrimination without awaiting litigation, are mutually consistent and interdependent methods of addressing social and economic conditions which precipitated the enactment of Title VII. Voluntary affirmative action to improve opportunities for minorities and women must be encouraged and protected in order to carry out the Congressional intent embodied in Title VII.[4] Affirmative action under these principles means those actions appropriate to overcome the effects of past or present practices, policies, or other barriers to equal employment opportunity. Such voluntary affirmative action cannot be measured by the standard of whether it would have been required had there been litigation, for this standard would undermine the legislative purpose of first encouraging voluntary action without litigation. Rather, persons subject to Title VII must be allowed flexibility in modifying employment systems and practices to comport with the purposes of Title VII. Correspondingly, Title VII must be construed to permit such voluntary action, and those taking such action should be afforded the protection against Title VII liability which the Commission is authorized to provide under section 713(b)(1).

(d) *Guidelines interpret Title VII and authorize use of Section 713(b)(1).* These Guidelines describe the circumstances in which persons subject to Title VII may take or agree upon action to improve employment opportunities of minorities and women, and describe the kinds of actions they may take which are consistent with Title VII. These Guidelines constitute the Commission's interpretation of Title VII and will be applied in the processing of claims of discrimination which involve voluntary affirmative action plans and programs. In addition, these Guidelines state the circumstances under which the Commission will recognize that a person subject to Title VII is entitled to assert that actions were taken "in good faith, in conformity with, and in reliance upon a written interpretation or opinion of the Commission," including reliance upon the interpretation and opinion contained in these Guidelines, and thereby invoke the protection of section 713(b)(1) of Title VII.

(e) *Review of existing plans recommended.* Only affirmative action plans or programs adopted in good faith, in conformity with, and in reliance upon these Guidelines can receive the full protection of these Guidelines, including the section 713(b)(1) defense. See § 1608.10. Therefore, persons subject to Title VII who have existing affirmative action plans, programs, or agreements are encouraged to review them in light of these Guidelines, to modify them to the extent necessary to comply with these Guidelines, and to readopt or reaffirm them.

§ 1608.2 Written interpretation and opinion.

These Guidelines constitute "a written interpretation and opinion" of the Equal Employment Opportunity Commission as that term is used in section 713(b)(1) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-12(b)(1), and section 1601.33 of the Procedural Regulations of the Equal Employment Opportunity Commission (29 CFR 1601.30; 42 FR 55,394 (October 14, 1977)). Section 713(b)(1) provides:

> In any action or proceeding based on any alleged unlawful employment practice, no person shall be subject to any liability or punishment for or on account of (1) the commission by such person of an unlawful employment practice if he pleads and proves that the act or omission complained of was in good faith, in conformity with, and in reliance on any written interpretation or opinion of the Commission * * *. Such a defense, if established, shall be a bar to the action or proceeding, notwithstanding that * * * after such act or omission, such interpretation or opinion is modified or rescinded or is determined by judicial authority to be invalid or of no legal effect * * *.

The applicability of these Guidelines is subject to the limitations on use set forth in § 1608.11.

§ 1608.3 Circumstances under which voluntary affirmative action is appropriate.

(a) *Adverse effect.* Title VII prohibits practices, procedures, or policies which have an adverse impact unless they are justified by business necessity. In addition, Title VII proscribes practices which "tend to deprive" persons of equal employment opportunities. Employers, labor organizations and other persons subject to Title VII may take affirmative action based on an analysis which reveals facts constituting actual or potential adverse impact, if such adverse impact is likely to result from existing or contemplated practices.

(b) *Effects of prior discriminatory practices.* Employers, labor organizations, or other persons subject to Title VII may also take affirmative action to correct the effects of prior discriminatory practices. The effects of prior discriminatory practices can be initially identified by a comparison between the employer's work force, or a part thereof, and an appropriate segment of the labor force.

(c) *Limited labor pool.* Because of historic restrictions by employers, labor organizations, and others, there are circumstances in which the available pool, particularly of qualified minorities and women, for employment or promotional opportunities is artificially limited. Employers, labor organizations, and other persons subject to Title VII may, and are encouraged to take affirmative action in such circumstances, including, but not limited to, the following:

(1) Training plans and programs, including on-the-job training, which emphasize providing minorities and women with the opportunity, skill, and experience necessary to perform the functions of skilled trades, crafts, or professions;

(2) Extensive and focused recruiting activity;

(3) Elimination of the adverse impact caused by unvalidated selection criteria (see sections 3 and 6, Uniform Guidelines on Employee Selection Procedures (1978), 43 FR 30,290; 38,297; 38,299 (August 25, 1978));

(4) Modification through collective bargaining where a labor organization represents employees, or unilaterally where one does not, of promotion and layoff procedures.

§ 1608.4 Establishing affirmative action plans.

An affirmative action plan or program under this section shall contain three elements: a reasonable self analysis; a reasonable basis for concluding action is appropriate; and reasonable action.

(a) *Reasonable self analysis.* The objective of a self analysis is to determine whether employment practices do, or tend to, exclude, disadvantage, restrict, or result in adverse impact or disparate treatment of previously excluded or restricted groups or leave uncorrected the effects of prior discrimination, and if so, to attempt to determine why. There is no mandatory method of conducting a self analysis. The employer may utilize techniques used in order to comply with Executive Order No. 11246, as amended, and its implementing regulations, including 41 CFR Part 60-2 (known as Revised Order 4), or related orders issued by the Office of Federal Contract Compliance Programs or its authorized agencies, or may use an analysis similar to that required under other Federal, state, or local laws or regulations prohibiting employment discrimination. In conducting a self analysis, the employer, labor organization, or other person subject to Title VII should be concerned with the effect on its employment practices of circumstances which may be the result of discrimination by other persons or institutions. See *Griggs* v. *Duke Power Co.*, 401 U.S. 424 (1971).

(b) *Reasonable basis.* If the self analysis shows that one or more employment practices: (1) Have or tend to have an adverse effect on employment opportunities of members of previously excluded groups, or groups whose employment or promotional opportunities have been artificially limited, (2) leave uncorrected the effects of prior discrimination, or (3) result in disparate treatment, the person making the self analysis has a reasonable basis for concluding that action is appropriate. It is not necessary that the self analysis establish a violation of Title VII. This reasonable basis exists without any admission or formal finding that the person has violated Title VII, and without regard to whether there exists arguable defenses to a Title VII action.

(c) *Reasonable action.* The action taken pursuant to an affirmative action plan or program must be reasonable in relation to the problems disclosed by the self analysis. Such reasonable action may include goals and timetables or other appropriate employment tools which recognize the race, sex, or national origin of applicants or employees. It may include the adoption of practices which will eliminate the actual or potential adverse impact, disparate treatment, or effect or past discrimination by providing opportunities for members of groups which have been excluded, regardless of whether the persons benefited were themselves the victims of prior policies or procedures which produced the adverse impact or disparate treatment or which perpetuated past discrimination.

(1) *Illustrations of appropriate affirmative action.* Affirmative action plans or programs may include, but are not limited to, those described in the Equal Employment Opportunity Coordinating Council "Policy Statement on Affirmative Action Programs for State and Local Government Agencies," 41 FR 38,814 (September 13, 1976), reaffirmed and extended to all persons subject to Federal equal employment opportunity laws and orders, in the Uniform Guidelines on Employee Selection Procedures (1978) 43 FR 38,290; 38,300 (Aug. 25, 1978). That statement reads, in relevant part:

> When an employer has reason to believe that its selection procedures have * * * exclusionary effect * * *, it should initiate affirmative steps to remedy the situation. Such steps, which in design and execution may be race, color, sex or ethnic 'conscious,' include, but are not limited to, the following:
>
> The establishment of a long term goal and short range, interim goals and timetables for the specific job classifications, all of which should take into account the availability of basically qualified persons in the relevant job market;
>
> A recruitment program designed to attract qualified members of the group in question;
>
> A systematic effort to organize work and re-design jobs in ways that provide opportunities for persons lacking 'journeyman' level knowledge or skills to enter and, with appropriate training, to progress in a career field;
>
> Revamping selection instruments or procedures which have not yet been validated in order to reduce or eliminate exclusionary effects on particular groups in particular job classifications;
>
> The initiation of measures designed to assure that members of the affected group who are qualified to perform the job are included within the pool of persons from which the selecting official makes the selection;
>
> A systematic effort to provide career advancement training, both classroom and on-the-job, to employees locked into dead end jobs; and
>
> The establishment of a system for regularly monitoring the effectiveness of the particular affirmative action program, and procedures for making timely adjustments in this program where effectiveness is not demonstrated.

(2) *Standards of reasonable action.* In considering the reasonableness of a particular affirmative action plan or program, the Commission will generally apply the following standards:

(i) The plan should be tailored to solve the problems which were identified in the self analysis, see § 1608.4(a), supra, and to ensure that employment systems operate fairly in the future, while avoiding unnecessary restrictions on opportunities for the workforce as a whole. The race, sex, and national origin conscious provisions of the plan or program should be maintained only so long as is necessary to achieve these objectives.

(ii) Goals and timetables should be reasonably related to such considerations as the effects of past discrimination, the need for prompt elimination of adverse impact or disparate treatment, the availability of basically qualified or qualifiable applicants, and the number of employment opportunities expected to be available.

(d) *Written or unwritten plans or programs—(1) Written plans required for 713(b)(1) Protection.* The protection of section 713(b) of Title VII will

---

[3] Congress has also addressed these conditions in other laws, including the Equal Pay Act of 1963, Pub. L. 88-38, 77 Stat. 56 (1963), as amended; the other Titles of the Civil Rights Act of 1964, Pub. L. 88-352, 78 Stat. 241 (1964), as amended; the Voting Rights Act of 1965, Pub. L. 89-110, 79 Stat. 437 (1965), as amended; the Fair Housing Act of 1968, Pub. L. 90-284, Title VII, 82 Stat. 73, 81 (1968), as amended; the Educational Opportunity Act (Title IX), Pub. L. 92-318, 86 Stat. 373 (1972), as amended; and the Equal Employment Opportunity Act of 972, Pub. L. 92-261, 86 Stat. 103 (1972), as amended.

[3] Equal Pay Act of 1963: S. Rep. No. 176, 88th Cong., 1st Sess., 1-2 (1963). Civil Rights Act of 1964: H.R. Rep. No. 914, pt. 2, 88th Cong., 1st Sess. (1971). Equal Employment Opportunity Act of 1972: H.R. Rep. No. 92-238, 92d Cong., 1st Sess. (1971); S. Rep. No. 92-415, 92d Cong., 1st Sess. (1971). See also, Equal Employment Opportunity Commission, *Equal Employment Opportunity Report—1975, Job Patterns for Women in Private Industry* (1977); Equal Employment Opportunity Commission, *Minorities and Women in State and Local Government—1975* (1977); United States Commission on Civil Rights, *Social Indicators of Equality for Minorities and Women* (1978).

[4] Affirmative action often improves opportunities for all members of the workforce, as where affirmative action includes the posting of notices of job vacancies. Similarly, the integration of previously segregated jobs means that all workers will be provided opportunities to enter jobs previously restricted. See, e.g., *EEOC* v. *AT&T*, 419 F. Supp. 1022 (E.D.Pa. 1976), *aff'd*, 556 F. 2d 167 (3rd Cir. 1977), *cert. denied*, 98 S.Ct. 3145 (1978).

V 4 4 / 1 4 J A 1 9 7 9 UMI

be accorded by the Commission to a person subject to Title VII only if the self analysis and the affirmative action plan are dated and in writing, and the plan otherwise meets the requirements of Section 713(b)(1). The Commission will not require that there be any written statement concluding that a Title VII violation exists.

(2) *Reasonable cause determinations.* Where an affirmative action plan or program is alleged to violate Title VII, or is asserted as a defense to a charge of discrimination, the Commission will investigate the charge in accordance with its usual procedures and pursuant to the standards set forth in these Guidelines, whether or not the analysis and plan are in writing. However, the absence of a written self analysis and a written affirmative action plan or program may make it more difficult to provide credible evidence that the analysis was conducted, and that action was taken pursuant to a plan or program based on the analysis. Therefore, the Commission recommends that such analyses and plans be in writing.

§ 1608.5 Affirmative action compliance programs under Executive Order No. 11246, as amended.

Under Title VII, affirmative action compliance programs adopted pursuant to Executive Order No. 11246, as amended, and its implementing regulations, including 41 CFR Part 60-2 (Revised Order 4), will be considered by the Commission in light of the similar purposes of Title VII and the Executive Order, and the Commission's responsibility under Executive Order No. 12067 to avoid potential conflict among Federal equal employment opportunity programs. Accordingly, the Commission will process Title VII complaints involving such affirmative action compliance programs under this section.

(a) *Procedures for review of Affirmative Action Compliance Programs.* If adherence to an affirmative action compliance program adopted pursuant to Executive Order No. 11246, as amended, and its implementing regulations, is the basis of a complaint filed under Title VII, or is alleged to be the justification for an action which is challenged under Title VII, the Commission will investigate to determine: (1) Whether the affirmative action compliance program was adopted by a person subject to the Order and pursuant to the Order, and (2) whether adherence to the program was the basis of the complaint or the justification.

(1) *Programs previously approved.* If the Commission makes the determination described in paragraph (a) of this section and also finds that the affirmative action program has been approved by an appropriate official of the Department of Labor or its authorized agencies, or is part of a conciliation or settlement agreement or an order of an administrative agency, whether entered by consent or after contested proceedings brought to enforce Executive Order No. 11246, as amended, the Commission will issue a determination of no reasonable cause.

(2) *Program not previously approved.* If the Commission makes the determination described in paragraph (a), of this section but the program has not been approved by an appropriate official of the Department of Labor or its authorized agencies, the Commission will: (i) Follow the procedure in § 1608.10(a) and review the program, or (ii) refer the plan to the Department of Labor for a determination of whether it is to be approved under Executive Order No. 11246, as amended, and its implementing regulations. If, the Commission finds that the program does conform to these Guidelines, or the Department of Labor approves the affirmative action compliance program, the Commission will issue a determination of no reasonable cause under § 1608.10(a).

(b) *Reliance on these guidelines.* In addition, if the affirmative action compliance program has been adopted in good faith reliance on these Guidelines, the provisions of section 713(b)(1) of Title VII and of § 1608.10(b), below, may be asserted by the contractor.

§ 1608.6 Affirmative action plans which are part of Commission conciliation or settlement agreements.

(a) *Procedures for review of plans.* If adherence to a conciliation or settlement agreement executed under Title VII and approved by a responsible official of the EEOC is the basis of a complaint filed under Title VII, or is alleged to be the justification for an action challenged under Title VII, the Commission will investigate to determine: (1) Whether the conciliation agreement or settlement agreement was approved by a responsible official of the EEOC, and (2) whether adherence to the agreement was the basis for the complaint or justification. If the Commission so finds, it will make a determination of no reasonable cause under § 1608.10(a) and will advise the respondent of its right under section 713(b)(1) of Title VII to rely on the conciliation agreement.

(b) *Reliance on these guidelines.* In addition, if the affirmative action plan or program has been adopted in good faith reliance on these Guidelines, the provisions of section 713(b)(1) of Title VII and of § 1608.10(b), below, may be asserted by the respondent.

§ 1608.7 Affirmative action plans or programs under State or local law.

Affirmative action plans or programs executed by agreement with state or local government agencies, or by order of state or local government agencies, whether entered by consent or after contested proceedings, under statutes or ordinances described in Title VII, will be reviewed by the Commission in light of the similar purposes of Title VII and such statutes and ordinances. Accordingly, the Commission will process Title VII complaints involving such affirmative action plans or programs under this section.

(a) *Procedures for review of plans or programs.* If adherence to an affirmative action plan or program executed pursuant to a state statute or local ordinance described in Title VII is the basis of a complaint filed under Title VII or is alleged to be the justification for an action which is challenged under Title VII, the Commission will investigate to determine: (1) Whether the affirmative action plan or program was executed by an employer, labor organization, or person subject to the statute or ordinance, (2) whether the agreement was approved by an appropriate official of the state or local government, and (3) whether adherence to the plan or program was the basis of the complaint or justification.

(1) *Previously Approved Plans or Programs.* If the Commission finds the facts described in paragraph (a) of this section, the Commission will, in accordance with the "substantial weight" provisions of section 706 of the Act, find no reasonable cause where appropriate.

(2) *Plans or Programs not previously approved.* If the plan or program has not been approved by an appropriate official of the state or local government, the Commission will follow the procedure of § 1608.10 of these Guidelines. If the Commission finds that the plan or program does conform to these Guidelines, the Commission will make a determination of no reasonable cause as set forth in § 1608.10(a).

(b) *Reliance on these guidelines.* In addition, if the affirmative action plan or program has been adopted in good faith reliance on these Guidelines, the provisions of section 713(b)(1) and § 1608.10(b), below, may be asserted by the respondent.

§ 1608.8 Adherence to court order.

Parties are entitled to rely on orders of courts of competent jurisdiction. If adherence to an Order of a United States District Court or other court of competent jurisdiction, whether entered by consent or after contested litigation, in a case brought to enforce a Federal, state, or local equal employment opportunity law or regulation, is the basis of a complaint filed under Title VII or is alleged to be the justification for an action which is challenged under Title VII, the Commission will investigate to determine: (a) Whether such an Order exists and (b) whether adherence to the affirmative action plan which is part of the Order was the basis of the complaint or justification. If the Commission so finds, it will issue a determination of no reasonable cause. The Commission interprets Title VII to mean that actions taken pursuant to the direction of a Court Order cannot give rise to liability under Title VII.

§ 1608.9 Reliance on directions of other government agencies.

When a charge challenges an affirmative action plan or program, or when such a plan or program is raised as justification for an employment decision, and when the plan or program was developed pursuant to the requirements of a Federal or state law or regulation which in part seeks to ensure equal employment opportunity, the Commission will process the charge in accordance with § 1608.10(a). Other agencies with equal employment opportunity responsibilities may apply the principles of these Guidelines in the exercise of their authority.

§ 1608.10 Standard of review.

(a) *Affirmative action plans or programs not specifically relying on these guidelines.* If, during the investigation of a charge of discrimination filed with the Commission, a respondent asserts that the action complained of was taken pursuant to an in accordance with a plan or program of the type described in these Guidelines, the Commission will determine whether the assertion is true, and if so, whether such a plan or program conforms to the requirements of these guidelines. If the Commission so finds, it will issue a determination of no reasonable cause and, where appropriate, will state that the determination constitutes a written interpretation or opinion of the Commission under section 713(b)(1). This interpretation may be relied upon by the respondent and asserted as a defense in the event that new charges involving similar facts and circumstances are thereafter filed against the respondent, which are based on actions taken pursuant to the affirmative action plan or program. If the Commission does not so find, it will proceed with the investigation in the usual manner.

(b) *Reliance on these guidelines.* If a respondent asserts that the action taken was pursuant to and in accordance with a plan or program which was adopted or implemented in good faith, in conformity with, and in reliance upon these Guidelines, and the self analysis and plan are in writing, the Commission will determine whether such assertion is true. If the Commission so finds, it will so state in the determination of no reasonable cause and will advise the respondent that:

(1) The Commission has found that the respondent is entitled to the protection of section 713(b)(1) of Title VII; and

(2) That the determination is itself an additional written interpretation or opinion of the Commission pursuant to section 713(b)(1).

§ 1608.11 Limitations on the application of these guidelines.

(a) *No determination of adequacy of plan or program.* These Guidelines are applicable only with respect to the circumstances described in § 1608.1(d), above. They do not apply to, and the section 713(b)(1) defense is not available for the purpose of, determining the adequacy of an affirmative action plan or program to eliminate discrimination. Whether an employer who takes such affirmative action has done enough to remedy such discrimination will remain a question of fact in each case.

(b) *Guidelines inapplicable in absence of affirmative action.* Where an affirmative action plan or program does not exist, or where the plan or program is not the basis of the action complained of, these Guidelines are inapplicable.

(c) *Currency of plan or program.* Under section 713(b)(1), persons may rely on the plan or program only during the time when it is current. Currency is related to such factors as progress in correcting the conditions disclosed by the self analysis. The currency of the plan or program is a question of fact to be determined on a case by case basis. Programs developed under Executive Order No. 11246, as amended, will be deemed current in accordance with Department of Labor regulations at 41 CFR Chapter 60, or successor orders or regulations.

§ 1608.12 Equal employment opportunity plans adopted pursuant to section 717 of Title VII.

If adherence to an Equal Employment Opportunity Plan, adopted pursuant to Section 717 of Title VII, and approved by an appropriate official of the U.S. Civil Service Commission, is the basis of a complaint filed under Title VII, or is alleged to be the justification for an action under Title VII, these Guidelines will apply in a manner similar to that set forth in § 1608.5. The Commission will issue regulations setting forth the procedure for processing such complaints.

PART 1601—PROCEDURAL REGULATIONS

Issuance of Interpretation and Opinion

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: The Commission is today publishing in final form a set of Guidelines on Affirmative Action (44 FR 4422), to encourage voluntary action to eliminate employment discrimination. Section 1601.33 of the Commission's regulations is being amended to reflect a new method, contemplated by these Guidelines, by which the Commission may issue an "interpretation of opinion" of the Commission within the meaning of Section 713 of Title VII of the Civil Rights Act of 1964, as amended.

EFFECTIVE DATE: February 20, 1979.

FOR FURTHER INFORMATION CONTACT:

Peter C. Robertson, Director, Office of Policy Implementation, 2401 E Street, NW., Room 4002A, Washington, D.C. 20506 (202) 254-7639.

SUPPLEMENTARY INFORMATION: The Commission's new Guidelines on Affirmative Action contemplate that in instances where a charge of discrimination has been filed and the Commission finds that the treatment complained of occurred as a result of affirmative action procedures consistent with its Guidelines on Affirmative Action, the Commission will issue a determination of no reasonable cause. This determination may contain language stating that it is "a written interpretation or opinion of the Commission" within the meaning of Section 713(b)(1) of Title VII of the Civil Rights Act of 1964, as amended. The respondent in such a case may rely upon this determination as a defense to any subsequent complaints of discrimination which involve similar facts and circumstances, if the subsequent actions complained of were also taken by the respondent under its affirmative action procedures.

Such language will also appear in no-cause determinations whenever the Commission finds that the action complained of occurred pursuant to an affirmative action plan adopted in good faith compliance with, and reliance

upon, the Commission's Guidelines on affirmative Action.

The Commission's procedural regulations are accordingly revised to include this specific type of no-cause finding as a type of "written interpretation or opinion of the Commission."

Signed at Washington, D.C. this 16th day of January 1979.

For the Commission.

ELEANOR HOLMES NORTON,
Chair.

Therefore, 29 CFR 1601.33 is amended to read as follows:

§ 1601.33 Issuance of interpretation or opinion.

Only the following may be relied upon as a "written interpretation or opinion of the Commission" within the meaning of Section 713 of Title VII:

(a) A letter entitled "opinion letter" and signed by the General Counsel on behalf of the Commission, or

(b) Matter published and specifically designated as such in the FEDERAL REGISTER, including the Commission's Guidelines on Affirmative Action, or

(c) A Commission determination of no reasonable cause, issued under the circumstances described in § 1608.10 (a) or (b) of the Commission's Guidelines on Affirmative Action 29 CFR Part 1608, when such determination contains a statement that it is a "written interpretation or opinion of the Commission."

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA//FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	MSPB*/OPM*		CSA	MSPB*/OPM*
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

***NOTE: As of January 1, 1979, the Merit Systems Protection Board (MSPB) and the Office of Personnel Management (OPM) will publish on the Tuesday/Friday schedule. (MSPB and OPM are successor agencies to the Civil Service Commission.)**

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—GENERAL REGULATIONS

SUBCHAPTER I—APPLICATIONS

[FmHA Instruction 1910-B]

PART 1801—RECEIVING AND PROCESSING APPLICATIONS

PART 1910—GENERAL

Subpart B—Credit Reports

Subpart B—Credit Reports (Individual)

AMENDMENT

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations to redesignate and expand regulations for ordering credit reports for individual loan applicants and borrowers. The action is taken to update the regulation. The intended effect of the action is to provide procedures for ordering credit reports consistent with recent changes in the contracts with credit reporting companies.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Frank Colon, (202) 447-4808.

SUPPLEMENTARY INFORMATION: The FmHA amends its regulations to redesignate Subpart B, "Credit Reports," of Part 1801, "Receiving and Processing Applications," of Subchapter A, "General Regulations," as a new Subpart B, "Credit Reports (Individual)," of Part 1910, "General," of Subchapter I, "Applications," Chapter XVIII, Title 7 of the Code of Federal Regulations. The new Subpart B of Part 1910 expands the summary previously published in the FEDERAL REGISTER. It also provides all pertinent information consistent with the current fiscal year contracts for credit reports services for individual loan applicants and borrowers.

It is the policy of this Department that rules pertaining to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This new Subpart B of Part 1910, however, is not published for proposed rulemaking since the purpose of this amendment is to redesignate and expand the regulation and to provide the Agency's field staff with information consistent with the provisions of existing contracts. Exhibit A is not published as the information is extracted from the list of contracts let by the Department of Housing and Urban Development. However, this list of credit report contractors is available in any FmHA office.

Accordingly, Chapter XVIII is amended as follows:

1. Part 1801 and Subpart B are hereby deleted and reserved.

2. A new Subpart B is added to Part 1910 and reads as follows:

Subpart B—Credit Reports (Individual)

PART 1910—GENERAL

Subpart B—Credit Reports (Individual)

§ 1910.51 Purpose

This Subpart prescribes the policies and procedures for obtaining individual type credit reports. Credit reports will be ordered for servicing existing loans or to determine the eligibility of applicants requesting Farmers Home Administration (FmHA) insured loans.

§ 1910.52 General.

(a) FmHA has joined with other Government agencies in obtaining credit reports from credit reporting companies which are under contract with the Department of Housing and Urban Development (HUD), Federal Housing Administration. HUD issues the invitation for bids and makes contract awards in behalf of HUD, Veterans Administration (VA), and FmHA on a fiscal year basis. While many contracts are let by HUD, not all are used by FmHA, therefore, County Supervisors are cautioned to order only from those firms listed in Exhibit A of this Subpart. Furthermore, special reports, supplemental employment reports, commercial credit reports, and special services, such as authorizing a contractor to obtain credit information by telephone, are not authorized.

(b) Credit reports may be ordered under the provisions of this Subpart only by FmHA employees.

(c) Exhibit A of this Subpart lists the names and addresses of credit bureaus (contractors), selected by FmHA from the HUD list of contractors, to be used for ordering credit reports, the areas covered by each, and the applicable fees.

(d) Regardless of the amount of the fee charged the Government, the cost charged the approved applicant for each credit report is $12. (This figure will not be used in verifying amounts invoiced.)

(e) The Finance Office will furnish each County and State Office with address rosters of the Credit Bureau Re-

ports, Inc., (CBR) affiliate bureaus serving their areas. Addresses of CBR affiliates in other states may be requested from the National Office when needed.

(f) Whenever Exhibit A does not list a contractor for a particular town or area, § 1910.4 of Subpart A of this Part will be followed for investigating the loan application or the County Supervisor may request, through the State Director, that the National Office establish a contract source for that town or area.

(g) Exhibit B is a sample format of an order ticket which is printed by and at the expense of the contractor and supplied to County Offices. CBR order ticket forms are supplied to the County Office through the Finance Office. If additional CBR order tickets are needed, they may be requisitioned from the Finance Office in accordance with Subpart C, Part 2024, Subchapter R of this Chapter (FmHA Instruction 2024-C). Order ticket forms of firms other than CBR may be ordered from the nearest local office of the contractor. Order tickets of one contractor must not be used to order credit reports from another. Only FmHA employees may use these order tickets. They will not be supplied to brokers, lenders, packagers, etc.

(h) Exhibits C, D, and E show the type of credit information that contractors must furnish on manual and computerized forms.

§ 1910.53 Policy.

A credit report will be obtained whenever the County Supervisor determines that credit information from a credit report would be helpful or needed to determine the eligibility of a loan applicant. The need for a credit report will be determined in accordance § 1910.58 of this Subpart, and § 1822.12(d), Subpart A, Part 1822, Subchapter B of this Chapter (paragraph XII D of FmHA Instruction 444.1), concerning a co-signer. Whenever possible, an "individual" credit report will be ordered as opposed to the more costly "joint" report.

§ 1910.54 Definitions.

(a) "Report period" is the 2-year period before the date the credit report is prepared.

(b) "Basic report" is a report that does not include supplemental or antecedent information and which contains all credit and public record information available covering no less than a two year period.

(c) "Supplemental Credit Reference Report" is a report which is required when the applicant lives in the bureau's reporting area but, because of shopping patterns, credit references are located in another bureau's reporting area.

(d) "Antecedent Report" is a previous residence report required when the minimum two year up-to-date credit coverage is not available in the bureau's reporting territory. The report contains information from another bureau located in an area outside of the area covered by the reporting bureau.

(e) "Individual Report" is a report providing information on one person only.

(f) "Joint Report" is a report providing information on both spouses (partners in marriage).

(g) "Order ticket" is the form used for ordering a credit report.

(h) "Special services" are any services which are not included in § 1910.54 (b), (c), and (d) of this Subpart and which will result in additional cost.

(i) For the purpose of this regulation, "Repository" is an entity engaged in gathering, recording, and updating information relative to the credit history of individuals in an area. The area covered may encompass several towns, cities, counties, or parts of counties.

§ 1910.55 Contractor bureau requirements.

(a) Unless the contract states otherwise, the contractor must provide *ALL* credit and public record information available for the report period as defined in § 1910.54(a) of this Subpart.

(b) The contractor must provide all information specified in Exhibit C, D, or E, except that employment information need not be reported.

(c) The contractor must make appropriate certifications regarding check and/or source of public records reporting and credit record history.

(d) The trade or credit history portion of the report must cover a minimum of two years brought up-to-date. Accounts must be rated to indicate past and current payment records and original amount, monthly installment, and unpaid balance of the debt. All additional available account information must be furnished. The contractor must clear bank, savings and loan, and credit union accounts and clear all local references indicating the date the account was cleared. The contractor should contact the applicant for interview purposes to obtain any additional information necessary to provide a quality report.

(e) Public record information must be obtained by special check of public records or, as an equivalent, from accumulated and regularly filed records of a qualified legal reporting service. All items of public record information must be reported except that adverse items are to be excluded as provided under paragraph 605 of the Fair Credit Reporting Act. For purposes of these contracts all adverse items may be excluded which outdate the report by seven years.

(f) Reports which do not require antecedent information shall be delivered by the contractor within eight working days of receipt of the order or twelve working days when antecedent information is required.

§ 1910.56–1910.57 [Reserved]

§ 1910.58 When to order credit reports.

The County Supervisor will determine the need and be responsible for ordering credit reports. Credit reports will be ordered from the contract source serving the area in which the applicant resides *when available information indicates that the applicant will likely be eligible for a loan*, except that reports usually will not be ordered when:

(a) A currently indebted FmHA borrower applies for a loan.

(b) An applicant resides in a remote area from which a credit report would be ineffective.

(c) The applicant's needs can be met with a small loan and the County Supervisor determines on the basis of available information that the applicant likely does not have debts other than those reported on the application.

(d) A current and reliable credit report has been delivered directly to FmHA by the reporting bureau rather than a third party. Packagers of Section 502 Rural Housing (RH) loan applications *will not* be encouraged to provide credit reports. Packagers may, however, at their discretion, order a credit report to be mailed directly to the FmHA office by the credit report source but FmHA will not pay for or collect fees from an applicant to pay for the report ordered by a packager.

(e) Available information indicates that a loan will not be made.

§ 1910.59 Circumstances requiring credit reports.

Pursuant to the Equal Credit Opportunity Act (ECOA), credit bureaus will maintain credit information in three different forms on a married couple: individual accounts on each spouse, joint accounts covering both spouses, and undesignated accounts (those accounts not designated by the credit grantor as either individual or joint accounts). The order ticket therefore, must designate the individual(s) on whom the report is to be prepared.

(a) "Individual" credit report: An "individual" report will be ordered in all cases other than that described in § 1910.59(b) of this Subpart. A separate order ticket will be prepared for each person for whom an "individual" report is requested.

(b) "Joint" credit report: When applicants are husband and wife, a "joint" report will be ordered if the income of both is needed to make a sound loan.

§ 1910.60 Processing order tickets.

Order tickets will be processed as follows:

(a) An original and 2 copies will be prepared, except that an extra copy will be furnished when requested by a credit bureau. The original and copy(ies) will be sent to the credit bureau servicing the place of residence of the applicant and 1 copy will be kept in the applicant's file.

(b) All appropriate entries on the order ticket will be completed. Extra entries for "special services", which would result in additional costs, are prohibited.

(c) The "former names," "address" and "how long residence" blocks must be completed. If an applicant has resided less than two years at the present address, the previous address block must be completed so that the contractor will know where to obtain an antecedent report.

(d) USDA/FmHA should appear on the order ticket with State and County Office Code, applicant's social security number, if available, and loan fund code. Loan fund codes are listed in Exhibit A of FmHA Instruction 450.1 (available in any FmHA Office). If an applicant is to receive more than one type of loan, use the loan fund code for the largest loan.

§ 1910.61 Invoicing and payments.

(a) Optional procedure #1:

(1) Contractor returns a copy of the order ticket (with billing detail block filled in) to the County Office with each credit report.

(2) County Office personnel verify the billing data against the schedule of charges shown in Exhibit A of this Subpart. If the report is acceptable and the billing data correct, the "Receipt" certification block on the order ticket is completed and it is sent to the Finance Office.

(3) The credit report approval date and cost is posted to the order ticket copy kept in the applicant's file.

(4) Contractor sends a monthly statement to the Finance Office with one copy of each order ticket attached. Through a computer process, these order tickets are matched with those certified as received (mentioned in paragraph (a)(2) of this section) and payment is made accordingly.

(b) Optional procedure #2:

(1) Contractor sends a monthly invoice to the County Office with a copy of the order ticket attached to support each credit report charge.

(2) County Office personnel verify the billing data against the schedule of charges shown in Exhibit A of this Subpart. If acceptable, a stamp or hand written certification and signature is placed on the invoice to the effect that services were satisfactorily rendered and that it is approved for payment. The invoice with attachments is then sent to the Finance Office.

(3) The credit report approval date and cost is posted to the order ticket copy kept in the applicant's file.

§ 1910.62 Loan Documentation procedure.

(a) When a loan is approved and a loan check will be issued by the Finance Office, a $12.00 charge will be included in the loan if only one credit report was ordered and received. The "YES" block will be checked in space 12 of Form 440-1, "Request for Obligation of Funds." If two or more credit reports were ordered and received, no funds will be included in the loan for credit reports and the "NO" block will be checked in space 12 of Form FmHA 440-1. In this case the County Supervisor will also indicate in the instructions to the closing official the amount to be collected for credit reports ($12 per credit report) from the applicant at loan closing. The credit report fees collected will be promptly forwarded to the County Supervisor to be remitted to the Finance Office in accordance with § 1910.62(d) of this Subpart. When an applicant receives more than one loan, the County Supervisor will indicate that a credit report was ordered on only the loan fund analysis form that coincides with the type of loan that was indicated on the original order ticket. When Form FmHA 440-41, "Disclosure Statement for Loans Secured by Real Estate," Form FmHA 440-58, "Estimate of Settlement Costs," or Form FmHA 440-59, "Settlement Statement," is required, the County Supervisor will enter the cost of the credit report on these forms in accordance with instructions contained in the appropriate Forms Manual Issue (FMI).

(b) When a loan is approved and a loan check will not be issued by the Finance Office, the cost to the applicant for the credit report ($12.00 per credit report) will be collected at the time of loan closing by the designated loan closing official. In such cases, the credit report fee will be handled in accordance with § 1910.62(d) of this Subpart.

(c) When a loan is not approved, when an approved loan will never be closed, or when a servicing case is involved, the credit report fee will be paid by the Finance Office.

(d) Any funds collected for the payment of credit reports will be handled in accordance with FmHA Instruction 451.2 (available in any FmHA Office). The loan fund code should appear on the "Schedule of Remittances." Loan fund codes are listed in Exhibit A of FmHA Instruction 450.1. Such payments will not reduce the amount due on the borrower's loan indebtedness.

§ 1910.63 Unsatisfactory contractor performance.

Late, incomplete, or inadequate credit reports should be brought to the attention of the Contracting Officer in the Business Services Division of the National Office. If preferred, the County Supervisor may, through the State Office, notify the credit bureau's parent office of any unsatisfactory performance of their local bureau.

§ 1910.64 Confidential handling of credit reports.

Under the terms of current contracts, a credit report shall be furnished to FmHA County Supervisors upon request. The confidential information furnished to FmHA shall be used as an aid in conducting business and is based on information obtained by the credit bureau from sources deemed reliable. Disclosures of information contained in the credit report to the consumer will be made by the credit bureau making the report as required by the Fair Credit Reporting Act, Public Law 91-508, except that FmHA must make credit reports available to the subject of the report in response to a request made under the Privacy Act of 1974. Requests from credit parties, including credit bureaus, concerning information about FmHA borrowers or applicants will be handled in accordance with the provisions of FmHA Instruction 2018-F.

§ 1910.65–1910.100 [Reserved]

NOTE.—Exhibit A—Credit Report Contractors, Current Prices, and Geographical Coverage, Exhibit B—Request for Factual Data Report, Exhibit C—Factual Data Report on Borrower, Exhibit D—Confidential Report on Computer Form 100, and Exhibit E—Confidential Report on Computer Form 2000 are filed as part of the original document and are available at any FmHA office.

This regulation has not been determined significant under the USDA criteria implementing Executive Order 12044.

Pursuant to the National Environmental Policy Act of 1969 (424 SC 4321 et seq.), the Farmers Home Administration has prepared an Environmental Impact Assessment for these amended rules and has determined that they do not constitute a major Federal action significantly affecting the quality of the human environment, and an Environmental Impact Statement is not required.

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 444.5]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart D—Rural Rental Housing Loan Policies, Procedures, and Authorizations

AMENDMENT

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding the obligation of loan funds for Rural Rental Housing loans. The intended effect of this action is to decrease the amount of time involved in obligating loan funds for rental projects. In doing this a more accurate status of obligations will be available for planning purposes. This action is taken as a part of an administrative action regarding loan obligations

EFFECTIVE DATE: January 21, 1979.

FOR FURTHER INFORMATION CONTACT:

Paul R. Conn, (202) 447-7207.

SUPPLEMENTARY INFORMATION: Various sections of Subpart D, Part 1822, Chapter XVIII, Title 7 in the Code of Federal Regulations are amended to use sexually neutral terms, connect references, provide for the FmHA's recent internal reorganization and allow the State Director to telephone the Finance Office Check Request Station and request that loan funds for a particular project be obligated. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption of 5 U.S.C. 553 with respect to such rules. This amendment, however, is being published effective as a final rule. A copy of the Impact Statement prepared by FmHA is available at the FmHA National Office in Washington, DC. Publication for comment is unnecessary because this amendment is revising the internal procedure for the obligation of funds. This determination was made by Russell Gibler, Loan Officer, Room 5336.

Therefore, various §§ of Part 1822, Subpart D are amended as follows:

§ 1822.93 [Amended]

1. In § 1822.93, paragraph (a), line 4, change "Subpart B of Part 1810" to "Part 1901, Subpart A."

2. In § 1822.93, paragraphs (b)(2)(i), (i)(A), (B) and (C) are amended and (b)(2)(i)(D), (E) and (F) are added and read as follows:

§ 1822.93 Loan approval.

* * * * *

(b) *Loan approval action.*

* * * * *

(2) *Approval or disapproval of a loan.*

(i) *Approval.* When a loan is approved:

(A) The approval official will prepare and sign Form FmHA 440-1 in an original and two copies. The State Director or a designee will telephone the Finance Office Check Request Station requesting that loan and/or grant funds for a particular project be obligated.

(B) Immediately after contacting the Finance Office, the requesting official will furnish the requesting office's security identification code. Failure to furnish the security code will result in the rejection of the request for obligation. After the security code is furnished, all information contained on Form FmHA 440-1 will be furnished the Finance Office. Upon receipt of the telephone request for obligation of funds, the Finance Office will record all information necessary to process the request for obligation in addition to the date and time of request.

(C) The individual making the request will record the date and time of request and sign Form FmHA 440-1 in section 37.

(D) The Finance Office will terminally process telephone obligation requests. Those requests for obligation received before 2:30 p.m. Central Time will be processed on the date of the request. Requests received after 2:30 p.m. Central Time to the extent possible will be processed on the date received; however, there may be instances in which a request will be processed on the next working day.

(E) Each working day the Finance will notify the State Office by telephone of all projects for which funds were reserved during the previous night's processing cycle and the date of obligation. If funds cannot be reserved for a project, the Finance Office will notify the State Office that funds are not available within the State allocation. The obligation date will be 6 working days from the date the request for obligation is processed in the Finance Office. The Finance Office will mail to the State Offices Form FmHA 440-57, "Acknowledgment of Obligated Funds/Check Request," confirming the reservation of funds with the obligation date inserted as required by item No. 9 on the FMI for Form FmHA 440-57.

(F) After notification by the Finance Office that the funds have been reserved, the original only of Form FmHA 442-14 will be mailed to the Finance Office. Forms FmHA 440-1 for those obligations requested by telephone *will not* be mailed to the Finance Office. Immediately after notification by telephone of the reservation of funds for not-for-profit organizations and public bodies, the State Director will call the Information Division in the National Office as required by FmHA Instruction 2015-C. Notice of approval to the applicant will be accomplished by mailing the applicant's signed copy of Form 440-1 on the obligation date. The State Director or the State Director's designee will record the actual date of application notification on the original of Form FmHA 440-1 and include the original of the form as a permanent part of the County Office project file with a copy in the State Office file.

3. In § 1822.93, paragraph (b)(2)(ii), lines 6 and 7, change "County Supervisor" to "District Director."

4. In § 1822.93, paragraph (b)(3)(i), lines 2 and 3 delete the phrase "and Form FmHA 440-1, (copy)." and change the comma after "(original)" in line 2 to a period.

5. In § 1822.93, paragraph (b)(3)(iii), line 1, change "County" to "District."

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70)

This regulation has not been determined significant under the USDA criteria implementing Executive Order 12044.

Dated: January 10, 1979.

[FmHA Instruction 444.8]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart G—Rural Housing Site Loan Policies, Procedures, and Authorizations

AMENDMENT

AGENCY: Farmers Home Administration, USDA.

ACTION: Final Rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding the obligation of loan funds for Rural Housing Site loans. The intended effect of this action is to decrease the amount of time involved in obligating loan funds for rural housing site projects. In doing this a more accurate status of obligations will be available for planning purposes. This action is taken as a result of an administrative improvement to the obligation process.

EFFECTIVE DATE: January 21, 1979.

FOR FURTHER INFORMATION CONTACT:

Paul R. Conn, (202) 447-7207.

SUPPLEMENTARY INFORMATION: §§ 1822.271 and 1822.272 of Subpart G, Part 1822, Chapter XVIII of Title 7 in the Code of Federal Regulations are amended to use sexually neutral terms, connect references, provide for FmHA's internal reorganization and allow the State Director to telephone the Finance Office Check Request Station and request that loan funds for a particular project be obligated and to make other additional changes. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption of 5 U.S.C. 553 with respect to such rules. This amendment, however, is being published effective as a final rule. A copy of the Impact Statement prepared by FmHA is available at the FmHA National Office in Washington, D.C. Publication for comment is unnecessary because this amendment is reviewing the internal procedure for the obligation of funds. This determination was made by Russell Gibler, Loan Officer, Room 5331.

As amended § 1822.271 reads as follows:

§ 1822.271 [Amended]

1. In § 1822.271, paragraph (f), line 4, change the first two words, "County Supervisor's" to "District Director's."

2. In § 1822.271, paragraph (g)(2), lines 9 and 10, delete the words "he may have."

3. In § 1822.271, paragraph (g)(3), line 4, change "County Supervisor with his" to "District Director with any."

4. In § 1822.271, paragraph (g)(4), line 2, change "him" to "The State Director."

5. In § 1822.271, paragraph (g)(5), lines 4 and 5, change "County Supervisor" to "District Director."

6. § 1822.272 is revised to read:

§ 1822.272 Approval or disapproval of a loan.

The provisions of paragraph (b)(2) of § 1822.93 Subpart D of this Part will be followed.

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70)

This regulation has not been determined significant under the USDA criteria implementing Executive Order 12044.

Dated: January 10, 1979.

[3410-07-M]

SUBCHAPTER E—ACCOUNT SERVICING

[FmHA Instructions 451.3 and 451.5]

PART 1861—ROUTINE

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulations regarding the servicing of group type loans. The intended effect of this action is to consolidate and reduce the number of forms required to service loans. This action is taken as a result of an administrative decision.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Lynn L. Pickinpaugh, 202-447-5044.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration amends various sections of Subparts C and F of Part 1861, Chapter XVIII, Title 7 in the Code of Federal Regulations by changing the number and title of an FmHA Form used for servicing loans, and by changing a reference from one Part to another. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This regulation, however, is being published as a final rule. A copy of the Impact Statement prepared by FmHA is available in the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room, 6316, Washington, D.C. 20250.

Publication for comment is unnecessary because the actions taken are simply the substitution of one form number for another and a change in reference from one Part to another. Also, because the change of forms will increase service to the public and decrease the Government's cost of providing this service, any delay in changing program regulations would result in a delay in using the new form which would be contrary to the public interest. This determination was made by Mr. Lynn L. Pickinpaugh, Director, Production Loan Division, Farmers Home Administration. This regulation has not been determined significant under the USDA criteria implementing Executive order 12044.

Therefore, Part 1861 is amended as follows:

§ 1861.46 [Amended]

1. In subpargraph (i) (2) of § 1861.46, line 7, change "460-6, 'Release (UCC States)'" to "462-12, 'Statements of Continuation, Partial Release, Assignment, etc'."

§ 1861.84 [Amended]

2. In paragraph (d)(1) of § 1861.84, line 5, change "§ 1871.8" to "§ 1962.17," in line 10 change "§ 1871.13" to "§ 1962.27" and in lines 13 and 14, change "460-6 'Partial Release (UCC States)' to 462-12, Statements of Continuation, Partial Release, Assignment, etc."

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70; delegation of authority by Director, OEO 29 FR 14764, 33 FR 9850.)

Dated: December 22, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

[3410-07-M]

SUBCHAPTER J—REAL PROPERTY

[FmHA Instruction 1933-I]

PART 1933—LOAN AND GRANT PROGRAM (GROUP)

Subpart I—Self-Help Technical Assistance

AGENCY: Farmers Home Administration, USDA.

V 4 4 / 1 5 J A 2 2 7 9 UMI

ACTION: Final Rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding the obligation of grant funds for Self-Help Technical Assistance Grants. The intended effect of this action is to decrease the amount of time involved in obligating grant funds for Technical Assistance grant projects. In doing this a more accurate status of obligations will be available for planning purposes. This action is taken as a result of an administrative improvement in the obligation process.

EFFECTIVE DATE: January 21, 1979.

FOR FURTHER INFORMATION CONTACT:

Paul R. Conn, (202) 447-7207.

SUPPLEMENTARY INFORMATION: §§ 1933.414 and 1933.416 of Subpart J, Part 1933, Chapter XVIII, Title 7 in the Code of Federal Regulations are amended to allow the State Director to telephone the Finance Office Check Request Station and request that grant funds for a particular project be obligated. Changes have also been made to reflect the administrative reorganization. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption of 5 U.S.C. 553 with respect to such rules. This amendment, however, is being published effective as a final rule. A copy of the Impact Statement prepared by FmHA is available at the FmHA National Office in Washington, D.C. Publication for comment is unnecessary because this amendment is revising the internal procedures for the obligation of funds. This determination was made by Russell Gibler, Loan Officer, Room 5331.

Sections 1933.414 and 1933.416, are amended as follows:

§ 1933.414 [Amended]

1. In § 1933.414, paragraph (a), line 5, change "County Supervisor" to "District Director."

2. In § 1933.414, paragraph (b)(1), lines 1 and 2, change "County Supervisor" to "District Director."

3. In § 1933.416, paragraph (b) is amended to read as follows:

§ 1933.416 Approval and closing.

* * * * *

(b) *Approval of grant.*

The provisions of paragraph (b)(2)(i) of § 1822.93 Subpart D of Part 1822 Subchapter B of this chapter will be followed.

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70)

This regulation has not been determined significant under the USDA criteria implementing Executive Order 12044.

Dated: January 10, 1979.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

CHATTEL SERVICING REGULATIONS

Redesignation and Revision

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule with comments requested.

SUMMARY: The Farmers Home Administration is redesignating and revising its chattel servicing regulations. The intended effect of this action is to simplify the regulations. This action is being taken as a result of an administrative restructuring of its program regulations.

DATES: Effective date: January 22, 1979. However, comments must be received on or before March 23, 1979.

ADDRESSES: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mr. Lynn L. Pickinpaugh, 202-447-5044.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration amends its regulations by deleting Part 1930 Subpart A, establishing a new subpart A Part 1962, in Chapter XVIII, Title 7, in the Code of Federal Regulations and by making corresponding reference changes.

In addition to redesignation, the following changes are made for clarification or to include provisions of the Agricultural credit Act of 1978:

1. Authorize the use of Form FmHA 462-12, "Statement of Continuation, Partial Release, Assignment, etc." in lieu of FmHA Forms 460-7, "Termination Statement"; 460-6, "Release (U.C.C. States)"; 462-7, "Continuation Statement"; and Form FmHA 462-12, "Continuation of Termination Statement."

2. Section 1962.26 authorizes the County Supervisor to use Form FmHA 462-12 to correct minor errors in a Financing Statement.

3. Section 1962.30 (a) authorizes the subordination of chattel liens securing operating loans for any authorized operating loan purposes.

4. Section 1962.30 (c) restricts the approval of a subordination of a chattel lien securing an EM loan to the State Director if the State Director approved the EM loan.

5. Section 1962.34 paragraphs (a) and (b) establish the interest rate for transfers to eligibles and ineligibles at the current interest rate except for applicants eligible for limited resource loans, the interest rate will be 5 percent.

6. Section 1962.34 (c) deletes reference to the effect of wife's signature.

7. Section 1962.49 (a)(2) increases the maximum amount of claim that will not be referred to the OGC from $400 to $600.

8. Section 1962.49 (a)(3)(4) transfers responsibility for accelerating a borrower's account and sending converters' demand letters from the District Director to the County Supervisor.

9. Section 1962.49 (c)(2) emphasizes the need for FmHA to thoroughly investigate and obtain the information necessary to account for security property and the preparation of requests for legal action before requesting the assistance of the Office of Investigation.

10. The requirement for the County Supervisor to report the amount of other credit used by borrowers who do not receive a subsequent OL is deleted.

11. The requirement for the County Committee to certify the amounts of loans to be assumed by an eligible applicant is deleted.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comments notwithstanding the exemption in 5 U.S.C. 533 with respect to such rules. This regulation, however, is being published as a rule, with a request for comments, since the purpose of the change is to restructure existing regulations and incorporate provisions of the Agricultural Credit Act of 1978. Also, due to the demand for loans and the financial condition of farmers, any delay in issuing the regulations would be contrary to the public interest. The only substantive changes are those authorized by the Agricultural Credit Act of 1978. Any other change is the reorganization and redesignation of present regulations.

The Agency is, however, interested in receiving public comments which

should be submitted to the address given above.

Accordingly, Part 1930, Subpart A, is deleted, the new Subpart A of Part 1962 is added, and all cross reference changes are made as follows:

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

PART 1822—RURAL HOUSING LOANS AND GRANTS

1. In Subpart A, Exhibit E, paragraph 8 (b) (2), last line, change "§ 1871.22" to "Part 1962 Subpart A". In paragraph 8 (c) (3) (i), third line, change "§ 1871.22 (c)" to "Part 1962 Subpart A".

SUBCHAPTER E—ACCOUNT SERVICING

PART 1861—ROUTINE

§ 1861.1 [Amended]

2. In § 1861.1 (b) (2), change the reference from "Part 1930, Subpart A" to "§ 1962.48 (b) of Subpart A of Part 1962".

3. In § 1861.8 (a), change the reference from "Part 1930, Subpart A" to "§ 1962.27 of Subpart A of Part 1962".

PART 1864—DEBT SETTLEMENT

§ 1864.2 [Amended]

4. In § 1864.2, paragraphs (d) and (k) change the reference from "Part 1930, Subpart A" to "Part 1962 Subpart A".

§ 1864.17 [Amended]

5. In § 1864.17 (a) (1) change the reference from "Part 1930 Subpart A" to "Part 1962, Subpart A".

PART 1866—FINAL PAYMENT ON LOANS SECURED BY REAL ESTATE

§ 1866.1 [Amended]

6. In § 1866.1 (b) (1), change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

SUBCHAPTER F—SECURITY SERVICING AND LIQUIDATIONS

PART 1872—REAL ESTATE SECURITY

§§ 1872.11, 1872.14, 1872.15, 1872.17 and 1872.22 [Amended]

7. In §§ 1872.11 (b), 1872.14, 1872.15 (c), 1872.17 (e) and 1872.22, change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

SUBCHAPTER I—LOAN AND GRANT PROGRAMS (INDIVIDUAL)

PART 1930—BORROWER PROPERTY SECURITY SERVICING (INDIVIDUAL)

Subpart A—[Reserved]

8. Part 1930, Subpart A [Deleted and Reserved].

SUBCHAPTER K—PROPERTY MANAGEMENT

PART 1955—REAL ESTATE AND CHATTEL PROPERTIES

§ 1955.15 [Amended]

9. In § 1955.15 (d) (15) (i) change the reference from "Subpart A of Part 1930" to "§ 1962.49 (e) of Subpart A of Part 1962".

SUBCHAPTER L—LOAN AND GRANT MAKING

PART 1941—OPERATING LOANS

§ 1941.42 [Amended]

10. In § 1941.42, change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

PART 1943—FARM OWNERSHIP AND SOIL AND WATER

§ 1943.19 [Amended]

11. In § 1943.19(c)(5), change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

§ 1943.42 [Amended]

12. In § 1943.42, change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

§ 1943.69 [Amended]

13. In § 1943.69(c)(7), change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

§ 1943.92 [Amended]

14. In § 1943.92, change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

§ 1943.119 [Amended]

15. In § 1943.119(d)(6), change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

§ 1943.142 [Amended]

16. In § 1943.142, change the reference from "Subpart A of Part 1930" to "Part 1962 Subpart A".

SUBCHAPTER N—SECURITY SERVICING

17. Part 1962, "Personal Property", is added to Subchapter N and Subchapter A, "Servicing and Liquidation of Chattel Security" is added and reads as follows:

PART 1962—PERSONAL PROPERTY

Subpart A—Servicing and Liquidation of Chattel Security

Subpart A—Servicing and Liquidation of Chattel Security

§ 1962.1 Purpose.

This subpart delegates authorities and gives procedures for servicing, care, and liquidation of Farmers Home Administration (FmHA) chattel security, Economic Opportunity (EO) loan property, and note only loans.

§ 1962.2 Policy.

(a) Chattel security, EO property and note only loans will be serviced to accomplish the loan objectives and protect to FmHA's financial interest. To accomplish these objectives, security will be serviced in accordance with the security instruments and related agreements, including any authorized modifications: *Provided*, The borrower has reasonable prospects of accomplishing the loan objectives, properly maintains and accounts for the security, and otherwise satisfactorily meets the loan obligations including repayment.

(b) If the objectives of Paragraph (a) of this section cannot be met, or if the chattel security must be liquidated for other reasons, the security will be liquidated promptly to protect FmHA's financial interest. Normally, the borrower will dispose of chattel security and EO property at a public or private sale. However, when this cannot be done, the County Supervisor will take possession of and sell chattel security in accordance with this subpart.

§ 1962.3 Authorities and responsibilities.

(a) *Redelegation of authority.* Authority will be redelegated to the maximum extent possible consistent with program requirements and available resources. The State Director, District Director and County Supervisor are authorized to redelegate, in writing, any authority delegated to them in this subpart to any employee determined by them to be qualified.

(b) *Responsibilities*—(1) *FmHA personnel.* The State Director, District Director and County Supervisor are responsible for carrying out the policies and procedures in this subpart.

(2) *Borrower.* The borrower is responsible for repaying the loans, maintaining, protecting, and accounting to FmHA for all chattel security, and complying with all other requirements specified in promissory notes, security instruments, and related documents.

§ 1962.4 Definitions.

(a) *Abandonment.* Voluntary relinquishment by the borrower of control of security or EO property without providing for its care.

(b) *Acquired chattel property.* Former security or EO property of which FmHA has become the owner (See § 1955.20 of Subpart A of Part 1955 of this chapter).

(c) *Chattel property.* Crops; livestock; fish; farm, business, and recreational equipment; supplies; farm products; other personal property; and fixtures.

(d) *Chattel security.* Chattel property covered by FmHA financing statements and security agreements, chattel mortgages, and other security instruments. As used in this Subpart, the term "security" also means "chattel security" when appropriate.

(e) *Civil action.* Court proceedings to protect FmHA's financial interests such as obtaining possession of property from borrowers or third parties, judgments on indebtedness evidenced by notes or other contracts or judgments for the value of converted property, or judicial foreclosure. Bankruptcy and similar proceedings to impound and distribute the bankrupt's assets to creditors and probate and similar proceedings to settle and distribute estates of incompetents or of decedents under a will, or otherwise, and pay claims of creditors are not included.

(f) *Criminal action.* Prosecution by the United States to exact punishment in the form of fines or imprisonment for alleged violations of criminal statutes. These include but are not limited to violations such as:

(1) Unauthorized sale of security with intent to defraud;

(2) Purchase of security with intent to defraud and without payment of the purchase price to FmHA;

(3) Falsification of assets or liabilities in loan applications;

(4) Application for a loan for an authorized purpose with intent to use and use of loan funds for an unauthorized purpose;

(5) Decision after obtaining a loan to use and using the funds for an unauthorized purpose and then making false statements regarding their use;

(6) By scheme, trick, or other device, covering up or concealing misuse of funds or unauthorized dispositions of security or EO property or other illegal actions; or

(7) Any other false statements or representations relating to FmHA matters. To establish that a criminal act was committed by selling EO property, it is necessary to show that the borrower, at the time the loan agreement, or the check on the supervised bank account was signed, intended to sell the property in violation of the loan agreement. The Federal criminal statute of limitations bars institution of criminal action five years after the date the act was committed. When actions by borrowers represent minor deviations from the policies expressed in FmHA regulations, such actions are not considered criminal violations for the purposes of this Subpart. Examples of such minor deviations are failure of the borrower to account properly for nominal amounts derived from the sale of security or for minor items of security. However repeated, unauthorized disposition of even minor items by the borrower will be considered criminal violations.

(g) *Default.* Failure of the borrower to observe the agreements with FmHA as contained in notes, security instruments, and similar or related instruments. Some examples of default or factors to consider in determining whether a borrower is in default are when a borrower:

(1) Is delinquent, and the borrower's refusal or inability to pay on schedule, or as agreed upon, is due to lack of diligence, lack of sound farming or other operation, or other circumstances within the borrower's control.

(2) Ceases to conduct farming or other operations for which the loan was made or to carry out approved changed operations.

(3) Has disposed of security or EO property without FmHA approval, has not cared properly for such property, has not accounted properly for such property or the proceeds from its sale, or taken some action which resulted in bad faith or other violations in connection with the loan.

(4) Has progressed to the point to be able to obtain credit from other sources, and has agreed in the note or other instrument to do so but refuses to comply with that agreement.

(h) *EO property.* Nonsecurity chattel property purchased, refinanced, or improved with EO loan funds.

(i) *EO property essential for minimum family living needs.* Nonsecurity chattel or real property required to provide food, shelter, or other necessities for the family or to produce income without which the family would not have such necessities. This includes livestock, poultry, or other animals used as food or to produce food for the family or to produce income for minimum essential family living needs; modest amounts of real property needed for family shelter or to produce food or income for minimum essential family living needs, and items such as equipment, tools, and motor vehicles, which are of minimum value and are essential for family living needs or to produce income for that purpose. Any such item of a value in excess of the minimum need may be sold and a portion of the sale proceeds used to purchase a similar item of less value to meet such need. The remainder of the proceeds will be paid on the EO loan.

(j) *FmHA.* The United States of America, acting through the Farmers Home Administration and its predecessor administrative agencies.

(k) *Foreclosure sale.* Act of selling security either under the "Power of Sale" in the security instrument or through court proceedings.

(l) *Liquidation.* The act of selling security or EO property to close the loan when no further assistance will be given; or instituting civil suit against a borrower to recover security or EO property or against third parties to recover security or its value or to recover amounts owed to FmHA; or filing claims in bankruptcy or similar proceedings or in probate or administrative proceedings to close the loan.

(m) *Office of the General counsel (OGC).* The Regional Attorneys, Attorneys-in-Charge, and National Office staff of the Office of the General Counsel of the United States Department of Agriculture.

(n) *Purchase money security interest.* Special type of security interest which, if properly perfected, takes priority over an earlier-perfected security interest. A security interest is a purchase money security interest to the extent that it is taken by the seller of the collateral to secure all or part of its purchase price or by a lender who makes loans or is obligated to make loans or otherwise gives value to enable the debtor to acquire the particular collateral or obtain rights in it. Such value must be given not later than the time the debtor acquires the collateral or obtains rights in it.

(o) *Repossessed property.* Security or EO property in FmHA's custody, but still owned by the borrower.

§ 1962.5 Security instruments.

County Supervisors are responsible for maintaining security instruments that will cover all security, including replacements, increases, and other after-acquired property, and for obtaining additional security as needed. They will execute continuation, extension, or renewal of security instruments as needed to protect FmHA's security interests.

(a) *Financing statement.* An FmHA Financing Statement is effective as notice for 5 years from the date of filing. A new statement needs to be taken and filed only if the debt is to be secured by property not described specifically or by type, or by crops growing or to be grown, or fixtures located or to be located on land not described on the filed statement.

(b) *Continuing the financing statement.* A filed statement must be continued to notify third parties after the original 5-year period. Form FmHA 462-12, "Statements of Continuation, Partial Release, Assignment, Etc." must be filed within 6 months before the end of the original 5-year period. On filing Form FmHA 462-12, the filed Financing Statement is effective for 5 more years after the date to which the original filing was effective. Successive Continuation Statements may be filed to continue the notice to third parties. A lien search is unnecessary provided the Continuation Statement is properly filed. Form FmHA 462-11, "Request for Continuation Statement Filing Fee," may be used to notify the borrowers to continue the Financing Statement and to submit the amount of the filing fee.

(v) *Security agreement.* A new security agreement will be taken when:

(1) Property not covered by specific description or the printed language of the previous security agreement is to serve as security for the debt; or

(2) It is necessary to obtain or maintain a security interest in crops; or

(3) It is necessary to supplement the security agreement to obtain an asset for security. A State supplement will be issued when considered necessary by the State Director and OGC to further explain the situations requiring the taking of an additional security agreement. Such additional security agreement usually will be taken at about the time of the annual inspection of the security required by § 1962.18 of this Subpart; or

(4) An initial Operating (OL) loan or Emergency (EM) loan is made to an applicant, including a paid-in-full OL or EM borrower.

(d) *Chattel mortgage.* In those States which require the use of chattel mortgages, such a mortgage may be extended or renewed by obtaining a new chattel mortgage or by using a form approved for this purpose by OGC. However, it is preferable to renew or extend chattel mortgages by obtaining new ones unless there are intervening liens or other legal reasons. A State supplement will be issued stating the actions to follow to ensure that:

(1) FmHA liens and their priority are maintained by renewing or extending security instruments or by obtaining new instruments.

(2) Lien searches are made as necessary to determine that FmHA will obtain the required priority of liens.

§ 1962.6 Liens and assignments on chattel property.

(a) *Chattel property not covered by FmHA lien.* (1) When additional chattel property not presently covered by an FmHA lien is available and needed to protect FmHA's interest, the County Supervisor will obtain one or more of the following:

(i) A lien on such property.

(ii) An assignment of the proceeds from the sale of agricultural products when such proceeds are not covered by the lien instruments.

(iii) An assignment of other income, including Agricultural Conservation Program payments.

(2) When a current loan is not being made to a borrower, a crop lien will be taken as additional security when the County Supervisor determines in individual cases that it is needed to protect FmHA interests. However, a crop lien will not be taken as additional security for Farm Ownership (FO), Rural Housing (RH), Labor Housing (LH), and Soil and Water (SW) loans. When a new security agreement or chattel mortgage is taken, all existing security items will be described on it.

(b) *Lien search.* When a lien is taken on chattel property not covered by an FmHA lien, a lien search will be made. It will not be needed, however, if crops or other chattel property are covered by a filed FmHA Financing Statement but not by on FmHA security agreement or assignment of income. The search will be made at a time which will assure that FmHA obtains the desired lien on chattel property as set forth by a State supplement.

(c) *Assignment of wheat certificates payments and feed grain payments.* Borrowers may assign Agricultural Stabilization and Conservation Service (ASCS) price support and certificate payments under ASCS wheat and feed grain programs.

(1) *Obtaining assignments.* Assignments will be obtained as follows:

(i) In selected cases in counties agreed to by FmHA State Directors and ASCS State Committees,

(ii) Only when it appears necessary to collect the FmHA operating-type loans,

(iii) Only for the crop year for which FmHA operating-type loans are made, and

(iv) For the full amount of the wheat certificate payment and an advance and/or final feed grain payment.

(2) *Selecting counties.* State Directors will inform ASCS State Committees of the counties in which FmHA desires to obtain assignments from borrowers. When counties have been agreed to by FmHA State Directors and ASCS State Committees, the State Directors will notify the appropriate County Supervisors about obtaining the assignments. The County Supervisors then will:

(i) Determine, at the time of loan processing for indebted borrowers and new applicants, who must give assignments and obtain them not later than loan closing. Special efforts will be made to obtain the bulk of assignments before the sign-up period for enrolling in the annual Feed Grain and Wheat set aside programs.

(ii) Obtain assignments from selected borrowers on Form FmHA 462-8,

V 4 4 / 1 5 JA 22 79 UMI

"Wheat and Feed Grain Programs—Assignments."

(3) *Determining payments.* Under the Agricultural Act of 1970, the per bushel rates of payments to participating producers are determined in part by the average market prices for corn, grain sorghums, barley, and wheat during the first 5 months of the respective marketing years. Preliminary payments, at specified rates for corn, grain sorghums, and barley and at 75 percent of the estimated final rate for wheat, will be made promptly after July 1. Final payments, if any, will be made after determining the rates of payment.

(4) *Releasing assignments and handling checks.* (i) The County Supervisor will inform the ASCS County Office that it is releasing its assignment whenever a borrower pays FmHA the amount due for the year on the operating-type loan debt or pays the debt in full.

(ii) Checks obtained as a result of an assignment will be made jointly to the producer and FmHA. Such checks may be endorsed by both parties and scheduled as a payment or payments to FmHA, or endorsed and released, including partial release, to the borrower if the borrower has paid FmHA the amount due for the year on the operating-type loan or has paid the debt in full.

§ 1962.7 Securing unpaid balances on unsecured loans.

The County Supervisor will take a lien on a borrower's chattel property in accordance with § 1962.6 of this Subpart if it is necessary to rely on such property for the collection of the borrower's unsecured indebtedness, or if it will assist in accomplishing loan objectives.

§ 1962.8 Liens on real estate for additional security.

The County Supervisor may take the best lien obtainable on any real estate owned by the borrower, including any real estate which already services as security for another loan. Such liens will be taken only when the existing security is not adequate to protect FmHA interests, and the borrower has substantial equity in the real estate to be mortgaged, and taking such mortgage will not prevent making an FmHA real estate loan, if needed, later.

(a) *Documentation.* Before taking real estate as additional security for an FmHA loan, the following information will be put in the running record:

(1) Facts justifying the real estate lien;

(2) An estimate of the present market value of the real estate to be mortgaged (no appraisal of the property to be mortgaged is needed);

(3) A brief description of any existing liens on the property and the unpaid balance on the debts secured by such existing liens; and

(4) Name of the titleholder and how title of the property is held. (Title evidence is not required.)

(b) *Forms.* Form FmHA 427-1 (State), "Real Estate Mortgage for ———" will be used for each real estate lien taken as additional security unless a State Supplement requires a form of mortgage comparable to that which secures the existing loans. The notes evidencing the FmHA loans for which the additional security will be taken will be described in the same mortgage.

§ 1962.9 Lien on chattel property as security for a real estate loan.

Form FmHA 440-15, "Security Agreement (Insured Loans to Individuals)," and Form FmHA 440A25, "Financing Statement (carbon-interleaved)," or Form FmHA 440-25, "Financing Statement," as appropriate, will be used in Uniform Commercial Code (UCC) States. State supplements may provide for using other forms in Louisiana, Puerto Rico, Guam, American Samoa and the Northern Mariana Islands.

§§ 1962.10–1962.11 [Reserved]

§ 1962.12 Marking ASCS peanut and tobacco marketing cards.

The County Supervisor will mark ASCS marketing cards for all borrowers who have peanut or tobacco crops under lien to FmHA.

(a) *Marking cards.* Just before ASCS prepares the cards, the FmHA County Office will give the appropriate ASCS County Office lists of the names and addresses of FmHA borrowers whose cards are to be marked and inform the office that FmHA will mark the cards of each borrower whose name is on the list before delivery. After FmHA determines that the cards are ready for delivery, the County Supervisor or someone designated by the County Supervisor will go to the ASCS County Office and:

(1) Stamp or insert "FmHA lien" in script in indelible ink on the cards for peanuts and tobacco, except flue-cured and burley tobacco, wherever decided by the FmHA County Supervisor and the ASCS County Office Manager.

(2) Stamp or insert "FmHA lien" in script in indelible ink on borrower's Form MQ 76, "Tobacco Marketing Card," for flue-cured and burley tobacco. The stamp will be placed on the left at the bottom of the signature strip under "Tobacco Marketing Card."

(3) If the borrower satisfies the lien or repays the amount due the current year, stamp "canceled" across "FmHA lien" followed on the same line by the name of the official making the cancellation and the date.

(b) *Notice to borrowers.* The County Supervisor will inform borrowers of marking arrangements, including the requirements for canceling the lien notice on the card.

(c) *Notice to buyers.* Whenever possible, the County Supervisor will explain these arrangements personally to buyers (warehousemen and dealers in the case of tobacco) in the area. The County Supervisor will also explain that the lien notice on the cards is not in place of the notice given by filed or recorded lien instruments but is a courtesy and is to provide them with readily available current information. However, this information may not always be accurate and commodities covered by a card not stamped "FmHA lien" may still be subject to an FmHA lien. If too many buyers are in the area to enable the County Supervisor to make such a personal explanation, the County Supervisor may write them a letter explaining the arrangements.

§ 1962.13 Lists of borrowers given to business firms.

List of borrowers whose chattels or crops are subject to an FmHA lien may be made available to business firms in a trade area, such as salesbarns and warehouses, that buy chattels or crops or sell them for a commission. The County Supervisor will give these lists to any such firm on its request. These lists will exclude those borrowers whose only crops for sale require ASCS marketing cards.

(a) The list will contain the statement: "The crop and chattel liens or financing statements of the Farmers Home Administration are recorded or filed as required by law. This list of borrowers is furnished only as a convenience. It may be incomplete or inaccurate as of any particular date. The fact that a name is not on this list does not necessarily mean that the Farmers Home Administration does not have security interest in or lien on the crops, livestock, and other chattels."

(b) Lists will be sent by Form FmHA 462-3, "List of Farmers Home Administration Borrowers," or the County Supervisor may consider it advisable to personally deliver and explain the form and list to the buyers. The County Supervisor will update all lists that have been distributed by notifying buyers in writing, on Form FmHA 462-14, "Change in List of Farmers Home Administration Borrowers," at least every 3 months, of the names of borrowers to add and to delete.

§ 1962.14 Account and security information in UCC cases.

Within 2 weeks after receipt of a written request from the borrower, FmHA must inform the borrower of the security and the total unpaid balance of the FmHA indebtedness covered by the Financing Statement.

(a) If FmHA fails to provide the information, it may be liable for any loss caused the borrower and, in some States, other parties, and also may lose some of its security rights. The UCC provides that the borrower is entitled to such information once every 6 months without charge, and that FmHA may charge up to $10 for each additional statement. However, FmHA provides them without charge. The requested information goes on Form FmHA 462-10, "Farmers Home Administration's Answer to Request for Information."

(b) Although the UCC only requires FmHA to give information pursuant to the borrower's written request, FmHA will also answer oral requests. Furthermore, the UCC does not prohibit giving this information to others who have a proper need for it, such as a bank or another creditor contemplating advancing additional credit to the borrower.

§§ 1962.15–1962.16 [Reserved]

§ 1962.17 Releasing chattel security.

Chattel security may be released only when release will not be to the financial detriment of FmHA. Borrowers will be strictly accountable to FmHA for the proper use of proceeds from the sale of security. Insurance proceeds derived from the loss of security will be treated the same as sale proceeds. The authority to release security for FmHA loans is different for basic security than for normal income security.

(a) *Basic security.* Basic security is all equipment (including fixtures in UCC States) and foundation herds and flocks securing FmHA loans which serve as a basis for the farming or other operation outlined in Form FmHA 431-2, "Farm and Home Plan," Form FmHA 431-3, "Family Budget," or Form FmHA 431-4, "Business Analysis Nonagricultural Enterprise," and replacement of such property. It also includes animals sold as a result of the normal culling process, unless the borrower has replacements that will keep numbers and production up to planned levels and animals or birds sold when a borrower plans to significantly reduce the basic livestock herd or flocks. County Supervisors may release basic security when the property has been sold or exchanged for its present market value, and the proceeds are used for one or more of the following purposes:

(1) To apply to the debts owed to FmHA which are secured by liens on the property sold.

(2) To purchase from the proceeds of the sale, or to acquire through exchange, property more suitable to the borrower's needs. The new property, together with any proceeds applied to the indebtness, will have security value to FmHA at least equal to that of the lien formerly held by FmHA on the old property and subject to the following:

(i) UCC cases. Under the after-acquired property provisions of the security agreement, the new propety, except fixtures, will be subject to the security interest of FmHA provided the financing statement on file and the security agreement cover the class of property. Therefore, new security instruments will not be needed.

(A) However, if either the financing statement or security agreement does not cover such property, a new instrument will be taken.

(B) Since the after-acquired property clause in the security agreement does not cover fixtures, a new security agreement would have to be taken for them. A new financing statement also will have to be taken and filed unless the existing filed financing statement covers fixtures by class and describes the land on which the new fixtures are or are not to be located.

(ii) Chattel mortgage cases. The new property is made subject to a lien in favor of FmHA by the execution of a new security instrument (or by operation of the "replacement" or "after-acquired property" clauses in lien instruments in accordance with State supplements).

(iii) Time of taking new security instruments. New security instruments are taken at the time of the acquisition of the new property referred to in paragraphs (a) (2) (i) and (ii) of this section. In individual cases, however, County Supervisors may delay as long as 1 year or until new instruments are necessary for other reasons, whichever is earlier, when adequate security will continue to exist. Security is considered adequate it its value, as determined by a chattel appraisal of the borrower's chattel property remaining under lien to FmHA, is substantially greater than the amount of the debt.

(3) To make payments to other creditors having liens on the property sold which are superior to the liens of FmHA. However, any amount remaining after payments to the other creditors will be used in accordance with subparagraphs (a) (1) and (2) of this section.

(4) To pay costs to preserve the security because of an emergency or catastrophe, when the need for funds cannot be met through an FmHA loan, or an FmHA loan cannot be made in time to prevent the borrower or FmHA from suffering a substantial loss.

(b) *Normal income security.* This is all security not considered basic security including crops, livestock, poultry, products, and other property covered by FmHA liens which are sold in operating the farm or other business. County Supervisors may release normal income security when the property has been sold or exchanged for its present market value and the proceeds are used for one or more of the following purposes:

(1) To pay debts owed to FmHA.

(2) To pay farm and home or other operating expenses provided for in tables of Form FmHA 431-2, Form FmHA 431-3, or Form FmHA 431-4.

(3) To pay necessary farm and home or other operating expenses shown as debts in the financial statement on Form FmHA 431-2 or Form FmHA 431-3 and to be paid during the year as shown by the debt payment table, provided these debts were incurred in the production, harvesting, or marketing of crops, livestock, poultry or products sold during the year or were for family subsistence for that year.

(4) To pay an amount not more than the equivalent of 1 year's income taxes and social security taxes.

(5) To make payments to other creditors having liens on the property sold which are superior to FmHA liens.

(6) To pay annual installments on debts owed on essential real estate to creditors other than FmHA. These amounts must be reasonable when related to the normal rental charge for similar real estate in the area, and there should be assurance that the borrower will keep the real estate at least for the next year.

(7) To make reasonable payments on debts owed to other creditors for essential home equipment and passenger automobiles provided for in the debt payment tables of Form FmHA 431-2 or Form FmHA 341-3 or approved revisions. Such debts ordinarily will be considered for payment only after the full amount agreed on for the year has been paid to FmHA. However, reasonable amounts may be paid to other creditors first if failure to make payments to other creditors when due would result in the borrower's losing possession of essential home equipment or passenger automobile, and the loss would require the borrower to replace the property or to go to substantial additional expense to continue the operation.

(8) To make payments on debts on harvesting equipment such as cotton pickers, corn pickers, combines, forage harvesters, and so forth in addition to paying essential harvesting expenses provided an OL or EM loan for the

V 4 4 / 1 5 J A 2 2 7 9 UMI

V 4 4 / 1 5 J A 2 2 7 9 UMI

crop year did not include funds for the payment of depreciation on such equipment, and the total amount released for such payments and harvesting costs, plus any loan funds advanced for harvesting costs, is not more that the amount that would be required during the crop year on a custom basis to harvest the crops using the harvesting equipment.

(9) To make payments on debts owed to other creditors and to make purchases or to meet expenses not otherwise covered in this section provided:

(i) Debt payments, purchases, or expenses are included in Form FmHA 431-2, Form FmHA 431-3, or Form FmHA 431-4;

(ii) Sufficient income will be available to pay an amount equivalent to that scheduled on the notes to fall due during the year, plus the amount agreed on for any delinquencies, on FmHA debts secured by liens on chattel property; and

(iii) Debt payments, purchases, or expenses are essential for the borrower to obtain or keep necessary equipment or to continue a sound operation.

(10) To pay costs required to preserve the security because of an emergency or catastrophe, when the need for funds cannot be met through an FmHA loan or an FmHA loan cannot be made in time to prevent the borrower or FmHA from suffering a substantial loss.

(11) To permit crops serving as security for FmHA loans to be fed to livestock when the County Supervisor determines that this disposal is preferable to direct marketing of the crops, provided a lien or assignment is obtained on the livestock or livestock products.

(12) When livestock is consumed by the borrower's family for subsistance.

(c) *Distribution of income from normal income security.* On finding that the amount of income originally planned for the year will not be received, the County Supervisor will determine, in consultation with the borrower, how to use income that is available or will become available during the remainder of the planned year as shown on Forms FmHA 431-2 or FmHA 431-4. If other creditors have liens on the property from which the normal income is received, they also must be consulted. Priorities in distributing the income that will be available are as follows:

(1) Pay necessary farm, home, and other expenses planned for payment by cash as incurred.

(2) Prorate repayments on credit advanced for necessary farm, home, and other operating expenses to FmHA and other creditors.

(3) Make planned payments on other debts as shown in Table K of Form FmHA 431-2 or Table H of Form FmHA 431-3. However, minimum payments may be made on such debts along with the payment of cash farm, home, and other operating expenses on credit advanced for such purposes when necessary to enable the borrower to keep essential property.

(d) *Plans as basis for releasing chattel security.* Release of both basic and normal income security will be based on information about the borrower's operations as shown on Form FmHA 431-2, Form FmHA 431-3, or Form FmHA 431-4, as appropriate.

(1) If plans have been developed for the borrower's current crop or business year, the release will be based on them.

(2) If no recent plans have been made with the borrower, the release will be based on the County Supervisor's knowledge of the borrower's current operations, plus inquiry and documentation of the facts about the borrower's present operation in the running case record.

(e) *Release of valueless junior lien.* State Directors may release junior FmHA liens on chattels and crops serving as security for FmHA loans when such property has no present or prospective security value or enforcement of the FmHA lien would be ineffectual or uneconomical. The following information will be documented in the running case record:

(1) The present market value of the chattels or crops, as determined by the County Supervisior, on which FmHA has a valueless junior lien.

(2) The names of the prior lienholders, amount secured by each prior lien, and the present market value of any property which serves as security for the amount. The value of all property serving as security for amounts owed to prior lienholders must be considered to determine whether the junior FmHA lien has any present or prospective value.

(f) *Release of lien because of mutual mistake.* Chattel property serving as security for FmHA loans may be released by the State Director when the lien on such property was obtained through a mutual mistake.

(g) *Release of lien because of no evidence of indebtedness.* The County Supervisor may release the lien on chattel property when there is no evidence of an existing indebtedness secured by the lien in the records of the FmHA County, State, or Finance Office.

(h) *Release of lien on chattel property held as security for a real estate loan.* The State Director may release an interest in chattels acquired in accordance with § 1962.9.

(i) *Release forms.* The County Supervisor may execute releases covering specific items of property. If a security interest under the UCC is involved, Form FmHA 462-12, will be used in accordance with the Forms Manual Insert (FMI) to release such property from that interest. If chattel mortgages are involved, Form FmHA 460-1, "Partial Release," or other approved form will be used. If Forms FmHA 462-12 or FmHA 460-1 are not legally sufficient, other forms approved by OGC will be used. Releases need not be executed unless requested by a borrower or by an interested third party.

§ 1962.18 Accounting for security.

(a) *Accounting by County Supervisor.* The County Supervisor is responsible for maintaining a current record of each borrower's security. When the borrower acquires additional items of chattel property which will be described on subsequent security instruments, descriptions of these items will be recorded on the work copy of the security agreement or the file copy of the chattel mortgage, as appropriate. The original of the security agreement should *not* be altered. Chattel security should be inspected annually for borrowers who are delinquent or who have been indebted for less than 1 full crop year. The County Supervisior will make other inspections as needed to:

(1) Verify the borrower possesses all the security,

(2) Determine security is properly maintained, and

(3) Supplement security instruments.

(b) *Accounting by borrower.* The borrower must account for all security and will be instructed regarding its care, maintenance, and disposition when a loan is made and as often afterward as necessary. When borrowers sell security, the sale will be made subject to the FmHA lien. The property and proceeds will remain subject to the lien until the lien is released or the sale is approved by the County Supervisor and the proceeds are used for one or more of the purposes stated in § 1962.17. Purchasers of security who inquire should be informed that the property is subject to FmHA's lien and will remain subject to it until they deliver any proceeds in cash to the County Supervisor or make checks payable jointly to the borrower and FmHA and the check has cleared. Form FmHA 462-2, "Written Consent to Sell and Statement of Conditions on Which Lien Will be Released," will be used by the County Supervisor to give written consent to sell when borrowers or purchasers request such a statement before the date of sale.

(c) *Recording disposition of security.* Dispositions of basic and normal income security will be recorded on Form FmHA 462-1, "Record of the Disposition of Security Property," as soon as information is available. Security which is disposed of will include items sold, exchanged, or lost through death, theft, destruction, or deterioration and livestock consumed by the family.

(1) For normal income security, the uses made of the sale proceeds will be recorded in sufficient detail to relate them readily to the appropriate tables in Form FmHA 431-2, Form FmHA 431-3, or Form FmHA 431-4. However, these entries are not required on Form FmHA 462-1 when:

(i) The borrower is not delinquent on any FmHA debts and has paid the amount agreed on for the year; or

(ii) Farm products such as milk, eggs, or wool are sold and are accounted for on Form FmHA 441-18, "Consent to Payment of Proceeds from Sale of Farm Products," Form FmHA 441-25, "Assignment of Proceeds from the Sale of Dairy Products and Release of Security Interest," Form FmHA 441-8, "Assignment of Proceeds from the Sale of Products," or the farm and home plan shows that no payments are to be made on FmHA debts from the farm product(s) listed on the named forms.

(2) Employees having release authority will approve or disapprove the release on Form FmHA 462-1.

(3) Recording or not recording disposition of security does not release the FmHA lien on the security.

(d) *Reporting improper disposition of security.* When the borrower fails to account properly for security, the County Supervisor will report the facts in writing promptly to the State Office.

§ 1962.19 Claims against Commodity Credit Corporation (CCC).

This section is based on a Memorandum of Understanding between CCC and FmHA (see Exhibit A of this Subpart). The memorandum sets forth the procedure to follow when producers sell or pledge to CCC as loan collateral under the Price Support Program, commodities on which FmHA holds a prior lien, and when the proceeds, or an agreed amount from them, are not remitted to FmHA to apply against the producer's indebtedness to FmHA. In addition to the procedures outlined in Exhibit A, the following apply:

(a) *County Office action.* (1) Claims will not be filed with CCC until it is determined that the amount involved cannot be collected from the borrower. Therefore, after preliminary notice is given of this fact to CCC by the State Director the County Supervisor will make immediate demand on the borrower for the amount of the CCC loan or the portion of it which should have been applied to the borrower's account. If payment is made, the State Director will be notified.

(i) If payment is not made, the County Supervisor will determine whether or not the case should be liquidated in accordance with § 1962.40. Any liquidation action will be taken immediately. If the borrower has no property from which recovery can be made through liquidation or, if after liquidation, an unpaid balance remains on the indebtedness secured by the commodity pledged or sold to CCC, the County Supervisor will make a full report to the State Director on Form FmHA 455-1, "Request for Legal Action," with a recommendation that a claim be filed against CCC. However, if the indebtedness is paid through liquidation action, the State Director will be notified by memorandum.

(ii) If the facts do not warrant liquidation action, the State Director will be notified, and a recommendation will be made that no claim be filed against CCC.

(2) On receiving information from the State Director that CCC has called the borrower's loan, the County Supervisor will act to protect FmHA's interest with respect to the commodity if CCC is repaid.

(b) *State Office action.* (1) The State Director, on receipt of reports and recommendations from the County Supervisor, will:

(i) If in agreement with the County Supervisor's recommendation not to file a claim against CCC or if notice is received that the indebtedness has been paid, forward notice to CCC.

(ii) If in agreement with the County Supervisor's recommendation to file a claim against CCC, refer the case to OGC with a statement of facts.

(iii) If OGC determines that FmHA holds a prior lien on the commodity and the amount due on its loan is not collectible from the borrower, send CCC a copy of the OGC memorandum with a complete statement of facts supporting the claim through the applicable ASCS office or notify CCC if the OGC memorandum does not support FmHA's claim.

(2) The State Director will notify the County Supervisor promptly on receiving information from CCC that the borrower's loan is being called.

(3) If collection cannot be made from the borrower or other party (see paragraph 5 of Exhibit A of this subpart), the State Director will give CCC the reasons. FmHA will then be paid by CCC through the applicable ASCS office.

§§ 1962.20–1962.21 [Reserved]

§ 1962.22 Amendments of consents and releases or suspensions of assignments.

(a) *Amendment of Form FmHA 441-18, "Consent to Payment of Proceeds from Sale of Farm Products."* The County Supervisor may temporarily amend this form to permit borrowers to use all or a part of proceeds from the sale of products in emergencies and in other justifiable circumstances. Such action, however, must not be to the financial detriment of FmHA and the funds must be used for the purposes stated in § 1962.17 (a) and (b). Form FmHA 462-9, "Temporary Amendment of Consent to Payment of Proceeds From Sale of Farm Products," will be used for this purpose. The borrower's file will show the purpose of and justification for the amendment. The County Supervisor will see that payments are made in accordance with the orignial consent when the temporary amendment period expires.

(1) When a Form FmHA 441-18 has been executed and the amount of the payment to FmHA needs to be decreased for other than a temporary period, or increased for any period, a new Form FmHA 441-18 will be executed.

(2) If Form FmHA 441-18 has been executed for a particular product and FmHA is no longer looking to the proceeds from that product for payment on the FmHA indebtedness, the purchaser should be advised by letter as follows: "The Farmers Home Administration (FmHA) is not presently looking to the proceeds from the sale of (name of product) covered by the 'Consent to Payment of Proceeds from the Sale of Farm Products' executed by (name and address of borrower) and accepted by you on (date). Therefore, until further notice, you may discontinue making payments to FmHA for such product."

(3) If Form FmHA 441-18 has not been executed for a particular product becasue FmHA is not expecting payment from the proceeds of such product, but the purchaser of the product inquires about payment, a letter should be written to the purchaser as follows: "The Farmers Home Administration (FmHA) has a security interest in the (name of product) being sold to you by (name and address of borrower), but at the present time is not looking to the proceeds from the sale of that product for payment on the debt owed to this agency. Therefore, until further notice, it will not be necessary for you to make payment to FmHA for such product."

(b) *Assignments.* (1) The County Supervisor may release, reduce, or temporarily suspend assignments including crop insurance assignments and permit borrowers to use such proceeds including those received as checks made payable jointly to the borrower and FmHA. This authority is the same as that provided in paragraph (a) of this section. The County Supervisor will see that suspended, reduced, or released assignments are reinstated, or new assignments are obtained when needed.

V 4 4 / 1 5 J A 2 2 7 9 UMI

(2) All suspensions, reductions, or releases of assignments will be made on forms approved by OGC. The original will be forwarded directly to the person or firm making the payment against which the assignment is effective, and a copy will be kept in the borrower's case file. In each case, the borrower's file will show the purposes of and justification for the suspension, reduction, or release.

(3) The State Director may in justifiable cases approve requests for suspension, release, or reduction of assignments other than those specified in paragraph (b) (1) of this section, provided such action will not be dertimental to FmHA's interest.

§ 1962.23 Releases of liens on wool and mohair marketed by consignment.

(a) *Conditions.* Liens on wool and mohair may be released when the security is marketed by consignment, provided all the following conditions are met:

(1) The producer assigns to FmHA the proceeds of any advances made, or to be made, on the wool or mohair by the broker, less shipping, handling, processing, and marketing costs.

(2) The producer assigns to FmHA the proceeds of the sale of the wool or mohair, less any remaining costs in shipping, handling, processing, and marketing, and less the amount of any advance (including any interest which may have accrued on the advance) made by the broker against the wool or mohair.

(3) The producer and broker agree that the net proceeds of any advances on, or sale of, the wool or mohair will be paid by checks made payable jointly to the producer and FmHA.

(b) *Authority.* The County Supervisor may execute releases of the Government's lien on wool and mohair on Form FmHA 462-4, "Assignment, Acceptance, and Release." Since Form FmHA 462-4 is not a binding agreement until executed by all parties in interest, including the producer, the broker and the Government, the County Supervisor may execute it before other parties sign it.

§ 1962.24 Notice of termination of security interest to purchasers of farm products under consents or assignments upon payment in full.

County Supervisors will notify purchasers of farm products as soon as the FmHA has received payment in full of indebtedness for collection of which it has accepted assignments or consents to payment of proceeds from the sale of the farm products. When Form FmHA 441-18 is in effect under the UCC, the notice to the purchaser will be made on Form FmHA 460-8, "Notice of Termination of Security Interest in Farm Products." When assignments have been used, the notice to the purchaser will be by letter or by forms prescribed by State supplements.

§ 1962.25 Release of FmHA's interest in insurance policies.

When an FmHA lien on property covered by insurance has been released, the County Supervisor is authorized to notify the insurance company of the release.

§ 1962.26 Correcting errors in security instruments.

The County Supervisor may use Part 7 of Form FmHA 462-12, to correct minor errors in a financing statement when the errors are not serious (i.e., a slightly misspelled name). OGC will be asked to determine whether or not such errors are in fact minor. The County Supervisor may also use Part 7 of Form FmHA 462-12 to add chattel property to the financing statement (i.e., a new type or item of chattel or crops on land not previously described).

§ 1962.27 Termination or satisfaction of chattel security instruments.

(a) *Conditions.* The County Supervisor may terminate financing statements and satisfy chattel mortgages, chattel deeds of trust, assignments, severence agreements, and other security instruments when:

(1) Payment in full of all debts secured by collateral covered by the security instruments has been received; or

(2) All security has been liquidated or released and the proceeds properly accounted for, including collection or settlement of all claims against third party converters of security, even though the secured debts are not paid in full. This includes collection-only and debt settlement cases; or

(3) The U.S. Attorney has accepted a compromise offer in full settlement of the indebtedness and has asked that action be taken to satisfy or terminate such instruments, or

(4) FmHA has a financing statement or other lien instrument which describes the real estate upon which crops are located but neither the borrower nor FmHA has an interest in the crops because the borrower no longer occupies or farms the premises described in the lien instrument. Such action will only relate to the crops.

(b) *Form of payment.* (1) Security instruments may be satisfied or the financing statements may be terminated on receipt of final payment in currency, coin, U.S. Treasury check, cashier's or certified check, bank draft, postal or bank money order, or a check issued by a party known to be financially responsible.

(2) When the final payment is tendered in a form other than those mentioned above, the security instruments will not be satisfied until 15 days after the date of the final payment. However, in UCC States the termination statement will be signed and sent to the borrower within 10 days after receipt of the borrower's written request but not until the 10th day unless it previously has been ascertained that the payment check or other instrument has been paid by the bank on which it was drawn. (See paragraph (c) of this section for the reason for the 10-day requirement.)

(c) *Filing or recording termination statements.* Financing statements will be terminated by use of Form FmHA 462-12 if provided by a State Supplement.

(1) Under UCC provisions if FmHA fails to give a termination statement to the borrower within 10 days after written demand, it will be liable to the borrower for $100 and, in addition, for any loss caused to the borrower by such failure unless otherwise provided by a State supplement. In the absence of demand for a termination statement by the borrower, a termination statement will be delivered to the borrower when the notes have been paid in full.

(2) However, if FmHA has been meeting the borrower's annual operating credit needs in the past and expects to do so the next year, the financing statements need not be terminated in the absence of such demand unless a loan for the succeeding year will not be made or earlier termination is required by a State supplement.

(d) *Filing or recording satisfactions.* Satisfactions of chattel mortgages and similar instruments will be made on Form FmHA 460-4, "Satisfaction," or other form approved by the State Director. The original of the satisfaction form will be delivered to the borrower for recording or filing and the copy will be retained in the borrower's case file. However, if the State supplement based on State law requires recording or filing by the mortgagee, a second copy will be prepared for the borrower and the original will be recorded or filed by the County Supervisor. When State statutes provide that satisfactions may be accomplished by marginal entry on the records of the recording office, or when Form FmHA 460-4 is not legally sufficient because special circumstances require some other form of satisfaction, County Supervisors are authorized to make such satisfactions according to State supplements. In such cases, Form FmHA 460-4 will not be prepared but a notation of the satisfaction will be made on the copy of Form FmHA 451-1, "Acknowledgment of Cash Payment," or Form FmHA 456-3, "Journal Voucher

for Write-Off or Judgment," which will be retained in the borrower's case folder.

(e) *Satisfaction or termination of lien when old loans cannot be identified.* When a request is received for the satisfaction of a crop or chattel lien or for the termination of a financing statement and the status of the account secured by the lien cannot be ascertained from County Office records, the County Supervisor will prepare a letter to the Finance Office reflecting all the pertinent information available in the County Office regarding the account. The letter will request the Finance Office to tell the County Supervisor whether the borrower is still indebted to FmHA and, if so, the status of the account. If the Finance Office reports to the County Supervisor that the account has been paid in full or otherwise satisfied or that there is no record of an indebtedness in the name of the borrower, the County Supervisor is authorized to issue a satisfaction of the security instruments on Form FmHA 460-4 or other approved form or to effect the satisfaction by marginal release, or a termination on Form FmHA 462-12 as appropriate.

§ 1962.28 Assignment of notes and security instruments.

(a) The State Director may accept from third parties payment in full of a borrower's notes held by FmHA and assign the notes to third parties without recourse against FmHA and assign related security instruments including financing statements without warranty by FmHA in the following situations:

(1) The borrower requests or gives written consent to such an assignment.

(2) The borrower has not requested or given written consent to such an assignment but has demonstrated an unwillingness to cooperate voluntarily with FmHA in the servicing and orderly retirement of his/her accounts which otherwise would be liquidated.

(3) An insurer has made full payment of the borrower's indebtedness as stated in Form FmHA 426-2, "Property Insurance Mortgage Clause (Without Contribution)," or other such clause outlined in § 1806.2(g) of Subpart A of Part 1806 of this chapter (FmHA Instruction 426.1, paragraph II G).

(b) The State Director will request OGC's review of the legal matters in each proposed assignment and will request approval of the form of assignment. (See § 1872.22 of Subpart A of Part 1972 of this chapter, FmHA Instruction 465.1, paragraph XXII, for additional provisions of assigning real estate security instruments.) If the insured note is not held in the appropriate insurance fund or county office, the State Director will request the Director, Finance Office, to have the note assigned to the insurance fund and then forwarded to the State Director. Financing statements may be assigned to third parties on Form FmHA 462-12 if authorized by a State supplement.

§ 1962.29 Payment of fees and insurance premiums.

(a) *Fees*—(1) *Security instruments.* Borrowers must pay statutory fees for filing or recording financing statements or other security instruments (including Form FmHA 462-12, or other renewal statements) and any notary fees for executing these instruments. They also must pay costs of obtaining lien search reports needed in properly servicing security as outlined in this subpart. Whenever possible, borrowers should pay these fees directly to the officials giving the service. When cash is accepted by FmHA employees to pay these fees, Form FmHA 440-12, "Acknowledgment of Payment for Recording, Lien Search and Releasing Fees," will be executed. If the borrower cannot pay the fees, or if there are fees referred to in paragraphs (a) (2) and (3) of this section that must be paid by FmHA, the County Supervisor may pay them as a petty purchase or as the bill of a creditor of FmHA in accordance with FmHA Instructions 2024-E and 2075-A, copies of which are available in any FmHA office.

(2) *Satisfactions.* The borrower must pay fees for filing or recording satisfactions or termination statements unless a State supplement based on State law requires FmHA to pay them.

(3) *Notary fees.* FmHA will pay fees for notary service for executing releases, subordinations, and related documents for and on behalf of FmHA if the service cannot be obtained without cost.

(b) *Insurance premiums.* County Supervisors are authorized to approve bills or invoices for payment of insurance premiums on chattel security for FmHA loans when:

(1) A borrower cannot pay the premiums from the borrower's own resources at the time due;

(2) It is not practical to process a loan for that purpose;

(3) It is necessary to protect FmHA's interests; and

(4) The amount advanced can be charged to the borrower under the provisions of the security instrument.

§ 1962.30 Subordination and waiver of FmHA liens on chattel security.

(a) *Purposes.* FmHA chattel liens securing OL, economic emergency (EE) and emergency (EM) loans may be subordinated to a lien of another creditor to permit that creditor to lend for any authorized OL, EE, or EM loan (Subtitle B) purpose, including capital purchases, provided:

(1) The borrower needs the loan to continue farming operations; and

(2) The loan will help the borrower to accomplish the objectives of the FmHA loans; and

(3) FmHA's financial interest will not be adversely affected.

(b) *Limitations.* (1) When a non-FmHA loans is made to pay expenses directly related to particular crops or livestock enterprises, FmHA lien priority should be subordinated to the non-FmHA creditor's lien only so far as crops, livestock increases, feeder livestock or other normal farm income security is concerned. If the non-FmHA lender will not make a loan unless FmHA agrees to subordinate more of its priority, FmHA may subordinate any lien it holds on basic chattel security. FmHA should not give up any more of its priority to basic chattel security than is absolutely necessary to provide the non-FmHA lender with the security it requires.

(2) When an obligation secured by a lien prior to that of FmHA is about to mature or has matured and the prior lienholder desires to extend or renew the obligation, or the obligation can be refinanced, the FmHA lien may be subordinated. However, the relative lien position of FmHA must be maintained.

(3) The subordination will be limited to a specific amount.

(4) A subordination in favor of only one creditor will be outstanding at any one time in connection with the same security. A subordination also may be executed to enable a borrower to obtain necessary crop insurance if the creditor to whom a subordination has been given on that crop consents in writing to payment of the insurance premiums from the crop or insurance proceeds.

(5) When a subordination is executed to enable the borrower to obtain insurance on crops under lien to FmHA, the borrower will assign the insurance proceeds to FmHA or name FmHA in the loss-payable clause of the policy.

(6) Waivers of FmHA lien priority, instead of subordinations, may be executed in favor of a creditor who has made or will make advances to produce, harvest, process, or market crops under written contract to that creditor. Such waivers are limited to the purposes for which a subordination may be made under this Subpart.

(c) *Approval.* Loan approval officials may approve subordinations and waivers of FmHA OL lien priority if the amount of the proposed subordination or waiver, plus the principal balance of existing subordinations or waivers, is not more than their OL approval authority stated in tables which are available from any FmHA office. Loan

V 4 4 / 1 5 J A 2 2 7 9 UMI

approval officials may approve subordinations and waivers of FmHA EM and EE loans lien priority if the amount of the subordination or waiver plus the unpaid principal balance of existing EM and EE loans and subordinations does not exceed their EM or EE loan approval authority stated in tables which are available from any FmHA Office. When the lien priority for more than one type of loan is subordinated or waived, the total amount of the approval official's authority will be limited to the loan with the lowest approval authority for that official. However, the State Director may approve subordinations or waivers regardless of the amount. State Directors may redelegate their authority for approving subordinations to qualified State Office employees.

(d) *Forms.* (1) Subordinations or lien waivers authorized in this Subpart will be made on Form FmHA 460-2, "Subordination by the Government," or on other forms approved by the State Director with OGC's advice. If Form FmHA 460-2 does not conform to a State's recording requirements, a State supplement may be used, if approved by OGC, to modify the form.

(2) Form FmHA 431-2 will show the subordination or lien waiver and repayment.

(e) *Loans under CCC program.* See Exhibit B of this subpart.

(1) When the ASCS County Office makes CCC loans to the borrower, FmHA will not execute a form of subordination or lien waiver.

(2) When the full value of a CCC loan on cotton is to be advanced to the borrower by a bank, ginner, or warehouseman whom the County Supervisor considers financially responsible, and when a check or draft issued by the bank, ginner, or warehouseman is made payable to FmHA, or jointly to FmHA and the borrower, and is delivered to the County Supervisor, the County Supervisor may then execute the lienholder's waiver on Form CCC Cotton A even though item 2 of that form shows that the CCC loan will be distributed to such a bank, ginner, or warehouseman. Loan approval officials may approve waivers of crop liens in accordance with paragraph (c) of this section.

(3) If the commodity covered by the CCC loan is released by CCC or redeemed by the borrower, the FmHA lien will be restored to the priority it held before the CCC loan was made.

§§ 1962.31-1962.33 [Reserved]

§ 1962.34 Transfer of chattel security and EO property and assumption of debts.

Chattel and EO property may be transferred to eligible or ineligible transferees who agree to assume the outstanding loan, subject to the provisions set out in this Section. A transfer and assumption may also be made when one or more of the borrowers or the former spouse and co-obligor of a divorced borrower withdraws from the operation or dies. The transfer of accounts secured by real estate will be processed in accordance with Subpart A of Part 1872 of this chapter (FmHA Instruction 465.1).

(a) *Transfer to eligibles.* Transfers of chattel security and EO property to a transferee who is eligible for the kind of loan being assumed or who will become eligible after the transfer may be approved, provided:

(1) The transferee assumes the total outstanding balance of the FmHA debts or that portion of the outstanding balance equal to the present market value of the chattel security or EO property, less any prior liens, if the property is worth less than the entire debt.

(2) Generally the debts assumed will be paid in accordance with the rates and terms of the existing notes or assumption agreements. Any delinquency will be scheduled for payment on or before the date the transfer is closed. Form FmHA 460-9, "Assumption Agreement (Same Terms-Eligible Transferee)," will be used. If the existing loan repayment period is extended, the debt being assumed may be rescheduled using Form FmHA 460-5, "Assumption Agreement (New Terms)." The new repayment period may not exceed that for a new loan of the same type. If Form FmHA 460-5 is used, the current interest rate for such loans will be charged to all applicants except those eligible for limited resource loans, who will be charged interest at the rate of 5 percent per year.

(3) The transfer of EM actual loss loans, or EM loans made before September 12, 1975, will be made as provided under paragraph (b) of this section. However, when one or more of the borrowers or jointly obligated partners withdraw from the operation and those remaining desire to assume the total indebtedness and continue the operation, a transfer to the remaining borrowers or partners may be made as an eligible transferee.

(b) *Transfer to ineligibles.* Transfer of the chattel security and EO property to a transferee who is not eligible for the kind of loan being assumed may be approved, provided:

(1) It is in FmHA's financial interest to approve the transfer of security or EO property and assumption of the debts rather than to liquidate the security or EO property immediately.

(2) The transferee assumes the total outstanding balance of the FmHA debt, or an amount substantially more than the present market value of the security or EO property as determined by the County Supervisor, less any prior liens, if the value is less than the entire debts.

(3) FmHA debts assumed will be repaid in amortized installments not to exceed 5 years using Form FmHA 460-5. The transferred property, including EO property, will be subject to any existing FmHA lien. In the absence of an existing FmHA lien, new lien instruments will be executed. Interest rates to the transferee will be as follows:

(i) For OL and EM loans, the current interest rate in effect at the time of approval of the transfer.

(ii) For EO loans, 6 percent.

(4) The transferee can repay the FmHA debt in accordance with the assumption agreement and can legally enter into the contract.

(c) *Effect of signature.* In all cases the purpose and effect of signing an assumption agreement or other evidence of indebtedness is to engage separate and individual personal liability, regardless of any State law to the contrary.

(d) *Release of transferor from liability.* The borrower and any cosigner may be released from personal liability to FmHA when all the chattel security is transferred to an eligible or ineligible applicant and the total outstanding debt or that portion of the debt equal to the present market value of the security is assumed.

(e) *County Committee actions*—(1) *Transfer to eligible applicant.* The County Committee will certify the transferee's eligibility for the types of loans to be assumed on Form FmHA 440-2, "County Committee Certification or Recommendations."

(2) *Transfer to ineligible applicant.* The County Committee will execute a memorandum statement on Form FmHA 440-2 as follows: "In our opinion, the transferee, (name of transferee), will honestly endeavor to make payments in accordance with the assumption agreement, maintain the security, and carry out the other obligations in connection with the loan."

(3) *Release from liability.* If the total outstanding debt is not assumed, the County Committee will execute a memorandum statement on Form FmHA 440-2 when they recommend the transferor be released from personal liability, which will read as follows: "(*Name of transferor and any cosigner*) in our opinion do not have reasonable ability to pay all or a substantial part of the balance of the debt not assumed after considering their assets and income at the time of transfer. Transferors have cooperated in good faith, used due diligence to maintain the security against loss, and otherwise fulfilled the covenants incident to the loan to the best of their ability. Therefore, we recommend that the

transferor and any cosigner be released from personal liability on the transferees' assumption of a portion of the indebtedness at least equal to the present market value of the security." If the total outstanding debt is assumed, the statement is not required.

(f) *Transfer and assumption docket.* The County Supervisor will assemble the following statements and forms for transfer and assumption:

(1) A statement of the current amount of the indebtedness.

(2) A description of the security or EO property to be transferred and a statement about its value.

(3) Form FmHA 410-1, "Application for FmHA Services."

(4) Form FmHA 440-2 for an eligible transferee, with the memorandum statement of the County Committee if the transferor is to be released from liability.

(5) County Committee memorandum statement for ineligible transferee with the additional memorandum statement if the transferor is to be released from liability.

(6) Statement of justification for the transfer, including a plan of repayment, if not otherwise shown in the docket.

(7) Transferee's plan of operation shown on Form FmHA 431-2, or Form FmHA 431-3, or Form FmHA 431-4.

(8) Form FmHA 460-5 or Form FmHA 460-9, as appropriate.

(9) Form FmHA 465-8, "Release from personal Liability," when appropriate.

(10) Form FmHA 440-41A, "Disclosure Statement for Loans Not Secured by Real Estate."

(11) Form FmHA 440-41, "Disclosure Statement for Loans Secured by Real Estate."

(12) Form FmHA 440-1, "Request for Obligation of Funds."

(13) Form FmHA 465-5, "Transfer of Real Estate Security," will be used to transfer real estate security.

(g) *Processing assumption agreements.* Additional security instruments will be obtained in accordance with advice from OGC.

(1) On receipt of Form FmHA 460-5 or Form FmHA 460-9, the Finance Office will establish an account in the name of the assuming transferee and will notify the County Supervisor.

(2) Form FmHA 405-1, "Management System Card—Individual," will be prepared for the transferee, and the loan record cards of the transferor will be attached.

(3) If a collection is received from the transferee after the assumption agreement is approved but before Finance Office notification to the County Office, Form FmHA 451-2, "Schedule of Remittances," will be prepared as follows:

(i) During the period that a transfer is pending in the County Office, payments received by the Finance Office will continue to be applied to the transferor's account, and Form FmHA 451-26, "Transaction Record," or Form FmHA 451-31, "Borrower Transaction Record," will be forwarded to the County Office. This includes any downpayments made in connection with the transfer for reducing the amount of the debt to be assumed. On receiving a payment on the account not included in the latest transaction record or monthly payment account status report, the County Supervisor should deduct such amounts from the total amount of principal and interest calculated from the latest information available before completing the assumption agreement and having it signed.

(ii) When the borrower has made a direct payment to the Finance Office and there is no record of it in the County Office, the account will be assumed based on the latest record in the County Office. The application of the direct payment will be reversed from the account, and the assumption agreement will be processed in the Finance Office. The Director, Finance Office, will contact the County Supervisor to determine how to dispose of the proceeds from the direct payment.

(iii) For payments received on the date of transfer, Form FmHA 451-2 will be prepared to show "Transfer in process for account owed by (borrower's name and case number) to be transferred to (name of transferee and case number, if known)." If the borrower number portion of the case number has not yet been assigned for a transferee, only the State and County portion of the case number will be shown. A statement for the information of the Finance Office will be attached to the assumption agreement showing the date of Form FmHA 451-2 and the amount paid.

(iv) When a payment is due on the assumption agreement shortly after the transfer is completed, it should be collected if possible, at the time of transfer and remitted in the transferee's name.

(h) *Approval.* Loan approval officials are authorized to approve transfer and assumption of FmHA accounts to eligible or ineligible transferees and releases from liability when the debts are within their respective loan approval authorities stated in tables which are available from any FmHA Office (FmHA Instruction 1901-A).

(1) Loan approval officials may also approve transfers and assumptions of EO loans and releases from liability. State Directors may also approve transfers to and assumptions by ineligible transferees and releases from liability regardless of the amount of the outstanding EM loan debt.

(2) The Administrator will review for approval proposed transfers to and assumptions by eligible transferees that exceed the approval authorities of State Directors for EM loans.

§§ 1962.35–1962.39 [Reserved]

§ 1962.40 Liquidation.

FmHA will continue with borrowers if they make payments in accordance with their ability, account properly for security or EO property, and otherwise meet their loan obligations. When liquidation is begun, it is FmHA policy to liquidate all security and EO property except EO property that the County Supervisor determines is essential for minimum family living needs. The present market value of security that may be retained by the borrower for minimum family living needs will not exceed $600. However, only so much of the security and EO property will be liquidated as is necessary to pay the indebtedness. Ordinarily, before beginning liquidation, the facts will be presented to the District Director and the County Committee for recommendations. Liquidation will be undertaken when no further assistance will be given to a borrower and the borrower is in default.

(a) *Approval of liquidation.* The County Supervisor may approve liquidation of chattle security and nonsecurity property. Cases involving legal problems not covered by this Subpart or related State supplements and cases in which real estate serves as security for any FmHA loan will be referred to the State Director for advice before approval. When liquidation is approved without referral to the State Director, a statement of facts with reasons for the action will be recorded in the running case file. Liquidation will be considered approved on the date the County Supervisor:

(1) Executes Form FmHA 455-4, "Agreement for Voluntary Liquidation of Chattel Security", or

(2) Executes Form FmHA 455-3, "Agreement for Public Sale by Borrower", or

(3) Executes Form FmHA 462-2, "Written Consent To Sell and Statement of Conditions on Which Lien will be Released", or

(4) Executes Form FmHA 455-6, "Agreement for Temporary Custody of Property", or

(5) Executes Form FmHA 455-21, "Notice of Acceleration and Demand for Payment", when security is to be liquidated under the "Power of Sale" except when a State supplement requires the use of another form, or

(6) Takes possession of property under a security instrument or EO

Loan Agreement to exercise the power of sale contained in it, or

(7) Requests the borrower or another party in writing to sell EO property under the loan agreement, or

(8) Is notified by the State Director that liquidation is approved in cases submitted to the State Office.

(b) *Lien searches.* Before liquidation is approved, the County Supervisor will obtain a current lien search report to determine the effect that liens of other parties will have on liquidation, the record lienholders to whom notices of sale will be given, and the distribution that will be made of the sale's proceeds. Normally, lien searches should be obtained from the same source as is used when making a loan. If obtaining the searches from third party sources would cause undue delay which would interfere with orderly liquidation, searches may be made by the County Supervisor. If the lien search is made by third parties, the borrower will pay the cost from personal funds or if the borrower refuses, FmHA will pay the cost and charge it to the borrower's account in accordance with the security instrument or EO Loan Agreement. The records to be searched and the period covered by the search will be in accordance with a State supplement.

(c) *Acceleration of unmatured installments.* (1) When liquidation has been approved, the County Supervisor will accelerate all unmatured installments by using Form FmHA 455-21, except as follows:

(i) In cases referred to OGC for civil action, a notice of acceleration is not necessary if the notice has previously been given. However, when security is to be liquidated under the "Power of Sale" in the lien instrument without referral to OGC, the County Supervisor will use Form FmHA 455-21.

(ii) When Form FmHA 455-13, "Report of Sale of Chattel Security," is used, the statement in it declaring unmatured installments immediately due and payable will suffice for loan servicing purposes. However, the County Supervisor may use Form FmHA 455-21 when its use will assist in collecting any remaining indebtedness.

(2) Form FmHA 455-21 will be sent to the last known address of each obligor, with a copy to the Finance Office in those cases referred to OGC for civil action. County Office and Finance Office loan records will be adjusted to mature the entire indebtedness only in such cases.

(d) *Assignment of insured loans.* When liquidation of an insured loan is approved, the State Director will immediately obtain an assignment of the loan to FmHA. If the County Supervisor approves the liquidation, the County Supervisor will immediately refer the case to the State Office with a request to obtain assignment of the loan. Pending the assignment, preliminary steps to effect liquidation should be taken, but civil or other court action will not be started and claims will not be filed in banckruptcy or similar proceedings or in probate or administration proceedings with respect to the insured loan claim, unless essential to protect FmHA's interests and OGC recommends such action. However, other steps need not be held up pending assignment.

(e) *Protective advances.* (1) When liquidation has been approved and security is in danger of loss or deterioration, the State Director will protect FmHA's interest and approve advances in payment of:

(i) Delinquent taxes or assessments that constitute prior liens which would be paid ahead of FmHA under § 1962.44 (a) of this Subpart,

(ii) Premiums on insurance essential to protect FmHA's interest, and

(iii) Other costs including transportation necessary to protect or preserve the security.

(2) However, such advances may not be made unless the amount advanced becomes a part of the debt secured by FmHA's lien, or is for expenses of administration of estates or for litigation. If a case is in the hands of the U.S. Attorney, such advances may not be made without the U.S. Attorney's concurrence. Moreover, such advances may not be made in any case to pay expenses incurred by a U.S. Marshal or other similar official such as a local sheriff. However, if the official seizes the property and delivers it to FmHA for sale by FmHA, costs incurred by FmHA after delivery to FmHA will be paid. Costs provided for in Form FmHA 441-19, "Loan Agreement," also may be paid to protect FmHA's interests in EO property.

(3) The County Supervisor will submit a report on the need for such advances to the State Director, including:

(i) Borrower's County Office case file;

(ii) Current lien search report;

(iii) Statement of the type and value of the property and of the circumstances which may result in the loss or deterioration of such property; and

(iv) A recommendation as to whether or not the advance should be approved.

(4) Costs incurred by FmHA in protecting its interest in security or EO property may be paid by means of Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal," and may be charged to the borrower's loan account, or paid from proceeds of the sale of security or EO property.

§ 1962.41 Sale of chattel security or EO property by borrowers.

(a) *Public sale.* Because it is in the best interest of the borrower and FmHA, when liquidation has been approved, FmHA usually will encourage the borrower to sell security or EO property at public auction in the borrower's own name. Form FmHA 455-3 will be executed by the borrower, all lienholders, and the clerk of the sale or other person who will receive the sale proceeds before execution by the County Supervisor. When EO property is involved, delete from the Form the reference to the FmHA lien in the first "Whereas" clause, the second sentence in item 5, and all of item 8. No FmHA official is authorized to bid at such sales. The County Supervisor will arrange to promptly receive the proceeds of the sale due FmHA for application on the borrower's indebtedness.

(b) *Private sale.* The borrower may sell chattel security or EO property at a private sale if:

(i) The borrower has ready purchasers and can sell *all* of the property for its present market value; or

(ii) The property is perishable; or

(iii) The property is of a type customarily sold on a recognized market; or

(iv) The property consists of items of small value or a limited number of items which do not justify public sale.

(2) Form FmHA 462-2 may be used to approve liquidation of such security. The County Supervisor will document in the running case record the reasons that a public sale was not justified. If the security is not sold within 30 days after executing Form FmHA 462-2, it will be liquidated in accordance with paragraph (a) of this section or § 1962.42.

§ 1962.42 Repossession, care, and sale of chattel security or EO property by the County Supervisor.

(a) *Repossession.* The County Supervisor will take possession of security or EO property for FmHA when the value of the property, based on appraisal, is substantially more than the estimated sale expenses and the amount of any prior lien, if the prior lienholder does not intend to enforce the lien. The property will not be repossessed if FmHA's estimated recovery will be small in relation to the amount of its claim, or in relation to the amount it must pay on prior liens and sale expenses if it bids on the property in accordance with § 1955.20 of Subpart A of Part 1955 of this chapter.

(1) *Conditions.* The County Supervisor will take possession under any of the following conditions:

(i) When Form FmHA 455-4 has been executed. For EO property this

form will be revised by placing a period after "interest" in the first "Whereas" paragraph and deleting the remainder of that clause; deleting the words "collateral covered by the aforesaid security instruments" in the second "Whereas" paragraph and inserting in lieu thereof "property covered by the debtor's loan agreement which is hereinafter referred to as the collateral."

(ii) When the borrower has abandoned the property.

(iii) When peaceable possession can be obtained, but the borrower has not executed Form FmHA 455-4.

(iv) When the property is delivered to FmHA as a result of court action.

(v) When Form FmHA 455-5, "Agreement of Secured Parties to Sale of Security Property," is executed by all prior lienholders. If prior lienholders will not agree to liquidate the property, their liens may be paid if their notes and liens are assigned to FmHA on forms prepared or approved by OGC. When prior liens are paid, the payment will be made on Standard Form 1034 and charged to the borrower's account.

(vi) When arrangements cannot be made with the borrower or a member of the borrower's family to sell EO property in accordance with the loan agreement.

(2) *Recording.* A list, dated and signed by the County Supervisor, of all security or EO property repossessed except for those items on Form FmHA 455-4, Form FmHA 455-6, or Form FmHA 455-7, "Agreement for Cultivating, Harvesting, and Delivering Crops," will be maintained in the borrower's case file. Whenever the County Supervisor is transferred to another position or leaves FmHA or there is a change in jurisdiction, the District Director will give the succeeding County Supervisor in writing, the names of such borrowers and a list of the property repossessed in the custody of the County Supervisor and caretakers, its location, and the names and addresses of the caretakers.

(b) *Care.* The County Supervisor will arrange for the custody and care of repossessed property as follows:

(1) *Livestock.* Livestock will be delivered to a person who can care for and feed it for compensation agreed on in advance. Whenever practicable, animal products will be computed as a part of all of the caretaker's compensation. Delivery, however, will be made only after Form FmHA 455-6 is executed. Space also may be leased using Form FmHA 455-6. When more time is needed than is indicated in paragraph (c) (4) (i) of this section, the State Director may authorize Form FmHA 455-6 to be amended as appropriate and initialed by the parties or a new agreement may be executed covering the extension. If a more favorable arrangement cannot be obtained, custody agreements may provide that FmHA will supply feed necessary to maintain livestock.

(2) *Machinery, equipment, tools, harvested crops, and other chattels.* Property will be stored and cared for pending sale. Space may be leased for this purpose, if necessary, or property may be stored and cared for by agreement on Form FmHA 455-6. This type of property will not be used by the caretaker but will be held in storage only.

(3) *Crops.* Form FmHA 455-7 will be used for the custody, care, and disposition of growing crops and for unharvested matured crops unless the crops are to be sold in place. The form will be executed by the caretaker and the landlord unless the landlord gives consent otherwise in writing. If the written consent of the landlord cannot be obtained or if the procedures in this Subpart do not cover a situation, the circumstances should be reported to the State Director for advice.

(c) *Sale.* Repossessed property may be sold by FmHA at public or private sale for cash under Form FmHA 455-4, Form FmHA 441-19, the power of sale in security agreements under the UCC or in crop and chattel mortgages and similar instruments if authorized by a State supplement. Also, repossessed property may be sold at private sale when the borrower executes Form FmHA 455-11, "Bill of Sale 'B' (Sale by Private Party)."

(1) *Tests and inspections of livestock.* If required by State law as a condition of sale, livestock will be tested or inspected before sale. A State supplement will be issued for those States.

(2) *Public sales.* Such sales will be made to the highest bidder. They may be held on the borrower's farm or other premises, at public sale barns, pavilions, or at other advantageous sales locations. No FmHA employee will bid on or acquire property at public sales except on behalf of FmHA in accordance with § 1955.20 of Subpart A of Part 1955 of this chapter. The County Supervisor will attend all public sales of repossessed property.

(3) *Private sales.* FmHA will sell perishable property such as fresh fruits and vegetables for the best price obtainable. FmHA will sell staple crops such as wheat, rye, oats, corn, cotton, and tobacco for a price in line with current market quotations for products of similar grade, type, or other recognized classification. Chattel property sold under Form FmHA 455-4, other than perishable property and staple crops, will not be sold for less than the minimum price in the agreement. FmHA will sell other property, including that sold when the borrower executes Form FmHA 455-11, for its present market value.

(4) *Selling period.* Repossessed property will be sold as soon as possible. However, when notice is required by paragraph (c)(5) of this section, the sale will not be held until the notice period has expired.

(i) The sale will be made within 60 days unless a shorter period is indicated by a State supplement because of State law. Crops will be sold when the maximum return can be realized but not later than 60 days after harvesting, or the normal marketing time for such crops. The State Director may extend the sale time within State law limits.

(ii) These requirements do not apply to irrigation or other equipment and fixtures which, together with real estate, serve as security for FmHA real estate loans and will be sold or transferred with the real estate. However, a State Supplement will be issued for any State having a time limit within which such items must be sold along with or as a part of the real estate.

(5) *Notice.* (i) Notice of public or private sale of repossessed property when required will be given to the borrower and to any party who has filed a financing statement or who is known by the County Supervisor to have a security interest in the property, except as set forth below. The notice will be delivered or mailed so that it will reach the borrower and any lienholder at least 5 days (or longer time if specified by a State supplement) before the time of any public sale or the time after which any private sale will be held. Form FmHA 455-8, "Notice of Sale," may be used for public or private sales.

(A) Notice to the borrower of lienholder is not required when the property is sold under Form FmHA 455-4 because the parties are placed on notice when they execute the form. When the sale involves only collateral which is perishable, will decline quickly in value, or is a type customarily sold on a recognized market, notice is not required but may be given if time permits to maintain good public relations.

(B) Notice only to lienholder is required when repossessed property is sold at private sale and the borrower executes Form FmHA 455-11.

(C) If the property is to be sold under a chattel mortgage, the manner of notice will be set forth in a State supplement or on an individual case basis.

(ii) Notice to Internal Revenue Service (IRS). If a Federal tax lien notice has been filed in the local records more than 30 days before the sale of the repossessed security, notice to the District Director of IRS must be given at least 25 days before the sale. It

should be given by sending a copy of Form FmHA 455-8 and a copy of the filed Notice of Federal Tax Lien (Form IRS 668). If the security is perishable, the full 25 days' notice to the District Director is not required, but notice must be given to the District Director by registered or certified mail or by personal service before the sale. Also, the sale proceeds must be held for 30 days after the sale so that they may be claimed by IRS on the basis of its tax lien priority. In such perishable property cases, the proceeds or an amount large enough to pay the IRS tax lien will be forwarded to the Finance Office with a notation "Hold in suspense 30 days because of Federal Tax Lien." OGC will advise the Finance Office about disposing of the funds.

(6) *Advertising.* (i) Private sales and sales at established public auctions will be advertised by FmHA only if required by a State supplement based on State law.

(ii) Other public sales, whether under power of sale in the lien instrument or under Form FmHA 455-4, will be widely publicized to assure large attendance and a fair sale by one or more of the following methods customarily used in the area.

(A) The sale may be advertised by posting or distributing handbills, posting Form FmHA 455-8, or a revision of it approved by OGC to meet State law requirements, or by a combination of these methods. The length of time and place of giving notice will be covered by a State supplement.

(B) Advertising in newspapers or spot advertising on local radio or TV stations may be used depending on the amount of property to be sold and the cost in relation to the value of the property, the customs in the area, and State law requirements. When newspaper advertising is required, a State supplement will indicate the types of newspapers to be used, the number and times of insertions of the advertisement, and the form of notice of sale.

(7) *Payment of costs and prior lienholders.* If expenses must be paid before the sale or if cash proceeds are not available from the sale of the property to pay costs referred to in § 1962.44 (b) of this Subpart or to pay prior lienholders, such costs or prior liens will be paid by voucher on Standard Form 1034 or by Standard form 1143, "Advertising Order," and Standard Form 1143a, "Memorandum Copy" for newspaper or publisher's invoice for newspaper advertising under FmHA Instruction 2024-F a copy of which is available in any FmHA Office.

(i) The amount of the voucher will be charged to the borrower's account, except as limited by State law in a State supplement. No costs in the repossession and sale of security should be incurred unless they can be charged to the borrower's account, and in no event will the Government pay them. However, if costs are not legally chargeable to the borrower, they may be paid as provided in this Subpart, and charged to an account set up for the officials or other persons found responsible for them.

(ii) Each invoice or voucher will be approved by the County Supervisor, signed by the payee or supported by signed invoices, and submitted to the Finance Office for payment. An original and one copy of Form FmHA 455-6 or Form FmHA 455-7 will be attached to invoices or vouchers in payment of such costs as custody, care, storage, harvesting, and marketing.

(8) *Bill of sale or transfer of title.* If a purchaser requests a written conveyance of repossessed property sold by FmHA at public or private sale, the County Supervisor will execute and deliver to the purchaser Form FmHA 455-12, "Bill of Sale 'C' (Sale Through Government as Liquidating Agent)," or other necessary instruments to convey all the rights, title, and interests of the borrower and FmHA. A State supplement will be issued as necessary for conveying title to motor vehicles and boats.

§ 1962.43 Liquidation of chattel security or EO property by other parties.

(a) *Sale by prior lienholders and other parties.* See § 1955.20 of Subpart A of Part 1955 of this chapter for the County Supervisor's authority to bid at such sales.

(b) *Sale by junior lienholders.* On learning through formal notice or otherwise that a junior lienholder has begun foreclosure, the County Supervisor will consider whether FmHA should start liquidation. If the County Supervisor decides on liquidation, the County Supervisor will inform the junior lienholder and arrange for voluntary liquidation. If the junior lienholder has already begun foreclosure action and if voluntary liquidation cannot be effected, FmHA will foreclose its lien so that a single foreclosure sale may be held under both liens. If insufficient time or other reasons prevent holding a joint foreclosure sale, the County Supervisor will inform the foreclosing junior lienholder in writing as to the property on which FmHA holds a prior lien; and that

(1) If the junior lienholder's foreclosure sale is held, the County Supervisor will announce at the sale that FmHA holds a prior lien on each item of such property as security for an indebtedness of $—— (total principal and interest), and that any such property sold will continue to be subject to FmHA's prior lien; and that

(2) The County Supervisor will immediately start foreclosure or other legal action to obtain the full value of each item of this property to apply on its prior lien until its lien is satisfied.

(c) *Retention by other lienholders without sale.* If another lienholder notifies FmHA that it has taken possession of the security after default and proposes to keep it in satisfaction of its secured claim, the County Supervisor should promptly reply in writing that FmHA objects and insists that the property be sold in accordance with law. The County Supervisor will only write the lienholder when FmHA's estimated recovery will be substantially greater than the amount of the claim, prior liens and sale expenses. After such notice, the case will be referred to the State Director for advice.

§ 1962.44 Distribution of liquidation sale proceeds.

This section applies to proceeds of nonjudicial liquidation sales conducted under the power of sale in lien instruments or under Form FmHA 455-4, Form FmHA 455-3, or Form FmHA 462-2.

(a) *Lien priorities.*—(1) *Federal liens.* For Federal income, social security, other Federal tax liens, or liens of other Federal agencies, OGC's advice will be obtained as to lien priorities.

(2) *State and local tax liens.* A State supplement, if considered necessary by the State Director and OGC, will list priorities of these liens or may provide for referral of these cases to the State Office.

(3) *Chattel mortgages and other liens of private parties.* A State supplement, if considered necessary by the State Director and OGC, will list priorities of chattel mortgages, landlord's liens, mechanics and materialmen liens, and other liens of private parties.

(4) *Security interests under UCC.* Liens on the same collateral that are perfected by filing a financing statement under the UCC and that are still effective as constructive notice, unless otherwise provided by a State supplement, will be paid in the order of their perfection. Exceptions to this rule are listed below. A State supplement will be issued whenever necessary to explain any State deviations from these listed exceptions.

(i) A purchase money security interest in personal property will take priority over an earlier perfected security interest if a security agreement is taken and a financing statement is filed before the purchaser receives possession of the collateral or within 10 days thereafter. However:

(A) *Motor vehicles.* For motor vehicles required to be licensed, any action necessary to obtain perfection in the particular State, such as having the security interest noted on the certificate of title, must be taken before the purchaser receives possession of the collateral or within 10 days thereafter. In some States, filing a financing statement to perfect a security interest is not required. A State supplement will be issued as necessary.

(B) *Farm equipment.* A purchase money security interest in farm equipment, other than fixtures or motor vehicles required to be licensed, costing $2,500 or less, will take priority over an earlier perfected security interest if a security agreement is obtained, even though a financing statement is not taken or filed.

(C) *Inventory.* A purchase money security interest in inventory will take priority over an earlier perfected security interest provided a security agreement is taken and a financing statement is filed not later than the time the purchaser receives possession of the property. Also, before the purchaser receives possession, the purchase money creditor will notify the earlier perfected secured party, in writing, that he or she has, or expects to acquire, a purchase money security interest in inventory described by item or type.

(ii) A security interest taken in goods before they become fixtures has priority over real estate interest holders. A security interest taken in goods after they become fixtures is valid against all persons subsequently acquiring an interest in the real estate. It is not valid, however, against persons who had an interest in the real estate when the goods became fixtures, unless they execute a consent disclaimer or subordination agreement.

(iii) A security interest taken in and to finance crops not more than 3 months before they are planted or otherwise become growing crops, has priority over an earlier perfected security interest for obligations that were due more than 6 months before the crops became growing crops.

(b) *Order of payment.*—Sales proceeds will be distributed in the following order of priority.

(1) To pay expenses of sale including advertising, lien searches, tests and inspection of livestock, and transportation, custody, care, storage, harvesting, marketing, and other expenses chargeable to the borrower, including reimbursement of amounts already paid by FmHA and charged to the borrower's account. Bills can be paid, after liquidation has been approved, for essential repairs and parts for machinery and equipment to place it in reasonable condition for sale, provided written agreements from any holders of liens which are prior to those of FmHA state that such bills may be paid from the sales proceeds ahead of their liens.

(i) However, any such expenses incurred by the U.S. Marshal or other similar official such as a local sheriff may not be paid from sale proceeds turned over to FmHA.

(ii) On the other hand, if the U.S. Marshal or other similar official such as a local sheriff has taken possession of the property and delivered it to FmHA for sale, such costs incurred by FmHA after delivery of the property to it may be paid from the proceeds of the sale.

(2) To pay liens which are prior to FmHA liens provided that:

(i) State and local tax liens on security or EO property which are prior to the liens of FmHA will be paid only when demand is made by tax collecting officials before distributing the sale proceeds. The sale proceeds will not be used to pay real estate, income, or other taxes which are not a lien against the security, or to pay substantial amounts of personal property taxes on nonsecurity personal property.

(ii) If action is threatened or taken by the sheriff or other official to collect taxes not authorized in paragraph (b) (2) (i) of this section to be paid out of the security or the sale proceeds, the sale will be postponed unless an arrangement can be made to deposit in escrow with a responsible disinterested party an amount equal to the tax claim, pending determination of priority rights. When the sale is postponed, or an escrow arrangement is made, the matter will be reported promptly to the State Director for referral to OGC.

(iii) If FmHA subordinations have been approved, their intent will be recognized in the use of sale proceeds even though the creditor in whose favor the FmHA lien was subordinated did not obtain a lien. If there are other third party liens on the property, however, the lienholders must agree to the use of the sale proceeds to pay such creditor first.

(3) To pay rent for the current crop year from the sale proceeds of other than basic security or EO property. However, there must be no liens junior to FmHA's other than the landlord's lien, if any, and the borrower must consent in writing to the payment.

(4) To pay debts owed FmHA which are secured by liens on the property sold.

(5) To pay liens junior to those of FmHA in accordance with their priorities on the property sold, including any landlord's liens for rent unless, such liens already have been paid. Junior liens will not be paid unless, on request, the lienholder gives proof of the existence and the amount of his or her lien.

(6) To pay on any EO unsecured debt.

(7) To pay rent for the current crop year if the borrower consents in writing to payment and if such rent has not already been paid as provided in paragraphs (b), (2), (3), or (5) of this section.

(8) To pay on any other FmHA debts, either unsecured or secured by liens on property which is not being sold. However, in justifiable circumstances, the State Director may approve the use of a part or all of the remainder of such sale proceeds by the borrower for other purposes: *Provided*, The other FmHA debts are adequately secured, or the borrower arranges to pay the other debts from income or other sources and these payments can be depended upon.

(9) To pay the remainder to the borrower.

(c) *Receipts.*—Receipts are required for all amounts paid from the sale proceeds and are kept in the borrower's case file. Form FmHA 451-2 will be prepared only for the total amount remitted to FmHA for credit to the borrower's indebtedness.

§ 1962.45 Reporting sales.

(a) Form FmHA 455-13 will be prepared when:

(1) Property is repossessed by FmHA; or

(2) The borrower sells the property under Form FmHA 455-3 or Form FmHA 462-2 and the FmHA debt is not paid in full; or

(3) The property is sold by prior or junior lienholders or other parties. It will not be prepared when the borrower holds the sale using Form FmHA 455-3 or Form FmHA 462-2 and the borrower's FmHA indebtedness is paid in full.

(b) Form FmHA 455-13 will be completed as soon as all the property is sold. In completing Part I of this form, the names of the purchasers need not be shown if there are numerous purchasers and the clerk's report of sale is filed in the borrower's case file, or liquidation is effected by using Form FmHA 462-2.

§ 1962.46 Deceased borrowers.

Immediately on learning of the death of any person liable to FmHA, the County Supervisor will prepare Form FmHA 455-17, "Report on Deceased Borrower," to determine whether any special servicing action is necessary unless the County Supervisor recommends settlement of the indebtedness under Part 1864 of this chapter (FmHA Instruction 456.1). If a survivor will not continue with the loan, it may be necessary to make immediate arrangements with a survivor,

executor, administrator, or other interested parties to complete the year's operations or to otherwise protect or preserve the security.

(a) *Reporting.* The borrower's case files including Form FmHA 455-17 will be forwarded promptly to the State Director for use in deciding the action to take if any of the following conditions exist (When it is necessary to send an incomplete Form FmHA 455-17, any additional information which may affect the State Director's decision will be sent as soon as available on a supplemental Form FmHA 455-17 or in a memorandum.):

(1) Probate or other administration proceedings have been started or are contemplated.

(2) The debts owed to FmHA are inadequately secured and the estate has other assets from which collection could be made.

(3) FmHA's security has a value in excess of the indebtedness it secures and the deceased obligor owes other debts to FmHA which are unsecured or inadequately secured.

(4) The County Supervisor recommends continuation with a survivor who is not liable for the indebtedness or recommends transfer to, and assumption by another party.

(5) The County Supervisor recommends, but does not have authority to approve, liquidation.

(6) The County Supervisor wants advice on servicing the case.

(b) *Probate or administration proceedings.* Generally, probate or administration proceedings are started by relatives or heirs of the deceased or by other creditors. Ordinarily, FmHA will not start these proceedings because of the problems of designating an administrator or other similar official, posting bond, and paying costs. If probate or administration proceedings are started by other parties or at FmHA's request, and any security is to be liquidated by FmHA instead of by the administrator or executor or other similar official, it will be liquidated in accordance with the advice of OGC. The State Director may request OGC to recommend that the U.S. Attorney bring probate or administration proceedings when it appears that:

(1) Such proceedings will not be started by other parties;

(2) FmHA's interests could best be protected by filing a proof of claim in such proceedings, and

(3) Public administrators or other similar officials or private parties, including banks and trust companies, are eligible to, and will serve as administrator or other similar official and will provide the required bond.

(c) *Filing proof of claim.* When a proof of claim is to be filed, it will be prepared on a form approved by OGC, executed by the State Director, and transmitted to OGC. It will be filed by OGC or by an FmHA official as directed by OGC or it will be referred by OGC to the U.S. Attorney for filing if representation of FmHA by counsel may be required. If a judgment claim is involved, the notification to the U.S. Attorney will be the same as for judgment claims in bankruptcy. If an insured loan is involved, the proof of claim will not be prepared until the note has been assigned to the Government. A proof of claim will be filed when probate or administration proceedings are started, unless:

(1) After considering liens and priority rights of FmHA and other parties, costs of administration, and charges against the estate, FmHA cannot reach the assets in the estate except for FmHA's own security and FmHA will liquidate the security by foreclosure or otherwise if necessary to collect its claim, or

(2) Continuation with an individual or transfer to and assumption by another party is approved, and either the debt owed to FmHA is fully secured, or the amount of the debt in excess of the value of the security which could be collected by filing a claim is obtained in cash or additional security, or

(3) The debt owed to FmHA by the estate is settled under Part 1864 of this Chapter (FmHA Instruction 456.1) well ahead of the deadline for filing proof of claim.

(d) *Priority of claims.* (1) Each secured claim will take its relative lien priority to the extent of the value of the property serving as security for it. These claims include those secured by mortgages, deeds of trust, landlord's contractual liens, and other contractual liens or security instruments executed by the borrower on real or personal property. However, tax, judgment, attachment, garnishment, laborer's, mechanic's, materialmen's, landlord's statutory liens, and other noncontractual lien claims may or may not be secured claims. Therefore, if any noncontractual claims are allowed as secured claims and the FmHA claim is not paid in full, the advice of OGC will be obtained as to whether they constitute secured claims and as to their relative priorities.

(2) Unsecured claims will be handled as follows:

(i) The remaining assets of the estate, including any value of security for more than the amount of the secured claims against it, are to be applied first to payment of administration costs and charges against the estate and second to unsecured debts of the deceased.

(ii) If the total of the remaining assets in the estate being administered is not enough to pay all administration costs, charges against the estate, and unsecured debts of the deceased, the Government's unsecured claims against the remaining assets will have priority over all other unsecured claims, except the costs of administration and charges against the estate. Under such circumstances unsecured claims are payable in the following order of priority:

(A) Costs of administration and charges against the estate unless under State law they are payable after the Government's unsecured claims. Such costs and charges include costs of administration of the estate, allowable funeral expenses, allowances of minor children and surviving spouse, and dower and courtesy rights.

(B) The Government's unsecured claims.

(3) A State supplement will be issued as needed taking into consideration the Federal priority statute, lien waivers and subordinations, and notice and other statutory provisions which affect lien priorities.

(e) *Withdrawal of claim.* It may not be necessary to withdraw a claim when it is paid in full by someone other than the estate or when compromised. However, when it is necessary to permit closing of an estate, compromise of a claim, or for other justifiable reasons, the State Director will recommend to OGC that the claim be withdrawn on receipt of cash or security, or both, of a value at least equal to the amount that could be recovered under the claim against the estate. When FmHA keeps existing security, arrangements must be made to assure that withdrawal of the claim will not affect FmHA's rights under the existing notes or security instruments with respect to the retained security. In some cases, with OGC's advice, the claim may be properly handled without filing a formal petition for withdrawal of the claim. However, if the claim has been referred to the U.S. Attorney, or if a formal withdrawal of the claim is necessary, the matter will be referred by OGC to the U.S. Attorney.

(f) *Liquidation of security.* When probate or administration proceedings have not been started and continuation with a survivor or transfer and assumption by another party will not be approved, chattel security and real estate security will be liquidated promptly in accordance with this subpart and Subpart A of Part 1872 of this chapter (FmHA Instruction 465.1), respectively. If the proceeds from the sale of security are insufficient to pay in full the indebtedness owed to FmHA, and other assets are available in the estate or in the hands of heirs from which to collect, the State Director will request OGC to effect collection.

(g) *Continuation of secured debt and transfer of security.* When a surviving member of a deceased borrower's family or other person is interested in continuing the loan and taking over the security for the benefit of all or a part of the deceased borrower's family who were directly dependent on the borrower for their support at the time of the borrower's death, continuation may be approved subject to the following:

(1) Any individual who is liable for the indebtedness of the deceased borrower may continue with the loan provided that individual can comply with the obligations of the notes or other evidence of debt and chattel or real estate security instruments and so long as liquidation is not necessary to protect the interest of FmHA. When an individual who is liable for the indebtedness is to continue with the account, Form FmHA 450-10, "Advice of Borrower's Change of Address or Name," will be sent to the Finance Office to change the account to that individual's name. A new case number will be assigned or, if the continuing individual already has a case number, that number will be used regardless of whether that individual assumed all or a portion of the amount of the debt owed by the estate of the deceased.

(2) When a surviving member of a deceased borrower's family, a relative or other individual who is not liable for the indebtedness desires to continue with the farming or other operations and the loan, the State Director may approve the transfer of chattel or real estate security or both to the individual and the assumption of the debt secured by such property without regard to whether the transferee is eligible for the type of loan being assumed, subject to the following conditions:

(i) The transferee will continue the farming or other operations for the benefit of all or a part of the deceased borrower's family who were directly dependent on the borrower for their support at the time of death.

(ii) The amount to be assumed and the repayment rates and terms will be the same as provided in § 1962.34(a).

(iii) The State Director determines that the continuation will not adversely affect repayment of the loan.

(3) In determining whether to continue with individuals, whether they are already liable or assume the indebtedness, all pertinent factors will be considered including whether:

(i) Probate or administration proceedings have been or will be started and, with OGC's advice, whether the filing of a claim on the debt owed to FmHA in such proceedings is necessary to protect FmHA's interests.

(ii) Arrangements can be made with the heirs, creditors, executors, administrators, and other interested parties to transfer title to the security to the continuing individual and to avoid liquidating the assets so that the individual can continue with the loan on a feasible basis.

(4) If continuation is approved, all reasonable and practical steps, short of foreclosure or other litigation, will be taken to vest title to the security in the joint debtor or transferee.

(5) The deceased borrower's estate may be released from liability for the FmHA indebtedness if title to the security is vested in the joint debtor or transferee, and:

(i) The full amount of the debt is assumed, or

(ii) If only a portion of the debt is assumed, the amount assumed equals the amount as determined by OGC which could be collected from the assets of the estate of the deceased borrower, including the value of any security or EO property, and the County Committee recommends release of liability.

(h) *Special servicing of deceased EO borrower cases.* If the EO loan is secured, all paragraphs in this section will be followed. If the EO loan is unsecured, paragraphs (a), (b), (c), (d), and (e) of this section will be followed along with the following requirements:

(1) An individual who is liable for the indebtedness of the deceased borrower and wishes to continue with the EO debt and the EO property, may do so in accordance with paragraph (g)(1) of this section.

(2) A surviving member of the deceased borrower's family, a joint operator with the deceased borrower, a relative, or other individual who is not liable for the EO debt who desires to continue with the farming or other operation may do so in accordance with paragraph (g)(2) of this section. This individual must execute a loan agreement in addition to the assumption agreement and secure the EO debt with a lien on the remaining EO property when title to the property is vested in the individual and the County Supervisor determines that security is necessary to protect the interests of the deceased borrower's family or FmHA.

(3) If no individual listed in paragraphs (h) (1) and (2) of this section wishes to continue, but a member of the borrower's family turns over to FmHA the EO property in which the estate has an interest and which is not essential for minimum family living needs, the County Supervisor will take possession of EO property and sell it in accordance with § 1962.42. If this cannot be done, or if real property is involved, the case will be referred to OGC. If the property is sold, notice will be delivered to any of the borrower's heirs who are in possession of the property and to any administrator or executor of the borrower's estate.

§ 1962.47 Bankruptcy and insolvency.

If a borrower becomes a debtor in proceedings under any State or Federal Bankruptcy or State insolvency law, the County Supervisor will promptly report the facts and forward the borrower's case file and other pertinent information and documents to the State Director for appropriate handling. The County Supervisor will keep the State Director informed of further developments, but will take no other action unless directed by the State Director or OGC. Under the Federal Bankruptcy law, after payment of fees and costs, unsecured FmHA claims and the amount of any claim in excess of any security with interest to the date of filing the petition in bankruptcy, are entitled to priority of payment over unsecured claims of other creditors. On receipt of the file and related material, the State Director will determine whether the case is a "no asset" or "asset" case or, if uncertain, obtain OGC's advice. A "no asset" case is one in which FmHA has no security for the debt and the debtor has no other assets from which FmHA could make a substantial collection, considering its priority rights. An "asset case" is one in which FmHA has security or the debtor has other assets, or both, from which FmHA could make a substantial collection, considering its priority rights.

(a) *No asset cases.* The file and related material will be returned to the County Office with a memorandum indicating the State Director's determination and advising that a proof of claim will not be filed unless the County Supervisor learns that the debtor has assets not previously known to exist. If assets are found before the time for filing claims has expired (within 6 months from the first date set for the first meeting of creditors), the County Supervisor will resubmit the case to the State Director.

(b) *Asset cases.*—

(1) *Liquidation without filing proof of claim.* (i) If the value of FmHA's security is not more than the amount of its secured debt and the borrower has no other assets from which FmHA can substantially collect considering its priority rights, the security may be liquidated by foreclosure sale in the usual manner without preparing proof of claim if the referee in bankruptcy has no objection to foreclosure by FmHA.

(ii) If FmHA has no security or has security from which full collection cannot be expected, but the borrower has other assets from which FmHA can make a substantial collection considering its priority rights, any secu-

V 4 4 / 1 5

rity may be liquidated by foreclosure sale under the same conditions as set forth in paragraph (b) (1) (i) of this section if the sale is held in time to file a proof of claim for the deficiency.

(2) *Filing proof of claim.* A proof of claim on an insured loan will not be executed or filed and foreclosure proceedings will not be started unless the note is held by FmHA or has been assigned to it.

(i) The State Director will execute Form FmHA 455-18, "Proof of Claim of the United States of America Entitled to Priority of Payment," or other form approved by OGC covering all indebtedness to FmHA, except any judgments obtained by a U.S. Attorney, and send it to OGC with attachments that are required by a State Supplement. OGC will refer the claim and any necessary petition for abandonment of security to the U.S. Attorney or to the Department of Justice, as appropriate, for handling.

(ii) If the County Supervisor or the State Director knows that a judgment has been obtained by a U.S. Attorney, the State Director will notify OGC even though that judgment has been charged off. OGC will inform the U.S. Attorney so that a proof of claim may be prepared and filed or some other action taken on the judgment.

(iii) The State Director, on OGC's advice, will instruct the County Supervisor about actions to take with respect to meetings of creditors.

(3) *Security released to FmHA.* Ordinarily, when the value of security is not more than the amount of FmHA liens and any prior liens against it plus any homestead or other exemptions that apply to it as specified in a State supplement or as determined by OGC, an effort will be made to get the security released to FmHA. A petition for abandonment may be referred by OGC to the U.S. Attorney or to the Department of Justice, as appropriate, for filing in any such case, with or without filing a proof of claim, as determined by OGC. When the referee orders security released to FmHA, it will be liquidated unless the State Director approves continuation with the borrower.

(i) *Liquidation.* When security is dated, the proceeds, after payment of costs, will be applied first to the interest accrued to the date of filing the petition in bankruptcy and then to the principal of the debt. Additional proceeds will be applied to the interest accrued from the date the petition in bankruptcy was filed to the date of payment. When the payments are sent to the Finance Office, the County Supervisor will give the date the petition in bankruptcy was filed.

(ii) *Continuation with borrower.* If the State Director approves continuing the loan and the borrower is keeping the security, the borrower must execute:

(A) Form FmHA 460-10, "New Promise to Pay," promising to pay all indebtedness to FmHA which is secured by the property released to FmHA in accordance with the existing instrument(s) evidencing such indebtedness; and

(B) Any security or other instruments required by OGC. The new promise and other required instruments will be executed promptly after release of the security to FmHA and the borrower's adjudication in bankruptcy unless, under State law, the new promise to be effective must be made after discharge in bankruptcy.

(c) *Other parties liable.* When a joint obligor has been discharged in bankruptcy and continuation has been disapproved, but other parties remain liable for the debt, the County Supervisor will use Form FmHA 450-10 to notify the Finance Office of the names of the parties remaining liable and the address to which to mail the statement of account.

§1962.48 Setoffs.

Generally, FmHA will request set offs only when all security has been liquidated, when ordinary collection efforts, including assignments, have not been effective and, if the borrower has cooperated with FmHA in the servicing of the loan, the setoff would not cause undue hardship on the borrower and the borrower's family. The filing of a setoff request will not decrease other collection efforts. Debts of nominal amounts and debts discharged in bankruptcy, will not be collected by setoff under this Subpart. Cases will not be referred for civil action until after any possible setoff actions are taken. However, there may be situations in which funds become available against which setoffs might be possible after referring the case for court action. Setoffs will not be requested in cases referred to the U.S. Attorney for collection or in cases where a judgment has been obtained, without prior approval of the U.S Attorney.

(a) *ASCS setoff.* The Secretary's Order on setoffs authorizes the collection of debts owed to FmHA by setoff against amounts approved for payment to the debtor by ASCS committees.

(1) *County Office actions.* (i) FmHA's County Office staff may ask the ASCS County Office staff whether the debtor has shown an intention, with respect to a particular crop year, to participate in one or more of the programs administered by ASCS under which funds might be available for setoff.

(ii) The County Supervisor will forward recommendations for such set offs to the State Director, including information about efforts to collect by other means and any other pertinent information.

(iii) If, after a recommendation for a setoff has been made the borrower pays the indebtedness to FmHA, moves to a new location or the borrower's circumstances change so as to affect the setoff, such information will be sent to the State Director.

(2) *State Office actions.* The State Director will consider a recommendation for a setoff to determine if the setoff is justified and if it complies with this subpart.

(i) The State Director will prepare requests for setoffs in memorandum form. The original and signed copy of the request will be submitted to the ASCS State Office and a copy forwarded to the County Supervisor for the borrower's case file. The request will contain the following information.

(A) Full name, address, and FmHA case number of the debtor.

(B) County and State under which the amount of the indebtedness should be set up on the debt register.

(C) Principal amount of the indebtedness, the accrued interest, the date through which interest was computed, and the daily interest factor to be applied afterwards.

(D) Address of the FmHA County Office for delivery of check.

(E) Identification of any court judgment.

(F) The following certification:

The undersigned hereby certifies that the above-described indebtedness of ———— to the United States (Farmers Home Administration) is subject to setoff under the Secretary's Order.

(Date) ————————————

(Signature of Authorized Representative) ————————————

(Title) ————————————

(ii) The State Director may withdraw a request for setoff by notifying the ASCS State Office at any time before processing a setoff voucher and sending a copy of the request for withdrawal to the County Supervisor. However, setoffs may be withdrawn only if the borrower pays the indebtedness fully or substantially, the debt is settled, or future collections can be made by other methods.

(iii) If the account of the borrower for whom a request for setoff has been submitted is transferred to another FmHA County Office jurisdiction, either within or outside the State, the State Director will notify the ASCS State Office of the address of that FmHA County Office so that any payments may be sent there.

(3) *Check delivery.* Setoffs will be made by checks or sight drafts payable to FmHA and delivered to the County Supervisor. If the claim has been forwarded to OGC, the remittance will be sent to OGC. OGC instructions as to application will be followed.

(4) *Deletion from debt registers.* (i) The names of FmHA borrowers for whom requests for setoffs have been submitted and who have quit farming, or cannot be located in the counties for which the debts were reported, will be deleted by the ASCS County Office from their debt registers without a request from FmHA. Notices of such deletions will be furnished to the FmHA State Office originating the setoff request.

(ii) On receipt of notice, the State Director will inform the appropriate FmHA County Office of the deletions.

(iii) If the borrowers whose names have been deleted resume farming operations or can be located, the County Supervisor may submit to the State Director a recommendation for a new request for setoff.

(b) *Federal employee setoff.* Salary and lump sum payments due borrowers on separation or retirement from Federal Government employment may be set off against debts owed to FmHA. Any sum a borrower has in the Civil Service Commission retirement fund also may be set off.

(1) *County Office actions.* If efforts to collect the debt from current income from Federal employment fail, the County Supervisor will submit the case to the State Director with information necessary to report the case to the National Office.

(2) *State Office actions.* If the facts justify a setoff against the borrower's salary and lump sum payments or Civil Service retirement the State Director will submit the case to the National Office, including:

(i) Full name, address, and FmHA case number of the borrower and, if the borrower is a member of the military establishment or Coast Guard, title and serial number.

(ii) Date of birth of borrower.

(iii) Name and address of the employing agency, military establishment, or Coast Guard.

(iv) Approximate income of borrower and spouse.

(v) Financial circumstances of the borrower documented on Form FmHA 456-1, "Application for Settlement of Indebtedness."

(vi) Number of dependents.

(vii) Information about FmHA efforts to collect.

(viii) Statement of account.

(ix) Identification of any court judgment.

(x) A recommendation if the borrower is retired, based on financial circumstances, as to whether all or part of the monthly annuity check should be set off.

§ 1962.49 Civil and criminal cases.

All cases in which court actions to effect collection or to enforce FmHA rights are recommended, as well as actions relating to apparent violations of Federal criminal statutes, will be handled in accordance with this section.

(a) *Civil action.* Court action or other judicial process will be recommended to OGC when all other reasonable and proper efforts and methods to obtain payment, to remove other defaults, and to protect FmHA's interests have been exhausted. However, if an emergency situation exists or criminal action is to be recommended, the case will be submitted to OGC without taking the actions necessary to report the information required by Part II of Form FmHA 455-22, "Information for Litigation." This is because delay in submitting cases in emergency situations may affect the financial interests of FmHA and making collection efforts may affect the recommended criminal action.

(1) Civil action will be recommended when one or more of the following conditions exists:

(i) There is a need to repossess security or EO property or to foreclose a lien and such action cannot be accomplished by other means authorized in this Subpart.

(ii) There is a need for filing claims against third parties because of a conversion of security or other action.

(iii) Payments due on debts are not made in accordance with the borrower's ability to pay, and the borrower has assets or income from which collection can be made.

(iv) The borrower has progressed to the point that credit can be obtained from other sources, has agreed in the note or other instrument to do so, but refuses to comply with that agreement.

(v) FmHA or its security becomes involved in court action through foreclosure by a third-party lienholder or through some other action.

(vi) Other conditions exist which indicate that court action may be necessary to protect FmHA's interests.

(2) Claims of less than $600 principal will not be referred to OGC for court action unless:

(i) A statement of facts is submitted as to the exact manner in which the interest of FmHA, or other than recovery of the amount involved, would be adversely affected if suit were not filed; and

(ii) Collection of a substantial part of the claim can be made from assets and income that are not exempt under State or Federal law. A State supplement will be issued to set forth such exemptions or a summary of those exemptions with respect to property to which FmHA normally would look for payment such as real estate, livestock, equipment, and income.

(3) If criminal action will not be recommended before civil action is recommended, the following actions will be taken or determinations made:

(i) It must be determined on the basis of reasonably current credit data that there is a reasonable prospect of collection now or in the near future of all the debt or a substantial amount of the debt from assets and income that are not exempt under State or Federal law.

(ii) The debtor must be contacted personally and requested to pay the debt in full, unless one or more such contacts have been made recently without success, or such contact is not feasible considering the distance of the debtor from the County Office or other relevant factors.

(iii) Form FmHA 455-21 will be used to accelerate the borrower's indebtedness, and will state the consequences of failure to make payment as demanded. The borrower will be given at least 15 days, but not more than 30 days, to make payment. However, this form will not be sent to the borrower unless the County Supervisor believes that it would be appropriate to refer the case to the U.S. Attorney if the borrower does not comply with the demand.

(iv) It must be determined that collection cannot be made by ASCS setoff in accordance with the provisions of § 1962.48 (a) of this Subpart, or by setoff or other agreement if the debtor is employed by another Federal agency or has a judgment against the United States.

(v) The current address of the debtor will be determined or efforts will be made to locate the debtor in accordance with § 1864.5 (b) of Part 1864 of this chapter. (FmHA Instruction 456.1 paragraph V B).

(vi) If the debtor advises that the claim cannot be paid in full, and if the County Supervisor believes that this may be the situation and that there has been no fraud or misrepresentation in the case, the County Supervisor will suggest that the debtor submit promptly an application for compromise or adjustment on Form FmHA 456-1, so that it may be considered and the debt disposed of by such debt settlement, if possible.

(4) When a borrower has not properly accounted for the proceeds of the sale of security, it is the general policy to look first to the borrower for restitution rather than to third-part purchasers. In line with this policy the remaining chattel security on which FmHA holds a first lien usually will be liquidated before demand is made or civil action taken to recover from third-party purchasers.

A 2 2 7 9 UMI

V 4 4 / 1 5 J A 2 2 7 9 UMI

(i) When the County Supervisor determines that full collection cannot be made from the borrower and that it will be necessary to collect the full value of the security purchased by a converter, a demand (see Guide Letter 1962-A-1, a copy of which is available in all FmHA County Offices) will be sent to the converter at the same time that Form FmHA 455-21 is sent to the borrower.

(ii) When the County Supervisor determines that it is likely that action will have to be taken to collect from third-party purchasers, the County Supervisor will notify such purchasers by letter (see Guide Letter 1962-A-2, a copy of which is available in all FmHA County Offices) that FmHA security has been purchased by them and that they may be called upon to return the property or pay the value thereof in the event restitution is not made by the borrower. If it later becomes necessary to make demand on such third-party purchasers, FmHA will do so unless the case already has been referred to OGC or the U.S. Attorney, in which event the demand will be made by one of those offices.

(iii) When restitution is made by the borrower, or a determination is made, with the advice of OGC, that the facts in the case do not support the claim against the third-party purchaser, the third-party purchaser will be informed by the County Supervisor that FmHA will take no adverse action (see Guide Letter 1962-A-3, a copy of which is available in all FmHA County Offices). Ordinarily, it will not be necessary to inform the third-party purchaser of OGC's decision when OGC determines that the facts support the claim against the third-party purchaser but no substantial part of the claim can be collected. If OGC makes such a determination and the third-party purchaser asks what determination has been made, the County Supervisor will say that no further action is to be taken on the claim "at this time."

(iv) If court action is recommended against a converter, the applicable provisions of subparagraphs (a) (2) and (3) of this section will be followed with respect to such converter the same as with respect to the borrower. In addition, unless personal contacts with the converter or other efforts to collect demonstrate that further demand would be futile, and a satisfactory compromise offer has not been received, a followup letter (see Guide Letter 1962-A-4, a copy of which is available in all FmHA County Offices) will be sent by the State Director as soon as possible after the 15-day period set forth in the demand letter has expired. Unless response to the State Director's followup letter or personal contacts or other efforts indicate that further demand would be futile, an additional followup letter will be sent to the converter by OGC after the case has been referred to that office.

(v) The loan programs administered by FmHA are authorized by law of Congress to carry out national purposes and policies throughout the entire United States and its territories and possessions. Therefore, the liability of an auctioneer for conversion of personal property mortgaged to FmHA shall be determined and enforced in accordance with the applicable Federal law. "Auctioneer" for the purposes of this Subpart includes a commission merchant, market agency, factor, or agent. When there has been a disposition without authorization by FmHA of personal property mortgaged to that agency, any auctioneer involved in that disposition shall be liable to the Government for conversion—notwithstanding any State statute or decisional rule to the contrary.

(b) *Criminal action.* When factual information has been obtained indicating that criminal violations may have been committed and the violations are of such a nature that criminal action will be recommended, the facts will be immediately reported to OGC without taking collection actions necessary to report the information required by Part II of form FmHA 455-22. In all other cases in which it appears that criminal violations may have been committed, but in which criminal action will not be recommended, the factual situation will be reported to OGC as soon as collection action has been completed in accordance with paragraphs (a) (3) and (4) of this section. Minor deviations referred to in § 1962.4 (f) (7) need not be reported.

(c) *Handling civil and criminal cases.* All cases in which court actions to effect collection or to enforce the rights of FmHA are recommended, and actions relating to apparent violations of Federal criminal statutes, will be forwarded to OGC for submission to the appropriate U.S. Attorney.

(1) *County Office actions.* Forms FmHA 455-1, "Request for Legal Action," and FmHA 455-22 will be prepared. Form FmHA 455-2, "Evidence of Conversion," will be prepared for each conversion. The original and two copies of Forms FmHA 455-1, FmHA 455-22, and, when applicable, Form FmHA 455-2, together with the borrower's case file, will be submitted to the State Office. Signed statements should be obtained, if possible, from the borrower, any third party purchasers, or others to support the information contained on Forms FmHA 455-1 and FmHA 455-21. Appropriate recommendations will be made on Forms FmHA 455-1 and FmHA 455-22 against the borrower or others. When a case is referred to the State Office, the County Supervisor will keep that office informed of any future developments in the case.

(2) *State Office actions.* (i) Upon receipt of Form FmHA 455-1 and, when applicable, Form FmHA 455-2, the State Director will analyze each form to determine if all of the necessary information is documented and, if not, whether an appropriate effort was made to obtain the information. If the State Director is not sure whether additional information is needed, the State Director will ask OGC's advice. If all the necessary information is not available, the State Director will return the case and request the County Supervisor to obtain the information to complete Forms FmHA 455-1 and 455-2. The State Director may assign any qualified FmHA employee to help a County Supervisor obtain the information necessary to complete the reports. After diligent efforts, if FmHA employees are unable to obtain the additional information, the State Director will decide if the case will be referred to the Office of Investigation (OI). A case will be referred to the OI for investigation when:

(A) The State Director determines the additional information is needed before the case is referred to the OGC with a recommendation for civil or criminal actions, and

(B) The debtor owes more than $600 principal, and

(C) The Federal Statute of Limitations has not run and is not about to complete running (Cases should be submitted to the OGC for legal action at least 90 days before the statute completes running.), and

(D) The value of the FmHA security is substantially greater than the estimated cost of investigation and litigation, or

(E) The OGC recommends an OI investigation to pursue criminal action.

(ii) After all of the pertinent information available has been obtained, the State Director will refer the case to OGC if referral is required under the policy expressed in this section. If such referral is not required, the State Director will set forth in Item 19 of Form FmHA 455-1 the basis for the determination not to refer the case and instructions for followup servicing action. Cases which have been investigated by the OI will be referred to OGC. Demands on third-party purchasers will be made in accordance with paragraph (a)(4) of this section. In cases referred to OGC, the State Director will make comments and recommendations regarding the civil and criminal aspects of the case on Form FmHA 455-1. With respect to the criminal aspects of the case, the State Director, in making a recommendation, will consider the nature and gravity of the offense, the restitution

made or undertaken, and all other extenuating circumstances.

(A) When cases are referred to OGC, the County Office case file, Form FmHA 455-1, and, when appropriate, Form FmHA 455-2 will be transmitted. In addition, when the institution of court proceedings by FmHA is recommended, the notes, financing statements, security agreements, other security instruments, loan agreements, and other legal instruments and copies thereof as required by OGC, and Form FmHA 451-11, "Statement of Account," or Form FmHA 451-25, "Status of Account," and Form FmHA 455-22 will be submitted to OGC. The State Director, with the advice of OGC, will determine the number of copies of such instruments needed and the information required on the certified statement of account. Each request for a certified statement of account will specify the type of information needed.

(B) Notes, statements of account, files, or other documents and copies thereof needed in referring cases to OGC for court or other action will be obtained from the Finance Office or County Office by the State Director. When the time required for obtaining the above material or documents may jeopardize FmHA's interest by permitting the diversion or dissipation of assets which otherwise could be expected as a source of payment, the Finance Office, upon the request of the State Director, will forward such material or documents directly to OGC or (at the State Director's direction) to the U.S. Attorney.

(d) *Actions on cases referred to OGC.* When a case is referred to OGC, the State Director will notify the County Supervisor and the Finance Office of the referral and will return the County Office case file when it is no longer needed. After notice of the referral is received by the County Supervisor no collection or servicing action will be taken except upon specific instructions from the State Director or OGC. However, when a borrower voluntarily proposes to make a payment on an account, the County Supervisor will accept the collection unless notice has been received that the case has been referred to the U.S. Attorney. The County Supervisor will immediately notify OGC directly by memorandum, with a copy sent to the State Director, of any such collections received. The County Supervisor also will notify the State Director and OGC of any developments which may affect any case which has been referred to OGC.

(e) *Actions on cases referred to the U.S. Attorney and on judgment cases (including third-party judgments).* OGC will notify the State Director, the Finance Office, and the County Supervisor when a case is referred to the U.S. Attorney or is otherwise disposed of. When a case is referred to the U.S. Attorney, the Finance Office will discontinue mailing Forms FmHA 450-1, "Statement of Account," to such borrowers. OGC will also notify the State Director when a judgment (including third-party) is obtained.

(1) When the County Supervisor receives notice from OGC that a judgment (including third-party) has been obtained, the County Supervisor will notify the Finance Office to establish a judgment account by submitting Form FmHA 455-20, "Notice of Judgment."

(2) After notice has been received that a case has been referred to the U.S. Attorney or a judgment has been obtained and has not been returned to FmHA by the U.S. Attorney, no action will be taken by the County Supervisor except upon specific instructions from the State Director, OGC, or the U.S. Attorney. However, the County Supervisor will keep the State Director informed of any developments which may affect the FmHA security interest or and pending court action to enforce collection. If information is obtained indicating that such debtors have assets or income not previously reported by the County Supervisor to the State Director from which collection of such judgment accounts can be obtained, the facts will be reported to the State Director. The State Director immediately will notify OGC of any developments which might have a bearing on cases referred to the U.S. Attorney, including such judgment cases.

(i) If the debtor proposes to make a payment, FmHA employees will not accept such payment but will offer to assist in preparing a letter for the debtor's signature to be used in transmitting the payment to the U.S. Attorney. In such case, the debtor will be advised to make payment by check or money order payable to the Treasurer of the United States.

(ii) Collection items received through the mail from the debtor or from other sources by the County Office to be applied to such accounts will be forwarded by the County Supervisor through OGC to the appropriate U.S. Attorney. Likewise, collections received by the District Director or the State Office will be forwarded through OGC to the appropriate U.S. Attorney. Such items will be forwarded in the form received except that cash will be converted into money orders made payable to the Treasurer of the United States. The money order receipts will remain attached to the money orders. Form FmHA 451-1 will not be issued in any such case. The debtor will be informed in writing by the County Supervisor of the disposition of the amount received.

(3) When the U.S. Attorney has returned a judgment case to FmHA, the County Supervisor is responsible for servicing it as follows:

(i) When the judgment debtor has the ability to make periodic payments, action will be taken by the County Supervisor to make arrangements for the judgment debtor to do so.

(ii) Any payments received from such debtor by FmHA will be handled by issuing Form FmHA 451-1 and converting and transmitting such payments as provided in Part 1862 of this Chapter (FmHA Instruction 451.2). The U.S. Attorney will be informed through OGC of payments received only when the debtor pays a judgment in full.

(iii) At the time of the annual review of collection-only or delinquent and problem cases, the County Supervisor will determine whether such judgment debtors, whose judgments have not been charged off and who are not making regular and satisfactory payments, have assets or income from which the judgment can be collected. If such debtors have either assets or income from which collection can be made and they decline to make satisfactory arrangements for payment, the facts will be reported by the County Supervisor to the State Director. The State Director will notify OGC of developments when it appears that collections can be enforced out of income or assets.

(iv) Such judgments will not be renewed or revived unless there is a reason to believe that substantial assets have or may become subject thereto.

(v) Such judgments may be released only by the U.S. Attorney when they are paid in full or compromised.

(4) In all judgment cases, any proposed compromise or adjustment will be handled in accordance with § 1864.12 of Part 1864 of this chapter (FmHA Instruction 456.1, paragraph XII).

(5) If the debtor requests information as to the amount of outstanding indebtedness, such information, including court costs, should be obtained from the Finance Office if the County Supervisor does not have that information. If questions arise as to the payment of court costs, information as to such costs will be obtained through the State Office from OGC.

§ 1962.50 [Reserved]

EXHIBIT A

MEMORANDUM OF UNDERSTANDING BETWEEN COMMODITY CREDIT CORPORATION AND FARMERS HOME ADMINISTRATION

IT IS HEREBY AGREED by and between the Farmers Home Administration (hereinafter referred to as "FHA") and the Commodity Credit Corporation (hereinafter referred to as "CCC") that the following procedure will be observed in those cases where producers sell to CCC or pledge to CCC as loan collateral under the Price Support Program, agricultural commodities such as, but not limited to, cotton, tobacco, peanuts, rice, soybeans, grains, on which FHA holds a prior lien and the proceeds from such sales or loans are not remitted to FHA for application against the loan(s) secured by such lien:

1. When an FHA County Supervisor learns that an FHA borrower has obtained a loan from CCC on a commodity or sold a commodity to CCC under such circumstances he shall immediately notify his State Director. The State Director, immediately upon receipt of the notice, shall furnish CCC (see Appendix 1) with the name and address of such borrower, the county of his location at the time the commodity was placed under loan or sold, and the amount of the FHA loan secured by the lien.

2. When CCC receives such a notice from FHA, CCC shall take steps to prevent the making of any further loans on or purchases of the commodity of the borrower. If the CCC loan is still outstanding and CCC calls the loan, CCC shall notify the FHA State director of the demand.

3. If the CCC loan is repaid, whether prior to or after the receipt by CCC of the notice from FHA, the FHA State Director shall be notified immediately, at which time CCC will have discharged its responsibility under this agreement.

4. FHA shall, in each case in which the CCC loan is not repaid or the commodity has been sold to CCC, endeavor to collect from the borrower the amount due on the FHA loan. Such collection efforts shall include the making of demand on the borrower and the following of FHA's normal administrative policies with respect to the collection of debts, but shall not include the making of demand for payment upon the area peanut producer cooperative marketing associations through which CCC makes price support available to producers. If collection efforts are not successful, the FHA County Supervisor shall make a complete report on the matter to his State Director. If the State Director determines that the amount due on the FHA lien is not collectable by administrative action, he shall refer the matter to the appropriate local office of the General Counsel, with a full statement of the facts, for a determination of the validity of the FHA lien. If it is determined by the General Counsel's Office that FHA holds a valid prior lien on the commodity, the State Director shall furnish CCC with a copy of such determination, together with all other pertinent information, and shall request payment to FHA of the lesser of (1) the amount due on its loan, or (2) the value of the commodity at the time the CCC loan or purchase was made (based on the market value of the commodity on the local market nearest to the place where the commodity was stored). The information to be furnished CCC shall include (a) the principal balance plus interest due FHA on the date of the request, (b) the amount due on the FHA loan at the time the CCC loan or purchase was made, and (c) the amount of the CCC loan or purchase proceeds, if any, applied by the producer against the FHA loan. FHA shall continue to make collection efforts and shall notify CCC of any amount collected from the producer or any other party.

5. Upon receipt of evidence, including a copy of the determination of the Office of the General Counsel, from the State Director of FHA that the proceeds from the CCC loan or purchase have not been received by FHA from the borrower, and that collection cannot be made by FHA, CCC will if the CCC loan has not been repaid or if CCC has purchased the commodity, pay FHA the amount specified in paragraph 4 above or deliver the commodity (or warehouse receipts representing the commodity) to FHA: *Provided*, That if CCC has any information indicating that collection may be made by FHA from the borrower or any other party, it may notify FHA and delay payment pending additional collection efforts by FHA.

6. It is the desire of both FHA and CCC that claims to be processed under this agreement receive prompt attention by both parties and be disposed of as soon as possible. Instructions for the implementation of these procedures at the field office level will be developed and issued by the Washington offices of FHA and CCC.

7. Any question with regard to the handling of any claim hereunder shall be reported by the applicable ASCS office to ASCS in Washington and by the FHA State Director to the National Office of FHA.

This Memorandum of Understanding supersedes the agreement entered into between FmHA and CCC on November 5, 1951.

Entered into as of this 29th day of May, 1973.

PARMERS HOME ADMINISTRATION,
FRANK B. ELLIOTT,
Acting Administrator.

COMMODITY CREDIT CORPORATION,
KENNETH E. FRICK,
Executive Vice President.

APPENDIX 1

FURNISHING NOTICE OR INFORMATION TO COMMODITY CREDIT CORPORATION

Commodity:	*Direct to*
Cotton	Prairie Village, Kansas, ASCS Commodity Office
Tobacco	Applicable tobacco association
Peanuts	Applicable peanut association
All other commodities	Applicable State ASCS office

MEMORANDUM OF UNDERSTANDING AND BLANKET—COMMODITY LIEN WAIVER

The Farmers Home Administration (FHA) sometimes makes loans to farmers on the security of agricultural commodities that are eligible for price support under loan and purchase programs conducted by the Commodity Credit Corporation (CCC). FHA and CCC desire that price support be made available to farmers without unnecessarily impairing or undermining the respective security interests of FHA and CCC in and without undue inconvenience to producers and FHA and CCC in securing lien waivers on such commodities.

Now, therefore, it is agreed as follows:

(1) Upon request of an official of an ASCS State Office, the FHA State Director in such State shall furnish designated ASCS County Offices with the names of producers in the trade area from whom FHA holds currently effective liens on commodities with respect to which CCC conducts price support programs. FHA will try to furnish a complete and current list of the names of such producers; however, FHA's liens with respect to any commodity will not be affected by an error in or omission from such lists.

(2) For a loan disbursed by an ASCS County Office, CCC will issue a draft in the amount (less fees and charges due under CCC program regulations) of the loan on, or purchase price of, the commodity payable jointly to FHA and the producer if (a) his name is on the list furnished by FHA, or (b) he names FHA as lienholder. The draft will indicate the commodity covered by the loan or purchase.

(3) On issuance of the draft, the security interest of FHA shall be subordinated to the rights of CCC in the commodity with respect to which the loan or purchase is made. The word "subordinated" means that, in the case of a loan, CCC's security interest in the commodity shall be superior and prior in right to that of FHA and that, on purchase of a commodity by CCC or its acquisition by CCC in satisfaction of a loan, the security interest of FHA in such commodity shall terminate.

(4) Nothing contained in this Memorandum of Understanding shall be construed to affect the rights and obligations of the parties except as specifically provided herein.

(5) This agreement may be terminated by either party on 30 days' written notice to the other party.

H. D. GODFREY,
Executive Vice President, CCC.
JULY 20, 1967.

HOWARD BERTSCH,
Administrator, FmHA.
JULY 14, 1967.

Title 10—Energy

CHAPTER 1—NUCLEAR REGULATORY COMMISSION

PART 2—RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

Clarification of Computation of Time Provisions

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Final Rule.

SUMMARY: The Nuclear Regulatory Commission is amending certain provisions of its Rules of Practice to clarify the requirements for computing the time prescribed for replying to a petition for leave to intervene.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Marc R. Staenberg, Regulations Division, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, TEL: (301-492-8689).

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission has become aware that some confusion has arisen in regard to the time allowed for answering a petition for leave to intervene. Prior to this amendment, § 2.714(c), provided that answers to a petition for leave to intervene must be filed within a prescribed period after *filing* of the petition. In § 2.710, Computation of Time, the prescribed period for taking some action, such as filing an answer, runs from *service* of the initiating document.

The Nuclear Regulatory Commission intended § 2.710 to generally govern computation of time, including the provision for additional time for mailing. Therefore, a minor clarifying amendment is being made to § 2.714(c) to make clear that the time for replying to a petition to intervene shall be computed from the date of service of the petition.

Standard practice calls for notices of hearing and notices of proposed action to include the names and addresses of the Commission staff and applicant so that they may be served with copies of intervention petitions. This practice will be continued. If for some reason an intervention petition is not served by the petitioner, then the time for answer may be calculated from the date of service by the Secretary of the Commission.

Because these amendments relate solely to corrections and minor procedural matters, the Commission has found that good cause exists for omitting notice of proposed rulemaking, and public procedure thereon, as unnecessary, and for making the amendments effective on January 22, 1979, without the customary 30 days notice.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter 1, Code of Federal Regulations, Part 2 is published as a document subject to codification.

Section 2.714(c) is revised to read as follows:

§ 2.714 Intervention.

* * * * *

(c) Any party to a proceeding may file an answer to a petition for leave to intervene within ten (10) days after service of the petition, with particular reference to the factors set forth in paragraph (d) of this section. However, the staff may file such an answer within fifteen (15) days after service of the petition.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 79-CE-1-AD; Amdt. 39-3395]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Models 152 and A152 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) applicable to Cessna Models 152 and A152 airplanes. It supersedes existing AD 78-21-01, amendment 39-3318 (43 FR 49298, 49299) and makes the inspections and actions specified therein applicable to all KMR Industries Part Number 1-1000 exhaust systems having heat exchangers with internal baffles. This AD, which is of an emergency nature, is necessary because failures of the components have occurred which allow carbon monoxide to enter the cabin heater air. This condition may cause pilot incapacitation and result in an accident.

EFFECTIVE DATE: January 25, 1979, to all persons except those to whom it has already been made effective by airmail letter from the FAA dated December 1, 1978.

Compliance: As required in the body of the AD.

ADDRESSES: Cessna Single Engine Service Letter SE78-71, dated December 1, 1978, or later revisions, applicable to this AD, may be obtained from Cessna Aircraft Company, Marketing Division, Attention: Customer Service Department, Wichita, Kansas 67201; Telephone (316) 685-9111. A copy of the service letter cited above is contained in the Rules Docket, Office of the Regional Counsel, room 1558, 601 East 12th Street, Kansas City, Missouri 64106 and at Room 916, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Donald L. Page, Aerospace Engineer, Engineering and Manufacturing Branch, Federal Aviation administration, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, telephone (816) 374-3146.

SUPPLEMENTARY INFORMATION: The FAA has determined that the problem described in the summary is an unsafe condition which is likely to exist or develop in other airplanes of the same type design. The agency also determined that an emergency situation existed, that immediate corrective action was required, and that notice and public procedure thereon was impractical and contrary to the public interest. Accordingly, the FAA notified all known registered owners of the airplanes affected by the AD by Airmail letters dated December 1, 1978. The AD became effective as to these individuals upon receipt of the letter. Since the unsafe condition described herein still exists on other Cessna Model 152 and A152 airplanes, the AD is being published in the FEDERAL REGISTER as an amendment to Part 39 of the Federal Aviation Regulations (14 CFR Part 39) to make it effective to all persons who did not receive the letter notification. Since the subject matter of this AD is similar to that of AD 78-21-01 (Amendment 39-3318, 43 FR 49298, 49299) and includes all airplanes to which that AD applies, AD 78-21-01 is being superseded by this amendment.

V 4 4 / 1 5 J A 2 2 7 9 UMI

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Section 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive.

CESSNA: Applies to Cessna Model 152 (Serial Numbers 15279406 through 15282919) and Model A152 (Serial Numbers A1520735 through A1520845) airplanes having Cessna original equipment type exhaust systems installed.

Compliance: Required as indicated unless already accomplished.

To preclude contamination of cabin heater air with carbon monoxide, accomplish the following:

(A) Before next flight, except that the airplane may be flown with the cabin heat in the "OFF" position to a location where this inspection may be accomplished:

1. Unless previously accomplished per AD 78-21-01, visually inspect the clearance between the exhaust pipe and cowl opening. Minimum clearance must be .375 inch in the fore and aft direction and .625 inch in the lateral direction with a smooth transition between. Enlarge cowl opening as required to obtain this clearance.

2. Visually inspect the interior of the heater muffler, through the tailpipe, for the presence of a perforated baffle system using a flashlight or other aid to illuminate the interior of the heater muffler. If no baffle system is present, the heater muffler is acceptable and the further inspections and actions required by paragraph (A)3 of this AD are not required. If an internal baffle system is present, remove the cowling to gain access to the exhaust system. Determine whether the exhaust system is a KMR Industries Part Number 1-1000, or an Alternate Elano Part Number EL099001-060 by examination of the nameplate which is located between the hose connections on the aft side of the heater shroud on the KMR system or comparison of the exhaust system configuration with those depicted in Figures 64 and 65 of the Model 152 and A152 Illustrated Parts Catalog. If the system is the Alternate Elano system, the present heater muffler is acceptable and the further inspections and actions specified in paragraph (A)3 of this AD are not required.

3. If the exhaust system is a KMR Industries assembly:

(a) Prior to further flight, safety wire the cabin heat valve control arm in the closed position by securing it to the engine mount using .032 diameter safety wire.

(b) Within the next 10 hours time-in-service and within each 50 hours time-in-service thereafter:

1. Remove the engine cowling and the KMR Industries heat exchanger shroud.

2. Using a 5-power, or greater, magnifying glass, visually inspect the heater muffler can for any cracks around the tailpipe and along the three lines of spot welds on the surface of the heat exchanger can itself.

3. If the heater muffler can is found cracked, prior to next flight:

(i) Replace it with a heater muffler having a serial number 4000 or above; or

(ii) Repair and reinstall heater mufflers having cracked or completely pulled-through spot welds and/or closed cracks that do not extend under the end plates and do not exceed 3 inches continuous length, by heli-arc welding in accordance with the following:

1. Use rod material compatible with titanium stabilized 321 stainless steel.

2. It is not necessary to reattach the can to the baffle at pulled-through spot welds if the can and baffle are separated. In this case, it is only necessary to close the hole or crack in the can at the spot weld location.

3. Disconnect the hose between the heat exchanger shroud and the firewall cabin heat valve at the cabin heat valve and safety wire it to the engine mount tube so that 1.5 inches of the hose extends below the fuselage through the cowl air exit hole and to the right of the nose gear. Install the hose clamp on the valve end of the hose so that it grips the wire supported section of the hose. Route the safety wire between the clamp and the hose to secure the clamp and hose to the engine mount.

4. After installation of a new KMR Industries heater muffler having a serial number 4000 or above, obliterate the existing exhaust system serial number located on the nameplate attached to the shroud.

(B) Upon installation of a KMR Industries heater muffler can having a serial number 4000 or above and incorporation of a dam in the heat exchanger shroud in accordance with Cessna Service Kit 152-3, the cabin heat system may be reactivated and the inspection required by Paragraph (A)3(b) discontinued.

NOTE—(The serial number will be stamped on a flange of the replacement heat exchanger can.)

(C) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

Cessna Service Letter SE78-71 dated December 1, 1978, or later revisions, pertains to this subject.

This AD supersedes AD 78-21-01 which became effective October 6, 1978 [43 FR 49298, 49299] to all persons except those to whom it had already been made effective by airmail letter from the FAA dated September 18, 1978.

This amendment becomes effective on January 25, 1979 to all persons except those to whom it has already been made effective by an airmail letter from the FAA dated December 1, 1978.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89).)

NOTE—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Missouri, on January 9, 1979.

C. R. MELUGIN, Jr.,
Director, Central Region.

[4910-13-M]

[Docket No. 79SO-3, Amendment 39-3398]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Models PA-44-180 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires the inspection of certain Piper PA-44-180 airplane fuel supply lines for evidence of chafing damage and requires line replacement, if necessary. This amendment also requires that the lines be repositioned for clearance, if necessary, and the installation of a chafe guard grommet where the line passes through the wing rib. This amendment is necessary to insure that the fuel lines are not damaged by chafing which could result in a fuel leak.

DATES: Effective January 24, 1979. Compliance required within the next 10 hours time in service after the effective date of this AD unless already accomplished.

ADDRESSES: Copies of Piper Service Bulletin 627 may be obtained from Piper Aircraft Corporation, 820 East Bald Eagle Street, Lock Haven, Pennsylvania 17745. Copies of Piper Service Bulletin 627 are maintained in the AD Docket File and may be examined in Room 275, Federal Aviation Administration, Southern Region, 3400 Whipple Street, East Point, Georgia.

FOR FURTHER INFORMATION CONTACT:

Gil Carter, ASO-214, Propulsion Section, Engineering and Manufacturing Branch, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone: (404) 763-7435.

SUPPLEMENTARY INFORMATION: There have been reports of fuel supply lines chafing on the edge of a wing rib lightening hole. Since this condition is likely to exist or develop in other airplanes of the same type design, this amendment is issued to insure chafe protection for the fuel line. Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulation (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

PIPER AIRCRAFT CORPORATION. Applies to Model PA-44-180, serial numbers 44-7995001 through 44-7995003, 44-7995005 through 44-7995023, 44-7995025 through 44-7995053, 44-7995055 through 44-7995064, 44-7995066, 67, 69, 71, 73, and 74 airplanes certificated in all categories.

Compliance is required within the next 10 hours' time in service after the effective date of this AD unless already accomplished.

To prevent fuel leakage due to a damaged fuel line, accomplish the following:

(a) Remove the inspection plate (or plates) on the underside of the left and right wings, in the area of the electrical fuel boost pump, inboard of the engine nacelle.

(b) Inspect the fuel supply lines part number 86238-03 (Left and Right), where the line passes through the rib lightening hole, for damage due to interference with the hole flange. If a fuel supply line is damaged, replace it with a serviceable line.

(c) Install a caterpillar grommet, part number 63976-34 (MS21266-1N) on the lower half of the rib lightening hole flange in both wings using a suitable cement to retain the grommet in position.

(d) Position the fuel supply line to obtain a minimum clearance of .125 inch from the caterpillar grommet.

(e) Reinstall the inspection plates on the left and right wings.

(f) Make an appropriate maintenance record entry.

(g) An alternate method of compliance may be approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region.

NOTE.—Piper Service Bulletin 627, dated October 24, 1978, pertains to this subject.

This amendment becomes effective January 24, 1979.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89).

Issued in East Point, Georgia, on January 10, 1979.

GEORGE R. LACAILLE,
Acting Director.

[FR Doc. 79-2165 Filed 1-19-79; 8:45 am]

[4910-13-M]

[Docket No. 78-SO-14, Amdt. No. 39-3397]

PART 39—AIRWORTHINESS DIRECTIVES

Teledyne Continental Motors Models TSIO-520J and TSIO-520-N Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This Amendment amends an existing Airworthiness Directive (A.D.) applicable to Teledyne Continental Motors Series TSIO-520-J and TSIO-520-N engines installed in certain Cessna Model aircraft by requiring the installation of an improved number two (#2) intake manifold tube. The amendment is needed to improve the induction system flexible elbow retention on the intake manifold and thereby eliminating the repetitive inspection imposed by Amendment 39-3153.

DATES: Effective January 24, 1979.

ADDRESSES: The applicable Customer Service Bulletin may be obtained from Teledyne Continental Motors, P.O. Box 90, Mobile, Alabama 36601. A copy of the service Bulletin is contained in Room 275, Engineering and Manufacturing Branch, ASO-210, Southern Region, Federal Aviation Administration, 3400 Whipple Street, East Point, Georgia.

FOR FURTHER INFORMATION CONTACT:

H. D. Roe, Aerospace Engineer, Engineering and Manufacturing Branch, ASO-210, Southern Region, Federal Aviation Administration, 3400 Whipple Street, East Point, Georgia 30344, telephone No. (404) 763-7435.

SUPPLEMENTARY INFORMATION: This A. D. Proposes to further amend Amendment 39-3153, FR 10340, A. D. 78-06-01, as amended by Amendment 39-3193, which currently requires repetitive inspections on Teledyne Continental TSIO-520-J and TSIO-520-N engines installed in certain Cessna and Riley converted Cessna aircraft.

After issuing Amendment 39-3193, the FAA has determined that the longer nipple on improved elbow tube, TCM P/N 642590, provides for improved joint integrity on the critical L.H. flexible elbow and repetitive inspections are no longer required. In addition, it has been determined that the R. H. flexible elbow inspections are no longer necessary. Based on this, a notice was issued in the FEDERAL REGISTER on November 20, 1978, (43 FR 54101) which proposed to amend the existing A. D. by deleting the inspection provisions and requiring the installation of a new #2 intake manifold tube.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received. Accordingly, the proposal is adopted without change.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment No. 39-3193, A. D. 78-06-01, as follows:

Teledyne Continental Motors. Amendment 39-3153 as amended by Amendment 39-3193 is further amended by amending AD 78-06-01. Applies to model TSIO-520-J and TSIO-520-N engines not previously fitted with improved elbow tube TCM P/N 642590, installed in, but not limited to, Cessna models 340A and 414. Also applies to Cessna model 340 as modified by STC's SA1881SW or SA186NW.

Compliance is required as indicated except that the initial 25-hour inspection specified in paragraph A-2 is not required for Cessna aircraft manufactured after April 1, 1978.

To prevent a separation of flexible elbow TCM P/N 635930 from the left hand (L. H.) No. 2 cylinder intake tube and possible engine malfunctions or stoppage, accomplish the following:

A. 1. Within the next 12 months after the effective date of this amendment, replace induction system intake tube TCM P/N 629138 with new intake tube TCM P/N 642590. After the intake tube has been replaced with the new tube TCM P/N 642590, inspections required by paragraph A.2 do not apply.

2. Within the next 25 hours time in service after the effective date of this A. D., unless already accomplished, and thereafter at each 100 hours time in service, accomplish the following:

(i) Inspect the L. H. elbow installation for full engagement over intake manifold tube and intercooler nipple beads with the hose clamps properly located behind nipple beads.

(ii) Check torque of 30 to 35 inch pounds on left flexible intake manifold clamps (Cessna P/N U-84-270-SH) and intercooler clamps (Cessna P/N U-94-260-SH or B35A-21P). On aircraft which use TCM clamps P/N 631972) at these joints, check for torque of 25 to 30 inch pounds. On Riley conversions which use Riley P/N 631972 clamps on these joints, check for 30 to 35 inch pounds.

(iii) Upon request of the operator, an FAA maintenance inspector may adjust the repetitive inspection interval up to a maximum time between inspections of 125 hours to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

3. The inspections required by paragraph A-2 may be discontinued once the intake tube has been replaced with new tube TCM P/N 642590.

B. Alternate methods of compliance may be acceptable if approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region, Atlanta, Georgia.

C. Appropriate maintenance record must be made in accordance with FAR 43.9.

This amendment becomes effective January 24, 1979.

(Sections 313(a), 601, 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)).

Issued in East Point, Georgia, on January 10, 1979.

GEORGE R. LACAILLE,
Acting Director,
Southern Region.

[Airspace Docket No. 78-SO-68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area, Cairo, Ga.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This rule will designate the Cairo, Georgia, Transition Area and will lower the base of controlled airspace in the vicinity of the Cairo-Grady County Airport from 1200 to 700 feet AGL to accommodate Instrument Flight Rule (IFR) operations. A public use instrument approach procedure has been developed for the Cairo-Grady County Airport, and the additional controlled airspace is required to protect aircraft conducting Instrument Flight Rule (IFR) operations.

EFFECTIVE DATE: February 1, 1979.

ADDRESS: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636 Atlanta, Georgia 30320.

FOR FURTHER INFORMATION CONTACT:

Harlen D. Phillips, Airspace and Procedures Branch, Federal Aviation Administration, P. O. Box 20636, Atlanta, Georgia 30320; telephone: 404-763-7646.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Rulemaking was published in the FEDERAL REGISTER on Monday, December 4, 1978 (43 FR 56680), which proposed the designation of the Cairo, Georgia, transition area. No objections were received from this notice.

ADOPTION OF THE AMENDMENT

Accordingly, Subpart G, § 71.181 (44 FR 442) of Part 71 of the Federal Aviation Regulations (14 CFR 71) is amended, effective 0901 GMT, February 1, 1979, by adding the following:

Cairo, Georgia

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of Cairo-Grady County Airport (latitude 30°53'19"N., longitude 84°09'22"W.); within 3 miles each side of the 137° bearing from the Caldy RBN (latitude 30°53'17"N., longitude 84°09'34"W.), extending from the 6.5 mile radius area to 8.5 miles northwest of the Rbn.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transporation Act (49 U.S.C. 1655 (c)).)

Note.—The Federal Aviation Administration has determined that this document involves a regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transporation guidelines (43 FR 9582; March 8, 1978).

Issued in East Point, Georgia, on January 12, 1979.

GEORGE R. LACAILLE,
Acting Director, Southern Region.

Title 15—Commerce and Foreign Trade

CHAPTER V—UNITED STATES METRIC BOARD

PART 500—PROCEDURES FOR PUBLIC MEETINGS UNDER THE GOVERNMENT IN THE SUNSHINE ACT

AGENCY: United States Metric Board.

ACTION: Final rule.

SUMMARY: The United States Metric Board adopts procedures for its public meetings in order to implement the Government in the Sunshine Act. Such procedures shall facilitate and encourage public observations of the deliberations and decisions of The United States Metric Board to the maximum extent possible.

EFFECTIVE DATE: December 15, 1978.

FOR FURTHER INFORMATION CONTACT:

John Milo Bryant, Office of General Counsel, United States Metric Board, Suite 301, 1815 N. Lynn Street, Arlington, VA 22209, (703) 235-1933.

SUPPLEMENTARY INFORMATION: On Friday, September 15, 1978 there was published in the FEDERAL REGISTER (43 FR 41230) a notice of proposed rule making by The United States Metric Board which would amend Title 15 of the Code of Federal Regulations by establishing Chapter V entitled "United States Metric Board" consisting of Part 500.

The public was afforded a 60-day period in which to submit written comments, data, and views on the proposal. Five written comments were received all of which were directed at Section 500.5(a), "Procedures for announcing meetings." Respondents indicated that seven days advance notice was insufficient time for interested persons to plan for or attend the meetings, and suggested that the time should be extended to 14 or 21 days. The commenters expressed concern about delays in publishing notices of meeting in the FEDERAL REGISTER, and the fact that public and private newsletters interested in Board activities cannot print Board Meeting hours on such short notice.

The Board appreciates the comments submitted by these five commenters in response to the notice of proposed rule making. After giving such comments careful consideration the Board has determined that proposed rule of *at least* seven days notice remain as the legal requirement. However, the Board has directed the Staff to strive for a longer period of notice whenever practicable and adopted a staff goal of 21 days. Moreover, the Board directs the staff to implement mailing lists so that interested individuals may receive personal notice rather than having to rely exclusively on the FEDERAL REGISTER for information.

FINAL RULE

Accordingly, under the authority of 5 U.S.C. 552(g) the United States Metric Board hereby adopts the procedures for Public Meetings under the Government in the Sunshine Act (15 CFR Part 500) as appearing in the FEDERAL REGISTER on September 15, 1978 (43 FR 41230), by amending Title 15 of the Code of Federal Regulations by establishing Chapter V entitled "United States Metric Board" to consist of Part 500 and to read as follows:

PART 500—PUBLIC MEETING PROCEDURES OF THE UNITED STATES METRIC BOARD

Sec.:
500.1 Purpose and scope.
500.2 Definitions.
500.3 Open meetings.
500.4 Grounds on which meetings may be closed, or information may be withheld.
500.5 Procedure for announcing meetings.
500.6 Procedure for closing meetings.
500.7 Transcripts, recordings, and minutes of meetings.
500.8 Enforcement and review.

AUTHORITY: 5 U.S.C. 552b(g); Pub. L. 94-168, 89 Stat. 1007 (15 U.S.C. 205a-205k).

§ 500.1 Purpose and scope.

It is the policy of the United States Metric Board to provide the public with the fullest practicable information regarding its decision-making processes. It is the purpose of these regulations to provide the public with such information while protecting the rights of individuals and the Board's ability to carry out its responsibilities. Accordingly, these procedures apply to all meetings of the Unites States Metric Board, including committees of the Board. Every portion of every Board meeting will be open to public observation, except as otherwise provided in these regulations.

§ 500.2 Definitions.

As used in this part:

"Board" or "United States Metric Board" means the collegial body that conducts the business of the United States Metric Board, as specified in section 5 of Pub. L. 94-168 (15 U.S.C. 205d), consisting of:

(a) The Chairman, a qualified individual who shall be or has been appointed by the President, by and with the advice and consent of the Senate;

(b) Sixteen members who shall be or have been appointed by the President, by and with the advice and consent of the Senate, on the following basis—

(1) One selected from lists of qualified individuals recommended by engineers and organizations representative of engineering interests;

(2) One selected from lists of qualified individuals recommended by scientists, the scientific and technical community, and organizations representative of scientists and technicians;

(3) One selected from a list of qualified individuals recommended by the National Association of Manufacturers or its successor;

(4) One selected from lists of qualified individuals recommended by the United States Chamber of Commerce, or its successor, retailers, and other commercial organizations;

(5) Two selected from lists of qualified individuals recommended by the American Federation of Labor and Congress of Industrial Organizations or its successor who are representative of workers directly affected by metric conversion, and by other organizations representing labor;

(6) One selected from a list of qualified individuals recommended by the National Governors Conference, the National Council of State Legislatures, and organizations representative of State and local government;

(7) Two selected from lists of qualified individuals recommended by organizations representative of small business;

(8) One selected from lists of qualified individuals representative of the construction industry;

(9) One selected from a list of qualified individuals recommended by the National Conference on Weights and Measures and standards making organizations;

(10) One selected from lists of qualified individuals recommended by educators, the educational community, and organizations representative of educational interests; and

(11) Four at-large members to represent consumers and other interests deemed suitable by the President and who shall be qualified individuals.

"Chairman" means the presiding officer of the Board, appointed in accordance with section 5(b)(1), Pub. L. 94-168 (15 U.S.C. 205d(b)(1)).

"Committee" means any formally designated subdivision of the Board, consisting of at least two Board members, authorized to act on behalf of the Board, including the Board's standing committees and any ad hoc committees appointed by the Board for special purposes.

"Executive Director" means the individual appointed by the Board to serve as the chief executive officer of the Board, in accordance with section 10(a), Pub. L. 94-168 (15 U.S.C. 205i(a)).

"Meeting" means the deliberations of at least the number of individual voting members of the Board required to take action on behalf of the Board, where such deliberations determine or result in the joint conduct or disposition of official business of the Board, but does not include:

(a) Deliberations to open or close a meeting, to establish the time, place, and subject matter of a meeting, or to release or withhold information required or permitted by § 500.5 or § 500.6.

(b) Notation voting or similar consideration of matters whether by circulation of material to members individually in writing, or polling of members individually by telephone, telegraph, or similar mechanism, and

(c) Instances where individual members, authorized to conduct business on behalf of the Board, or to take action on behalf of the Board, meet with members of the public or staff. Conference telephone calls that involve the requisite number of members, and otherwise come within the definition, are included.

"Member" means a member of the Board.

"Staff" includes the employees of the United States Metric Board, other than the members of the Board.

§ 500.3 Open meetings.

(a) Members shall not jointly conduct or dispose of business of the Board other than in accordance with these procedures. Every portion of every meeting of the Board shall be open to public observation subject to the exceptions provided in § 500.4.

(b) Open meetings may be attended by members of the Board, staff, and any other individual(s) or group(s) desiring to observe the meeting: *Provided,* That sufficient room is available to safely accommodate them. The Board shall exert its best efforts to assure that such room is available and therefore requests but does not require that those wishing to attend notify the Board in advance by phoning or writing the contact person identified in the Board's notice of the upcoming meeting.

(c) The public will be invited to observe and listen to the meeting, but not to participate unless specifically invited to do so by the Board and then only in accordance with such reasonable limitations and procedures as the Board shall specify.

§ 500.4 Grounds on which meetings may be closed, or information may be withheld.

Except in a case where the Board or one of its committees finds that the public interest requires otherwise, the open meeting requirement as set forth in the second sentence of § 500.3(a)

V 4 4 / 1 5 JAN 22 79 UMI

shall not apply to any portion of a Board or committee meeting, and the informational disclosure requirements of §§ 500.5 and 500.6 shall not apply to any information pertaining to such meeting otherwise required by this part to be disclosed to the public, where the Board or committee, as applicable, properly determines that such portion or portions of its meetings or the disclosure of such information is likely to:

(a) Disclosure matters that are (1) specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy and (2) in fact properly classified pursuant to such Executive Order;

(b) Relate solely to the internal personnel rules and practices of the Board and its staff;

(c) Disclose matters specifically exempted from disclosure by statute (other than section 552, Title 5, United States Code): *Provided*, That such statute (1) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (2) establishes particular criteria for withnoiding or refers to particular types of matters to be withheld;

(d) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(e) Involve accusing any person of a crime or formally censuring any person;

(f) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(g) Disclose investigatory records, compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would (1) interfere with enforcement proceedings, (2) deprive a person of a right to a fair trial or an impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (5) disclose investigative techniques and procedures, or (6) endanger the life or physical safety of law enforcement personnel;

(h) Disclose information the premature disclosure of which would in the case of any agency, be likely to significantly frustrate implementation of a proposed agency action, except in any instance where the agency has already disclosed to the public the content or nature of its proposed action, or where the agency is required by law to make such disclosure on its own initiative prior to taking final agency action on such proposal; or

(i) Specifically concern the issuance of a subpoena, or the Board's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Board of a particular case of formal Board adjudication pursuant to the procedures in section 554 of Title 5, United States Code, or otherwise involving a determination on the record after opportunity for a hearing.

§ 500.5 Procedure for announcing meetings.

(a) Except to the extent that such information is exempt from disclosure under the provisions of § 500.4, in the case of each Board or committee meeting, the Executive Director, acting at the Direction of the Board, shall submit for publication in the FEDERAL REGISTER, at least seven days before the meeting, the following information:

(1) Time of the meeting,

(2) Place of the meeting,

(3) Subject matter of the meeting,

(4) Whether the meeting or parts of it are to be open or closed to the public, and

(5) The name and phone number of the person designated by the Board or committee to respond to requests for information about the meeting.

(b) The seven-day period for the public announcement required by paragraph (a) of this section may be reduced if a majority of the members of the Board or committee, as applicable, determine by a recorded vote that Board or committee business requires that such expedited meeting be called at an earlier date. In this case the Board or committee shall make public announcement of the time, place, and subject matter of such meeting, and whether open or closed to the public, at the earliest practicable time.

(c) The time or place of a meeting may be changed following the public announcement required by paragraph (a) of this section only if the Executive Director, acting at the direction of the Board or one of its committees, publicly announces such change at the earliest practicable time. Such change need not be voted on by the members.

(d) The subject matter of a meeting, or the determination of the Board or committee, as applicable, to open or close a meeting, or portion of a meeting, to the public, may be changed following the public announcement required by paragraph (a) of this section, only if (1) a majority of the entire voting membership of the Board or committee determines by a recorded vote that Board or committee business so requires and that no earlier announcement of the change was possible, and (2) the Board or committee publicly announces such change and the vote of each member upon such change at the earliest practicable time.

(e) Immediately following each public announcement required by this section, notice of the time, place and subject matter of a meeting, whether the meeting is open or closed, any change in one of the preceding, and the name and phone number of the person designated by the Board or committee to respond to requests for information about the meeting, shall be submitted for publication in the FEDERAL REGISTER.

§ 500.6 Procedure for closing meetings.

(a) Action to close a meeting or a portion thereof, pursuant to the exemptions set forth in § 500.4, shall be taken only when a majority of the entire voting membership of the Board or committee, as applicable, votes to take such action.

(b) A separate vote of the Board or committee members shall be taken with respect to each Board or committee meeting, a portion or portions of which are proposed to be closed to the public pursuant to § 500.4, or with respect to any information which is proposed to be withheld under § 500.4.

(c) A single vote of the Board or committee may be taken with respect to a series of meetings, a portion or portions of which are proposed to be closed to the public, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular matters and is scheduled to be held no more than 30 days after the initial meeting in such series.

(d) Whenever any person whose interests may be directly affected by a portion of a meeting requests that the Board or a committee close such portion to the public under any of the exemptions relating to criminal accusation or censure, personal privacy, or law enforcement information, as referred to respectively in paragraphs (e), (f), or (g) of § 500.4, the Board or committee, as applicable, upon request of any one of its members, shall vote by recorded vote, at the earliest practicable time, whether to close such meeting, to delete the relevant subject matter from the meeting agenda, or to delay discussion of the relevant subject matter to a subsequent meeting. Any resulting changes shall be announced in accordance with § 5 of these regulations.

(e) The vote of each member, taken pursuant to paragraph (a), (b), (c) or (d) of this section, shall be recorded, and may be by notation voting, telephone polling, or similar mechanism. Within one day of any such vote, the Board or committee shall make publicly available a written copy of the vote reflecting the vote of each member on the question. If a portion of a meeting is to be closed to the public, the Board or committee shall, within one day of the vote taken, pursuant to paragraph (a), (b), (c), or (d) of this section, make publicly available a full written explanation of its action closing the portion together with a list of all persons expected to attend the meeting and their affiliation. The information required by this paragraph shall be disclosed except to the extent it is exempt from disclosure under the provisions of § 500.4.

(f) For every meeting closed pursuant to § 500.4, the Gereral Counsel of the United States Metric Board shall certify that, in his or her opinion, the meeting may be closed to the public and shall state each relevant exemptive provision. A copy of such certification, together with a statement from the presiding officer of the meeting setting forth the time and place of the meeting, and the persons present, shall be retained by the Board as part of the transcript, recording or minutes required by § 500.7.

§ 500.7 Transcripts, recordings, and minutes of meetings.

(a) The Board shall maintain a complete transcript or electronic recording adequate to record fully the proceedings of each meeting, or portion of a meeting, closed to the public, except that in the case of a meeting closed to the public pursuant to paragraph (i) of § 500.4, the Board shall maintain either such a transcript or recording, or a set of minutes.

(b) Where minutes are maintained they shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of any actions taken, and the reasons for such actions, including a description of each of the views expressed on any item and the record of any rollcall vote (reflecting the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

(c) The Board shall maintain a complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording of each meeting or portion of a meeting, closed to the public, for a period of at least two years after such meeting, or until one year after the conclusion of any Board proceeding with respect to which the meeting or portion was held, whichever occurs later.

(d) Public availability of such records shall be as follows:

(1) At the earliest practicable time the Board shall make available to the public, in its offices located at 1815 N. Lynn Street, Arlington, Va. 22209, the transcript electronic recording; or minutes of the discussion of any item on the agenda, or of any item of the testimony of any witness received at the meeting except for such item or items of such discussion or testimony as the Board or its General Counsel determines to contain information which may be withheld under § 500.4.

(2) Copies of such transcript, or minutes, or a transcription of such recording disclosing the identity of each speaker, shall be available at the actual cost of duplication or transcription.

(3) The determination of the Board or General Counsel to withhold information pursuant to subparagraph (1) of this paragraph may be appealed to the Board. The Board shall make a final determination to withhold or release the requested information no later than at its next regularly scheduled meeting following the date of receipt of a written request for review. Such a request shall be deemed received by the Board when it has arrived at the offices of the Board in a form that describes in reasonable detail the material sought.

§ 500.8 Enforcement and Review.

In addition to the right of appeal specified in § 500.7(d)(3) of these regulations, any person may bring an action to enforce these regulations and the relevant related provisions of the Government in the Sunshine Act, Pub. L. 94-409, 90 Stat. 1241, 5 U.S.C. 552b, in accordance with the provisions of that Act. Review of Board action related to these regulations may also be had in the same manner.

Dated at Arlington, Va. this 10th day of January 1979.

For United States Metric Board.

MALCOLM E. O'HAGAN,
Executive Director.

Title 17—Commodity and Securities Exchanges

CHAPTER I—COMMODITY FUTURES TRADING COMMISSION

PART 166—CUSTOMER PROTECTION RULES

Authorization to Effect Commodity Interest Trades

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending its rule on discretionary trading to make clear that brokers may execute "good-'til-cancelled" orders for their customers (*i.e.*, orders that do not specify a precise date upon which the order is to be executed but rather remain open until cancelled by the customer) without first obtaining written discretionary trading authorization from the customer.

EFFECTIVE DATE: January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Frederick L. White, Special Counsel, Office of the Chief Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone (202) 632-5110.

SUPPLEMENTARY INFORMATION: Commission rule 166.2 (17 CFR 166.2) generally provides that no futures commission merchant ("FCM") or associated person ("AP") thereof may effect a commodity interest transaction for a customer unless, before the transaction, the customer (or person designated by the customer to control his account) either "specifically authorized" the FCM or AP to effect the transaction or authorized the FCM or AP in writing to effect transactions for the customer without his specific authorization.[1]

[1] The text of the rule (which was adopted July 24, 1978, 43 *Fed. Reg.* 31886, and became effective October 1, 1978) is as follows:

No futures commission merchant or associated person may directly or indirectly effect a transaction in a commodity interest for the account of any customer unless before the transaction the customer, or person designated by the customer to control the account—

(a) Specifically authorized the futures commission merchant or associated person to effect the transaction (a transaction is "specifically authorized" if the customer

Footnotes continued on next page

V 4 4 / 1 5 J A 2 2 7 9 UMI

Paragraph (a) of the rule states that a transaction is "specifically authorized" if the customer specifies "(1) the precise commodity interest to be purchased or sold, (2) the exact amount of the commodity interest to be purchased or sold and (3) the date the transaction is to be effected * * *." As explained below, the Commission is amending the rule by revising paragraph (a) as follows (deletions are inside brackets, additions are in italic):

(a) * * * (a transaction is "specifically authorized" if the customer *or person designated by the customer to control the account* specifies (1) the precise commodity interest to be purchased or sold [,] *and* (2) the exact amount of the commodity interest to be purchased or sold [,]). [and (3) the date the transaction is to be effected).]

The central purpose of the rule was to make it expressly unlawful for an FCM or AP to engage in unauthorized trading—*i.e.*, to execute trades for a customer without the customer's authorization. Unauthorized trading has been held to be implicitly prohibited by section 4b of the Commodity Exchange Act (7 U.S.C. 6b),[2] and the Commission considered it advisable to set forth an express prohibition in its rules.

After the rule was adopted, however, a number of FCMs advised the Commission that the rule might be interpreted to prohibit "good-'til-cancelled" orders unless written discretionary trading authorization is obtained from the customer. (A "good-'til-cancelled" order, instead of specifying a date for execution, specifies the price at which the trade is to be effected and remains in effect until the order is executed or until the customer cancels the order.) Since the rule was not intended to have the effect, clause (3) of rule 166.2(a) is being deleted.

Also, the Commission is adding the phrase "or person designated by the customer to control his account," to paragraph (a) of the rule to conform that paragraph to the first paragraph of the rule, where the same phrase is used. This amendment is solely technical.

* * * * *

In revising the rule, the Commission has considered the public interest to be protected by the antitrust laws and has endeavored to take the least anticompetitive means of achieving the objectives, policies and purposes of the Commodity Exchange Act. *See* section 15 of the Act (7 U.S.C. 19).

Rule 166.2 is being changed without notice and opportunity for comment because the Commission finds that those measures would be unnecessary and contrary to the public interest in this matter. The amendment eliminates an unnecessary and possibly costly burden on customers, FCMs and APs that could adversely affect the execution of commodity interest orders. For this reason and because the rule change relieves a restriction, the change is being made effective immediately upon publication.

* * * * *

In consideration of the foregoing, § 166.2 of the Commission's regulations (17 CFR 166.2) is amended to read as follows:

§ 166.2 **Authorization to trade.**

* * * * *

(a) Specifically authorized the futures commission merchant or associated person to effect the transaction (a transaction is "specifically authorized" if the customer or person designated by the customer to control the account specifies (1) the precise commodity interest to be purchased or sold *and* (2) the exact amount of the commodity interest to be purchased or sold.)

* * * * *

(Sec. 4, Pub. L. 74-675, 49 Stat. 1493 (7 U.S.C. 6b and 6c), as amended, Pub. L. 90-258, 82 Stat. 27, Pub. L. 93-463, 88 Stat. 1392, 1412, 1413, Pub. L. 95-405, 92 Stat. 867; sec. 10, Pub. L. 74-675, 49 Stat. 1500 (7 U.S.C. 12a), as amended, Pub. L. 90-258, 82 Stat. 33, Pub. L. 93-463, 88 Stat. 1392, 1404; sec. 23, Pub. L. 95-405, 92 Stat. 876.)

Issued in Washington, D.C. on January 17, 1979.

GARY L. SEEVERS,
Acting Chairman, Commodity Futures Trading Commission.

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-6014, 34-15489, IC-10551]

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

PART 274—FORMS PRESCRIBED UNDER THE INVESTMENT COMPANY ACT OF 1940

Revision of Forms, Reports and Regulations

AGENCY: Securities and Exchange Commission.

ACTION: Final forms.

SUMMARY: The Commission has decided not to revise any of the items in new registration statement Forms N-1 and N-2 on which submission of additional comments by the public was invited in Securities Act Release No. 5964, the release adopting an integrated registration and reporting system for management investment companies. In the period since adoption of the new registration statement forms, no information has come to the attention of the Commission which would lead to a conclusion that any of these items should be revised.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

Glen Payne, Esq., Special Counsel (202-755-1739) or Dianne E. O'Donnell, Esq. (202-755-1796), Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: On August 28, 1978, the Commission issued a release adopting an integrated registration and reporting system for management investment companies. This system is composed of the following forms and rule: revised Form N-8A [17 CFR 274.10], the notification of registration under the Investment Company Act of 1940 ("1940 Act") [15 U.S.C. 80a et seq. as amended by Pub. L. 91-547 (December 14, 1970)]; two new integrated registration statement forms to be used by management investment companies to register their securities under the Securities Act of 1933 ("1933 Act") [15 U.S.C. 77a et seq. as amended by Pub. L. 94-29 (June 4, 1975)], to meet the requirements of filing a registration statement under the 1940 Act, or accomplish both of these objectives—Form N-1 [17 CFR 239.15] for open-end companies and Form N-2 [17 CFR 239.14] for closed-end companies; revised Form N-1R [17 CFR 249.330, 274.101], the annual report form for management investment companies under the 1940 Act and the Securities Exchange Act of 1934 [15 U.S.C. 78a et seq. as amended by Pub. L. 94-29 (June 4, 1975)]; and new Rule 8b-16 [17 CFR 270.8b-16] under the 1940 Act, requiring all investment companies which file Form N-1R to file an annual update of their 1940 Act registration statement within 120 days of the close of the fiscal year.[1] In that release, the Commission invited additional submission of comments by interested persons on ten items of new registration statement Forms N-1 and N-2.[2] The period for filing such additional comments expired on October 16,1978.

No letters of comment were received concerning any of the items in Forms N-1 or N-2 upon which additional public comment was invited. In the period since adoption of the new registration statement forms, no information has come to the attention of the Commission which would lead to a conclusion that any of these items should be revised. Therefore, the Commission has decided not to revise those items in Forms N-1 and N-2 upon which it invited additional public comment.

One letter of comment was received concerning Item 1 of Part I of Form N-1 ("Cover Page"). While this item was not included in those items of Forms N-1 and N-2 upon which additional comment by the public was invited, the Commission believes it appropriate to examine the issue raised by this commentator. The commentator noted that Item 1 in Part I of Form N-1 does not specifically permit a mutual fund to state on the cover page of its prospectus that its shares are sold at no load, and requests that the instructions to the above item be amended to permit mutual funds whose shares are sold without a sales charge to state that fact on the cover page of the prospectus. The Commission is of the view that such an amendment of the instructions to this item is unnecessary for two reasons. First, subpart (e) of the Cover Page item specifically allows "at the discretion of the registrant . . . such legend, logotype, pictures, or other attention-getting devices that are not misleading" to appear on the cover page of a mutual fund's prospectus. The Division of Investment Management interprets the term "attention-getting device" as allowing a registrant to highlight on the cover page of its prospectus any non-misleading description of the entity that it desires, including the fact that its shares are sold without a sales charge. Thus, there is no need to permit specifically such a statement to appear on the cover page.

In addition, as noted in Securities Act Release No. 5964, a new item has been included in Form N-1 to ensure that a synopsis of information concerning the key investment policies, operations and activities of a mutual fund will appear in the forepart of the prospectus. This item (Item 2 of Part I) specifies in subpart (c) thereof that information concerning the maximum sales load, both as a percentage of the net amount invested and as a percentage of the offering price, must appear in the synopsis. Given the fact that the new synopsis section of mutual fund prospectuses will include information concerning the maximum sales charge at which a particular fund's shares are sold, the Commission is of the view that there is no need to require such information to appear on the cover page as well.

OTHER MATTERS

Revised Form N-1R is being put into EDP format by the Office of Data Processing so that the information reported thereon can be readily processed by that Office. Thus, the official text of the form that will be printed and distributed to the public will not appear exactly in the form of the revised Form N-1R that was printed in the *SEC Docket* shortly after its adoption, but any differences that result will relate only to style. The substance of revised Form N-1R will remain the same. For the convenience of registrants, copies of revised Form N-1R will be available after March 1, 1979, at the Commission's Publications Section in Washington, D.C.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 11, 1979.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[PAP 8H5186/T42; FRL 1042-3]

SUBCHAPTER E—ANIMAL FEEDS, DRUGS, AND RELATED PRODUCTS

PART 561—TOLERANCES FOR PESTICIDES IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

Thiabendazole

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final Rule.

SUMMARY: This rule establishes a feed additive regulation related to the experimental use of the fungicide thiabendazole in rice hulls. The regulation was requested by Merck & Co. This rule will permit the marketing of rice hulls while further data is collected on the subject pesticide.

EFFECTIVE DATE: Effective on January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Henry Jacoby, Product Manager (PM) 21, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, SW, Washington DC 20460 (202/426-2454).

SUPPLEMENTARY INFORMATION: On July 21, 1978, the EPA announced that Merck & Co., Inc., PO Box 2000, Rahway, NJ 07065, had filed a food additive petition (FAP 8H5186). This petition proposed that 21 CFR 561.380 be amended by the establishment of a regulation permitting residues of the fungicide thiabendazole (2-(4-thiazolyl)benzimidazole) in rice hulls resulting from application of the fungicide to growing rice in a proposed experimental program with a tolerance limitation of 12 parts per million (ppm) in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136). No comments were received by the Agency in response to this notice of filing. (A related document establishing the temporary tolerances for residues of thiabendazole on rice grain and straw appears elsewhere in today's FEDERAL REGISTER.)

The scientific data reported and other relevant material have been evaluated, and it has been determined

Footnotes continued from last page

specifies (1) the precise commodity interest to be purchased or sold, (2) the exact amount of the commodity interest to be purchased or sold, and (3) the date the transaction is to be effected); or

(b) Authorized in writing the futures commission merchant or associated person to effect transactions in commodity interests for the account without the customer's specific authorization.

The term "commodity interest" is defined in CFTC rule 166.1(b) (17 CFR 166.1(b)) as:

(1) Any contract for the purchase or sale of any commodity for future delivery, traded on or subject to the rules of a contract market;

(2) Any agreement or transaction subject to Commission regulation under section 4c(b) of the [Commodity Exchange] Act; or

(3) Any contract or transaction subject to Commission regulation under section 217 of the Commodity Futures Trading Commission Act of 1974 (7 U.S.C. 15a).

As a result of the 1978 amendments to the Commodity Exchange Act (Pub. L. 95-405, 92 Stat. 865, 867, 876) the reference in clause (2) of § 166.1(b) to section 4c(b) will be changed to section 4c and the reference in clause (3) to section 217 of the 1974 Act will be changed to section 19 of the Commodity Exchange Act.

[2] *E.g., Jeffrey L. Silverman*, C.F.T.C., No. 75-6 (May 5, 1976), *affirmed, Silverman* v. *C.F.T.C.*, 549 F. 2d 28,33 (7th Cir. 1977).

[1] *See* Securities Act Release No. 5964 [43 FR 39548 (September 5, 1978)].

[2] Submission of additional comments from the public was invited on the following items: Items 8, 12 and 13(c) of Part I and Items 1(b)(14) and 8 of Part II of Form N-1 and Items 10, 14 and 15(c) of Part I and Items 4(b)(15) and 9 of Part II of Form N-2.

V 4 4 / 1 5 J A 2 2 7 9 UMI

that the pesticide may be safely used in accordance with the provisions of the experimental use permit (618-EUP-9) which is being issued concurrently under FIFRA. It has further been determined that since residues of the pesticide may result in rice hulls from agricultural use provided for on the experimental use permit, the feed additive regulation should be established and should include a tolerance limitation.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the tolerance included two-year rat and dog feeding studies, rat and mouse reproduction studies, and subchronic studies on rats, sheep, and other farm animals. Based on a rat study, the no-observable-effect level (NOEL) is 10 milligrams (mg)/kilogram (kg) of body weight (bw)/day. Using a safety factor of 100, the acceptable daily intake (ADI) is 0.1 mg/kg bw/day and the maximum permissible intake (MPI) is 6 mg/day for a 60-kg human. The previously established tolerances for residues of thiabendazole add up to a theoretical maximal residue contribution (TMRC) in an average daily diet that is far less than the MPI. Tolerances have previously been established for residues of thiabendazole on a variety of raw agricultural commodities at levels ranging from 10 ppm to 0.02 ppm. Feed additive tolerances have been previously established for residues of thiabendazole in a variety of processed feed items at levels ranging from 35 ppm to 3.5 ppm. The previously established tolerances and the proposed tolerance result in a maximum theoretical exposure to humans of 1 mg/day.

The metabolism of thiabendazole is adequately understood, and an adequate analytical method (spectrophotoflurorometry) is available for enforcement purposes. Tolerances are currently pending on wheat and straw. Existing tolerances will be adequate to cover residues that could result in milk and the meat, fat, and meat by-products of cattle, goats, hogs, horses, poultry, and sheep from use of animal feed items bearing tolerance levels. No desirable data are lacking from the petition, nor are there any regulatory actions pending against the continued registration of thiabendazole, nor are any other considerations involved in establishing the proposed tolerance.

The pesticide is considered useful for the purpose for which a tolerance is sought. Therefore the regulation establishing a tolerance of 12 ppm in rice hulls by amending 21 CFR 561.380 is being promulgated as proposed. Accordingly a feed additive regulation is established as set forth below.

Any person adversely affected by this regulation may, on or before February 21, 1979, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M-3708, 401 M St., SW, Washington 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on January 22, 1979, 21 CFR 561 is amended as set forth below.

Dated: January 15, 1979.

(Section 409(c)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348(c)(1)).)

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 561, § 561.380, is revised in its entirety to read as follows:

§ 561.380 Thiabendazole.

(a) Tolerances are established for residues of thiabendazole (2-(4-thiazolyl)benzimidazole) in the following processed feeds when present as a result of the application of this pesticide to growing crops or post-harvest crops:

Feed:	*Parts per million*
Apple pomace, dried (POST-H)	33
Beets, sugar, pulp (dried and/or dehydrated)	3.5
Citrus molasses	20
Citrus pulp, dried (POST-H)	35
Potato processing waste (PRE- & POST-H)	90

(b)(1) a tolerance of 12 parts per million is established for residues of the fungicide thiabendazole (2-(4-thiazolyl)benzimidazole) in rice hulls resulting from application of the fungicide to growing rice. Such residues may be present therein only as result of application of the fungicide in accordance with the provisions of an experimental use permit that expires April 1, 1980.

(2) Residues in rice hulls not in excess of 12 parts per million resulting from the use as described in paragraph (b)(1) of this section remaining after expiration of the experimental use program will not be considered to be actionable if the fungicide is legally applied during the term of and in accordance with the provisions of the experimental use permit and feed additive tolerance.

(3) Merck & Co. shall immediately notify the Environmental Protection Agency of any findings from the experimental use that have a bearing on safety. The firm shall also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the Environmental Protection Agency or the Food and Drug Administration.

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-4992]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final Rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATES: The date listed in the fourth column of the table.

ADDRESSES: The addresses where flood insurance policies can be obtained are published at 24 CFR 1912.7

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, DC 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93-234), amended, requires the purchase of flood insurance as a condition of Federal financial assistance of insurable property if such assistance is:

(1) for acquisition and construction purposes as defined in Part 1909 of Title 24 of the Code of Federal Regulations and

(2) for property located in a special flood hazard area identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(a) of the Act unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association (NFIA) servicing company for the State.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

Section 1914.6 is amended by adding in alphabetical sequence new entries to the table.

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community number
Arizona	Gila	Unincorporated Areas	January 2, 1979, Emergency	Nov. 1, 1974 and Apr. 8, 1977	040028-A
Georgia	Bartow	Adairsville, City of	January 5, 1979, Emergency	June 14, 1974 and Jan. 23, 1976.	130235-A

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER R—CHARTERS

[DoD Directive 5148.2]

PART 364—ASSISTANT TO THE SECRETARY OF DEFENSE (ATOMIC ENERGY)

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule—DoD Charter Directive 5148.2. [1]

SUMMARY: The Secretary of Defense has assigned functions and responsibilities to the Assistant to the Secretary of Defense (Atomic Energy), and has delegated specific authorities. This Directive serves as the instrument that authorizes the Assistant to the Secretary of Defense (Atomic Energy), to carry out the charter.

[1] Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120. Attention: Code 301.

EFFECTIVE DATE: August 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Arthur H. Ehlers, Director for Organizational & Management Planning, Office of the Deputy Assistant Secretary of Defense, (Administration), Telephone 202-695-4278.

SUPPLEMENTARY INFORMATION: This information is submitted in compliance with the requirements of section 552(a)(1) of Title 5, United States Code, and Recommendation 76-2 of the Administrative Conference of the United States.

V 4 4 / 1 5 J A 2 2 7 9 UMI

Accordingly, 32 CFR, Chapter I, is amended by adding a new Part 364, reading as follows:

Sec.
364.1 Purpose.
364.2 Responsibilities and functions.
364.3 Relationships.
364.4 Authorities.

AUTHORITY: 10 U.S.C. Chapter 4.

§ 364.1 Purpose.

Pursuant to the authority vested in the Secretary of Defense under the provisions of title 10, United States Code, the position of Assistant to the Secretary of Defense (Atomic Energy) (hereinafter "the ATSD(AE)"), is hereby established with responsibilities, functions and authorities as prescribed herein. The Chairman of the Military Liaison Committee to the Department of Energy will serve as the ATSD(AE) without additional compensation.

§ 364.2 Responsibilities and functions.

The ATSD(AE), as the principal staff assistant for Department of Defense atomic energy matters, shall:

(a) Develop policies, provide advice, make recommendations, and issue guidance on Defense atomic energy plans and programs.

(b) Develop systems and standards for the administration and management of approved atomic energy plans and programs.

(c) Review and evaluate programs for carrying out approved policies and standards.

(d) Promote coordination, cooperation, and mutual understanding on atomic energy policies, plans, and programs within the Department of Defense, and between the DoD and other Federal agencies.

(e) Participate in those DoD planning, programming and budgeting activities which relate to atomic energy matters.

(f) Develop policies and procedures for the transmission of information to the Senate and House Armed Services Committees, as required by the Atomic Energy Act of 1954, as amended, and coordinate such information with other officials and agencies as appropriate.

(g) Serve on boards, committees, and other groups concerned with atomic energy. Also, represent the Secretary of Defense on atomic energy matters outside the Department of Defense.

(h) Perform such other functions as the Secretary of Defense may assign.

§ 364.3 Relationships.

(a) The ATSD(AE) shall serve under the direction, control, and authority of the Under Secretary of Defense for Research and Engineering.

(b) In the performance of assigned functions, the ATSD(AE) shall:

(1) Coordinate and exchange information with other DoD organizations having collateral or related functions.

(2) Use existing facilities and services, whenever practicable, to achieve maximum efficiency and economy.

(3) Commuicate with other Government agencies, representatives of the legislative branch, and members of the public, as appropriate, in carrying out assigned functions.

(c) The Military Liaison Committee shall advise the ATSD(AE) on such atomic energy matters as the latter deems appropriate and necessary.

(d) All DoD organizations shall coordinate all matters concerning the functions cited in section B. with the ATSD(AE).

§ 364.4 Authorities.

The ATSD(AE) is hereby delegated authority to:

(a) Issue DoD Instructions and one-time directive-type memoranda, which carry out policies approved by the Secretary of Defense, in his assigned fields of responsibility. Instructions to the Military Departments will be issued through the Secretaries of those Departments, or their designees. Instructions to Unified and Specified Commands will be issued through the Joint Chiefs of Staff.

(b) Obtain such reports, information, advice, and assistance consistent with the policies and criteria of DoD Directive 5000.19, "Policies for the Management and Control of Information Requirements," March 12, 1976, as he deems necessary.

(c) Communicate directly with heads of DoD organizations, including the Secretaries of the Military Departments, the Joint Chiefs of Staff, the Commanders of the Unified and Specified Commands, and the Directors of Defense Agencies. Communications of the ATSD(AE) to the Commanders of Unified and Specified Commands shall be coordinated with the Joint Chiefs of Staff.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

JANUARY 16, 1979.

[3810-70-M]

[DoD Directive 5141.1]

PART 366—ASSISTANT SECRETARY OF DEFENSE (PROGRAM ANALYSIS AND EVALUATION)

AGENCY: Office of the Secretary of Defense.

ACTION: Final Rule—DoD Charter Directive 5141.1.[1]

SUMMARY: The Secretary of Defense has assigned functions and responsibilities to the Assistant Secretary of Defense (Program Analysis and Evaluation), and has delegated specific authorities. This Directive serves as the instrument that authorizes the Assistant Secretary of Defense (Program Analysis and Evaluation), to carry out the charter.

EFFECTIVE DATE: November 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Arthur H. Ehlers, Director for Organizational & Management Planning, Office of the Deputy Assistant Secretary of Defense (Administration), Telephone 202-695-4278.

SUPPLEMENTARY INFORMATION: This information is submitted in compliance with the requirements of section 552(a)(1) of Title 5, United States Code, and Recommendation 76-2 of the Administrative Conference of the United States.

Accordingly, 32 CFR, Chapter I, is amended by adding a new Part 366, reading as follows:

Sec.
366.1 Purpose.
366.2 Responsibilities.
366.3 Functions.
366.4 Relationships.
366.5 Authorities.

AUTHORITY: 10 U.S.C. Chapter 4.

§ 366.1 Purpose.

Pursuant to the authority vested in the Secretary of Defense, under the provisions of title 10, United States Code, one of the positions of Assistant Secretary is designated the Assistant Secretary of Defense (Program Analysis and Evaluation) (hereafter "the ASD (PA&E)"), with responsibilities, functions and authorities as prescribed herein.

§ 366.2 Responsibilities.

The ASD (PA&E) is the principal staff adviser and assistant to the Secretary of Defense for Department of Defense program analysis and evaluation. For each assigned area the ASD (PA&E) shall:

(a) Develop policies, provide advice, make recommendations, and issue planning, fiscal, and materiel support guidance upon which Defense planning and program projections are based.

(b) Perform analyses and evaluations of plans, programs, and budget submissions in relation to projected threats, estimated costs, resource constraints, and U.S. Defense objectives and priorities.

(c) Identify issues and evaluate alternative programs.

(d) Initiate programs, actions and taskings to insure adherence to DoD policies and national security objectives; and to insure that programs are designed to accommodate operational requirements and promote the readiness and efficiency of the forces.

(e) Provide leadership in developing and promoting improved analytical methods for analyzing national security planning and the allocation of resources.

(f) Review, analyze, and evaluate programs for carrying out approved policies and standards.

(g) Serve on boards, committees and other groups pertaining to the ASD(PA&E)'s functional areas. Also, represent the Secretary of Defense on PA&E matters outside the Department of Defense.

(h) Perform such other duties as the Secretary of Defense may from time to time prescribe.

§ 366.3 Functions.

(a) In executing assigned responsibilities, the ASD(PA&E) shall:

Carry out the responsibilities described in § 366.2(a) through (h) for the following functional areas:

(1) Force review of active and reserve components.

(2) Strategic and theater nuclear forces.

(3) Weapon systems and major items of materiel.

(4) Nuclear warhead requirements.

(5) Support systems.

(6) Deployment plans and overseas basing requirements.

(7) Mobility force programs and prepositioning plans.

(8) Materiel support programs and war reserve stocks.

(9) Force readiness and capabilities.

(10) Contingency plans.

(11) Security assistance programs.

(12) Allied and foreign military requirements and capabilities.

(13) Economic analyses and their impact on Defense programs.

(14) Such other areas as the Secretary of Defense may from time to time prescribe.

(b) Perform critical reviews of requirements, performance, and life cycle costs of current and proposed weapon systems.

(c) Provide appropriate leadership and support of the Cost Analyses Investment Group in accordance with DoD Directive 5000.4, "OSD Cost Analysis Improvement Group," June 13, 1973.

§ 366.4 Relationships.

(a) In the performance of the duties, the ASD(PA&E) shall:

(1) Coordinate and exchange information with other DoD organizations having collateral or related functions.

(2) Use existing facilities and services, whenever practicable, to achieve maximum efficiency and economy.

(b) All DoD organizations shall coordinate all matters concerning the functions cited in section C with the ASD(PA&E).

§ 366.5 Authorities.

(a) Issue instructions and one-time directive-type memoranda which carry out policies approved by the Secretary of Defense, in assigned fields of responsibility, as prescribed in DoD Directive 5025.1, "Department of Defense Directives System," November 18, 1977. Instructions to the Military Departments will be issued through the Secretaries of those Departments or their designees. Instructions to Unified and Specified Commands will be issued through the Joint Chiefs of Staff.

(b) Obtain such reports, information, advice, and assistance consistent with the policies and criteria of DoD Directive 5000.19, "Policies for the Management and Control of Information Requirements," March 12, 1976, as the ASD(PA&E) deems necessary.

(c) Communicate directly with the heads of DoD organizations, including the Secretaries of the Military Departments, the Joint Chiefs of Staff, the Directors of Defense Agencies, and, through the Joint Chiefs of Staff, the Commanders of the Unified and Specified Commands.

(d) Establish arrangements for DoD participation in those non-defense governmental programs for which the ASD(PA&E) has been assigned primary cognizance.

(e) Communicate with other Government agencies, representatives of the legislative branch, and members of the public, as appropriate, in carrying out assigned functions.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS, AND STUDENT LOANS

Grants for Dental Team Practice Training Programs

AGENCY: Department of Health, Education, and Welfare.

ACTION: Final regulations.

SUMMARY: These regulations set forth the requirements for the award of grants to schools of dentistry and other public or nonprofit private entities for projects to plan, develop, and operate or maintain programs to train dental students in the organization and management of a multiple auxiliary dental team practice. The program is designed to increase the number of dental graduates who are trained to practice with dental auxiliaries, thereby increasing the productivity of the dental care team and improving the efficiency of dental services provided to patients.

EFFECTIVE DATE: These regulations are effective January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Dr. Richard Weaver, Education Development Branch, Division of Dentistry, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 3-30, 3700 East-West Highway, Hyattsville, Maryland 20782 (301-436-6510).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 16, 1978 (43 FR 26074), the Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposed to add a new Subpart N, entitled "Grants for Programs to Train Dental Students in the Organization and Management of Multiple Auxiliary Dental Team Practice," to 42 CFR Part 57. These regulations were proposed to implement section 783(a)(3) of the Public Health Service Act, as added by the Health Professions Educational Assistance Act of 1976 (Pub. L. 94-484).

Interested persons were invited to participate in the rulemaking process by submitting comments on the proposed regulations not later than July 17, 1978. Three responses were re-

V 4 4 / 1 5 JAN 22 79 UMI

ceived during the comment period. The comments, the Department's response to the comments, and the revisions in the regulations are indicated below. For clarity, the comments and responses have been arranged according to the section of the regulation to which they pertain. References are to the section numbers and titles as they appeared in the Notice of Proposed Rulemaking.

§ *57.1301 Applicability.* One comment was received suggesting that the applicability section be expanded to include information concerning the improvement that a team mode of practice can have on the effectiveness and goal achievement of the team and team members.

With respect to this suggestion, the Secretary believes that since both the applicability section and the Program Guidelines transmitted to each potential applicant adequately describe the purposes of the team mode of practice, the suggested expansion need not be incorporated into the regulations.

§ *57.1302 Definitions.* One commenter recommended that the regulations include a definition of the term "management" to mean "soliciting, encouraging and achieving performance that results in goal oriented behavior."

This recommended definition has not been incorporated in the regulations because the Secretary believes that it appears to be more an objective of management rather than an effective definition of the term as used in the regulations.

§ *57.1305 Project requirements.* One commenter suggested that the regulations require each team practice project to provide dental student participants with the opportunity to be responsible for a team effort, including having the authority to state objectives, choose employees, assign tasks, delegate authority, evaluate performance, and take, where necessary, corrective action.

While the Secretary recognizes that each dental student participating in the team project must, upon completion of the training, be able to demonstrate a wide variety of skills in the organization and management of a team practice, he nonetheless believes that a grantee must be permitted to exercise flexibility in proposing the specific curricula and methods it will use in carrying out this team project. In the Secretary's view, the project requirements as stated in the Notice of Proposed Rulemaking clearly permit the grantee to exercise this flexibility. The Secretary further believes that within the project requirements listed, it is possible that an applicant can propose methods of training similar to the one suggested by this commenter. Based upon these views, the commenter's suggested requirement has not been incorporated in the regulations.

A second commenter has questioned the relationship between the team mode of practice and the project requirement in § 57.1305(b)(3) that each dental student, upon completion of the team training, "demonstrate • • • skills in preventive dental care, including and understanding of motivation and personal health education."

This project requirement was included to give effect to the congressional intent that the clinical component of the team project "incorporate the provision of preventive care." In addition, since the Secretary believes that an important factor in providing preventive care in the team mode of practice is an understanding of patient motivation in attaining an acceptable level of oral hygiene, the regulations also contain the provision that a dental student completing the team practice training must be able to demonstrate an understanding of patient motivation and personal health education.

It is the Secretary's view that this project requirement is both necessary and appropriate and therefore should not be deleted from the regulations.

A third comment objected to the § 57.1305(c) requirement that each dental student have successfully completed didactic and clinical training in four-handed sit-down dentistry before participating in a team project as being illogical and against the congressional intent in implementing the team program.

In creating the team practice grant program, Congress clearly intended that a dental student have experience in organizing and managing a team practice, including delegating responsibilities and supervising the performance of the auxiliaries. Since the primary objective of the team grant program is to provide training in the organization and management of a team practice, the Secretary believes that rather than require each team project to provide the basic introductory instruction of working with auxiliaries as provided in the four-handed sit-down dentistry training, the regulations should instead provide that each dental student must have successfully completed this basic instruction before he or she undertakes the more complex training procedures and methods involved in learning to organize and manage a team practice. Thus, the regulations have not been changed to reflect this objection.

§ *57.1306 Evaluation of applications.* Two commenters opposed the § 57.1306(f) provision that the Secretary take into consideration as an evaluation factor the ". . . extent to which the expanded function dental auxiliary will be performing advanced skills *such as placing and finishing restorations*" (emphasis added). In opposing the use of this evaluation factor, these commenters interpreted the factor to be a project requirement and stated that this specific listing of the types of advanced skills which the expanded function dental auxiliary will be performing is beyond congressional intent, potentially conflicts with State practice laws, and is biased in favor of a small number of States.

The Secretary intends that team programs be designed to delegate to dental auxiliaries the maximum number of functions permissible under the laws of the various States without specifying any particular functions. It was not the Secretary's intention to require that an expanded function dental auxiliary participating in a team program *must* place and finish restorations, but merely to list illustrative examples of the types of advanced skills which the Secretary *may* take into consideration in evaluating grant applications. Therefore, in light of the confusion generated by the words ". . . such as placing and finishing restorations" in this section, these words have been deleted from the regulations.

§ *57.1307 Grant award.* One commenter suggested that it would be helpful if the regulations included an explanation of the terms "direct and indirect costs." The Secretary has not incorporated the requested explanation in the regulations because these terms are explained in 45 CFR Part 74 (Cost Principles), which are applicable to these grants.

§ *57.1313 Records, audit, and inspection.* It should be noted that this section has been changed in the regulations to provide that in addition to meeting the requirements of 45 CFR Part 74, a grantee must also meet the requirements of section 705 of the Act.

In addition, the Department has made many minor editorial and technical changes in the regulations for clarity. Accordingly, Subpart N is added to 42 CFR Part 57 and adopted as set forth below.

Dated: November 3, 1978.

CHARLES MILLER,
Acting Assistant Secretary for Health.

Approved: January 2, 1979.

JOSEPH A. CALIFANO, Jr.,
Secretary.

AUTHORITY: Sec. 215 of the Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. 216); sec. 783(a)(3) of the Public Health Service Act, 90 Stat. 2314 (42 U.S.C. 295g.3(a)(3)).

Subpart N—Grants for Dental Team Practice Training Program

57.1301 To what projects do these regulations apply?
57.1302 Definitions.
57.1303 What entities are eligible to apply for a grant?
57.1304 How must an entity apply for a grant?
57.1305 What requirements must a project meet?
57.1306 What are the criteria for deciding which applications are to be funded?
57.1307 How will grant awards be made?
57.1308 How will grant payments be made?
57.1309 What are the purposes for which grant funds may be spent?
57.1310 What nondiscrimination requirements apply to grantees?
57.1311 How must grantees account for grant funds received?
57.1312 Applicability of 45 CFR Part 74.
57.1313 What recordkeeping, audit, and inspection requirements apply to grantees?
57.1314 What additional conditions apply to grantees?

Subpart N—Grants for Dental Team Practice Training Program

§ 57.1301 To what projects do these regulations apply?

The regulations in this subpart are applicable to the award of grants to public or nonprofit private schools of dentistry and other public or nonprofit private entities under section 783(a)(3) of the Public Health Service Act to meet the costs of projects to plan, develop, and operate or maintain a program to train dental students in the organization and management of a multiple auxiliary dental team (referred to as team) practice. In a team practice, dental auxiliaries are used for the purpose of improving the dentist's productivity and the efficiency of dental services provided to patients.

§ 57.1302 Definitions.

For purposes of this subpart:

"Act" means the Public Health Service Act, as amended.

"Budget period" means the interval of time into which the project period is divided for budgetary and reporting purposes, as specified in the grant award document.

"Council" means the National Advisory Council on Health Professions Education established by section 702 of the Act.

"Dental assistant" means an individual who assists the dentist with the clinical, laboratory, or business operation of a dental practice and provides services to patients as may be delegated and supervised by the dentist in accordance with the law or regulations of the State in which the individual is employed.

"Dental auxiliary" means a dental assistant, dental hygienist, or expanded function dental auxiliary.

"Dental hygienist" means an individual who is trained and licensed to function as a member of the dental care team and provide preventive and therapeutic direct care services to patients as may be delegated and supervised by the dentist in accordance with the law or regulations of the State in which the individual is employed.

"Expanded function dental auxiliary" mean a dental assistant or dental hygienist who has received additional training in a program for the training of expanded function dental auxiliaries as defined in section 701(8)(A) of the Act, 42 U.S.C. 292a(8)(A) or in a similar training program, and is qualified to perform under the supervision of a dentist a wide range of clinical functions and direct patient care procedures in accordance with the law or regulations of the State in which the individual is employed.

"Four-handed, sit-down dentistry" means a mode of dental practice which encourages the efficient use of dental assistants and dental hygienists to assist the dentist or operating dental auxiliary in a manner that maximizes patient and operator comfort, saves time, and increases the productivity of the practice while maintaining the quality of dental care. This mode of practice includes, but is not limited to, the following:

(1) Preplanning of patient treatment;

(2) Chair positioning of patient, operator, and dental auxiliary;

(3) Use of prearranged sterilized instrument trays;

(4) Effective hand instrument exchange techniques;

(5) Standardized sequential usage of instruments;

(6) Use of water, air, and oral evacuation equipment to maintain a clear field of operation; and

(7) Preparation and delivery of restorative and other treatment materials required for the procedures.

"Project period" means that total time for which support for a project has been approved, including any extensions thereof.

"School of dentistry" means a school which provides training leading to a degree of doctor of dentistry or an equivalent degree and which is accredited as provided in section 772(b) of the Act (42 U.S.C. 295f-5).

"Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

"State" means one of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

§ 57.1303 What entities are eligible to apply for a grant?

Any public or nonprofit private school of dentistry or other public or nonprofit private entity located in a State may apply for a grant under this subpart.

§ 57.1304 How must an entity apply for a grant?

(a) Each eligible applicant desiring a grant under this subpart must submit an application in the form and at the time as the Secretary may require.[2] The application must be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the Act, the regulations of this subpart, and any additional terms and conditions of the award.

(b) In addition to other pertinent information as the Secretary may require, an application for a grant under this subpart must set forth a full description of the project; including the manner in which the applicant proposes to meet the requirements of this subpart, and in particular § 57.1305; the number and type of dental auxiliaries to be utilized in the project; the available resources to conduct the proposed project; and a detailed budget.

§ 57.1305 What requirements must a project meet?

A project supported under this subpart must be conducted in accordance with the following requirements:

(a) The project must be conducted in accordance with section 783(a)(3) of the Act, the regulations of this subpart, the approved application, and the terms and conditions of the award.

(b) Each project must have a didactic and clinical component which has as its objectives the training of dental students who will, upon completion of the training be able to:

(1) Demonstrate the ability to delegate duties commensurate with the skills of their auxiliaries and ensure the quality of their clinical performance and products;

(2) Demonstrate skills in personnel management, including an understanding of human behavior, interpersonal relations, group dynamics and communication;

(3) Demonstrate skills in patient management and preventive dental care including an understanding of

[2] Applications and instructions may be obtained from the Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, Center Bldg., Rm. 4-27, 3700 East-West Highway, Hyattsville, Maryland 20782.

V 4 4 / 1 5 JAN 22 79 UMI

motivation and personal health education as related to team practice.

(4) Demonstrate those skills in dental office management which relate to operating a team practice, including patient scheduling and flow, and cost benefit analysis; and

(5) Demonstrate an understanding of the basic principles of facility and equipment design necessary for operating a team practice in a private practice setting.

(c) Each dental student must have successfully completed didactic and clinical training in four-handed, sit-down dentistry before participating in a project supported under this subpart.

(d) Each dental student participating in a project supported under this subpart must receive training in a team composed, at a minimum, of one dental assistant, one expanded function dental auxiliary and a shared dental hygienist.

(e) Each project must be designed to delegate to dental auxiliaries all functions permitted by the law or regulations of the State in which the project is conducted.

§ 57.1306 What are the criteria for deciding which applications are to be funded?

Within the limits of funds available under section 783(a)(3), the Secretary, after consultation with the Council, may award grants to those applicants whose projects will in his or her judgment best promote the purposes of section 783(a)(3) of the Act, taking into consideration, among other pertinent factors:

(a) The potential effectiveness of the proposed project in carrying out the training purposes of section 783(a)(3) of the Act;

(b) The degree to which the proposed project adequately provides for meeting the project requirements set forth in § 57.1305;

(c) The administrative and managerial capability of the applicant to carry out the proposed project;

(d) The qualifications of the project director, staff and faculty;

(e) The reasonableness of the proposed budget in relation to the proposed project; and

(f) The scope of the expanded functions to be performed by expanded function dental auxiliaries, and, in particular, the extent to which the expanded function dental auxiliary will be performing advanced skills.

§ 57.1307 How will grant awards be made?

(a) General (1) Within the limits of funds available for this purpose, the Secretary may award grants to those applicants whose projects will, in his or her judgment, best promote the purposes of section 783(a)(3) of the Act as determined in accordance with § 57.1306.

(2) All grant awards will be in writing and set forth the amount of funds granted and the period for which grant funds will be available for obligation by the grantee.

(3) Projects receiving grants under this subpart may be approved for an initial period of grant support for up to two years. Additional support may be obtained by submission of a competing extension application.

(4) Neither the approval of any application nor any grant award obligates the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application. For continuation support grantees must make separate application at the time and in the form as the Secretary may require.

(b) The amount of any award will be determined by the Secretary on the basis of his or her estimate of the sum necessary for the cost (including both direct and indirect costs) of projects to plan, develop, and operate or maintain programs for dental team practice training grants.

(c) The Secretary may, within the limits of funds available for this purpose, make a grant award for an additional budget period for any previously approved project if, on the basis of progress and accounting records, the Secretary finds that the project's activities during the current budget period justify continued support of the project for an additional budget period.

§ 57.1308 How will grant payments be made?

The Secretary will from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement.

§ 57.1309 What are the purposes for which grant funds may be spent?

(a) Grant funds must be expended solely for costs of projects to plan, develop, and operate or maintain programs for dental team practice training grants in accordance with the applicable provisions of the Act, these regulations, and the terms and conditions of the award.

(b) Grant funds may not be expended for sectarian instruction or any religious purpose.

(c) Any unobligated funds remaining in the grant account at the close of a budget period may be carried forward and will be available for obligation during subsequent budget periods of the project period. The amount of any subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period, any unobligated funds remaining in the grant account must be refunded to the Federal Government.

§ 57.1310 What nondiscrimination requirements apply to grantees?

(a) Recipients of grants under this subpart are advised that in addition to complying with the terms and conditions of these regulations, the following laws and regulations are applicable:

(1) Section 704 of the Act (42 U.S.C. 292d) and 45 CFR Part 83 (prohibiting discrimination on the basis of sex in the admission of individuals to training programs under Title VII of the Act);

(2) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*) and its implementing regulation, 45 CFR Part 80 (prohibiting discrimination in Federally assisted programs on the grounds of race, color, or national origin);

(3) Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 *et seq.*) and its implementing regulation, 45 CFR Part 86 (prohibiting discrimination on the basis of sex in Federally assisted education programs); and

(4) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and its implementing regulation, 45 CFR Part 84 (prohibiting discrimination in Federally assisted programs on the basis of handicap).

(b) The grantee shall not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.1311 How must grantees account for grant funds received?

(a) *Accounting for grant award payments.* The grantee must record all payments made by the Secretary in accounting records separate from the records of all other funds, including funds derived from other grant awards. The grantee must account for the sum total of all amounts paid by making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart.

(b) *Grant closeout.*

(1) *Date of final accounting.* A grantee must submit with respect to each grant under this subpart, a full account, in accordance with this subsection, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* The grantee must pay to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) any amount not accounted for under paragraphs (a) and (b) of this section; and

(ii) any other amounts due in accordance with 45 CFR Part 74 and the terms and conditions of the grant award. This total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successors or assignees by setoff or other lawful action.

§ 57.1312 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, apply to all grants under this subpart.

§ 57.1313 What recordkeeping, audit, and inspection requirements apply to grantees?

Each entity that receives a grant must, in addition to the requirements of 45 CFR Part 74, meet the requirements of section 705 of the Act concerning recordkeeping, audit and inspection.

§ 57.1314 What additional conditions apply to grantees?

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his or her judgment these conditions are necessary to assure or protect advancement of the grant purposes, the interests of the public health, or the conservation of grant funds.

PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS AND STUDENT LOANS

Grants for Programs for the Training of Expanded Function Dental Auxiliaries

AGENCY: Public Health Service, HEW.

ACTION: Final regulations.

SUMMARY: These regulations set forth requirements for grants to plan, develop, and operate or maintain programs for the training of expanded function dental auxiliaries. The program is designed to increase the number of dental auxiliaries (dental assistants and dental hygienists) who can perform legally delegated expanded functions, thereby increasing the productivity of the dental care team to provide quality care to more people.

EFFECTIVE DATE: These regulations are effective immediately.

FOR FURTHER INFORMATION CONTACT:

Dr. Richard Weaver, Education Development Branch, Division of Dentistry, Bureau of Health Manpower, Room 3-30, Health Resources Administration, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782 (301-436-6510).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 16, 1978 (43 FR 26071), the Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposed to add a new Subpart II entitled "Grants for Programs for the Training of Expanded Function Dental Auxiliaries" to 42 CFR Part 57. These regulations were proposed to implement section 783(a)(2) of the Public Health Service Act, as added by the Health Professions Educational Assistance Act of 1976 (Pub.L. 94-484), on October 12, 1976.

Interested persons were invited to submit comments on the proposed regulations not later than July 17, 1978. Four comments on the proposed regulations were received during the comment period. The comments, the Department's response to the comments, and the revisions made in the regulations are indicated below. For clarity, the comments and responses have been arranged according to the section of the regulations to which they pertain.

Section 57.3403—Eligibility. One comment recommended that the regulations include a provision authorizing a grantee to contract with other entities, including proprietary schools, for services to carry out the program.

The Department did not include a provision regarding contracts by the grantee because this is covered under the Public Health Service grants policy. According to the Public Health Service supplement to the Department of Health, Education, and Welfare Grants Administration Manual, Chapter PHS:1-430, a grantee may contract for routine services, but principal activities of the grant-supported project may only be contracted out to another organization with specific prior approval by the Public Health Service.

Section 57.3405—Project requirements. One comment questioned the necessity of § 57.3405(e)(3), which requires the grantee to collect, evaluate, and make available to the Secretary data on student performance on an individual basis in classroom and preclinical laboratory work and clinical practice.

The Secretary agrees that the information on student performance on an individual basis is not necessary for the administration of the expanded function dental auxiliaries program; therefore, the requirement for this data has been deleted from § 57.3405(e)(3).

Section 57.3406—Evaluation and grant award. The Secretary has deleted former § 57.3406(a)(1)(iv), which stated that in evaluating applications, the Secretary would consider the extent to which the project has plans to provide high quality training at a reasonable cost per student trained. The basis for this action was that this factor could appropriately be considered as part of the criteria for determining the "reasonableness of the proposed budget," in § 57.3406(a)(1)(viii).

One comment stated that the evaluation criteria contained in § 57.3406(a)(1) were too general.

The Department has provided the basic considerations used in evaluation in § 57.3406(a)(1) and will expand them by adding examples and further detail in the guidelines for this program.[1]

Three professional associations filed comments objecting to § 57.3406(a)(2), which provides that in evaluation of grant applications the Secretary will give special consideration to projects designed to: (i) train students in the greatest number of expanded functions;

(ii) provide students with opportunities for training in locations geographically remote from the main site of the teaching facilities of the program; and (iii) provide students with opportunities for interdisciplinary or team training experiences. The objections to this provision were based on the incorrect premise that these factors are *project requirements*, instead of *special considerations* given to projects in evaluation. Thus, the comments criticized the provision as being overly restrictive and contrary to congressional intent.

The Department points out that this provision sets forth factors which are given special consideration in evaluating projects and not project requirements. Special consideration given to particular factors in evaluation is a reasonable and commonly used means of allocating limited funds for greatest effectiveness in a discretionary grant program. Projects are reviewed for factors given special consideration after they have been determined as meeting program requirements and general evaluation criteria.

With respect to § 57.3406(a)(2)(i), the Department intends to encourage training in the maximum number of

[1] Program guidelines may be obtained by request from the Grants Management Office, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-22, 3700 East-West Highway, Hyattsville, Md. 20782.

V 4 4 / 1 5

functions permissible under the laws of the various States, without specifying any particular functions. As examples, the Department included a list of some specific advanced skills which could be delegated to dental auxiliaries in some States. The professional organizations which commented on this provision misinterpreted these examples as skills which were required to be taught. In order to clarify the Department's intent, this list of examples has been deleted from the final regulations.

With respect to §§ 57.3406(a)(2) (ii) and (iii), the Department believes that remote site and interdisciplinary training improve the educational quality of the programs by providing the trainee with opportunities to work with patients from various population groups with a broad assortment of dental problems in differing practice settings, and with other members of the health professions. The variety of training experience will assist the trainee in making career decisions. It is, therefore, the Department's view that special consideration for these factors is justified, and they have been retained in the final regulations.

In addition, the Department has made many minor editorial and technical changes in the proposed regulations for clarity.

Accordingly, a new subpart II is added to 42 CFR Part 57 and is adopted as set forth below.

Dated: November 3, 1978.

CHARLES MILLER,
Acting Assistant Secretary for Health.

Approved: January 2, 1979.

JOSEPH A. CALIFANO, JR.,
Secretary.

Subpart II—Grants for Programs for the Training of Expanded Function Dental Auxiliaries

Sec.
57.3401 To what projects do these regulations apply?
57.3402 Definitions.
57.3403 What entities are eligible to apply for a grant?
57.3404 How must an entity apply for a grant?
57.3405 What requirements must a project meet?
57.3406 How will the Secretary evaluate applications and make grant awards?
57.3407 How will grant payments be made?
57.3408 Purposes for which grant funds may be spent.
57.3409 What nondiscrimination requirements apply to grantees?
57.3410 How must grantees account for grant funds received?
57.3411 Applicability of 45 CFR Part 74.
57.3412 What recordkeeping, audit, and inspection requirements apply to grantees?
57.3413 What additional conditions apply to grantees?

AUTHORITY: Sec. 215 of the Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. 216); sec. 783(a)(2) of the Public Health Service Act, 90 Stat. 2314 (42 U.S.C. 295g-3(a)(2)).

Subpart II—Grants for Programs for the Training of Expanded Function Dental Auxiliaries

§ 57.3401 To what projects do these regulations apply?

The regulations in this subpart are applicable to the award of grants to public or nonprofit private schools of dentistry and other public or nonprofit private entities under section 783(a)(2) of the Public Health Service Act (42 U.S.C. 295g-3(a)(2)) to meet the costs of projects to plan, develop, and operate or maintain programs for the training of expanded function dental auxiliaries.

§ 57.3402 Definitions.

For purposes of this subpart:

"Act" means the Public Health Service Act.

"Budget period" means the interval of time into which the project period is divided for budgetary and reporting purposes, as specified in the grant award document.

"Council" means the National Advisory Council on Health Professions Education established by section 702 of the Act.

"Expanded function dental auxiliaries" means dental assistants and dental hygienists who, by successfully completing a training program which meets the requirements of Subpart HH, are qualified to perform, under the supervision of a dentist, a new or wider range of clinical functions and direct patient care procedures.

"Nonprofit" as applied to any school or entity means one which is a corporation or association, or is owned and operated by one or more corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any shareholder or individual.

"Project director" means an individual designated by the grantee in the grant application and approved by the Secretary to direct the project being supported under this subpart.

"Project period" means the total time for which support for a project has been approved, including any extensions thereof.

"School of dentistry" means a school which provides training leading to a degree of doctor of dentistry or an equivalent degree and which is accredited as provided by section 772(b) of the Act.

"Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

"State" means one of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

"Supervised clinical practice" means supervised clinical practice as defined in 42 CFR 57.3302(k).

§ 57.3403 What entities are eligible to apply for a grant?

(a) *Eligible applicants.* Any public or nonprofit private school of dentistry or other public or nonprofit private entity located in a State may apply for a grant under this subpart.

(b) *Eligible projects.* The Secretary may make grants under this subpart to eligible applicants for projects to plan, develop, and operate or maintain a program for the training of expanded function dental auxiliaries which meets the requirements of 42 CFR 57.3301-3303.

§ 57.3404 How must an entity apply for a grant?

(a) Each eligible applicant desiring a grant under this subpart must submit an application in the form and at the time as the Secretary may require.[1]

(b) The application must be signed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations in this subpart.

(c) In addition to other pertinent information as the Secretary may require, an application for a grant under this subpart must contain a detailed description of the proposed project and of the manner in which the applicant intends to conduct the project and carry out the requirements of section 783 of the Act and this subpart, in particular, the requirements of § 57.3405. The application must include a budget for the proposed project and a justification for the amount of funds requested.

§ 57.3405 What requirements must a project meet?

A project supported under this subpart must be conducted in accordance with the following requirements:

(a) The project must conduct its program for the training of expanded function dental auxiliaries in accordance with the requirements in 42 CFR 57.3301-3303.

[1] Applications and instructions may be obtained from the Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-22, 3700 East-West Highway, Hyattsville, Md. 20782.

(b) The project must be conducted under the direction of the project director. If the project director becomes unable to function in this capacity, the Secretary must be notified as soon as possible.

(c) In the case of a project to plan, develop, and operate a program for the training of expanded function dental auxiliaries, the planning and developmental activities must be accomplished within the first six months of the project period except that in the case of programs for which model curriculums, course materials, and expertise do not exist, the Secretary may approve a period of up to one year for planning and development.

(d) The project must develop and use appropriate methods for placing graduates of the program in dental assisting or dental hygiene positions for which they have been trained.

(e) In accordance with the plan set forth in its approved application, the project must collect, evaluate, and make available to the Secretary data concerning the program being conducted. This data collection and evaluation must include, at a minimum:

(1) Systematic evaluation by faculty and students of the program curriculum in relation to the purposes, objectives, and conceptual framework of the program;

(2) Evaluation of the effectiveness of the program in relation to its purposes and objectives;

(3) Information concerning the number of student applicants and students enrolled, and student characteristics (such as age, sex, race, educational background, and previous work experience, including type of position, specialty, and work setting); and

(4) Information concerning the number of graduates per class, the attrition rate, characteristics of graduates, and use and performance of graduates (including employer assessment).

(f) At the time and in the manner the Secretary requires, the project must participate in a program conducted by the Secretary to evaluate the overall effectiveness of Federal support for the training of expanded function dental auxiliaries.

§ 57.3406 How will the Secretary evaluate applications and make grant awards?

(a) *General.* (1) Within the limits of funds available for this purpose the Secretary, after consultation with the Council, may award grants to those applicants whose projects will in his or her judgment best promote the purposes of section 783(a)(2) of the Act, taking into consideration:

(i) The degree to which the project plan adequately provides for meeting the requirements in § 57.3405.

(ii) The number of students the project proposes to train in the program.

(iii) The scope and skill level of expanded functions which the project proposes to teach in the program.

(iv) The potential effectiveness of the project in carrying out the training purposes of section 783(a)(2) of the Act.

(v) The administrative and managerial capability of the applicant to carry out the project.

(vi) The adequacy of the facilities and resources available to the applicant to carry out the project.

(vii) The qualifications of the project director and faculty.

(viii) The reasonableness of the proposed budget.

(ix) The potential of the project to continue on a self-sustaining basis after the project period.

(2) The Secretary will give special consideration to:

(i) Projects designed to train students to clinical proficiency in the greatest number of expanded functions which increase the productivity of the dental team, including advanced skills.

(ii) Projects designed to provide students with opportunities for training in locations geographically remote from the main site of the teaching facilities of the program.

(iii) Projects designed to provide students with opportunities for interdisciplinary or team training experiences.

(3) All grant awards will be made in writing and will set forth the amount of funds granted and the period for which funds will be available for obligation by the grantee.

(4) Except as provided in paragraph (a)(5) of this section, projects receiving grants under this subpart may be approved for an initial project period of up to three years. Grantees may apply for up to two years of additional support by submitting a competing extension application.

(5) Projects maintaining programs, for the training of expanded function dental auxiliaries, supported under this subpart and which previously received support under section 774(a) of the Act, as in effect on September 30, 1977, may receive grants to maintain their programs for no more than the period of time which, when added to the period of support under section 774(a), equals five years.

(6) Neither the approval of any project nor the award of any grant commits or obligates the United States in any way to make additional supplemental, continuation, or other awards with respect to any approved project or any portion of an approved project. For continuation support, grantees must make separate application at the time and in the form which the Secretary requires.

(b) The Secretary will determine the amount of an award on the basis of his or her estimate of the sum necessary for the direct and indirect costs of the project. In the case of projects whose periods of support, including any periods of support received under section 774(a) of the Act as in effect on September 30, 1977, exceed three years, however, the amount of the fourth year of support may not exceed 60 percent of the award for the third year of support and the amount of the fifth year of support may not exceed 40 percent of the award for the third year of support.

(c)The Secretary may make a grant award for an additional budget period for any previously approved project on the basis of an application and those progress and accounting records which may be required. If the Secretary finds that the project's activities during the current budget period justify continued support, and the Secretary decides to continue support, the amount of the grant award will be determined in accordance with paragraph (b) of this section.

§ 57.3407 How will grant payments be made?

The Secretary will, from time to time, make payments to a grantee of all or a portion of any grant award either in advance or by way of reimbursement.

§ 57.3408 Purposes for which grant funds may be spent.

(a) Funds granted under this subpart may be expended solely for carrying out the approved project in accordance with section 783(a)(2) of the Act, the regulations of this subpart and the terms and conditions of the award. Funds may not be expended for sectarian instruction or for any religious purposes.

(b) Funds granted under this subpart may be used in accordance with an approved application for the clinical training of dental assistant and dental hygienist faculty members to teach in the program conducted by the project.

(c) The amount of funds granted under this subpart which may be used for alteration and renovation of facilities during the project period may not exceed the lesser of $10,000 or 25 percent of the total funds recommended for direct costs for the project period.

(d) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of the subsequent award will take into consideration the amount remaining in the grant account.

JAN 22 1979 UMI

V 4 4 / 1 5 J A 2 2 7 9 UMI

(e) Grant funds may not be used for sectarian instruction or for any other religious purpose.

§ 57.3409 What nondiscrimination requirements apply to grantees?

(a) Recipients of grants under this subpart are advised that in addition to complying with the terms and conditions of these regulations, the following laws and regulations are applicable:

(1) Section 704 of the Act (42 U.S.C. 292d) and its implementing regulation, 45 CFR Part 83 (prohibiting discrimination on the basis of sex in the admission of individuals to training programs);

(2) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*) and its implementing regulations, 45 CFR Part 80 (prohibiting discrimination in federally assisted programs on the ground of race, color, or national origin);

(3) Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 *et seq.*) and its implementing regulation, 45 CFR Part 86 (prohibiting discrimination on the basis of sex in federally assisted education programs); and

(4) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and its implementing regulation, 45 CFR part 84 (prohibiting discrimination in federally assisted programs on the basis of handicap.)

(b) The grantee may not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.3410 How must grantees account for grant funds received?

(a) *Accounting for grant award payments.* The grantee must record all payments made by the Secretary in accounting records separate from the records of all other funds, including funds derived from other grant awards. The grantee must account for the sum total of all amounts paid by presenting or otherwise making available, evidence satisfactory to the Secretary of funds spent for costs meeting the requirements of this subpart.

(b) Grant closeout.

(1) Date of final accounting. The grantee must submit, with respect to each grant under this subpart, a full account, in accordance with this subpart, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) Final settlement. The grantee must pay to the Federal Government as final settlement with respect to each grant under this subpart the total sum of (i) any amount not accounted for under paragraphs (a) and (b) of this section and (ii) any other amounts due in accordance with 45 CFR Part 74 and the terms and conditions of the grant award. This total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successors or assigns by setoff or other lawful action.

§ 57.3411 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, apply to all grants under this subpart.

§ 57.3412 What recordkeeping, audit, and inspection requirements apply to grantees?

Each school which receives a grant under this subpart must, in addition to the requirements of 45 CFR Part 74, meet the requirements of section 705 of the Act, concerning recordkeeping, audit, and inspection.

§ 57.3413 What additional conditions apply to grantees?

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his or her judgment these conditions are necessary to assure or protect the advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS, AND STUDENT LOANS

Programs for the Training of Expanded Function Dental Auxiliaries

AGENCY: Public Health Service, HEW.

ACTION: Final regulations.

SUMMARY: These regulations set forth requirements for programs for the training of expanded function dental auxiliaries under the Public Health Service Act. The program is designed to increase the number of dental auxiliaries (dental assistants and dental hygienists) who can perform legally delegated expanded functions, thereby increasing the productivity of the dental care team to provide quality care to more people.

EFFECTIVE DATE: These regulations are effective immediately.

FOR FURTHER INFORMATION CONTACT:

Dr. Richard Weaver, Education Development Branch, Division of Dentistry, Bureau of Health Manpower, Room 3-30, Health Resources Administration, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782 (301-436-6510).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 16, 1978 (43 FR 26012), the Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, added a new Subpart HH entitled "Programs for the training of Expanded Function Dental Auxiliaries" to 42 CFR Part 57. These regulations implemented section 701(8)(B) of the Public Health Service Act, as added by the Health Professions Educational Assistance Act of 1976 (P.L. 94-484), on October 12, 1976.

Due to the need to give entities which are eligible for grants under section 783(a)(2) of the Act adequate time to structure their programs in accordance with this subpart, these regulations were promulgated as interim-final regulations, without benefit of proposed rulemaking procedures. Notwithstanding the omission of these rulemaking procedures, interested persons were invited to submit comments not later than August 15, 1977. Following the close of the comment period, the regulations were to be revised as warranted by public comments received. Three comments on the interim-final regulations were received during the comment period. The comments, the Department's response to the comments, and the revisions made in the regulations are indicated below. For clarity, the comments and responses have been arranged according to the section of the interim-final regulations to which they pertain.

(1) Two comments from professional organizations addressed the provision of section 701(8)(B), which requires the Secretary to consult with appropriate professional organizations before prescribing regulations for programs for the training of expanded function dental auxiliaries. These comments stated that the Secretary had failed to meet this requirement for meaningful consultation and recommended that the Secretary hold a meeting with dental and dental auxiliary organizations to discuss revisions to these regulations before publishing final regulations.

For the following reasons, the Secretary believes that these comments lack support. The Department has consulted with various dental organizations from the early development of the program for the training of expanded function dental auxiliaries. When developing the program guidelines, which provided direction to the program through 1976 and formed the foundation for these regulations, the Division of Dentistry of the Bureau of Health Manpower had several meetings with representatives and members of the American Dental Association, American Dental Hygienists' Association, American Dental Assistants' Association, American Association of Dental Schools, and the American Association of Dental Examiners to share ideas and concerns about the program.

In December 1976, after the enactment of the Health Professions Educational Assistance Act of 1976 (P.L. 94-484), the Secretary invited the above-listed organizations to submit comments on the interpretation of this amendment to the Act providing support for programs for the training of expanded function dental auxiliaries and their ideas on the objectives of the program. Their responses were supportive of the existing guidelines, so the Department used them as the basis for the regulations implementing the revised program.

In addition, the Secretary published for public comment a Notice of Intent to publish regulations for programs for the training of expanded function dental auxiliaries in the FEDERAL REGISTER on March 22, 1977 (42 FR 15433), and also requested advice on program development in the "Health Resources News" of March, 1976 (vol. 4, No. 8). In response, the Secretary received numerous comments from professional organizations, as well as institutions, agencies, and individuals, which were considered in drafting program specifications. Furthermore, a draft of the program specifications was made available at the June 7, 1977, meeting of the National Advisory Council on Health Professions Education, and members of the Department met with representatives and individuals of dental organizations to discuss the specifications.

In sum, the Secretary believes that the Department fulfilled the statutory requirement of consulting with professional organizations in the development of regulations for programs for the training of expanded function dental auxiliaries, and is therefore publishing them as final regulations.

(2) One comment objected to § 57.3303(a) of the regulations, which requires that an entity which conducts an expanded function dental auxiliaries training program be accredited by the Commission on Accreditation of Dental and Dental Auxiliary Educational Programs. The basis of this objection was that section 701(8), the authorizing statute, does not place this limitation on eligibility, and that there is no evidence that programs which do not have this accreditation do not merit grant support.

The Secretary is unable to accept this comment because it is his view that this restriction on eligibility is justified in this discretionary grant program to assure the quality of the programs supported under this authority. The Commission on Accreditation of Dental and Dental Auxiliary Education Programs is the body recognized by the Commissioner of Education, Department of Health, Education, and Welfare, for accrediting programs for training dental auxiliaries; therefore, the Secretary believes that this requirement is a reasonable means of establishing the educational standards of programs.

(3) Another comment objected to § 57.3303(n), which sets forth minimum curriculum requirements for programs for the training of expanded function dental auxiliaries, as related to functions permissible under State law or authorized by the Board of Dentistry of the State in which the program is located. The objection was based on the concern that this requirement may create the appearance of Federal endorsement of restrictive State laws.

It is the Department's position that § 57.3303(n) establishes minimum curriculum requirements for programs for the training of expanded function dental auxiliaries but neither supports nor opposes State laws regarding dental functions that may be delegated to dental auxiliaries. It is reasonable to state this provision in terms of functions permissible under State law in order to require training in useful skills because State law governs the scope of functions that may be delegated to dental auxiliaries. To clarify the intent of this provision, the Department has added the words "At a minimum" to § 57.3303(n)(1) of the final regulations.

In addition, the Department has made many minor editorial and technical changes in the regulations for clarity.

Accordingly, a new Subpart HH is added to 42 CFR Part 57 and is adopted as set forth below.

Dated: November 3, 1978.

CHARLES MILLER,
Acting Assistant Secretary for Health.

Approved: January 2, 1979.

Joseph A. Califano, Jr.,
Secretary.

Subpart HH—Programs for the Training of Expanded Function Dental Auxiliaries

Sec.
57.3301 Purpose.
57.3302 Definitions.
57.3303 Requirements.

AUTHORITY: Sec. 215 of the Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. 216); sec. 701(8) of the Public Health Service Act, 90 Stat. 2247 (42 U.S.C. 292a(8)).

Subpart HH—Programs for the Training of Expanded Function Dental Auxiliaries

§ 57.3301 Purpose.

Section 701(8)(B) of the Public Health Service Act (42 U.S.C. 292a(8)(B)) requires the Secretary of Health, Education, and Welfare to prescribe regulations for programs for the training of expanded function dental auxiliaries. The purpose of this subpart is to comply with this requirement.

§ 57.3302 Definitions.

For purposes of this subpart:

"Academic year" means the approximately 9-12 month period of time during which the program is in session.

"Basic education program" means a dental assisting or dental hygiene education program accredited by the Commission on Accreditation of Dental and Dental Auxiliary Education Programs in which the existing course of study is modified to include additional preparation in expanded functions, preventive dentistry, and techniques to modify patient behavior.

"Dental assistant" means an individual who assists the dentist with the clinical, laboratory, or business operation of a dental practice and provides services to patients as may be delegated and supervised by the dentist in accordance with the law of the State in which the individual is employed.

"Dental auxiliary" means a dental assistant or dental hygienist.

"Dental hygienist" means an individual who is trained and licensed to provide preventive and therapeutic direct patient care services as may be delegated and supervised by the dentist in accordance with the law of the State in which the individual is employed.

"Expanded function dental auxiliaries" means dental assistants and dental hygienists who, by successfully completing a training program which meets the requirements of this subpart, are qualified to perform, under the supervision of a dentist, a new or wider range of clinical functions and direct patient care procedures.

"Four-handed, sit-down dentistry" means a mode of dental practice which encourages the efficient use of dental assistants and dental hygienists to assist the dentist or operating dental auxiliary in a manner that maximizes patient and operator comfort, saves time, and increases the potential productivity of the practice while maintaining the quality of dental care. This chairside assistance includes, but is not limited to, the following:

(1) Preparation for patient treatment;

V 4 4 / 1 5 J A 2 2 7 9 UMI

(2) Chair positioning of patient, operator, and dental auxiliary;
(3) Use of prearranged sterilized instrument trays;
(4) Effective hand instrument exchange techniques;
(5) Standardized sequential usage of instruments;
(6) Use of water, air, and oral evacuation equipment to maintain a clear field of operations; and
(7) Preparation and delivery of restorative and other treatment materials required for the procedures.

"Full-time student" means a student who is enrolled in a program for the training of expanded function dental auxiliaries and pursuing a course of study which constitutes a full-time academic workload, as determined by the program.

"Preventive dentistry" means a method of practice and patient management that included a series of diagnostic, corrective, and disease preventive procedures, including patient education and motivation, that results in the establishment and maintenance of oral health in patients.

"Program director" means the individual responsible for providing competent direction of the program

"Supervised clinical practice" means direct participation by students in patient care by observation, examination, and performance of procedures as are appropriate for the assigned role of the student for the purposes of instruction, under the direction and responsibility of a licensed dentist who holds a faculty appointment at the institution conducting the program.

"Supplemental education program" means a program which provides training designed to extend the knowledge and skills of practicing dental auxiliaries so that they achieve clinical proficiency in expanded funtions, preventive dentistry, and techniques to modify patient behavior.

§ 57.3303 Requirements.

An education program which trains expanded function dental auxiliaries must:

(a) Be conducted by a school of dentistry or other public or nonprofit private entity accredited by the Commission on Accreditation of Dental and Dental Auxiliary Education Programs;
(b) Offer expanded function training in a basic education program or a supplemental education program, or both;
(c) Have an enrollment of not less than eight full-time students in each class;
(d) Be a minimum of one academic year in length;
(e) Consist of supervised clinical practice and at least four months (in the aggregate) of classroom instruction;
(f) Have a project director who is a full-time faculty member at the institution conducting the program;
(g) Have faculty who are qualified, through academic preparation and experience, to teach the subjects assigned and who are experienced in four-handed, sit-down dentistry;
(h) Have faculty for laboratory and clinical instruction who are competent in laboratory procedures and experienced in clinical practice;
(i) Have, in the supervised clinical practice sessions, a faculty-to-student ratio of one faculty member to no more than six students;
(j) Have adequate teaching facilities with sufficient space for instruction and practice in four-handed, sit-down dentistry techniques and expanded function procedures and be adequately equipped with functioning modern equipment;
(k) Have appropriate settings for the supervised clinical practice sessions which must be provided by the institution conducting the program or through written agreements with other institutions, agencies or organizations;
(l) Have adequate library, audiovisual, and other instructional resources;
(m) Before providing training in expanded functions, (1) require students to demonstrate clinical proficiency in the techniques of four-handed, sit-down dentistry or (2) train students to clinical proficiency in these techniques;
(n) Have a curriculum which provides for classroom instruction, preclinical laboratory instruction, and supervised clinical practice designed to train students to clinical proficiency in the performance of:
(1) At a minimum, all dental functions that may be delegated to dental auxiliaries under the law of the State in which the program is located; or
(2) In addition to the functions described in paragraph (n)(1) of this section, the expanded functions that may be taught by the program with the written concurrence of the Board of Dentistry of the State in which the program is located, for purposes such as preparing students for employment in other States or for national, regional, or other State credentialing.
(o) If is a supplemental education program, have entrance requirements for students, such as current certification or licensure, or require students to pass an entrance examination designed to determine whether they have the knowledge and skills necessary for achieving clinical proficiency in the performance of expanded functions;
(p) Have a plan and methodology for evaluating student performance, including:
(1) Standards for preclinical performance which students must meet before receiving clinical training; and
(2) Standards for evaluating the performance of expanded functions which are comparable to the standards used to evaluate the performance of the same skills by dental students; and
(q) Award a degree, diploma, or certificate of completion to individuals who have successfully completed the program.

[FR Doc. 79-1315 Filed 1-19-79; 8:45 am]

[6315-01-M]

Title 45—Public Welfare

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

PART 1061—EMERGENCY ENERGY CONSERVATION PROGRAM

Subpart—FY79 Crisis Intervention Program

AGENCY: Community Services Administration.

ACTION: Final rule.

SUMMARY: The Community Services Administration is revising the rule on its FY 79 Crisis Intervention Program. The rule is being revised to reflect comments received from the public. In general the amendments provide for modification of the conditions under which individuals can be served and expansion of the types of situations which can trigger a request for funds under this Program.

DATE: This rule is effective January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

CSA grantees and program beneficiaries: Appropriate CSA Regional Office; Others: Mr. David Robbins or Mr. J. Brian Hannigan, Community Services Administration, Office of Community Action, 1200 19th Street NW., Washington, D.C. 20506. Telephone: (202) 254-6310 or (202) 632-6503; Teletypewriter: (202) 254-6218.

SUPPLEMENTARY INFORMATION: On December 28, 1978, CSA published in the FEDERAL REGISTER (43 FR 60466) a final rule on its FY 79 Crisis Intervention Program with a notation that, although it was effective immediately due to the emergency nature of the Program, CSA welcomed comments and that the rule would be changed to reflect comments if warranted.

A number of comments have been received from the public which CSA believes are important enough to warrant revision of the rule. Subpart 1061.52 is being reprinted in its entirety for the convenience of the public and supersedes the December 28, 1978, regulation. It includes the substantive changes which follow:

SECTIONS 1061.52-2 POLICY AND 106152-10(b)(3) (FORMERLY 1061.52-7(b)(3)) PROGRAM ELIGIBILITY

The rule published December 28, 1978, stated that "• • • the primary intent of the program is to make available to grantees funds which will enable them to respond to winter-related energy crisis which endanger the health and survival of eligible low-income households, *and* result in substantially increased energy costs." (Emphasis added.) This has been changed to read "• • • households *and/or* result in substantially increased energy costs." (Emphasis added.)

This change has been made since we can forsee many situations where an energy crisis could result in life or health threatening situations but would not necessarily bring with substantially increased energy costs. Example: A low-income person, forced to leave home because of a winter emergency such as a non-operating furnace, would require assistance in transportation, clothing, blankets, alternative lodging, etc., but would not be faced with any increase in energy costs.

SECTION 1061.52-8(a)(2) (FORMERLY § 1061.52-5(f)) SUPPLEMENTAL CRISIS INTERVENTION PROGRAM.

This section includes a new subsection (iv), to indicate that a partial-state emergency will be deemed to exist when the Governor determines that a specified area within a state has experienced daily temperatures for fourteen (14) consecutive days which compute to an average of twenty-five (25) degrees Fahrenheit or less. This subsection has been added to make eligible colder sub-state areas, for which degree day data may not be available, in those states which as a whole do not qualify for supplemental assistance.

The following additional supplementary information is reprinted from the original announcement of the rule: Section 222(a)(5), the "Emergency Energy Conservation Services" program describes programs and activities for which the Director may provide financial assistance to "• • • lessen the impact of the high cost of energy on (low income individuals and families, including the elderly and the near poor) and to reduce individual and family consumption." Included are activities related to crisis intervention, that is, intervention to prevent or alleviate hardship or danger due to a winter energy crisis. Activities initiated under this section of the Act are also governed by the basic purpose of Title II which is to "• • • stimulate a better focusing of all available local, state, private, and federal resources upon the goal of enabling low-income families, and low-income individuals of all ages, in rural and urban areas to attain the skills, knowledge, and motivations and secure the opportunities for them to become fully self-sufficient." These legislative goals were used by CSA as the major guideline in developing the rule which will govern its FY79 program to address poor people's winter-related energy emergencies.

CSA is not, and was not created to be, a Federal agency administering income transfer programs, nor is the intent of its authorizing legislation that any of its programs be such. The program outlined in this rule is in keeping with the intent and spirit of the Economic Opportunity Act of 1964, as amended. This final rule is effective immediately as a thirty day waiting period would be impractical and contrary to the public interest since winter weather now exists and energy-related emergencies may occur at any time • • •.

WILLIAM W. ALLISON,
Acting Director.

45 CFR 1061.52 is revised to read as follows:

Sec.
1061.52-1 Applicability.
1061.52-2 Policy.
1061.52-3 What these funds can be used for.
1061.52-4 Duration of Program.
1061.52-5 Availability and distribution of funds.
1061.52-6 Organizations eligible for funding under this program.
1061.52-7 Regular Crisis Intervention Program.
1061.52-8 Supplemental Crisis Intervention Program.
1061.52-9 Winter-Related Disaster Relief Program.
1061.52-10 Who can be served by this program.
1061.52-11 Reporting requirements for all grants made under this program.
1061.52-12 Appeal for denial of assistance.
1061.52-13 Non-federal share requirement.
1061.52-14 Clearinghouse review procedures (A-95).
1061.52-15 Limitation of project expenditures.
1061.52-16 Maintenance of effort.
1061.52-17 Delegation of Authority.

AUTHORITY: Sec. 602, 78 Stat. 530 (42 U.S.C. 2942).

§ 1061.52-1 Applicability.

This subpart is applicable to grants funded under section 222(a)(5) of the Economic Opportunity Act of 1964, as amended, if the assistance is administered by the Community Services Administration.

§ 1061.52-2 Policy.

CSA's FY79 Crisis Intervention Program is not intended to be an income transfer program; nor does it entitle any person or household to a certain amount and/or form of assistance. Rather, the primary intent of the program is to make available to grantees funds which will enable them to respond to winter-related energy crises which endanger the health and survival of eligible low-income households, and/or result in substantially increased energy costs.

§ 1061.52-3 What these funds can be used for.

(a) Funds made available under this program shall be used only to assist low-income families who experience substantially increased energy costs and/or face life or health threatening situations caused by winter-related energy emergencies.

(b) Funds shall be used to cover such items as blankets and warm clothing, temporary loan of space heaters, emergency furnace repairs, emergency firewood and fuel deliveries, temporary shelter, food and other supportive services, emergency replacement of broken window panes, and temporary/emergency repairs to housing otherwise unfit for habitation.

(c) During FY 1979, payment of outstanding bills of regulated utilities is allowable only in those areas where shutoffs are not legally prohibited and where the applicant for assistance can produce a notice to disconnect. Payment of other outstanding fuel bills is allowable only where: (a) The applicant has less than one (1) week's supply of fuel; (2) the fuel cost or usage is significantly higher for the applicant; (3) the local administering agency certifies that it has been unable to arrange for further fuel delivery without payment; and (4) the applicant establishes an inability to pay for the fuel. However, in life or health threatening situations, the local administering agency may waive, in writing, criterion (2) above, concerning fuel cost or usage.

(d) Fuel and utility bills shall include, but not be limited to, those for operating cooking stoves, furnaces, space heaters, and wood-burning stoves. Telephone, Cable-TV, and other non-energy bills are not eligible for payment. Grantees and local administering agencies shall not exclude any energy-related or fuel expense from coverage under this program except as provided above.

(e) Money assistance will be limited to voucher payments and payments made directly to suppliers of fuel or other assistance.

(f) No funds made available under this program shall be used to reimburse States for assistance provided to

V 4 4 / 1 5 JAN 22 79 UMI

low-income households in response to winter-related emergencies.

(g) The restrictions of paragraph (c) of this section apply only to payment of outstanding fuel and utility bills. Where a local administering agency determines that an income-eligible household is experiencing an energy-related crisis which is endangering life or health, assistance as outlined in paragraph (b) of this section *other than* the payment of outstanding fuel and utility bills, shall be allowable in response to the household crisis.

§ 1061.52-4 Duration of program.

(a) Grants will be effective January 1, 1979.

(b) No grant funds may be committed by grantees to provide assistance to certified households after May 31, 1979. Administrative funds may be committed until June 30, 1979.

(c) All grants will have a termination date of June 30, 1979.

(d) Grant funds which remain uncommitted by the grantee after June 30, 1979 shall be deobligated and returned by check to CSA for refund to the U.S. Treasury.

§ 1061.52-5 Availability and distribution of funds.

(a) Since funds for this program are available near the beginning of the heating season, it has been possible this year for CSA to design, and the grantees to put in place, a program which can stress preventive activities in addition to those which deal with crisis and disaster situations.

(b) Under certain circumstances, there are areas of the country whose normal winter weather may be severe enough to cause severe energy-related winter emergencies which cause hardships for poor people. In addition there are conditions which seriously aggravate such hardships, such as unusually cold weather or precipitous increases in fuel or utility prices. Finally, there are unforeseen winter emergencies which result in low-income people needing immediate attention and assistance, such as a Federally-declared winter-related disaster or unusually cold weather which leaves eligible households without access to food, fuel, or utilities.

(c) To deal with all of these situations—the foreseen and the unforeseen—CSA will make funds available immediately for use at the local level and create a Director's national contingency fund to be available for demonstrated need in both those areas receiving initial funding and in other areas. Following are the procedures for applying for and distributing funds, and the criteria for funding.

§ 1061.52-6 Organizations eligible for funding under this program.

(a) CSA intends these funds to be used by Community Action Agencies to carry out activities under this program. The only anticipated exceptions will be agencies identified by CSA to serve non-CAA covered areas, Migrant and Seasonal Farmworkers or Native Americans. Grantees may enter into delegate agency agreements with other agencies to carry out part or all of the work program.

(b) There may be a number of States and Territories which will not receive funds under the distribution of crisis intervention funds under § 1061.52-7 below, which may be eligible to apply for funds under §§ 1061.52-8 and 1061.52-9. Therefore, to assist Governors with information and data which will make it possible to respond quickly to emergencies or needs which may arise, CSA is requesting that SEOOs assist Regional Directors in developing within-State allocation percentages, in identifying agencies which would serve areas not served by a CAA, and in developing baseline data that will assist in the analysis of winter-related energy needs.

§ 1061.52-7 Regular Crisis Intervention Program.

(a) *Allocation and Purpose.* (1) CSA will allocate on a one-time basis for crisis intervention activities $15 million by formula to States or areas within States having population-weighted average (normal) annual heating degree days of three thousand (3,000) or more. (For listing of population-weighted annual heating degree days, by state, see Appendix B.) These funds are in addition to any provided by other CSA programs for crisis intervention assistance.

(2) The Governor in each of these states will be requested CSA Regional Directors in developing a within-state allocation plan, and to recommend agencies which can provide assistance in those areas not covered by a Community Action Agency and where a CAA is not able to do so. Governors also will be requested to waive the thirty day review and disapproval period set out in Section 242 of the Economic Opportunity Act of 1964 as amended.

(3) The total one-time grant will also include the greater of an additional $8,000 per grantee, or an amount equal to fifteen percent (15%) of the crisis intervention funds, for administrative costs.

(b) *Application Process.* (1) Based on the results of the within-state allocation process described above, CSA Regional Directors will review and approve Form 314, Statement of CSA Grant.

(2) Special conditions will be attached to all grants, requiring submission, within 30 days of the obligation date of the grant, of a CSA Form 419, Summary of Work Programs and Budget.

§ 1061.52-8 Supplemental Crisis Intervention Program.

(a) *Purpose.* Realizing that some areas of states will have needs greater than those which can be met with the resources available through the regular crisis intervention grants, CSA will make available, *on a one-time basis* unless waived by the Director, additional crisis intervention funds to States and localities which can demonstrate the presence of a winter-related energy need. Such a winter-related energy need will be deemed to exist when the Govenor of a State:

(1) Has declared that a winter-related energy emergency exists, and as a result of such declaration substantial state funds are made available to provide energy emergency assistance to low-income households; *or*

(2) Determines that the emergency exists because:

(i) There is within the State a shortage or unavailability of normal fuels on a temporary or permanent basis to low-income households, causing extraordinary expense—because of the necessity for purchase and delivery of fuel on an emergency basis, or substitution of alternative fuels; *or*

(ii) There has been within the State or an area within the State an increase of twenty percent (20%) or more in the price of a major fuel or utility service since May 1, 1978; *or*

(iii) The State or an area within the State is experiencing excessively cold weather that represents, any time after January 1, 1979, *both* a cumulative total of population-weighted heating degree days for the year beginning July 1, 1978, which is at least three hundred (300) heating degree days higher than the normal cumulative total for that date, *and* at least six hundred (600) heating degree days for the month or four-week period for which assistance is requested; *or*

(iv) A specified area within a state is experiencing daily temperatures for fourteen (14) consecutive days which compute to an average of twenty-five (25) degrees Fahrenheit or less. This subsection qualifies a specific portion of a state for supplemental assistance, *not* the entire state.

(b) *Limitation on Grants.* Once the existence of a winter-related energy need has been determined by the Director of CSA, grants will be made in amounts calculated by CSA to best meet that need in an equitable manner, taking into consideration the existing or potential needs in other areas. Grantees must recognize that

no additional funds for winter-related energy needs will likely be available to them for the balance of the winter season, and that they should plan the use of these resources accordingly. The only anticipated exception would be in the case of funds for Winter-Related Disaster Relief under § 1061.52-9, funds for which are severely limited, and would only be made available after a finding that a disaster has in fact occurred.

(c) *Application Process.* (1) Eligible grantees will ask the Governors of their States to make a determination that a winter-related energy need exists in their area, and to request the Director of CSA to provide funds to meet the needs. (Governors will initiate requests for areas not served by a CAA.) The request will include a description of the extent of the need, a description of the basis for the determination that the need exists, a finding that there is a lack of readily available resources to meet that need, the amount and type of funding committed by the State for energy emergency assistance, and identification of areas within the State in which the need exists. The SEOO will advise the Governor of the accuracy of the data on which the request is based.

(2) The Governor of any State may, without a request from any eligible grantee within the State, initiate a request to the Director of CSA for assistance to the entire State or any area within the State on the basis of a determination of need as set forth in paragraphs (a) (1) and (2), of this section. Such requests shall include the elements described in subparagraph (1) of this paragraph.

(3) Upon the approval of a Governor's request by the Director of CSA, CSA Regional Directors will be immediately requested to supplement the grants of existing CSA Crisis Intervention grantees in the area covered by the request. In the case of requests from Governors of States which have not previously received funds under this program, CSA regional offices may make new grants to Community Action Agencies in the affected area (or in the case of an area not served by a CAA, to other eligible grantees recommended by the Governor of the State). CSA Regional Directors may authorize existing CSA grantees to transfer needed funds from other program accounts, pending receipt of grant funds. Such authority will be limited by CSA Regional Directors to transfer of an amount no greater than the amount of the anticipated grant. If the grant is finally approved, funds thus transferred will be reimbursable with grant funds.

(4) Grantees may expend up to ten percent (10%) of grant funds for administrative and program support costs. In the case of grantees not previously having received funds under § 1061.52-7, Regular Crisis Intervention Program, the provisions of § 1061.52-7(a)(3) apply.

§ 1061.52-9 Winter-related disaster relief program.

(a) *Purpose.* Funds will be available to deal with situations which arise from winter-related disasters creating energy emergencies in any section of the country to assure that low-income needs are met pending receipt of other disaster resources. This is seen as short-term, gap-filling assistance, designed to meet the immediate disaster-related energy needs of the poor and the elderly. These funds may be used for all activities outlined in § 1061.52-3, including payment of utility and fuel bills during the disaster period, *if there is no other way of meeting the needs of eligible households.*

(b) *Application Process.* (1) When a Governor requests the declaration of a winter-related disaster by the Federal government, that request may also be used as the basis for a request for aid from CSA to assure that low-income people facing life and health threatening conditions in the affected State will receive immediate assistance. Such a request shall be made to the appropriate CSA Regional Director for transmittal to the Director of CSA. The request shall indicate the extent of the need, the agencies which are to receive the funds, and the views of the State.

(2) If, after consultation with the Federal Disaster Assistance Administration (or its successor), the Director determines that a winter-related disaster has created conditions which will endanger the health of and/or cause severe hardship to eligible low-income individuals and households, CSA will immediately inform by telegram the Governor and the appropriate CSA Regional Office of the amount of funds available for the affected disaster area. CSA Regional Directors will be requested to supplement grants of existing CSA Crisis Intervention Grantees in the disaster affected area. In states or areas of states which have not previously received funds under this program, CSA Regional Offices will make new grants to Community Action Agencies in the disaster affected area or, in the case of an area not served by a CAA, to other eligible grantees recommended by the Governor of the State. CSA Regional Directors may authorize existing CSA grantees to transfer needed funds from other program accounts, pending receipt of grant funds. Such authority will be limited by CSA Regional Directors to transfer of an amount no greater than the amount of the anticipated grant. If the grant is finally approved, funds thus transferred will be reimbursable with grant funds.

(3) Grantees may expend up to ten percent (10%) of their Disaster Relief Grant funds for administrative and program support costs.

§ 1061.52-10 Who can be served by this program.

(a) Applicants for assistance who have access to direct assistance through other supportive service networks such as welfare may only receive assistance under this program where the grantee or local administering agency has determined that such other service networks cannot respond in a timely and effective manner.

(b) All households assisted by this program must meet both income and program eligibility requirements.

(1) *Income eligibility.* (i) Individuals and households whose income is no higher than 125% of the CSA poverty guidelines. (See Appendix A for income chart);

(ii) Individuals of age 60 and above, whose income does not exceed 125% of the CSA poverty guidelines and/or elderly individuals and couples (age 60 and over) who receive Supplementary Security Income (SSI). (See Appendix A for income chart).

(2) *Determination of income eligibility required of grantees.* Proof of income eligibility is required. The period for determining eligibility will be not more than 12 months nor less than the 90 day period preceding the request for assistance. If proof of income eligibility is unobtainable by the local administering agency, applicants may qualify for *other than money assistance in the paying of outstanding bills* by signing a certification of income eligibility; but no payment of outstanding bills shall be allowable without proof of income. In cases where income eligibility is based on a certification, grantees must make a reasonable number of recorded spot checks to verify income eligibility and so advise applicants in advance by printing such a notice on the application, together with reference to 18 U.S.C. 1001.

(3) *Program eligibility.* If a household meets income eligibility guidelines, program eligibility must be established before the household is eligible to receive assistance under this program. That is, the household must be experiencing an energy-related crisis which is endangering life or health and/or results in substantially increased energy costs.

(i) As noted in paragraph (a) of this section, applicants for assistance who have access to direct assistance through other supportive service networks such as welfare may only receive assistance under this program where the grantee or local administer-

V 4 4 / 1 5 J A 2 2 7 9 UMI

ing agency has determined that such other service networks cannot respond in a timely and effective manner. As part of this determination, local administering agencies have an affirmative responsibility to assure that applicants have received the full measure of support that is due them from the supportive networks noted in paragraph (a) of this section before providing assistance under this program.

(ii) There are, in effect, two levels of program eligibility under this program, depending on the type of assistance provided. As noted in § 1061.52-3, to be eligible for assistance in payment of an outstanding utility or fuel bill, the applicant must have received a notice of shut-off, or, in the case of non-regulated fuel, have less than one week's supply of fuel on hand. In the latter case the local administering agency must certify that it has been unable to arrange for further fuel delivery without at least partial payment of the outstanding bill. In addition, local administering agencies must either verify the applicant's existing supply of fuel through on-site inspection or contact with the applicant's fuel dealer, or obtain a statement from the applicant as to the supply. In the latter case the agency must spot-check through on-site inspection a reasonable number of such statements.

(iii) The above restrictions are not applicable with regard to the provision of assistance *other than* the payment of outstanding fuel and utility bills. At the same time, if income-eligible families have ample supplies of fuel, and are *not* faced with another type of crisis such as an inoperative furnace or broken water pipes, they are not eligible for assistance under this program *just because* they have large energy bills outstanding. If, on the other hand, a family has paid at great sacrifice a large energy bill and as a result has insufficient money to buy needed food or other necessities, then they would be eligible for assistance.

(4) *Priorities.* Priority shall be given to persons facing life threatening situations and to elderly persons (age 60 and over) who meet all eligibility requirements.

(5) *Income disregard.* No payment made under this program shall be considered income for the purpose of determining eligibility for benefits or level of benefits under another program of assistance, including, but not limited to, public assistance, veterans benefits, food stamps, Supplemental Security Income, Medicaid-only, Indo-China Relief, or The WIC Program.

§ 1061.52-11 Reporting requirements for all grants made under this program.

(a) *Financial reporting.* Activities carried out under this program shall be reported as part of grantee's regular SF-269. Grantees shall follow normal procedures for submission of the SF-269, i.e., one copy to the appropriate CSA Regional Office and one copy to Grants Accounting Branch, Finance and Grants Management Division, CSA Headquarters, 1200 19th Street NW., Washington, D.C. 20506.

(b) *Project progress review reports.* Grantees will be required to submit Project Progress Review Reports covering grant activities under this program (CSA Form 440) to the appropriate CSA Regional Office with a copy forwarded to CSA Headquarters, Attention: Energy Progams. Reports will cover activities undertaken during the entire grant period, and will contain a separate narrative account of any assistance provided pursuant to a disaster declared under § 1061.52-5, above. These reports will be due July 1, 1979. The following activities completed during the reporting period shall be addressed in section 1A of the submission:

(1) Total number of households which were assisted under all of the eligible activities of this program. This should be a nonduplicative count, and of this number:

(i) Number of elderly individuals assisted whose income is 125% or less;

(ii) Total number of households whose outstanding utility/fuel bills were paid in whole or in part, and total dollar amount obligated for this purpose; and of that number of households, total number whose outstanding utility/fuel bills exceeded $250;

(iii) Total number of households which received other forms of emergency energy assistance under this program and total amount obligated for this purpose;

(2) Total number of individuals residing in households served as accounted for in subparagraph (1) of this paragraph.

(3) Number of reviews of denials of assistance requested and the results thereof.

§ 1061.52-12 Appeal from denial of assistance.

(a) Each local program operator shall establish and make known to all applicants procedures for review of the denial of assistance under this program to any household or person, which shall include at a minimum:

(1) Written application forms;

(2) Notification in writing of the reasons for denial of assistance, and of the opportunity to submit additional written information which the applicant believes would warrant favorable determination of eligibility;

(3) Provision for review of a denial of an application for assistance by the program operator's executive officer, or his/her designee; and an opportunity for provision of any additional information by the applicant; and

(4) Notice in writing of the program operator's final decision on review.

(b) A written description of these review procedures shall be maintained on file by the program operator and available for public inspection.

§ 1061.52-13 Non-Federal share requirement.

The non-Federal share requirements are waived for all Crisis Intervention activities under Program Account 80.

§ 1061.52-14 Clearinghouse review procedures (A-95).

CSA has requested and received on January 8, 1979, from the Office of Management and Budget (OMB), a waiver of the clearinghouse review procedures required under OMB Circular A-95. However, grantees are required to submit an information copy of all application(s) required under § 1061.52 to the appropriate clearinghouse(s).

§ 1061.52-15 Limitation of project expenditures.

(a) *Limitation on payments to any eligible household.* The sum of all forms of assistance made to and/or on behalf of any eligible household during this program may not exceed $250 in any fiscal year.

(b) *Recovery of unobligated funds.* CSA retains the authority to recover grant funds at any time sums remain uncommitted to eligible households.

(c) Prohibition against transfer to another grant. Funds remaining unobligated may not be transferred by the grantee to another grant.

(d) *Overexpenditures.* If the grantee incurs expenditures in excess of the total amount of the approved grant, the amount of the overexpenditure must be absorbed by the grantee.

(e) *Procurement.* In accordance with OMB Circulars A-110 and A-102 all proposed sole source contracts where only one bid or proposal is received in which the aggregate expenditure is expected to exceed $5,000 must receive prior approval by the appropriate CSA Regional Office.

§ 1061.52-16 Maintenance of effort.

Services provided with funds made available under this program shall be in addition to and not in substitution for services previously provided without Economic Opportunity Act assistance.

§ 1061.52-17 Delegations of Authority to Regional Directors.

This section provides for the immediate delegation to CSA Regional Directors of authority for final approval of grants under this program. When Section 601(c) was added to the Economic Opportunity Act, its last sentence prohibited the delegation of final approval of grants and contracts to any regional offical after June 15, 1975. In the Economic Opportunity Amendments of 1978, this provision, which had proved to be administratively burdensome, was repealed and a requirement to promulgate rules and regulations for final approval of grants and contracts was substituted. The Community Services Administration fully intends to issue comprehensive regulations on this subject in the near future. However, in view of the fact that activities under this program will be undertaken to deal with winter-related energy *emergencies*, maximum efficiency in the processing of grants is immediately required. To achieve this administrative efficiency, it is necessary to return final grant-making power to Regional Directors for this program effective immediately.

APPENDIX A.—COMMUNITY SERVICES ADMINISTRATION

CSA POVERTY INCOME GUIDELINES FOR ALL STATES EXCEPT ALASKA AND HAWAII

Size of family unit	Non-farm family (125%)	Farm family (125%)
1	$3,925	$3,363
2	5,200	4,438
3	6,475	5,513
4	7,750	6,588
5	9,025	7,663
6	10,300	8,738

(For family units with more than 6 members, add $1,275 for each additional member in a nonfarm family and $1,075 for each additional member in a farm family.)

CSA POVERTY GUIDELINES FOR ALASKA

Size of family unit	Non-farm family (125%)	Farm family (125%)
1	$4,925	$4,225
2	6,513	5,563
3	8,100	6,900
4	9,687	8,238
5	11,275	9,575
6	12,863	10,913

(For family units with more than 6 members, add $1,588 for each additional member in a nonfarm family and $1,338 for each additional member in a farm family.)

CSA POVERTY GUIDELINES FOR HAWAII

Size of family unit	Non-farm family (125%)	Farm family (125%)
1	$4,525	$3,913
2	5,987	5,138
3	7,450	6,363

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 79-14]

PART 0—COMMISSION ORGANIZATION

Change in Name of Office of Chief Engineer to Office of Science and Technology

AGENCY: Federal Communications Commission.

ACTION: Amendment of rules.

SUMMARY: This amendment changes the rules to reflect the Commission's decision to change the name of the "Office of Chief Engineer" to "Office of Science and Technology." The Commission has also determined that the head of this Office should be designated as the FCC's "Chief Scientist."

EFFECTIVE DATE: May 1, 1979.

V 4 4 / 1 5 J A 2 2 7 9 UMI

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Bernard I. Kahn, Office of Executive Director, 632-7513.

SUPPLEMENTARY INFORMATION:

Adopted: January 12, 1979.

Released: January 19, 1979.

Order. In the matter of Amendment of the Commission's rules and regulations to reflect a change in the name of the Office of Chief Engineer to the Office of Science and Technology.

1. In response to the rapid and profound changes in technology experienced in recent years and expected to continue during the next decade, the Commission has determined that the name of the "Office of Chief Engineer" should be changed to the "Office of Science and Technology" and that the head of this office should be designated as the FCC's "Chief Scientist" rather than the FCC's "Chief Engineer." This change in name reflects the Commission's recognition that present and future developments in the broad field of communications require intensive study of applied and basic science and technology. The change will help to promote mutually supportive efforts in several fields of study, the physical sciences as well as engineering and electronics.

2. This change in the title of the unit primarily responsible for the Commission's research and engineering activity signifies the Commission's commitment to scientific and technical studies in all phases of communications. Implementation of this change requires the amendment of several portions of the FCC rules and regulations, most notably §§ 0.5(a)(2), 0.5(b)(2), 0.31, 0.32, 0.33, 0.241, and 0.243. All references in these sections to "Office of Chief Engineer" are hereby changed to read "Office of Science and Technology." Similarly, all references to "Chief Engineer" are changed to read "Chief Scientist." Editorial changes will also be necessary in other parts of the Commission's rules and regulations to complete the transition to Office of Science and Technology. These additional changes will be addressed in another order to be released in the near future.

3. The amendments adopted herein pertain to agency organization. The prior notice, procedure, and effective date provisions of section 4 of the Administrative Procedure Act, 5 U.S.C. 553, are therefore inapplicable. Authority for the amendment being adopted is contained in sections 4(i) and 5(b) of the Communications Act of 1934, as amended.

4. In view of the foregoing: *It is ordered*, Effective May 1, 1979, that Part 0 of the rules and regulations is amended as set forth below.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082 (47 U.S.C. 154, 155, 303).)

Part 0 of Chapter I of Title 47 of the Code of Federal Regulations is hereby amended as indicated below:

In §§ 0.5(a)(2), 0.5(b)(2), 0.31, 0.32, 0.33, 0.241, and 0.243, all references to "Office of Chief Engineer" are changed to read "Office of Science and Technology" and all references to "Chief Engineer" are changed to read "Chief Scientist."

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Yermo and Mountain Pass, California; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and Order and Memorandum Opinion and Order.

SUMMARY: This action assigns Class B channels to Mountain Pass, California and to Yermo, California, to provide for a first local service to each. The assignments will also permit service to be provided to large unserved and underserved areas. In addition, an estimated eight million travelers along Interstate 15 will receive service from the proposed stations.

EFFECTIVE DATE: February 26, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mark N. Lipp, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION: A petition to assign Channel 258 to North Las Vegas, Nevada, has been dismissed.

REPORT AND ORDER AND MEMORANDUM OPINION AND ORDER—PROCEEDING TERMINATED

Adopted: January 12, 1979.

Released: January 17, 1979.

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations (Yermo and Mountain Pass, California), BC Docket No. 78-129, RM-3008, RM-3009, RM-3143.

1. The Commission has before it the revised *Notice of Proposed Rulemaking*, 43 FR 17979, adopted April 28, 1978, proposing the assignments of FM Channel 251 to Yermo, California, and FM Channel 258 to Mountain Pass, California. Comment and reply comments were submitted by petitioner, KIXV, Inc.[1] Opposing comments and reply comments were received from Mojave Valley Broadcasting, Inc., licensee of Station KWTC(AM) and permittee of Station KWTC-FM, Barstow, California.[2]

2. In the *Notice*, we acknowledged that the instant proposals did not conform to our policy of assigning Class B channels to large communities, but that a showing of service to unserved and underserved areas might justify the assignments. Thus petitioner was asked to revise its showings to support the proposals. In addition, data was requested as to the availability of FM channels to precluded communities. As for Mountain Pass more information was requested on its status as a community.

3. Yermo (pop. 1,304),[3] is located in San Bernardino County (pop. 682,233), approximately 18 kilometers (11 miles) east of Barstow, and approximately 144 kilometers (90 miles) west of the California-Nevada border on Interstate Highway 15. It has no local aural service.

4. Mountain Pass (pop. est. 250-260)[4] is also located in San Bernardino County, approximately 16 kilometers (10 miles) west of the California/Nevada border on Interstate Highway 15. It also has no local aural service.

5. Petitioner states that the purpose of the Yermo and Mountain Pass proposals is to provide a first aural service to a 150-mile stretch of highway (Interstate 15) between Barstow, California and Las Vegas, Nevada. Petitioner has estimated that an estimated eight million people travel along the highway each year. As for Mountain Pass, petitioner indicates that it is essentially a mining town, with the principal employer being Molycorp, which is engaged in mining Molybdenum. The permanent population is said to be 250-260 persons and services are provided to those residents by the county and by Molycorp. Petitioner also notes that Mountain Pass has its own post office and zip code (92366), a 15-man volunteer fire department and is part of the Baker-Mountain Pass school district. A road sign on Interstate 15 identifies the community as "MOUNTAIN PASS; ELEVATION 4,721 FEET, POPULATION 250," according to petitioner. With respect to the need for a radio station, we are told that Mountain Pass receives no broadcast services during the day from any California stations, that there is no newspaper delivery, and cable television carries only Las Vegas stations. Petitioner relates that an FM station at Mountain Pass operating with maximum Class B facilities would provide the following services:

	Pop.	Approximate area Sq. Km.	Sq. Mi.
1st FM	671	6,055	2,329
2nd FM	91	517	199
1st nighttime aural	427	3,367	1,295
2nd nighttime aural	288	2,688	1,034

As for preclusion petitioner states that the only affected community without local service is Eagle Mountain to which Channel 249A is available for assignment.

6. Regarding Yermo, the need for service is again expressed by petitioner in terms of the absence of local service to residents and service to travelers on Interstate 15. A wide-area coverage channel is requested for Yermo to provide the following services (again assuming maximum facilities):

	Pop.	Approximate area Sq. Km.	Sq. Mi.
1st FM	2,416	6,282	2,416
2nd FM	25,764	1,812	697
1st nighttime aural			
2nd nighttime aural	6,826	5,764	2,217

Petitioner has shown that other FM channels are available to communities over 1,000 population and without local service which would be precluded by the Yermo assignment.[5]

7. In opposition, Mojave Valley contends that a Class B channel should not be assigned to either Yermo or Mountain Pass since neither community is large enough to qualify for a wide-area coverage station under § 73.206(b)(2).[6] In this regard, it argues that the instant proposals are not intended to serve the requested communities but instead seek to serve a portion of the general public traveling along a highway. Moreover, Mojave Valley suggests that the Yermo request is intended to attract advertising from Barstow businesses away from existing Barstow stations. Mojave Valley also notes that the two requests, even if granted with maximum facilities, would leave a 15-mile stretch of highway unserved by the 1 mV/m contour of either station. It is asserted that several Class A stations if prudently located could provide better service to the travelers. Finally, it argues that the assignments should not be granted on the basis of serving a transient population because their needs could not be meaningfully ascertained.

8. In reply comments, petitioner confirms that it will apply to operate both stations with maximum facilities so as to provide optimum service to the Interstate 15 travelers. The 15-mile stretch of highway that would extend beyond the 1 mV/m contour of both stations would receive a minimum of 300 uV/m service, we are told by petitioner. Petitioner reaffirms that its primary interest is the mobile population along Interstate 15 but gives assurance that it will serve the needs of the residents of Yermo and Mountain Pass.

9. The Commission finds that petitioner has demonstrated that an adequate need exists for Class B assignments to Yermo and Mountain Pass. First, as to Mountain Pass, the nature of this place as a mining town provides the commonality of purpose which, as reflected in the services locally provided to the residents and employees, qualifies this place as a community. As such, the town is identified by a road sign and a community post office is assigned to it with a separate zip code number. In terms of need, the population of both communities Yermo and Mountain Pass, is extremely small for a Class B assignment. However, this portion of California near the Nevada border in which they are located is sparsely populated with few significant towns. More important the proposed stations would provide a first and second FM and nighttime aural service. In addition we recognize that the transient population on Interstate 15 also has a need for radio service though this need may well be unrelated to the needs of either Yermo or Mountain Pass. Petitioner admits that the programing of both stations will be primarily directed to the large number of travelers along Interstate 15.[7] Nevertheless, we believe that such a station can also provide an adequate portion of its programing to the community which it is licensed to serve as required by Commission policy. As to opponent's contention that the Yermo proposal will seek advertising from Barstow and become a Barstow station, we do not agree with that assessment. The Yermo request is part of a plan to provide much needed service to a large transient population and the location of Yermo appears to have been selected for this purpose. Thus, there is much public benefit from the proposal and the fact that Barstow will be served should not serve as an impediment.

10. In order to provide optimum service to large unserved and underserved areas, we are conditioning the assignments of Channels 251 and 258 to Yermo and Mountain Pass to the use of maximum facilities. In addition the transmitter site for the Yermo station must be located at least approximately 10 kilometers (6 miles) north-northeast of Yermo to comply with mileage separation requirements.

11. Mexican concurrence in the proposals has been obtained.

12. *Accordingly, it is ordered*, That pursuant to Sections 4(i), 5 (d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules, the FM Table of Assignments (§ 73.202(b) of the Commission's rules) is amended, effective February 26, 1979, with respect to the cities listed below:

[1] The petitioner was identified in the *Notice* as Howard Anderson. Mr. Anderson has formed KIXV, Inc. for purposes of these FM channel assignments. See also 43 FR 31165, July 20, 1978.

[2] In addition, a counterproposal filed by D. Garry Munson and John Charles Larsh, proposing the assignment of FM Channel 258 to North Las Vegas, Nevada, conflicted with the Mountain Pass proposal and was made a part of this proceeding (RM-3143). However, that proposal was later withdrawn and amended to specify a different frequency for North Las Vegas, eliminating the conflict. By a separate letter Munson and Larsh have been advised that this latter proposal has been found unacceptable for filing for failure to comply with the Commission's minimum mileage separation requirements. Since the Channel 258 proposal was withdrawn and not later pursued, we have dismissed the proposal in paragraph 12, *infra*.

[3] Population data is taken from the 1970 U.S. Census.

[4] Population estimate is provided by petitioner in its comments.

[5] Those communities (with the available channels noted) are as follows: China Lake (244A); Fort Irwin (221A); Searles Valley (228A); Nebo Center (257A); Kerwood (261A); California City (237A).

[6] Section 73.206(b)(2) states that a Class B station "* * * is designed to render service to a sizeable community * * * or to the surrounding area."

[7] Although a 15-mile segment of Interstate 15 will not be provided 1 mV/m service, the signal intensity will reach a minimum of 300 uV/m in this area which is a level of service recognized by the Commission as adequate in rural areas, in the absence of interference from other stations, as is the case here.

City and Channel No.

Mountain Pass, California, 258,[1]
Yermo, California, 251.[1]

13. *It is further ordered,* That the proposal of Munson and Larsh to assign Channel 258 to North Las Vegas, Nevada (RM-3143) is dismissed.

14. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307))

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Permitting of Ship Radiotelegraph Stations To Communicate With Amateur Stations

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document deletes certain sections of the Commission's rules and regulations relating to the granting of licenses, modification of licenses, renewal of licenses, or special temporary authorizations permitting ship radiotelegraph stations to communicate with amateur stations. These rules no longer serve any useful purpose in the present regulatory scheme, consequently, the Commission is deleting them.

EFFECTIVE DATE: February 23, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

John C. K. Hays, Safety and Special Radio Services Bureau, (202-632-7197).

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—(PROCEEDING TERMINATED)

Adopted: January 8, 1979.

Released: January 18, 1979.

In the matter of amendment of Part 83 of the Commission's rules to delete §§ 83.50 and 83.70 which permit ship radiotelegraph stations to communicate with amateur stations, SS Docket No. 78-146.

1. The Commission released a Notice of Proposed Rule Making (43 FR 20249) on May 9, 1978, to delete §§ 83.50 and 83.70 from its rules. Under these sections, the Commission may authorize a ship station on board a vessel used, or intended to be used, for scientific research or expedition, or a vessel not engaged in commerce to communicate by radiotelegraphy directly with licensed amateur stations on land. This authorization may only be granted upon a showing that: (1) Unusual circumstances make direct communications with amateur stations extremely beneficial to persons on board or to persons responsible for the scientific expedition, (2) messages will not relate to commercial communications and (3) no harmful interference will result to stations in the maritime mobile service nor to stations in the radiolocation service.

2. The Commission now believes that these rule sections, which were adopted in 1939, serve no useful purpose under the present regulatory scheme. A review of our license file disclosed that no ship station is presently authorized under these sections to communicate with amateur stations. Moreover, if communications between a vessel and amateur stations are desired, an amateur mobile station, which is a radio installation separate from the ship station, can be operated aboard the vessel: *Provided,* The operator is a licensed amateur and the requirements of §§ 97.101 and 97.114 of the Amateur Rules are observed.

3. Mr. Benjamin Clark of Moncks Corner, South Carolina filed the only comments in this proceeding. In his comments Mr. Clark suggests that the Commission will be reconsidering the subject matter of this proceeding in ten years or less to determine whether amateurs should be permitted to use the Maritime Mobile Service frequencies on a secondary basis. According to Mr. Clark, the Amateur and Maritime Mobile Services are the only two remaining services making extensive use of manual radiotelegraphy, and both services use similar procedures. Within ten years Mr. Clark estimates that there will be over a million amateurs located in all parts of the world, most of whom are skilled and reliable operators. Mr. Clark believes that the use of Maritime Mobile Service bands in the high frequency (HF) part of the spectrum will decrease as ship stations shift their communications to satellites for economic reasons. Mr. Clark suggests that, as coast stations handling HF communications are phased out because of dwindling traffic, it may be wise to allow amateurs to use the Maritime Mobile frequencies on a secondary basis to insure their availability for use by ship stations needing communications and unable to communicate by satellite. Mr. Clark further suggests that it might even be well at this time to include in Amateur Radio Operator Examinations questions from Element 6 of the Commercial examination relative to handling of maritime distress communications to insure that amateurs will know what to do if and when they become a recognized part of the Maritime Mobile Service.

4. After reviewing Mr. Clark's suggestions, we have concluded that they would not benefit either the Maritime Mobile Service or the Amateur Radio Service. One objective of the Commission has been to minimize the possibility of congestion and interference on the maritime frequencies, especially on the medium and high frequencies. While use of manual telegraphy may diminish in the years ahead, we anticipate an increased use of automatic printing equipment on the high frequencies. A significant number of ships will continue to use these frequencies for their long distance communications in lieu of satellites. To allow over a million amateur stations to transmit on the maritime frequencies would result in an enormous amount of congestion and interference, especially on the medium and high frequencies, and would be contrary to this objective of the Commission to reduce congestion and interference on the maritime frequencies. Moreover, we do not believe that amateurs should be required to assume the responsibility of rendering what is essentially a common carrier service to ship stations. Consequently, we will not adopt Mr. Clark's suggestions.

5. For further information on this proceeding, contact John Hays at 202-632-7197.

6. *Accordingly, it is ordered,* That, pursuant to authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Part 83 of the Commission's rules is amended effective February 23, 1979, as set forth below.

7. *It is further ordered,* That this proceeding is terminated.

PART 87—AVIATION SERVICES

Permitting the Use of F2 Emissions by Civil Air Patrol Stations on the Frequencies 143.9 and 148.15 MHz

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action permits Civil Air Patrol stations to use frequency modulated telegraphy signals on two frequencies used only by the Civil Air Patrol. This action was taken at the request of the Civil Air Patrol. As a result of this change the CAP expects to improve its radiocommunications capabilities for the conduct of emergency and training missions.

EFFECTIVE DATE: February 23, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554

FOR FURTHER INFORMATION CONTACT:

Robert McNamara, Safety and Special Radio Services Bureau, (202) 632-7197.

SUPPLEMENTARY INFORMATION:

ORDER—PROCEEDING TERMINATED

Adopted: January 8, 1979.

Released: January 18, 1979.

In the matter of amendment of Part 87 of the rules to permit the use of F2 emissions by Civil Air Patrol stations on the frequencies 143.9 and 148.15 MHz, RM 2134.

BACKGROUND

1. The Civil Air Patrol (CAP), a civilian auxiliary of the United States Air Force, has requested that the Commission amend the rules (1) to permit the use of F2 emissions [1] on the frequencies 143.9 and 148.15 MHz for teleprinter operations, and (2) to exempt Civil Air Patrol station [2] operators from the provisions of § 87.133(a) which require a third-class or higher operator license to operate aircraft radio stations on certain frequencies.

2. The CAP states that as part of a modernization program it is converting from amplitude modulation (AM) equipment to frequency modulation (FM) equipment for voice communications (F3 emissions) on very high frequency (VHF) channels. The authorization of F2 emissions on 143.9 and 148.15 MHz would permit use of the same type of equipment for VHF teleprinter operations as is used for voice communications. The CAP indicates that this would allow it to discontinue the use of older, obsolete AM equipment and improve radiocommunications capabilities for conducting emergency and search and rescue missions as well as training.

3. In addition, the CAP states that CAP stations, apparently, were unintentionally included within the third-class operator license requirements of § 87.133(a)(1). The CAP, therefore, requests CAP stations be exempted from such requirements.

DISCUSSION

4. The two frequencies on which the CAP desires to use F2 emissions are utilized only by CAP stations. Further, although § 87.513 does not provide for the use of F2 emissions, it does permit CAP stations to employ amplitude modulated telegraphy signals (A1 and A2 emissions). Thus, no interference to other classes of stations or users would result from the requested rule change. It also appears that, for practical purposes, new AM equipment is not available in the frequency range of concern to the CAP.

5. In that such a rule change would likely improve the CAP's communications capability in conducting training, as well as emergency and search and rescue missions, we believe the public interest would be served by amending § 87.513 of the rules as requested.

6. However, the CAP's request for an exemption from the provisions of § 87.133(a)(1) [3] which require operators of certain aircraft stations to have a third-class operator license, is unnecessary. The subject provisions of § 87.133(a)(1) relate only to *aircraft* stations. As mentioned above, CAP stations are licensed as a separate and distinct type of radio station under Subpart O of Part 87 of the rules. Such stations may be located in automobiles, boats or aircraft. The platform the station may be located on is not determinative of its class. For example, a citizens band station installed on board a ship does not become a ship radio station. Therefore, CAP station operators may satisfy the operator license requirement by holding a restricted radiotelephone operator permit.

7. In that the amendment of the rules to permit the CAP to utilize F2 emissions on the two specified frequencies will not affect other users or classes of stations, and the amendment is one in which the public is not particularly interested, we find that the notice and procedure provisions of the Administrative Procedure Act, 5 U.S.C. 553, are unnecessary.

8. Regarding questions on matters covered in this document contact Robert McNamara (202) 632-7197.

9. In view of the foregoing: *It is ordered,* That pursuant to the authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, § 87.513 of the Commission's rules is amended as set forth below, effective February 23, 1979.

10. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 87.513 paragraphs (h) and (i) are amended to read as follows:

§ 87.513 **Frequencies available.**

. . . . . .

(h) 143.9 MHz, A1, A2, A3, F2, F3 emission, 30 watts maximum power.

(i) 148.15 MHz, A2, A3, F2, F3 emission, 50 watts maximum power.

[6712-01-M]

[SS Docket No. 78-160; FCC 79-4]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 87—AVIATION SERVICES

Authorizing Broadcasts by Aircraft Radio Stations on Certain Frequencies in Accordance With FAA Recommended Traffic Advisory Practices

AGENCY: Federal Communications Commission.

[1] An F2 emission is defined as telegraphy by the on-off keying of a frequency modulating audiofrequency or by the on-off keying of a frequency modulated emission.

[2] A Civil Air Patrol station is a particular type of radio station which is licensed only to units or headquarters of the CAP under Subpart O of Part 87 of the rules.

[3] The applicable provisions of Rule 87.133(a)(1) read as follows:

"§ 87.133 **General operator requirements.**

(a) Except as provided for in §§ 87.135, 87.139 or as limited on the face of the operator license or permit, all stations in the Aviation Services shall be operated by persons holding any class of commercial radio operator license or permit issued by the Commission: Provided, That (1) Only a person holding a third-class or higher operator permit shall operate *aircraft stations* (i) Utilizing frequencies below 30 MHz not exclusively allocated to the aeronautical mobile service, or (ii) Utilizing frequencies above 30 MHz not allocated exclusively to aeronautical mobile services and which are assigned for international use; and * * *" (Emphasis added.)

V 4 4 / 1 5 J A 2 2 7 9 UMI

ACTION: Final Rule.

SUMMARY: The rules are amended to specifically authorize "broadcasts in the blind" by aircraft radio stations on certain frequencies, in accordance with FAA recommended traffic advisory practices. This action was initiated as a result of a request by the FAA to review its recommended communciations procedures at nontower airports for compliance with the FCC regulations. The rules are intended to clarify any existing uncertainty regarding the compliance of these procedures with the Commission's rules.

EFFECTIVE DATE: February 23, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Robert H. McNamara, Safety and Special Radio Services Bureau (202-632-7197).

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING TERMINATED

Adopted: January 8, 1979.

Released: January 18, 1979.

BACKGROUND

In the matter of amendment of Part 87 of the rules to specifically authorize broadcasts by aircraft radio stations on certain frequencies in accordance with FAA recommended traffic advisory practices, SS Docket No. 78-160. See 43 FR 25150, June 9, 1978.

1. The Federal Aviation Administration (FAA) requested that we review FAA recommended airport traffic advisory practices at nontower airports for compliance with FCC regulations. These advisory communications practices have been recommended by the FAA since the issuance of Advisory Circular AC No. 90-42 in December 1968, and currently are contained in the "Airman's Information Manual." [1] The FAA indicated that recently a question was raised as to whether there possibly was a conflict between these FAA recommended procedures and FCC rules. In the event it was determined a conflict did exist, we were requested to initiate appropriate rulemaking to provide for the continuation of these recommended advisory procedures.

2. The subject FAA recommended airport traffic advisory procedures involve the transmission of an aircraft's position when it is inbound to or outbound from an airport not served by a control tower and, additionally, the airport has (1) a nonfunctioning FAA flight service station (FSS), or (2) no FSS facility and a nonfunctioning aeronautical advisory station (unicom),[2] or (3) no FSS facility and no unicom. The frequency used in the first instance is the assigned FSS frequency 123.6 MHz, in the second, the unicom frequency 122.8 MHz,[3] and in the third the multicom [4] frequency 122.9 MHz. Essentially, this procedure calls for a pilot of an aircraft inbound to an airfield not having an operating ground station to "broadcast in the blind" (that is, transmit information for the benefit of any monitoring aircraft station in the area) his or her position and intentions five miles from the airport and followup with position reports on the downwind, base and final legs of the landing pattern. When outbound the pilot transmits his or her position and intentions prior to taxiing and before taxiing on to a runway for take off. The FAA also recommends similar traffic advisories to be transmitted on the assigned control tower frequency when an airfield's control tower is not operating. The FAA feels that these communciations procedures reduce aircraft collision potential around airports without operating control towers by augmenting visual alertness with audio alertness.

3. The aviation radio service is primarily designed to provide the communications needs for the safe and expeditious operation of aircraft. The assigned frequencies are shared among users. The traffic advisory transmissions recommended by the FAA have not been considered to be in conflict with FCC regulations. Rather, such "broadcasts in the blind" are viewed as communications necessary to the safe operation of aircraft within the meaning of Rule 87.181. However, the Commission's rules do not specifically provide for these aircraft advisory communications. This apparently has lead to confusion on the part of some members of the flying public and the resulting concern of the FAA.

4. Possibly, some of the uncertainty regarding these FAA recommended advisory communciations may have resulted from a decision of the Review Board [5] which was based on the conclusion that the disclosure and use by third persons of communications between an aeronautical advisory station and aircraft is an "unauthorized interception" of communications within the meaning of Section 605 of the Communications Act. Among other things, Section 605 prohibits persons not so authorized from divulging or using for their own or another's benefit radio communications which they have intercepted. Radio communications which are broadcast or transmitted for the use of the general public are specifically excluded from the applicability of the section. Therefore, Section 605 of the Communications Act does not apply to the type of aeronautical communications which are transmitted for the use of members of the general public in the area who monitor such frequencies as a matter of standard operating procedure. To hold otherwise would lead to absurd results and impair aviation safety.

5. In view of the existence of some confusion and uncertainty as to the legality of aircraft stations "broadcasting in the blind" in accordance with FAA recommended traffic advisory procedures, we proposed to amend the rules to specifically state that these FAA recommended transmissions are permitted.[6]

COMMENTS

6. In response to our Notice of Proposed Rule Making in this docket we received three comments and one reply comment. The Experimental Aircraft Association (an international non-profit organization dedicated to the advancement of aviation education, homebuilt aircraft and sport aviation) and Wisconsin's Department of Transportation, Division of Aeronautics fully support the proposed rule amendment. The Wisconsin Division of Aeronautics further indicated that it believed that the FAA recommended advisory procedures are necessary to avoid confusion and potential collisions between aircraft at airports without radio facilities. The Aircraft Owners and Pilots Association (AOPA) which has a membership of more than 200,000 aircraft owners and pilots, opposes the proposed amendment. The FAA filed reply comments in opposition to AOPA's comments.[7]

[1] The Airman's Information Manual is a publication designed primarily as a pilots' operational and instructional manual for use in the National Airspace System of the United States.

[2] An aeronautical advisory station (unicom) is a non-government air/ground radio communication facility located at certain landing areas, which may provide airport advisory information.

[3] The Report and Order in Docket No. 20123, adopted April 5, 1977, 42 FR 20469, 64 FCC 2d 573, amended the Commission's rules to, among other things, make available additional unicom and multicom frequencies. FAA intends to amend the Airman's Information Manual to reflect these changes in the next printing.

[4] An aeronautical multicom station is a non-government radio facility which may provide, on a temporary, seasonal or emergency basis, communications pertaining to the coordination of aerial activities from the ground or ground activities from the air. Also, under certain conditions, a multicom station may provide airport advisory communications.

[7] The time for filing reply comments ended on July 24, 1978. Although FAA's

Footnotes continued on next page

7. In essence, AOPA opposes our proposed amendment on two grounds. The first is congestion on the unicom frequencies. AOPA argues that these transmissions are a major source of congestion on unicom frequencies which continues despite the two additional frequencies made available at uncontrolled airports by the Commission in Docket No. 20123. As a result, AOPA urges that the subject transmissions not be permitted on unicom frequencies so that "normal" unicom communications can be conducted. The second reason for AOPA's opposition is that it views these "broadcasts in the blind" as a do-it-yourself air traffic control system which should be conducted on air traffic control frequencies.

8. In its reply comments FAA states that the purpose of the recommended transmissions is safety, not air traffic control. FAA points out that these communications procedures are also recommended for use on assigned air traffic control frequencies where a control tower or FSS is not operating at an airfield. FAA further indicates that the use of an air traffic control frequency for these transmissions at airfields where the unicom frequency is now recommended, would require pilots to switch back and forth between the unicom frequency and an air traffic control frequency. Thus, pilots in such an airport terminal area would likely miss transmissions of other aircraft in the same area. FAA, therefore, does not concur with AOPA's suggestion of a separate frequency for such communications at such airfields. In regard to the congestion problem experienced on unicom frequencies at nontower airfields, FAA notes that it was instrumental in the Commission's effort in Docket No. 20123 to provide two additional unicom frequencies for use at uncontrolled airports.

DISCUSSION

9. Essentially, AOPA's objections are limited to the use of the unicom frequencies for the subject transmissions. It does not object to "broadcasting in the blind" in principle or on the other frequencies recommended by FAA. As FAA points out in its reply comments, the object of the recommended calls is the safe operation of aircraft. In order for this "aural alertness" procedure to be effective it is necessary that aircraft approaching and departing nontower airports be on the same frequency. The FAA recommended procedure calls for pilots to transmit their position and other pertinent advisory information, in the blind, on the frequency which would normally be used to contact the particular airport (i.e., the local tower frequency, the FSS frequency, the local unicom frequency, or 122.9 MHz when no ground station is located on the airport).

10. We believe that the subject FAA recommended advisory communications practices are within the scope of the Commission's rules. These communications directly relate to the safe and efficient operation of aircraft and, as such, may be transmitted "in the blind" on the appropriate air traffic control, aeronautical advisory or aeronautical multicom frequency for the benefit and use of other aircraft. In regard to the aeronautical advisory (unicom) frequencies specifically, the FAA recommended transmissions are safety related and primarily advisory in nature and, thus, within the permissible usage of these frequencies. The fact that a unicom frequency may become congested in a given area when a unicom station at a nontower, non-FSS airport, is not operating (the recommended procedure does not apply when the station is operating) does not alter the nature of the communications, nor does it appear to require a substantive change in the Commission's interpretation of its rules. However, because of the apparent confusion as to whether the FAA recommended "broadcasts in the blind" are permitted, we feel it is in the public interest to specifically provide for such transmissions in the rules.

11. Further, in addition to the rule amendments proposed in the Notice of Proposed Rule Making in this proceeding, we are also herein amending footnote US 31 to § 2.106 (Table of Frequency Allocations) and § 87.195. These rule changes will provide for the use of unicom frequencies and the multicom frequency 122.9 MHz by air carrier aircraft for the transmission of advisory communications in accordance with FAA recommended procedures. Although only in rare circumstances do air carrier aircraft operate from airfields with only unicom or no radio facilities, the FAA recommended traffic advisory procedures apply generally to all aircraft (both air carrier and private). FCC regulations presently do not allow for the use of 122.9 MHz by air carrier aircraft. These additional amendments to the rules will eliminate this apparent inconsistency between FAA recommended procedures and FCC rules.

12. Regarding questions on matters covered in this document contact Robert McNamara (202) 632-7197.

13. In view of the above: *It is ordered*, That pursuant to the authority contained in Section 4(i) and 303 (b) and (r) of the Communications Act of 1934, as amended, the Commission's rules are amended as set forth below, effective February 23, 1979.

14. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 stat., as amended. 1066, 1082 (47 U.S.C. 154, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Parts 2 and 87 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

A. Part 2—Frequency Allocations and Radio Treaty Matters; General Rules and Regulations:

In § 2.106 the fourth paragraph of footnote US 31 is amended by adding the frequency 122.9 MHz, to read as follows:

§ 2.106 Table of frequency allocations.

* * * * *

U.S. Footnotes

* * * * *

US 31 * * *

Air carrier aircraft stations may use 122.000 MHz for communication with aeronautical stations of the Federal Aviation Administration and 122.700, 122.800, 123.000 and 122.900 MHz for communications pertaining to safety of flight with and in the vicinity of landing areas not served by a control tower.

* * * * *

B. Part 87—Aviation Services:

1. Section 87.181 is amended by adding a sentence at the end of the paragraph, to read as follows:

§ 87.181 Scope of service.

* * * However, aircraft stations may transmit pertinent advisory information on the appropriate air traffic control, aeronautical advisory or aeronautical multicom frequency for the benefit and use of other stations in the aeronautical mobile service lawfully monitoring these frequencies, in accordance with FAA recommended traffic advisory practices.

2. Section 87.195 is amended by adding a sentence to the end of paragraph (f) and new paragraph (g) to read as follows:

§ 87.195 Frequencies available.

* * * * *

(f) * * * In addition these frequencies are available to air carrier aircraft for the transmission of pertinent advisory information in accordance with FAA recommended traffic advisory procedures, for the benefit and use of other stations lawfully monitoring such frequencies. The recommended transmissions are permitted when in-

Footnotes continued from last page

reply comments were not received within the allotted period, we are considering them in this proceeding.

V 4 4 / 1 5 J A 2 2 7 9 UMI

bound to or outbound from an airport that does not have an airdrome control station (control tower) or an FAA flight service station, and the aircraft is unable to establish radio contact with the advisory station located at the landing area.

(g) The frequency 122.900 MHz is available to air carrier aircraft for the transmission of pertinent advisory information when inbound to or outbound from an airport with no radio facility, in accordance with FAA recommended traffic advisory procedures.

3. Section 87.201 is amended by adding two sentences after the frequency list in paragraph (c) and to the end of paragraph (d), to read as follows:

§ 87.201 **Frequencies available.**

* * * * *

(c) * * * 122.700, 122.725, 122.750, 122.800, 122.950, 122.975, 123.000, 123.050 and 123.075 MHz.

Private aircraft may utilize these frequencies to transmit pertinent advisory information in accordance with FAA recommended traffic advisory procedures, for the benefit and use of other stations lawfully monitoring such frequencies. The recommended transmissions on these frequencies are permitted when inbound to or outbound from an airport that does not have an airdrome control station (control tower) or an FAA flight service station, and the aircraft is unable to establish radio contact with the advisory station located on the landing area. * * *

(d) * * * In addition, private aircraft stations may utilize the frequency 122.900 MHz to transmit pertinent advisory information in accordance with FAA recommended traffic advisory practices, for the benefit and use of other stations lawfully monitoring such frequencies. The recommended transmissions on this frequency are permitted when inbound to or outbound from an airport that does not have an airdrome control station (control tower), an FAA flight service station or an aeronautical advisory station located at the landing area.

[Docket No. 20846]

PART 90—LAND MOBILE RADIO SERVICE

Announcement of Effective Date for Reporting Requirements for Interconnected Private Radio Systems

AGENCY: Federal Communications Commission.

ACTION: Public Notice.

SUMMARY: The FCC establishes January 10, 1979, as the effective date for requiring applicants in the private land mobile radio services who seek authorization for communications systems in the 806-821 and 851-866 MHz bands to advise the Commission whether their systems are intended to be interconnected to the public, switched, telephone network and, if so, to describe the equipment or device which the licensee will employ to accomplish interconnection, as provided in § 90.129(1) of the Commission's rules (formerly § 89.951(e)). In August of 1978 the Commission had stated that November 17, 1978, was to be the effective date, but delays in obtaining GAO clearance necessitated postponing this date until January 10, 1979.

EFFECTIVE DATE: The effective date is January 10, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554

FOR FURTHER INFORMATION CONTACT:

John B. Letterman, Safety and Special Radio Services Bureau (202) 632-6497.

In the Commission's *First Report and Order* in Docket No. 20846 (43 FR 38396 (August 28, 1978), corrected, 43 FR 41987 (September 19, 1978)), it was stated that the reporting requirements in 89.951(e)[1] were subject to clearance by the General Accounting Office (GAO). The rule requirement was to be effective November 17, 1978; however, GAO clearance was not obtained by that date and the effective date of the new rule was postponed. GAO clearance has now been obtained; and the effective date of Section 89.951(e) is January 10, 1979, under GAO Approval No. B-180227 (RO389).

Accordingly, as to all proposals for interconnected service applicants should furnish the information and data required by Section 89.951(e). This information should include a statement that the applicant intends to interconnect his or her radio facilities with the facilities of the public, switched, telephone network. Further, a description of the equipment or devices to be used to accomplish interconnection should be furnished. This may be done by a simple block diagram of the system indicating where and how interconnection is to be accomplished. In this regard, the applicant should specify which of the three options for interconnected service is to be employed, that is, manually, under Section 89.954(a); or automatically under supervision of the licensee's control operator, as provided at Section 89.954(b); or automatically under the supervision of the licensee's mobile operator, as provided for at Section 89.954(c).[2] This information should be attached to FCC Form 400.

In connection with the filing of the application, attention is called to the requirement (set out in FCC Form 400) that the applicant have a current copy of the Commission's Rules governing the radio service in which his or her radio facilities are to be licensed.

FEDERAL COMMUNICATIONS COMMISSION
WILLIAM J. TRICARICO,
Secretary.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. FE 77-05; Notice 7]

PART 523—VEHICLE CLASSIFICATION

Technical Amendment

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Technical amendment.

SUMMARY: This notice amends the definition of the term "automobile" as it appears in the agency's fuel economy vehicle classification regulations. The amendment is intended to clarify the applicability of the light truck fuel economy standards for model year 1980 and thereafter.

DATE: This amendment is effective January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

Francis J. Turpin, Office of Automotive Fuel Economy Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590, (202-472-6902).

SUPPLEMENTARY INFORMATION: Section 501(1) of the Motor Vehicle Information and Cost Savings Act ("the Act"), 15 U.S.C. 2001(1), defines the term "automobile" for purposes of establishing the applicability of automotive fuel economy standards and other fuel economy-related requirements. That definition includes within the scope of that term any "4-wheeled vehicle propelled by fuel which is manufactured primarily for use on public streets, roads, and highways (except for any vehicle operated exclusively on a rail or rails), and which is rated at 6000 pounds gross vehicle weight or less." That section also authorizes the Secretary of Transportation to expand the "automobile" category and thereby regulate additional vehicles if certain findings are made. These findings relate to the feasibility of standards for such vehicles, the energy savings potential associated with regulating the vehicles, and the usage of the vehicles.

On March 23, 1978, in 43 FR 11995, the National Highway Traffic Safety Administration (NHTSA) published the required findings with respect to certain vehicles (called "light trucks") with gross vehicle weight ratings between 6001 and 8500 pounds. The vehicles in the 6001 to 8500 pound GVWR range which were excluded from the expanded automobile category were a relatively small number of vehicles with either curb weights in excess of 6000 pounds or with frontal areas of more than 46 square feet (principally step-vans), or both. These vehicles were excluded because of design features which would largely preclude personal use thus making regulation as heavy duty vehicles proper (41 FR 56316).

The Environmental Protection Agency (EPA), which conducts fuel economy testing under the Act, has recently informed NHTSA of an error encountered in measuring the frontal area of some of the step-vans. It appears that in order to exclude the intended larger-frontal area vehicles, the regulatory dividing line must be reduced from 46 to 45 square feet. The number of vehicles affected by this change is extremely small in relation to the number of light trucks in the 6001 to 8500 pound GVWR range. Therefore, NHTSA is amending the appropriate regulatory language to correct this error.

Since this amendment is in the nature of a technical correction and affects such a small number of vehicles, it is determined that a notice of proposed rulemaking is unnecessary and contrary to the public interest, within the meaning of 5 U.S.C. 553(b). Therefore, this notice will be issued as a final rule.

NHTSA has also determined that this document does not contain a significant regulation requiring a regulatory analysis under Executive Order 12044. Further, this action does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et seq.).

This amendment is effective immediately, since its effect is to relieve a restriction. See 5 U.S.C. 553(d)(1).

In consideration of the foregoing, 49 CFR, Chapter V, is amended as follows:

1. By changing the number "46" to the number "45" in section 523.3(b)(2)(i).

AUTHORITY: Sec. 9, Pub. L. 89-670, 80 Stat. 931 (49 U.S.C. 1657); sec. 301, Pub. L. 94-163, 89 Stat. 901 (15 U.S.C. 2002); delegation of authority at 41 FR 25015, June 22, 1976, and 43 FR 8525, March 2, 1978.

Issued on January 15, 1979.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

CHAPTER VI—URBAN MASS TRANSPORTATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-A]

PART 630—UNIFORM SYSTEM OF ACCOUNTS AND RECORDS AND REPORTING SYSTEM

Reporting Requirements for Urbanized Areas—UMTA Circular 2710

Correction

AGENCY: Urban Mass Transportation Administration, DOT.

ACTION: Correction.

SUMMARY: In FR Doc. 78-34826 appearing at pages 58928-58934 in the FEDERAL REGISTER of December 18, 1978, one paragraph concerning the scope of the regulations dealing with apportionment factors, and the section of Appendix B concerned with Bus Revenue Seat Miles were incorrectly stated. This document republishes the two incorrect sections in their proper form.

FOR FURTHER INFORMATION CONTACT:

John Barber, Office of Program Analysis, Urban Mass Transportation Administration, 400 7th Street, S.W., Washington, D.C. 20590. Phone (202) 472-7100.

SUPPLEMENTARY INFORMATION: The regulation stating the reporting requirements for an urbanized area containing both a fixed guideway system and a bus system inadvertently omitted the requirement for a metropolitan planning organization to comply.

In the Appendix dealing with reporting requirements for bus systems, the section concerning bus revenue seat miles was incomplete and thus misleading and confusing.

Accordingly, the following corrections are made:

1. In the third column of page 58928, § 630.31(c) should read as follows:

§ 630.31 **Scope.**

* * * * *

(c) If an urbanized area contains both a fixed guideway system and a bus system, then the designated recipient and/or metropolitan planning organizations must comply with the reporting requirements of both §§ 630.32 and 630.33.

2. In the third column of page 58932, the second paragraph of the section dealing with Bus Revenue Seat Miles (section IIIA3) should read as follows:

APPENDIX B—REPORTING REQUIREMENTS FOR BUS SYSTEM

* * * * *

3. Bus Revenue Seat Miles.

* * * * *

In cases where a particular transit service traverses two urbanized areas, the bus revenue seat mileage attributable to each is calculated in the same manner as described above in subparagraph 2 "Bus Revenue Vehicle Miles". Vehicle revenue seat mileages for all buses over twenty-two feet in length, including trolleybuses, must be included in the data submitted. Data need not be disaggregated by individual bus or by category or type of bus, however. Only a single total value for the urbanized area, or for each state part of a multi-state urbanized area, is required.

* * * * *

Dated: January 15, 1979.

RICHARD S. PAGE,
Urban Mass Transportation Administrator.

Title 50—Wildlife and Fisheries

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER F—AID TO FISHERIES

PART 251—FINANCIAL AID PROGRAM PROCEDURES—FISHERY FOR ATLANTIC GROUNDFISH

Subpart B—Conditional Fisheries

AGENCY: National Oceanic and Atmospheric Administration, National Marine Fisheries Service, Department of Commerce.

ACTION: Final rulemaking.

SUMMARY: This document incorporates in Subpart B of Part 251 a new section to adopt the "fishery for Atlantic groundfish" as a conditional fishery so that application of the National Marine Fisheries Service (NMFS) financial assistance in that fishery will be limited to that which does not add vessels to this fishery. It has been determined that there exists sufficient fleet capacity to harvest Atlantic groundfish (cod, haddock, and yellowtail flounder). The intended effect of this action is that NMFS financial assistance activities will be consistent with the wise use of the Atlantic groundfish resource and with its development, advancement, management, conservation, and protection.

DATES: Effective January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Michael L. Grable, Chief, Financial Services Division, National Marine Fisheries Service, Washington, D.C. 20235, 202-634-7496.

SUPPLEMENTARY INFORMATION: On August 2, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 33946) stating that the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration (Assistant Administrator), was considering an amendment to Financial Aid program Procedures (50 CFR Part 251) to incorporate in Subpart B of Part 251 a new section to adopt the "fishery for Atlantic groundfish" as a conditional fishery. For purposes of this regulation, the "fishery for Atlantic groundfish" was defined to include all U.S. commercial fishing vessels that are subject to regulations implementing the fishery management plan for Atlantic groundfish (FMP), developed by the New England Fishery Management Council (NEFMC) and implemented, with amendments, by the Secretary of Commerce.

Subpart A of CFR Part 251 sets forth the general policy under which financial assistance programs for the commercial fisheries will be administered, and establishes the procedure to be used in proposing and adopting a fishery as a conditional fishery. Each fishery adopted as a conditional fishery is enumerated under Subpart B of 50 CFR Part 251. The terms under which financial assistance related to a conditional fishery may be approved are set forth in the regulations on procedures and administration of the fishing vessel obligation guarantee program (50 CFR Part 255) and the fishing vessel capital construction fund program (50 CFR Part 259).

Several comments were received in response to the proposed rulemaking; some objecting to the proposed designation. The objections primarily refer to the impact of this action on those who are participating in the fishing vessel capital construction fund program and have objectives of acquiring additional vessels to operate for Atlantic groundfish. Reasons given for objecting were that the proposed designation: (1) Was based on incomplete scientific data which is at odds with information available to captains and vessel owners; (2) does not apply to Canadian vessels and strengthens the Canadian hand by reducing the U.S. presence and extractive efficiency; (3) seems inappropriate because other management tools are available; (4) will not help owners and processors to exploit potential export markets for fish; (5) will prevent upgrading of the fleet and discourage building of multipurpose vessels which might engage in this fishery for certain periods of the year and for various underutilized species during the balance of the year; and (6) will cause significant hardship to boat owners who have existing capital construction fund agreements by preventing them from replacing older vessels in four or five years as planned.

These comments set forth matters for consideration by the NEFMC in formulating amendments to the FMP and in developing a long-term fishery management plan for groundfish. The real issue, however, which this regulation addresses is whether or not application of NMFS financial assistance programs to add vessels to the fishery for Atlantic groundfish would be consistent with the wise use of that fishery and with its advancement, development, management, conservation, and protection.

Since August 2, the situation described in the notice of proposed rulemaking has deteriorated further, and as a result the fishery in the Gulf of Maine was closed on August 5, 1978, for trawlers in the 61-125 gross registered tons (GRT) vessel class and for vessels fishing fixed gear. The cod fishery in the Gulf of Maine was also closed on August 16, 1978, to vessels in the 0-60 GRT class and to vessels over 125 tons. On October 4, 1978, the National Marine Fisheries Service, by emergency regulation and proposed rulemaking, approved amendments to the FMP which (a) reinstated the optimum yields and quotas adopted by the New England Fishery Management Council in March of 1978 and (b) prescribed a fishing year which begins on October 1, and runs through September 30. On November 19, the cod fishery in the Gulf of Maine was closed to vessels over 125 GRT; the haddock fishery in the Gulf of Maine was closed to all but vessels fishing fixed gear; the haddock fishery on Georges Bank and South was closed to vessels in the 0-60 class and to vessels over 125 GRT; trip limit reductions were imposed on vessels in the 61-125 GRT class fishing for cod in the Gulf of Maine and Georges Bank as well as haddock on Georges Bank and South. An additional five closures became effective December 17; so that of a potential 18 defined fisheries, 11 were closed. This experience has demonstrated that the fishery is more difficult to manage than originally believed. Increased harvesting capacity in this fishery has affected the determination of optimum yield and repeatedly caused emergency closures of the fishery. While socioeconomic impacts of the management of this fishery have been more severe than anticipated, there is no clear evidence that the proposed designation will adversely affect vessel owners and processors with respect to export markets for fish. There is, on the other hand, evidence that there are substantial export market opportunities for currently underutilized species, which are readily available to existing underemployed groundfish vessels currently in the fleet. Moreover, this action does not prevent the use of the NMFS financial assistance programs for upgrading the existing fleet, or prevent vessel owners, who are participating in the fishing vessel capital construction fund program, from changing objectives so as to qualify for program benefits. Any hardship that this may cause has been considered.

Because of the unique issues surrounding multi-purpose vessels, which can be used to fish for underutilized species during a portion of the year, a special task group within the National Marine Fisheries Service is evaluating the conditional fisheries concept from the standpoint of combined fishing operations. The task group's report should be available soon.

The conditional fisheries regulatory mechanism is intended to ensure that NMFS financial assistance activities will be consistent with the wise use of the fisheries resources and with their development, advancement, management, conservation, and protection. When, upon review and evaluation of situations and conditions in a fishery, it is determined that certain fisheries demonstrably do not need additional harvesting capacity to meet management needs and objectives, those fisheries may be designated as conditional fisheries.

Fisheries designated as conditional fisheries are those in which application of NMFS financial assistance activities is controlled in a manner which, on balance, will be consistent with the needs and objectives of management. The New England Fishery Management Council has determined that a need for managing this fishery does in fact exist and has chosen to implement the optimum yield by vessel classes.

The recent events described above, as well as those described in the August 2, 1978, notice of proposed rulemaking clearly demonstrate that this fishery does not need additional harvesting capacity to meet management needs and objectives.

This regulation is not deemed to be significant pursuant to the provisions of Executive Order 12044, or a major federal action which may significantly affect the quality of the human environment under section 102(2)(C) of the National Environmental Policy Act.

After due consideration, the Assistant Administrator concludes that the proposal to amend Part 251 of this Chapter, Subpart B—Conditional Fisheries, to add a new § 251.26 is hereby adopted as set forth below.

Subpart B—Conditional Fisheries

§ 251.26 Fishery for Atlantic Groundfish (cod, haddock, and yellowtail flounder).

Dated: January 15, 1979.

TERRY LEITZELL,
Assistant Administrator for Fisheries, National Marine Fisheries Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[6820-99-M]

PRESIDENT'S COMMISSION ON PENSION POLICY

[1 CFR Part 470]

PRIVACY ACT OF 1974

Proposed Regulations for Implementation

AGENCY: President's Commission on Pension Policy.

ACTION: Proposed Rule.

SUMMARY: The following proposed regulations drafted in accordance with section (f) of 5 U.S.C. 552a, the Privacy Act of 1974, are hereby offered for public comment. The purposes of these regulations are to establish procedures by which an individual can determine if the Commission maintains a system of records which included a record pertaining to that individual and also to establish procedures for purposes of review, amendment and/or correction.

DATE: Comments are due on or before February 21, 1979.

ADDRESS: Send comments to the Executive Director, President's Commission on Pension Policy, 736 Jackson Place NW., Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT:

Robert Roeder, (202) 395-5132.

Signed this 16th day of January 1979.

THOMAS C. WOODRUFF,
Executive Director.

It is proposed to add the following Part 470 to Title 1 of the CFR.

PART 470—PRIVACY ACT IMPLEMENTATION

Sec.
470.1 Purpose and scope.
470.2 Definitions.
470.3 Procedures for requests pertaining to individual records in a records system.
470.4 Times, places, and requirements for the indentification of the individual making a request.
470.5 Disclosure of the requested information to the individual.
470.6 Request for correction or amendment to the record.
470.7 Agency review of request for correction or amendment of the record.
470.8 Appeal of an initial adverse agency determination on correction or amendment of the record.
470.9 Disclosure of record to a person other than the individual to whom the record pertains.
470.10 Fees.

AUTHORITY: 5 U.S.C. 552a: Pub. L. 93-5 79.

§ 470.1 Purpose and scope.

The purposes of these regulations are to:

(a) Establish a procedure by which an individual can determine if the President's Commission on Pension Policy hereafter known as the Commission maintains a system of records which includes a record pertaining to the individual; and

(b) Establish a procedure by which an individual can gain access to a record pertaining to him or her for the purpose of review, amendment and/or correction.

§ 470.2 Definitions.

For the purpose of these regulations—

(a) The term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

(b) The term "maintain" includes maintain, collect, use or disseminate;

(c) The term "record" means any item, collection or grouping of information about an individual that is maintained by the Commission, including, but not limited to, his or her employment history, payroll information, and financial transactions and that contains his or her name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as social security number;

(d) The term "system of records" means a group of any records under control of the Commission from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual; and

(e) The term "routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

§ 470.3 Procedures for requests pertaining to individual records in a records system.

An individual shall submit a request to the Administrative Officer to determine if a system of records named by the individual contains a record pertaining to the individual. The individual shall submit a request to the Executive Director of the Commission which states the individual's desire to review his or her record.

§ 470.4 Times, places, and requirements for the identification of the individual making a request.

An individual making a request to the Administrative Officer pursuant to § 470.3 shall present the request at the Commission offices, 736 Jackson Place, N.W., Washington, D.C. 20006, on any business day between the hours of 9 a.m. and 5 p.m. The individual submitting the request should present himself or herself at the Commission's offices with a form of identification which will permit the Commission to verify that the individual is the same individual as contained in the record requested.

§ 470.5 Access to requested information to the individual.

Upon verification of identify the Commission shall disclose to the individual the information contained in the record which pertains to that individual.

§ 470.6 Request for correction or amendment to the record.

The individual should submit a request to the Administrative Officer which states the individual's desire to correct or to amend his or her record. This request is to be made in accord with provisions of § 470.4.

§ 470.7 Agency review of request for correction or amendment of the record.

Within ten working days of the receipt of the request to correct or to amend the record, the Administrative Officer will acknowledge in writing such receipt and promptly either—

(a) Make any correction or amendment of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(b) Inform the individual of his or her refusal to correct or to amend the record in accordance with the request, and the procedures established by the Commission for the individual to request a review of that refusal.

§ 470.8 Appeal of an initial adverse agency determination on correction or amendment of the record.

An individual who disagrees with the refusal of the Administrative Officer

to correct or to amend his or her record may submit a request for a review of such refusal to the Executive Director, President's Commission on Pension Policy, 736 Jackson Place, N.W., Washington, D.C. 20006. The Executive Director will, not later than thirty working days from the date on which the individual requests such review, complete such review and make a final determination unless, for good cause shown, the Executive Director extends such thirty day period. If, after his or her review, the Executive Director also refuses to correct or amend the record in accordance with the request, the individual may file with the Commission a concise statement setting forth the reasons for his or her disagreement with the refusal of the Commission and may seek judicial review of the Executive Director's determination under 5 U.S.C. 552a(g)(1)(A).

§ 470.9 Disclosure of record to a person other than the individual to whom the record pertains.

The Commission will not disclose a record to any individual other than to the individual to whom the record pertains without receiving the prior written consent of the individual to whom the record pertains, unless the disclosure has been listed as a "routine use" in the Commission's notices of its system of records, or falls within one of the special disclosure situations listed in the Privacy Act of 1974 (5 U.S.C. 552a(b).)

§ 470.10 Fees.

If an individual requests copies of his or her record, he or she shall be charged ten cents per page, excluding the cost of any search for review of the record, in advance of receipt of the pages.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[Docket C-2940]

ALDENS, INC.

Correction

AGENCY: Federal Trade Commission.

ACTION: Correction

SUMMARY: This document corrects a Commission document previously published in the FEDERAL REGISTER on Thursday, December 21, 1978. It was incorrectly reported under "SUPPLEMENTARY INFORMATION" that no comments were received.

DATE: The correction is effective January 22, 1979.

FOR FURTHER INFORMATION CONTACT:

FTC/SSR, Gregory E. Hales, Washington, D.C. 20580. (202) 724-1184.

SUPPLEMENTARY INFORMATION: In FR Doc. 78-35495, appearing in FEDERAL REGISTER issue for Thursday, December 21, 1978, 43 FR 59478, in the "SUPPLEMENTARY INFORMATION", the second paragraph has been changed to read as follows:

"Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding."

CAROL M. THOMAS,
Secretary.

FEDERATED DEPARTMENT STORES, INC.

Consent Agreement with Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Cincinnati, Ohio operator of retail department stores to cease entering into or enforcing agreements which grant the firm the right to exclude certain tenants from shopping certers; control tenants' advertising, goods and prices; or otherwise restrict competition.

DATE: Comments must be received on or before March 23, 1979.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th St. and Pennsylvania Ave., N.W., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

William M. Gibson, Director, 2R, Boston Regional Office, Federal Trade Commission, 150 Causeway St., Rm. 1301, Boston, Mass. 02114. (617) 223-6621.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

UNITED STATES OF AMERICA BEFORE FEDERAL TRADE COMMISSION

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

In the Matter of FEDERATED DEPARTMENT STORES, INC., a corporation, File No. 721 0069.

The agreement herein, by and between Federated Department Stores, Inc., (hereinafter referred to as "Federated") a corporation, the respondent in the above-captioned proceeding, by its duly authorized officer and its attorney, and counsel for the Federal Trade Commission, is entered into in accordance with the Commission's rule governing consent order procedure. In accordance therewith the parties hereby agree that:

1. Federated is a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its principal office and place of business located at 222 West Seventh Street, Cincinnati, Ohio.

2. Federated admits all the jurisdictional facts set forth in the draft of complaint attached hereto.

3. Federated waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of this proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it will be placed on the public record for a period of 60 days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if, within 30 days after the 60 day period, comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate. The Commission may, at any time pending final acceptance of this order, require hearings on the relief requirements provided by this order.

5. This agreement has been executed by Federated for settlement purposes only and does not constitute, nor shall it be deemed, an admission by Federated that the law has been violated as alleged in the draft of complaint attached hereto.

6. This agreement contemplated that, if it is accepted by the Commission and if such acceptance is not subsequently withdrawn

V 4 4 / 1 5 J A 2 2 7 9 UMI

by the Commission pursuant to the provisions of Section 2.34 of the Commission's Rules, the Commission may, without further notice to Federated, (1) issue its complaint corresponding in form and substance with the draft of complaint attached hereto and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to respondent's address as stated in this agreement shall constitute service. Respondent waives any right it may have to any other manner of services. The complaint may be used in construing the terms of the order, but no agreement, understanding, representation, or interpretation not contained in the order or this agreement may be used to vary or contradict the terms of the order.

7. Federated has read the order contemplated hereby and understands that once this order has been issued, Federated will be required to file one or more compliance reports showing that it has fully complied with the order, and that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

ORDER

I.

For the purposes of this Order the following definitions shall apply:

(a) The term "respondent" refers to Federated and its operating divisions, officers, agents, representatives, employees, successors, and assigns.

(b) The term "shopping center" refers to a planned development of retail outlets in the United States of America, developed and managed as a unit in relation to a trade area which the development is intended to serve and containing (1) a total floor area designed for retail occupancy of 250,000 square feet or more, of which at least 50,000 square feet is for occupancy by tenants other than respondent, (2) at least two tenants other than respondent, (3) at least one major tenant, and (4) on-site parking.

(c) The term "tenant" refers to any occupant or potential occupant of retail space in a shopping center, which occupancy is for the sale of merchandise or services to the public, whether said occupant leases or owns said space, but the term does not refer to any occupant or potential occupant of space within respondent's store or other areas operated by respondent, which occupant is to operate a department for respondent pursuant to a lease or license from respondent.

(d) The term "major tenant" refers to a tenant providing primary drawing power in a shopping center. A tenant occupying 50,000 square feet or more shall be presumed to provide primary drawing power.

II.

IT IS ORDERED that respondent, in its capacity as a tenant in a shopping center, cease and desist from obtaining, making, carrying out or enforcing, directly or indirectly, any agreement or provision of an agreement which:

1. Grants respondent the right to approve or disapprove the entry into a shopping center of any other tenant;

2. Prohibits the admission into a shopping center of any particular tenant or class of tenants, including, without limitation, for purposes of illustration:

(a) other department stores;

(b) junior department stores;

(c) discount stores; or

(d) catalogue stores;

3. Limits the types or brands of merchandise or services which any other tenant in a shopping center may offer for sale;

4. Specifies that any other tenant in a shopping center shall or shall not sell its merchandise or services at any particular price or within any range of prices;

5. Grants respondent the right to approve or disapprove the location in a shopping center of any other tenant;

6. Specifies or prohibits the content of any advertising by any other tenant or grants respondent the right to approve or disapprove the content of any advertising by any other tenant;

7. Grants respondent the right to approve or disapprove the amount of floor space that any other tenant may occupy in a shopping center; or

8. Prohibits the owner or occupant of real property adjoining, abutting or adjacent to a shopping center in which respondent is a tenant from using such property for the sale of merchandise or services similar or identical to the merchandise or services sold in the shopping center; provided, however, that nothing in this paragraph shall apply to an agreement or provision thereof which affirmatively prescribes particular land uses or zoning for any real property.

III.

A. IT IS FURTHER ORDERED that this Order shall not prohibit respondent from negotiating to include, including, carrying out or enforcing any agreement or provision in any agreement relating to respondent's occupancy, or proposed occupancy, of space in a shopping center, which (1) identify in designated buildings respondent and those major tenants which have entered, or which are to contemporaneously enter, or which the developer or landlord represents in writing have stated an intention to enter, into agreements for occupying space in the shopping center, (2) recite that respondent and such major tenants have contracted or shall contract with the developer or landlord to maintain and operate their stores for a specified term, not to exceed 25 years, in such designated buildings, and (3) provide for respondent's right to cancel, terminate or modify its agreement for occupancy if such major tenants do not occupy such designated buildings or do not maintain and operate their stores for the specified term.

B. IT IS FURTHER ORDERED that this Order shall not prohibit respondent from negotiating to include, including, carrying out or enforcing an agreement or provision in any agreement which:

1. Requires that in selecting other tenants in a shopping center the developer shall select businesses which are financially sound and which will in the aggregate provide a balanced and diversified grouping of retail stores, merchandise and services in the shopping center;

2. Requires that specified standards of appearance, signs, maintenance, heating, air conditioning, lighting and housekeeping be maintained in a shopping center;

3. Establishes a layout of a shopping center which layout may designate: (a) respondent's store and stores which are to be occupied by other major tenants; (b) the location, size and height of all structures (including any structure that is to be occupied by only one tenant) but not the amount of floor space that any other tenant may occupy in the shopping center; (c) the minimum floor space to be occupied by respondent and by major tenants; (d) uses of all structures to be used for purposes other than the retail sale of merchandise or services to the public; (e) parking ratios, parking areas (including stall sizes and arangement), roadways, utilities, entrances, exits, walkways, malls, landscaped areas and other common areas; and (f) expansion areas and may within such areas establish a layout incorporating items (a) through (e) of this subsection 3;

4. Requires that any change or expansion of a shopping center not provided for in the initial layout:

(a) shall not interfere with efficient automobile and pedestrian traffic flow into and out of the shopping center and between respondent's store and perimeter and access roads, parking areas, malls and other common areas of the shopping center;

(b) shall not interfere with the efficient operation of respondent's store, including its utilities, and shall not interfere with the visibility of its signs from within the shopping center or from public highways adjacent thereto;

(c) shall not result in a change of (i) the shopping center's parking ratio, (ii) the location of a number of parking spaces reasonably accessible to respondent's store, (iii) the entrances and exits to and from respondent's store and any malls, and (iv) those parking area mall entrances and exits which substantially serve respondent's store; or

(d) shall be accomplished only after any and all covenants, obligations and standards (for example, construction, architecture, operation, maintenance, repair, alteration, parking ratio, and easements) of the shopping center, exclusive of the expansion area and (i) shall be made applicable to the expansion area and (ii) shall be made prior in right to any and all mortgages, deeds of trust, liens, encumbrances, and restrictions applicable to the expansion area, and (iii) shall be made prior in right to any and all other covenants, obligations and standards applicable to the expansion area;

5. Prohibits occupancy of space in a shopping center by types of tenants that create undue noise, litter or odor;

6. Permits respondent to establish reasonable categories of tenants from which the developer or landlord of a shopping center may select tenants to be located in the areas immediately proximate to respondent's store; provided that such categories shall not include specifications of (a) trade names, (b) store names, (c) trademarks, brands or particular lines of merchandise, or (d) identity of particular retailers, including the listing of particular retailers as examples of a category; provided that such area shall not exceed the greater of (i) 150 lineal feet from respondent's store on each level of the center, or (ii) 20% off the total lineal mall front footage, exclusive of respondent's store, on each level of the center;

7. Prohibits occupancy of space in a shopping center by clearly objectionable types of tenants, including, for purposes of illustration, establishments selling or exhibiting pornographic materials;

8. Requires that any space designated for occupancy by a major tenant in the initial layout of the shopping center not be leased for occupancy by other than a major tenant, that any sub-division of such space for occupancy by more than one tenant not result in any tenant occupying less than 50,000 square feet of such space or that each successive occupancy of such space be for the sale of merchandise or services to the public;

9. Prohibits or establishes limitations on the location in the shopping center of commercial office buildings, hotels, motor inns, new and used automobile dealers or funeral parlors; or

10. Establishes reasonable limitations on the location in the shopping center of fast food outlets, grocery supermarkets or movie theaters.

IV.

IT IS FURTHER ORDERED that respondent shall:

A. Within thirty (30) days after service of this Order upon respondent, distribute a copy of this Order to each of its directors, officers, and to each of its operating divisions;

B. Within thirty (30) days after service of this Order upon respondent, notify each landlord of a shopping center in which respondent is a tenant, of this Order by providing each landlord with a copy thereof by certified mail;

C. Within ninety (90) days after service of this Order upon respondent, file with the Commission a report showing the manner and form in which it has complied and is complying with each and every specific provision of this Order; and

D. Notify the Commission at least thirty days (30) days prior to any proposed change in the respondent such a dissolution, assignment or sale resulting in the emergence of a successor, corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which would affect compliance obligations arising out of the Order.

FEDERATED DEPARTMENT STORES, INC.

[File No. 721 0069]

ANALYSIS OF PROPOSED CONSENT ORDER TO AID IN PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement containing a proposed consent order from Federated Department Stores, Inc. which owns and operates over 150 department or specialty stores nationally, through 15 of its operating divisions.

The proposed consent order and complaint described in this analysis have been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The Commission's complaint alleges that the respondent violated the Federal Trade Commission Act, as amended, through various acts and practices in its capacity as a tenant in shopping centers throughout the country. The acts and practices alleged in the Commission's complaint are based upon Federated's agreements with developers and major tenants in numerous shopping centers in which it operates retail department or specialty stores. These shopping center agreements contain various kinds of restrictive convenants which have allegedly enable Federated to protect itself from certain kinds of competition by excluding other tenants or potential tenants from shopping centers.

The complaint further alleges that Federated has enforced or caused the enforcement of restrictive provisions in these shopping center agreements. The alleged effects of Federated's acts and practices have been to lessen and prevent competition in the retail sale of goods and services by allowing Federated to choose its competitors, hinder discount operations and to restrict developers in their choice of tenants in shopping centers.

The proposed order is designed to eliminate the restrictive acts and practices alleged in the complaint by prohibiting Federated from enforcing existing restrictive provisions in shopping center agreements or entering into any future agreements in shopping centers which contain similar or identical provisions granting Federated certain restrictive powers.

Section II. of the proposed order prohibits Federated from: excluding department, junior deparment, discount or catalogue stores form shopping centers; limiting the types or brands of merchandise which other tenants may sell; disapproving the location of certain tenants in the shopping center; prohibiting the content of other tenants' advertising; disapproving the amount of floor space other tenants may occupy; and, prohibiting property adjoining, abutting, or adjacent to a shopping center in which Federated is a tenant from being used for the sale of merchandise or services which compete with the merchandise or services sold in the shopping center in which Federated is located.

Sections III. A. and B. set forth acts and practices which Federated may engage in without violating the proposed order. Under these sections Federated may agree with the shopping center developer that the center conform to a mutually agreed upon layout and that the center as a whole will offer a balanced grouping of merchandise and services by tenants who shall observe reasonable standards of appearance and who shall refrain from creating to much noise, litter or odor. Section III. B. of the proposed order also contains provisions which permit Federated to agree with the developer that any expansion of the shopping center shall not interfere with or adversely affect respondent's store.

Section IV. of the proposed order requires Federated to send the landlord of each shopping center in which Federated is a tenant a copy of the proposed order. Federated must also send a copy of the proposed order to each of its directors, officers and to each of its operating divisions.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way.

CAROL M. THOMAS,
Secretary.

Availability of Economics Articles Through the Public Reference Branch

AGENCY: Federal Trade Commission.

ACTION: Additional documents made available through the Public Reference Branch.

SUMMARY: To insure public access to two theoretical economic papers which may be useful in understanding the record of this proceeding, the Commission has determined to make these documents available through its Public Reference Branch as a part of Public Record No. 215-54. (44 FR 914, January 3, 1979.)

These articles are S. Salop, "Parables of Information Transmission in Markets," in *The Effects of Information on Consumer Market Behavior* (A. Mitchell ed., 1978) and G. Akerloff, *The Market for "Lemons": Quality Uncertainty and the Market Mechanism*, 84 Q.J. of Econ. 488 (1970).

DATE: The close of the comment period in this proceeding remains February 13, 1979.

ADDRESSES: Comments should be directed to: Office of the Secretary, Federal Trade Commission, Washington, D.C. 20580.

Requests for copies of either article should be sent to: Public Reference Branch, Room 130, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580, telephone 202-523-3667.

V 4 4 / 1 5 J A 2 2 7 9 UMI

FOR FURTHER INFORMATION CONTACT:

Bernard J. Phillips, Attorney, Federal Trade Commission, Washington, D.C. 20580, telephone 202-523-1642.

SUPPLEMENTARY INFORMATION: Comments at this stage of the proceeding are received pursuant to § 1.13(h) of the Commission's Rules of Practice. Accordingly, comments must be confined to information already in the record, new evidence will not be accepted.

Comments should be submitted, when feasible in four copies.

These articles have not been reviewed or adopted by the Commission, and their availability should not be interpreted as reflecting the views of the Commission or any individual member thereof.

CAROL M. THOMAS,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[18 CFR Part 285]

[Docket No. RM79-10]

POWERPLANT AND INDUSTRIAL FUEL USE ACT OF 1978

Proposed Criteria for Powerplant's Design Capacity

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Proposed Rule.

SUMMARY: The Powerplant and Industrial Fuel Use Act of 1978 requires the Commission to promulgate rules under which a powerplant's design capacity may be determined. Determination of a powerplant's capacity is necessary because it is an element of various statutory definitions in the Act. By this notice, the Commission has established certain criteria for the design rating and requests comments on how well the proposed rules support the criteria established by the Commission.

DATES: Comments due on or before January 30, 1979.

ADDRESS: Comments referencing Docket No. RM79-10 should be sent to: Kenneth F. Plum, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Kenneth F. Plum, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, 202-275-4166.

SUPPLEMENTARY INFORMATION: Section 103(a)(18)(D) of the Powerplant and Industrial Fuel Use Act of 1978 (Act) Pub. L. 95-1749, requires the Federal Energy Regulatory Commission (Commission) to promulgate rules under which a powerplant's design capacity may be determined. The determination of a powerplant's design capacity is necessary because it is an element of each of the statutory definitions of the terms"peakload powerplant", "intermediate load powerplant", and "base load powerplant" as provided in section 103(a)(18) of the Act. The definitions of those terms will be used to determine the applicability of certain temporary and permanent exemptions from sections 201 and 202 of the Act, which proscribe the use of natural gas or petroleum as a primary energy source in new electric powerplants, under sections 212(g) and 212(h). The definitions are also to be used to determine the applicability of certain temporary and permanent exemptions from sections 301 and 302 of the Act, relating to existing electric powerplants, under sections 311(f), 312(f), and 312(g) of the Act. Finally, determinations regarding design capacity are necessary under section 501 of the Act, Electric Utility System Compliance Option, in order to determine if existing electric utilities are in compliance with Title III of the Act.

DISCUSSION

The Commission proposes that the rules contained herein be used to determine a powerplant's design capacity. There are a number of powerplant capacity ratings used by the electric power industry. However, these are used principally for operational purposes, reflecting seasonal weather conditions, degradation of a powerplant, or other factors, and may be substantially different from a powerplant's design capacity. The Commission has established criteria that the design rating should be (1) determinable unequivocably from the manufacturer's data and ordinarily not change during a powerplant's physical life, unless there is substantial modification of the unit; (2) a familiar and recognizable quantity throughout the electric power industry; and (3) a published value readily available to any party interested in obtaining it. These criteria and the proposed rules evolving therefrom were developed in consultation with the Staff of the Secretary of Energy. The proposed rules are summarized below:

(1) The design capacity of a steam-electric generating unit shall be its maximum generator nameplate rating which has been reported to the Energy Information Administration on EIA Form —— (formerly FPC Form 12).

(2) The design capacity of a combustion turbine shall be its peak load rating as defined by both the American National Standards Institute (ANSI) and by the International Standards Organization (ISO). This peak load rating, which applies to units operating for peaking service with a maximum of 2,000 hours per year operation, is based on an ambient temperature of 59 degrees Fahrenheit (15 degrees Celcius) and a pressure of 14.696 psia (sea level). This should be the capacity rating reported to the Energy Information Administration on EIA Form —— (formerly FPC Form 12). If those reported ratings are based on different conditions, they will be adjusted to ISO standard conditions for the purposes of the Powerplant and Industrial Fuel Use Act.

(3) The design capacity of a combined cycle unit shall be the sum of its combustion turbine peak load rating, based on ANSI/ISO standard conditions, and the maximum generator nameplate rating of the steam turbine portion of the unit.

(4) The design capacity of an internal combustion engine shall be the capacity rating which has been reported to the Energy Information Administration on EIA Form —— (formerly FPC Form 12).

The Commission solicits comments from interested parties concerning how well the proposed rules support the criteria established by the Commission. Also, the Commission is interested in any problems or concerns regarding the applicability of the proposed rules in meeting the requirements of the Act.

PUBLIC COMMENT PROCEDURES

Interested persons may participate in this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before January 30, 1979. Each person submitting a comment should include his name and address, identify the notice (Docket No. RM79-10), and give reasons for any recommendations. An original and 14 conformed copies should be filed with the Secretary of the Commission.

Comments should indicate the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. Written comments will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426, during regular business hours.

(Department of Energy Organization Act, Pub. L. 95-91, E.O. 12009, 42 F.R. 46267, Powerplant and Industrial Fuel Use Act of 1978, Pub. L. 95-1749)

In consideration of the foregoing, the Commission proposes to amend Chapter I of Title 18, Code of Federal Regulations, as set forth below.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

Chapter I of Title 18 is amended by adding a new Subchapter J, Part 285 Consisting of § 285.101 to read as follows:

SUBCHAPTER J—REGULATIONS UNDER THE POWERPLANT AND INDUSTRIAL FUEL USE ACT OF 1978

PART 285—RULES GENERALLY APPLICABLE TO POWERPLANT AND INDUSTRIAL FUEL USE

§ 285.101 Determination of powerplant design capacity.

For purposes of this subchapter, a powerplant's design capacity shall be determined as follows:

(a) *Steam-electric generating unit.* The design capacity of a steam-electric generating unit shall be taken as the maximum generator nameplate rating which has been reported to the Energy Information Administration on EIA Form —— (formerly FPC Form 12).

(b) *Combustion turbine.* The design capacity of a combustion turbine shall be taken as its peak load rating as defined by both the American National Standards Institute (ANSI) and by the International Standards Organization (ISO). This peak load rating, which applies to units operating for peaking service with a maximum of 2,000 hours per year operation, is based on an ambient temperature of 59 degrees Fahrenheit (15 degrees Celcius) and a pressure of 14.696 psia (sea level). If capacity ratings as reported to Energy Information Administration on EIA Form —— (formerly FPC Form 12) are based on different conditions, these reported ratings will be adjusted to ISO standard conditions.

(c) *Combined cycle unit.* The design capacity of a combined cycle unit shall be taken as the sum of its combustion turbine peak load rating, based on ANSI/ISO standard conditions, and the maximum generator nameplate rating of the steam turbine portion of the unit.

(d) *Internal combustion engine.* The design capacity of an internal combustion engine shall be taken as the capacity rating which has been reported to the Energy Information Administration on EIA Form —— (formerly FPC Form 12).

Bureau of Land Management

[43 CFR Part 8370]

USE AUTHORIZATIONS

Special Recreation Permits—Allocations and Transfers; Extension of Comment Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Extension of Comment period.

SUMMARY: The Bureau of Land Management extends the time for filing comments on its notice of intent regarding use authorizations for river areas requiring limited use or river areas of scarce recreation resources.

DATE: The comment period is extended to February 23, 1979.

ADDRESS: Send comments to: Mr. William Brown, Bureau of Land Management (D-370), Denver Federal Center, Building 50, Denver, Colorado 80225.

FOR FURTHER INFORMATION CONTACT:

Mr. William Brown, Bureau of Land Management, 303-234-5094 or Mr. Larry R. Young, Bureau of Land Management, 202-343-9353.

SUPPLEMENTARY INFORMATION: In a notice of intent to develop proposed rulemaking published in the FEDERAL REGISTER on December 6, 1978 (43 CFR 57167), the Bureau of Land Management gave notice of its intention concerning special recreation permit allocations and transfers in river areas of the public lands adminsitered by the Bureau of Land Management.

In the notice comments were requested by February 8, 1979. It has now been determined to extend the comment period by 15 days. Comments received on or before February 23, 1979, will be considered before action is taken to develop the proposed rulemaking.

ARNOLD E. PETTY,
Acting Associate Director.

JANUARY 15, 1979.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR-Part 73]

[BC Docket No. 78-313; RM-3052]

TELEVISION BROADCAST STATION IN SAN DIEGO, CALIFORNIA

Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding involving the proposed assignment of a television channel to San Diego, California. Petitioner, Center City Complex, Inc., states that the additional time is needed for review of comments filed in the proceeding.

DATE: Reply comments must be filed on or before February 16, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (San Diego, California); Order extending time for filing reply comments. See 43 FR 59404, December 20, 1978.

Adopted: January 12, 1979.

Released: January 15, 1979.

By the Chief, Broadcast Bureau:

1. On September 22, 1978, the Commission adopted a *Notice of Proposed Rule Making*, 43 FR 46049, concerning the above-entitled proceeding. The date for filing comments has expired and the date for filing reply comments is presently January 12, 1979.

2. On January 5, 1979, counsel for Center City Complex, Inc., filed a timely request seeking an extension of time for filing reply comments to and including February 16, 1979. Counsel states that the additional time is needed to analyze the whole allocation situation in the San Diego-Mexico border area, taking into account such matters as existing U.S. and Mexican assignments. Counsel adds that the Land Mobile and Translator objections also require legal review and analysis in close conjunction with the engineering facets developed by the consulting engineers.

V 44 / 15 JAN 22 1979 UMI

3. We are of the view that the public interest would be served by this extension so that Center City Complex, Inc., may file any information which might be helpful to the Commission in reaching a decision in this proceeding.

4. Accordingly, *it is ordered*, that the date for filing reply comments in BC Docket No. 78-313 is extended to and including February 16, 1979.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION.
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[Docket No. 20642; FCC 78-863]

CLEAR CHANNEL BROADCASTING IN THE STANDARD BROADCAST BAND

Further Notice of Proposed Rulemaking

AGENCY: Federal Communications Commission.

ACTION: Further Notice of Proposed Rulemaking.

SUMMARY: FCC proposes to reject requests that it increase the permissible power of the dominant station on each of the 25 Class I-A AM clear channels, it appearing preferable to retain the longstanding 50 KW maximum power in order to maximize the opportunities for the assignment of additional unlimited-time AM stations to those channels.

Additional stations made possible by proposed rule revisions would serve such purposes as providing first aural nighttime primary service to persons lacking it, establishing a first or second local radio outlet in places where FM channels are not available, and enhancing the number of minority-owned stations.

Licensees of daytime-only stations would be able to apply for authorization to operate unlimited-time on Class I-A channels wherever they can comply with the proposed conditions of § 73.37(e)(2) of FCC's rules, or show good cause for waiver of those conditions.

DATES: Comments must be received on or before April 9, 1979, and reply comments on or before May 9, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Louis C. Stephens, Broadcast Bureau (202-632-6302), or Gary L. Stanford, Broadcast Bureau (202-632-9660).

SUPPLEMENTARY INFORMATION:

Adopted: December 19, 1978.

Released: January 15, 1979.

2. Summary of Comments by the Parties.

FURTHER NOTICE OF PROPOSED RULE MAKING

I SUMMARY

(A) The Essential Issue

1. The basic issue has not changed in half a century: should the reach of 25 dominant Class I-A AM stations on the 25 Class I-A clear channels, many hundreds of miles from their transmitters, be preserved and extended, or should it be limited in order to make room for more radio stations serving nearby listeners? On balance, we think the latter, and invite comment on methods proposed for accomplishing that result.

2. The nighttime propagation of radio signals by "skywave", which carries both the service and interference potential of AM stations much farther at night than during the daytime, necessitates making the basic choice between maximizing the protected *reach* of the wide-area service stations, or increasing the *numbers* of stations on the channel.

3. We think the public's needs will be optimally served by enlarging the possibilities for additional stations on the Class I-A clear channels beyond the initial steps we took in this direction in 1961, 31 FCC 565. We base this on our fresh evaluation of the circumstances affecting the public's needs today. These circumstances have undergone notable changes, including the continuing growth of FM as a fully recognized part of the U.S. radio service, the growth of television broadcasting and the growth of cable TV, with consequent reduction of the need to rely on far-distant AM stations at night.

4. Dependence on distant stations, when it applied to many more millions of people and to a far larger proportion of the population than today, provided justification for permitting each of the 25 Class I-A clear channel stations the exclusive use of an AM channel at night. Later, nighttime sharing of some Class I-A frequencies was permitted, but only on a narrowly restricted basis because many millions were still considered to be dependent on distant stations at night.

5. Now, recognizing the lessening of that dependence, we propose changes in the use of Class I-A clear channels which we think optimally balance present day competing needs.

(B) FCC's Basic Proposals

6. In opening the way to additional station assignments on the Class I-A clear channels we propose we propose to: (1) Settle the old issue of higher power for the dominant stations by maintaining the present ceiling of 50 kW; and (2) look to additional AM and FM stations as the preferable means of providing for today's radio service needs, among the most prominent of which is enhancement of opportunities for minority ownership and operation of stations.

II THE RECORD

7. We do not here minutely retrace the long and involved course of clear channel inquiry and rulemaking proceedings which started with the inauguration of the predecessor Docket No. 6741 in 1945. That is already set out at length elsewhere, primarily in:

Our 1961 *Report and Order* in Docket 6741, 31 FCC 565
Our *Memorandum Opinion and Order* denying reconsideration, 45 FCC 400, and
The 1975 *Notice of Inquiry and Notice of Proposed Rulemaking* adopted in this Docket 20642, 40 FR 58467, December 17, 1975.

By way of introduction we pause only to note the basic circumstances and developments which form the context of the continuing tug of war over AM clear channel spectrum space.

(A) Original Clear Channel Objectives

8. Recognizing the inherent conflict between maximizing the service range or the numbers of stations assigned to any AM broadcast frequency, the Federal Radio Commission in 1928 adopted the practice, continued by this Commission, of establishing differing conditions for the use of different groups of AM frequencies. The group which came to be known as the "Clear Channels" was set aside primarily for use by stations so protected from interference as to enable them to provide services at long distances by day and considerably greater distances at night, when reflection from the ionosphere carries nighttime AM transmissions may hundreds of miles farther out from the transmitter than during the daytime. When protected from interference from other stations, this skywave service from existing Class I-AQ stations is generally usable, although varyingly intermittent, at distances up to about 750 miles from the transmitter.

9. Under some conditions, skywave reception occurs even farther out, although more intermittently. Given this, and the early paucity of the more steady but less far-ranging groundwave AM signals, Class I-A clear channels were set aside for the exclusive use of a single station operating during the nighttime hours.

10. Subject to a few limited exceptions, this nighttime exclusivity continued until 1961 for the 25 Class I-A unlimited time stations assigned—one each—to the 25 Class I-A Class I-A frequencies, the reallocation of which is under consideration in this proceeding.

(B) Previous Reallocations

11. Between 1945 and 1961 the Commission in a major predecessor proceeding—Docket 6741—examined numerous possible modification of the rules governing the use of the AM clear channels. Confining their use to a single station operating at night on each such channel with 50 kW power was recognized as questionable. This exclusivity protected the Class I-A stations far beyond any areas where they could provide a reliable signal.

12. In Docket 6741 the Commission considered many alternative plans which reflect two essentially opposed views. One was that the 25 Class I-A stations should continue to enjoy exclusive nighttime occupancy of their respective channels while their permissible maximum power would be raised to 500 kW or 750 kW. (For several years during the 1930's experimental operations had been conducted Class I-A station WLW at Cincinnati, using 500 kW).

13. The opposing view was then, as it now remains, that the 50 kW maximum should be retained, and that the sole Class I-A station on each channel should be required to share the use of the channel with other unlimited time stations.

14. In 1961 the Commission decided to permit one additional unlimited time Class II-A station on each of 11 (now 12) Class I-A channels[1] for the primary purpose of providing nighttime groundwave AM service to places which had none. These 12 Class II-A stations have brought a first nighttime AM primary service to approximately 400,000 persons in the western half of the country. Each is required to protect the 0.5 mV/m 50 percent skywave contour of the co-channel Class I-A station, a radial distance of about 750 miles. Four other unlimited-time Class II stations have been authorized to operate on Class I-A channels, two of them on channels used by Class II-A stations.

15. When it marked 12 Class I-A channels for shared use by Class II-A stations the Commission reserved for future decision the options to be exercised regarding the 13 remaining Class I-A channels. The generally exclusive nighttime use by Class I-A stations of the remaining Class I-A channels was meanwhile continued, and the use of adjacent channels was so restricted as to avoid significant preclusions of the potential use of the reserved Class I-A channels either for additioinal Class II-A stations or for higher power operation by the Class I-A stations.

[1] 670, 720, 770, 780, 880, 890, 1020, 1030, 1100, 1120, 1180, and 1210 kHz.

(C) Questions Now Pending

16. In our Notice inaugurating this proceeding we noted the results of our 1961 action, inaugurated formal inquiry into a number of matters bearing on the use of Class I-A clear channels under present day conditions, and invited comment also on desirability of:

"(1) Amendment of the rules to permit the authorization of power in excess of 50 kilowatts for selected Class I-A stations.

"(2) Amendment of the rules to permit additional unlimited-time Class II stations on the 'duplicated' Class I-A channels, either in limited number and in designated areas (the present 'II-A' plan), or to permit the addition of new stations in all instances where adequate protection for the clear channel station's secondary service and for other stations is afforded.

"(3) Amendment of the rules to permit the assignment of unlimited-time Class II stations to those I-A channels which are presently unduplicated, either on a designated basis, or generally, with protection, in each instance, afforded the I-A station's secondary service.

"(4) Amendment of the rules to permit the employment of some or all of the present I-A channels by a multiplicity of stations which are intended to render only local or regional groundwave service."

Recognizing the variety of possible actions under these alternatives, and reserving the possibility of proposing still other kinds of actions, we announced our expectation that, after review of the responses filed to the questions propounded in the Inquiry portion of the Notice, we would proceed with a Further Notice of Proposed Rule Making defining more specifically those particular modes of amending the clear channel rules on which it appeared desirable to focus our further consideration.

17. The subjects of our Inquiry, which were set out and explained at some length in the text of the 1975 Notice, encompassed:

—The service potential of FM;
—The economic and social effects of higher power;
—Power levels at which licensees desiring higher power would propose to operate;
—Sources and levels of interference on the Class I-A channels;
—Effects of using standard radiation patterns; and
—The use of secondary (skywave) service from clear channel stations in areas without nighttime primary service.

(D) Urgings by the Parties[2]

(1) *Higher Power*—(a) *The Proposals:*

18. The 17 licensees of the 25 Class I-A stations took the following positions on possible raising of the 50 kW power maximum:

—9 licensees stated their intent, if permitted, to increase the power of their 11 Class I-A stations to:

[2] Attachment 2 is a fuller summary of the comments.

100 kW at 1 station
200 " " 1 station
250 " " 5 stations
300 " " 1 station
450 " " 1 station
500 " " 2 stations

—3 licensees of 3 other stations indicated they were exploring or considering the possible use of higher power at their stations if permitted, but were not committing themselves to do so.
—CBS, licensee of 4 Class I-A stations, did not object to permitting higher power, but would not use it for CBS stations.
—NBC and ABC, each licensee of 2 Class I-A clear channel stations, opposed authorizing the use of higher power.
—The two licensees of the remaining 3 Class I-A stations filed no comment.

19. The Clear Channel Broadcasting Service (CCBS), an organization of which 12 licensees of 16 Class I-A stations are members, strongly urged increase of the 50 kW power limit, and supported their position with voluminous data and argument. In their individual comments, only 9 of the 12 CCBS members stated a clear intention to use higher power at their 10 Class I-A stations.

20. Among other supporters of higher power were a number of farm organizations, consulting engineers and othe individuals. There are possible benefits from exceptional and narrowly limited use of higher power for certain specific and highly limited purposes which the National Black Media Coalition and the Corporation for Public Broadcasting thought might merit consideration.

21. We next note the principal contentions for and against higher power, which we will evaluate in later sections of this Further Notice.

(b) *Service Potential:*

22. The prime justification advanced for higher power is that it would provide new and improved service to underserved areas and populations. The proponents put forward CCBS studies showing that at night over half the land area of the United States and 26 million people lack primary (ground wave) AM service, and they discount the showings, in studies conducted by the former Office of Telecommunications,[3] of extensive FM radio services to much of those areas.

23. Higher power, coupled with the prohibition of additional unlimited time co-channel stations on the Class I-A could, say the proponents, provide much needed increments of first or additional groundwave services. They also claim that higher power would provide extended and improved skywave services to allegedly large numbers of people who they say cannot be otherwise provided with needed radio service. Only limited attempts were made, however, even to approximate the numbers of people lacking AM nighttime primary service, or an FM signal with a field strength of at least 1 mV/m, who would gain a first nighttime primary service free both from objectionable interference from other stations and from distortion through interaction between the stations' own skywave and groundwave signals.

24. Some of the licensees proposing higher power did offer figures indicating the numbers of people who would receive the station's skywave signals for the first time, or would receive an improved skywave signal, if the station were permitted higher power.

25. Proponents also argued that higher power is needed to offset interference received within the United States from stations in other countries.

(c) *Economic effects:*

26. As in earlier clear channel proceedings, parties who oppose higher power argued adverse competitive impact on other stations within the service areas of Class I-A stations using power in excess of 50 kW. Proponents either rejected such claims or felt that they should be adjudicated only on the explicit facts of individual proposals under established *Carroll* principles and procedures.

(d) *Technical effects:*

27. Opponents also challenged higher power on technical grounds which proponents debated with counter-arguments:

(i) *Blanketing.* 28. The question here was whether stations operating with powers in excess of 50 kW can reasonably overcome certain potentially adverse effects which could occur near the transmitting system, such as:

—Overloading the input of receivers, thereby blocking reception of other stations serving the area;
—The electrical charging of metallic objects—such as wire fences—by the higher power radiations;
—Interference to the operation of such equipment as electronic switches at telephone central offices;
—The possible exposure of human beings to harmful levels of radiation.

(ii) *Ionospheric Cross-Modulation.* 29. On this point, the parties argued for and against the likelihood that AM signals transmitted at higher power would significantly induce cross-modulations of other radio signals in the ionosphere, thus superimposing the broadcast programs on other radio transmissions, both broadcast and non-broadcast.

(iii) *Other Ionospheric Effects.* 30. Additionally, the parties offered conjectural argument as to the possibility that higher powered transmissions would deteriorate the functioning of the ionosphere as a reflector used for skywave transmissions of both broadcast and some non-broadcast signals.

31. We discuss these opposed technical contentions in section IV.

(e) *Diversification of Program Sources:*

32. Some parties charged that Class I-A stations operating with higher power would become so dominant that undue concentration of media control would result. The proponents of higher power felt the multiplicity of other broadcast services and non-broadcast media would preclude this potentially damaging effect. Some cited the Fairness Doctrine and other requirements broadcasters must meet.

(f) *Programming and Listening:*

33. The parties debated at length the value of program services to distant listeners and drew supportive, but contradictory, inferences from listener data. The latter included data compiled from a national radio listening survey conducted by Arbitron in 1975, telephone and mail responses to 25 listener surveys conducted between 1969 and 1976 by the licensees of 10 Class I-A stations, and a number of surveys of farm listening to radio stations in Iowa and nearby states conducted in 1976 by Doane Agricultural Service, Inc. Some of the surveys by the broadcast stations were directed to listening by automobile and truck travelers.

34. We discuss in Section IV the factual submissions and the opposed contentions as to the value of clear channel and local radio services—a prime question bearing on the choices we have to make.

(2) *"Duplication"*—

35. Many parties commented in support of action to end the exclusive nighttime occupancy of any Class I-A channel by a single dominant station, and advocated opening all 25 of them to unlimited-time use by additional stations. More than one station on a channel is referred to as "duplication."

36. Some parties would curtail the degree of protection generally afforded to Class I stations by other Class II co-channel stations. Class II-A stations thus far authorized to operate on each of the 12 Class I-A channels afford nighttime protection to the 0.5 mV/m 50% skywave contour of the dominant Class I-A co-channel stations. This conforms with the long-established general norm for nighttime protection to the Class I-B clear channel stations.

37. Some parties would confine protection solely to the groundwave (primary) service areas of the Class I stations. This would subject to destructive interference all of the skywave service rendered by the Class I stations. If, as proposed by some, this were applied to Class I-B stations as

[3]Now part of the National Telecommunications and Information Administration.

well, AM skywave service would be destroyed altogether. Whatever deprivation that would represent to users of skywave service who are within the primary service areas of other stations, it would fall most heavily on those who live or travel in places which receive no AM or FM primary service.

38. Although differing as to the degree of protection Class I stations should have, the parties advocating duplication all join in urging that the value of broadcast services originating from distant stations has become enormously reduced since the days when AM was the only radio service and distant clear channel stations were the only source of broadcast programming to many millions more than today. They contend that, given the enormous increase in the numbers of AM stations, the establishment, growth and wider availability of FM, the establishment of television broadcasting, and its emergence as the dominant broadcast service whose viewing peaks during the nighttime hours when radio listening has fallen off, there is far less dependence on transmissions by distant clear channel stations than in the days when the protection standards were developed to enable them to render service free from other-station interference at extreme distances from their transmitters.

39. While extolling the superior values of originations from stations close to listeners, the supporters of duplication seek differing kinds of benefits from the multiplications of new unlimited time stations on the clear channels.

40. The Corporation for Public Broadcasting (CPB), joined by National Public Radio (NPR), proposes a grid of non-commercial educational AM stations for which clear channel spectrum space would be reserved. They specify three sources: space made available by authorizing duplicating station assignment on the clear channels; reduction of the "separation" between AM frequencies from the present 10 to 8 or 9 kHz; and the allocation of AM broadcasting on frequencies below and above the present 545 to 1605 kHz AM band.

41. The National Black Media Coalition (NBMC) stresses the desirability of using at least part of any clear channel spectrum space which may be made available, to enhance the numbers of minority-owned and operated stations. The Daytime Broadcasters Association (DBA) and the licensees of numbers of daytime-only stations see the clear channels as a spectrum resource for enabling stations now limited to daytime hours, to operate unlimited time.

42. The common contention of all the various proposals favoring duplication is greater value to listeners of radio programming originating from nearby stations, as compared with the value of programs from distant stations. Weather, farm market reports, local news and local public affairs programming were particularly singled out in this respect.

43. The CCBS and licensees of Class I-A clear channel stations generally opposed duplication, and made arguments conforming with some of the arguments they used to support higher power, stressing importance of preserving, if not extending, the range of service available from Class I-A stations under the present rules.

44. The Association for Broadcast Engineering Standards (ABES) submitted detailed illustrative studies showing possible distributions of new 1-kW unlimited-time stations. They estimated 78 such stations on the unduplicated Class I-A channels.

III. EXTENT OF EXISTING NIGHTTIME PRIMARY SERVICE

45. The starting point in considering how best to use the spectrum space on the Class I-A channels is the extent to which a major allocations objective—some service to all of the people of the United States—remains to be achieved. This question is particularly pertinent during nighttime hours when skywave propagation by unlimited time AM stations causes much mutual interference.

46. In 1961 when we last made significant changes in the clear channel allocations rules we again assessed the extent of existing radio service on the basis of the areas and populations with interference-free AM groundwave service, and estimated the numbers of those lacking it and therefore considered dependent on the inherently less satisfactory skywave signals from Class I stations. Then, as now, studies and maps of nationwide AM service indicated that over half the land area and about 26 million persons lacked interference-free groundwave AM service during the nighttime hours.

47. Since 1961, however, FM broadcasting has undergone widespread growth and acceptance, and we have for some time based our approach to radio licensing on recognition of the fact that AM and FM are contributing elements to a single aural broadcast service. Thus, as we pointed out in the Notice inaugurating this proceeding, it is no longer appropriate to consider AM service—its existence or its lack—independently of FM service, the other component of the nation's aural broadcast service. For this reason, the nationwide depiction of AM groundwave service at night prepared by and recently updated by CCBS no longer provides a useful indication of those areas dependent for radio service upon the skywave transmissions of distant Class I stations.

48. Studies prepared by the Office of Telecommunications and submitted as part of the record of this proceeding show the extent of existing FM service. This was shown on two bases. One showing depicted the area served by FM signals with a field strength of at least 50 uV/m. Another showing depicted nationwide FM service with a field strength of at least 1 mV/m.

49. For our purpose here—establishment of the nationwide picture of where primary aural broadcast service exists and where it is lacking—we find it appropriate to use OT's depiction of FM service of 1 mV/m or greater. While our rules recognize that in some circumstances an FM signal of at least 50 uV/m is sufficient for usable service, we have customarily (as in § 73.37(e) of the rules) used 1 mV/m as the minimum level of FM signal whose presence or absence is treated as significant in establishing the number of FM services available at a particular place or area. This criterion has been used, for example, in determining the extent to which the proposals of individual applicants for a new AM station would provide a first radio service in the sense that the area or population to be served presently has neither interference-free AM groundwave service nor FM service of a least 1 mV/m field strength.

50. Some parties presented technical arguments against relying on OT's depiction of areas served with FM signals of at least 1 mV/m, but we find in them no adequate reason to reject the use of OT's depiction of such service in assembling a broad nationwide picture which, for the spectrum allocation purposes of this proceeding, sufficiently approximates the extent and locations of nighttime aural primary service. This depiction furnishes useful guidance in determining service needs and in considering how clear channel spectrum space may best be used to meet them. CCBS's depictions of AM nighttime primary service are open to some question and adjustment because of departures from the conventional methods of ascertaining the existence of interference-free AM service. However, as in the case of the FM service depictions by OT, for purposes of assembling a nationwide picture of AM nighttime groundwave service, we may satisfactorily use the showings made by CCBS in its updated depictions on this record of what it calls "Type B" nighttime primary AM service. We think it clear that further refinement of either the AM or FM showing would not be useful because it could not be expected to result in a substantial or significant difference in the nationwide measure of the area or

V 4 4 / 1 5 J A 2 2 7 9 UMI

count of the population lacking nighttime primary aural radio service.

51. Consolidating CCBS's mapped depictions of nighttime primary service with OT's depictions of FM signals of at least 1 mV/m, we developed a map which, on a reduced scale, is associated herewith as Attachment 1. It shows that only about one-third of the land area of the contiguous 48 States lacks a nighttime primary aural broadcast service, as contrasted with the more than half of such area depicted as unserved on CCBS' AM maps. According to a population count derived from the 1970 U.S. Census map, fewer than 3¾ million people out of the 200 million who reside in the contiguous 48 States lack nighttime primary aural service as defined. This compares with the 26 million persons estimated by CCBS to lack nighttime AM primary service.

52. Our count of 3,750,000 lacking nighttime primary service is conservatively high for two reasons: We counted as unserved the entire population of all towns located on the borderline of the served area; and we treated FM translators as serving no one outside small towns in which they are located.

53. It must also be recognized that uncounted but substantial numbers of people who live where there are FM signals with a field strength of less than 1 mV/m but at least 50 uV/m are in fact provided with satisfactory FM service. A count by the Columbia Broadcasting System indicates that only about 1¼ million persons who lack AM nighttime groundwave service in the 48 contiguous states also lack FM signals with a field strength of at least 50 microvolts per meter (50 uV/m). On this reckoning, approximately 2½ million people (the difference between 3¾ million and 1¼ million) who lack AM nighttime primary service have FM signals with field strengths ranging from 50 uV/m up to 1 mV/m. Making generous allowance for the effects of conditions which CCBS argues will preclude satisfactory reception of FM signals in that range, it would gressly underestimate the probabilities not to recognize that a substantial number of the foregoing 2½ million people have satisfactory FM service, although of a field strength under the 1 mV/m level denoted as the lower limit of primary FM service. Even making the implausible assumption that only a third of that 2½ million persons (830,000) have satisfactory FM service, deducting 830,000 from our count of 3,750,000 lacking primary service at night, it can be conservatively estimated that fewer than 3 million persons have neither AM primary service nor a satisfactorily usable FM service at night. But we place no reliance on this since, even were the actual number of unserved persons to be assumed—most implausibly—to be as much as a million higher than our 3¾ million figure, that would still indicate the substantially similar result of nighttime primary aural service being available to about 97.5% of the 200,000,000 inhabitants of the 48 contiguous states instead of the 98.2% who are served according to our count. Such a difference is not significant for purposes of establishing or revising nationwide allocations policy.

54. The essential point here is that the future use of clear channel spectrum space must now be determined in recognition of the fact that today all but about 2% of the population in the 48 contiguous states have nighttime aural primary broadcast service. This is far smaller than the proportion lacking nighttime *AM* primary service, on which CCBS and the station licensees seeking higher power heavily rely.

IV. ACTIONS NOW PROPOSED BY FCC

55. The basic pattern of Class I-A channel usage was established over 50 years ago and remains essentially unchanged except for the addition of a single unlimited-time Class II-A station on each of 12 channels.

56. We here set out those conditions for the future use of the 25 Class I-A clear channels which, after considering the comments so far filed, we think would optimally serve recognized allocations objectives under the much changed conditions of today.

57. We reserve our final decision on all the questions arising in this proceeding until we have the benefit of further comment directed to the specific proposals here announced. We accordingly limit our discussion in this Further Notice to the more basic circumstances and considerations which at this stage make the actions we propose appear preferable to the numerous alternatives. We thus endeavor to facilitate further comment by the parties by stating the controlling considerations which have led us to the present proposals, and the purposes to which they are directed.

(A) Preservation of the 50 kW Power Maximum

58. For the reasons which follow, we propose to retain the present 50 kW maximum power for Class I-A stations.

(1) *Balancing Public Benefits—*

59. Much has been said for and against authorizing Class I-A stations to operate at powers greater than the present 50 kW maximum. The question is not whether higher power could yield some public benefit, but whether, on balance, the public interest would be better served by the use of higher power or by retaining the present 50 kW ceiling, thereby opening wider possibilities for a large number of additional stations serving audiences in their local communities and nearby areas.

(2) *Potential For Expanded Services—*

60. The provision of a first nighttime aural primary service to persons now without AM groundwave or FM service is the most significant kind of gain which could be invoked in support of higher power. Yet only 4 Class I-A stations provided estimates of the numbers of people who would acquire their first nighttime aural primary service if they increased power. Those figures, rounded, indicate that 2 of the stations would each provide a first aural nighttime primary service to about 15,000 people. Another claimed 59,000, and the remaining station claimed 180,000.

61. It does not appear, however, that, in arriving at the foregoing figures, the parties took account of limitations imposed on the radius of useful groundwave service by the station's own skywave signals. This is caused by differences in the path traveled by a station's groundwave and skywave signals to points where both are received. The skywave signal travels upward and outward to the ionosphere, which reflects it back over another path down to a place of reception on the earth's surface which the station's groundwave signals have previously reached over the more direct and therefore shorter path which groundwave signals follow along the earth's surface.

62. The resultant time interval between the reception of a station's groundwave and skywave signals and phasing changes cause distortion or fading which interferes with satisfactory reception. This is considered to occur noticeably in the so-called "distortion zone" where the field strength of the station's skywave signal is in the range of half to twice the field strength of its groundwave signal. This distortion zone often ocurs geographically where its effect is to shorten the range of a station's satisfactory groundwave service at night to something less than the distance to the 0.5 mV/m groundwave contour.

63. At higher power, with the present antenna system, the field strengths of both the skywave and groundwave signals of a station at any point of reception would increase by the same ratio. Since their relative values would therefore not change, the distortion zone would not shift geographically with the use of increased power, and the range of satisfactory groundwave service rendered by the station would consequently remain essentially unchanged, unless there were modifications to the antenna which resulted in an appropriate change of the radiation angle. The results of doing this would vary considerably, however, depending on numbers of factors including the frequency, the pertinent soil conductivities, and the amount of the power increase. Calculations by A. Earl Cullum, Jr. and Associates submitted on behalf of the licensee of WCCO, a Class I-A station at Minneapolis, show that, under differing combinations of the foregoing controlling variables, the potential for primary service gains through power increases is restricted in varying degrees. The estimates of primary service gains which have been submitted on this record do not appear to reflect the distortion zone. They therefore cannot be accepted as realistically reflecting the meaningful primary service gains which could be reliably expected to be realized if the stations in question used higher power.

64. Estimates were submitted for two other stations indicating the numbers of persons to whom higher power would bring a first *AM* primary service. Such figures do not, however, bear significantly on the questions before us since—as we announced in the Notice inaugurating this proceeding—we will evaluate the extent of and the need for service by treating AM and FM not as separate services, but as component parts of the nation's aural broadcast service. Persons who receive FM service with a field strength of a least 1 mV/m cannot be treated as unserved for the purpose of establishing meaningful figures showing the potential of higher power for creating a first nighttime primary aural service.

65. Certain other kinds of potential service gains quantified by several Class I-A station licensees similarly offer little of controlling significance in evaluating the pros and cons of higher power. This applies, for example, to counts of people who would, as a result of higher power, receive a stronger skywave signal where the station already provides at least the recognized minimum standard of secondary service—i.e., 0.5 mV/m 50% skywave signal. We are unable to find convincing support for higher power in estimates of the numbers of people who would gain a new or improved skywave service which take no account of the numbers of persons in such gain areas who already have primary service. Some skywave service is already available everywhere in the contiguous 48 states, and most of the population can receive four or more skywave signals. Ten or more skywave services of at least the long recognized standard (0.5 mV/m 50% skywave signals) are available in much of the country. Considering the long distances, ranging into hundreds of miles, between transmitting stations and their outer skywave service areas, as well as the limited extent of listening to distant stations, we cannot find that improved or extended skywave service would sufficiently offset the disadvantages of higher power even with respect to the scattered and relatively few persons who lack nighttime primary service.

66. Nor does higher power appear to promise the provision of a first primary service to enough persons to justify authorizing it at the expense of reducing the numbers of new stations which could otherwise be authorized to provide for needed services to much closer audiences. In any case, whatever numbers of people might be shown to gain a first primary aural broadcast service at night through power increases of Class I-A stations, we believe, for reasons discussed later, that the value of programming services transmitted by stations located relatively distant from the listener cannot be equated with, or even considered as approaching, the presumptive value of service which could otherwise be provided by new stations located much closer to the listeners if power continues to be limited to a 50 kW maximum.

(3) *Program Service—*

67. The argumentation among the proponents and opponents of higher power focuses in part on the value of radio programming to persons living many miles away from the station. The licensees of the stations seeking high power, the Clear Channel Broadcasting Service (CCBS), a number of farm and other organizations, and some individual persons strongly assert that the programming of clear channel stations is beneficial both to rural residents and nighttime highway travelers. They base their statements chiefly on the following grounds:

—That the larger stations are able, with their greater resources, to provide useful national and world agricultural market information and other agricultural news and program services of interest over wide areas; and that smaller stations lack the resources to provide programming of this kind or quality.

—That the general programming of clear channel stations, as well as their specialized farm programming, is of interest to both residential and mobile audiences far from the stations, citing listener surveys which we briefly note in the next section of this Further Notice.

68. Those who oppose higher power challenge the value of the programming of Class I-A stations to distant listeners on numbers of grounds. They find in the differences in crops and agricultural pursuits circumstances which preclude Class I-A stations from being responsive to particular local needs for information about local weather, local market conditions, local pest and disease problems, local calendars of farm organizations and local news and public affairs programming focused on local community problems. The opponents of higher power also stress the extent to which television provides programming of general nationwide interest, and the presentation of national and international news over the facilities of FM stations and smaller AM stations as well.

69. We think the truth lies between the extremities of the positions argued by the contenders, but that stations serving their own and nearby communities generally are in a decidedly better position to provide aural broadcast services which are meaningful and informative and beneficial to their listeners. It is a subject endlessly debated, on which some data take the form of listener surveys, which we turn to next. The Class I-A stations differ considerably in the extent to which they devote staff resources and broadcast time to the provision of programming of the kind which has traditionally been invoked as a prime justification for preserving the long reach of Class I-A clear channel stations with distant rural areas: their farm and agricultural programming. Of the 25 Class I-A clear channel stations, 8 reported that they retain the services of at least one fulltime farm service director. They vary considerably in the amount of time devoted to the broadcast of farm news, farm market reports and other programming primarily of agricultural interest. Several of them reported no such programming. It amounted to at least one hour per week day in only three cases. There was much variation in the performance of stations with respect to programming of particular interest to farm populations in the areas lacking nighttime groundwave service.

70. Among the more concrete indications of the value of radio programming from distant sources are the data which we next note reflecting the patterns and extent of listening to the Class I-A stations.

(4) *Listener Surveys*—(a) *Arbitron.*

71. Some indication of the extent of listening to clear channel stations in areas lacking primary service may be gleaned from data on this record compiled from Arbitron's 1975 nationwide radio survey.

72. At FCC's request, Arbitron compiled, from its national survey, data on 159 of the counties we had preliminarily designated as lacking FM signals with a field strength of at least 1 mV/m. Arbitron had received usable listener diaries from those 159 counties but not from other counties we had additionally named.

73. One of the compilations prepared by Arbitron is entitled "Nighttime Radio Use in Pre-Selected Counties." After eliminating 33 of the 159 counties in that report, which our subse-

V 4 4 / 1 5 J A 2 2 7 9 UMI

quent studies show as having AM groundwave service at night, we note the following data on listening to Class I-A clear channel stations in the remaining 126 counties, all or the larger parts of which lack nighttime primary service.

74. As Arbitron itself acknowledged, and some parties point out, too few diaries came from many of the individual counties to permit reliable conclusions as to listening habits within those counties individually. We think, however, that enough diaries were received in the aggregate to throw useful light on questions pertinent to the basic allocations issues before us in this proceeding.

75. Arbitron received 888 usable diaries from the 126 underserved counties in our study. Only 352 (39.6%) of those 888 diaries indicated any nighttime radio listening at all. Among those 352, only 37 diaries reported listening to one or more Class I-A stations. Those 37 diaries constituted 4.1% of the 888 usable diaries from the 126 counties.

76. The 352 *diaries* had collectively made 525 separate *mentions* of particular radio stations listened to at night. Of those 525 mentions, 47 (fewer than 1 out of 10) were mentions of Class I-A stations. Only 8 of those 47 mentions were made by diarists located more than 750 miles from the Class I-A station mentioned.

77. In all 7 counties where diarists made 8 mentions of listening to distant Class I-A clear channel stations, there were mentions of listening to 1 or more (up to 7) other stations as well.

78. It is possible that a survey based on a larger sampling (i.e., more diarists) might reflect more listening to clear channel skywave signals than this Arbitron survey indicates. There is, however, no rational basis for expecting the figures reflecting listening to attain the magnitude which would be necessary to offset the clear showing of relative disinterest in nighttime listening to distant Class I-A stations or the advantage of radio programming from nearby sources over that produced far away.

(b) *Listener Surveys by Stations:*

79. Reports (and in some instances copies) of communications received by mail and telephone from listeners to 11 of the Class I-A clear channel stations showed some scattered listening on home or vehicle radios far from the stations. But the 20 such surveys on this record which appear to provide at least minimally usable data indicated that, generally, an overwhelming preponderance of listeners were located within a 750-mile radius of the stations. A substantial portion of them are located considerably closer to the station than that.

80. While fully recognizing the indications in the station surveys that some persons living or traveling at greater distances do listen to far away Class I-A stations, we have been unable to find merit in further extending the outer reach of Class I-A stations by permitting them to operate at powers exceeding 50 kW, particularly at the cost of diminishing the potential for adding new co-channel and adjacent channel stations able to serve people living much closer to the principal communities served.

81. We recognize that listening to Class I-A stations may increase to some extent in areas where higher power would provide additional skywave signals or improve existing ones by increasing their field strength and making them less subject to intermittent fading. But again, such listening would have to increase to levels far beyond any reasonable expectancy to offset the enormous qualitative preference we think clearly attaches, under today's conditions, to creating the opportunities for large numbers of new stations serving nearby listeners. This objective is best served by retaining the present 50 kW maximum power.

82. The preferability of optimizing the potential for new stations by holding the power maximum at 50 kW is not offset by such figures as CCBS gleans from Arbitron. Certain of these data indicate that the few diarists in underserved counties who did listen to clear channel stations reported doing so an average of 17 partial or full quarter hours between 9:00 pm and 4:45 am—almost as much as the 19 quarter hours similarly reported for greater numbers of listeners in the home markets of those stations. Nor do we think the case of higher power is significantly strengthened by CCBS's derivation from Arbitron data of a showing that 43% of the clear channel listeners in the underserved counties listened to Class I-A stations at least 3 nights per week, 28% on 4 or more nights, and 10% on six or more nights.

(c) *Doane Farm Broadcast Studies:*

83. Among the listener surveys submitted were a number prepared under the auspices of the National Association of Farm Broadcasters. Conducted for the most part in 1976 and entitled "Doane Farm Broadcast Study" for particular stations, each of these surveys compiled data indicating listening by farmers to a particular radio station and to other radio stations within that station's principal service area.

84. One such study was prepared for WHO, the Class I-A clear channel station operating on 1040 kHz, at Des Moines. That survey covers 69 central Iowa counties and 5 contiguous counties in northern Missouri. These counties appear to lie within the 0.5 mV/m ground service contour of WHO as indicated on Figure 1 attached to the engineering exhibit accompanying the comments filed in this proceeding by Palmer Broadcasting Company, licensee of WHO. As might be expected, WHO led all other radio stations in the percentages of farmers in the survey area listening during 9 half-hour periods (5 morning, 3 mid-day and 1 early evening). Listening in those periods to WHO was reported by 42.9% to 67.7% of the farm homes surveyed. WHO was named by 44.2% of the farmers surveyed as the radio station they feel "provides the most useful and reliable programs and information on weather, farm markets and farm news and information"—over 3 times the percentage for the next most popular station in that respect.

85. Doane farm broadcast studies prepared for other stations in Iowa indicate that WHO commands substantially less of an audience than other stations in numbers of counties within WHO's primary service area. For example, a Doane survey conducted in 28 eastern Iowa counties indicates that WMT, a 5 kW station at Cedar Rapids, Iowa was named by 41.1% of the listening farmers as the most useful and reliable for farm program services, while 17% named WHO. It is significant that 22 of those 28 counties lie wholly within WHO's 0.5 mV/m groundwave (primary service) contour, while substantial parts of the remaining 6 counties also fall within that contour.

86. During 4 morning, 3 mid-day and 2 early evening half-hour periods, between 36.0% and 58.4% of the farms surveyed listened to WMT, while 9.1% to 24.8% of them listened to WHO. These figures give some indication of the extent to which, even within the primary service area of a major clear channel station which devotes considerable staff and programming to farm needs, the farm listeners tend to patronize a closer station.

87. Another instance of this is reflected in a Doane survey prepared for station KMA, a 5 kW AM station at Shenandoah, Iowa. It was named by 44.9% of the farmers surveyed as the most useful and reliable source of programming of interest to farmers—nearly 4 times the nearest competitor. KMA's farm audience shares were higher than those of the other stations surveyed, and ranged from 27% to 54.8%, while WHO's shares for the same periods ranged from 6.8% to 23.9%. WHO's listening exceeded KMA in 2 of the 10 periods while in 8 it ranged from 13% to 49% of KMA's share. Every county in KMA's listening area surveyed is within the .5 mV/m groundwave contour of WHO.

88. Another Doane survey indicates that even a small Class IV station at Burlington, Iowa (KBUR) could, during some periods, attract larger audiences than WHO, whose groundwave service covers all of the 4 southern Iowa counties and 1 contiguous Illinois county included in the KBUR listener survey. While KBUR was reported to have a sharply lower farm audience share than WHO during 2 half hours KBUR was moderately lower than or tied with WHO in 3 other periods and exceeded WHO in 2 periods.

89. Doane surveys thus show that closer by stations can exert a highly significant draw on listeners even within the primary service area of Class I-A stations.

90. To sum up, the several sources of listener data in the record of this proceeding indicate the relative lack of value of distant signals, especially distant skywave signals, as compared with the much more heavily patronized program service provided by nearby stations. This illustrates the waste of spectrum space which would result from permitting Class I-A stations to use higher power, as a means of further extending the already long reach of their usable groundwave signals, or of extending the range—already counted in hundreds of miles—of their usable skywave signals. These listening data underscore the preferability of retaining the 50 kW power maximum in order to maximize the numbers of stations able to provide the more useful, and more used, programming services nearby stations can offer.

(5) *Interference from Foreign Stations—*

91. Some proponents argued that higher power would help to overcome interference received within the United States from stations outside this country.

92. A report of monitoring conducted by FCC's Field Operations Bureau on May 20 and May 22, 1976 at twelve locations distributed throughout the 48 contiguous states records 197 instances of interference detected from stations outside the United States. Only 21 of those 197 instances were monitored at locations within the 750-mile radius of the US Class I-A station's transmitter—the general range of skywave service of the standard of 0.5 mV/m 50% skywave signal or better.

93. Of the 21 instances, 7 were on the channels occupied by Class I-A stations which did not state any clear intention to adopt higher power even if permitted. All of the remaining 14 instances were monitored from locations about 600 miles or more from the Class I-A stations concerned. That is to say, the only 21 instances reported at locations within the 0.5 mV/m 50% skywave contours of the U.S. Class I-A stations were nevertheless detected so far away from the Class I-A station that improvement achieved by the use of higher power could only serve to bring programming in more clearly from very distant stations at the cost of reducing the numbers of new stations which could otherwise be assigned to the Class I-A channels concerned.

94. Studies indicating interference from foreign sources to the service areas of three Class I-A stations (WSM at Nashville, WGN at Chicago and WWL at New Orleans) were submitted as part of an engineering statement submitted on behalf of the CCBS. In the case of WSM the interference was indicated to occur in areas extending from about 250 to 750 miles from the station. A similar showing was made for WGN. In the case of WWL the interference calculated from a station in Havana, Cuba was indicated on a map as interfering with reception in a wide area which included all of the primary (groundwave) service area of the station. This depiction appears to be based on skywave-to-skywave interference, and does not reflect interference-free groundwave service which is rendered by WWL.

95. Primary service, not indicated on CCBS' submission, is available from other stations throughout most of the areas in which foreign interference to the three foregoing stations is depicted. Multiple shywave services numbering for the most part 5 or more are available throughout those interference areas.

96. Neither these nor other pertinent submissions have demonstrated that higher power—at the cost of reducing or eliminating the potential for new stations—could be justified as a means of overcoming interference from foreign stations. In so evaluating the data and argument on this subject, we do not rely on speculation advanced by some parties that if U.S. Class I-A stations were to increase power, others (who are in violation of NARBA in some cases, or who in other cases are not NARBA signatories) would make offsetting power increases which would nullify the effect of power increases by U.S. Stations.

(6) *Other Considerations Affecting Higher Power—*

97. Opponents additionally object to higher power on economic, social, and technical grounds: Excessive competitive advantage, excessive concentration of control and excessive radiation.

(a) *Competitive Impact:*

98. The contention that the use of higher power by Class I-A stations would inflict intolerable economic injury on competing stations, to the detriment of their capacity to serve the public, was urged by the licensees of 17 AM stations, the National Radio Broadcasters Association (representing over 700 AM and FM stations), several state and local broadcasters' associations and others. The 17 included licensees of 2 Class I-B stations operating at 50 kW power in the same city as the pertinent Class I-A station. The remaining 15 included 4 Class II stations, 8 Class III stations and 3 Class IV stations. Of the 17, 5 (including the two Class I-B stations already mentioned) are located in the same city as the Class I-A station whose power increase they object to, and 12 were located outside those cities. The 17 included 14 unlimited-time stations, 2 daytime only stations and one limited time station.

99. Some of the objectors offered only unsupported assertions such as that higher power would "injure thousands of local stations financially" or would cause "economic devastation" or "irreparable financial harm" to smaller stations in the area. Others rationalized their objections with argument that, with higher power, Class I-A stations would siphon or fractionalize audiences of the smaller local stations, and would capture or divert undue shares of the advertising dollars previously available to the smaller stations. Supporting data were not furnished.

100. Counter arguments by CCBS and the Class I-A stations seeking higher power included contentions that:

- —The claims of economic injury were unsupported;
- —The proponents of higher power should not be called upon to prove a negative;
- —Questions about economic injury were more suitable for resolution in adjudicatory hearing on specific applications for higher power.

101. A study prepared by Professor Edward J. Mitchell of the University of Michigan's Graduate School of Business Administration indicates that an additional signal may be expected to reduce the audiences and revenues of existing stations only by very small amounts.

102. We are unable to find that a convincing case has been made for the proposition that higher power may generally be expected to exert competitive impact adverse to the public interest. We agree with those who contend that the question of economic injury here, as in other instances, is better suited to evaluation and decision in *ad hoc* adjudications based on the facts of particular cases.

103. We do not pause to discuss the pros and cons of the comments on economic injury in more detail because the preference for maintaining the present power limit—which we believe is clearly demonstrated on other grounds—moots this issue. In making this assessment, we have not relied on the contraverted and thinly supported

contention about the potential of higher power to inflict economic injury.

(b) *Concentration of Control:*

104. Opponents of higher power argue that permitting it would disserve the objectives of diversification of control over mass media, and would unduly concentrate in a few stations an objectionable degree of mass media control.

105. Energetic pumping may be needed to keep this contention afloat in the sea of broadcast signals flooding places where the American populace predominantly lives, with multiple waves of broadcast programming transmitted by 8,500 AM and FM radio stations, nearly 1,000 TV stations, and further disseminated by additional thousands of FM an TV translators and cable television systems.

106. In noting that most Americans are thus assured multiple broadcast services from diverse—and for most part, numerous—sources, we neither intimate that we think the goal of diversification of broadcast programming has been fully attained nor discount the importance of continuing efforts to enhance the degree to which it has so far been achieved. Nor do we mean to suggest that we see the enlargement of what are already the most extensive service areas of any class of station as devoid of any potential of undue media concentration.

107. It is noteworthy, however, that it was not in derogation of the importance of diversification that the Class I-A stations have always been afforded protection from interference greater than that provided to any other AM stations. Class I-A stations have thereby been afforded wider reach for the explicit purpose of enabling them to provide usable skywave signals to people living in more sparsely settled areas where primary service is not available from stations closer by.

108. As a result of being enabled to place interference-free signals far out from their transmitters, Class I-A stations typically place serviceable signals over areas encompassing tens of millions of persons. Service needs as they existed in the past justified—if not commanded—the establishment of such vast service areas and such potentially vast audiences for clear channel stations, which are unavoidably limited in numbers by the relentless imperatives of nighttime propagation conditions in the AM band.

109. As we now re-examine Class I-A clear channel allocations, we believe we should similarly give controlling weight to service needs as we find them today. Accordingly, in choosing between divergent courses of allowing higher power or of opening the way to more new co-channel and adjacent-channel stations than could be attained if higher power were permitted, we have been impelled to our preference for the latter not because we can perceive in higher power a demonstrably damaging diminution of media diversity or realistic opportunity for Class I-A stations to exert dominating "concentration of control". Rather, we have found under today's conditions that the need for more stations able to serve the public in and relatively near their principal communities has been convincingly shown to be greater than the need for augmenting the capacity of clear channel stations to extend the reach of their signals through the use of higher power. In so finding we have not placed reliance on the questionable claim that Class I-A stations with higher power would become devouring mass media monsters. Such a contention es hardly borne out by fifty years of experience with the operation of Class I-A stations protected, either totally, or to a degree greater than any other class of station, against interference from co-channel operations at night.

(c) *Technical Effects:*

110. Opponents objected to higher power for several alleged terrestrial and ionospheric effects. We discuss them only briefly because, for the below-stated reasons, none of the technical arguments has been accorded controlling weight in arriving at our proposal to reject higher power.

111. (i) *Blanketing.* We do not question the arguments presented that blanketing problems would occur with the use of power greater than 50 kW. With field strength running extremely high out as far as five or more miles from the transmitter site, there would be problems involving receiver overloading, electrical charging of objects, interference to the operation of telephone office equipment, internal and external cross-modulation, and others. However, these anticipated problems are not of such magnitude as to be beyond state-of-the-art techniques for resolving them.

112. We would expect and require, if higher power were authorized, that transmitter sites be selected in areas where the least number of potential problems would be incurred; and our rules (see § 73.88) require a licensee "to satisfy all reasonable complaints of blanketing interference within the 1V/m contour." Objects which might be electrically charged could be grounded or detuned. Also, interference to the operation of nearby telephone equipment could be corrected through the use of shielding or other devices. The principal contention of AT&T appears to be that its subsidiary operating companies should be spared the cost of such needed corrections, not that such correction could not be made.

113. A question has been raised as to the potential biological effects that might result from the use of higher power. At the present time there are no meaningful standards for determining what levels of radiation at the subject frequencies could be expected to be biologically harmful. In light of our proposal to retain a 50 kW maximum power level, we need not defer acting on clear channel reallocations until such indefinite future time as adequate data and reliable standards have been developed.

114. (ii) *Interference to Adjacent Channel Stations.* Another ground of objection advanced against higher power is resultant interference to adjacent channel stations. The remedy of a low pass audio filter has been plausibly suggested; but we do not, in any event, propose to authorize higher power.

115. (iii) *Ionospheric Effects.* Objections that signals transimitted at powers in excess of 50 kW would induce interfering cross-modulation with other signals reaching the ionosphere, or would appreciably deteriorate the capacity of the ionosphere to function as a reflector of radio signals, were neither supported nor refuted conclusively. The Office of Telecommunications advised that additional testing programs would be needed to evaluate the merits of so-far insufficiently supported claims. It is unnecessary, however, to incur either added cost or delay for such testing since, on the entirely independent grounds of service needs, we in any event propose to retain the present 50 kW power maximum.

(7) *Across-The-Board 9-Times Power Increase—*

116. The licensee of Class I-A station WCCO at Minneapolis proposed that all AM broadcast stations of all classes operating on all channels be authorized to increase power to 9 times the present levels. On this basis, WCCO proposed to increase its own power 9 times to 450 kW. Two additional licensees support this approach.

117. This proposal is beyond the scope of Docket 20642, which encompasses only the Class I-A channels. Apart from the fact that this proposal involves all AM broadcast channels, it would necessitate prior negotiation and agreement with the neighboring countries whose use of AM frequencies is governed by international agreements.

118. Also, this proposal would call for large outlays for transmitting equipment which may be beyond the means of many stations whose service areas would be much reduced if the increased field strength of interfering signals were not offset by corresponding power increases of their own.

119. These, in any event, are not questions which we could appropriately attempt to deal with in this proceeding.

(8) *The Decisive Factor: Service—*

120. The fulcrum on which the arguments for and against higher power balance most decisively is potential service gain. We have therefore sought to weigh carefully the service gains realizeable with higher power against others best attainable if power continued to be restricted to the present 50 kW maximum.

121. In comparing service gains foreseeable with and without higher power, mere head counts of the numbers of persons standing to benefit in some fashion or other cannot be permitted to dictate the choice. When dealing, as we do here, with basic spectrum allocations, some qualitative differences among various kinds of service gains bear much more significantly on the legislated goal of a "fair, efficient and equitable distribution of radio service" than mere comparative enumerations of populations in gain areas.

122. We do not overlook the enthusiasm for distant stations displayed in some testimonials filed on behalf of higher power when we recognize the predominant—in some cases the virtually exclusive—orientation of radio stations to their own and relatively nearby communities. With the shift of most broadcast programming of national interest to television, the predominant fare of aural broadcasting has become a combination of recorded programming and locally oriented live program services. Because of this, the value of adding even primary service out at the periphery of the groundwave service area of Class I-A stations—which is usually up to 100 or more miles from the transmitter—does not weigh comparably, under today's very much changed patterns of broadcast programming and listening, with the patent benefit which a first primary service, (or the fulfillment of some other kinds of needs noted later) can provide to audiences living much closer to a station. We accordingly believe that mere comparative counts of populations in primary gain areas cannot govern our election between higher power and the maximization of the potential for new stations able to serve listeners who live closer by, although they may aggregate smaller numbers.

123. In sum, under today's conditions the preferability of aural broadcast service from a closer source, as compared with far-distant sources, is so marked that it decisively impels us to favor retaining the present 50 kW maximum power in order to maximize the opportunities for providing additional services.

(B) *Shared Use of Class I-A Clear Channels*

(1) *Protected Class I-A Service Areas—*

124. Some parties urge that, whether or not we authorize higher power, we should in any event permit no further duplication of station assignments on the Class I—A clear channels. This is proposed on the essential basis that there should be no curtailment—by interference from added cochannel stations—of the service Class I-A stations can render if further channel sharing is barred at night within the 48 contiguous states. We are asked to maintain such a barrier alike for the 11 channels now occupied exclusively by a single Class I-A station, the 12 on which one additional station now operates, and the remaining two, the use of which the Class I-A station now shares with two other unlimited time stations located in the 48 contiguous states.

125. This position is extreme. Even in 1961, when we still counted persons lacking nighttime primary service as numbering over 25 million, we recognized that it would not be appropriate to continue indefinitely to confine the nighttime use of 25 AM clear channels to a single station operating at 50 kW. That evaluation is strongly reinforced with the recognition, today, that fewer than 4 million persons lack nighttime primary radio service, and by the fact that—making generous allowance for the imprecision of available listener data—there is scant listening on any regular basis to 50 kW stations located more than 750 miles away. The showings that a relatively few more distant residents or travelers do listen to far away Class I-A stations do not justify the preservation of the possibility of such reception at the cost of barring additional stations needed for the far more useful purpose of providing local service to relatively nearby audiences.

126. We are thus unable to see merit in the status quo, which would amount to the perpetuation of a now outmoded barrier to placing any additional stations on Class I-A clear channels.

127. On the other hand, we are urged to end protection to any skywave service provided by Class I-A stations. Some would go even further and permit new stations to place interfering signals even within the present primary (groundwave) service areas of the Class I-A stations. One proponent advocated establishing the 2.5 mV/m groundwave service contour as the protected service contour. Others would have us reduce substantially the maximum power now permitted for Class I-A stations, thus effectively reducing their status and curtailing their capacity to serve their metropolitan areas which, in some instances, are extensive.

128. Proposals such as the last-mentioned one go, we think, to unwarranted extremes, and depart excessively from the previously established nighttime protection standard for duplicated clear channel Class I stations; i.e., protection by co-channel Class II stations to the 0.5 mV/m 50% skywave contour of the Class I station. This standard applies to already duplicated Class I-A channels and conforms with the even longer established degree of protection accorded to Class I-B clear channel stations. It protects from objectionable interference areas where the Class I station provides reasonably usable signals. It permits interference to areas—generally more than 750 miles or so from the station—where intermittence, fading, and weakness of signal preclude generally satisfactory service and permit only random or sporadic reception. Always of questionable value, such servicé cannot on any reasonable basis be viewed today as warranting preservation at the cost of barring the addition of needed stations on the least crowded portion of the AM spectrum.

129. We accordingly propose, as one alternative, to establish the 0.5 mV/m 50% skywave contour of the Class I-A stations as defining the areas which new stations must individually preserve from objectionable interference. Any lesser standard of protection to Class I-A stations would remove some usable signals now available to some places dependent on skywave services.

130. In referring to the location of a protected 0.5 mV/m 50% skywave contour as 750 miles or so from the transmitter, we have for convenience used an approximation from which departures occur in practice. First, the precise location will vary by some tens of miles with differences in antenna systems. Also, numbers of co-channel Class II stations, each individually protecting the 0.5 mV/m 50% skywave contour, may be expected—because of cumulative effects—to create some additional interference within that contour. There is no rational basis, however, on which to expect shrinkage of the service area within that contour to be large enough to upset the balance of basic considerations underlying our present proposals. That balance does not teter precariously on the 0.5 mV/m 50% skywave contour, and it remains unaffected by cumulative interfering effects such as those now experienced, and permitted, in the case of Class II stations on Class I-B clear channels.

131. We also invite comments on and will consider the alternative of ending protection for skywave services areas of some or all of the Class I-A stations, particularly those located east of the Mississippi River, where AM and FM primary service is more plenti-

V 4 4 / 1 5 JA 22 79 UMI

V 4 4 / 1 5 JA 2 2 7 9 UMI

ful than in the West. Nighttime protection would, instead, be afforded to the 0.5 mV/m groundwave contour of the Class I-A station. Proponents of this protection standard should submit showing as to the additional numbers of new stations which this step would make possible and comparisons of the needs they could serve with the value of the skywave services so eliminated.

132. Although, as stated in Section IV(B)(4)(b), we propose initially to defer acceptance of applications for new daytime-only Class II stations on the Class I-A channels, we invite comment at this time on the question of whether protection to the Class I-A stations should be changed from their 0.1 mV/m contour to their 0.5 mV/m contour.

133. Having reviewed the sparse comments in this docket on standard radiation patterns, we see no reason not to require their use by new Class II stations on the Class I-A clear channels.

2. *Objectives—*

134. We propose to provide for acceptance of applications for unlimited-time facilities on the 25 Class I-A clear channels which would either serve one of the purposes set out in Rule § 73.37(e)(2), or merit waiver of those threshold requirements because they would help to remedy the dearth of minority-owned stations, or present other sufficiently meritorious grounds for waivers.

135. The application of § 73.37(e)(2) would permit the filing of applications which assure:

(i) That at least 25 percent of the area or population which would receive interference-free primary service at night from the proposed station does not receive such service from an authorized AM broadcast station or service from an authorized FM broadcast station with a signal strength of 1 mV/m, or greater, or,

(ii) That the proposed station would provide the community designated in the application with a first or second authorized nighttime aural transmission service, and no FM channel is available for use in the community, or,

(iii) That at least 20 percent of the area or population of the community designated in the application receives fewer than two aural services at night from authorized stations, and that no FM channel is available for use in the community.

These purposes, well established for AM stations on other channels, are similarly suitable for new unlimited-time stations or nighttime facilities for authorized daytime-only stations on the Class I-A channels; and we propose to permit use of the full range of operating powers which are permissible for Class II stations generally: from 0.25 to 50 kW. Geographic limitations such as for Class II-A stations would not be useful under our present proposals.

(3) *Opportunities for More Minority-Owned Stations—*

136. The Commission, the Executive Branch, and the Courts, noting the marked dearth of minority-owned broadcast stations, have recently expressed increasing recognition of the deficiency this represents in fulfilling the public interest objectives of the nation's broadcast service.[4] It will accordingly be our policy to give attentive consideration to the possible merit of granting waivers of the above-noted rules to minority applicants. We do this in recognition of the large unsatisfied need for minority-owned stations which exists in numbers of large multiple-stations communities where large numbers of minority persons live, and where new stations could not meet the stated threshold requirements of the rules. It may be easier to meet such requirements in the case of stations serving minorities living on Indian reservations, but we would of course consider waiver requests, where needed, for them also.

137. We believe this waiver process is the method most conducive to advancing the goal of enhanced minority ownership and operation of broadcast stations, while avoiding exclusions of non-minority applicants or the preclusion of opportunities, either under the rules or under rule waivers, for new stations on the Class I-A clear channels which would serve other purposes. In according due recognition to the dearth of minority ownership of broadcast stations and the public purposes which could be served by enlarging such participation by minorities in this broadcast service, we establish no quotas or automatic exclusions or inclusions, but leave the way open to consider, on the facts of each case, the public benefits promised by minority applicants, as against the public benefits which may be expected to flow from use of the spectrum by any others, either for purposes recognized in the rules or for any other purpose for which rule waivers may be shown to be meritorious.

(4) *Daytime-Only Stations—T1(a) Extended Hours of Operation:*

138. The Daytime Broadcasters Association and numbers of station licensees urged that Class I-A clear channels be used to accommodate unlimited-time operations (or extended hours) for daytime-only and limited-time stations.

139. To the extent that they could meet proposed requirements set out in Sections IV-B(1), (2) and (3), the licensees of existing daytime-only and limited-time stations would be able to apply for authorization to operate unlimited-time on Class I-A clear channels.

140. Some licensees, who may be unable to meet the foregoing requirements, have urged special considerations such as that extended hours of operation would enable them to provide agricultural programs, in which they specialize, at convenient morning hours to much larger numbers of farm listeners located over a much wider area. The appropriate way to obtain consideration of proposals believed to have special merit, but which doe not comply with general requirements, or the rules, would be to submit duly supported requests for waivers of such requirements. We cannot appropriately act upon such *ad hoc* proposals in this broad, nationwide allocations proceeding.

(b) *New Daytime-Only Stations:*

141. We propose to defer accepting applications for new daytime-only stations on the Class I-A clear channels until we find such deferral no longer necessary to avoid preclusion by daytime-only stations of potential for needed services gains realizable from unlimited-time Class II stations.

5. *Noncommercial Broadcasting—*

142. The Corporation for Public Broadcasting (CPR), in comments supported by National Public Radio (NPR), which were accompanied by much impressively detailed supporting data, analysis and documentation, proposed three methods for making possible the assignment of considerable numbers of additional noncommercial AM radio broadcast stations.

143. Two of those methods—use for AM broadcasting of frequencies below and above the present AM band, and the reduction of AM channel separations from the present 10 kHz to eight or nine kHz—are beyond the scope of this proceeding, and would require international concurrence.

144. We have been unable to evaluate the third proposal—reservation of clear channel spectrum space for noncommercial educational use—as commanding a preference over the other needs we have noted in this Further Notice, only a part of which could in any event be met with the Class I-A spectrum space we are able to make available. In these circumstances, while recognizing the worthwhile nature of the purposes for which CPB and NPR seek a reservation of AM spectrum space for noncommercial use, we must regretfully decline to adopt their proposals to add a substantial reservation of AM spectrum space to the existing provisions for exlusive noncommercial use of 20 FM channels.

FCC Statement of Policy on Minority Ownership of Broadcasting Facilities, FCC 78-322, May 25, 1978.

Office of Telecommunications Policy (OTP) Petition for Issuance of Policy Statement, filed with FCC, January 31, 1978.

6. *Other Demands for Clear Channel Spectrum.*—(a) *KOB and 770 kHz:*

145. The licensee of KOB, authorized to operate at Albuquerque, New Mexico as a Class II-A station on Class I-A channel 770 kHz, recurs in this proceeding to a long-standing request for authorization to operate in the manner of a Class I-B station, mutually protecting and receiving directionalized protection from the dominant Class I-A co-channel station, WABC at New York City. WABC, wishing to continue omni-directional operation, objects.

146. Questions about the appropriate mode of KOB operation on 770 kHz have been before us for 37 years, since November, 1941, when its operation was shifted to 770 kHz as necessitated by international agreement on the use of AM channels in North America. No other station assignment among the thousands so far established has approached this one in the length, complexity, and thoroughness of the consideration that has been accorded in adjudicatory and rulemaking proceedings before the Commission, and in repeated judicial reviews. It required five pages of the Report and Order we adopted in 1976 on this matter in Docket 6741, 59 FCC 2d 32-36, even to outline the major developments affecting KOB's use of 770 kHz since 1941. We concluded in that proceeding that KOB should function as a Class II-A station directionalized to protect the 0.5 mV/m 50 percent skywave contour of co-channel Class I-A station WABC at New York City operating omni-directionally. This decision was affirmed by the Court of Appeals of the District of Columbia, *Hubbard Broadcasting, Inc.* v. *FCC*, ——— F. 2d ——— (1978). The United States Supreme Court denied certiorari, ——— U.S. ——— (1978).

147. In comments filed in this proceeding, KOB would have us conduct still further proceedings through which it persists in seeking what we considered and rejected in the above-cited Report and Order (authorization to operate on 770 kHz in the manner of a Class I-B station at Albuquerque, mutually protecting and receiving mutual protection from WABC, which would be obliged to be directionalized in the manner of a Class I-B station). The specific question of whether to provide for the Class I-B mode of operation on 770 kHz has been before us since 1944, when we instituted an adjudicatory proceeding in Docket 6584 to consider it and other possible modes of operation by KOB. In 1958, we concluded in favor of Class I-B type operations by KOB and WABC sharing 770 kHz. The Court of Appeals of the District of Columbia, when it affirmed this decision, *American Broadcasting-Paramount Theatres, Inc.*, 280 F. 2d 631 (1960), noted and characterized as an "inequity" the fact that WABC was being required to directionalize its operation while the other two network "flagship" stations, WCBS on 880 kHz and WNBC on 660 kHz, would be permitted to continue to operate omni-directionally. The court indicated its expectation that the Commission would provide opportunity in appropriate proceedings to deal with this disparity, which the court considered objectionable.

148. In 1961, in our decision in the general Clear Channel rulemaking proceeding in Docket 6741, we rejected, as undesirable, the general pairing of Class I-A stations with another Class I co-channel station, and adopted, instead, reallocation plans in conformance with which WCBS and WNBC were permitted to continue omni-directional operation. Pursuant to the above-noted 1960 mandate of the Court, we proceeded then to consider (in further adjudicatory proceedings in Docket No. 6584) whether, taking into account all the relevant circumstances, the disparity in requiring WABC to directionalize while WCBS and WNBC remained omni-directional was justified. We concluded that it was. 35 FCC 36 (1963).

149. Upon review, the Court of Appeals for the District of Columbia reversed, *American Broadcasting-Paramount Theatres, Inc.* v. *FCC*, 345 F. 2d 954 (1965), and directed the Commission to conduct still further proceedings to remedy what the Court found to be unacceptable distinctions in the treatment of the three New York network-owned AM stations. For that purpose, we reopened the Clear Channel Docket 6741 to consider how KOB could best be authorized to operate on 770 kHz while meeting the Court's requirements with respect to equivalent treatment of the network-owned "flagship" stations. On April 21, 1976, after considering detailed submissions by the licensees of KOB, WABC and other interested stations, we adopted our above-cited Report and Order definitively establishing KOB's status as a Class II-A station obliged to protect WABC operating omni-directionally as the Class I-A station on the channel, at New York City.

150. In the present proceeding, KOB asks that we issue a supplementary notice of proposed rulemaking looking toward permitting applications for a second Class I station operating in a Class I-B mode which would mutually protect and receive protection from the present Class I-A station operating on 13 of the Class I-A clear channels: 660, 670, 720, 770, 780, 880, 890, 1020, 1030, 1100, 1120, 1180, and 1210 kHz. This proposal is similar to, but much more sweeping than the proposal on which we invited comments in our 1958 Further Notice of Proposed Rulemaking in Docket 6741, in which we proposed I-B type pairing of two Class I stations on five of the Class I-A clear channels. After considering responsive comments, we subsequently rejected Class I-B pairing as an undesirable general method of reallocating the use of the Class I-A clear channels for reasons stated in our 1961 Report and Order in Docket 6741, 31 FCC 565, 570.

151. We have again, in the instant proceeding in Docket 20642, considered this general mode of clear channel reallocation under the changed conditions of today. Again, we find it undesirable. The delays and problems in accommodating new directional antennas which in crowded metropolitan areas would meet zoning, environmental, aircraft safety and other requirements, contribute to the undesirability of ordering directionalization of Class I-A stations. That is in any event undesirable because service gains from a second co-channel Class I station could be achieved only at the excessive cost of uprooting patterns of service to metropolitan areas and in some cases, virtually throughout the home state of the present Class I-A station, on which the public has come to rely over a period of decades.

152. The service gains which directionalizing the Class I-A station would make it possible for a co-channel station to provide would occur beyond the outer reach of the interference-free signal a Class II station can provide with the Class I-A continuing undisturbed omni-directional operation. Thus, the gains achieved at the cost of dislocating longstanding service by the Class I-A station would generally fail to achieve today's goal of service from radio stations able to orient their broadcasts to the needs of persons living relatively nearby.

153. A general program of I-B type pairing on Class I-A channels would be subject to the additional disadvantage that it would trade primary service gains in some areas for primary services losses in others. This would be especially objectionable for persons who would thereby lose their only nighttime primary service. The extent of such losses would vary from channel to channel, but they would be objectionable wherever they occur. KOB has presented data in this preceding going to the relative gains and losses which directionalizing the three New York Class I-A stations would provide. In doing so, KOB would have us once again entertain its *ad hoc* proposal which has been litigated and relitigated all the way to the Supreme Court in the most prolonged proceedings in the history of this Commission.

154. Having again considered Class I-B pairing on a general, nationwide

V 4 / 15 JA 22 79 UMI

scale, and still believing it to be undesirable—and clearly less desirable under today's conditions than the alternative nationwide reallocations we propose in this Further Notice—we do not now reopen or re-evaluate the merits of the exceptional, *ad hoc* Class I-B type pairing which KOB again proposes for 660 kHz, 770 kHz and 880 kHz.

155. Nor do we relitigate the question on which the Court of Appeals has spoken twice: whether 770 kHz alone might be I-B paired while the CBS and NBC "flagship" stations are left omni-directional.

(b) *Use of AM Clear Channels in Alaska:*

156. Three licensees of AM stations in Alaska propose revision of the present method of calculating the field strength of the skywave signal which Alaskan stations lay down at night within the lower 48 states. By Section 73.25(a)(4) of the Rules, Class II stations operating in Alaska on the Class I-A channels are forbidden to place a signal within the 48 states greater than 0.025 mV/m-10 percent skywave.

157. Essentially, the Alaskan stations claim that the curves which the rules now oblige Alaskan stations to use neglect the effect of high latitudes of the transmission path between Alaska and the 48 contiguous states, and that due cognizance of those latitude effects would indicate a much lower field strength for their signals within the 48 states. It is accordingly requested that Alaskan stations be permitted to use a different curve that would reduce the indicated interfering potential of their signals within the 48 states enough to enable them to use higher nighttime powers, thereby bringing service to needful areas in Alaska. This is opposed by the licensees of stations in the lower 48 states, who offer counter arguments.

158. Lacking adequate factual basis for doing so, we do not endeavor to resolve this matter in this proceeding. We have, however, taken steps to set up a program for securing field strength measurements needed for the evaluation and resolution of this question. If the data we obtain adequately support revision of the present curves, we would proceed by way of a separate proceeding appropriate for that purpose.

159. It is useful that this matter has been raised, and we regret our inability to deal with it in this proceeding on the basis of the information so far available to us. In pursuing this matter separately we remain mindful of the desirability of expanding the services available in Alaska.

160. We propose, in any event, that Class II stations operating on Class I-A channels in Alaska no longer be required to provide border protection to the 48 contiguous states, but that they be expected to meet the same standards of protection to Class I-A stations and other stations as apply to Class II stations located within the 48 contiguous states.

(c) *Additional Facilities on Adjacent Channels:*

161. We also propose that, upon the adoption of new rules governing the use of the Class I-A clear channels, the limitations, in § 1.569 of the rules, on adjacent channels be rescinded.

(D) Applications Processing

162. Our proposals for opening up spectrum space on the 25 Class I-A clear channels and adjacent channels may be expected to attract the filing of numerous applications, many of which may be mutually exclusive with numbers of others. The Commission is considering means by which the delays and costs of long, complicated comparative hearings may be reduced.

163. For one thing, we are studying possibilities for assisting with the resolution of conflicts without hearings by facilitating negotiations leading toward the voluntary adjustment of station proposals so as to eliminate mutual exclusivities wherever the parties may find it feasible and in their interests to do so.

164. We also believe it worthwhile to inquire into the possibilities for resolving remaining conflicts by other means, such as by using lotteries or auctions—methods which are now under consideration as possible alternatives to time-consuming hearings which are financially exhausting for some applicants, prohibitive for others, and unduly burdensome to the public.

165. Comment is invited on how alternative means, such as the foregoing, of resolving mutual exclusivities without hearings may be feasibly employed.

V. INVITATION TO COMMENT

166. Accordingly, pursuant to authority under Sections 1, 4 (i) and (o), and 303 (a) through (d), (f), (g), (h), and (r) of the Communication Act of 1934, as amended, it is proposed to amend the rules governing the use of the AM Class I—A clear channels and of adjacent AM channels so as to permit their use, and impose associated requirements, substantially as basically proposed in this *Further Notice of Proposed Rule Making*, or in accordance with such variants, modifications or alternatives within the scope of the issues of this proceeding as we may find preferable after considering the entire record.

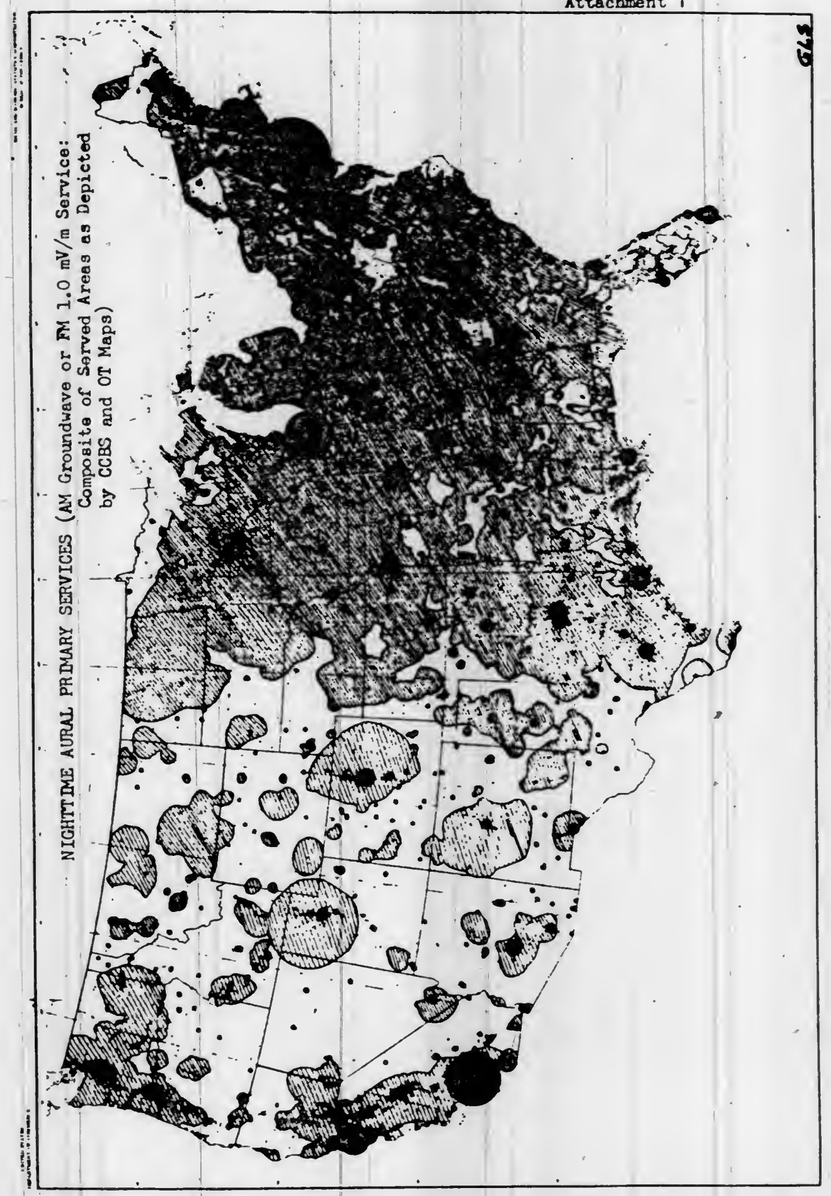
167. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested parties may file comments on or before April 9, 1979, and reply comments on or before May 9, 1979.

168. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 5 copies of all comments, replies or other documents filed in this proceeding shall be furnished to the Commission. Participants filng the required copies who also desire that each Commissioner receive a copy of the comments may file an additional 6 copies. Members of the general public who wish to participate informally may submit one copy of their comments, specifying the docket number. Responses will be made available for public inspection during regular business hours in the Commission's Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

169. For further information concerning this proceeding contact:

Louis C. Stephens, Staff Attorney (202) 632-6302, or

Gary L. Stanford, Staff Engineer (202) 632-9660.



Members of the public should note, however, that from the time a notice of proposed rule making is issued, and until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings such as this one, which involves present and future AM station assignments and channel utilization. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[Docket No. 20672; FCC 79-8]

AMATEUR RADIO SERVICE

Modifying Procedures for Renewal and Modification of Licenses

AGENCY: Federal Communications Commission.

ACTION: Termination of Docket 20672.

SUMMARY: The Commission is terminating Docket 20672 that proposed to require amateur licenses to submit their original license document upon application for renewal or modification of that license.

EFFECTIVE DATE: Non-Applicable.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Ms. Stephanie Spernak, Personal Radio Division, (202) 632-7175.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—(PROCEEDING TERMINATED)

Adopted: January 8, 1979.

Released: January 18, 1979.

In the matter of amendment of Part 97 of the Commission's rules modifying procedures for renewal and modification of licenses in the Amateur Radio Service. (Docket 20672): See 40 FR 59453.

By the Commission: 1. On December 16, 1975 the Commission released a Notice of Proposed rulemaking (40 FR 59453) to change slightly the application procedure for renewal and modification of Amateur Radio Service operator and station licenses. Under current procedure, a licensee may submit either the original license, or photocopy, with a renewal or modification application. The Commission found that some amateurs abused this option by altering the original license, photocopying it, and sending the photocopy with the application. Invariably, such alteration was done in order to obtain operating privileges or examination credit for which the licensee did not qualify. The majority of forgeries were by Technician Class operators who had been examined by volunteers and then altered their licenses to resemble those issued to Commission examined Technicians, thereby gaining credit for the examination elements passed.

2. To insure a reliable and fair procedure for license renewal and modification, the Commission proposed to amend rule Sections 97.13 and 97.47 to require a licensee to submit the original license with the FCC Form 610. The Commission proposed to amend rule Section 97.83 to exempt a licensee who is renewing or modifying a license from the requirement that the original license be in his or her possession at all times.

3. The Commission received eight comments on these proposed amendments. Seven comments expressed disapproval of the proposed changes. One commentator "reluctantly" agreed with the Commission's need to require the original license. In general, the comments suggested the Commission change its administrative and processing procedure to detect the few alteration attempts rather than penalize the bulk of the licensees by requiring submission of the original license, a document cherished by most amateurs.

4. After proposing these amendments, the Commission changed the type of license document (FCC Form 660) issued to amateur service operators. These licenses are printed on paper that readily shows any attempt to alter them. Further, in Docket 20282, the Commission granted examination credit to Technician Class licensees who were examined by volunteers. On the basis of these changes and negative public reaction from the amateur community, the Commission believes that the public interest, convenience and necessity is best served by termination of this proceeding. For further information, contact Stephanie Spernak, Personal Radio Division, FCC, 1919 "M" St. NW., Washington, D.C. 20554 (202-634-6619).

5. Accordingly, pursuant to authority contained in Sections 4(i), 303 of the Communications Act of 1934, as amended, IT IS ORDERED that this proceeding is TERMINATED.

WILLIAM J. TRICARICO,
FEDERAL COMMUNICATIONS COMMISSION,
Secretary.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

COOPERATIVE AGREEMENT WITH NATIONAL SOCIETY OF PUBLIC ACCOUNTANTS

Gratuitous Services for Applicants and Borrowers/Grantees

AGENCY: Farmers Home Administration, USDA.

ACTION: Notice.

SUMMARY: The Farmers Home Administration (FmHA) gives notice that it has entered into a Cooperative Agreement with the National Society of Public Accountants (NSPA) who will provide gratuitous services, upon request from FmHA applicants and borrowers/grantees in the areas of management assistance, recordkeeping, reporting, and preparation of financial statements.

FOR FURTHER INFORMATION, CONTACT:

Harry Puffenberger, 202-447-3394.

The Cooperative Agreement between FmHA and NSPA reads as follows:

Cooperative Agreement Between the U.S. Department of Agriculture, Farmers Home Administration (FmHA) and the National Society of Public Accountants (NSPA)

PREAMBLE

This joint agreement affirms the mutual desire of the Farmers Home Administration (FmHA) and the National Society of Public Accountants (NSPA) to cooperate in the establishment of their respective policies and procedures, to complement the activities of each other and for the NSPA to provide voluntary, technical and management assistance to FmHA applicants, borrowers and/or grantees.

I. PRIORITY

Both FmHA and NSPA place a high priority on providing sound financial advice and guidance to FmHA applicants, borrowers and/or grantees in areas of management assistance, recordkeeping, and preparation of financial reports and statements.

Realizing that such assistance is available and desirable, it is therefore, appropriate for FmHA and the NSPA to enter into this agreement.

II. GENERAL GUIDELINES

A. The FmHA administers its loan and grant programs through its State and County Offices. The NSPA will administer this program through the use of its local (chapter director) State affiliate president.

B. The FmHA State Directors and the NSPA (chapter directors) State affiliate presidents, or their designees, and appropriate officials at the National level will establish a liaison and periodically coordinate their activities to:

1. Assure that intended recipients receive the services needed and requested.
2. Define areas of mutual cooperation.
3. Provide maximum public benefit from the use of their respective resources.

III. AGREEMENT

A. The NSPA agrees to participate either independently or in conjunction with FmHA in educational programs, management counseling, training meetings, and other assistance in the areas of, but not limited to, recordkeeping, reporting and preparation of financial statements as requested by FmHA.

B. Upon request for assistance by the applicant, borrower/grantee the FmHA State Director will notify the NSPA who will designate an appropriate member at the local (chapter) level to provide the requested service.

C. The FmHA State Director's request will be forwarded directly to the appropriate (chapter director) State affiliate president as designated by the NSPA.

D. Upon completion of any counseling to applicants, borrowers and/or grantees and at monthly intervals during extended counseling cases, the local NSPA member through the (chapter director) State affiliate president will provide the FmHA State Director with a report of assistance rendered.

E. It is understood that such counseling or other assistance shall be performed by the NSPA members free of charge.

F. All information received and developed in the course of counseling by the NSPA member shall be kept in strict confidence. During the period of counseling the members will not:

1. solicit or accept compensation for any services to clients assigned to them;
2. recommend the purchase of goods or services from sources in which NSPA members have an interest or represent;
3. request or accept fees or commission from third parties who have supplied goods or services to a client upon NSPA members' recommendation; and
4. concurrently serve competing clients without full disclosure to all parties.

G. Upon completion of NSPA member services rendered voluntarily in accordance with the provisions of this agreement and the agreement between NSPA and the client, said members shall not be precluded from performing such services for compensation as requested by the client.

H. Since NSPA member's services are given voluntarily and gratuitously, it is understood and agreed that neither the NSPA nor any of its members will assert any claim for compensation for such services against FmHA, it's officials or employees prospec-

V 4 4 / 1 5 J A 2 2 7 9 UMI

tive or existing, or the business-person counseled pursuant to this agreement. It is further understood and agreed that FmHA cannot assume any liability for any expense including, but not limited to, transportation and subsistence expenses incurred in providing services under this agreement. The NSPA reserves the right to accept or decline assignment and any member may withdraw from assignment and/or as volunteer at any time upon written notice to the FmHA and the client.

This Cooperative Agreement shall take effect upon the date of its execution, may be amended at any time by agreement of both parties, and shall remain in force until it is expressly abrogated by either of the parties.

For the United States Department of Agriculture, Farmers Home Administration.

Dated: September 22, 1978.

GORDON CAVANAUGH,
Administrator.

For the National Society of Public Accountants.

Dated: January 2, 1979.

MINOR S. SHIRK,
President.

[6310-02-M]

CENTRAL INTELLIGENCE AGENCY

PRIVACY ACT OF 1974

New and Amended Records Systems

AGENCY: Central Intelligence Agency.

ACTION: Proposed New and Amended Record Systems.

SUMMARY: The Central Intelligence Agency proposes to add seven new records systems to the existing records systems subject to the Privacy Act of 1974, 5 U.S.C. 552(a), Pub. L. 93-579. Also proposed is the amendment of two records systems previously promulgated in the FEDERAL REGISTER. The Agency's systems of records were most recently published in the FEDERAL REGISTER at Vol. 42, No. 184, pp. 48050-48074, 22 September 1977.

DATES: All written comments received by the Central Intelligence Agency will be considered before final notice is promulgated in the FEDERAL REGISTER. These must be received by 19 March 1979.

ADDRESS: Interested persons are invited to participate in the formation of these systems by submitting such written data, views, or comments as they may desire to: Chief, Information and Privacy Staff, Central Intelligence Agency, Washington, D.C. 20505

FOR FURTHER INFORMATION CONTACT:

Mr. George W. Owens, Chief, Information and Privacy Staff, Central Intelligence Agency, Washington, D.C. 20505; phone 703-351-7486.

SUPPLEMENTARY INFORMATION: With the adoption of the proposed new systems of records, the Central Intelligence Agency would be permitted, in the case of: CIA—62, Office of Data Processing Security Clearance Records, to maintain current information on the clearance status of contractors, vendors, persons in the private sector and individuals in other government agencies that are associated with the Office of Data Processing; CIA—63, Security Access Records, to monitor accessing of Agency buildings by badged individuals and aid in the effective assignment of security personnel by the Office of Security; CIA—64, Inquiries from Private Individuals About CIA and its Mission, to ensure that inquiries from the general public were properly answered; CIA—65, Contact with the News Media and Index, to prepare a daily memorandum for the Director of Central Intelligence apprising him of the substance of telephone conversations with members of the various news media, which information is maintained on index cards; CIA—66, Manuscript Review, to maintain a record of what information proposed for release to the general public through speeches and published works of present and former Agency employees; CIA—67, Publishing and Speaking Engagement Clearances, to record clearance data for external speaking and publishing activities of present and former employees and permit awareness of what information was released to the public; and, CIA—68, CIA Personnel in Contact with Press, to maintain index cards on present and former employees who have had contact with the media. The amendment of CIA—20, Logistics Security Clearance Records, would permit its more efficient use through computer support. With the designation of CIA—64 through CIA—68 as records systems, certain changes were necessary in the description of CIA—39. Among other changes, the system name has been changed to read, "Publicity."

JOHN F. BLAKE,
Deputy Director for Administration.

CIA—62

System name:

Office of Data Processing Security Clearance Records.

System location:

Central Intelligence Agency, Washington, D.C. 20505.

Categories of individuals covered by the system:

Commercial contractors and vendors, persons in the private sector associated with the Agency, and individuals in other government agencies contacted for liaison purposes.

Categories of records in the system:

Biographic data (name, date and place of birth, Social Security Account Number), company name and security clearances held.

Authority for maintenance of the system:

National Security Act of 1947, as Amended-Pub. L. 80-253.

Central Intelligence Agency Act of 1949, as Amended-Pub. L. 81-110.

Section 506(a), Federal Records Act of 1950 (44 U.S.C., Section 3101).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Used by Staff employees in conducting Agency business with the commercial sector and liaison with other government agencies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Magnetic disc. Paper product is stored in combination lock safes or vaulted areas.

Retrievability:

By individual or company name, and Social Security Account Number.

Safeguards:

Access is limited to staff employees having a need-to-know and a coded password identifier.

Retention and disposal:

Records destroyed by degaussing or pulping upon expiration of clearance. Clearances may be revalidated three years after initial approval.

System manager(s) and address:

Director, Office of Data Processing, Central Intelligence Agency, Washington, D.C. 20505.

Notification procedure:

Individuals seeking to learn if this system of records contains information about them should direct their inquiries to:

Information and Privacy Coordinator, Central Intelligence Agency, Washington, D.C. 20505.

Identification requirements are specified in the CIA rules published in the FEDERAL REGISTER (32 CFR Sec. 1901.13). Individuals must comply with these rules.

Record access procedures:

Request from individuals should be addressed as indicated in the notification section above.

Contesting record procedures:

The Central Intelligence Agency's regulations for access to individual records, for disputing the contests thereof, and for appealing an initial determination by CIA concerning access to or correction of records, are promulgated in the CIA rules section of the FEDERAL REGISTER.

Record source categories:

Information obtained from individual concerned and certification of clearance from Office of Security.

CIA—63

System name:

Security Access Records.

System location:

Central Intelligence Agency, Washington, D.C. 20505.

Categories of individuals covered by the system:

Agency employees and other badged individuals accessing Agency buildings.

Categories of records in the system:

Badge number, building/entrance, year, Julian day, hour, entry or exit code.

Authority for maintenance of the system:

National Security Act of 1947, as Amended-Pub. L. 80-253.

Central Intelligence Agency Act of 1949, as Amended Pub. L. 81-110.

Section 506(a), Federal Records Act of 1950 (44 U.S.C., Section 3101).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

For routine administrative, managerial and security purposes in order to: a. Determine the frequency of access to Agency buildings of certain badged individuals to facilitate administration of badge reissuance criteria; b. Provide selected Agency managers with statistical data on building access patterns for resource planning purposes; c. Ascertain whether a give badged individual has accessed a specific Agency building entrance, including the date and time of such access.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper and magnetic media.

Retrievability:

Badge number, Julian date, time (hours/minutes), building/entrance, and entry or exit code.

Safeguards:

Records are maintained in a vault or combination lock safes. Access by Agency employees having a need-to-know and a coded password identifier.

Retention and disposal:

Records on individuals are retained for a maximum of six years after date of access. Records are destroyed by degaussing, pulping or burning.

System manager(s) and address:

Director of Security Central Intelligency Agency, Washington, D.C. 20505.

Notification procedure:

Individuals seeking to learn if this system of records contains information about them should direct their inquiries to:

Information and Privacy Coordinator, Central Intelligence Agency, Washington, D.C. 20505.

Indentification requirements are specified in the CIA rules published in the FEDERAL REGISTER (32 CFR Sec. 1901.13). Individuals must comply with these rules.

Record access procedures:

Request from individuals should be addressed as indicated in the notification section above.

Contesting record procedures:

The Central Intelligence Agency's regulations for access to individual records, for disputing the contents therof, and for appealing an initial determination by CIA concerning access to or correction of records, are promulgated in the CIA rules section of the FEDERAL REGISTER.

Records source categories:

Agency's magnetically encoded badge system, after-hours building log and "Visitor-No-Escort" badge record cards.

CIA—64

System name:

Inquiries from Private Individuals about CIA and its Mission.

System location:

Central Intelligence Agency, Washington, D.C. 20505.

Categories of individuals covered by the system:

Members of the general public who have written to CIA on matters of interest to the Office of Public Affairs.

Categories of records in the system:

Correspondence from the general public and the Agency's letter of response.

Authority for maintenance of the system:

Section 506(a), Federal Records Act of 1950 (44 U.S.C., Section 3101).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To ensure responsiveness to legitimate public concerns about the mission and function of CIA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper.

Retrievability:

By name.

Safeguarads:

Files are stored in vaulted room or in combination lock safes; access is on a need-to-know basis.

Retention and disposal:

Destroyed by pulping after two years.

System manager(s) and address:

Office of Public Affairs, Central Intelligence Agency, Washington, D.C. 20505.

Notification procedure:

Individuals seeking to learn if this system of records contains information about them should direct their inquiries to:

Information and Privacy Coordinator, Central Intelligence Agency, Washington, D.C. 20505.

Identification requirements are specified in the CIA rules published in the FEDERAL REGISTER (32 CFR Sec. 1901.13). Individuals must comply with these rules.

Record access procedures:

Request from individuals should be addressed as indicated in the notification section above.

Contesting record procedures:

The Central Intelligence Agency's regulations for access to individual records, for disputing the contents thereof, and for appealing an initial determination by CIA concerning access to or corrections of records, are promulgated in the CIA rules section of the FEDERAL REGISTER.

BELL HANDBAGS, INC.

Petition for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions have been accepted for filing from seven firms: (1) Bell Handbags, Inc., 27 West 20th Street, New York, New York 10011, a producer of handbags (accepted January 9, 1979); (2) Tag-A-Long Handbags & Accessories, 650 Coe Avenue, East Haven Connecticut 06512, a producer of handbags (accepted January 9, 1979); (3) Peters Sportswear Company, Inc., 2243 West Allegheny Avenue, Philadelphia, Pennsylvania 19132, a producer of men's and boys' jackets, coats and suits (accepted January 9, 1979); (4) M & G Sportswear, Inc., 73 Martine Street, Fall River, Massachusetts 02723, a producer of boys' suits and jackets (accepted January 11, 1979); (5) Bedford Knitting Mills, 2961 Atlantic Avenue, Brooklyn, New York 11208, a producer of women's and girls' sweaters (accepted January 15, 1979); (6) Honey Bag Company, Inc., 270 Rider Avenue, Bronx, New York 10451, a producer of handbags (accepted January 16, 1979); and (7) H. Hertzberg & Son, Inc., 366 Highland Avenue, Middletown, New York 10940, a producer of brushes, brooms and mops (accepted January 16, 1979).

The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (P.L. 93-618) and Section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

JACK W. OSBURN, Jr.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing Import Restraint Levels

CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS FOR THE SOCIALIST REPUBLIC OF ROMANIA

Correction

JANUARY 18, 1979.

On January 3, 1979, there was published in the FEDERAL REGISTER (44 F.R. 934) a letter dated December 28, 1978 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs establishing the import restraint levels for certain wool and man-made fiber textile products, produced or manufactured in the Socialist Republic of Romania, and exported to the United States during the twelve-month period beginning on January 1, 1979. The level of restraint set forth for Category 638/639 should have been 2,862,250 square yards equivalent. The units indicated for Category 433/434 should also read "square yards equivalent."

ARTHUR GAREL,
Acting Chairman, Committee for the Implementation of Textile Agreements.

[3810-70-M]

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-436, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, March 6, 1979; Tuesday, March 13, 1979; Tuesday, March 20, 1979; and Tuesday, March 27, 1979 at 10:00 a.m. in Room 1D-670, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92-463, the Federal Advisory Committee Act, meetings may be closed to the public when they are "concerned with matters listed in section 552b. of Title, United States Code." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b. (c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b. (c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b. (c)(2)), and the detailed wage data considered by the Committee during it meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b (4)).

However, members of the public who may wish to do so are invited to submit material in writing to the Chariman concerning matters believed to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by writing the Chairman, Department of Defense Wage Committee, Room 3D—281, The Pentagon, Washington, D.C.

Dated: January 17, 1979.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

DEPARTMENT OF ENERGY

NATIONAL PETROLEUM COUNCIL; REFINERY CAPABILITY TASK GROUP OF THE COMMITTEE ON REFINERY FLEXIBILITY

Meetings

Notice is hereby given that the Refinery Capability Task Group of the National Petroleum Council's Committee on Refinery Flexibility will meet at the National Petroleum Council (NPC) Headquarters, 1625 K Street, NW, Washington, DC, on February 6 and February 23, 1979.

The National Petroleum Council provides technical advice and information to the Secretary of Energy on matters relating to oil and gas or the oil and gas industries. Accordingly, the Committee on Refinery Flexibility has been requested by the Secretary to undertake an analysis of the factors affecting crude oil quality and availability and the ability of the refining industry to process such crudes into marketable products. This analysis will be based on information and data

V 4 4 / 1 5 J A 2 2 7 9 UMI

to be gathered by the Oil Supply, Demand, and Logistics Task Group and the Refinery Capability Task Group, whose efforts will be coordinated by the Coordinating Subcommittee.

The tentative agendas of both the Task Group sessions are indicated below. Meetings will begin at 9:00 a.m.

Agenda for the February 6, 1979 meeting of the Refinery Capability Task Group:

1. Review and approve summary/minutes of the January 10, 1979 meeting of the Task Group.
2. Review business conducted at the January 15, 1979 meeting of the Coordinating Subcommittee.
3. Discuss progress of the survey of U.S. refineries and the tabulation of output data.
4. Discuss second phase of the Task Group assignment.
5. Discuss other pertinent matters relating to the overall assignment of the Task Group.

Agenda for the February 23, 1979 meeting of the Task Group:

1. Review and approve summary/minutes of the February 6, 1979 meeting of the Task Group.
2. Review and discuss output of the survey of U.S. refineries and the preparation of a report to the Coordinating Subcommittee.
3. Discuss future work plans.
4. Discuss other matters pertinent to the overall assignment of the Task Group.

All meetings are open to the public. The Chairmen of the Task Group are empowered to conduct the meetings in a fashion that will, in their judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file written statement with either the Task Group or the Coordinating Subcommittee will be permitted to do so, either before or after the meetings. Members of the public who wish to make oral statements should inform Mr. Gene Peer, U.S. Department of Energy, (202) 633-9179, prior to the meetings, and reasonable provision will be made for their appearance on the agenda. Summary/minutes of the Task Group meetings will be available for public review at the Freedom of Information Public Reading Room, Room GA-152, Department of Energy, Forrestal Bldg., 1000 Independence Avenue, SW, Washington, DC, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, DC, on January 15, 1979.

ALVIN L. ALM,
Assistant Secretary, Policy and Evaluation.

Federal Energy Regulatory Commission

[Project No. 82]

ALABAMA POWER CO.

Land Withdrawal (Additional, Alabama)

JANUARY 12, 1979.

On February 7, 1977, the Alabama Power Company filed provisional map Exhibit K (FPC No. 82-96), in accordance with Article 41 of the license issued for the Mitchell Project, designated as Project No. 82, which, in part, required the Licensee to "include within the project boundary all islands in the project reservoir that are lands of the United States."

Therefore, in accordance with the provisions of Section 24 of the Act of June 10, 1920, as amended, notice is hereby given that the lands hereinafter described, insofar as title thereto remains in the United States, are from the date of February 7, 1977, reserved from entry, location or other disposal until otherwise directed by this Commission or by Congress:

ST. STEPHENS MERIDIAN, ALABAMA

T. 22 N., R., 16 E.,
Sec. 5, lots 1, 2, 3, 4, 5;
Sec. 8, lot 1.
T. 23 N., R. 16 E.,
Sec. 32, fractional C.

The area of United States lands reserved by this filing is approximately 23.75 acres. Portions of the above-described lands have been previously withdrawn by the filing of an application for license by the Licensee on November 3, 1920.

Copies of the aforementioned map exhibit have been transmitted to the U.S. Geological Survey and the Bureau of Land Management, Department of the Interior.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-89, et al.]

COLUMBIA GAS TRANSMISSION CORP., ET AL.

Order Construing Applications for Rehearing as Motions to Continue Curtailment Proceedings, Referring Such Motions to Presiding Administrative Law Judges, and Modifying Previous Order

JANUARY 12, 1979.

In the matter of Columbia Gas Transmission Corporation (Docket No. RP72-89), El Paso Natural Gas Company (Docket No. RP72-6 (Ignition and Flame Stabilization)), Mississippi River Transmission Company (Docket No. RP73-6), Montana Dakota Utilities Company (Docket No. RP76-91), Texas Eastern Transmission Corporation (Docket No. RP71-130, *et al.*), Cities Service Gas Company (Docket No. RP75-62), El Paso Natural Gas Company (Docket No. RP72-6), Kansas-Nebraska Pipeline Company (Docket No. RP76-90), Lehigh Portland Cement Company (Docket No. RP75-79) v. Florida Gas Transmission Company and Northern Natural Gas Company (Docket No. RP76-52, *et al.*)

Elizabethtown Gas Company (Elizabethtown), the Brooklyn Union Gas Company (BUG), and General Motors Corporation (GM) have applied for rehearing of the Commission's November 17, 1978, "Order Temporarily Suspending Curtailment Proceedings and Directing, the Convening of Conferences."[1] The applications of BUG and Elizabethtown concern the Texas Eastern Transmission Corporation (TETCO) curtailment proceeding, Docket No. RP71-130 *et al.* The GM application concerns the Cities Service Gas Company (Cities) curtailment proceeding, Docket No. RP75-62.

GM alleges that the Commission's order is arbitrary and capricious because it unnecessarily and injustifiably suspends the proceedings in the Cities case. The hearings in that case have been completed, briefs have been filed, and the proceeding is awaiting decision by the Administrative Law Judge. In our November 17th order we concluded that there might be issues in individual cases which were not affected by the Natural Gas Policy Act of 1978 (NGPA). In order to avoid unnecessary delay in the decision of those issues the Commission made provision for the Presiding Administrative Law Judge to determine whether or not the case should go forward on such issues. Essentially, GM is arguing that the Cities case should be permitted to go forward because it is not affected by NGPA. GM's filing of an application for rehearing is inappropriate. The November 17 order specifically provides a mechanism pursuant to which suspended cases may continue. GM's pleading before the Commission is, therefore, premature. As hereinafter provided, it shall be referred to the Presiding Judge for his consideration.

Both Elizabethtown and BUG urge the Commission to go forward with its decision in the TETCO curtailment proceeding. They point out that an initial decision in this proceeding was issued on August 10, 1978, and that briefs have now been filed with the Commission. BUG points out that while the Commission provided a

[1] This order was issued in numerous curtailment dockets with the lead docket being Columbia Gas Transmission Corporation, Docket No. RP72-89.

mechanism to permit cases before Administrative Law Judges to go forward on issues not relating to NGPA, it did not provide a similar mechanism for those cases pending before the Commission. Our November 17th order remanded cases pending before the Commission to the Presiding Administrative Law Judges solely for the purpose of preparing reports on the impact of the NGPA on the individual curtailment proceedings. The timing of those reports was made contingent upon the adoption of a rule under Section 401 of the Natural Gas Policy Act. BUG and Elizabethtown argue that this delay is unwarranted in the TETCO curtailment case due to the nature of the issues still pending.

In response to the applications of BUG and Elizabethtown we will modify the provisions of our previous order and provide a procedure for the continued adjudication of those cases pending before the Commission. Where the parties to those proceedings contend that NGPA will not have an effect on the issues remaining to be decided thay may petition the Presiding administrative Law Judge to prepare a report to that effect based on the parties and the Administrative Law Judge's evaluation of the case. Such report shall state whether or not the case should go forward and whether or not the parties' contentions that NGPA does not affect this case are correct. It may be filed with the Commission at any time.[2]

In order to avoid a duplication of filings in this instance, however, we will treat the applications for rehearing filed in this proceeding by Elizabethtown, Brooklyn Union, and General Motors as applications to have certain proceedings continue notwithstanding our November 17 order. accordingly, they will be referred to the Presiding Administrative Law Judge in each case for any action deemed appropriate in light of our orders.

In our November 17, 1978, order we neglected to formally remand *El Paso Natural Gas Company*, Docket No. RP72-6 (Ignition and Flame Stabilization) from the Commission to the Presiding Administrative Law Judge. This shall be done herein.

The Commission orders:

(A) The petitions for rehearing filed by BUG, Elizabethtown, and GM shall be treated as applications for the continuation of curtailment proceedings.

(B) Such applications are hereby referred to the Presiding Judges in each case for consideration.

(C) The November 17, 1978, order in *Columbia Gas Transmission Corporation, et al.*, Docket Nos. RP72-89, *et al.*, is hereby modified to provide for a mechanism for the continuation of cases pending before the Commission, as hereinbefore discussed.

(D) Ordering paragraph (B) of the November 17, 1978, order in *Columbia Gas Transmission Corporation, et al.*, Docket Nos. RP72-89, *et al.* is hereby modified to include the remand of *El Paso Natural Gas Company*, Docket No. RP72-6 (Ignition and Flame Stabilization), as hereinbefore discussed.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. RP79-16]

FLORIDA GAS TRANSMISSION CO.

Pipeline Rates: Suspension; Order Accepting for Filing and Suspending Certain Proposed Tariff Sheets, Subject to Conditions, Rejecting Other Proposed Tariff Sheet, Granting Waiver, and Establishing Procedures

JANUARY 10, 1979.

On December 11, 1978, Florida Gas Transmission Company (Florida Gas) tendered for filing proposed changes in its FERC Gas Tariff, Original Volumes Nos. 1, 2 and 3.[1] The proposed rate changes would be effective January 12, 1979, and reflect an increase in revenues of $18,479,200, or approximately 10.6%, from jurisdictional sales and service under Rate Schedules G, I, T-3 and X-6.

Public notice of Florida Gas' filing was issued on January 5, 1979, providing for protests or petitions to intervene to be filed on or before January 18, 1979.

Florida Gas proposes an overall rate of return of 11.89%, and states that the need for higher rates is attributable to two principal factors: the termination of its original transportation services under Rate Schedules T-1 and T-2, and a general increase in all its operating costs. Florida Gas' proposed rates[2] also include the cost impact of the Louisiana First Use Tax, which becomes effective April 1, 1979, prior to the end of the test period. Further, Florida Gas proposes to change the minimum annual bill provisions contained in Rate Schedule G,[3] to update the payment provision for make-up gas.

In addition, Florida Gas requests waiver of Section 154.63(e)(2)(ii), to permit the inclusion in its proposed rates of costs of gas purchased facilities which have not been certificated. It also seeks waiver of Sections 154.22, 154.51 and 154.64 of the Commission's Regulations to permit the filing of cancellation notices for Rate Schedules T-1 and T-2 more than 60 days prior to the effective date of such cancellations.

Florida Gas requests that, in the event the Commission suspends the proposed rates, such suspension be for a period of four months and twenty days, until June 2, 1979, rather than the statutory five month period. In support of this request, Florida Gas states that, with the termination of Rate Schedules T-1 and T-2 on June 1, 1979 and June 11, 1979, respectively, there would be no protection for the unit cost increase caused by the termination during the period of June 2, 1979 to June 12, 1979. Without the shorter suspension period, Florida Gas estimates it would lose approximately $165,000 in revenues over the ten day transitional period. We believe Florida Gas has shown good cuase for this request.

Based upon a review of Florida Gas' filing, the Commission finds that the proposed rate increase has not been shown to be just and reasonable, and may be unjust, unreasonable, and unduly discriminatory, or otherwise unlawful. Accordingly, the Commission will accept the tariff sheets noted below, suspend their use for four months and twenty days until June 2, 1979, subject to refund and the conditions set forth below, and will set the matter for hearing. This acceptance is conditioned upon Florida Gas' reflecting the effective GRI Funding Unit on the effective date of the increased rates, as well as any resulting reductions in R&D costs, as per FERC Opinion No. 30.

We will reject proposed Twenty-first Revised Sheet No. 3-A to Florida Gas' FERC Gas Tariff, Original Volume No. 1. This proposed tariff sheet includes costs associated with the Louisiana First Use Tax. Order No. 10-A, issued December 20, 1978, prohibits the inclusion of the cost impact of this tax in Section 4 rate cases until the

[2] In this regard, the Presiding Judge is free to determine the appropriate procedure to be followed in each instance. For example, it may not be necessary to convene an all parties conference to consider the arguments of one or more of the parties that a case before the Commission should go forward. Similarly, the Presiding Judge may determine whether an opportunity to file responsive pleadings is necessary or appropriate in the circumstances.

[1] Proposed revisions to FERC Gas Tariff, Original Volume No. 1 are as follows: Twenty-first Revised Sheet No. 3-A, Alternate Twenty-first Revised Sheet No. 3-A, Fourth Revised Sheet No. 5, and First Revised Sheet No. 17. Proposed revisions to FERC Gas Tariff, Original Volume No. 2 are contained in: Twelfth Revised Sheet No. 128, First Revised Sheet No. 2 and First Revised No. 43. Finally, revisions to Original Volume No. 3 are set forth in proposed First Revised Sheet No. 126.

[2] Twenty-first Revised Sheet No. 3-A to FERC Gas Tariff, Original Volume No. 1.

[3] Fourth Revised Sheet No. 5 to FERC Gas Tariff, Original Volume No. 1.

V 4 4 / 1 5 JAN 22 79 UMI

tax is determined to be valid and constitutional by a valid and non-appealable court order. Accordingly, we will reject this tariff sheet and accept for filing the proposed alternate tariff sheet which eliminates these costs, Alternate Twenty-first Revised Sheet No. 3-A. This rejection is without prejudice to Florida Gas' right to file tariff sheets in accordance with the provisions of Order No. 10-A.

Florida Gas' filing includes costs associated with facilities which are uncertificated and not in service, and accordingly, seeks waiver of § 154.63(e)(2)(ii) of the Commission's Regulations. The Commission will grant such waiver, on condition that on or before June 2, 1979, Florida Gas file revised tariff sheets to reflect the elimination of costs associated with facilities not in service on or before that date and upon the further condition that Florida Gas shall not be permitted to make offsetting adjustments to the suspended rates prior to hearing, except for those adjustments made pursuant to Commission approved tracking provisions, those adjustments required by this order, and those adjustments required by other Commission orders.

The Commission will also grant the requested waiver of §§ 154.22, 154.51, and 154.64 of the Commission's Regulations, to permit the filing of notices of cancellation [4] of Rate Schedules T-1 and T-2 more than 60 days prior to cancellation. Florida Gas currently renders transportation services to Florida Power Corporation and Florida Power & Light Company under these rate schedules. These rate schedules will terminate by their own terms on June 1, 1979 and June 11, 1979, respectively. This waiver does not, of course, relieve Florida Gas of its obligation to file an application for abandonment under Section 7(b) of the Natural Gas Act, and acceptance for filing of the notices of cancellation is subject to Florida Gas' filing an application for abandonment.

Florida Gas' filing contains certain miscellaneous tariff changes. The first [5] is a proposal to change the minimum billing provision in Rate Schedule G to update the payment provision for makeup gas. The proposal would change the provision to require payment for makeup gas at the price difference during the time the make-up right was incurred and the time the gas is delivered. The second proposed change in tariff [6] would change the billing and payment provision of the General Terms and Conditions to require payment by the twentieth rather than the fifteenth, and would increase the interest rate on overdue payments from six per cent to twelve per cent. We will accept these tariff sheets for filing, and suspend their use for a period of four months and twenty days, until June 2, 1979, after which time they will be in operation subject to refund.

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8, and 15 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of the increased rates proposed by Florida Gas.

(B) Pending hearing and decision, and subject to the conditions enumerated in the body of this order and Ordering Paragraph (C), below, Florida Gas' Alternate Twenty-first Revised Sheet No. 3-A to FERC Gas Tariff, Original Volume No. 1, Twelfth Revised Sheet No. 128 to FERC Gas Tariff, Original Volume No. 2, First Revised Sheet No. 126 to FERC Gas Tariff, Original Volume No. 3, Fourth Revised Sheet No. 5 to FERC Gas Tariff, Original Volume No. 1, and First Revised Sheet No. 17 to FERC Gas Tariff, Original Volume No. 1 are accepted for filing and suspended for four months and twenty days, until June 2, 1979, when they may become effective subject to refund, in the manner prescribed by the Natural Gas Act.

(C) Acceptance for filing of the tariff sheets enumerated in Ordering Paragraph (B) is conditioned upon Florida Gas' reflecting the effective GRI Funding Unit on the effective date of the increased rates and any resulting reduction in costs, as per Opinion No. 30.

(D) Waiver of § 154.63(2)(ii) is granted upon condition that Florida Gas file substitute revised tariff sheets reflecting the elimination of costs associated with facilities not in service on or before June 2, 1979, and upon the further condition that Florida Gas shall not be permitted to make offsetting adjustments to the suspended rates prior to hearing, except for those adjustments made pursuant to Commission approved tracking provisions, those adjustments required by this order, and those adjustments required by other Commission orders.

(E) Twenty-first Revised Sheet No. 3-A to FERC Gas Tariff, Original Volume No. 1, which includes the cost impact of the Louisiana First Use Tax, is rejected without prejudice to Florida Gas' right to file tariff sheets in accordance with the provisions of Order No. 10-A.

(F) Waiver of §§ 154.22, 154.51 and 154.64 is granted, and the notices of cancellation of Rate Schedules T-1 and T-2 contained in First Revised Sheet No. 2 to FERC Gas Tariff, Original Volume No. 2 and First Revised Sheet No. 43 to Original Volume No. 2 are accepted for filing, conditioned upon Florida Gas' filing an appropriate application for abandonment pursuant to Section 7(b) of the Natural Gas Act.

(G) The Commission Staff shall prepare and serve top sheets on all parties on or before May 13, 1979.

(H) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (18 CFR 3.5(d)), shall convene a settlement conference in this proceeding to be held within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The Presiding Administrative Law Judge is authorized to establish such further procedural dates as may be necessary, and to rule upon all motions (except motions to consolidate, sever, or dismiss), as provided for in the rules of practice and procedure.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[6450-01-M]

[Docket Nos. ER78-166, ER79-22, EL78-40, and EL78-42]

GEORGIA POWER CO.

Filing of Proposed Settlement Agreements

JANUARY 12, 1979.

Take notice that on January 5, 1979, the Georgia Power Company filed a proposed Settlement Agreement concerning settlement of the issues raised in its proposed Partial Requirements—3 wholesale rate increase in Docket No. ER78-166; the respective complaints filed in Docket Nos. EL78-40 and EL78-42; as well as the Company's amendment to its filing in Docket No. ER79-22. The Company also filed on the same date an Offer Of Settlement concerning the proposed wholesale rate increase for its Full Requirements—1 rate in Docket No. ER78-166. These proposed settlements were filed with the Presiding Administrative Law Judge.

On January 9, 1979, the Presiding Administrative Law Judge certified these instruments to the Commission for its consideration and determination.

The proposed Settlement Agreement for the PR-3 rate would revise downward the tariff originally filed in this proceeding by changing therein the "Schedule of Monthly Charges for Capacity" to the following:

Type of Service and Monthly Charge

Unreserved base capacity, $4.93 per kW.
Unreserved intermediate capacity, 2.79 per kW.
Unreserved peaking capacity, 2.70 per kW.
Reserve capacity, 3.37 per kW.

A 13.50% alllowance was utilized for the return on common equity in the Settlement proposal. The Settlement Ageement would also revise the Determination of the Unit Energy Charges as well as the Determination of the Monthly Energy Charges.

The Offer Of Settlement by the Company concerning the FR-1 rate would lower that proposed rate increase. Specifically, the Offer would charge the City of Hampton an annual demand charge of $170,705 and an annual energy charge of $117,130 totaling $287,835. The City of Acworth would be charged an annual demand charge of $369,074 and an annual energy charge of $350,961 totaling $720,035. The total increased revenues would be $1,007,870 compared to the filed rate increase revenues of approximately $1,065,000.

Any person wishing to do so may submit comments in writing concerning the proposed Settlement Agreement and the Offer Of Settlement to the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 on or before January 26, 1979. The proposed settlements are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-0-M]

[Docket No. ER79-58]

METROPOLITAN EDISON CO.

Order Accepting For Filing and Suspending Proposed Rate Increase, Denying Motion, Granting Intervention, Providing for Hearing, and Establishing Price Squeeze Procedures

JANUARY 12, 1979.

On November 13, 1978, Metropolitan Edision Company (Met Ed) tendered for filing a proposed rate increase for five full requirements and one partial requirements customer.[1] The proposed rate would result in increased revenues of approximately $3,637,944 (39.59%) for the full requirements customers and $1,134,552 (37.0%) for the partial requirements customer. This total $4,772,496 increase (38.9%) is based on the twelve month test period ending December 31, 1979. Met Ed requests an effective date of January 12, 1979, 60 days after filing.

Notice of the instant filing was issued on November 24, 1978, with protests or petitions to intervene due on or before December 18, 1978. Four such petitions have been submitted.

Allegheny Electric Cooperative, Inc. (Allegheny) and the Borough of Goldsboro (Goldsboro) protest the proposed rate as excessive.[2] In addition, their petition sets forth a number of specific objections to Met Ed's cost of service and cost allocations, including the use of the superseded 48% federal income tax rate and the inclusion of a tax adjustment clause in the proposed rate schedule for Allegheny, which the petition states should be rejected.

The petition requests that the Commission suspend the proposed rates for the full five month statutory period, set the matter for hearing and grant the parties intervention in the proceeding.

The Borough of Kutztown (Kutztown) filed a protest and petition to intervene,[3] claiming that the proposed return on common equity is excessive and that the cost of service is substantially overstated. Furthermore, the petition alleges that the proposed increase will create an illegal price squeeze. Kutztown also asserts that the proposed increase exceeds the President's recently announced wage/price guidelines. The petition urges the Commission to suspend Met Ed's proposed rate schedules for five months and grant Kutztown leave to intervene in the proceeding.

On December 19, 1978, Hershey Electric Company (Hershey Electric) filed an untimely petition to intervene. The petition states that Hershey Electric is a customer of Met Ed whose interests would not be adequately represented by any other party. Hershey Electric also petitions the Commission to exercise its discretion to suspend the proposed rates for five months.

On December 18, 1978, Hershey Foods Corporation (Hershey) filed a protest and petition to intervene. In support of its petition, Hershey asserts that it is a retail customer of Hershey Electric and that any increase in the rates Met Ed charges Hershey Electric will be passed through to Hershey.

Our review indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. In light of this review and our determination that the allegations presented in the submitted petitions present questions of law and fact more appropriately considered at hearing, the Commission shall accept the submittal for filing and suspend the rates for five months, to become effective June 13, 1979, subject to refund.

With respect to the tax adjustment clause included in the proposed rate schedule for Allegheny, we note that any adjustment the Company may wish to make in its rate schedule to implement this clause shall be treated as a proposed rate change under Section 35.13 of our Rules; it must be tendered for filing with appropriate cost support and is subject to Commission approval. However, the request for rejection of this clause shall be denied.

We also note the Company's use of a 48% federal income tax rate rather than the current 46% rate. The 46% figure is the appropriate one and Met Ed shall be required to file within 60 days revised rates and accompanying cost support incorporating the 46% tax rate. Although we are mindful that this refiling will place some burden on the Company, this burden is outweighed by the fact that the cost of refiling is far less than that amount of excess revenue which would be generated through the use of the 48% tax rate.

Pursuant to the policy set forth in Order No. 563, and in Section 2.17 of our Regulations, we find it is appropriate that price squeeze procedures be initiated in this case.

The Commission finds that participation in this proceeding by Allegheny, Goldsboro, Kutztown, Hershey Electric and Hershey may be in the public interest.[4]

The Commission orders:

(A) The rates proposed by Metropolitan Edison Company are hereby accepted for filing and suspended for five months, to become effective as of June 13, 1979, subject to refund.

(B) Pursuant to Section 2.17 of the Commission's Regulations, we hereby order initiation of price squeeze procedures.

(C) The petitioners, Allegheny Electric Cooperative, Inc., the Borough of Goldsboro, the Borough of Kutztown, Hershey Electric Company and Hershey Foods Corporation, are hereby permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; *Provided, However,* that participation by such intervenors shall be limited to the matters set forth in their petitions to

[1] See Attachment A.

[2] In support of their petition, filed December 18, 1978, the parties state that they are customers of Met Ed whose interests will be directly affected by Commission action and are not adequately represented by any other parties.

[3] Filed December 18, 1978. Kutztown states that, as a customer of Met Ed, it has a substantial interest in Commission action in this Docket.

[4] Despite Hershey Electric's untimely filing, the Commission finds that, since participation by Hershey Electric may be in the public interest, it is appropriate to grant it leave to intervene.

V 4 4 / 1 5 J A 2 2 7 9 UMI

intervene; and *Provided, further,* that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(D) The motion to reject the proposed tax adjustment clause is herby denied.

(E) Metropolitan Edison is hereby ordered to refile within 60 days of the issuance of this order new rates and cost support incorporating the 46% federal income tax rate.

(F) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Section 402(a) of the DOE Act and by the Federal Power Act and pursuant to the Commission's Rules of Practice and Procedure and the Regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates proposed by the Metropolitan Edison Company.

(G) The Staff shall serve top sheets in this proceeding on or before June 17, 1979.

(H) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge shall convene a conference in this proceeding to be held within ten (10) days of the serving of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D. C. 20426. The designated Law Judge is authorized to establish procedural dates and to rule upon all motions (except motions to consolidate or sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure. The Presiding Administrative Law Judge shall convene a prehearing conference with fifteen (15) days of the issuance of this order for the purpose of hearing intervenors' requests for data required to present their case, including *prime facie* showing, on price squeeze issues.

(I) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CP78-237 and CP66-110]

NORTHERN NATURAL GAS CO. AND GREAT LAKES GAS TRANSMISSION CO.

Order Consolidating Applications, Granting Certain Interventions, Denying Certain Late Interventions, and Providing for Formal Hearing Upon Approval of Import Authorization by the Economic Regulatory Administration

JANUARY 12, 1979.

On March 17, 1978, as supplemented on November 16, 1978, Northern Natural Gas Company (Northern) filed in Docket No. CP78-237 an application pursuant to Sections 3 and 7 of the Natural Gas Act for authorization to import synthetic natural gas (SNG) from Canada by displacement and for a certificate of public convenience and necessity authorizing Northern to receive and transport the imported volumes through its transmission system and for an order approving certain rate treatment. In conjunction with Northern's application, Great Lakes Gas Transmission Company (Great Lakes) on April 20, 1978, filed a petition to amend its authorizations in Docket Nos. CP66-110, *et al.*, to permit deliveries by means of displacement of the gas which Northern is proposing to import in Docket No. CP78-237. Northern's and Great Lakes' proposals are more fully set forth in their respective applications, as supplemented.

Northern and Great Lakes have also filed applications with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for import authorizations pursuant to Section 3 of the Natural Gas Act. These applications were consolidated by ERA by order of June 29, 1978, in ERA Docket No. 78-002 NG, *et al.* The Administrator of ERA has been authorized to determine whether the proposed import will not be inconsistent with the public interest by Sections 301 and 402(f) of the Department of Energy Organization Act, Pub. L. 95-91, and DOE Delegation Order Nos. 0204-4 (42 FR 60726, November 29, 1977) and 0204-25 (43 FR 47772). Pursuant to Sections 3, 4, and 7 of the Natural Gas Act, Subsections 402(e) and (f) and Section 642 of the DOE Act, and DOE Delegation Order No. 0204-26 (October 17, 1978, 43 FR 47772), the Commission has jurisdiction over certain aspects of Northern's and Great Lakes' applications. As of the date of this order, neither ERA nor the Commission has rendered a decision on the subject applications.

Northern seeks authorization to import from Canada and to receive and transport in its system up to 75,000 Mcf of gas per day for five winter seasons (November 1 through March 31) with annual volumes not to exceed 10 Bcf. Deliveries would commence after receipt of all necessary regulatory approvals. Northern proposes to purchase this gas from Union Gas Limited (Union) of Chatham, Ontario, pursuant to a contract dated December 21, 1977. The gas Northern would purchase from Union would be the equivalent on an aggregate Btu basis of synthetic natural gas (SNG) which Union has contracted for and would receive from Petrosar Limited (Petrosar) at Corunna, Ontario, pursuant to a contract between Union and Petrosar dated November 20, 1974. The SNG is produced in a plant located near Sarnia, Ontario, using western Canadian crude oil as feedstock. The plant's capacity is 33,000 Mcf per day.

It is proposed that from April 1 through November 1 of each contract year, Union would store for Northern's account the total output of the Petrosar plant. During the winter period, Northern would nominate deliveries from Union of up to 75,000 Mcf per day, which would come from Petrosar's daily output and from SNG placed in storage. Northern would use these supplies to meet peak day requirements.

Union's gas would be delivered to Northern through arrangements with TransCanada PipeLines Limited (TransCanada) and Great Lakes. Great Lakes has an existing arrangement with TransCanada whereby TransCanada delivers gas to Great Lakes at the Minnesota-Manitoba border near Emerson, Manitoba, and Great Lakes transports the gas and redelivers it to TransCanada at the Michigan-Ontario border near St. Clair, Michigan. TransCanada transports and sells a portion of these redelivered volumes to Union at Dawn, Ontario. Great Lakes also transports gas for the account of Northern from the Emerson import point to interconnecting points with Northern at Carlton and Grand Rapids, Minnesota and Wakefield, Michigan. On days when Northern requests gas from Union, Great Lakes would reduce its deliveries to Union by an equivalent volume. Union would reduce the volumes of SNG held in storage for Northern's account, and would use this gas to serve its own market. Great Lakes would then deliver the additional volumes received from TransCanada (attributable to the SNG volumes) and deliver this gas to Northern at the three interconnection points with Northern, with Carlton as the primary delivery point.

Great Lakes has entered into an agreement with TransCanada whereby gas delivered to Northern under the Northern-Union agreement would for billing purposes be included as gas delivered by Great Lakes to TransCanada at St. Clair, Michigan under the transportation contract between Great Lakes and TransCanada dated September 12, 1967. Northern would not be charged by Great Lakes for the transportation service provided.

Pursuant to the contract between Northern and Union, Northern would pay Union a contract price which is based on a formula which does not have a cost of service derivation. The price for the SNG is related to the value of the various petrochemical products created by Petrosar at its plant and the plant's feedstock costs which, in turn, are related to the price of crude oil in Alberta. Northern would also pay a monthly demand charge and a commodity charge for the storage service.

Northern says that the total average incremental cost per Mcf of the subject gas (including storage) would be $3.86 in 1978-79, and would increase to $5.33 in 1982-83. On a rolled-in basis, the effect on Northern's annual system cost per Mcf of sales would be 4.26 cents in 1978-79, and would increase to 8.47 cents in 1982-83.

Northern contends that it needs the SNG to serve high-priority customers on its system. Northern asserts that without the SNG, it will need to curtail into priority categories 1, 2B, 2C, and 3 of its curtailment plan.[1]

Northern requests that it be permitted to recover the cost of the purchase of SNG on a rolled-in basis. In addition, Northern's proposed tariff provides that the costs of SNG may be included in its annual Purchased Gas Adjustment (PGA) filings. In its March 17, 1978, application, Northern also sought authority to include a surcharge in its 1978 PGA rate filing to be effective only during the year 1979 to recover the estimated cost of SNG to be incurred during November and December 1978. Northern asserted that the surcharge is required in order to avoid deferring until 1980 collection of an estimated $12.8 million in purchased gas costs.

In August 1978, the National Energy Board of Canada issued an export license to Union

Northern's application and Great Lakes' petition to amend are companion filings for one project. We find that the expeditious management of these applications would be best served by consolidating them, and we so order.

In Docket No. CP78-237, timely notices of intervention or petitions to intervene were filed by the following:

(1) Iowa Public Service Company
(2) Iowa Electric Light and Power Company
(3) Northwestern Public Service Company
(4) Northern Illinois Gas Company
(5) Terra Chemicals International, Inc.
(6) Northern Municipal Defense Group and Minnesota Municipal Utilities Association
(7) Iowa Power and Light Company
(8) Union Gas Limited
(9) Wisconsin Power and Light Company
(10) Wisconsin Gas Company
(11) Metropolitan Utilities District of Omaha
(12) Iowa-Illinois Gas and Electric Company
(13) Greeley Gas Company
(14) Nebraska Natural Gas Company

Untimely notices of intervention or petitions to intervene were filed by the following:

(1) Northern States Power Company (Minnesota) and Northern States Power Company (Wisconsin)
(2) TransCanada PipeLines Limited
(3) Michigan Public Service Commission
(4) Minnesota Gas Company
(5) Public Service Commission of Wisconsin
(6) Kansas-Nebraska Natural Gas Company, Inc.
(7) Northern Central Public Service Company, Division of Donovan Companies, Inc.
(8) North Central Public Service Corporation
(9) Iowa Southern Utilities Company
(10) Columbia LNG Corporation

In Docket Nos. CP66-110, *et al.*, Union, TransCanada, and Wisconsin Gas Company filed timely petitions for leave to intervene.

Those interveners who filed timely petitions are granted leave to intervene. Of those interveners who filed petitions to intervene out-of-time, only Columbia LNG Corporation and TransCanada stated any justification for their late filings. Columbia LNG Corporation's and TransCanada's petitions to intervene, therefore, shall be granted; the others shall be denied. See *Trunkline Gas Co., et al.*, Docket No. CP78-386, order issued November 15, 1978. The notices of intervention of the Michigan Public Service Commission and the Public Service Commission of Wisconsin are also granted.

In Docket No. CP78-237, the Metropolitan Utilities District of Omaha (Omaha) filed a timely request for a formal hearing. On the basis of Northern's and Great Lakes' applications, Northern's responses to Staff deficiency letters, and Omaha's request for a formal hearing, we believe that the subject application should be set for formal hearing on the following general issues:

(1) Do Northern's winter market requirements necessitate the purchase of this SNG?
(2) Are there less expensive sources of supply available to Northern to meet Northern's winter requirements?
(3) Should Northern receive PGA rate treatment for the cost of the SNG?

These issues are one which the Commission normally addresses in determining whether to grant a certificate of public convenience and necessity under Section 7 of the Natural Gas Act. DOE Delegation Order No. 0204-26 specifies that all functions under Sections 4, 5, and 7 of the Natural Gas Act are to be exercised by the FERC, as well as certain other functions within the purview of Section 3 of the Natural Gas Act. Delegation Order No. 0204-25 delegates to the Administrator of the ERA the authority to determine whether the importation is not inconsistent with the public interest under Section 3 of the Natural Gas Act on the basis of the following considerations:

(1) The security of supply and effect on U.S. balance of payments;
(2) The price proposed to be charged at the point of importation;
(3) Consistency with duly promulgated and published regulations or statements of policy of the Department of Energy specifically applicable to imports of natural gas;
(4) National need for the natural gas to be imported;
(5) Such other matters within the scope of Section 3 of the Natural Gas Act as the Administrator shall find in the circumstances of a particular case to be appropriate for his determination, including;
(A) Regional needs for the natural gas to be imported;
(B) The eligibility of purchasers and participants and their respective shares.

In general, the delegation orders provide that ERA is to determine whether the proposed import is consistent with the national interest and the national and regional need for gas. The Commission is to determine

[1] Northern's curtailment plan consists of the following priority categories:
Priority 1: Residential, small commercial and industrial requirements.
Priority 2: (a) Customer storage injection requirements; (b) Firm industrial requirements for plant protection, feedstock and process needs; and (c) Commercial and industrial requirements 300 to 499 per day or less than 50,000 Mcf annually.
Priority 3: All commercial requirements 500 Mcf to 1499 Mcf per day and all industrial not specified in Priorities 1 through 10.
Priorities 4-11: Industrial requirements with alternate fuel capabilities.

whether the proposal serves the public convenience and necessity of the pipeline applicants, their customers, and the ultimate consumers of the proposed gas supply.

The delegation orders appear to contemplate that ERA would act on an import application prior to the commencement of any formal proceedings before the Commission. However, no specific procedures have been developed between the ERA staff and the FERC staff to process expeditiously matters within the scope of the delegation orders. In the matter before us, the Applicant filed simultaneously applications before ERA and the Commission almost nine months ago. As of the date of this order, neither ERA nor this Commission has taken formal action on the subject applications. The applications before us involve matters which, we now believe, will have to be set for formal hearing at this Commission if ERA approves the related applications presently before it. In order to put the parties to this proceeding, including the Commission staff, on notice that a formal hearing will, in all likelihood, be required on the subject applications if ERA approves the related import authorizations, the Commission hereby announces that it intends to issue an order specifying the issues to be set for hearing and the procedures to be followed, following any ERA approval in this matter. The Commission believes that this order will assist the parties in preparing for future Commission proceedings in the subject dockets and will expedite consideration of these matters by the Commission.

At this time, however, we can not set forth in a definitive fashion all the issues which may be the subject of a formal hearing. That can not be done until the Adminstrator of ERA issues his order, with any terms and conditions which he may attach. Under Delegation Order No. 0204-26, the Commission has the authority to issue orders granting import and certificate authorizations in a manner necessary or appropriate to implement the determinations made by the Administrator of ERA pursuant to Delegation Order No. 0204-25. The Commission may grant its import authorization only if it adopts the terms and conditions attached by the Administrator in his order granting import authorization. The Commission, however, may deny any application if the Commission determines that the application, as conditioned by the Administrator, is inconsistent with Sections 4, 5, or 7 of the Natural Gas Act or those portions of Section 3 which have delegated to the Commission by Delegation Order No. 0204-26.

The Commission finds:

(1) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that notice be given of the Commission's present intent to hold a public hearing on the matters involved and the issues presented as hereinbefore described and limited, as well as any other matters and issues which the Commission determines shall be the subject of public hearing in any future order following any approval by the Economic Regulatory Administration of the related application of Northern and Great Lakes presently before it.

(2) Participation in these proceedings by the listed timely intervenors may be in the public interest and permitting the filing of TransCanada's and Columbia LNG Corporation's late petitions to intervene and accepting the late-filed notices of intervention will not delay the proceedings and may be in the public interest.

(3) The public convenience and necessity as well as the expeditious management of these proceedings require the consolidation of Northern's application and Great Lakes' petition to amend.

The Commission orders:

(A) The application filed in Docket No. CP78-237 by Northern and the petition to amend filed by Great Lakes in Docket Nos. CP66-110, *et al.*, are hereby consolidated and shall be set for public hearing if ERA approves the related import applications in ERA Docket No. 78-002 NG, *et al.*, and if the Commission at that time believes a hearing is required.

(B) TransCanada, Columbia LNG Corporation, and those persons filing notices of intervention or timely petitions to intervene are permitted to intervene subject to the rules and regulations of the Commission: *Provided, however,* that participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* that the admission of such interveners shall not be considered as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in this proceeding.

(C) Those persons filing untimely petitions to intervene who offered no justification for their late filing are hereby denied leave to intervene.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Project No. 108]

NORTHERN STATES POWER CO.

Application for Change in Land Rights

JANUARY 9, 1979.

Public notice is hereby given that on October 27, 1978, an application for approval of a change in land rights was filed by the Northern States Power Company for the Chippewa Reservoir Project No. 108. The project is located on the Chippewa River in Sawyer County, Wisconsin. Correspondence regarding the application should be sent to: Mr. John L. Carrol, President, Northern States Power Company, 100 North Barstow Street, Eau Claire, Wisconsin 54701.

The Applicant, Licensee for Project No. 108, requests Commission approval to authorize the issuance of an easement to the Sawyer County Highway Commission which would permit the improvement of an existing road identified as "Sawyer County Trunk Highway B." Highway B runs along the northern periphery of the boundary of Project No. 108 and does not affect the project reservoir.

The easment sought covers approximately 3.88 acres of project lands located in the following U.S. government survey lots: Township 40 North, Range 7 West, Sections 1 and 2; Township 41 North, Range 7 West, Section 36; and Township 41 North, Range 6 West, Section 31. The Ranges designated are west of the 4th Principal Meridian, Sawyer County, Wisconsin. The purpose of the easement is to permit widening and resurfacing and to improve horizontal and vertical alignment of the road.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before March 9, 1979. The Commission's address is: 825 N. Capitol Street, NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. CP-78-435]

NORTHWEST PIPELINE CORP.

Findings and Order After Statutory Hearing Issuing Certificate of Public Convenience and Necessity and Permitting and Approving Abandonment

JANUARY 15, 1979

On July 19, 1978, Northwest Pipeline Corporation (Applicant),[1] filed in Docket No. CP78-435 an application pursuant to Section 7 of the Natural Gas Act, as implemented by Section 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)), for a certificate of public convenience and necessity authorizing the construction, removal and relocation and for permission for and approval of the abandonment, during the calendar year 1979, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application.

The purpose of this budget-type authorization is to enable Applicant to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity, or service from that which was authorized prior to the filing of the instant application.

Applicant proposes a total cost not to exceed $3,000,000 for the construction, relocation, removal, or abandonment of field compression facilities proposed, with no single project cost to exceed $1,000,000; and such costs to be financed from working capital. Applicant requests a waiver of the single project cost limitation imposed by Section 157.7(g)(ii) of the Commission's Regulations to permit the single project cost to be increased from $500,000 to $1,000,000.

According to the *Handy-Whitman Index of Public Utility Construction Costs,* (Baltimore: Whitman, Reguardt and Associates, 1978) Bulletin No. 107, Table G-5 pp. 26-29, the direct cost of constructing and installing field gas compression facilities has increased 73.2 percent in the Plateau Region during the period from July 1, 1973 to January 1, 1978. Commission Order No. 474, issued May 9, 1973 in Docket No. R-442 established the present cost limitations contained in Section 157.7(g) of the Commission's Regulations. (18 CFR 157.7(g)) According to the Handy-Whitman Index, the single project cost limitation of $500,000 established in 1973 due to inflation is equivalent to approximately $866,000 in 1978. For that reason the waiver of the single project cost limitation will be granted. Since the work to be performed pursuant to this budget authorization will be performed during calendar year 1979, Applicant will be authorized to expend, up to an amount equal to the $500,000 limit established in 1973 adjusted for inflation according to the Handy-Whitman Index for 1979.

The facilities to be constructed or abandoned as hereinbefore described and as more fully descibed in the application in this proceeding, are proposed to be used or are used in the transportation of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the construction and abandonment thereof by Applicant are subject to the requirements of Subsections (c) and (e) and Subsection (b) of Section 7 of the Natural Gas Act, respectively.

After due notice by publication in the FEDERAL REGISTER on August 10, 1978 (43 FR 35531), no petitions to intervene, notices of intervention, or protest to the granting of the application have been filed.

At a hearing held on December 7, 1978, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorization sought herein, and upon consideration of the record,

The Commission finds:

(1) Applicant is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(2) The construction and operation of the proposed facilities by Applicant are required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(3) The abandonments proposed by Applicant are permitted by the public convenience and necessity and should be approved as hereinafter ordered.

(4) The total expenditure proposed herein is within the limit prescribed by Section 157.7(g) of the Regulations under the Natural Gas Act.

(5) Good cause has been shown to waive the single project cost limitation prescribed by Section 157.7(g) of the Regulations under the Natural Gas Act subject to the new limitation as hereinbefore described and as hereinafter ordered.

The Commission orders:

(A) Upon the terms and conditions of this order, a certificate of public convenience and necessity is issued authorizing Applicant, Northwest Pipeline Corporation, to construct under Section 157.7(g) of the Regulations, during the calendar year 1979, the proposed facilities as hereinbefore described, and as more fully described in the application, and to operate such facilities only to transport natural gas from existing sources of supply.

(B) The certificate issued by paragraph (A) above and the rights granted thereunder are conditioned upon Applicant's compliance with all applicable Commission Regulations under the Natural Gas Act and particularly the general terms and conditions set forth in paragraph (g) of Section 157.7 and in paragraphs (a), (e), and (f) of Section 157.20 of such Regulations.

(C) Applicant shall submit within 60 days after the expiration of the authorization granted by paragraph (A) above and (D) below statements in compliance with Section 157.7(g)(iv) of the Commission's Regulations under the Natural Gas Act, as applicable.

(D) Upon the terms and conditions of this order, permission for and approval of the abandonment by Applicant of the facilities hereinbefore described, all as more fully described in the application, are granted.

(E) The permission for and approval of the abandonment granted by paragraph (D) above are conditioned upon Applicant's compliance with Section 157.7(g) of the Regulations under the Natural Gas Act and are limited to the calendar year 1979.

(F) The total cost of constructing the new or additional field compression and related metering and appurtenant facilities and the total out-of-pocket cost of abandoning, removing, and relocating existing compression and related metering and appurtenant facilities shall not exceed $3,000,000.

(G) The total cost of any single project shall not exceed the $500,000 limitation established in 1973 adjusted for inflation according to the Handy-Whitman Index for 1979. (*Handy-Whitman Index of Public Utility Construction Costs,* Baltimore: Whiteman, Reguardt and Associates.)

(H) The grant of the certificate herein is conditioned upon Applicant's certifying to the Commission within 60 days after all construction is completed under the instant authorization that it has fully complied with the provisions of Section 2.69 of the Commission's General Policy and Interpretations.

[1] Applicant, a Delaware corporation having its principal place of business in Salt Lake City, Utah, is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by order of September 21, 1973 in Docket No. CP 73-331 (50 FPC 825).

SOUTHERN NATURAL GAS CO.

Pipeline Refund Reports and Refund Plans

JANUARY 11, 1979.

Take notice that the pipelines listed in the Appendix hereto have submitted to the Commission for filing proposed refund reports or refund plans. The date of filing, docket number, and type of filing are also shown on the Appendix.

Any person wishing to do so may submit comments in writing concerning the subject refund reports and plans. All such comments should be filed with or mailed to the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before January 24, 1979. Copies of the respective filings are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP79-131]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

JANUARY 11, 1979.

Take notice that on December 19, 1978, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed an application in Docket No. CP79-131 pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate certain facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has the right to purchase natural gas produced in Blocks 56 and 57, East Cameron Area, offshore Louisiana (Blocks 56 and 57) and that in order to receive these volumes, it must construct and operate a 12-inch, 10.32-mile pipeline, costing $5,000,000, with a maximum capacity of approximately 70,000 Mcf a day, from Block 57 to Block 22, Vermilion Area, offshore Louisiana, where Applicant has arranged to have the gas transported ashore to its central Louisiana gathering system through a 24-inch pipeline owned jointly by itself, Florida Gas Transmission Company and Sea Robin Pipeline Company.

Applicant states that the cost of constructing the proposed facilities would be financed initially with funds on hand or from short-term loans, with permanent financing being arranged later as part of its long-term financing program.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10 and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.79-2108 Filed 1-19-79; 8:45 am]

[6450-01-M]

[Project No. 906]

VIRGINIA ELECTRIC & POWER CO.

Application for new Major License

JANUARY 12, 1979.

Public notice is hereby given that an application for new major license was filed on August 5, 1977, under the Federal Power Act (16 U.S.C. §§ 791a-825r) by Virginia Electric and Power Company (Applicant) for the Cushaw Project, FERC Project, FERC Project No. 906. The project is located on the James River in Amherst County, Virginia and affects U.S. Forest Service lands in the George Washington and Jefferson National Forests. Correspondence should be sent to: Mr. W. L. Proffitt, Senior Vice President, Virginia Electric and Power Company, P.O. Box 26666, Richmond, Virginia 23261; and copy to: Arnold H. Quint, Esquire, Hunton & Williams, 1730 Pennsylvania Avenue, N.W., Suite 1060, Washington, D.C. 20006.

The Cushaw Project consists of: (1) a 1,500 foot long and 27 feet high reinforced concrete dam extending diagonally across the river; (2) a 138 acre reservoir with a storage capacity of approximately 380 acre-feet at the normal full pond elevation of 656 feet m.s.l.; (3) a powerhouse containing five generators with an aggregate capacity of 7,500 kW; and (4) all other facilities and interests appurtenant to the operation of the project. The Cushaw Project is part of Virginia Electric and Power Company's generating system supplying electric utility service in Virginia.

According to the application filed, primary recreational use of project lands and waters is by local fishermen. Access to the project waters is provided by a gravel boat ramp. Applicant proposes no future recreational development.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before March 26, 1979. The Commission's address is: 825 N. Capitol Street, N.E., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1042-8]

AVAILABILITY OF ENVIRONMENTAL IMPACT STATEMENTS

AGENCY: Office of Federal Activities, Environmental Protection Agency.

PURPOSE: This Notice lists the Environmental Impact Statements which have been officially filed with the EPA and distributed to Federal Agencies and interested groups, organizations and individuals for review pursuant to the Council on Environmental Quality's Regulations (40 CFR 1506.9).

PERIOD COVERED: This Notice includes EIS's filed during the week of January 8 to 12, 1979.

REVIEW PERIODS: The 45-day review period for draft EIS's listed in this Notice is calculated from January 19, 1979 and will end on March 5, 1979. The 30-day wait period for final EIS's will be computed from the date of receipt by EPA and commenting parties.

EIS AVAILABILITY: To obtain a copy of an EIS listed in this Notice you should contact the Federal agency which prepared the EIS. This Notice will give a contact person for each Federal agency which has filed an EIS during the period covered by the Notice. If a Federal agency does not have the EIS available upon request you may contact the Office of Federal Activities, EPA for further information.

BACK COPIES OF EIS'S: Copies of EIS's previously filed with EPA or CEQ which are no longer available from the originating agency are available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

FOR FURTHER INFORMATION CONTACT:

Kathi Weaver Wilson, Office of Federal Activities, A-104, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460, (202) 755-0780

SUMMARY OF NOTICE: Appendix I sets forth a list of EIS's filed with EPA during the week of January 8 to 12, 1979, the Federal agency filing the EIS, the name, address, and telephone number of the Federal agency contact for copies of the EIS, the filing status of the EIS, the actual date the EIS was filed with EPA, the title of the EIS, the State(s) and County(ies) of the proposed action and a brief summary of the proposed Federal action and the Federal agency EIS number if available. Commenting entities on draft EIS's are listed for final EIS's.

Appendix II sets forth the EIS's which agencies have granted an extended review period or a waiver from the prescribed review period. The Appendix II includes the Federal agency responsible for the EIS, the name, address, and telephone number of the Federal agency contact, the title, State(s) and County(ies) of the EIS, the date EPA announced availability of the EIS in the Federal Register and the extended date for comments.

Appendix III sets forth a list of EIS's which have been withdrawn by a Federal agency.

Appendix IV sets forth a list of EIS retractions concerning previous Notices of Availability which have been made because of procedural noncompliance with NEPA or the CEQ regulations by the originating Federal agencies.

Appendix V sets forth a list of reports or additional supplemental information on previously filed EIS's which have been made available to EPA by Federal agencies.

Appendix VI sets forth official corrections which have been called to EPA's attention.

Dated: January 17, 1979.

WILLIAM N. HEDEMAN, Jr.,
Director,
Office of Federal Activities.

FOREST SERVICE

Final

Medicine Lake planning unit, Modoc and Siskiyou Counties, Calif. January 8: This action involves proposals for a new general management plan for forest lands within the Medicine Lake planning unit. This unit is an area of 294,000 acres, including portions of the Modoc, Shasta-Trinity and Klamath National Forests located in Modoc and Siskiyou Counties, Calif. The purpose of this action is to provide long-range and coordinated management of forest lands, assure compliance with regulations and policies, and resolution of conflicts concerning land use and capability. The plan selected will also provide for a system of balanced management and use and utilization of renewable resources. (USDA-FS-R5-DES (ADM) 05-09-78-05.) Comments made by: AHP, DLAR, DOE, COE, USDA, DOI, State and local agencies, groups, individuals, and business (EIS Order No. 90034).

Draft supplement

1979 cooperative spruce budworm suppression, several counties in Maine. January 11: Proposed is the application of insecticides to 3.5 million acres of spruce-fir forest in 1979 in the State of Maine, to suppress an outbreak of the eastern spruce budworm. No action, salvage cutting, pre-salvage cutting, accelerated logging, silvicultural treatments, and a combination of these were considered as alternatives. The affected counties are Aroostook, Somerset, Penobscot, Piscataquis, Washington, Franklin, and Hancock. (DES-NA-19-01-A) (EIS Order No. 90047).

RURAL ELECTRIFICATION ADMINISTRATION

Final

Nebraska public power district transmission facility, several counties in Nebraska. January 11: This proposal concerns the approval of funding by REA for a portion of the proposed 329 miles of 345 KV transmission facilities. The facilities, as proposed, will be constructed in the counties of Cheyenne, Deurel, Keith, Lincoln, Custer, Sherman, Buffalo, Frontier and Red Willow. The new substations, Keystone, Sweetwater, and Red Willow will connect with several existing facilities, modified by construction. Four alternatives are under consideration. (USDA-REA-EIS (ADM) 78-10-F.) Comments made by: USDA, AHP, DOI, COE, EPA, HEW, State and local agencies (EIS Order No. 90050).

U.S. ARMY CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy, Attention: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Clear Creek, local flood protection, Franklin, Warren County, Ohio. January 10: Proposed is the construction of a new channel between Beam Ditch and Main Street on Clear Creek in Franklin, Warren County, Ohio. The main features of the plan will include: (1) Channel realinement and widening of Clear Creek in the vicinity of Main Street to OH-123, (2) preservation of 1,200 feet of existing stream as a lowflow channel,

V 4 4 / 1 5 J A 2 2 7 9 UMI

(3) pool and riffle system in a new lowflow channel, (4) levee setback and crest wall improvements, and (5) recreation facility consisting of a 1-mile bike trail. (Louisville district) (EIS Order No. 90039).

Strube Lake and Cougar additional unit, Blue River, Lane County, Oreg. January 8: Proposed is the modification of the existing powerhouse at Cougar Dam located in Lane County, Oreg., to accomodate a third generating unit of 35,000 kw capacity, making a combined total capacity of 60,000 kw. Cougar generating facilities would be operated for peaking, rather than current baseload power generation. To re-regulate flows from Cougar, Stube Dam would be constructed about 1.9 miles downstream. A 4,600 kw generating unit would be included in the Strube powerplant. (Portland district) (EIS Order No. 90032).

Bonneville lock and dam, navigation, Sramania and Washington Counties, Oreg. January 9: Proposed is the construction and subsequent operation of a new navigation lock at Bonneville Dam on the Oregon shore, south of the existing lock and powerhouse. The new lock chamber would have horizontal dimensions of 86 feet by 675 feet, matching the dimensions of the seven other locks on the Columbia-Snake River navigation system. Both an up-stream and downstream approach channel would be constructed having vertical concrete guidewalls. The COE filed a draft EIS No. 61098, dated June 27, 1976, which is replaced by this revised draft. (Portland district) (EIS Order No. 90038).

Final

Norfork Lake highway bridges, U.S. 62 and Arkansas 101, Baxter County, Ark. January 11: The purpose of this proposed project is to connect two segments of U.S. highway 101, which are presently separated by Norfork Lake, located in Township 19 north, range 12 west, Baxter County, Ark. The project consists of the construction of two highlevel, 2-land, fixed bridges referred to as U.S. 62 and Arkansas 101 and the necessary bridge approaches. The U.S. 62 bridge would span 3,460 feet long and Arkansas 101 would be 2,880 feet long. Eight alternatives are considered. (Little Rock district) Comments made by: EPA, USDA, AMP, HUD, DOI, DOT, State agencies, groups and individuals (EIS Order No. 90046).

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-377-4335.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Draft

Alaska coastal zone management program, Alaska. January 12: Proposed is a coastal zone management plan for the State of Alaska. The program will develop new coastal policies, rules, responsibilities, obligations and relationships with an established approach of shared local and State coastal management responsibility. Some features of the program include: (1) Protection of coastal lands and water habitats; (2) a common basis for coastal decisions; (3) definition of division of responsibility; (4) specific management for areas of extraordinary coastal values; and (5) overall attention for energy, timber, mining, and commerce resources. (EIS Order No. 90056).

Draft supplement

Bowhead Whale, deletion of native exemption, Alaska. January 12: Proposed is the implementation of an amendment to the convention to regulate whaling, 1946 by amending regulations governing the taking of Bowhead whales by Indians, Aleuts or Eskimos for subsistence purposes which allocated the 1979 quota to 18 whales landed or 27 struck, whichever occurs first. The alternatives considered are: (1) Federal regulations establishing a fixed village by village quota allocation, (2) no quota allocation by village, allowing competition until the 1979 quota is reached, and (3) determination by quota by the Alaskan Eskimo Whaling Commission. (EIS Order No. 90057).

Final supplement

Squid fisheries, Northwest Atlantic, FMP. January 8: This statement supplements a February 1977 final EIS. Changes are proposed in the subject preliminary fishery management plan for the 1978 foreign fishing season. Some of these changes include: (1) modifications of the areas and seasons where foreign nationals can conduct directed squid fishery operations, (2) assessment and reconsideration by the United States of its projected capacity annually, (3) required permit or registration, (4) gear restrictions, and (5) periodic catch reports. Comments made by: STAT, EPA, USCG, groups, individuals, and businesses (EPA Order No. 90033).

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Paul A. J. Wilson, Mobile Source Air Pollution Control Office, ANR-455, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-755-0596.

Draft

Light-duty diesel particulate regulation, regulatory. January 10: Proposed are Federal light-duty diesel particulate emission standards for 1981 and later model year vehicles. The changes to the existing regulations include: (1) the addition of a dilution tunnel and other equipment to measure particulate emissions, and (2) the implementation of exhaust emissions standards for particulate matter from light-duty diesels of 0.37 G/KM (0.6 G/MI) in 1981 and 0.12 G/KM (0.2 G/MI) in 1983. (EIS Order No. 90045).

Contact: Mr. Wallace Stickney, Region I, Environmental Protection Agency, John F. Kennedy Federal Building, Room 2203, Boston, Mass. 02203, 617-223-4635.

Final

Duwamish 201 facility, metro Seattle, King County, Wash. January 10: Proposed is a wastewater configuration and metro CSO control program for nine areas in King County, Wash. The plan will reduce the service area and flow to the west point plant, abandon the Alki and Carkeek park plants and restore the sites for other uses. A new plant would be constructed in the Duwamish industrial area. This EIS finalizes three draft EIS's, Nos. 71143, 71160, and 71161, all filed September 16, 1977, which individually addressed the three existing plants noted above. (EPA-910/9-77-043) Comments made by: AHP, USDA, DOC, CDE, HUD, DOI, State and local agencies, groups (EIS Order No. 90040).

Contact: Mr. Alexandria Smith, Region X, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Wash. 98101, 206-442-1285.

Final

Upper Housatonic River, water quality management, Berkshire County, Mass. January 8: proposed is the water quality management plan for the Upper Housatonic River located in Berkshire County, Mass. The proposed plan recommends a six-point water quality management program for a 20-year planning period. The study area involves 262 square miles and 9 municipalities. The area is the western-must part of the State and is characterized by a narrow river valley and such hilly terrain. Comments made by: EPA, HUD, DOT, USDA, DOI, State and local agencies, individuals (EIS Order No. 90037).

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broon, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410, 202-755-6308.

Final

Westlake forest subdivision, Harris County, Tex., January 12: The proposed action is for the Department of HUD to accept for home mortgage insurance the proposed Westlake forest subdivision located in Harris County, Tex. It is proposed that this 470 acre tract of land redeveloped into a subdivision consisting of approximately 2,125 single-family dwelling units with some commercial reserves. Construction of the project will begin around January of 1979, and when completed, will house approximately 7,500 people. (HUD-R06-EIS-78-40F) Comments made by: EPA, CUE, AHP, DOT, DOI, USDA, State agencies (EIS Order No. 90053).

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, room 4256, Interior Building, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF LAND MANAGEMENT

Draft

Crude oil transport system, Washington/Minnesota, January 11: Proposed is the construction and operation of a common-carrier crude oil transportation system. Port Angeles, Wash. will be the location of two tanker unloading facilities with two submarine pipelines connecting the unloading berths to an onshore storage facility, and the beginning of the pipeline. The pipeline will extend for approximately 1,557 miles across the States of Washington, Idaho, Montana, North Dakota, and end at Clearbook, Minn. at which delivery facilities would be located. There would be intermediate delivery facilities at three locations in Montana and North Dakota where the proposed pipeline will cross the existing pipeline. (EIS Order No. 90049).

U.S. NUCLEAR REGULATORY COMMISSION

Contact: Mr. Richard E. Cunningham, Director, Division of Fuel Cycle and Material Safety, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Mail 396-SS, 301-427-4142.

Draft

Gas Hills uranium project, Natrona and Fremont Counties, Wyo., January 12: Proposed is the issuance of a source material license to be issued to Union Carbide Corp. for the operation of the Gas Hills uranium project in Natrona and Fremont Counties, Wyo. The project will involve: (1) the operation of an acid leach, ion-exchange and solvent-extraction uranium ore processing mill, and (2) the construction and operation of two heap leach facilities, one in Natrona County. Five alternatives are considered. (NUREG-0441) (EPA Order No. 90054).

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Assistant Director for Environmental Projects, P-518, Washington, D.C. 20555, 301-492-8446.

Final supplement

Floating nuclear power plants, part III, (S-1), Florida, January 10: This EIS supplements a draft filed with CEQ in October 1976. Proposed is the issuance of a manufacturing license to offshore power systems for the startup and operation of a manufacturing facility located at Blout Island, Jacksonville, Fla., for the construction of no more than eight floating nuclear plants of standardized design. This document examines the effects of postulated nuclear accidents and the overall risks and consequences between floating and land-based nuclear power plants regarding the accidental releases of radioactive materials to the environment. (NUREG-0502) Comments made by: USDA, COE, DOC, DOE, DOI, EPA, DRBC, State agencies, businesses (EPA Order No. 90041).

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, S.W., Washington, D.C. 20590, (202) 426-4357.

FEDERAL AVIATION ADMINISTRATION

Final

Kosrae Island Airport and Harbor Project, U.S. Territory, January 12: The proposed action involves the development of a new airport consisting of an ultimately paved 150' x 7,000' runway, runway safety areas on each end, a paved aircraft parking apron, lighting, fencing, access road, auto parking area, radio navaids, and a harbor complex with a paved 300' x 600' loading ramp with associated warehouse and dock loading area. Five alternatives are considered. Since the preparation of the draft EIS, the name of Kosrae has been adopted for the district formerly known as Kusaie. Comments made by: DOI, USN, USCG, DOT, COE, HEW, DOC, EPA, HUD, AHP, USDA. (EIS Order No. 90055.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

Loop 340, From U.S. 77 to TX-6, Waco and Robinson, McLennan County, Tex. January 8: Proposed is the construction of a four land divided highway consisting of two 24-foot roadways with paved shoulders and interchange structures to be known as loop 340 in the cities of Waco and Robinson, McLennan County, Texas. The project will begin at U.S. 77 south of Waco and extend northwest for approximately 5 miles ending at TX-6. The alternatives (include three alternate routes and no-build. (FHWA-TEX-EIS-78-01-D.) (EIS Order No. 90035.)

East Loop 363, From U.S. 190 to I-35, Temple City, Bell County, Tex., January 8: Proposed is construction of a two-lane highway with a 24-foot roadway with paved shoulders and interchange structures known as east loop 363 located near Temple City, Bell County, Texas. The project will begin at U.S. 190 south of Temple and extend approximately 6.7 miles to I-35 north of Temple. The alternatives include alternate routes and no build. (FHWA-TEX-EIS-76-03-D.) (EIS Order No. 90036.)

Final

U.S. 119, Pikeville-Williamson Road, Pike County, Ky. January 10: The proposed highway project consists of improvement of 16.55 miles of U.S. 119 in Pike County to a 4-lane distance highway with a raised, mountable median normally 20 feet in width. The right-of-way width will vary considerably being dictated by the terrain constraints with a minimum of 150 feet. Access to the facility will be partial control. (FHWA-KY-EIS-74-09-P.) Comments made by: USDA, DOI, EPA, DOC, HEW, DOT, State agencies (EIS Order No. 90042).

Relocated Maryland Route 24, U.S. 1 to I-95, Hartford County, Md. January 12: Proposed is the relocation of Maryland 24 from U.S. 1 (Bel Air bypass), southwest of Bel Air to I-95, a distance of approximately 6.7 miles, in Hartford County, Md. The selected alternative would begin at U.S. 1 to a point north of Plumtree Road and then take a new alinement south to I-95. (FHWA-MD-EIS-02-P.) Comments made by: USDA, DOI, DOT, EPA, DOE, State and local agencies (EIS Order No. 90052).

Final

Reconstruction of Michigan 153, Ford Road, Wayne County, Mich. January 10: Proposed is the reconstruction of a 6.1 kilometer, 3.8 mile segment of M-153 (Ford Road) between I-275 on the west and Vency Road on the east. This segment of M-153 is located in Canton Township, Westland, and Garden City, Wayne County, Mich. This segment M-153 is now a free-access two-lane roadway, with turning lanes at some major intersections. The proposed project involves the widening of this segment of M-153 to either five lanes with turning lanes at major intersections. (FHWA-MICH-EIS-78-01-F.) (EPA Order No. 90044).

Draft supplement

U.S. 23-119, Jenkins to Dorion Road, Pike County, Ky. January 10: This statement supplements a final EIS filed in July 1972. Proposed is the construction of a section of highway to connect the communities of Brusky Fork and Denton located in Pike County, Ky. The project would extend for 3.1 miles if the Myra alternate is utilized or 2.6 miles if the Orward branch alternate is constructed. The highway will be four-lanes with partial controlled access. The no-build alternative is also considered. (FHWA-KY-EIS-72-08-DS.) (EIS Order No. 90043).

VETERANS ADMINISTRATION

Contact: Mr. Willard Sitler, Environmental Affairs Office (66), Veterans Administration, 810 Vermont Avenue, Washington D.C. 20420, 202-389-2526.

Final

Quantico National Cemetery, Prince Williams County, Va. January 12: Proposed is the development of a national cemetery in Quantico, Prince Williams County, Va. The 726.58-acre site is located on land accessed by the Department of Navy, Quantico Marine Corps Base. The cemetery will accommodate 300,000 veterans and their dependents with a variety of interment types. Alternatives considered included sites and alternate land usages. The draft statement was entitled the District of Columbia area National Cemetery. Comments made by: AHP, DOT, USN, DOC, DOI, USDA, State and local agencies (FIS Order No. 80051).

APPENDIX II—EIS'S WHICH AGENCIES HAVE GRANTED REVIEW PERIODS OTHER THAN THOSE PRESCRIBED BY EPA

Section A. Waivers of Review Period: None.

Section B. Extension of review period:

Federal agency: U.S. Department of Interior, Fish and Wildlife Service.

MASSACHUSETTS

Submission of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1972, 1975 and 1978 (92 Stat. 819; 7 U.S.C. 136 et. seq.) and 40 CFR Part 171, the Honorable Michael S. Dukakis, former Governor of the Commonwealth of Massachusetts, submitted a State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides to the Environmental Protection Agency (EPA) for approval on a contingency basis. Contingency approval is requested pending promulgation of regulations for the recently enacted Massachusetts Pesticide Control Act, Chapter 132B, General Laws of Massachusetts, inserted as Chapter 3 of Acts of 1978.

Notice is hereby given of the intention of the Regional Administrator, EPA, Region I to grant approval of this plan on one of the following bases. Final approval will be granted if regulations, now proposed (Appendix E of the Plan), are fully promulgated before March 15, 1979 whereas contingent approval will be granted in the event promulgation of regulations is likely to be delayed beyond March 14, 1979. A summary of this plan follows. The entire plan, together with all attached appendices (except for sample examinations) may be examined during normal business hours at the following locations:

Commonwealth of Massachusetts, Department of Food & Agriculture, 100 Cambridge Street, Boston, Massachusetts 02202.

U.S. EPA, Region I, Room 1907, JFK Federal Building, Government Center, Boston, Massachusetts 02203.

Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Room 401, East Tower, Waterside Mall, 401 M Street, SW, Washington, D.C. 20460.

SUMMARY OF MASSACHUSETTS STATE PLAN

The Massachusetts Department of Food and Agriculture (MDFA) has been designated the State Lead Agency responsible for the regulation of pesticides, including certification of those who use or apply restricted use pesticides. Within the MDFA the Massachusetts Pesticide Board (MPB) is responsible for advising the Commissioner, MDFA, on implementation and administration of the Pesticide Control Act, approving prepared regulations, and hearing appeals on actions. Other responsibilities of MDFA include coordination of training and certification activities, licensing of pesticide dealers, issuance of special permits for use of pesticides futher restricted by the State and the coordination of field, laboratory and office activities relating to pesticide regulation.

The Massachusetts Cooperative Extension Service (MCES) of the University of Massachusetts is designated as a cooperating Agency and is responsible for the organization and operation of the pesticide applicator training program. Training will be offered to applicators seeking either certification or recertification to assist in implementing or maintaining the State Plan.

Legal authority for the regulation of pesticides and their use in Massachusetts is contained in the following legislation: Massachusetts Pesticide Control Act (MPCA), Chapter 132B, General Laws of the Commonwealth of Massachusetts.

The plan indicates that the State Lead Agency will have qualified personnel and funds necessary to carry out the proposed certification programs with $50,000 appropriated by the State for the fiscal year 1979. Massachusetts estimates 4830 commercial applicators and 3500 private applicators will need to be certified to use restricted use pesticides. A certificate, issued to each certified applicator, will indicate the class and category(s) and/or subcategory(s) of certification as may be appropriate and any additional restrictions placed on the applicator. The Commonwealth plans to issue pocket-sized credentials at a later date to identify a certified applicator to pesticide dealers and to authorize purchase of restricted use pesticides.

The Massachusetts Plan contains new rules and regulations, as Appendix E, that the State will promulgate as required to implement the MPCA and to meet requirements of 40 CFR 171.

The Massachusetts Department of Food and Agriculture agrees to furnish the Administrator a detailed annual report by October 1 of each year and will provide other reports as requested in conformity to 40 CFR 171.7(d).

Massachusetts intends to adopt all ten categories of commercial applicators as listed in 40 CFR 171.3. Further, Massachusetts intends to utilize subcategories within three categories as designated below:

3. Ornamental and Turf Pest Control:
   a. Shade Trees and Ornamentals.
   b. Turf.
7. Industrial, Institutional, Structural and Health-Related Pest Control:
   a. General.
   b. Fumigation.
   c. Site Sanitation.
   d. Termite and Structural Pest Control.
   e. Food Processing Pest Control.
   f. Vertebrate Pest Control.
   g. Wide Area Nuisance Arthropod Control.
9. Public Health Pest and Nuisance Control:
   a. General.
   b. Mosquito and Biting Flies.

Any applicant for certification as either a private or a commercial applicator, including any person currently holding a pesticide applicator license, who desires certification to use or supervise the use of a restricted use pesticide must be determined to be competent by passing the appropriate written examinations. Aerial applicators will be required to pass an additional examination covering aerial techniques and related knowledge prior to certification in the appropriate class and/or category. Performance testing by applicator demonstration may be further required where it is determined that the potential for unusual hazard to persons or the environment could occur.

Private applicators will be required to pass a written two-part examination covering the standards required of a private applicator and practical knowledge of at least one principal commodity area. An applicant must correctly answer 70 percent of the questions on the examination to be determined competent. Applicators unable to read will not be certified.

Core level training conducted by MCES will be offered applicants preparing to qualify as private or commercial class applicators. In addition to general pesticide use information, training will also be offered in commodity areas for private applicators and category and subcategory specific areas for commercial applicators.

A copy or a representative sample of the private applicator and commercial applicator-general standards examination has been submitted with the plan for review. The specific standards examinations for commercial applicators that were not submitted with the plan are in final stages of development and will be submitted to the Agency for review before the plan is fully approved.

To preserve the confidentiality of the examinations the Commonwealth of Massachusetts has requested the examinations not be made available for public inspection. The Agency agrees with this request and has removed the examinations from copies of the plan held for public inspection.

Authority to require payment of fees for examination and for issuance of applicator certification is provided by MPCA and the rate is established by regulation.

The Massachusetts plan does not contain specific provisions for the Government Agency Plan. However, Federal employees who have been certified by a Federal agency whose standards for certification are determined to be no less stringent than those of the Commonwealth may be issued appropriate certificates as commercial applicators. Familiarity with Massachusetts rules and regulations governing pesticide use will, however, be required of all Federal employees certified.

Massachusetts has no Indian Governing Body subject to the jurisdiction of the United States. Therefore, provisions of 40 CFR 171.10 are not applicable.

At present, no recognized formal agreements on reciprocity with other States involving pesticide applicator certification are indicated in the plan. However, Massachusetts will consider reciprocity with other States and copies of such agreements will be furnished EPA.

Other regulatory authorities contained in the newly enacted legislation useful to implementation of the plan include further restrictions or limitations on pesticide uses; a requirement for licensing of dealers distributing restricted use pesticides; licensing of commercial applicators using only general use pesticides; monitoring and inspection of pesticide use activities; and the regulation of pesticide storage and disposal. A subcommittee of the MPB is responsible for pesticide registration and classification and for issuance of experimental use permits.

Maintenance of the State Plan will be carried out in two manners. MDFA inspectors will conduct spot checks of applicators and field operations to determine compliance with certification and pesticide use requirements. To assure maintenance of a high level of competency among certified commercial and private applicators additional training, approved by MDFA, will be offered on a timely basis. An applicator's certification will be renewed annually for up to five (5) years after which recertification will be required. The requirements for recertification may be met by choosing one of two options: attending and actively participating in an MDFA approved training program applicable to the applicant's class and categories of certification within the five-year period; or successfully passing appropriate examinations required for recertification.

PUBLIC COMMENTS

Interested persons are invited to submit written comments on the proposed State Plan for the Commonwealth of Massachusetts to the Chief, Pesticides Branch, Region I, Environmental Protection Agency, Room 1907, JFK Federal Building, Boston, Massachusetts 02203. The comments must be received on or before Feb. 21, 1979, and should bear the identifying notation (OPP-42055). All written comments filed pursuant to this notice will be available for public inspection at the above location from 9:00 a.m. to 4:00 p.m., Monday through Friday.

Dated: January 10, 1979.

WILLIAM R. ADAMS, Jr.,
Regional Administrator,
Region I.

PESTICIDE PROGRAMS

Receipt of Application To Register Product Containing New Active Ingredient

Abbott Laboratories, Abbott Park, D-495, North Chicago, IL 60064, has submitted to the Environmental Protection Agency (EPA) and application to register the pesticide product N-MALEIMIDE (EPA File Symbol 275-GU), containing 97% of the active ingredient *N*-(2-methyl-1-naphthyl)maleimide which has not been included in any previously registered pesticide product. The application proposes that the pesticide be classified for general use as a technical chemical to be used as a preservative for polymeric systems. This application is made pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136) and the regulations therunder (40 CFR 162).

Notice of receipt of this application does not indicate a decision by the Agency on the application. Interested persons are invited to submit written comments on this application to the Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M St., SW, Washington DC 20460. The comments must be received by February 21, 1979, and should bear a notation indicating the EPA File Symbol "275-GU". Comments received within the specified time period will be considered before a final decision is made; comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Specific questions concerning this application and the data submitted should be directed to Product Manager (PM) 21, Registration Division (TS-767), Office of Pesticide Programs, at the above address or by telephone at 202/755-2563. The label furnished by Abbott Laboratories, as well as all written comments filed pursuant to this notice, will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Notice of approval or denial of this application to register N-MALEIMIDE will be announced in the FEDERAL REGISTER. Except for such material protected by Section 10 of FIFRA, the test data and other information submitted in support of registration as well as other scientific information deemed relevant to the registration decision may be made available after approval under the provisions of the Freedom of Information Act. The procedures for requesting such data will be given in the FEDERAL REGISTER if an application is approved.

Dated: January 12, 1979.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

[PP 8G2078/T179; FRL 1042-4]

PESTICIDE PROGRAMS; THIABENDAZOLE

Establishment of Temporary Tolerances

Merck & Co., Inc., PO Box 2000, Rahway, NJ 07065, has submitted a pesticide petition (PP 8G2078) to the Environmental Protection Agency (EPA). This petition requests that temporary tolerances be established for residues of the fungicide thiabendazole (2-(4-thiazolyl)benzimidazole) in or on the raw agricultural commodities rice grain at 1 part per million (ppm) and rice straw at 20 ppm. (A related document establishing a feed additive regulation for residues of thiabendazole appears elsewhere in today's FEDERAL REGISTER.)

Establishment of these temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C 136).

An evaluation of the scientific data reported and other relevant material has shown that the requested tolerances are adequate to cover residues resulting from the proposed experimental use (618-EUP-9), and it has been determined that the temporary tolerances will protect the public health. The temporary tolerances are being established for the pesticide, therefore, with the following provisions:

V 4 4 / 1 5 J A 2 2 7 9 UMI

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Merck & Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary tolerances expire April 1, 1980. Residues not in excess of 1 ppm remaining in or on rice grain and 20 ppm remaining in or on rice straw after this expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates such revocation is necessary to protect the public health. Inquiries concerning this notice may directed to Mr. Henry Jacoby, Product Manager (PM) 21, Registration Division (TS-767), Office of Pesticide Programs, East Tower, 401 M St., SW, Washington, DC 20460 (202/426-2454).

(Section 408(j) of the Food, Drug and Cosmetic Act [21 U.S.C. 346a(j)]).

Dated: January 11, 1979.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[SS Docket Nos. 78-389 and 78-390; File Nos. 116-A-RL-78 and 117-A-L-78]

AERONAUTICS, INC. AND AIR WILMINGTON, INC.

Application for an Aeronautical Advisory Station To Serve New Hanover County Airport, Wilmington, N.C. Designation Order

Adopted: December 19, 1978.

Released: December 27, 1978.

1. Aeronautics, Inc. (hereinafter called Aeronautics), Wilmington, N.C., and Air Wilmington, Inc. (hereinafter called Wilmington), Wilmington N.C., have filed an application for authority to operate an aeronautical advisory station at the same airport. Aeronautics seeks renewal of its current station license (WRO7) while Wilmington filed for a new station authorization. In that § 87.251(a) of the Commission's rules provides that only one areonautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. Wilmington alleged that the present licensee (Aeronautics) may have violated § 87.257(b) of the rules by not providing impartial information to aircraft concerning available ground service.

3. Aeronautics alleged that Wilmington has operated an unlincensed aeronautical advisory station on 122.95 MHz in violation of section 301 of the Communications Act of 1934, as amended.

4. In view of the foregoing, *it is ordered,* That pursuant to the provisions of Section 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following comparative issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the Aviation Services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points;

(b) To determine the manner in which Aeronautics has operated aeronautical advisory station WRO7 and whether such operation was in violation of § 87.257(b) of the rules by not providing impartial information concerning available ground services;

(c) To determine whether Wilmington has operated an unlicensed aeronautical advisory station at New Hanover County Airport in violation of Section 301 of the Communications Act of 1934, as amended;

(d) To determine the manner in which Wilmington has operated Aviation Instructional station WLJ 2 and whether such operation was consistent with the rules governing this class of station; and

(e) To determine in light of the evidence adduced on the foregoing issues which, if any, application should be granted.

It is further ordered:

(a) That the burden of proceeding with the introduction of evidence on issue 4(b) is on Wilmington and the burden of proof on issue 4(b) is on Aeronautics;

(b) That the burden of proceeding with the introduction of evidence and the burden of proof on issue 4(c) is on Aeronautics and on issue 4(d) the burdens are on Wilmington; and

(c) On all other issues the burdens are on each applicant except for issue 4(e) which is conclusory.

6. *It is further ordered,* That to avail themselves of an opportunity to be heard, Aeronautics and Wilmington, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

CARLOS V. ROBERTS,
Chief, Safety and Special
Radio Services Bureau.

[6712-10-M]

[SS Docket No. 79-2]

EUGENE H. CRONE

Application for Novice Class Amateur Radio Service License; Designation Order

Adopted: January 3, 1979.

Released: January 10, 1979.

The Chief, Safety and Special Radio Services Bureau, pursuant to delegated authority, has under consideration the application of Eugene H. Crone of 124 Hillside Avenue, Teaneck, New Jersey 07666, for a Novice Class license in the Amateur Radio Service.

1. By Order of Revocation (SS-321-78) issued September 1, 1978, Eugene H. Crone's license for Citizens Band radio station KDL-6254 was revoked, effective October 6, 1978. The Order of Revocation concluded that on September 10, 1977, Citizens Band radio station KDL-6254 was operated on a frequency not assigned to the CB Radio Service, in violation of § 95.455(a) of the Commission's Rules.[1] It was also concluded that Crone's station was not identified by call sign, in violation of § 95.471(c) of the Commission's Rules.

2. The Order of Revocation found that Crone's station was identified by the term "3W575" and that he was a member of a "Whiskey" club. The Order found that those clubs were composed of radio operators who transmit on unauthorized frequencies and, in addition to interference to legitimate users of those frequencies, such radio operation caused interference to ambulance, police and other emergency radio services and to neighborhood television reception. The Order found that the participants in these clubs used club identification numbers instead of Commission call signs to enable the operators to identify each other over the air while concealing their identity from the Commission.

3. The Order of Revocation also concluded that on September 10, 1977, Crone's station was operated in violation of §§ 95.469(c) (communications in excess of five minutes), 95.613 (excessive power) and 95.641(c)(4) (use of transmitting equipment capable of operation on non-CB frequencies). The Order concluded that Crone's conduct reflected a disregard for the Commission's authority and the rights of other licensees, and concluded that his license should be revoked.

4. In view of the above, the Commission is unable to find that Crone possesses the requisite qualifications to again become a license of the the Commission. In light of his operating violations while licensed as KDL-6254 and his scheme to operate transmitting equipment without detection by the Commission, it appears that Crone may not be relied upon to abide by the Commission's Rules. His conduct may reflect adversely upon his qualifications to be a Commission licensee by revealing a disregard for the Commission's statutory authority to license and regulate radio stations and operators. It is therefore necessary to designate Crone's application for hearing. The factual matter adjudicated in the Revocation proceeding shall not be relitigated in this proceeding, pursuant to the doctrine of collateral estoppel.

5. Accordingly, *it is ordered,* That pursuant to Section 309(e) of the Communications Act and 1.973(b) and 0.331 of the Rules, Crone's application for a Novice Class Amateur Radio license is designated for hearing, at a time and place to be specified by a subsequent Order, upon the following issues:

(a) To determine the effect of the Order of Revocation (SS-321-78) upon Crone's qualifications to be a licensee of the Commission.

(b) Whether, in light of the evidence adduced pursuant to Issue (a), Eugene H. Crone possesses the requisite qualifications to become a Commission licensee.

(c) Whether, in light of the evidence adduced under the above issues, the public interest, convenience and necessity would be served by the grant of a Novice Class Amateur Radio Service license to Eugene H. Crone.

6. *It is further ordered,* That in order to obtain a hearing on the application, Crone, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission a written appearance stating an intent to appear on a date fixed for hearing to present evidence on the Issues specified in the foregoing paragraph. Failure to file a written apperance within the time specified will result in the dismissal of the application with prejudice.

7. *It is further ordered,* That a copy of this order shall be sent by regular United States Mail to Eugene H. Crone at his address as shown in the caption.

Chief, Safety and Special Radio Services Bureau.

GERALD M. ZUCKERMAN,
Chief, Legal, Advisory and
Enforcement Division.

REPLY TO ORDER DESIGNATING AMATEUR RADIO SERVICE APPLICATION FOR HEARING

In this matter, Respondent takes the action indicated below:

- 1. Respondent will appear at a hearing and present evidence on the issues specified in the order of designation.
- 2. Respondent will not present evidence on the issues specified in the order of designation and understands that as a result his application will be dismissed with prejudice.

Date:————1978.

Eugene H. Crone, Respondent.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 70 "Minimum Performance Standards (MPS)—Marine Loran-C Receiving Equipment": Notice of 14th Meeting, Tuesday, February 6, 1979, Conference Room 7200, Nassif (DOT) Building, 400 Seventh Street SW., (at D Street), Washington, D.C.

AGENDA

1. Call to Order.
2. Old Business.
3. New Business.
4. Administrative Matters.

Captain Alfred E. Fiore, Chairman, SC-70, U.S. Merchant Marine Academy, Kings Point, N.Y. 11024, Phone: (516) 482-8200.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat (phone: (202) 632-6490).

FEDERAL COMMUNICATIONS COMMISSION.
WILLIAM J. TRICARICO,
Secretary.

TELEVISION TRANSLATOR APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: January 9, 1979.

Released: January 15, 1979.

By the Acting Chief, Broadcast Facilities Division:

Notice is hereby given pursuant to § 1.572(c) of the Commission's Rules, that on March 2, 1979, the television translator application listed below will considered ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.59(b) of the Rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on March 1, 1979, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on March 1, 1979.

Any party in interest desiring to file pleadings concerning any pending television translator application, pursuant to Section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Rules, which specifies the time for filing and other requriements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION.
WILLIAM J. TRICARICO,
Secretary.

[1] Effective August 1, 1978, the CB Rules were revised and renumbered. The sections cited are those in effect at the time of the violations.

[6730-01-M]

FEDERAL MARITIME COMMISSION

AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (19 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10423; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by February 12, 1979. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreements Nos.: 50-36, 10265-2 and 10252-1.

Filing Party: Eliot J. Halperin, Esq., Graham & James, 1050 17th Street, N.W., Washington, D.C. 20036.

Summary: Agreements Nos. 50-36, 10265-2 and 10252-1 would amend the self-policing provisions of, respectively, the Pacific Coast/Australasian Tariff Bureau, the South Sea Islands Rate Agreement, and the New Zealand-Pacific Coast Rate Agreement to conform them to the requirements of the Commission's new self-policing rules as embodied in revised General Order 7 (46 CFR, Part 528, effective January 1, 1979). At the same time, the subject rate agreements are withdrawing their pending petitions for exemption to allow officers or employees thereof to serve as the policing authority.

Agreement No.: 2846-41.

Filing Party: Marc J. Fink, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. 2846-41 modifies the basic agreement of the WINAC Conference to conform to the requirements of General Order 7, revised.

Agreements Nos.: 4610-27, 6080-26, 6190-32, 6870-20, 7540-31 and 8120-21.

Filing Party: Seymour H. Kligler, Esq., Brauner Baron Rosenzweig Kligler & Sparber, Attorneys at Law, 120 Broadway, New York New York 10005.

Summary: Agreements Nos. 4610-27, 6080-26, 6190-32, 687020, 7540-31 and 8120-21 would amend the self-policing provisions of the United States Atlantic & Gulf/Jamaica Conference, the United States Atlantic & Gulf/Santo Domingo Conference, the United States Atlantic & Gulf/Venezuela and Netherlands Antilles Conference, the United States Atlantic & Gulf/Venezuela and Netherlands Antiles Conference (Oil Agreement), the Leeward and Windward Islands and Guianas Conference and the United States Atlantic & Gulf/Haiti Conference, respectively, to conform them to the requirements of the Commission's new self-policing rules as embodied in revised General Order 7 (46 CFR, Part 528, effective January 1, 1979).

Agreement No.: 5660-27.

Filing Party: Marc J. Fink, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. 5600-27 modifies the basic agreement of the Marseilles/North Atlantic U.S.A. Freight Conference to conform to the requirements of General Order 7, revised.

Agreement No.: 8090-17.

Filing Party: Marc J. Fink, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. 8090-17 modifies the basic agreement of the Mediterranean/North Pacific Coast Freight Conference to conform to the requirements of General Order 7, revised.

Agreement No.: 9522-38.

Filing Party: Marc J. Fink, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. 9522-38 modifies the basic agreement of the Med-Gulf Conference to conform to the requirements of General Order 7, revised.

Agreement No.: 9925-2.

Filing Party: John R. Mahoney, Esq., Burlingham Underwood & Lord, One Battery Park Plaza, New York, New York 10004.

Summary: Agreement No. 9925-2 between Associated Container Transportation (Australia) Limited and the Australian Shipping Commission (trading as The Australian National Line) would amend the preamble of the service agreement known as Pacific America Container Express Line (PACE) by the addition of the following language thereto:

"Vessels operated under this agreement may transport intermodal shipments (whether or not under through documentation) moving through any port which such vessels are authorized to serve, and in addition shall have the full intermodal priviliges of any conference under whose jurisdiction they operate."

The PACE agreement is presently port-to-port in scope and encompasses the trade between Australia, New Zealand and various South Pacific islands and U.S. Atlantic and Gulf Coast ports, Puerto Rico, the Virgin Islands and the Panama Canal.

Agreement No.: 10116-3.

Filing Party: Charles F. Warren, Esquire, Warren & Associates, P.C., 1100 Connecticut Avenue, N.W., Washington, D.C. 20036.

Summary: Agreement No. 10116-3 modifies the basic agreement of the U.S. Pacific Coast/Japan Revenue Pooling Agreement to extend the duration of the agreement through Mrach 31, 1982.

Agreement No.: T-3761.

Filing Party: Milton A. Mowat, Manager, Traffic and Regulatory Affairs, Port of Portland, Box 3529, Portland, Oregon 97208.

Summary: Agreement No. T-3761, between Matson Terminals, Inc. (Matson) and Port of Portland (Port), provides for the 22-month lease (with a one-year renewal option) of certain terminal facilities at Pier 2, Terminal 4, Portland, Oregon. All cargo moving over the premises will be subject to the Port's then current tariff. Matson guarantees payment of a basic minimum sum of $208,333 for the first 10 months and $250,000 for the next 12 months. Revenue from the collection of charges above the minimum guarantee will be divided between the parties as set forth in the agreement. Agreement No. T-3761 will supersede Agreement No. T-1806 between the same parties.

Agreements Nos.: T-3762, T-3763, T-3764, T-3765, T-3766, T-3767 and T-3768.

Filing Party: Mr. Richard A. Earle, Patton, Boggs and Blow, 2550 M Street NW., Washington, D.C. 20037.

Summary: Agreement No. T-3762, between the Indiana Port Commission (Port) and Lakes and Rivers Transfer Corporation (LRTC), is a Settlement Agreement whereby in consideration for LRTC's withdrawal of the complaint filed in Docket No. 76-22, and LRTC's withdrawal of protests of Agreements Nos. T-3310 and T-3311, in Docket No. 76-59, LRTC shall be granted certain privileges concerning the use of land and dock facilities at Burns Waterway Harbor, Portage, Indiana. LRTC is granted preferential use of Berth No. 6 at the East Harbor Arm of Burns Waterway Harbor, for vessels in excess of 360 feet in length to be stevedored by LRTC. In addition, the Port shall lease to LRTC four acres more or less, and described as Outside Storage Area No. 2, at the rate of $2,000 per month. The Port shall grant Ceres Marine Terminals, Inc., (Ceres) exclusive use of that area styled as the New Dock on the East Harbor Arm, 644 feet of dock space to the north of Berth No. 6 and described as Outside Storage Area No. 3, with the provisions that Ceres shall be subject to the stevedoring needs of the Levy Corporation and the Mortex Corporation, or whichever firm is handling the liquid fertilizer operation at Burns Waterway Harbor. The Port shall permit LRTC to rent 10 acres of land across the road and immediately west of the present storage and distribution area leased to LRTC by Port at an annual rental of $35,890 per annum, for five years. In addition, LRTC is granted the right of first refusal to rent for a period of five years, another 10 acres adjacent to the above-mentioned area, at the same rental offered by another prospective tenant. LRTC shall collect and pay to the Port dockage, wharfage and service charges assessed according to the Port's tariff.

Agreement No. T-3763, between the Port and LRTC, provides for the Port's approximately three-year lease (with a five-year renewal option) to LRTC of Outside Storage Area No. 2, consisting of 4.36 acres at the East Harbor Arm of Burns Waterway Harbor, together with the preferential use of the berth, wharfage and trucking concourse adjacent to the leased area; the preferential use being restricted to vessels in excess of 360 feet in length to be stevedored by LRTC. The facility is to be operated as a ship, barge, railroad, and truck terminal and storage facility. As compensation, LRTC shall pay Port $20,000 annually. LRTC is also required to collect and pay to Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff. This agreement is subject to a right of the Levy Company, Inc., (Levy) to use a portion of the leased premises when Levy cannot use the premises leased to Ceres on the East Harbor Arm of Burns Waterway Harbor.

Agreement No. T-3764, between the Port and LRTC, provides for the Port's approximately three-year lease (with a five-year renewal option) to LRTC of 6.36 acres of land at Burns Waterway Harbor, to be occupied for the purpose of installing and operating a storage, processing and distribution facility for bulk cargoes. As compensation, LRTC shall pay Port $22,635.60 per annum. In addition, LRTC shall pay Port all Port tariff charges, subject to a minimum of $6,306.00 pr annum.

Agreement No. T-3765, between the Port and Ceres Marine Terminals, Inc., (Ceres), provides for the Port's approximately four-year lease (with renewal options) of Outside Storage Area No. 3, consisting of 4.36 acres at the East Harbor Arm of Burns Waterway Harbor, together with the exclusive use of the wharfage and trucking concourse area and Berth No. 7 adjacent to the leased area. The facility is to be operated as a ship, barge, railroad, and truck terminal and storage facility. As compensation, Ceres shall pay Port $20,000 annually. Ceres is also required to collect and pay to Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff.

Agreement No. T-3766, between the Port and Ceres, provides for the Port's approximately four-year lease (with renewal options) to Ceres to Transit Shed No. 2 at the West Harbor Arm of Burns Waterway Harbor, together with the exclusive use of the wharfage and trucking concourse area and Berth No. 2 adjacent to the leased area: The facility is to be operated as ship, barge, railroad, and truck terminal and warehouse facility. As compensation, Ceres shall pay Port $100,000 annually. Ceres is also required to collect any pay the Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff.

Agreement No. T-3767, between the Port and Ceres, provides for the Port's approximately four-year lease (with renewal options) to Ceres of Tansit Shed No. 1 and Outside Storage Area No. 1 at the West Harbor Arm of Burns Waterway Harbor, together with the exclusive use of the wharfage and trucking concourse area and Berths Nos. 3 and 4 adjacent to Transit Shed No. 1 The facility is to be operated as a ship, barge, railroad and truck terminal and warehouse facility. As compensation, Ceres shall pay Port $124,168.80 annually. Ceres is also required to collect and pay to Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff.

Agreement No. T-3768, between the Port and Ceres, provides for the Port's lease to Ceres of a freezer facility attached to Transit Shed No. 1 at the West Harbor Arm of Burns Waterway Harbor, to be used as a facility for the storing and handling of frozen or refrigerated foods merchandise. As compensation, Ceres shall pay Port a basic monthly rental of 1/240 of the certified cost of constructing the facility, not to exceed a total of $300,000. In addition, Ceres shall pay additional rent as specified in the agreement. Ceres is also required to collect and pay to Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff.

By Order of the Federal Maritime Commission.

Dated: January 17, 1979.

FRANCIS C. HURNEY,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

MODEL ADOPTION LEGISLATION AND PROCEDURES ADVISORY PANEL

Meeting

The Model Adoption Legislation and Procedures Advisory Panel was established by the Child Abuse Prevention and Treatment and Adoption Reform Act of 1978 (Public Law 95-266, Title

II, Section 202) to advise and assist the Secretary of HEW in the review of current conditions, practices, and laws relating to adoption, with special reference to their effort on facilitating or impeding the location of suitable adoptive homes for children who would benefit by adoption and the completion of suitable adoptions for such children. The Panel will propose to the Secretary model adoption legislation and procedures not later than twelve months after its appointment.

Notice is hereby given pursuant to the Federal Advisory Committee Act (Public Law 95-463, 5 U.S.C. app. 1, sec. 10, 1976) that the Panel will hold a meeting on February 5, 6 and 7, 1979 from 9:00 a.m. to 5:00 p.m., Room 5549, Donohoe Building, 400 6th Street, S.W., Washington, D.C.

At this meeting, the Panel will consider and approve an agenda for the three day meeting. The Panel will discuss the first draft of the model adoption legislation and recommend items to be included in the first draft of model adoption procedures. The Panel will meet in plenary session throughout the three day meeting.

Further information on the Panel may be obtained from Mrs. Diane D. Broadhurst, Executive Secretary, Model Adoption Legislation and Procedures Advisory Panel, Children's Bureau, P.O. Box 1182, Washington, D.C. 20013, telephone (202) 755-7730. Model Adoption Legislation and Procedures Advisory Panel meetings are open for public observation.

ARNOLD SAMPSON,
HDS Committee Management Officer.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

RELOCATION OF ALASKA STATE OFFICE

Anchorage, Alaska

The anchorage, Alaska, Bureau of Land Management State Office will relocate all of its present office personnel, equipment and functions from its present location 555 Cordova Street to the Federal Building U.S. Courthouse located at 701 C Street, Anchorage, Alaska.

This move will commence 7:30 a.m., February 3, 1979, and be completed by 7:30 a.m., February 12, 1979. the relocation involves the move of the Land Office which will close for business at 4:00 p.m. on February 2, 1979, and open for business at 10:00 a.m. on February 5, 1979. The mailing address and telephone number for the new location will be: Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska, 99513, telephone 907-271-5960.

A Public Information Office, including land office information, will be maintained at the Anchorage Federal Office Building, 701 C Street, Room D-137.

CLAIR M. WHITLOCK
Acting State Director.

DEPARTMENT OF JUSTICE

Office of the Attorney General

[AAG/A Order No. 22-79]

PRIVACY ACT OF 1974

New System of Records

Pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. § 552a), notice is hereby given that the Department of Justice proposes to establish a new system of records to be maintained by the Drug Enforcement Administration (DEA).

The Essential Chemical Reporting System (JUSTICE/DEA-020) is a new system of records for which no public notice consistent with the provisions of 5 U.S.C. § 552a(e)(4) has been published in the FEDERAL REGISTER.

5 U.S.C. 552a(e)(4) and (11) provide that the public be given a 30-day period in which to comment; the Office of Management and Budget (OMB), which has oversight responsibility under the Act, requires a 60-day period in which to review the system before it is implemented. Therefore, the public, OMB, and the Congress are invited to submit written comments on this system. Comments should be addressed to the Administrative Counsel, Office of management and Finance, Room 1118, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530. If no comments are received from either the public, OMB, or the Congress on or before March 23, 1979, the system will be implemented without further notice in the FEDERAL REGISTER. No oral hearings are contemplated.

A report of the proposed system has been provided to the Director, OMB; to the President of the Senate; and to the Speaker ot the House of Representatives.

KEVEIN D. ROONEY,
Assistant Attorney General for Administration.

JANUARY 10, 1979.

JUSTICE/DEA-020

System name:

Essential Chemical Reporting System.

System location:

Drug Enforcement Administration (DEA), 1405 I Street, N.W., Washington, D.C. 20537. Also, DEA Field Offices. See Appendix 1 for list of addresses.[1]

Categories of individuals covered by the system:

A. Individuals who submit reports concerning the sale, loss, or theft of piperidine or other chemical essential to the manufacture of controlled substances.

B. Individuals who are reported as the purchaser, importer, or individual suffering the loss or theft of piperidine or other chemical essential to the manufacture of controlled substances.

C. Individuals who are reported as the person placing an order for piperidine or other chemical essential to the manufacture of controlled substances.

D. Individuals who are reported as being involved in or having knowledge of the details relative to the loss or theft of piperidine or other chemical essential to the manufacture of controlled substances:

Categories of records in the system:

The system contains: (1) Piperidine reports submitted to DEA pursuant to Pub. L. No. 95-633. (2) Information extracted from piperidine reports and maintained on magnetic tape. (3) reports submitted voluntarily to DEA concerning chemicals essential to the manufacture of controlled substances.

Authority for maintenance of the system:

This system of records is maintained pursuant to the reporting requirements contained in Pub. L. No. 95-633.

[1] Most recently published at 43 FR 44718 on September 28, 1978.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information contained in this system is provided to the following categories of users for the purposes stated:

(A) Other Federal law enforcement and regulatory agencies for law enforcement or regulatory purposes.

(B) State and local law enforcement and regulatory agencies for law enforcement and regulatory purposes.

(C) Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

(D) Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

(E) Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage:

Essential chemical report documents will be maintained in manual file folders. Information extracted from these documents will be maintained on magnetic tape.

Retrievability:

The information maintained on magnetic tape will be retrievable by the name of any individual mentioned in the report.

Safeguards:

The proposed system of records will be maintained in DEA Headquarters which is protected by twenty-four hour guard service and electronic surveillance. Access to the building is restricted to DEA employees and those persons transacting business within the building who are escorted by DEA employees. Manual files will be maintained in the DEA central files and access to these documents will be restricted to DEA employees on a need-to-know basis. Access to information maintained on magnetic tape will require a specific computer program to extract information. Access to information through ADP terminals will require a user identification code which will be issued to authorized DEA employees on a strict need-to-know basis.

Retention and disposal:

Until DEA gains experience to establish the useful life of the records in this system, the records will be maintained indefinitely.

System manager(s) and address:

Assistant administrator for Enforcement, Drug Enforcement Administration, 1405 I Street, N.W., Washington, D.C. 20537.

Notification procedure:

Inquiries should be addressed to Freedom of Information Division, Drug Enforcement Administration, 1405 I Street, N.W., Washington, D.C. 20537.

Access and contest:

Same as above.

Record source categories:

Individuals required to submit piperidine reports pursuant to Pub. L. No. 95-633, and individuals who voluntarily submit reports concerning the sale, distribution or importation of chemicals essential to the manufacture of controlled substances.

Systems exempted from certain provisions of the act:

None.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-313]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 39 to Facility Operating License No. DPR-51, issued to Arkansas Power & Light Company (AP&L) or the licensee), which revised the Technical Specifications for operation of Arkansas Nuclear One, Unit No. 1 (ANO-1 or the facility) located in Pope County, Arkansas. The amendment is effective as of the date of issuance.

This amendment authorizes deletion of sodium thiosulfate from the Reactor Building Spray System, allows the installation of an orifice in the line between the Sodium Hydroxide Tank (SHT) and the Borated Water Storage Tank (BWST) and changes to the Technical Specifications on the operating limits for the SHT and BWST water levels and chemical concentrations.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the licensee's applications for amendment dated July 5, 1977, and December 6, 1977, as supplemented December 13, 1978, (2) Amendment No. 39 to License No. DPR-51, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at

V 4 4 / 1 5 J A 2 2 7 9 UMI

the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Arkansas Polytechnic College, Russellville, Arkansas. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 12th day of January 1979.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[FR Doc. 79-2095 Filed 1-19-79; 8:45 am]

[7590-01-M]

[Docket No. 50-313]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 38 to Facility Operating License No. DPR-51, issued to Arkansas Power and light Company (the licensee), which revised the license and its appended Technical Specifications for operation of the Arkansas Nuclear One, Unit No. 1 (the facility) located in Pope County, Arkansas. The amendment is effective as of its date of issuance.

The amendment changes the license and Technical Specifications relating to the receipt, possession, and use of byproduct, source and special nuclear material.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) and environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 16, 1978, as supplemented December 6, 1978, (2) Amendment No. 38 to License No. DPR-51, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Arkansas Polytechnic College, Russellville, Arkansas. A copy of items (2) and (3) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 11th day of January 1979.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch #4, Division of Operating Reactors.

[FR Doc. 79-2094 Filed 1-19-79; 8:45 am]

[7590-01-M]

[DOCKET NO. 50-305]

WISCONSIN PUBLIC SERVICE CORP.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Facility Operating License No. DPR-43 issued to Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Madison Gas and Electric Company which revises Technical Specifications for operation of the Kewaunee Nuclear Power Plant located in Kewaunee, Wisconsin. The amendment will become effective as of the date of issuance.

The amendment revised the Technical Specifications to include a change in inlet temperature to take into account the fuel rod bow penalty.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 12, 1977, (2) Amendment No. 24 to Facility Operating License No. DPR-43, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555; and at the Kewaunee Public Library, 314 Milwaukee Street, Kewaunee, Wisconsin 54216. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention, Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 15th day of January 1979.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactor Branch #1, Division of Operating Reactors.

Secretary.

[FR Doc. 79-2215 Filed 1-19-79; 8:45 am]

[4910-06-M]

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

REAR END MARKING DEVICES

Petitions for Waiver of Rules

As required by 45 U.S.C. 431(c) and in accordance with 49 CFR 211.41 and 211.9, notice is hereby given that five railroads have submitted waiver petitions to the Federal Railroad Administration (FRA) requesting temporary or permanent waivers of compliance with 49 CFR Part 221 (Rear End Marking Devices—Passenger, Commuter, and Freight Trains). That part requires that certain passenger, commuter and freight trains be equipped with highly visible marking devices located on the trailing end of the rear car of the train.

Part 221 was published in the FEDERAL REGISTER on January 11, 1977 (42 FR 2321), and became effective on February 15, 1977. Compliance with the provisions of that part became mandatory on July 1, 1978 (42 FR 62002).

Each of the railroads seeking a waiver is identified below. A brief discussion of each request for waiver is provided.

Interested persons are invited to participate in these proceedings by submitting written data, views or comments. The FRA does not anticipate scheduling a public hearing in connection with the aforemetioned petitions since the facts do not appear to warrant a hearing. However, a public hearing will be scheduled if requested by an interested person before January 31, 1979.

All communications concerning these petitions must identify the appropriate docket number (e.g. FRA Waiver Petition No. RSRM-78-20) and should be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 2100 Second Street, S.W., Washington, D.C. 20590. Communications received before February 23, 1979 will be considered by the FRA before final action is taken. Comments received after that date will be considered to the extent practicable.

Detailed information concerning each petition is on file with the docket clerk. Any comments received will also be on file. This material is available for examination by the public during regular business hours in Room 4406, Trans Point Building, 2100 Second Street, S.W., Washington, D.C. 20590.

FRA WAIVER PETITION DOCKET NO. RSRM-78-19

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD

The Chicago, Rock Island and Pacific Railroad (CRI&P) seeks a temporary waiver of compliance with the provisions of 49 CFR Part 221 which require that trains be equipped with highly visible marking devices.

The CRI&P notes that although the regulation requires that the marking devices be in service beginning in July of 1978, it has not been possible to equip all of its trains by that date. The CRI&P notes that it is in the process of obtaining and installing approved devices. However, production delays have prevented CRI&P from meeting the July 1, 1978 deadline for installation provided for in the regulation.

The CRI&P notes that the process of equipping all of its passenger and commuter trains was completed during October of 1978 when new passenger cars were received. However, the process of installing approved devices for freight trains will require additional time in CRI&P's judgement. CRI&P states that it expects to complete the installation of approved devices for its cabooses during June of 1979. The CRI&P seeks a temporary waiver of compliance until June 30, 1979 in order to complete the installation effort.

FRA WAIVER PETITION DOCKET NO. RSRM-78-20

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD

The Chicago, Milwaukee, St. Paul and Pacific Railroad (Milwaukee) seeks a temporary waiver of compliance with the provisions of 49 CFR Part 221 which require that trains be equipped with highly visible marking devices.

The Milwaukee notes that it has brought all of its passenger and commuter trains into compliance with the regulation. This has been accomplished in part by using the locomotive headlight as provided by the regulation. As of March 30, 1979 the Milwaukee will complete the installation of marker devices and will eliminate the use of headlights, as passenger trains marker devices, on that date.

The Milwaukee states that it is also in the process of equipping its cabooses with approved marking devices. This effort involves approximately 400 cabooses and includes 358 cabooses used primarily in road service. The effort to equip the cabooses has been hampered by the fact that only 126 cabooses are known to be equipped with electrical capability and that a large number of these electrical systems do not have the capacity to support the currently available marking devices.

The need to equip cabooses with axle generators and the limited deliveries of approved devices when combined with the fact that the Milwaukee has filed for bankruptcy has prompted the Milwaukee to seek a waiver of compliance until December 31, 1980 for the completion of its installation effort.

FRA WAIVER PETITION DOCKET NO. RSRM-78-21

MAINE CENTRAL RAILROAD

The Maine Central Railroad (MEC) seeks a temporary waiver of compliance with the provisions of 49 CFR Part 221 which require that trains be equipped with highly visible marking devices.

The MEC states that it operates approximately 46 cabooses and that none of these cabooses are equipped with electrical capability. Therefore, the MEC had originally intended to use non-electrical marking devices. MEC now intends to use lighted devices and has obtained FRA approval of the devices but delays have occurred which prevented the manufacturer from making rapid delivery of the devices.

The devices selected by the MEC will require that each caboose be brought to the shop facility at Waterville, Maine for the installation work. The MEC states that the scheduling of cabooses to reach this facility is restricted by the railroad's labor agreements which provide for the assigning of specific cabooses to specific train crews. Consequently, the MEC states that it will need until July 1, 1979 in order to complete the installation of the marker devices without severely disrupting train service. The MEC seeks a waiver of compliance until July 1, 1979 so that it can complete this installation effort.

FRA WAIVER PETITION DOCKET NO. RSRM-78-23

ST. LOUIS-SAN FRANCISCO RAILWAY

The St. Louis-San Francisco Railway (Frisco) seeks a temporary waiver of compliance with the provisions of 49 CFR 221 which require that trains be equipped with highly visible marking devices.

The Frisco notes that it operates approximately 195 cabooses. This caboose fleet includes 118 cabooses used in "pool" service, 70 cabooses used in local service and 7 cabooses used for terminal operations. The Frisco intends to equip these cabooses with approved marking devices in a two stage process.

The first step in this process will be to equip the 118 "pool" cabooses since these units are already equipped with electrical capability. The effort to

V 4 4 / 1 5 J A 2 2 7 9 UMI

V 4 4 / 1 5 J A 2 2 7 9 UMI

equip these cabooses should be completed during April of 1979. The second step in this process will be to equip the non-electrified cabooses. The Frisco indicates that it has been unable to find an acceptable device for these units. Several potential solutions are being considered at the present time including the use of solar powered devices. However, the Frisco does not anticipate being able to select a device, field test that device and complete installation on the 77 local and terminal cabooses before December 31, 1980. Consequently, the Frisco seeks a waiver of compliance until December 31, 1980 for completion of the installation of these devices.

FRA WAIVER PETITION DOCKET NO. RSRM-78-24

BANGOR AND AROOSTOOK RAILROAD

The Bangor and Aroostook Railroad (BAR) seeks a permanent waiver of compliance with the provisions of 49 CFR Part 221 which require that trains be equipped with highly visible marking devices.

The BAR notes that it operates over approximately 500 miles of track and that approximately 300 miles of that trackage is main line track. The BAR operations are limited to freight trains and normally involve only 16 road freight trains on an average day.

The method of operation used by the BAR provides that each train is given sole and exclusive right to occupy a portion of main track by train order. This method of operation is commonly called an absolute block system. In view of this absolute block system the BAR indicates that the marking devices required by the regulation will not improve the safety of train operations. Consequently, the BAR seeks a permanent waiver of compliance with the regulation provided that this absolute block system is utilized.

(Sec. 202, Federal Railroad Safety Act of 1970, as amended (45 U.S.C. 431); Sec. 1.49(n), Regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n)).

Issued in Washington, D.C. on January 15, 1979.

ROBERT H. WRIGHT,
Acting Chairman,
Railroad Safety Board.

[4910-59-M]

National Highway Traffic Safety Administration

FIAT 850 AND 124 MODELS FOR MODEL YEARS 1970-1974 IMPORTED BY FIAT MOTORS OF NORTH AMERICA, INC.

Public Proceeding

Pursuant to section 152 of the National Traffic and Motor Vehicle Safety Act of 1966 as amended (Pub. L. 93-492, 88 Stat. 1470; October 27, 1974, 15 U.S.C. 1412), I have made an initial determination that a defect relating to motor vehicle safety exists in the frame and underbody of the 124 and 850 models of the Fiat automobile for model years 1970 through 1974 because these critical vehicle components are susceptible to weakening and failure due to excessive rust or corrosion which can result in accidents, injuries, deaths and property damage.

A public meeting will be held at 10 a.m. on February 21, 1979, in room 6332, Department of Transportation Headquarters, 400 Seventh Street, S.W., Washington, D.C. 20590, at which Fiat Motors of North America, Inc. will be afforded an opportunity to present data, views and arguments to establish that the alleged defect does not exist or does not affect motor vehicle safety.

Interested persons are invited to participate through written or oral presentations. Persons wishing to make oral presentations are requested to notify Mrs. Joan Murianka, Office of Defects Investigation, National Highway Traffic Safety Administration, Washington, D.C. 20590, telephone 202-426-2850, before the close of business on February 16, 1979. A transcript will be kept and exhibits may be accepted. There will be no cross-examination of witnesses.

The agency's investigative file in this matter is available for public inspection during regular working hours (7:45 a.m. to 4:15 p.m.) in the Technical Reference Division, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590.

(Sec. 152, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1412); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on January 16, 1979.

FRANK BERNDT,
Associate Administrator
for Enforcement.

[4910-59-M]

[Docket No. IP77-9; Notice 2]

VESPA OF AMERICA CORP.

Grant of Petition for Determination of Inconsequential Noncompliance

This notice grants the petition by Vespa of America Corp. of San Francisco, California, to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.123 Motor Vehicle Safety Standard No. 123, *Motorcycle Controls and Displays.* The basis of the petition was that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on July 21, 1977, and an opportunity afforded for comment (42 FR 37467).

Petition is an importer of motor scooters which are defined as "motorcycles" under the Federal motor vehicle safety standards. Pursuant to Table 3 of Standard No. 123 a motorcycle speedometer is required to be identified as follows: "Major graduations and numerals appears at 10 m.p.h. intervals. Minor graduations at the 5 m.p.h. intervals." Vespa has imported approximately 2,800 vehicles between April 1975 and May 1977 with speedometer face calibrations beginning at 10 m.p.h. instead of zero, and which omit a minor graduation at the 5 m.p.h. increment. Petitioners argues that the nonconformance is inconsequential because "as the products involved are intended for street and highway use at speeds up to legal limits, the probability that vehicles will be operated in situations requiring speed less than 10 MPH is remote."

No comments were received on the petition.

The National Highway Traffic Safety Administration concurs in Vespa's assessment of the failure to comply with Standard No. 123. Its failure to provide the minor graduation to indicate the 5 mph speed ought to have no discernible effect upon safety. There are few if any jurisdictions that impose a 5 mph speed limit that would require the operator of a motor driven cycle to refer to the speedometer. Accordingly the NHTSA hereby grants the petition by Vespa of America Corp. that the noncompliance of Standard No. 123 herein described be deemed inconsequential as it relates to motor vehicle safety.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on January 15, 1979.

MICHAEL M. FINKELSTEIN,
Associate Administrator
for Rulemaking.

National Highway Traffic Safety Administration

[Docket No. FE 78-02, Notice 2]

AUTOMOTIVE FUEL ECONOMY PROGRAM REPORT TO CONGRESS

Extension of Comment Deadline; Invitation of Financial Assistance Applications; Cancellation of Public Meeting

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Extension of deadline for submission of written comments, invitation of financial assistance applications, and cancellation of public meeting.

SUMMARY: This notice extends the deadline (originally established as February 16, 1979, in 43 FR 59577) for submission of written comments on the agency's annual report to Congress on the automotive fuel economy program. This notice also invites applications for financial assistance from individuals or organizations which desire to participate in the review of the report and the recommendation of future rulemaking activities resulting from the report, but which are financially unable to do so (see eligibility criteria and application procedures in 42 FR 2864, January 13, 1977). These actions are taken to facilitate increased public comment on the report. Because of this opportunity for increased written comment and because submission of views in written form is considered by the agency to be more appropriate than oral comment, given the technical nature of the issues involved, the public meeting originally scheduled for February 15 and 16 in Washington, D.C., is cancelled.

DATES: Written comments on the report to Congress must be submitted by March 23, 1979. Applications for financial assistance must be submitted by February 6, 1979.

ADDRESSES: Comments should refer to Docket No. FE 78-02 and be submitted in writing (preferably in 10 copies) to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. Applications for financial assistance must be submitted to Ms. Jeannette Feldman, Special Assistant to the Evaluation Board, National Highway Traffic Safety Administration, Room 5232, 400 Seventh Street, S.W., Washington, D.C. 20590. Copies of the annual report may be obtained from Mr. William Devereaux, Office of Automotive Fuel Economy Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-755-9384).

FOR FURTHER INFORMATION CONTACT:

Mr. William Devereaux, at the above address.

Issued on January 19, 1979.

JOAN CLAYBROOK,
Administrator.

[4910-59-M]

ADVANCED AUTOMOTIVE TECHNOLOGY

Public Meeting

On December 5, 1978, the Secretary of Transportation delivered a challenge to the U.S. motor vehicle industry to create new, superior vehicles. He noted that further incremental increases in fuel economy beyond 1985 may be insufficient to offset increases in consumption in the 1990's, and that to hold the use of motor fuels to tolerable levels may require a virtual redoubling of the fleet fuel economy average before the turn of the century. The conference will focus on basic research to support further improvement in motor vehicles.

The Secretary has asked the Transportation Systems Center, in cooperation with the National Highway Traffic Safety Administration, to hold a conference on basic research directions for advanced automotive technology on February 13 and 14, 1979, at the Sheraton-Boston Hotel, 39 Prudential Center, Boston, Massachusetts. The conference will convene at 9 a.m. on the first day. The objective of this conference is to obtain views from a variety of knowledgeable and interested people from many fields and institutions on the basic research objectives and priorities that would address automotive transportation needs for the 1990's and beyond.

The conference agenda will include three panel discussion areas: engines; fuel and powertrain systems; and vehicle structures and materials. It is planned to stimulate discussion by the panelists on the basic research requirements for establishing and expanding the limits of automotive technology for the long term future. All discussions and meetings of the panel will be open to the public. Questions and comments from the audience will be entertained at certain points in the panel discussions.

V 4 4 / 1 5 J A 2 2 7 9 UMI

Questions about the meeting may be directed to Ms. Susan Swain, of the Transportation Systems Center, Kendall Square, Cambridge, Massachusetts, at 617-494-2392.

Issued on January 19, 1979.

JOAN CLAYBROOK,
Administrator.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Department Circular Public Debt Series—No. 1-79]

TREASURY NOTES FOR JANUARY 31, 1981

Series P-1981

JANUARY 18, 1979.

1. INVITATION FOR TENDERS

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $2,700,000,000 of United States Securities, designated Treasury Notes of January 31, 1981, Series P-1981 (CUSIP No. 912827 JJ 2). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts may also be issued for cash to Federal Reserve Banks as agents of foreign and international monetary authorities.

2. DESCRIPTION OF SECURITIES

2.1. The securities will be dated January 31, 1979, and will bear interest from that date, payable on a semiannual basis on July 31, 1979, and each subsequent 6 months on January 31 and July 31, until the principal becomes payable. They will mature January 31, 1981, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be included at a later date.

3. SALE PROCEDURES

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Standard time, Tuesday, January 23, 1979. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, January 22, 1979.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $5,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed $1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; federally insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by a deposit of 5% of the face amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a guarantee of such deposit by a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yield, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.500. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. RESERVATIONS

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. PAYMENT AND DELIVERY

5.1. Settlement for allotted securities must be made or completed on or before Wednesday, January 31, 1979, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than:

(a) Monday, January 29, 1979, if the check is drawn on a bank in the Federal Reserve District of the institution to which the check is submitted (the Fifth Federal Reserve District in case of the Bureau of the Public Debt), or

(b) Friday, January 26, 1979, if the check is drawn on bank in another Federal Reserve District.

Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at the applicable Federal Reserve Bank. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment is not completed on time, the deposit submitted with the tender, up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered as deposits and in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. GENERAL PROVISIONS

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

SUPPLEMENTARY STATEMENT

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the Departmental procedures applicable to such regulations.

PAUL H. TAYLOR,
Fiscal Assistant Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 17, 1979.

These applications for long-and-short-haul relief have been filed with the I.C.C.

Protests are due at the I.C.C. on or before February 6, 1979.

FSA NO. 43652, Southwestern Freight Bureau, Agent's No. B-793, rates on carbolic acid (phenol), from stations in Southwestern Territory to stations in New Jersey, in Supplements 36 and 25 to its Tariffs 38-E and 355-D, ICC 5338 and 5336, respectively, to become effective February 12, 1979. Grounds for relief-market competition.

FSA NO. 43653, Burlington Northern Inc., No. 5, unit train rates on potash, from Northgate, N.D. to specified points in the Midwest, in supp. 10 to its Tariff 13-F, ICC 452, to become effective March 5, 1979. Grounds for relief—Market competition and rate relationship.

[Notice No. 11]

ASSIGNMENT OF HEARINGS

JANUARY 17, 1979.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 126822 (Sub-48F), Westport Trucking Company, a Corporation, now assigned January 8, 1979, Washington, D.C. is cancelled transfered to Modified Procedure.

MC 113908 (Sub-443F), Erickson Transport Corporation, now assigned January 31, 1979, at Washington, D.C. is cancelled transfered to Modified Procedure.

MC 135237 (Sub-3F), East Penn Trucking Company, a Corporation, now assigned January 24, 179, at Washington, D.C. is cancelled transfered to Modified Procedure.

MC 120257 (Sub-42), K. L. Breeden & Sons, Inc., now assigned January 9, 1979, at Birmingham, Alabama is cancelled transfered to Modified Procedure.

MC 119777 (Sub-350F), Ligon Specialized Hauler, Inc., now assigned January 15, 1979, at Birmingham, Alabama is cancelled transfered to Modified Procedure.

MC 136828 (Sub-26F), Cook Transports, Inc., now assigned January 29, 1979, at Birmingham, Ala., is postponed to March 13, 1979, (4 days), at Birmingham, Ala., in a hearing room to be later designated.

MC-1745 (Sub-8F), Interstate Van Lines, Inc., now assigned for continued hearing on January 16, 1979, at the Interstate Commerce Commission, Washington, D.C.

MC 4405 (Sub-585F), Dealers Transit, Inc. & MC 4810 (Sub-5F), Rocky Mountain Trucking Company & MC 23618 (Sub-39F), McAlister Trucking Co., DBA Mateo, & MC 25518 (Sub-20), John Bunning Transfer Co. Inc., & MC 43867 A. L. McAlister Trucking Company, & MC 95350 (Sub-8F), R. W. Jones Trucking Co., & MC 105006 (Sub-7F), L. L. Smith Trucking & MC 105006 (Sub-9F), L. L. Smith Trucking & MC 105984 (Sub-21F), John B. Barbour Trucking Company, & MC 110817 (Sub-25F), E. L. Farmer & Company & MC 113531 (Sub-2F), B & M Service, Inc., & MC 113822 (Sub-6F), Dalgarno Transportation, Inc., & MC 113822 (Sub-8f), Dalgarno Transportation, Inc., & MC 114761 (Sub-13), Getter Trucking Incorporated, & MC 119774 (Sub-96F), Eagel Trucking Company & MC 125433 (Sub-170F), F-B Truck Line Company & MC 135705 (Sub-11F), Melrose Trucking Co., Inc., & MC 143446 (Sub-1F), Gary L. McCallister & Monte A. McCallister DBA McCallister Brothers & MC 143446 (Sub-3F), Gary L. McCallister & Monte A. McCallister DBA McCallister Brothers, & MC 144961 (Sub-1F), Reed Transportation, & MC 145568F, Pollard Transportation now assigned for continued hearing on March 27, 1979 (4 days), at Casper, Wyoming and will be held at Ramada Inn 123 West E St., and will be continued April 2, 1979 (2 weeks), at Denver, Colorado and will be held at Executive Plaza Inn 1405 Curtis St.

MC 51146 (Sub-611F), Schneider Transport, Inc., now assigned January 25, 1979, at Chicago, Illinois is cancelled transfered to Modified Procedures.

MC 124920 (Sub-14), LaBar's Inc., and MC 124821 Sub 26, William Gilchrist, now assigned February 5, 1979, at Philadelphia, Pa., is postponed to March 15, 1979, (2 days), at Philadelphia, Pa., in a hearing room to be later designated.

MC 141912 (Sub-9F), Tollie Freightways, Inc., now assigned January 23, 1979, at Kansas City, Missouri is cancelled transfered to Modified Procedure.

MC 52861 (Sub-42F), Wills Trucking, Inc., now assigned March 1, 1979, at Columbus, Ohio is cancelled transfered to Modified Procedure.

MC 119493 (Sub-2220F), Monkem Company, Inc., is transfered to Modified Procedure.

MC 144374F, Mason Travel Service, Inc., now assigned for hearing on February 21, 1979, at Indianapolis, Indiana and will be held in Room 288, Federal Building & Courthouse.

MC-F 13622, Paris Motor Freight, Inc.—Purchase (Portion)—Rock Island Transit Company, MC-F 13663 Murphy Motor, Freight Lines, Inc.—Purchase (Portion)—The Rock Island, Motor Transit Company, MC-F 13668, Garrison Motor Freight, Inc.—Purchase (Portion)—The Rock Island Motor Transit Company, MC-F 13670, Winters Truck Lines, Inc.—Purchase (Portion)—Rock Island Motor Transit Company, now assigned for hearing on March 6, 1979, at the Offices of Interstate Commerce Commission, Washington, DC.

MC-F 13606, Crouse Cartage Company—Purchase—(Portion)—The Rock Island Motor Transit Company, MC-F 13631, Witte Transportation Company—Purchase (Portion)—The Rock Island Motor Transit Company, MC-F 13649, Ideal Truck Lines, Inc.—Purchase (Portion)—The Rock Island Motor Freight Co., MC-F 13657, Century-Mercury Motor Freight, Inc.—Purchase (Portion)—The Rock Island Motor Transit Company, MC-F 13691F, Jerry Simpson DBA Thornton Transfer—Purchase (Portion)—The Rock Island Motor Transit Company, are transfered to Modified, Procedure.

MC 128273 (Sub-301F), Midwestern Distribution, Inc., now assigned for hearing on February 26, 1979, at Cincinnatti, Ohio and will be held in Room 8017, Federal Office Building.

MC 144537F, Marvin Y. Neely and Nancy B. Neely, A Partnership, DBA Shun Pike Tours, now assigned for hearing on February 7, 1979, at Philadelphia, Pennsylvania and will be held in U.S. Customs Courtroom, Third Floor, U.S. Customs House Building.

MC 114457 (Sub-401F), Dart Transit Company, a Corp., now assigned for hearing on February 5, 1979, at New York City, New York and will be held in Room R-2222, Federal Building. No. MC 89369 (Sub-20F), Joart Trucking Company, now assigned for hearing on February 8, 1979, at New York City, New York and will be held in Room E-2222, Federal Building. No. MC 95540 (Sub-1038F), Watkins Motor Lines, Inc., now assigned for hearing on February 6, 1979, at New York City, New York and will be held in Room E-2222, Federal Building.

[Notice No. 10]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

Important Notice: The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it applies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

W-377 (Sub-16 TA). By decision entered the Motor Carrier Board granted Dixie Carriers, Inc., 1717 St. James Place, Houston, TX 77027, 180 days temporary authority to engage in the business of transportation by water vessel, in interstate commerce, by self propelled vessels iron and steel articles (H-beam pilings), from Baton Rouge, LA and Natchez, MS on the Mississippi River to its confluence with the Red River, then along Red River to Red River lock and Dam #1 job site located at or near mile 51 on the Red River in Louisiana, restricted to shipments having a prior movement from Conway, PA to Baton Rouge, LA.

Alan F. Wohlstetter, 1700 K Street, NW, Washington, D.C. 20006 representative for applicant. Any interested person may file a petition for reconsideration on or before February 12, 1979. Within 20 days after the filing of such petition with the Commission, any interested person may file and serve a reply thereto.

H. G. HOMMME, Jr.,
Secretary.

[7035-02-M]

[Notice No. 149]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include request for oral hearing, must be filed with the Commission on or before February 21, 1979. Failure seasonably to file a protest will be construed as a waiver of opposition and participation of the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-77832, filed August 28, 1978. Transferee: JOHN F. MOWRY, JR. and DEAN E. STILES doing business as ESCORT MOVING & STORAGE, 525 Harvester Drive, Windber, PA 15963. Transferor: Robert E. Weaver, doing business as Morrellville Transit Company, P.O. Box 215, Windber, PA 15963. Representative: John M. Musselman, Rhoads, Sinon & Hendershot, P.O. Box 1146, 410 North Third Street, Harrisburg, PA 17108. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-61316 and Subs 2, and 3, issued August 3, 1965, August 2, 1967, and July 16, 1968, respectively, as follows: Household goods, between Johnstown, PA, and points within 15 miles thereof, on the one hand, and, on the other, points in NY, NJ, MD, VA, WV, and DC; between Ebensburg, PA, and points within 10 miles, on the one hand, and, on the other, points in NY, WV, MD and DC; and between points in Allegheny County, PA, on the one hand, and, on the other, points in NY, MD, WV, NJ, OH, IN, IL, MI, KY, TN and DC. Transferee presently holds no authority from this Commission. Applicant has filed for temporary authority under Section 210a(b).

MC-FC-77842, filed August 31, 1978. Transferee: HAZEL F. KERSTING, Martinsburg, MO 65264. Transferor: Keith Botkins Trucking, Inc., 112 West Rollins Street, Moberly, MO 65270. Representative: Thomas P. Rose, P.O. Box 205, Jefferson City, MO 65101. [Finance Docket No. 28929F]

CHICAGO, SOUTH SHORE AND SOUTH BEND RAILROAD

Trackage Rights Over the Baltimore and Ohio Chicago Terminal Railroad and the Baltimore and Ohio Railroad Co. in Lake County, IN

CHICAGO SOUTH SHORE AND SOUTH BEND RAILROAD (South Shore), North Carroll Avenue, Michigan City, IN 46360, represented by Alan A. Rudnick, Attorney, Terminal Tower, P.O. Box 6419, Cleveland, OH 44101, hereby give notice that on the 29th day of December, 1978, it filed with the Interstate Commerce Commission at Washington, DC, an application under Section 11343 of the Interstate Commerce Act (formerly Section 5(2)) for a decision approving and authorizing the acquisition of trackage rights over tracks of THE BALTIMORE AND OHIO CHICAGO TERMINAL RAILROAD (B&OCT) and THE BALTIMORE AND OHIO RAILROAD COMPANY (B&O) for a total distance of 13.67 miles. The trackage rights sought over the B&OCT extend from Valuation Station 1554 + 20 at its East Chicago, IN, yard to Valuation Station 1783 + 14, to point of intersection with the tracks of the B&O at Pine Junction, IN, a distance of approximately 4.34 miles. The trackage rights sought over the B&O extend from Valuation Station 13147 + 84 at Pine Junction to Valuation Station 12655 + 22, a point east of Miller, IN, a distance of 9.33 miles, for a total distance of 13.67 miles, located within Lake County, IN.

The proposed transaction will improve rail and other transportation services to the public. South Shore operates a commuter passenger service between points in Indiana and downtown Chicago. The greatest number of commuter stations are located west of Miller Station. The proposed transaction will permit the Applicant to move freight trains along tracks other than those used by it for its passenger operations, thus resulting in fewer delays to passenger trains. Also, the proposed transaction will permit the Applicant to move freight trains over fewer grade crossings at public roads. It will be possible for Applicant to move its trains with less delay, thus helping to assure that public grade crossings will not be blocked for unreasonable lengths of time.

In the opinion of the Applicant, South Shore, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act, 1969*, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28929F and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, DC 20423, not later than 45 days after the date notice of the filing of the application is published in the FEDERAL REGISTER. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General".

H. G. HOMME, Jr.,
Secretary.

1

CONSUMER PRODUCT SAFETY COMMISSION.

TIME AND DATE: 9:30 a.m., Commission briefing, Wednesday, January 24, 1979.

LOCATION: Third floor hearing room, 1111 18th Street NW., Washington, D.C.

STATUS: Part open, part closed.

A. OPEN TO THE PUBLIC

1. *Briefing on Children's Sleepwear Enforcement Policy*—The staff will brief the Commission on issues related to a possible CPSC policy on what children's garments are considered sleepwear subject to the Standards for the Flammability of Children's Sleepwear.

2. *Briefing on Section 15 Procedures and Delegation*—The staff will brief the Commission on procedures it follows for handling possible substantial product hazards under section 15 of the Consumer Product Safety Act. The staff has recommended that it be allowed more authority to close routine cases, and has suggested changes in the procedures so that it can present industry-proposed corrective action plans to the Commission in a more timely manner.

B. CLOSED TO THE PUBLIC

3. *TRIS Enforcement*—The staff will brief the Commission in issues related to the flame-retardant chemical TRIS. (Closed under exemption 9: Possible significant frustration of agency action.)

FOR ADDITIONAL INFORMATION:

Sheldon Butts, Assistant Secretary, suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

[S-134-79 Filed 1-18-79; 10:51 am]

[6355-01-M]

2

CONSUMER PROJECT SAFETY COMMISSION.

DATE AND TIME: 9:30 a.m. Commission meeting, Thursday, January 25, 1979.

LOCATION: Third floor hearing room, 1111 18th Street, NW., Washington, D.C.

STATUS: Part open, part closed.

A. OPEN TO THE PUBLIC

1. *Possible Substantial Product Hazard: Chance Manufacturing Co., Yo-Yo Amusement Ride, ID 78-4*—The staff has recommended that the Commission accept the corrective action plan which Chance has implemented, and close this matter.

2. *Petition on Coal- and Wood Burning Stoves, AP 77-2*—The Commission will consider a petition in which Adam Paul Banner, of Midland, Michigan, asks the Commission to issue a labeling rule for coal- and wood-burning appliances, stoves, and free-standing fireplaces. The labels would show the minimum clearances from "combustibles," and the type of chimney required for installation. The Commission previously considered, and deferred action on this petition in February 1978.

3. *Power Lawn Mowers*—The Commission will consider possible actions on a safety standard for power lawn mowers. The staff briefed the Commission on power mowers at the January 17 Briefing. The Commission proposed a standard for power mowers in May, 1977.

B. CLOSED TO THE PUBLIC

4. *Architectural Glazing Case* (OS 634)—The Commission will consider staff recommendations on a possible enforcement case under the Consumer Product Safety Act involving architectural glazing (Closed under exemption 10: possible adjudication.)

FOR ADDITIONAL INFORMATION:

Sheldon Butts, Assistant Secretary, suite 300, 1111 18th Street, N.W., Washington, D.C. 20207, telephone 202-634-7700.

3

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (eastern time), Tuesday, January 23, 1979.

PLACE: Commission conference room No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED:

OPEN TO THE PUBLIC

1. Freedom of Information Act Appeal No. 78-7-FOIA-171, concerning a request for information included in a national charge investigative file.

2. Freedom of Information Act Appeal No. 78-11-FOIA-274, concerning a request for the number of race discrimination charges filed against a specific employer.

3. Final designation of two State agencies as 706 Agencies.

4. Allocation of fiscal year 1979 funds to the Puerto Rico anti-discrimination unit.

5. Report on Commission operations by the Executive Director.

CLOSED TO THE PUBLIC

Litigation authorization; General Counsel recommendations: Matters closed to the public under the Commission's regulations at 29 CFR 1612.13.

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This Notice Issued January 16, 1979.

NATIONAL COMMISSION ON SOCIAL SECURITY.

NOTICE OF MEETING

The National Commission on Social Security will meet at 1:30 p.m. on January 19, 1979, and again on January 20, 1979, at 9:30 a.m. Each meeting will be held in room 424 Russell Senate Office Building and shall continue until committee business is completed.

The meeting on January 19, will not be open to the public because the discussions will be limited to internal personnel rules and practices, matters covered by section 552b(c)(1) of title 5, United States Code.

The meeting on January 20, will be open to the public and will consist of a briefing on social security issues by officials of the Social Security Administration.

An earlier notice of this meeting was not possible because the Commission was not constituted until January 11, 1979, when the President appointed the Chairman and three other members.

Inquiries regarding the meetings may be addressed to the Commission c/o Room G-340, GSA Building, 18th and F Streets NW., Washington D.C. 20405.

MILTON GWIRTZMAN,
Chairman, National Commission on Social Security.

JANUARY 16, 1979.

DEPARTMENT OF ENERGY

State Energy Conservation Plans

NOTICE OF PROPOSED RULEMAKING AND PUBLIC HEARING

V 4 4 / 1 5 J A 2 2 7 9 UMI

[6450-01-M]

DEPARTMENT OF ENERGY

[10 CFR Part 420]

STATE ENERGY CONSERVATION PLANS

Notice of Proposed Rulemaking and Public Hearing

AGENCY: Department of Energy.

ACTION: Proposed rule.

SUMMARY: The Department of Energy proposes to amend its guidelines for its program for State energy conservation plans, 10 CFR Part 420, in order to consolidate and simplify the guidelines. The Department also proposes to change the requirements relating to a right turn at a red traffic light and to make certain other substantive changes. The proposed changes to the program are based upon experience gained during the first 2 years of program implementation and are intended to reduce the administrative burden upon States and facilitate the conservation of energy.

DATES: A public hearing will be held on February 14, 1979, 9 a.m., e.s.t., in Washington, D.C.

Written comments must be received by February 21, 1979, 4:30 p.m., e.s.t.; requests to speak at the national hearing February 7, 1979, 4:30 p.m., e.s.t.; written statements of speakers by February 13, 1979.

ADDRESSES: A public hearing will be held in Room 3000A, 12th and Pennsylvania Avenue NW., Washington, D.C.

Send comments and requests to speak to Margaret Sibley, Office of Conservation and Solar Applications, Department of Energy, Docket Number CAS-RM-79-501, 20 Massachusetts Avenue NW., Washington, D.C. 20545.

FOR FURTHER INFORMATION CONTACT:

William J. Raup, State Grant Programs, Department of Energy, Room 4113, 20 Massachusetts Avenue NW., Washington, D.C. 20545, 202-376-9052

Richard F. Kessler, Office of General Counsel, Department of Energy, Room 5117, 1200 Pennsylvania Avenue NW., Washington, D.C. 20461, 202-633-9380

SUPPLEMENTARY INFORMATION:

I. Background.
II. Traffic law or regulation permitting right-turn-on-red (RTOR).
III. Extensions.
IV. Consolidation and simplification of existing procedures.
V. Nondiscrimination.
VI. Opportunity for public comment.
VII. Consultation with other Federal agencies, environmental and urban reviews and regulatory analysis.

I. Background

When first enacted, Part C of Title III of the Energy Policy and Conservation Act (EPCA), 42 U.S.C. 6321 *et seq.*, provided financial assistance to develop, modify or implement State energy conservation plans ("plans"). Part C was subsequently amended by Part B of Title IV of the Energy Conservation and Production Act (ECPA) which provided financial assistance to develop, modify or implement supplemental State energy conservation plans ("supplemental plans"). Together, the EPCA provisions regarding plans and the ECPA provisions regarding supplemental plans constitute the program for State energy conservation plans ("program"). The program currently is authorized through fiscal year 1979.

Regulations for the program, 10 CFR Part 420, were promulgated by the Federal Energy Administration ("FEA") on February 20, 1976 (41 FR 8335, February 26, 1976); October 28, 1976 (41 FR 48325, November 3, 1976); and May 13, 1977 (42 FR 26413, May 24, 1977).

The proposal would reorganize Part 420, Subparts A through E and simplify program requirements such as those relating to the contents of applications, plans and supplemental plans. It would also modify the program requirements for a traffic law or regulation which permits the operator of a motor vehicle to make a right turn at a red light after stopping, frequently referred to as "right-turn-on-red" ("RTOR") law or regulation, and make certain other substantive changes, as discussed below.

II. Traffic Law or Regulation Permitting Right-Turn-On-Red.

Proposed § 420.7(e) amends the minimum criteria for RTOR to require that all States participating in the program adopt a traffic law or regulation which would permit the operator of a motor vehicle to make a right turn (left turn with respect to the Virgin Islands) at a red traffic light after stopping, except where specifically prohibited by a traffic sign (Such law or regulation is hereinafter referred to as the "Western Rule."). The proposed revision would no longer accept as a measure of full program compliance a State law or regulation which would permit a right turn only where specifically authorized by a traffic sign (Such law or regulation is hereinafter referred to as the "Eastern Rule.").

The current provision allowing for the Eastern Rule was a result of FEA's consideration of comments received in response to publication of the proposed guidelines in the Federal Register (41 FR 24410, June 16, 1976).

At that time, the Federal Highway Administration ("FHWA") was in the process of adopting—but had not yet adopted—an interim national policy regarding RTOR, (23 CFR 655.801-805, 41 FR 28477, July 12, 1976). This policy, published during the comment period on FEA's regulation, while recommending uniform adoption of the Western rule in all jurisdictions, noted without comment that 12 States had an Eastern Rule in place at that time. The FHWA interim national policy contained recommended criteria for determining those intersections at which RTOR should not be permitted.

Several States, at that time, indicated that they were opposed to the Western Rule for safety reasons and were prepared to provide the FEA with safety information which would demonstrate that the Eastern Rule in their jurisdictions was more appropriate than the Western Rule. Because there was no program experience against which to judge these objections and because FHWA had not yet published final provisions on RTOR, FEA modified its original proposal, the Western Rule, by permitting a plan to incorporate the Eastern Rule. Under the final guidelines governing RTOR, 10 CFR 420.35(e), 41 FR 48325, November 3, 1976, a State could use the Eastern Rule as an alternative to the Western Rule provided the State demonstrated that, with respect to its jurisdiction, the Eastern Rule permitted RTOR to the maximum extent practicable consistent with safety. At that time, FEA pointed out that its guidelines did not preclude adoption of FHWA's interim national policy by all the states. Further FEA encouraged all States to bring practices within their jurisdictions into full compliance with the interim national policy or to work with FHWA to modify the policy in the manner the State deemed advisable.

Subsequently, and in response to public comment on its interim national policy, FHWA published final provisions on RTOR which were incorporated into the Manual on Uniform Traffic Control Devices ("MUTCD") by FHWA Bulletin HTO 21, October 20, 1977. Notice of this action was published in the Federal Register, 42 FR 41633, August 18, 1977. In comparison to the interim national policy, these provisions reemphasize the recommendation of uniform adoption of the Western Rule and reduce the number of conditions under which a no turn on red sign should be considered.

In the period since the enactment of EPCA, 21 States and Territories have adopted the Western Rule. The total number of jurisdictions having adopted the Western Rule is now 49 States and 3 Territories. The Commonwealth of Massachusetts and the District of Columbia have enacted the Eastern Rule. New York City has also adopted the Eastern Rule, having been exempted by State law from New York's Western Rule. Each has provided the Department of Energy ("DOE") with documentation of the reasons why it has not chosen the Western rule. These documents are available for public review in Room 6434, Federal Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461. American Samoa has been granted a waiver, under § 420.36(a) of the current guidelines, because that jurisdiction has no signalized intersections.

DOE has enlisted the assistance of FHWA to review studies prepared by these jurisdictions to justify their Eastern Rules and to provide an opinion of each study. The FHWA view, in each case, was that the jurisdiction had not demonstrated that its implementation of the Eastern Rule would provide for RTOR to the maximum extent practicable consistent with safety. DOE agrees with these findings. The FHWA documents also are available for public review in Room 6434, Federal Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461.

Moreover because of the large number of States which have successfully adopted the Western Rule, it is unlikely that a jurisdiction would be able to demonstrate unique circumstances which justify adoption of the Eastern Rule. Finally, the continuance of the Eastern Rule in only two States and one large city might prove confusing to interstate motorists.

With respect to the applicability of the Western Rule in urban "enclaves", or central-city districts, the current FHWA policy has no special provisions for RTOR in such enclaves. FHWA policy advocates the uniform adoption of the Western rule. Consistent both with the experience of the program to date with the operation of the Western Rule in many major cities and with FHWA's current policy, the proposed rule does not provide for special consideration of urban enclaves. The proposal would require the uniform adoption of the Western rule.

Since today's proposal on RTOR, if made final, will alter provisions in the existing rules with which Massachusetts, the District of Columbia and New York with respect to New York City have been attempting to comply, these three jurisdictions would be given until December 31, 1979, to have the Western Rule in place and ready for implementation. State applications which cover these three jurisdictions will have to demonstrate how this deadline will be met. At this time, DOE does not plan to provide any extension of time for compliance after December 31, 1979. Proposed § 420.7(e)(1) would require that the States which have already adopted the Western Rule will continue to implement it.

III. Extensions

The current regulations, § 420.41(b), provide opportunity, in appropriate circumstances, for an extension of time by which a required program measure in a State's plan must be in place and ready for implementation. The current regulations provide no extensions for a supplemental plan. Experience with program operation indicates no need for a change, and none is proposed.

On July 20, 1978, further guidance was provided to the States regarding the conditions under which an extension could be granted. In substance, this guidance prescribed procedures for the granting of further extensions for compliance with minimum criteria for required program measures.

DOE intends to continue these procedures, and proposed § 420.9 incorporates this guidance into the regulations with respect to plans. Any extensions previously granted in accordance with this guidance will remain in effect.

This proposal introduces the concept of an annual application for financial assistance for a plan or supplemental plan or both, in accordance with proposed § 420.4. Proposed § 420.4(b) (2) (ii) (E) requires an explanation of how the minimum criteria for required program measures shall be satisfied. Upon annual application, DOE expects States to demonstrate satisfactory compliance with the minimum criteria to be eligible to receive financial assistance.

The guidance concerning extensions specified that the appropriateness of granting another extension for the 1979 calendar year for a plan would be assessed at the time a State makes its annual application for 1979 funding. Moreover, a further extension for a required program measure would be given only if warranted by satisfactory achievement of program milestones under the action plan. In addition no extension would be granted if satisfactory achievement of program milestones for all other measures included in the State plan have not been met. DOE intends to continue to apply this guidance.

A new deadline is provided in proposed § 420.7(e) (3) to enable the three jurisdictions not already in compliance to adopt the Western Rule so that no further extension of time for compliance with the Western Rule is required in proposed § 420.9.

Except as noted above, DOE expects that few circumstances will justify a further extension for compliance with the minimum criteria for required program measures specified in proposed § 420.7.

IV. Consolidation and Simplification of Existing Procedures

The proposed rule consolidates and simplifies existing procedures applicable to plans and supplemental plans. The proposal generally follows the procedures for the comprehensive energy extension service ("EES"), 10 CFR Part 465, a related grant program, varying only where the needs of the two programs or statutory authorities differ.

Several revisions from the current guidelines should be noted. Because all participating jurisdictions have submitted plans or supplemental plans which have been approved, provisions pertaining to the development and submission of a plan or supplemental plan have been eliminated from the proposed rule. To continue to participate, a State would submit an annual application in accordance with the requirements of proposed § 420.4.

DOE proposes to consolidate into one document, DOE Form CS-1, the application for financial assistance for plans and supplemental plans. A State may still elect to participate in the program for a plan, supplemental plan or both. To date, no State has chosen to participate in one part of the program but not the other. Similar to present requirements, the application includes a description of proposed modifications, including new and amended program measures, a budget listed by program measure and by object class category, estimates of energy savings related to program measures, and a description of milestones by calendar quarter. The application would also require an explanation of how the minimum criteria for all required program measures will be satisfied.

To be eligible for financial assistance, the State must submit an application on or before the last day of the calendar year. The Governor may request an extension of the annual submission date by making a request in writing as provided in proposed § 420.4(d).

Proposed § 420.3 prescribes the formulas for the allocation of financial assistance among the States for the program. The formulas for plans and supplemental plans, respectively, are identical to the FY 1978 formulas.

Proposed § 420.5 sets forth the procedure for the review and approval of annual applications and State plans. This process does not differ significantly from the review and approval process employed under current pro-

V 4 4 / 1 5 JA 2 2 7 9 UMI

gram regulations. In addition, the proposed program measures must be consistent with achievement of a State's energy conservation goal or interim goal if any.

Proposed § 420.6 consolidates current program requirements regarding energy conservation goals. An energy conservation goal for 1980 has been set for each State. While there is also an authority to set interim goals, DOE has no present plans to exercise this authority.

In order to receive financial assistance, the application must demonstrate compliance with minimum criteria for required program measures prescribed in proposed § 420.7 and proposed § 420.8. With the exception of RTOR, discussed above, the minimum criteria currently applicable to plans and supplemental plans remain unchanged. Continued funding will continue to require timely compliance with and satisfactory implementation of required program measures which satisfy the minimum criteria.

Proposed § 420.10 introduces certain minor revisions to the administrative review process so that it more closely follows the review process untilized in the comprehensive energy entension service program. These procedures continue to provide administrative review of DOE determinations to deny applications, as provided in proposed § 420.10(a), but, in addition, now also provide review of DOE determinations to suspend or terminate financial assistance for failure to meet program requirements, as provided in proposed § 420.10(b).

The proposal includes new or revised definitions of "DOE," "Energy Conservation," "Governor," "Grantee," "Regional Representative," "Secretary," and "State." Technical corrections were made to the determinations of "Major building type", "Metropolitan Planning Organization", "Preferential traffic control", "Public building" and "Transit level of service." Several definitions have been deleted as unnecessary.

The proposed definition of energy conservation incorporates not only the efficient utilization of energy resources but now also incorporates the utilization of renewable energy resources where such action would result in energy savings based on a net reduction in the use of non-renewable energy resources.

The current guidelines did not include utilization of renewable resources as substitutes for depletable fuels because program measures were "expected to contribute to energy savings in a State's total energy consumption and not merely to shift usage from one energy source to another, as desirable as such shifting can be in appropriate circumstances" (41 FR 48326, November 3, 1976). After two years of further program experience, DOE has determined this perception to be overly restrictive. A shift from a depletable to non-depletable fuel source may not decrease the use of BTUs but it does carry out the intent of the National Energy Plan and DOE's present energy conservation objectives to decrease reliance upon depletable fuel sources. Moreover, DOE seeks to encourage the appropriate use of solar energy and other new technologies to harness renewable resources.

The definition of "energy conservation" has been modified both generally to track the definition used in the regulations of the EES and to clarify a point of program operation with respect to program measures dealing with renewable energy resources. As proposed, the definition includes utilization of renewable energy resources provided it results in energy savings based on a net reduction in the use of non-renewable energy resources. This addition is intended to clarify that any program measures dealing with renewable energy resources, if they are to be eligible for funding consideration, must result in energy savings.

With respect to only such measures, under the program methodology for determining energy savings, the BTU's from the renewable energy resources are not counted. For example, State X proposes in its annual application a new program measure as a modification to its plan, which measure would save 100 million BTU's from oil by utilizing both 100 million BTU's from wind and 50 million BTU's from various non-renewable energy resources. Under the program methodology, the savings would be 50 million BTU's (100 from oil minus 50 from the various non-renewable energy resources, but not subtracting the 100 from wind) and thus the program measures would be eligible for funding consideration.

The proposed change will enable States to consider program measures which encourage the use of renewable resources. However, States will still be expected to develop and implement a combination of program measures for a plan which are consistent with the State's achievement of its energy conservation goal and interim goals, if any, for a plan or supplemental plan as required by proposed § 420.5(a)(2).

V. Nondiscrimination

DOE published, on November 16, 1978, a proposed rulemaking in the Federal Register entitled, "Nondiscrimination in Federally Assisted Programs" (43 FR 53658, *et seq.*). Grantees will be responsible for compliance with the provisions of this regulation upon its final publication.

VI. Opportunity for Public Comment

A. Written comment procedures

Interested persons are invited to participate in this rulemaking by submitting data, views or arguments with respect to the proposal set forth in this notice to Margaret Sibley, Office of Conservation and Solar Applications, Department of Energy, Docket Number CAS-RM-79-501, 20 Massachusetts Avenue, N.W., Washington, D.C. 20545.

Comments should be identified on the outside of the envelope and on documents with the designation "State Energy Conservation Plan Guidelines." Ten copies should be submitted. All comments received by February 21, 1979, before 4:30 p.m., e.s.t., and all other relevant information, will be considered by DOE before final action is taken regarding the proposed guidelines.

Any information or data considered by the person furnishing it to be confidential must be so identified on one copy submitted in writing. DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

B. Public hearing

DOE had determined to have one, national public hearing on this proposal. It will be held at 9:00 a.m., e.s.t., on February 14, 1979, in room 3000A, 12th and Pennsylvania Avenue, N.W., Washington, D.C.

Any person who has an interest in this proceeding or who is a representative of a group of persons that has an interest in this proceeding may make a written request for an opportunity to make an oral presentation. Such a request should be directed to DOE at the address given at the beginning of this preamble, and must be received before 4:30 p.m., February 7, 1979. A request may be hand delivered between the hours of 8:00 a.m., and 4:30 p.m., Monday through Friday. Requests should be marked, as for written comments, with the additional notation "Request to Speak."

The person making the request should briefly describe the interest concerned, if appropriate, state why she or he is a proper representative of a group of persons that has such an interest, and give a concise summary of the proposed oral presentation and a phone number where she or he may be contacted through February 13, 1979. Each person selected to be heard will be notified by DOE before 4:30 p.m., local time, February 8, 1979. Each person selected to be heard must submit 15 copies of her or his statement to the address given for written comments before 4:30 p.m., e.s.t. February 13, 1979. In the event any person wishing to testify cannot provide 15 copies, alternative arrangements can be made in advance of the hearing by so indicating in the letter requesting an oral presentation or by calling Ms. Margaret Sibley at 202-376-4802.

C. Conduct of hearing

DOE reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

A DOE official will be designated to preside at the hearing. This will not be a judicial or evidentiary type hearing. Questions may be asked of speakers only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by DOE with respect to the subject matter of the hearing will be based on all information available to DOE. At the conclusion of all initial oral statements at the hearing, each person who has made an oral statement will be given the opportunity if she of he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked, by those conducting the hearing, of any person making a statement. Questions should be sent to the address given for written comments before 4:30 p.m., February 8, 1979. DOE will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any person making an oral statement who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The presiding officer will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by DOE and made available for inspection at the DOE Public Reading Room, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

VII. Consultation With Other Federal Agencies, Environmental and Urban Reviews and Regulatory Analysis

In preparing this proposed rulemaking, representatives of the Secretary of Transportation were consulted.

Pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended, 42 U.S.C. 4321 *et seq.*, DOE completed an environmental assessment of the original program under EPCA. A subsequent environmental assessment of the ECPA amendments to the program was completed prior to issuance of the guidelines applicable to the supplemental plans. Notice of these assessments were published with the notices of proposed rulemaking (41 FR 24410, 24412-13, June 16, 1976, and 42 FR 16150, 16151, March 25, 1977).

Each plan and supplemental plan was required to include a detailed description of the increase or decrease in environmental residuals expected from the implementation of the subject plan and an indication of how these environmental factors were considered in the selection of program measures. Environmental impact determinations were considered and published for each plan prior to funding. Applications for financial assistance submitted in accordance with the proposed regulation will be subject to NEPA review, as appropriate, prior to approval in a manner similar to the treatment of applications filed under existing regulations.

The proposed regulation permits the inclusion of renewable resource program measures which had been excluded by the original plan guidelines. DOE does not believe that the substitution of renewable for non-renewable energy resources will have a significant adverse environmental impact, and the reduced consumption of fossil fuels is expected to have beneficial, although insignificant impacts. Therefore, an environmental assessment dealing with this shift in policy has not been prepared at this time.

DOE will, however, require that an environmental discussion accompany a State application. Should DOE, in its review of a State's submittal, find reason to reconsider its initial judgment regarding the insignificance of the impacts associated with the use of renewable resources, DOE will prepare an EA to support its consideration of the State's submittal.

The proposed rulemaking has been reviewed in accordance with DOE procedures for implementing Executive Order 12044, 43 FR 12661, May 1, 1978. Under these procedures, DOE has determined that the proposed rulemaking is "significant" but not "major" and therefore does not require regulatory analysis. The anticipated effects of the proposal, if made final, would be primarily to simplify program procedures. Virtually the only substantive change would be the revision of RTOR requirements which affects two States and one city. A comment period of 30 days is provided on today's proposal. The Deputy Secretary has waived the requirement for a 60-day comment period, because it would be in the public interest to simplify program guidelines at the earliest date practicable.

The proposed rulemaking has also been reviewed in accordance with OMB Circular A-116 to assess the impacts on urban centers and communities. DOE has found that the proposed rule does not constitute a major proposal under Circular A-116 which would require formal analysis.

Pursuant to Section 7(a)(1) of the Federal Energy Administration Act of 1974, as amended, 15 U.S.C. 766(a), a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency (EPA) for comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments.

In consideration of the foregoing, the Department of Energy proposes to revise Part 420 of Chapter II of Title 10 of the Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., January 17, 1979.

Omi Walden,
Assistant Secretary, Conservation and Solar Applications.

PART 420—STATE ENERGY CONSERVATION PLANS

Sec.

420.1 Purpose and scope.
420.2 Definitions.
420.3 Financial assistance.
420.4 Annual State applications
420.5 Review and approval of annual State applications and State plans
420.6 Energy conservation goals.
420.7 Minimum criteria for required program measures for plans.
420.8 Minimum criteria for required program measures for supplemental plans.
420.9 Extensions for compliance with required program measures.
420.10 Administrative review.
420.11 Technical assistance.
420.12 Recordkeeping.
420.13 Reports.
420.14 Prohibited expenditures.
420.15 Administration of financial assistance.

Authority: Title III, Part C, as amended, of the Energy Policy and Conservation Act, 42 U.S.C. 6321 *et seq.*; Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*

§ 420.1 Purpose and scope.

(a) This part prescribes requirements for program measures included in plans and supplemental plans, and

V 4 4 / 1 5 J A 2 2 7 9 UMI

guidelines for the development, modification and funding of plans and supplemental plans. It is the purpose of this part to promote the conservation of energy and to reduce the rate of growth of energy demand through the development and implementation of a comprehensive State energy conservation plans program and the provision of Federal financial and technical assistance to States in support of such program.

(b) DOE has the responsibility to foster and promote comprehensive State energy conservation plans by providing technical and financial assistance for specific State initiatives to conserve and improve efficiency in the use of energy and to encourage the use of renewable resources. Because of the diversity of conditions among the various States and regions of the Nation, a wholly Federally administered program would not be as effective as one which is tailored to meet local requirements and to respond to local opportunities.

§ 420.2 Definitions.

As used in this part—

"Act" means Title III, Part C, as amended, of the Energy Policy and Conservation Act, 42 U.S.C. 6321 *et seq.*

"ASHRAE 90-75" means those designated standards developed by the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Incorporated, as approved by its Board of Directors on August 11, 1975, to provide design requirements for improvements of energy utilization in new buildings.

"Btu" means British thermal unit.

"British thermal unit" means the quantity of heat necessary to raise the temperature of one pound of water one degree fahrenheit at 39.2 degrees Fahrenheit and one atmosphere of pressure.

"Building" means any structure which includes provision for a heating or cooling system, or both, or for a hot water system.

"Carpool" means the sharing of a ride by two or more people in an automobile.

"Carpool matching and promotion campaign" means a campaign to coordinate riders with drivers to form carpools and/or vanpools.

"Commercial building" means any building other than a residental building, including any building constructed for industrial or public purposes.

"DOE" means the Department of Energy.

"Energy audit" means a survey of a building or buildings that is conducted in accordance with §420.7(b)(3) and Subpart B of 10 CFR part 450 and which—

(1) identifies the type, size, energy use level and the major energy using systems of such building or buildings;

(2) determines appropriate energy conservation maintenance and operating procedures; and

(3) indicates the need, if any, for the acquisition and installation of energy-conservation measures.

"Energy conservation" means energy conservation, efficient energy use or the utilization of renewable energy resources which results in energy savings based upon a net reduction in the use of non-renewable energy resources.

"Energy conservation measure" means a measure which is identified as an energy conservation measure in accordance with Subpart D of 10 CFR Part 450.

"Energy measure" means an energy conservation measure or a renewable-resource energy measure as prescribed in Subpart D of 10 CFR Part 450.

"Environmental residual" means any pollutant or pollution causing factor which results from any activity.

"Exempted building" means—

(a) any building whose peak design rate of energy usage for all purposes is less than one watt (3.4 Btu's per hour) per square foot of floor area for all purposes;

(b) any building with neither a heating nor cooling system;

(c) any mobile home; or

(d) any building owned or leased in whole or in part by the United States.

"Exterior envelope physical characteristics" means the physical nature of those elements of a building which enclose conditioned spaces through which thermal energy may be transferred to or from the exterior.

"Governor" means the chief executive officer of a State and the Major of the District of Columbia, or a person duly designated in writing by the Governor to act upon his or her behalf.

"Grantee" means the State or other entity named in the Notice of Grant Award as the recipient.

"HVAC" means heating, ventilating and air conditioning.

"Heating, ventilating and air conditioning" means a system that provides heating, ventilation and/or air conditioning within or associated with a building.

"HUD minimum property standard" means any of the rules and regulations adopted by the Department of Housing and Urban Development establishing minimum acceptable levels of site design, site preparation, exterior and interior appurtenances which standard is applied to single or multifamily housing units which seek assistance under one or more programs administered by the Assistant Secretary for Housing and Mortgage Credit of the Department of Housing and Urban Development.

"Industrial plant" means any fixed equipment or facility which is used in connection with, or as part of, any process or system for industrial production or output.

"Major building type" means a class of buildings within which similar functions occur such as hospitals, restaurants, hotels and supermarkets.

"Metropolitan Planning Organization" means that organization required by the Department of Transportation, and designated by the Governor as being responsible for coordination within the State, to carry out transportation planning provisions in a Standard Metropolitan Statistical Area.

"National energy conservation program" means a program which is authorized by Federal statute and is wholly implemented by the Federal Government, without the active participation of a State or local government, other than for usual coordination or acknowledgement.

"Park-and-ride lot" means a parking facility generally located at or near the trip origin of carpools, vanpools, and/or mass transit.

"Plan" means a State energy conservation plan including required program measures in accordance with §420.7 and otherwise meeting the applicable provisions of this part.

"Political subdivision" means a unit of government within a State, including a county, municipality, city, town, township, parish, village, local public authority, school district, special district, council of governments, or any other regional or intrastate governmental entity or instrumentality of a local government exclusive of institutions of higher learning and hospitals.

"Preferential traffic control" means any one of a variety of traffic control techniques used to give carpools, vanpools and public transportation vehicles priority treatment over single occupant vehicles other than bicycles and other two-wheeled motorized vehicles.

"Program measure" means one or more State actions, in a particular area, designed to effect energy conservation, excluding actions in areas specifically covered by national energy conservation programs.

"Public building" means any building which is open to the public during normal business hours, except exempted buildings, including—

(a) any building which provides facilities or shelter for public assembly, or which is used for educational, office or institutional purposes;

(b) any inn, hotel, motel, sports arena, supermarket, transportation terminal, retail store, restaurant, or other commercial establishment which

provides services or retail merchandise;

(c) any portion of an industrial plant building used primarily as office space; or

(d) any building owned by a State or political subdivision thereof, including libraries, museums, schools, hospitals, auditoriums, sport arenas, and university buildings.

"Public transportation" means any scheduled or nonscheduled transportation service for public use.

"Regional Representative" means the Regional Representative of the Secretary.

"Renewable-resource energy measure" means a measure which is identified as a renewable resource energy measure in accordance with Subpart D of 10 CFR Part 450.

"Residential building" means any structure which is constructed for residential occupany.

"Secretary" means the Secretary of DOE.

"State" means a State, the District of Columbia, Puerto Rico, or any territory or possession of the United States.

"Supplemental plan" means a supplemental State energy conservation plan including required program measures in accordance with §420.8 and otherwise meeting the applicable provisions of this part.

"Transit level of service" means characteristics of transit service provided which indicate its quantity, geographic area of coverage, frequency and quality (comfort, travel, time, fare and image).

"Urban area traffic restriction" means a setting aside of certain portions of an urban area as restricted zones where varying degrees of limitation are placed on general traffic usage and/or parking.

"Vanpool" means a group of riders using a vehicle, with a seating capacity of not less than eight individuals and not more than fifteen individuals, for transportation to and from their residences or other designated locations and their place of employment, provided the vehicle is driven by one of the pool members.

"Variable working schedule" means a flexible working schedule to facilitate carpool, vanpool and/or public transportation usage.

§ 420.3 Financial assistance.

(a) The Regional Representative shall provide financial assistance to develop, modify or implement a plan, a supplemental plan, or both, on a calendar year basis, from funds available for any fiscal year, to each State having an approved annual application.

(b) Financial assistance to develop, implement or modify plans shall be allocated among the States from funds available for any fiscal year, based on the following formula—

(1) forty percent of available funds will be divided on the basis of the resident population of the participating States as of July, 1976, as reported by the Department of Commerce, Bureau of Census, in their most recent publication of "Current Population Reports;"

(2) twenty-five percent of available funds will be divided among the prticipating States equally; and

(3) thirty-five percent of available funds will be divided on the basis of estimated energy savings in calendar year 1980 resulting from the implementation of State energy conservation plans; provided, however, that no State shall receive more than twenty percent of the funds available to be divided on the basis of the estimated energy savings in calendar year 1980; and

(c) Financial assistance to develop, implement or modify supplemental plans shall be allocated among the States from funds available for any fiscal year, based on he following formula—

(1) seventy-fie percent of available funds will be divided on the basis of the resident poulation of the prticipating States as of July, 1976, as reported by the Department of Commerce, Bureau of Census, in their most recent publication of "Current Population Reports;" and

(2) twenty-five percent of available funds will be divided among the participating States equally.

§ 420.4 Annual State applications.

(a) To be eligible for financial assistance under this part, a State on or before the last day of the calendar year shall submit an original and two copies to the Regional Representative of an annual application, executed by the Governor. The annual application shall be submitted in accordance with DOE Form CS-1 and shall request financial assistance for either a plan or a supplemental plan or for both.

(b) An application shall include—

(1) the name and address of the grantee;

(2) with respect to either a plan or supplemental plan or both—

(i) a description of proposed modifications, including new and amended program measures;

(ii) for the year in which financial assistance will be provided—

(A) a budget listed by program measure and by object class category;

(B) a narrative statement detailing the nature of amendments and of new program measures;

(C) a listing of milestones by calendar quarter; and

(D) a description of the source and amount of funding, if any, other than financial assistance provided under this part, which is expected to be available to the State;

(E) an explanation of how the minimum criteria for required program measures prescribed in §420.7 for plans and §420.8 for supplemental plans shall be satisfied.

(iii) a detailed description of the estimated energy savings and the estimated cost of implementation for each program measure described in the application; and

(3) a detailed description of the increase or decrease in environmental residuals expected from implementation of either a plan or supplemental plan, or both, defined insofar as possible through the use of information to be provided by DOE, and an indication of how these environmental factors were consideed in the selection of program measures.

(c) The detailed description of estimated energy savings for a plan, specified in subparagraph (b)(2)(iii) of this section, shall include—

(1) the estimated energy savings in Btu's expected as a result of the implementation of the program measure for calendar year 1980, and beyond;

(2) the sources of numerical data, any assumptions, and the actual calculations used by the state to estimate the energy savings;

(3) for those program measures for which DOE has not made available a methodology for estimating the energy savings, the methodology used to estimate the energy savings; and

(4) the manner in which the State will assess actual energy savings under the program measure.

(d) The Governor may request an extension of the annual submission date by submitting a written request to the Regional Representative on or before December 15. The extension shall only be granted, for a period not to exceed three months, if, in the Regional Representative's judgment, acceptable and substantial justification is shown, and the Regional Representative determines that prticipation by the State submitting the request is likely to result in significant progress toward achieving the purposes of this part

§ 420.5 Review and approval of annual State applications and State plans.

(a) The Regional Representative shall review each timely annual application and provide financial assistance if he or she determines that—

(1) the application conforms to the requirements of this part;

(2) the proposed program measures are consistent with a State's achievement of its energy conservation goal

and interim goals, if any, in accordance with § 420.6;

(3) the provisions of the application regarding program measures satisfy the minimum program requirements prescribed by § 420.7.

If the annual application is not approved according to paragraph (a) of this section, the Regional Representative shall return it to the State together with a written statement describing why the annual State application fails to meet the requirements of this part. The State will be given a reasonable period of time, as determined by the Regional Representative, to amend its annual application and submit it for reconsideration according to paragraph (a) of this section.

§ 420.6 Energy conservation goals.

(a) DOE shall set an energy conservation goal for each State for calendar year 1980 pursuant to § 364 of the Act.

(b) DOE may set interim goals for the States pursuant to § 364 of the Act.

(c) With regard to interim goals prescribed in accordance with paragraph (b) of this section, DOE shall specify the assumptions used in the determination of the projected energy consumption in each State, taking into account population trends, economic growth, and the effects of national energy conservation programs.

§ 420.7 Minimum criteria for required program measures for plans.

A plan shall satisfy all of the following minimum criteria for required program measures.

(a) Mandatory lighting efficiency standards for public buildings shall—

(1) be under implementation throughout all political subdivisions of the State;

(2) apply to all public buildings above a certain size, as determined by the State;

(3) for new public buildings, be no less stringent than provisions of section 9 of ASHRAE 90-75; and

(4) for existing public buildings, contain the elements deemed appropriate by the State.

(b) Program measures to promote the availability and use of carpools, vanpools and public transportation shall—

(1) have at least one of the following actions under implementation in at least one urbanized area with a population of 50,000 or more within the State or in the largest urbanized area within the State if that State does not have an urbanized area with a population of 50,000 or more—

(i) a carpool/vanpool matching and promotion campaign;

(ii) park-and-ride lots;

(iii) preferential traffic control for carpoolers and public transportation patrons;

(iv) preferential parking for carpools and vanpools;

(v) variable working schedules;

(vi) improvements in transit level of service for public transportation;

(vii) exemption of carpools and vanpools from regulated carrier status;

(viii) parking taxes, parking fee regulations or surcharge on parking costs;

(ix) full-cost parking fees for State and/or local government employees;

(x) urban area traffic restrictions;

(xi) geographical or time restrictions on automobile use; or

(xii) area or facility tolls; and

(2) be coordinated with the relevant Metropolitan Planning Organization, unless no Metropolitan Planning Organization exists in the urbanized area, and not be inconsistent with any applicable Federal requirements.

(c) Mandatory standards and policies affecting the procurement practices of the State and its political subdivisions to improve energy efficiency shall—

(1) with respect to all State procurement and with respect to procurement of political subdivisions to the extent determined feasible by the State, be under implementation; and

(2) contain the elements deemed appropriate by the State to improve energy efficiency through the procurement practices of the State and its political subdivisions.

(d) Mandatory thermal efficiency standards for new and renovated buildings shall—

(1) be under implementation, with respect to all buildings other than exempted buildings, throughout all political subdivisions of the State;

(2) take into account the exterior envelope physical characteristics, HVAC system selection and configuration, HVAC equipment performance and service water heating design and equipment selection;

(3) for all new commercial buildings, be no less stringent than a standard consistent with provisions of sections 4-9 of ASHRAE 90-75;

(4) for all new residential buildings, be no less stringent than either the HUD minimum property standards or a standard consistent with the provisions of sections 4-9 of ASHRAE 90-75; and

(5) for renovated buildings—

(i) apply to those buildings determined by the State to be renovated buildings; and

(ii) contain the elements deemed appropriate by the State regarding thermal efficiency standards for renovated buildings.

(e) A traffic law or regulation which permis the operator of a motor vehicle to make a right turn at a red light after stopping shall—

(1) be in a State's motor vehicle code and under implementation thoughout all political subdivisions of the State, except as provided in paragraph (e)(3) of this section;

(2) permit the operator of a motor vehicle to make a right turn (left turn with respect to the Virgin Islands) at a red traffic light after stopping except where specifically prohibited by a traffic sign for reasons of safety; and

(3) for any State without such traffic law or regulation in effect before December 31, 1978, be ready for implementation by December 31, 1978, be ready for implementation by December 31, 1979 and fully meet the requirements of paragraphs (e)(1) and (2) of this section thereafter.

§ 420. Minimum criteria for required program measures for supplemental plans:

A supplemental plan shall satisfy all of the following minimum criteria for required program measures.

(a) Procedures for carrying out a continuing public education effort to increase significantly public awareness of the energy and cost savings which are likely to result from the implementation, including implementation through group efforts, of energy measures shall—

(1) be under implementation; and

(2) provide a public awareness program regarding energy audits with respect to buildings and industrial plants which at least includes a campaign publicizing the availability of energy audits in at least one urbanized area with a population greater than 50,000 or in the largest urbanized area within a State if the State does not have an urbanized area with a population of 50,000 or more. The campaign must make clear reference to the range of technical assistance available to the owner or occupant of the building or industrial plant and provide a point of contact with the organization administering the energy audits, including a telephone number;

(b) Procedures for carrying out a continuing public education effort to increase significantly public awareness of information and other assistance, including information as to available technical assistance, which is or may be available with respect to the planning, financing, installing, and monitoring the effectiveness of measures likely to conserve, or to impove efficiency in the use of energy, including energy measures shall—

(1) be in place and under implementation; and

(2) contain the elements considered appropriate by a State.

(c) Procedures for ensuring that effective coordination exists among various local, State and Federal energy conservation programs within and affecting such State, including the comprehensive energy extension service program, under 10 CFR Part 460, shall—

(1) be in place and under implementation; and

(2) contain provisions for activities considered appropriate by a State such as coordinating local and State agencies to prevent duplication of energy conservation activities or conducting public hearings to ensure that individuals and groups concerned with program measures to be incorporated in a plan or supplemental plan and all other energy conservation programs in the State, shall be afforded the opportunity to participate in their development, implementation, and modification.

(d) Procedures for encouraging and for carrying out energy audits with respect to buildings and industrial plants shall—

(1) be under implementation throughout all political subdivisions of the State;

(2) be in accordance with subpart B of 10 CFR part 450; and

(3) provide and make available, to the extent feasible, Class A energy audits in at least one political subdivision for the buildings or industrial plants in at least one of the following categories and as many Class C energy audits as are practicable within the State in the remaining categories—

(i) apartment buildings;
(ii) educational institutions;
(iii) hospitals;
(iv) hotels and motels;
(v) industrial plants;
(vi) office buildings;
(vii) restaurants;
(viii) retail stores;
(ix) transportation terminals; and
(x) warehouses and storage facilities; and

(4) make available Class B or C audits to all individuals, as requested by such individuals, who are occupants of residential dwelling units in a State at no direct cost to those persons.

§ 420.9 Extensions for compliance with required program measures.

The Governor may request an extension of time, not to exceed December 31, 1979, by which a required measure meeting the minimum criteria of § 420.7 must be under implementation by submitting a written request to the Regional Representative supported by documentation that—

(a) the program measure—

(1) is in place and ready for implementation within not less than one political subdivision within the State; or

(2) is partially implemented upon a statewide basis; and

(b) the State is prepared to carry out an action plan submitted to the Regional Representative with specific quarterly milestones for full implementation of the program measure throughout the State in the shortest practicable period, but in no event later than December 31, 1979.

§ 420.10 Administrative review.

(a) If the Regional Representative intends to deny an annual State application resubmitted by the Governor according to § 420.5(b) or refuses to accept an annual State application resubmitted by the Governor after the time period referred to in § 420.5(b) has expired, the Regional Representative shall give notice to the Governor.

(b) If the Regional Representative determines that implementation of a State plan approved according to § 420.5 fails to meet the requirements of this part, the Secretary shall give notice to the Governor of his or her intent to terminate or suspend financial assistance to the grantee.

(c) The notice required by paragraphs (a) or (b) of this section shall be issued in writing by registered mail with return receipt requested and include—

(1) a statement of the reasons for the intended denial, termination or suspension of financial assistance;

(2) the date, place and time of a public hearing to be held by a review panel concerning the intended denial, termination or suspension of financial assistance, the hearing to be held within 15 working days after the date of receipt by the Governor of the notice; and

(3) the manner in which views may be presented.

(d) The Governor may submit written views with supporting data to the Regional Representative on or prior to the date of the public hearing and shall be offered an opportunity to make an oral presentation at the public hearing.

(e) The review panel shall be appointed by the Regional Representative and shall consist of three disinterested members.

(f) The review panel shall consider all relevant views and data submitted on or prior to the date of the public hearing. The review panel shall submit a written report containing its findings and recommendations to the Regional Representative within 10 working days after the date of the public hearing.

(g) The Regional Representative shall submit the report, together with his or her recommendations, to the Secretary within 5 working days after receipt of the report.

(h) The Secretary shall issue a final determination, accompanied by a statement of the reasons for the actions taken, within 10 working days after receipt of the submission from the Regional Representative.

(i) Upon issuance of the notice referred to in paragraphs (a) or (b) of this section, the Secretary may suspend financial assistance to the grantee pending a final determination. If the Secretary makes a final determination adverse to the grantee, the Regional Representative shall terminate financial assistance to the grantee.

§ 420.11 Technical assistance.

At the request of the Governor of any State to DOE and subject to the availability of personnel and funds, DOE will provide information and technical assistance to the State in connection with effectuating the purposes of this part.

§ 420.12 Recordkeeping.

Each State or other entity within a State receiving financial assistance under this part shall make and retain records required by the Secretary, including records which fully disclose the amount and disposition of financial assistance received; the cost of administration; the total cost of all activities for which assistance is given or used; the source and amount of any funds not supplied by the Secretary; and any data and information which the Secretary determines are necessary to protect the interests of the United States and to facilitate an effective financial audit and performance evaluation. The Secretary, or any of his or her duly authorized representatives, shall have access, until three years after the completion of the activities involved, to any books, documents, records or receipts which the Secretary determines are related or pertinent, either directly or indirectly, to financial assistance provided under this part.

§ 420.13 Reports.

Each State receiving financial assistance under this part shall submit to the Regional Representative a quarterly program performance report and a quarterly financial status report. The report shall contain such information as the Secretary may prescribe in order to monitor effectively the implementation of a plan or supplemental plan. The reports shall be submitted to the Regional Representative within 30 days following the end of each calendar quarter.

§ 420.14 Prohibited expenditures.

Grants awarded under this part shall not be used directly or indirectly—

(a) to purchase equipment, other than office equipment, such as weatherization materials and law enforcement equipment;

(b) for construction, such as construction of mass transit systems and exclusive bus lanes;

(c) to subsidize fares for public transportation; or

V 4 4 / 1 5 J A 2 2 7 9 UMI

(d) for subsidies for utility rate demonstrations or State insulation tax credits.

§ 420.15 Administration of financial assistance.

Grants provided under this part shall comply with the requirements of—

(a) Office of Management and Budget Circular A-102, entitled "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments;"

(b) Office of Management and Budget Circular A-95, entitled "Evaluation, Review and Coordination of Federal and Federally Assisted Programs and Projects;"

(c) Federal Management Circular 73-2 (34 CFR 251), entitled "Audit on Federal Operations and Programs by Executive Branch Agencies;"

(d) Federal Management Circular 74-4 (34 CFR 255), entitled "Cost Principles Applicable to Grants and Contracts with State and Local Governments;"

(e) Office of Management and Budget Circular A-97, entitled "Rules and Regulations Permitting Federal Agencies to Provide Specialized or Technical Services to State and Local Units of Government under Title III of the Intergovernmental Coordination Act of 1968;"

(f) Treasury Circular 1082 Revised, entitled "Notification to States of Grant-in-Aid Information;"

(g) Treasury Circular 1075, entitled "Treasury Fiscal Requirements Manual;" and

(h) Other procedures which DOE may from time to time prescribe for the administration of financial assistance provided under this part.

PART III

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

GENERAL OPERATING AND FLIGHT RULES

Proposed Revision Pursuant to Petition by Aircraft Owners and Pilots Association

V 4 4 / 1 5 J A 2 2 7 9 UMI

[4910-13-M]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 91]

[Docket No. 18334; Notice No. 79-2]

GENERAL OPERATING AND FLIGHT RULES

Revision of Part 91

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Advance notice of proposed rule making.

SUMMARY: This notice sets forth the petition of the Aircraft Owners and Pilots Association, on behalf of its members, for revision of that Part of the Federal Aviation Regulations which contains the general operating and flight rules.

DATES: Comments must be received on or before April 23, 1979.

ADDRESS: Send written comments in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-24), Docket No. 18334 800 Independence Ave., S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Raymond E. Ramakis, Regulatory Projects Branch, Safety Regulations Division, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591; Telephone (202) 755-8716.

SUPPLEMENTARY INFORMATION:

Comments Invited

This advance notice of proposed rule making is issued to invite public participation in the identification and selection of a course or alternate courses of action with respect to a particular rule making problem. Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-24), Docket No. 18334, 800 Independence Avenue, S.W., Washington, D.C. 20591. All comments submitted will be available in the Rules Docket, both before and after the closing date for comments, for examination by interested persons. If it is determined to proceed further, after consideration of the available data and the comments received in response to this notice, a notice of proposed rule making will be issued and will be filed in the public docket.

Availability of ANPRM

Any person may obtain a copy of this advance notice of proposed rule making (ANPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Ave., S.W., Washington, D.C. 20591, or by calling (202) 426,8058. Communication must identify the notice number of this ANPRM. Persons interested in being placed on a mailing list for future ANPRM's and NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

Background

By petition dated August 9, 1978, the Aircraft Owners and Pilots Association (AOPA) petitioned the Federal Aviation Administration to revise Part 91 of the Federal Aviation Regulations (14 CFR Part 91).

The FAA believes the petition discloses adequate reasons to publish it in the form of an advance notice of proposed rule making for the purpose of obtaining public comments on it.

Although this advance notice sets forth the contents of the petition without substantive changes, it should be understood that its publication does not represent an FAA position, or otherwise commit the Agency, on the merits of any particular amendment proposed. The Agency intends to reach a conclusion on the merits of the individual proposals only after it has had an opportunity to carefully evaluate them in the light of all comments received. Thereafter, if the FAA determines that it should proceed further, a notice of proposed rule making will be issued which reflects the FAA evaluation of the proposals.

AOPA Petition

PETITION FOR RULEMAKING

Proposed Revision of Part 91 of the Federal Aviation Regulations

The Aircraft Owners and Pilots Association, on behalf of more than 210,000 members petitions the Federal Aviation Administration to revise Part 91 of the Federal Aviation Regulations to make the regulations simpler and more comprehensible.

Present Part 91 reflects the ever increasing volume of air traffic and changes in aviation technology since the first set of regulations were promulgated almost fifty years ago. New regulations are regularly added and old ones revised, with very few being deleted. Where sections have been amended several times in attempts to make them more explicit, or to reflect changes in other regulations, they have become convoluted with much of the language superfluous.

Under the codification system used, it has been difficult to keep the regulations in any kind of logical order. The only provision for adding new regulations has been to leave blanks between the section numbers, but these blanks are soon exhausted resulting in a rather random listing of regulations. The best solution to this problem is a new numbering system such as that employed by ICAO. This has not been done in this proposal because to do so might obscure the basic purpose of simplifying the regulations and format in Part 91, and raise additional problems in having the proposal adopted.

We believe Part 91 should contain only those regulations a pilot needs to know in order to operate legally and, hopefully, safely. The regulations should be as short and uncomplicated as possible, and understandable to all pilots. Material which may state good operating procedures but is extraneous to a basic regulation should be deleted and placed in Advisory Circulars, training manuals and other publications.

The Accompanying proposal contains four areas of change from present Part 91: I Reorganization; II Simplification; III Deletion; and IV Addition.

I. REORGANIZATION

The regulations are organized into seven subparts, with the sections in each subpart assigned the odd numbers in series of 100; i.e., §§ 91.15, 91.115, 91.215, etc.

Subpart A. General Regulations, and Subpart B, Basic Flight Rules, are applicable to all operations. These two subparts contain all the regulations pertinent to the non-instrument rated pilot flying small aircraft in ordinary not-for-hire operations.

Subpart C contains the Instrument Flight Rules, including those governing Category II operations.

Subpart D, Special Flight Operations, governs aerobatic flight, aircraft flight test areas, flight instruction, simulated instrument flight, parachuting (general and reference to part 105), and towing (gliders and others).

Subpart E contains Additional Regulations for Commercial Operators and Operations for Hire. These regulations are retained in Part 91 because some for-hire operations and some operations by commercial operators are governed only by Part 91.

Subpart F, Operation of Certain Aircraft, contains regulations from Present Part 91 applicable to experimental, limited, provisional restricted, and transport category aircraft; turbojet-powered airplanes; sonic boom; and increased weights for certain airplanes in Alaska.

Subpart G contains the aircraft maintenance regulations from Subpart C of present part 91.

This proposal does not include present Subpart D, Large and Turbine Powered Multi-Engine Airplanes; or Subpart E, Operating Noise Levels. These could remain as additional subparts to Part 91 or, more appropriately, could be published as new parts to the Federal Aviation Regulations.

II. SIMPLIFICATION

For purposes of achieving clarity and simplicity, much of the language has been changed. Regulations of little or no concern to most general aviation pilots have been unchanged in this proposed revision.

The removal from Part 91 of several tables, complicated appliance approval standards, and specifics adequately covered by a basic regulation is intended to simplify many regulations without altering their applicability. Material which has been removed will be noted under *Changes* in each specific proposal. Some examples are:

A. Reference to TSOs or other approval standards for appliances. [Present §§ 91.24, 91.33, 91.36, and 91.52].

Throughout, we have deleted from Part 91 most references to TSO or other approval standards for appliances. We are not suggesting that appliances need not meet stated standards where approval is presently required. We are recommending that requirements for such approval be placed in other Parts of the FARs (Parts 21, 37, 43, or the various airworthiness Parts), or that a new Part containing all approval requirements be established.

The extent to which the regulations succeed in providing a safe flight environment is predicated to a very large degree on how well pilots understand them and the reasonableness of requiring compliance. It is reasonable to require a pilot to ascertain the airworthiness of an aircraft by looking at the airworthiness certificate, checking the aircraft logbooks to determine the date of the most recent required inspection, and giving the aircraft a thorough preflight inspection. It is unreasonable to expect a pilot to determine whether all appliances meet technical approval standards which may be in effect. Three examples should adequately illustrate this:

1. Transponders are required to meet one of four TSOs, two of which are unacceptable unless the transponder has been upgraded to meet one of the other TSOs. The manufacturer may indicate on the face of the transponder that it is TSO'd, but the pilot cannot tell which TSO it meets.

2. Anticollision light systems must meet standards prescribed in various airworthiness Parts of the regulations. These systems are not marked in any way to indicate to the pilot that they meet the required standards.

3. Emergency locator transmitters must be TSO'd, but many of them are installed in aircraft in such a way as to be inaccessable to a pilot making a conscientious preflight inspection.

In most cases, examination of aircraft equipment lists or maintenance records does not reveal whether the items meet required standards. Usually, only the type (and occasionally a brand name) of item is listed. Even knowing the name of the manufacturer and model number would not tell the pilot whether it was approved, unless he had a complete list of all items which meet all required standards. It is obviously impractical to expect pilots to keep, or even use such a list.

We realize that a prohibition against the use of unapproved appliances should remain in Part 91, and we have provided this in proposed § 91.17.

B. Specific information required under Preflight Action. [Present § 91.5(a) and (b)]. Deleting the specific items in paragraphs (a) and (b) does not lessen a pilot's responsiblity for including them in the information considered pertinent to the safe operation of a flight. This is the type of information that comes under good operating procedures and belongs in other publications.

C. Tables for determining flight levels based on atmospheric pressure and converting minimum altitude to minimum flight level. [Present § 91.91]. This, too, belongs in manuals, not Part 91.

III DELETION

Several sections and large portions of present Part 91 have been deleted, but, for the most part, this does not result in any change to present operating practices nor lowering of safety standards. The major deletions are:

A. Section 91.4, Pilot in Command of Aircraft Requiring More than One Required Pilot.

This regulation belongs in Part 61. If § 61.58 does not state the requirement contained in § 91.4, it should be amended to do so. There appears to be no more reason to retain this cross reference than to have similar references in Part 91 to requirements for instrument ratings to operate IFR, type ratings for large aircraft, etc.

B. Section 91.12, Carriage of Narcotic Drugs, Marihuana, and Depressant or Stimulant Drugs or Substances.

Our sole consideration in deleting this regulation is an attempt to eliminate from Part 91 regulations unnecesary for safe flight operations, and the deletion should not be construed in any way as our condoning the use of aircraft for any illicit purpose. We have reread the preambles which accompanied this regulation when it was adopted and the subsequent amendments to it and find the arguments offered in justification could be used to justify regulations against the use of aircraft for just about any illicit act: fleeing from a crime, kidnapping, aircraft theft, etc.

If aircraft carrying drugs engages in any unsafe flight operation, FAA retains enforcement authority under at least one remaining regulation if present § 91.12 is deleted; and other Federal and State statutes remain to outlaw the illegal possession and carriage of drugs.

If a regulation against the carriage of drugs in aircraft is retained, it should appear in another Part of the FARs because it is too remote from flight safety considerations to remain in Part 91.

C. Sections 91.24(b)(3) and 91.90(c), Group III Terminal Control Area.

Regulations for Group III TCAs have been deleted because there aren't any and, hopefully, there won't be any, at least not for some time to come. If Group III TCAs are established at some future date, Part 91 can be amended accordingly. In the meantime, references to them in Part 91 constitute needless clutter.

D. Section 91.27(b), Display of Airworthiness Certificate.

The requirement to dsiplay the airworthiness certificate so that it is legible to passengers and crew is deleted because, in most cases, the airworthiness certificate is meaningless without reference to the aircraft maintenance records. It may be valid to require prominent display of nonstandard airworthiness certificates, such as ferry permits and experimental certificates.

E. Section 91.36, Data Correspondence Between Automatically Reported Pressure Altitude Data and the Pilot's Altitude Reference.

Paragraph (a)—No person may operate any automatic pressure altitude reporting equipment assoicated with a radar beacon transponder when deactiviation of that equipment is directed by ATC.

This paragraph is deleted because it appears to be covered by the prohibition against operating an aircraft contrary to an ATC instruction. (Present § 91.75(b) and proposed § 91.125(b).) If FAA considers present § 91.75(b) not to apply to the operation of equipment aboard an aircraft, we have no objection to retaining present § 91.36(a), but recommend that it be included as a paragraph under proposed § 91.125, Compliance with ATC Clearances and Instructions.

Paragraph (b) and (c)—Test and calibration and TSO requirements for automatic pressure altitude reporting equipment. These requirements

V 4 4 / 1 5 J A 2 2 7 9 UMI

should be placed on the owner and/or the person who installs the equipment, not on the pilot. (See example A under Simplification, removing references to TSO or other approval standards for appliances.)

F. Section 91.54, Truth in Leasing Clause Requirement in Leases and Conditional Sales Contracts.

This section belongs in Part 49 if it belongs anywhere in the FARs. The requirements to carry a copy of a lease or contract in the aircraft and to notify the nearest FAA office prior to a flight might be retained in Part 91.

G. Sections 91.70(b); 91.85(b), (c) and (d); and Part 1, Airport Traffic Areas.

This is the only deletion which results in what may be considered a potentially significant change in operating practices.

1. Aircraft may be operated below 3,000 feet MSL closer than 5 miles to a tower controlled airport for purposes other than landing or taking off, and without communicating with the tower, as long a they avoid the traffic pattern.

2. Communication with a tower not operated by the U.S. is not mandatory.

Many of the busiest airports are now within TCAs, making airport traffic areas unnecessary for them; and requiring clearances for operations within traffic patterns at other airports with control towers provides a necessary level of safety. It may be pertinent to point out that under present regulations aircraft may operate within airport traffic areas without clearances if they are taking off or landing at a nontower airport within the area.

H. Section 91.101, Operations to, or over Cuba. This regulation is political in nature rather than related to aviation safety and, as such, it should come under the Department of State, not the FAA.

IV. ADDITIONS AND CHANGES

Regulations which have been added or changed mainly expand or clarify a privilege or an exception contained in present regulations, or acknowledge present good operating procedures. There are two major (or significant) changes:

A. Proposed § 91.17 imposes prohibitions against the installation of any appliance which does not meet approval standards when approval is required, and against the use of appliances which the pilot determines do not meet required approval standards. These prohibitions take up the slack left by deleting from Part 91 specific approval standards.

B. Proposed § 91.307 permits flight instruction and simulated instrument flight in aircraft without dual controls provided the pilot manipulating the controls meets certain qualifications.

NOTES

(1) On the Contents pages for the proposed new part, the numbers of corresponding sections in present Part 91 appear to the right of section titles.

(2) The sections in each Subpart of the proposal have been assigned the odd numbers from a different series of 100; i.e., 91.15, 91.115, 91.215, etc.

*(3) A copy of the present regulations, on white paper, faces each corresponding proposed section which is on yellow paper, for easy comparison.

*(4) On the reverse side of each white sheet, two numbers are in the upper right-hand corner. The top number is the number of the proposed section, and below it is the number of the corresponding present section in parenthesis.

(5) Throughout the proposal, we have tried to consistently change the word "may" to "shall" when it is used in the negative ("no person *shall*"). "May" is still used in a permissive sense to state authority or permission to do the act prescribed.

(6) In Subpart G, Aircraft Maintenance, Inspections, Preventive Maintenance, Alterations, and Equipment Tests, the word "inspection" is used separately from "maintenance" (which presently includes inspection as part of its definition). It is intended that "maintenance" be redefined accordingly, and that a definition of "inspection" be inserted in Part 1.

PART 91—OPERATING AND FLIGHT RULES

Subpart A—General

Sec.		Corresponding present regulation
91.1	Applicability	91.1 & 91.20
91.3	Airmen: Required Certification	New
91.5	Responsibility and Authority of the Pilot in Command	91.3
91.7	Careless or Reckless Operation	91.9 & 91.10
91.9	Aircraft: Required Certification	91.27(a)
91.11	Aircraft Airworthiness	91.29
91.13	Civil Aircraft Operating Limitations	91.31
91.15	Aircraft Instrument and Equipment Requirements	91.24, 91.32, 91.33, 91.52 & New
91.17	Prohibition Against Certain Appliances and Portable Electronic Devices	91.19 & New
91.19	Liquor and Drugs	91.11
91.21	Carriage of Narcotic Drugs, Marihuana, and Depressant or Stimulant Drugs or Substances.	91.12
91.23	Preflight Action	91.5
91.25	Waivers	91.63
91.27	Prohibition Against Interference with Crewmembers	91.8
91.29	Special Rules for Foreign Civil Aircraft	91.27, 91.28, 91.43 & 91.103

Subpart B—Basic Flight Rules

91.101	Applicability	91.61
91.103	Flight Crewmembers at Station	91.7
91.105	Use of Seatbelts and Shoulder Harnesses	91.14
91.107	Operating Near other Aircraft	91.65(a) & (b)
91.109	Right-of-Way Rules, Except Operations on Water	91.67
91.111	Right-of-Way: Operations on Water	91.69
91.113	Use of Aircraft Position Lights	91.73
91.115	Aircraft Speed	91.70
91.117	Weather Minimums: Visual Flight Rules	91.105
91.119	Special Weather Minimums in Control Zones	91.107
91.121	Minimum Safe Altitudes	91.79
91.123	Cruising Altitudes: Visual Flight Rules	91.109
91.125	Altimeter Settings	91.81 & New
91.127	Dropping Objects	91.13
91.129	Compliance with ATC Clearances and Instructions	91.65(d), 91.75 & New
91.131	ATC Light Gun Signals	91.77
91.133	Flight Plans: General	91.83(a) & (d)
91.135	Flight Plans: Flights Between Mexico and Canada and the United States.	91.84
91.137	Operating on or in the Vicinity of an Airport: General	91.85(a) & 91.89
91.139	Operations at Airports with Operating Control Towers	91.87(a), (b), (d), (e), (f), (g), & (h)
91.141	Terminal Control Areas	91.90(a) & (b), & 91.24(b) & (c)
91.143	Operation in Specially Designated Areas	91.95 & 91.97
91.145	Temporary Flight Restrictions	91.91, 91.102 & 91.104

Subpart C—Instrument Flight Rules (IFR)

91.201	Applicability	New
91.203	Flight Plan and ATC Clearance Requirements	91.115
91.205	Equipment Requirements	91.33(a), (d), & (e)
91.207	VOR Equipment Check for IFR Operation	91.25
91.209	Fuel Requirements	91.23
91.211	Alternate Airport	91.83(a)(9), (b) & (c)
91.213	Minimum Altitudes	91.119(a)
91.215	Cruising Altitude or Flight Level	91.121
91.217	Course to be Flown	91.123
91.219	Climb Enroute	91.119(b)
91.221	Instrument Approach Procedures at Civil Airports	91.116(a), (f), (g), (h) & 91.117(c)

PART 91—OPERATING AND FLIGHT RULES

Subpart C—Instrument Flight Rules (IFR) —Continued

Sec.		Corresponding present regulation
91.223	Descent Below MDA or DH; and IFR Landing Minimums at Civil Airports.	91.116(b) & (e), & 91.117(a) & (b)
91.225	Military Airports; Takeoff and Landing under IFR	91.116(d)
91.227	Radio Communications	91.125
91.229	Two-Way Radio Communications Failure	91.127
91.231	Radio Malfunction Reports	91.129 & New
91.233	Category II Operations	91.2, 91.6, 91.33(f) & 91.34

Subpart D—Special Flight Operations

91.301	Applicability	New
91.303	Aerobatic Flight	91.15(c), (d), (e); 91.71
91.305	Aircraft Flight Test Areas	91.93
91.307	Flight Instruction, Simulated Instrument Flight, and Certain Pilot Flight Tests.	91.21
91.309	Parachuting	91.15 (a) and (b)
91.311	Towing: Gliders	91.17
91.313	Towing: Other than Gliders	91.18

Subpart E—Additional Regulations for Commercial Operators, and Operations for Hire

91.401	Applicability	New
91.403	Emergency Exits for Airplanes Carrying Passengers for Hire	91.47
91.405	Flight Recorders and Cockpit Voice Recorders	91.35
91.407	Over-Water Operations	91.33(a) and (b)(11)
91.409	Night Operations	91.33(a) and (c)(4)
91.411	Formation Flights with Passengers for Hire	91.65(c)

Subpart F—Operation of Certain Aircraft

91.501	Applicability	New
91.503	Experimental Aircraft	91.42
91.505	Limited Category Civil Aircraft	91.40
91.507	Provisionally Certificated Civil Aircraft	91.41
91.509	Restricted Category Civil Aircraft	91.39
91.511	Transport Category Civil Airplanes: Weight Limitations	91.37
91.513	Transport Category Airplanes: Aural Speed Warning Device	91.49
91.515	Transport Category Airplanes: Pitot Heat Indication System	91.50
91.517	Turbojet-Powered Civil Airplanes: Altitude Alerting System or Device	91.51
91.519	Turbojet-Powered Civil Airplanes: Use of Flaps	91.85(c)
91.521	Authorization for Ferry Flight with One Engine Inoperative	91.45
91.523	Sonic Boom	91.55
91.525	Increased Maximum Certificated Weights for Certain Airplanes Operated in Alaska.	91.38

Subpart G—Aircraft Maintenance, Inspections, Preventive Maintenance, Alterations, and Equipment Tests

91.601	Applicability	91.161
91.603	General	91.163(a); 91.165
91.605	Maintenance and Inspections: Who May Perform	91.163(b); 43.3(h)
91.607	Maintenance Required	91.163(c); 91.165
91.609	Inspections Required	91.169
91.611	Progressive Inspections	91.171
91.613	Altimeter System Tests and Inspections	91.170
91.615	ATC Transponder Tests and Inspections	91.177
91.617	Carrying persons After Repairs or Alterations	91.167
91.619	Maintenance Records	91.173
91.621	Rebuilt-Engine Maintenance Records	91.175
91.623	Transfer of Maintenance Records	91.174

Subpart A—General

NOTE.—This Subpart is basically the same as Subpart A of present Part 91 except that many of the regulations in the present Subpart have been moved to other Subparts in the proposal. For instance, all of the regulations pertaining to instrument flight or Category II operations have been moved to proposed Subpart C; and the regulations relating to operation of experimental, limited, restricted, etc., category aircraft are in proposed Subpart F. A few regulations from Subpart B of present Part 91 have been moved to this Subpart, and some material has been added.

§ 91.1 Applicability.

(a) This Part prescribes rules governing the operation of aircraft within the United States. Paragraph (b) of this section governs the operation of United States registered civil aircraft outside the United States. This Part does not govern operations of moored balloons, kites, unmanned rockets, and unmanned free balloons.

(b) Each operator of a United States registered civil aircraft operating outside the United States shall:

(1) When over the high seas, comply with Annex 2 (Rules of the Air) to the Convention on International Civil Aviation, and with the regulations of this Part to the extent that they are not inconsistent with Annex 2;

(2) When over the North Atlantic Ocean (NAT) within Minimum Navigation Performance Specifications (MNPS) air space, comply with Appendix C of this Part;

(3) When within a foreign country, comply with the rules of that country governing the flight and maneuvering of aircraft, and with the regulations of this Part to the extent that they are not inconsistent with applicable foreign rules.

Origin: §§ 91.1; 91.20
Changes:
1. Present § 91.1(b) (4) and § 91.20 have been combined in proposed § 91.1(b) (2).
2. Present § 91.1(c) has been deleted because it is superfluous. Annex 2 is already incorporated by reference in § 91.1(b).
3. Some language changes with no substantive changes intended.

§ 91.3 Airmen: required certification.

No person shall serve as pilot or other required flight crewmember on a United States registered civil aircraft within the United States unless he has in his personal possession:

(a) A valid and appropriate airman certificate issued under FAR Part 61; and

(b) A valid and appropriate medical certificate as specified in FAR 61.3(c).

Origin: NEW
Changes:
1. This brings the requirement for a pilot certificate into the operation rules, in addition to having it in a certification Part. Just as the requirements for various aircraft certificates are laid out in Part 91, it seems appropriate to include mention of the airman certificate requirements for those who use Part 91 as their basis for knowing the regulations.
2. Pilot certification requirements for operation of foreign civil aircraft within the United States are in § 91.27, Special Rules for Foreign Civil Aircraft.

§ 91.5 Responsibility and authority of the pilot in command.

(a) The pilot in command of an aircraft is directly responsible for, and is the final authority as to, the operation of that aircraft.

(b) In an emergency requiring immediate action, the pilot in command may deviate from any rule of this Part to the extent required to meet that emergency.

(c) A pilot in command who deviates from a rule under paragraph (b) of this section shall, if requested by the Administrator, provide a written report of that deviation.

Origin: § 91.3
Changes:
1. Emergency deviation may include any rule of this Part. This change merely places the maintenance regulations under the provisions of this paragraph. It is not anticipated that this will provoke unnecessary deviations by pilots because what constitutes an emergency is still subject to review and interpretation in an enforcement case arising out of any suspected abuses of this authority.
2. Minor changes in language with no substantive changes intended.

§ 91.7 Careless or reckless operation.

(a) No person shall operate an aircraft for the purpose of air navigation in a careless or reckless manner so as to endanger the life or property of another.

(b) No person shall operate an aircraft for purposes other than air navigation on the surface of an airport used by aircraft for air commerce in a careless or reckless manner so as to endanger the life or property of another.

Origin: §§ 91.9; 91.10
Changes:
1. Present §§ 91.9 and 91.10 are combined in one proposed section.
2. The phrase, "For the purpose of air navigation," is inserted in proposed paragraph (a) to clarify the distinction between paragraphs (a) and (b) for those not cognizant of the definition of "operate."
3. Minor changes in language with no substantive changes intended.

§ 91.9 Aircraft: required certification.

(a) No person shall operate a United States registered civil aircraft unless it has within it a valid registration certificate issued under FAR Part 47.

(b) No person shall operate a civil aircraft unless it has within it an appropriate and current airworthiness certificate.

Origin: § 91.27(a)
Changes:
1. The requirement for the airworthiness certificate to be displayed at the cabin or cockpit entrance so that it is legible to passengers or crew is deleted because displaying the airworthiness certificate is meaningless without reference to the aircraft maintenance records.
2. Some changes in language with no substantive changes intended. All of the verbage in the present regulation concerning the need for a registration number on the airworthiness certificate, or exceptions to the need, is covered by the word "appropriate." Parts 21, 45, and/or 47 should specify what constitutes an appropriate airworthiness certificate and the necessity for a registration number on it.
3. Certificates and authorizations for foreign civil aircraft are contained in proposed § 91.27.

§ 91.11 Civil aircraft airworthiness.

(a) No person shall operate a civil aircraft unless it is in an airworthy condition.

(b) The pilot in command of a civil aircraft is responsible for determining whether an aircraft is in condition for safe flight.

(c) The pilot in command shall discontinue a flight when he detects evidence of any unsafe mechanical or structural condition.

Origin: § 91.29
Changes:
1. Minor changes in language with no substantive changes intended.

§ 91.13 Civil aircraft operating limitations.

(a) *Compliance Required.* Each person operating a civil aircraft shall comply with the operating limitations prescribed for that aircraft by the certificating authority of the country of registry.

(b) *Limitations.* No person shall operate a United States registered civil aircraft unless limitation prescribed by the Administrator for that aircraft is available in the aircraft. These limitations must be available in—

(1) A current approved Airplane or Rotorcraft Flight Manual if a manual is required by FAR § 21.5, or the manual provided for in FAR § 121.141(b); or

(2) A current approved Airplane or Rotorcraft Flight Manual (if one is available although not required by § 21.5), approved manual material, markings, and placards, or any combination thereof.

Origin: § 91.31
Changes:
1. The list of specific items which must be contained in the operating limitations is deleted. The list is overly specific without being all inclusive while, at the same time, it contains some items which don't apply to all aircraft. This change shouldn't alter the regulatory effectiveness.
2. Minor changes in language with no substantive changes intended.
3. Present § 91.31(c) is deleted because it merely restates a requirement adequately covered by Part 45.
4. Present § 91.31(d) is deleted because the exception for complying with the helicopter height-speed envelope properly belongs in the Flight Manual.

§ 91.15 Aircraft instrument and equipment requirements.

(a) *General.* No person shall operate an aircraft unless the instruments and equipment required by this section for the kind of operations conducted are installed and operable in that aircraft.

(b) *Basic Instruments and Equipment.* U.S. registered heavier-than-air aircraft certificated by FAA in the standard category must contain at least the following instruments and equipment (or FAA-approved equivalents):

(1) *Visual Flight Rules, Day.* For flights between sunrise and sunset—

(i) Airspeed indicator,

(ii) Altimeter,

(iii) Magnetic direction indicator (compass),

(iv) Tachometer for each engine, and for the main rotor system if the aircraft is a helicopter,

(v) Oil pressure gauge for each engine with pressure lubrication,

(vi) Temperature gauge for each liquid-cooled engine,

(vii) Oil temperature gauge for each air-cooled engine,

(viii) Manifold pressure gauge for each engine with a controllable propeller or a supercharger,

(ix) Fuel quantity gauge for each fuel tank,

(x) Landing gear position indicator, if aircraft has a retractable gear,

(xi) An approved safety belt for each occupant more than two years of age. More than one occupant may use one belt provided the belt is properly secured about them, and

(xii) An approved shoulder harness for each front seat of a small airplane manufactured after July 18, 1978. For the purposes of this paragraph, the date of manufacture is the date the airplane is completed and its first Airworthiness Certificate is issued, and a front seat is a seat located at a pilot station and any seat alongside that seat.

(2) *Visual Flight Rules, Night.* For flight between sunset and sunrise—

(i) Instruments and equipment specified in subparagraph (1),

(ii) Aircraft position lights,

(iii) An anticollision light system. Anticollision light systems installed after August 11, 1971, on aircraft type certificated before that date must meet the standards in effect on August 10, 1971, except that the color may be either aviation red or white. In the event of the failure of all or part of an anticollision light system, flight may be continued to a stop where repairs or replacements can be made,

(iv) An adequate source of electrical energy for all installed electrical equipment, and

(v) Resetable circuit breakers for all major electrical circuits, or either a set of spare fuses or three spare fuses of each kind.

(3) *Instrument Flight Rules.* The minimum instrument and equipment requirements for flight under instrument flight rules, or for night flight in a control zone under the special weather minimums provision of § 91.119, are prescribed in § 91.205.

(c) *Emergency Locator Transmitter.* (1) A personal type or automatic type emergency locator transmitter must be attached to any U.S. registered civil airplane, except as provided in subparagraph (4) below. An emergency locator transmitter required for an airplane operated under FAR Parts 121, 123, or 135 must be of the automatic type.

(2) Each emergency locator transmitter required by subparagraph (1), above, must be attached to the airplane firmly in such a manner that probability of damage to the transmitter is minimized.

(3) Batteries used in required emergency locator transmitters must be replaced (or recharged, if the battery is rechargeable)—

(i) When the transmitter has been in use for more than one cumulative hour; or

(ii) When 50 percent of their useful life (or, for rechargeable batteries, 50 percent of their useful life of charge), as established by the transmitter manufacturer, has expired.

The new expiration date for the replacement (or recharge) of the battery must be legibly marked on the outside of the transmitter and entered in the aircraft logbook. Subparagraph (ii) does not apply to batteries (such as water-activated batteries) that are essentially unaffected during probable storage intervals.

(4) Emergency locator transmitters are not required for the following:

(i) Turbojet powered airplanes;

(ii) Airplanes engaged in scheduled flights by scheduled air carriers certificated by the Civil Aeronautics Board;

(iii) Airplanes engaged in local training operations conducted entirely within a 50-mile radius of the airport from which the flight originated;

(iv) Airplanes engaged in flight operations incident to design and testing;

(v) New airplanes engaged in flight operations incident to their manufacture, preparation, and delivery;

(vi) Airplanes engaged in flight operations incident to the aerial application of chemicals or other substances for agricultural and pest control purposes;

(vii) Airplanes certificated by the Administrator for research and development purposes;

(viii) Airplanes used for showing compliance with regulations, crew training, exhibition, air racing, or market surveys;

(ix) Airplanes equipped to carry not more than one person; and

(x) An aircraft during any period for which the transmitter has been temporarily removed for inspection, repair, modification or replacement, subject to the following:

(A) No person may operate the aircraft unless the aircraft records contain an entry which includes the date of initial removal, the make, model, serial number and reason for removal of the transmitter, and a placard is located in view of the pilot to show "ELT not installed."

(B) No person may operate the aircraft more than 90 days after the ELT is initially removed from the aircraft.

(5) Notwithstanding subparagraph (1), above, a pilot may ferry without passengers—

(i) A newly-acquired airplane to a place where an emergency locator transmitter is to be installed, or

(ii) An airplane with an inoperative emergency locator transmitter to a

V 4 4 / 1 5 J A 2 2 7 9 UMI

place where repairs or replacements can be made.

(d) *Transponder Equipment.* (1) *Transponder Required.* No person shall operate an aircraft in controlled airspace above 12,500 feet MSL, unless that aircraft is equipped with a functioning radar beacon transponder capable of responding to ATC interrogation with the code specified by ATC, and which has automatic pressure altitude reporting capability, subject to the following:

(i) Transponder equipment is not required at or below 2,500 feet above ground level, except in Terminal Control Areas;

(ii) Transponder equipment is not required in a glider above 12,500 feet MSL but below the floor of the positive control area.

(2) *ATC Authorized Deviations.* ATC may authorize deviations from the above requirements—

(i) Immediately, to allow an aircraft with an inoperable transponder to continue to the airport of ultimate destination, including any intermediate stops, or proceed to a place where suitable repairs can be made, or both;

(ii) Immediately, for operations of an aircraft with an operating transponder, but without operating altitude reporting equipment; or

(iii) On a continuing basis or for individual flights for operations of an aircraft without a transponder, in which cases the request for a deviation must be submitted to the ATC facility having jurisdiction over the airspace concerned at least two hours before the proposed operation.

Supplemental Oxygen. (1) *General.* No person shall operate a U.S. registered civil aircraft—

(i) At cabin pressure altitudes above 12,500 feet MSL up to and including 14,000 MSL unless the required minimum flight crew has available and uses supplemental oxygen for that part of the flight at those altitudes which is of more than 30 minutes duration;

(ii) At cabin pressure altitudes above 14,000 feet MSL unless the required minimum flight crew has available and uses supplemental oxygen during the entire flight time at those altitudes; and

(iii) At cabin pressure altitudes above 15,000 feet MSL unless each occupant of the aircraft is provided with supplemental oxygen.

(2) *Pressurized Cabin Aircraft.* No person may operate a U.S. registered civil aircraft which has a pressurized cabin—

(i) At flight altitudes above flight level 250 unless at least a 10-minute supply of supplemental oxygen in addition to any oxygen required to satisfy subparagraph (1), above, is available for each occupant of the aircraft.

At flight altitudes above flight level 350 unless one pilot at the controls is wearing and using an oxygen mask which is secured and sealed, and which either supplies oxygen at all times or automatically supplies oxygen when the cabin pressure exceeds 14,000 feet MSL, except that neither pilot is required to wear an oxygen mask while at or below flight level 410 if there are two pilots at the controls and each pilot has a quick-donning type of oxygen mask which can be placed on the face with one hand from ready position within five seconds, supplying oxygen and properly secured and sealed.

(iii) Notwithstanding subparagraph (ii), above, if for any reason it is necessary for one pilot to leave his station at the controls of an aircraft when operating at flight altitudes above flight level 350, the pilot remaining at the controls shall put on and use his oxygen mask until the other pilot has returned to his station.

(f) *Additional Instrument and Equipment Requirements.* Subparts B (Basic Flight Rules), C (Instrument Flight Rules), D (Special Flight Operations), E (Commercial Operations), and F (Operation of Certain Aircraft) of this Part impose instrument and equipment requirements in addition to those required by this section.

Origin: §§ 91.24, 91.32, 91.33, 91.52, NEW:
Comments: In trying to keep the regulations compact and in reasonable order, most of the required intruments and appliances have been placed in this one section: Basic Instruments and Equipment, ELTs, Oxygen Equipment, etc. In so doing, this section has become very long. Some equipment requirements have been placed in other subparts because they are the logical places for pilots to look for them: Radio and transponder are listed as required equipment under the section on TCA's; Instruments and Equipment for IFR are in Subpart C, Instrument Flight Rules; requirements for parachutes are in Subpart D, Special Flight Operations; requirements for certain survival gear for over-water operations and landing lights are in Subpart E, Special Regualtions for Commercial Operations; etc. Pilots are alerted to these additional requirements by paragraph (f) of this section (§ 91.15).
Changes:
1. Equipment and instrument requirements which are in several separate sections in the present regulations are incorporated as paragraphs under one section in this proposal.

The word, "aproved," and the basis for approval of instruments and equipment have been deleted in most places because, in many cases, the pilot has no way of determining the approved status of equipment. Under this section, the pilot is responsible for determining that instruments and equipment are operable, and under proposed § 91.17 he can't use or permit the use of, anything he determines causes harmful interference with any other piece of required equipment.

3. Instruments and equipment requirements for IFR and Category II operations are moved to Subpart C, Instrument Flight Rules.

4. Requirements for flotation gear and a landing light when operating for hire are moved to Subpart E, Special Regulations for Commercial Operators and Operations for Hire.

5. The requirement for DME above 24,000 feet MSL is moved to Subpart C.

6. The requirement for attaching ELTs as far aft as possible is deleted.

7. The lead time for submitting requests for deviations on a continuing basis from the transponder requirement is reduced form 4 to 2 hours.

8. The exception from the transponder requirement for helicopters operated at or below 1,000 feet AGL in terminal control areas under the terms of a letter of agreement (present § 91.24(b)) is deleted because it appears that this is adequately covered by proposed § 91.15 (d)(2)(iii), ATC authorized deviations on a continuing basis.

9. Paragraph (f) is added to alert operators to additional requirements for more sophisticated operations.

10. Some other changes in language with no substantive changes intended.

§ 91.17 Prohibition against certain appliances and portable electronic devices.

(a) No person shall install in a United States registered civil aircraft operated in air commerce any appliance which does not meet FAA required approval standards or causes harmful interference with the operation of any required appliance in an aircraft.

(b) No person shall operate, nor shall any operator or pilot in command permit the operation of, any appliance or portable electronic device aboard an aircraft which the operator or pilot in command has determined causes harmful interference with the operation of any required appliance of an aircraft.

Origin: FAR 91.19; New
Changes:
1. A prohibition against the installation of any appliance which does not meet approval standards when approval is required or which causes harmful interference with required appliances is added in proposed Part 91. This places the responsibility for determining whether such appliances are satisfactory ("approved", when necessary) on the person installing the equipment rather than the pilot. It is impractical to expect the pilot (particularly when the pilot isn't the owner) to know whether appliances are approved or not. In many cases, he has no way of telling.

2. The pilot retains the responsibility for not using appliances or portable electronic devices which he has determined cause harmful interference.

3. Deleted from present § 91.19 is the list of portable electronic devices exempt from the regulation and the specification of who determines whether or not a portable electronic device does or does not cause interference. These seem overly specific and the dangers invisioned are adequately guarded against in the proposal.

§ 91.19 Liquor and drugs.

(a) Crewmembers. No person shall act as a crewmember of an aircraft—

(1) Within eight hours after the consumption of any alcoholic beverage;

(2) While under the influence of alcohol; or

(3) While under the influence of, or using any drug which affects his faculties in any way contrary to safety.

(b) Passengers. No pilot shall knowingly allow a person who is obviously under the influence of intoxicating liquor or drugs to be carried in an aircraft unless such person is under proper care.

Origin: § 91.11
Changes:
1. A person obviously under the influence of intoxicating liquor but under proper care may be carried as a passenger.
2. Some changes in language with no substantive changes intended.

§ 91.21 Carriage of narcotic drugs, marihuana, and depressant or stimulant drugs or substances.

(a) Except as provided in paragraph (b) of this section, no person shall operate a civil aircraft within the United States with knowledge that narcotic drugs, marihuana, and depressant or stimulant drugs or substances as defined in Federal or State statutes are carried in the aircraft.

(b) Paragraph (a) of this section does not apply to any carriage of narcotic drugs, marihuana, and depressant or stimulant drugs or substances authorized by or under any Federal or State statute or by any Federal or State agency.

Origin: § 91.12
Changes: None

§ 91.23 Preflight action.

Before beginning any flight, the pilot in command shall familiarize himself with all available information pertinent to the safe operation of that flight.

Origin: § 91.5
Changes:
1. The phrase, "pertinent to the safe operation of," has been substituted for the word, "concerning", which is used in the present regulation.
2. The list of specific items to be checked by the pilot has been deleted. This does not lessen the pilot's responsibility for including those items in the information considered pertinent to the safe operation of a flight.

§ 91.91 Waivers.

(a) The Administrator may issue a certificate of waiver authorizing the operation of aircraft in deviation of a rule of this Part if he finds that the proposed operation can be safely conducted under the terms of that certificate of waiver.

(b) An application for a certificate of waiver under this section is made on a form and in a manner prescribed by the Administrator and may be submitted to any FAA office.

(c) A certificate of waiver is effective as specified in that certificate.

Origin: § 91.63
Changes:
1. Waivers may be issued for any rule of proposed Part 91 rather than just Subpart B as in the present regulations. This change is proposed more for purposes of simplifying the regulation than for expanding the number of rules which may be waived. It is anticipated that FAA offices responsible for issuing waivers will receive proper and uniform guidance from FAA headquarters on rules which should not be waived.

§ 91.27 Prohibition against interference with crewmembers.

No person may assault, threaten, intimidate, or interfere with a crewmember in the performance of the crewmember's duties aboard an aircraft being operated.

Origin: § 91.8
Changes: None.

§ 91.29 Special flight rules for foreign civil aircraft.

Each person operating a foreign civil aircraft within the United States shall comply with the pertinent requirements of this section, in addition to other applicable regulations of this Chapter (the Federal Aviation Regulations).

(a) *Aircraft Certificates.* No person shall operate a foreign civil aircraft within the United States unless it contains a registration certificate issued to its owner and an airworthiness certificate issued or validated by the country in which it is registered or a special flight authorization issued under paragraph (g) below.

(b) *Air Crewman Certificates.* No person shall serve as a pilot or other required flight crewmember on a foreign civil aircraft within the United States unless he has in his personal possession valid and appropriate airman and medical certificates issued or validated by the country of registry, or valid United States airman and medical certificates appropriate to the aircraft and flight operations conducted.

(c) *Visual Flight Rules.* No person may conduct VFR operations which require two-way radio communications under this part, unless at least one crewmember of that aircraft is able to conduct two-way radio communications in the English language and is on duty during that operation.

(d) *Instrument Flight Rules.* No person shall operate a foreign civil aircraft under instrument flight rules unless—(1) That aircraft is equipped with:

(i) Radio equipment allowing two-way radio communications with ATC facilities controlling the flight;

(ii) Radio naviagational equipment appropriate to the navigational facilities to be used; and

(iii) If VOR navigation equipment is required under paragraph (c) (1) (ii) of this section, no person may operate a foreign civil aircraft within the 50 states and the District of Columbia at or above 24,000 feet MSL, unless the aircraft is equipped with distance measuring equipment (DME) capable of receiving and indicating distance information from the VORTAC facilities to be used. When DME required by this paragraph fails at and above 24,000 feet MSL, the pilot in command of the aircraft shall notify ATC immediately, and may then continue operations at and above 24,000 feet MSL to the next airport of intended landing at which repairs or replacement of the equipment can be made. However, DME is not required on foreign civil aircraft when operated for the following purposes, and if ATC is notified prior to each takeoff:

(A) Ferry flights to and from a place in the United States where repairs or alterations are to be made;

(B) Ferry flights to a new country of registry;

(C) Flight of a new aircraft of U.S. manufacture for the purpose of—

(I) Flight testing the aircraft;

(II) Training foreign flight crews in the operation of the aircraft; or

(III) Ferrying the aircraft for export delivery outside the United States.

(D) Ferry, demonstration, and test flights of an aircraft brought to the United States for the purpose of demonstration or testing the whole or any part thereof.

(2) Each required pilot of the aircraft—

(i) Is authorized by his foreign pilot certificate to operate as an instrument pilot under IFR, or holds a current United States instrument rating; and

(ii) Is thoroughly familiar with the United States departure, enroute, holding and approach procedures; and

(iii) At least one crewmember is competent to conduct two-way radio voice communications in the English language, and that crewmember is on duty when the aircraft is approaching, operating within, or departing from the United States.

(e) *Over water.* Each person operating a foreign civil aircraft over water off the coast of the United States shall give flight notification or file a flight plan, in accordance with the Supplementary Procedures for the ICAO Region concerned.

(f) *Civil Aircraft of Cuban Registry.* No person shall operate an aircraft of Cuban registry within the United States except in controlled airspace, and in accordance with air traffic clearances or air traffic control instructions which may require the

use of specific airways, routes, and airports.

(g) *Special Flight Authorization for Foreign Aircraft.* (1) A foreign civil aircraft may be operated in the United States without the airworthiness certificate required by paragraph (a) of this section if a special flight authorization is issued under this paragraph. Application for a special flight authorization must be made to the Regional Director of the FAA Region in which the aircraft is located. Application for a special flight authorization under subparagraph (2)(vi), below, should be made to the Regional Director of the FAA Region in which the demonstrations or show will take place.

(2) The Administrator may issue a special flight authorization, subject to any conditions and limitations he considers necessary for safety, for any of the following operations:

(i) The flight of a damaged aircraft to a place where repairs or alterations are to be made, if the regulations of the country of registry indicate that the aircraft has been damaged to the extent that its airworthiness certificate is invalid.

(ii) The flight of an aircraft to a new country of registry, if the airworthiness certificate has been invalidated by the former country of registry because of a change in ownership.

(iii) The flight of an aircraft of United States manufacture for flight testing, or training a foreign buyer or his representatives in the operation of the aircraft, or for the purpose of ferrying the aircraft outside of the United States when title has passed to a foreign buyer and there is no airworthiness certificate for it. An authorization may be issued for this purpose even though no registration certificate has been issued by the country of the foreign buyer, provided the aircraft bears identification markings issued by the country of intended registry.

(iv) The flight of an aircraft for the purpose stated in subparagraph (iii), above, in the case of a foreign civil aircraft which has undergone modifications in the United States which invalidated its airworthiness certificate.

(v) The flight of a foreign civil aircraft without a standard airworthiness certificate brought to the United States for demonstrations in connection with market sales or surveys, or for testing the whole aircraft or any part thereof. For market sales or surveys, the applicant must show at least that:

(A) The applicant is the manufacturer of the aircraft;

(B) The applicant has applied for a United States type certificate or supplement type certificate;

(C) The aircraft has flown for 50 hours, or at least 5 hours if it is a U.S. type certificated aircraft which has been modified;

(D) The applicant has established operating limitations in an appropriate document, and certifies that the aircraft will be operated within such limitations; and

(E) The applicant has established an inspection and maintenance program for the continuing airworthiness of the aircraft.

(vi) The flight of foreign registered amateur-built experimental aircraft, brought to the United States for the purpose of demonstration at an air meet within the United States.

Origin: §§ 91.28; 91.27; 91.43 and 91.103
Changes:

1. Three present sections have been combined in one proposed section.
2. Foreign registered amateur-built experimental aircraft may operate at air meets in the U.S. Present regulation restricts it to Canadian only.
3. Some minor changes in language and format with no substantive changes intended.

Subpart B—Basic Flight Rules

NOTE.—This Subpart contains most of what is contained in present Subpart B of Part 91, except those regulations pertaining to instrument flight which have been moved to proposed Subpart C.

§ 91.101 Applicability.

This subpart prescribes the basic flight rules for aircraft operating within the United States.

Origin: § 91.61
Changes:
1. Minor changes in language with no substantive change intended.

§ 91.103 Flight crewmembers at stations.

(a) During takeoff and landing, and while enroute, each required flight crewmember shall be at his station with his seat belt fastened unless his absence is necessary in the performance of his duties or in connection with his physiological needs.

(b) Each required crewmember of a U.S. registered civil airplane shall, during takeoff and landing, keep the shoulder harness fastened while at his station, if the station is equipped with a shoulder harness. This paragraph does not apply if the crewmember would be unable to perform his required duties with the shoulder harness fastened.

Origin: § 91.7
Changes:
1. Minor changes in language with no substantive changes intended.

§ 91.105 Use of seat belts and shoulder harnesses.

(Not applicable to airships, free balloons nor operations conducted under FAR Parts 121, 123, or 127.)

(a) Unless otherwise authorized by the Administrator—

(1) No pilot may take off or land a U.S. registered civil aircraft unless the pilot in command of that aircraft ensures that each person on board has been notified to fasten his safety belt.

(2) During the takeoff and landing of U.S. registered civil aircraft, each person on board that aircraft must occupy a seat or berth with a safety belt properly secured about him (separate seats and separate safety belts are not required). However, a child less than two years of age may be held by an adult who is occupying a seat or berth, and a person on board for the purpose of engaging in sport parachuting may use the floor of the aircraft as a seat.

(b) Paragraph (a)(2) of this section does not apply to persons subject to § 91.103.

Origin: § 91.14
Changes:
1. Some changes in language with no substantive changes intended.

§ 91.107 Operating near other aircraft.

(a) No person shall operate an aircraft so close to another aircraft as to create a collision hazard.

(b) *Formation Flights.* No person shall operate an aircraft in a formation flight except by arrangement with the pilot in command of each aircraft in the formation.

Origin: § 91.65(a) and (b)
Changes:
1. The rule prohibiting a pilot from operating in accordance with a clearance or vectors issued to another pilot has been placed in § 91.129, Compliance with ATC Clearances and Instructions.
2. The rule prohibiting formation flight if an aircraft is carrying passengers for hire has been placed in Subpart E, Additional Regulations for Commercial Operators and Operations for Hire.
3. No substantive change in the rules is intended by changes 1 and 2.

§ 91.109 Right of way in flight.

(a) *General.* When weather conditions permit, regardless of whether an operation is conducted under the Instrument Flight Rules of Subpart C of this Part or the rules of this Subpart, vigilance shall be maintained by each person operating an aircraft to see and to avoid other aircraft in compliance with this section. When the rules of this section give another aircraft the right of way, a pilot shall give way to that aircraft, and shall not pass over, under, or ahead of it unless well clear.

(b) *Aircraft in Distress.* An aircraft in distress has the right of way over all other air traffic.

(c) *Converging Aircraft.* When aircraft of the same category are converging at approximately the same altitude (except head-on or nearly so), the aircraft to another's right has the right of way. If the aircraft are of different categories—

(1) A free balloon has the right of way over any other category of aircraft;

(2) A glider has the right of way over an airship, airplane, or rotorcraft; and

(3) An airship has the right of way over an airplane or rotorcraft.

However, an aircraft which has another aircraft in tow, or is in the process of refueling another aircraft has the right of way over all other powered aircraft.

(d) *Approaching Head-On.* When aircraft are approaching each other head-on, or nearly so, the pilot of each aircraft shall alter course to the right.

(e) *Overtaking.* An aircraft which is being overtaken has the right of way, and the pilot of each overtaking aircraft shall alter course to the right so as to pass well clear.

(f) *Landing.* Aircraft on final approach or landing have the right of way over other aircraft in flight or operating on the surface. When two or more aircraft are approaching an airport for a landing, the aircraft at the lower altitude has the right of way, but a pilot shall not take advantage of this rule to cut in front of another aircraft which is on final approach to land, nor to overtake that aircraft.

(g) *Inapplicability.* This section does not apply to the operation of an aircraft on water.

Origin: § 91.67
Changes:

1. Minor changes in language with no substantive changes intended.

§ 91.111 Right-of-way rules; operations on water.

(a) *General.* Each person operating an aircraft on the water shall, insofar as possible, keep clear of all vessels and avoid impeding their navigation, and shall give way to any vessel or other aircraft that is given the right-of-way by any rule of this section.

(b) *Crossing.* When aircraft, or an aircraft and a vessel are on crossing courses, the aircraft or vessel to the other's right has the right-of-way.

(c) *Approaching Head-On.* When aircraft, or an aircraft and a vessel, are approaching head-on or nearly so, each shall alter its course to the right to keep well clear.

(d) *Overtaking.* Each aircraft or vessel that is being overtaken has the right-of-way, and the one overtaking shall alter course to keep well clear.

(e) *Special Circumstances.* When aircraft, or an aircraft and a vessel, approach so as to involve risk of collision, each aircraft or vessel shall proceed with careful regard to existing circumstances, including the limitations of the respective craft.

Origin: § 91.69

Changes: No change.

§ 91.113 Use of aircraft position lights.

Origin: § 91.73
Changes: None

§ 91.115 Aircraft speed.

(a) No person shall operate an aircraft below 10,000 feet MSL at an indicated airspeed of more than 250 knot (288MPH), unless otherwise authorized by the Administrator.

(b) Unless otherwise authorized or required by ATC, no person shall operate an aircraft within an airport traffic area at an indicated airspeed of more than 200 knots (230MPH). This paragraph does not apply to any operations within a Terminal Control Area. Such operations shall comply with paragraph (a) of this section.

(c) No person shall operate an aircraft in the airspace underlying a Terminal Control Area, or in a VFR corridor designated through a Terminal Control Area, at an indicated airspeed of more than 200 knots (230MPH). However, if the minimum safe airspeed for any particular operation is greater than the maximum speed prescribed in this section, the aircraft may be operated at that minimum speed.

Origin: 91.70
Changes:
1. In paragraph (b), different speed limits for aircraft with reciprocating engines and turbine engines are changed to one speed limit, the one which presently applies to turbines. An aircraft powered by a reciprocating engine traveling at 200 knots presents no greater hazard than one powered by a turbine engine, so it appears unnecessary to complicate this regulation by having different speed limits apply to different kinds of aircraft.

§ 91.117 Weather minimums: visual flight rules (VFR).

(a) *General.* Except as provided in § 91.119 (Special Weather Minimums in a Control Zone) and in Subpart C (Instrument Flight Rules), no person shall operate an aircraft when the flight visibility is less, or at a distance from clouds which is less, than the minimums prescribed in the following table, nor within a control zone when the ceiling or visibility is less than specified in paragraph (c), below.

Altitude	Flight visibility	Distance from clouds
1,200 feet or less above the surface, regardless of MSL altitude:		
Within controlled airspace	3 statute miles	500 feet below 1,000 feet above 2,000 feet horizontally
Outside controlled airspace	1 statute mile (except helicopters)	Clear of clouds
More than 1,200 feet above the surface, but less than 10,000 feet MSL:		
Within controlled airspace	3 statute miles	500 feet below 1,000 feet above 2,000 feet horizontally
Outside controlled airspace	1 statute mile	1,000 feet below 1,000 feet above 1 mile horizontally
At and above 10,000 feet MSL and more than 1,200 feet above the surface.	5 statute miles	1,000 feet below 1,000 feet above 1 mile horizontally

(b) *Helicopter Visibility.* A helicopter may be operated outside controlled airspace at 1,200 feet or less above the surface when the visibility is less than one mile, provided it is operated at a speed which allows the pilot adequate opportunity to see any air traffic or obstruction in time to avoid a collision.

(c) *VFR Flight Within a Control Zone.* (Except as provided in § 91.119.)

(1) No person shall operate an aircraft within a control zone beneath the ceiling when the ceiling is less than 1,000 feet.

(2) No person shall take off or land an aircraft or enter the traffic pattern of an airport within a control zone under visual flight rules unless the ground visibility is at least 3 statute miles, or if ground visibility is not reported at that airport, unless the flight visibility on takeoff or landing or when operating in the traffic pattern is at least 3 statute miles.

(d) *Aircraft at the Base of a Transition or Control Area.* For the purpose of this section, an aircraft operating at the base altitude of a transition area or a control area is considered to be within the airspace directly below that area.

Origin: § 91.105
Changes: Minor changes in language with no substantive changes intended.

§ 91.119 Special weather minimums in control zones.

When a person has received a Special VFR Clearance from ATC for a flight in a control zone, the following special rules apply to that portion of

V 44/15 JAN 22 79 UMI

V 4 4 / 1 5 JAN 22 79 UMI

the flight which is within the control zone:

(a) *Special Weather Minimums:*

(1) Ceiling—The aircraft must remain clear of all clouds;

(2) Visibility—(other than helicopters)

(i) Ground visibility of one statute mile; or

(ii) If the ground visibility is not reported at that airport, the flight visibility during takeoff and landing must be at least one statute mile.

(b) *Special VFR Night Flight.* No person shall operate an aircraft (except a helicopter) at night (or in Alaska when the sun is more than six degrees below the horizon) under a Special VFR clearance unless he meets the requirements for instrument flight under FAR Part 61 and the aircraft is equipped for IFR flight.

Origin: § 91.107
Changes:
1. Reference to Part 93 is deleted. Sectional charts and other publications identify airports where Special VFR is not permitted.
2. Some changes in language with no substantive changes intended.

§ 91.121 Minimum safe altitudes.

Except when necessary for take-off and landing, no person shall operate an aircraft below the following altitudes:

(a) *Anywhere.* An altitude allowing, in the event of a power failure, an emergency landing without undue hazard to persons or property on the surface.

(b) *Over Congested Areas.* Over any congested area of a city, town, or settlement, or over any open air assembly of persons, an altitude of 1,000 feet above the highest obstacle within a horizontal radius of 2,000 feet from the aircraft.

(c) *Over other than Congested Areas.* An altitude of 500 feet above the surface, except over open water or sparsely populated areas. In that case, the aircraft shall not be operated closer than 500 feet to any person, vessel, vehicle or structure.

(d) *Helicopters.* Helicopters may be operated at less than the minimums in (b) and (c), above, if the operation is conducted without hazard to persons or property on the surface. In addition, each person operating a helicopter shall comply with special routes and altitudes specifically prescribed by the Administrator.

Origin: § 91.79
Changes: No change

§ 91.123 Cruising Altitudes: VFR.

Each person operating an aircraft under VFR in level cruising flight at an altitude more than 3,000 feet above the surface shall maintain the appropriate cruising altitude or flight level prescribed below, except while turning, or unless otherwise authorized by ATC.

(a) When operating below 18,000 MSL and—

(1) On a magnetic course of zero degrees through 179 degrees, any odd thousand foot MSL altitude + 500 feet (such as 3,500, 5,500 or 7,500); or

(2) On a magnetic course of 180 degrees through 359 degrees, any even thousand foot MSL altitude + 500 feet (such as 4,500, 6,500 or 8,500).

(b) When operating above 18,000 feet MSL to flight level 290 (inclusive), and—

(1) On a magnetic course of zero degrees through 179 degrees, any odd flight level + 500 feet (such as 195, 215, or 235); or

(2) On a magnetic course of 180 degrees through 359 degrees, any even flight level + 500 feet (such as 185, 205 or 225).

(c) When operating above flight level 290 and—

(1) On a magnetic course of zero degrees through 179 degrees, any flight level, at 4,000-foot intervals, beginning at and including flight level 300 (such as flight level 300, 340, or 380); or

(2) On a magnetic course of 180 degrees through 359 degrees, any flight level, at 4,000-foot intervals, beginning at and including flight level 320 (such as flight level 320, 360 or 400).

Origin: § 91.109
Changes:
1. The phrase, "or in holding pattern of 2 minutes or less," is deleted because it appears to be adequately covered under "otherwise authorized by ATC."
2. Some changes in language with no substantive changes intended.

§ 91.125 Altimeter settings.

(a) Each person operating an aircraft shall maintain his cruising altitude by reference to an altimeter which is set:

(1) When operating below 18,000 feet MSL, to:

(i) The currently reported altimeter setting to a station along his route and within 100 nautical miles of the aircraft; or

(ii) If there is no reporting station within the area prescribed in (i) above, the most appropriate available altimeter setting; or

(iii) In the case of an aircraft without radio, the elevation of the departure airport or an appropriate altimeter setting available before takeoff.

(2) To 29.92" Hg when operating above 18,000 feet MSL. Minimum usable flight levels and safe obstacle clearance altitudes shall be determined by reference to published tables.

(b) A glider engaged in local flights, or an aerial applicator aircraft while dispensing agricultural chemicals or other substances may be operated with its altimeter set to zero before takeoff.

Origin: § 91.81; New.
Changes:
1. Subparagraph (b) is added to legalize a common practice with aerial applicators and glider operators.
2. The tables for pressure corrections for flight at preset altimeter setting 29.92" Hg have been omitted as more appropriate to technical manuals and aids than as a part of the regulations.
3. Some changes in language with no substantive change intended.

§ 91.127 Dropping objects.

No pilot in command of a civil aircraft may allow any object or substance to be dropped from that aircraft which creates a hazard to persons or property. This section does not prohibit the dropping of any object if reasonable precautions are taken to avoid injury or damage to persons or property.

Origin: § 91.13
Changes: Minor changes in language with no substantive changes intended.

§ 91.129 Compliance with ATC clearances and instructions.

(a) No pilot shall deviate from an ATC clearance after it has been accepted, except in an emergency, until he obtains an amended clearance. This does not prohibit him from cancelling an IFR flight plan, except in positive controlled airspace, if he is operating in VFR conditions. If a pilot is uncertain of the meaning of an ATC clearance, he shall immediately request a clarification.

(b) No person shall operate an aircraft contrary to an ATC instruction (including light gun signals) in an area where air traffic control is exercised, except in an emergency.

(c) Unless otherwise authorized by ATC, no person shall operate an aircraft in accordance with any clearance or instruction which has been issued to the pilot of another aircraft for radar air traffic control purposes.

(d) Each pilot in command who deviates, in an emergency, from an ATC clearance or instruction shall notify ATC of that deviation as soon as possible.

(e) Every pilot in command who is given priority by ATC in an emergency shall, if requested by ATC, submit a detailed report of that emergency within 48 hours to the chief of the ATC facility involved, even though he has not deviated from a rule of this part.

Origin: FAR 91.75; 91.65(d)
Changes:
1. The prohibition against operating in accordance with a clearance issued to another pilot is included in this section.
2. Some changes in language with no substantive changes intended.

§ 91.131 ATC light gun signals.

Origin: § 91.77
Changes: None

§ 91.133 Flight plans: general.

(a) Each person filing a flight plan shall include in it the information ATC believes is necessary for ATC purposes and the information the pilot in command believes is necessary for search and rescue purposes.

(b) Upon completion or cancellation of a flight for which a flight plan has been activated, the pilot shall promptly notify an FAA Flight Service Station or ATC facility.

Origin: § 91.83 (a) and (d).
Changes:
1. The list of items included on the flight plan form has been omitted as unnecessary. In actual practice, some of the items are not used or are abridged. The present regulation allows ATC to authorize something less than the items listed, and allows a pilot or ATC to provide more than what is listed. Publications containing good operating procedures (such as the Airman's Information Manual) are the proper places to alert pilots to what may be expected of them.
2. Requirements for listing an alternate airport on an IFR flight plan are contained in Subpart C, Instrument Flight Rules.

§ 91.135 Flights between Mexico and Canada and the United States.

Unless otherwise authorized by ATC, no person may operate a civil aircraft between Mexico or Canada and the United States without filing an IFR or VFR flight plan, as appropriate.

Origin: § 91.84
Changes: None

§ 91.137 Operating on or in the vicinity of an airport: generally.

(a) Each person operating an aircraft on or in the vicinity of an airport shall comply with the requirements of this section, or when appropriate, § 91.139 (Airports with Control Towers) and § 91.141 (Terminal Control Areas); or the special rules for those airports governed by FAR Part 93.

(b) Each person operating an aircraft to or from an airport shall comply with the following, unless otherwise authorized or required by ATC:

(1) Airplanes approaching to land shall make all turns to the left, unless the airport displays lights or visual markings to indicate that turns should be made to the right;

(2) Helicopters approaching to land shall avoid the flow of fixed wing traffic; and

(3) Aircraft departing the airport shall comply with any departure procedures established for that airport by the FAA.

Origin: §§ 91.85(a); 91.89
Changes:
1. Minor changes in language with no substantive change intended.

§ 91.139 Operations at airports with operating control towers.

Each pilot operating an aircraft to, from, or on an airport with an operating control tower shall comply with the applicable requirements of this section, unless otherwise authorized or required by ATC.

(a) *Communications with Control Towers Operated by the United States.* No pilot shall, within an airport traffic area operate an aircraft to, from, or on an airport with a control tower operated by the United States government unless he first establishes and maintains two-way communications with that tower. However, if the radio fails in flight, he may continue to operate that aircraft and land, provided the weather conditions are at or above basic VFR minimums and he maintains visual contact with the tower and receives a clearance to land by radio or light signals. If the radio fails in flight under instrument flight rules, the pilot shall proceed as prescribed in § 91.229.

(b) *Clearances Required.* No pilot shall, at an airport with an operating control tower, taxi an aircraft on a runway or taxiway, nor take off, land, nor operate an aircraft within the traffic pattern of that airport unless he has received an appropriate clearance from the tower. A clearance to "taxi to" the takeoff runway assigned to the aircraft is not a clearance to cross that assigned takeoff runway, or to taxi on that runway at any point, but is a clearance to cross other runways that intersect the taxi route to that assigned takeoff runway. A clearance to "taxi to" any point other than an assigned takeoff runway is a clearance to cross all runways that intersect the taxi route to that point.

(c) *Approaches.* The pilot of an airplane shall approach an airport with an operating control tower so as to circle to the left. The pilot of a helicopter shall plan his approach to avoid the flow of fixed wing traffic.

(d) *Departures.* The pilot of a departing aircraft shall comply with any departure procedures established for that airport by the FAA.

(e) *Visual Approach Slope Indicators.* The pilot of an airplane approaching to land on a runway served by a visual approach slope indicator shall maintain an altitude above the indicated approach slope until a lower altitude is necessary for a safe landing. However, this requirement does not prohibit normal bracketing above and below the approach slope for the purpose of staying on the indicated approach slope.

(f) *Special Rules for Turbine-Powered and Large Airplanes.* When operating at an airport with an operating control tower, each pilot of any turbine-powered airplane or other large airplane shall:

(1) Unless prevented by distance from cloud criteria, when within five statute miles of the airport, maintain an altitude of at least 1,500 feet above the surface of the airport, until further descent is necessary for a safe landing;

(2) When approaching to land on a runway served by an ILS system, if the airplane is ILS equipped, fly that airplane at an altitude on or above the glide slope between the outer marker, or a point of interception closer in if required by cloud separation criteria, and the middle marker. However, this rule does not prohibit normal bracketing maneuvers above and below the glide slope for the purpose of remaining on the glide slope;

(3) When departing after takoff, climb to an altitude of 1,500 feet above the surface as rapidly as is feasible, unless otherwise required by established departure procedures or cloud separation criteria; and

(4) when landing on or taking off from an airport for which a formal runway use program has been established by the FAA, use the runway assigned by ATC for noise abatement purposes. However, the pilot has final authority and responsibility for the safe operation of his airplane, and if he determines that in the interest of safety another runway should be used, ATC will assign that runway, if air traffic and other conditions permit.

Origin: § 91.87 (except paragraph (c) which is deleted)
Changes:
1. The requirement for radio communications with control towers not operated by the U.S. is deleted. Such communications should be a recommended practice by not a regulation. It seems wrong that someone operating an aircraft without a radio can go in and out of these airports and not be subject to a violation while another pilot operating an aircraft containing a radio is subject to a violation if he doesn't use it. Clearances are still required at all airports with operating control towers regardless who the operator is.

§ 91.141 Terminal control areas.

(a) *Group I Terminal Control Areas.* (1) *Operating Rules.* (i) No person shall operate an aircraft within a Group I Terminal Control Area unless he has received an appropriate authorization from ATC prior to the operation of that aircraft in that area; and unless two-way radio communications are maintained within that area, between the aircraft and the ATC facility.

(ii) Each person operating a large turbine-powered airplane to or from a primary airport shall, unless otherwise authorized by ATC, operate at or

V 4 4 / 1 5 J A 2 2 7 9 UMI

above the designated floors while within the lateral limits of the terminal control area.

(2) *Pilot Requirements.* The pilot in command of a civil aircraft shall not land or take off that aircraft from an airport within a Group I Terminal Control Area unless he holds at least a private pilot certificate.

(3) *Equipment Requirements.* Unless otherwise authorized by ATC, no person shall operate an aircraft within a Group I Terminal Control Area unless that aircraft is equipped with:

(i) An operable VOR or TACAN receiver (except in the case of helicopters);

(ii) An operable two-way radio capable of communicating with ATC on appropriate frequencies for that Terminal Control Area; and

(iii) An operable transponder capable of replying to ATC interrogation with the code specified by ATC, and equipped with automatic pressure altitude reporting equipment.

(b) *Group II Terminal Control Areas.* (1) *Operating Rules.* (i) No person shall operate an aircraft within a Group II Terminal Control Areas unless he has received an appropriate authorization from ATC prior to the operation of that aircraft in that area; and unless two-way radio communications are maintained, within that area, between that aircraft and the ATC facility.

(ii) Unless otherwise authorized by ATC, each person operating a large turbine-powered airplane to or from a primary airport shall operate at or above the designated floors while within the lateral limits of the Terminal Control Area.

(2) *Equipment Requirements.* Unless otherwise authorized by ATC, no person shall operate an aircraft within a Group II Terminal Control Area unless that aircraft is equipped with:

(i) An operable VOR or TACAN receiver (except in the case of helicopters);

(ii) An operable two-way radio capable of communicating with ATC on the appropriate frequencies for that terminal control area; and

(iii) An operable transponder capable of replying to ATC interrogation with the code specified by ATC, and except that a transponder is not required for IFR flights operating to or from an airport outside, but in close proximity to the Terminal Control Area when the commonly used transition, approach, or departure procedures to such airport require flight within the terminal control area.

(c) *ATC Authorized Deviations.* ATC may authorize deviations from equipment requirements of this section:

(1) Immediately, in the case of in-flight VOR, TACAN, or two-way radio failure;

(2) Immediately, in the case of a transponder or automatic pressure altitude reporting equipment failure occurring at any time; or

(3) On a continuing basis, or for individual flights, in which case the request for a deviation must be submitted to the ATC facility having jurisdiction over the airspace concerned at least two hours before the proposed operation.

Origin: §§ 91.90, 91.24(c)
Changes:
1. Regulations pretaining to Group III TCAs are deleted because there aren't any Group III TCAs, and it doesn't appear likely that there will be any.
2. The cross reference to another section for transponder and automatic pressure altitude reporting equipment requirements has been changed to a statement of the requirement.
3. The authorized deviations from the equipment requirements has been expanded slightly by allowing ATC to authorize deviations from all of the equipment requirements (instead of just transponders) on a continuing basis or for individual flights.
4. The lead time for submitting a request for deviations has been dropped from four hours to two hours.
5. A regulation has been added for Group I TCAs in paragraph (a)(1). The requirement for maintaining two-way radio communications within Group I TCAs is omitted in present section 91.90. The omission was probably an oversight because the requirement is in the present operating rules for Group II TCAs.

§ 91.143 Operations in specially designated areas.

(a) *Restricted and Prohibited Areas.* (1) No person shall operate an aircraft within a Restricted Area designated in FAR Part 73 contrary to the restrictions imposed, or within a Prohibited Area, unless he has the permission of the using or controlling agency, as appropriate.

(2) Each person conducting, within a Restricted Area, an aircraft operation (approved by the using agency) that creates the same hazards as the operations for which the Restricted Area was designated, may deviate from the rules of this subpart that are not compatible with his operation of the aircraft.

(b) *Positive Control Areas and Route Segments.* (1) No person shall operate an aircraft within a Positive Control Area, or Positive Control Route Segment designated in FAR Part 71, unless that aircraft is:

(i) Operated under IFR at a specified flight level assigned by ATC;

(ii) Equipped with the instruments and equipment required for IFR flight;

(iii) Flown by a pilot rated for instrument flight;

(iv) Equipped with an operable transponder capable of replying to ATC interrogation with the code specified by ATC, and with automatic pressure altitude reporting equipment; and

(v) Two-way radio capable of providing communications on frequencies specified by ATC.

(2) ATC may authorize deviations from subparagraph (1), above, immediately in the case of in-flight equipment failure. In cases of other requests for deviations, written requests must be submitted at least 24 hours before the proposed operation to the ATC Center having jurisdiction over the airspace concerned. ATC may authorize a deviation on a continuing basis or for an individual flight, as appropriate.

Origin: §§ 91.95, 91.97
Changes:
1. The rules now in § 91.95 and § 91.97 have been combined in a single section.
2. Deviations in the case of any kind of in-flight equipment failure may be authorized immediately.
3. Some changes in language with no substantive change intended.

§ 91.145 Temporary flight restrictions.

(a) *General.* The Administrator may, when he finds it necessary because of a particular incident or event, issue a Notice to Airmen (NOTAM) designating an area within which temporary flight restrictions apply for the safety of air traffic, the security and safety of persons on the surface, or to expedite the conduct of emergency or special flight operations. When a NOTAM has been issued under this section, each person operating an aircraft within the designated area shall comply with paragraph (b), (c) or (d) of this section, as appropriate.

(b) *Flight Restrictions in the Proximity of Space Flight Recovery Operations.* No person may operate any aircraft of United States registry, or pilot any aircraft under the authority of an airman certificate issued by the Federal Aviation Administration within areas designated in a Notice to Airmen (NOTAM) for space flight recovery operations except when authorized by ATC, or operated under the control of the Department of Defense Manager for Manned Space Flight Support Operations.

(c) *Flight Restrictions in the Proximity of Presidential and Other Parties.* No person may operate an aircraft over or in the vicinity of any area to be visited or traveled by the President, the Vice President, or other public figures contrary to the restrictions established by the Administrator and published in a Notice to Airmen (NOTAM).

(d) *Flight Restrictions for Other Incidents or Events.* When a NOTAM has been issued for reasons not covered by paragraph (b) or (c) of this section, no person shall operate an aircraft within the designated area unless:

(1) That aircraft is participating in activities connected with the incident or event under the direction of the responsible agency specified in the NOTAM;

(2) That aircraft is being operated directly to or from an airport located within the area, and is operated so as not to hamper or endanger other authorized activities;

(3) That flight is specifically authorized under a clearance from ATC;

(4) Enroute operation is conducted through the area because VFR flight around or above the area is impracticable because of weather, terrain, or other considerations, and prior notice has been given to the ATC facility specified in the NOTAM; or

(5) That aircraft is carrying properly accredited news media representatives, or persons officially concerned with the incident or event which generated the NOTAM, the flight is conducted in accordance with the minimum safe altitudes in § 91.121 and above the altitudes being used by aircraft directly involved in the incident or event unless otherwise authorized by the responsible agency, and the operator has filed with the ATC facility specified in the NOTAM a flight plan which includes at least:

(i) The aircraft identification, type and color;

(ii) Radio communication frequencies to be used;

(iii) Proposed time of entry and departure from the designated area;

(iv) Name of the news media or purpose of the flight;

(v) Any other perinent information requested by ATC.

Origin: FAR 91.91, 91.102 and 91.104
Changes:
1. Three related sections have been combined into one.
2. In proposed § 91.145(d)(3), the allowance for operations in flight restricted areas if on an IFR clearance (present § 91.91(b)(3)) is changed to allow any flight authorized under an ATC clearance.
3. Changes in language with no substantive changes intended.

Subpart C—Instrument Flight Rules

NOTE.—This Subpart incorporates all of the regulations relating to instrument flight (including Category II operations) which are scattered throughout present Part 91.

§ 91.201 Applicability.

This Subpart prescribes rules, in addition to the rules in Subparts A and B, for persons operating aircraft in less than VFR weather conditions or on an IFR flight plan with an appropriate ATC clearance.

Origin: NEW

§ 91.203 ATC clearance and flight plan required.

No person shall operate an aircraft in controlled airspace under IFR unless:

(a) He has filed an IFR flight plan; and

(b) He has received an appropriate ATC clearance.

Origin: § 91.115
Comment: This section is not a restatement of proposed § 91.201. Proposed § 91.201 states that a person must abide by Subpart C when operating on an IFR flight plan and an appropriate ATC clearance. This section sets forth the requirement for a flight plan and clearance to operate under IFR in controlled airspace.
Changes: None

§ 91.205 Equipment requirements.

No person shall operate a powered civil aircraft with a standard category U.S. airworthiness certificate under IFR unless it contains, in addition to the instruments and equipment required by § 91.15, the following operable instruments and equipment:

(a) A two-way radio communication system appropriate to the ATC facilities with which contact must be maintained;

(b) Radio navigation equipment appropriate to the radio navigational facilities to be used;

(c) Gyroscopic rate-of-turn indicator, except on the following aircraft:

(1) Large airplanes with a third attitude instrument system usable through flight attitudes of 360 degrees of pitch and roll and installed in accordance with § 121.305(j) of this Chapter; and

(2) Rotorcraft, type cetificated under Part 29 of this Chapter, with a third attitude instrument system usable through flight attitudes of †80 degrees of pitch and ¢†120 degrees of roll and installed in accordance with section 29.1303(g) of this Chapter.

(d) A slip-skid indicator;

(e) A sensitive altimeter adjustable for barometric pressure;

(f) A digital clock with hour, minute, and second displays, or a clock with a sweep-second hand;

(g) A generator or alternator of adequate capacity;

(h) A gyroscopic attitude indicator (artificial horizon);

(i) A gyroscopic direction indicator (Directional gyro or equivalent); and

(j) If VOR navigational equipment is required under paragraph (b) of this section, aircraft operating within the 50 states or the District of Columbia, at or above 24,000 feet MSL, must be equipped with an approved distance measuring equipment (DME). When DME required by this paragraph fails at and above 24,000 feet MSL, the pilot in command of the aircraft shall notify ATC immediately, and may then continue operations at and above 24,000 feet MSL to the next airport of intended landing at which repairs or replacement of the equipment can be made.

Origin: §91.33(d) and (e)
Changes:
1. The IFR instrument and equipment listing has been separated from the basic equipment listing in Subpart A.
2. The communications radio and navigational radio requirements have been separated.
3. The term "bank and pitch indicator" has been changed to "attitude indicator."
4. The acceptability of an alternator in lieu of a generator is incorporated.

§ 91.207 VOR equipment check for IFR operations.

(a) No person shall operate a civil aircraft under IFR using the VOR system of radio navigation unless the VOR equipment of that aircraft—

(1) Is maintained, checked, and inspected under an approved procedure; or

(2) Has been operationally checked within 30 days before flight in accordance with one of the procedures specified in paragraphs (b) through (f) of this section and found to be within the stated permissible bearing error.

(b) If dual system VOR (units independent of each other except for the antenna) is installed in the aircraft, the person checking the equipment may check one system against the other. He shall tune both systems to the same VOR ground facility and note the indicated bearings to that station. The maximum permissible variation between the two indicated bearings is 4 degrees.

(c) An FAA operated or approved test signal or a test signal radiated by a certificated and appropriately rated radio repair station or, outside the United States, a test signal operated or approved by appropriate authority may be used to check the VOR equipment (the maximum permissible bearing error is plus or minus 4 degrees).

(d) A point on an airport surface designated as a VOR system checkpoint by the Administrator or, outside the United States, by appropriate authority may be used for the required check (the maximum permissible bearing error is plus or minus 4 degrees).

(e) An airborne checkpoint designated by the Administrator or, outside the United States, by appropriate authority may be used for the required check (the maximum permissible bearing error is plus or minus 4 degrees).

(f) The required operational check may be performed in flight in the following manner—

(1) Select a VOR radial that lies along the centerline of an established VOR airway;

(2) Select a prominent ground point along the selected radial preferably

V 4 4 / 1 5 J A 2 2 7 9 UMI

more than 20 miles from the VOR ground facility and maneuver the aircraft directly over the point at a reasonably low altitude; and

(3) Note the VOR bearing indicated by the receiver when over the ground point (the maximum permissible variation between the published radial and the indicated bearing is 6 degrees).

(g) Each person making the VOR operational check shall enter the date, place, bearing error, and his signature in the aircraft log or other permanent record. In addition, if a test signal radiated by a repair station, as specified in paragraph (c) of this section, is used, an entry must be made in the aircraft log or other permanent record by the repair station certificate holder or his representative certifying to the bearing transmitted by the repair station for the check and the date of transmission.

Origin: § 91.25
Changes:
1. The requirement for checking VOR equipment accuracy is extended from ten days to 30 days, with the checks within the preceding ten hours of flight time deleted. This change is justified for the following reasons: (1) The quality of VOR equipment has improved considerably since this regulation was adopted (many sets now meet or exceed TSOs); (2) Most aircraft operated under IFR are, a good part of the time, in a radar environment wherein ATC can advise the pilot of deviations indicative of dangerous bearing errors in VOR equipment; and (3) Pilots routinely check VOR equipment accuracy on a flight-by-flight basis without even thinking about it.
2. The listing on a priority basis of acceptable methods for making the required check under present paragraph 91.25(b) has been eliminated. Under proposed section 91.207, each method is equally acceptable.

§ 91.209 Fuel requirements.

No person shall operate a civil aircraft in IFR conditions unless it carries enough fuel (considering weather reports and forecasts, and weather conditions observed by the pilot in command) to—

(a) Complete the flight to the first airport of intended landing;

(b) Fly from that airport to the alternate airport, if an alternate airport is required by § 91.211; and

(c) Fly thereafter for 45 minutes at normal cruising speed.

Origin: § 91.23
Changes:
1. The provision relieving a pilot from carrying fuel to allow cruising to the alternate if certain weather minimums exist at the original destination has been placed in proposed § 91.211, Alternate Airport. Paragraph (b) above carries out this change.
2. Minor changes in language with no substantive change intended.

§ 91.211 Alternate airport.

(a) *Alternate Airport Requirement.* An alternate airport must be specified in an IFR flight plan unless:

(1) FAR Part 97 prescribes a standard instrument approach for the airport of first intended landing; and

(2) The weather conditions at that airport from two hours before until two hours after the estimated time of arrival are forecast to be—

(i) Ceiling at least 3,000 feet; and

(ii) Visibility at least three miles, or two miles more than the lowest authorized landing minimum visibility, whichever is greater.

(b) *Alternate Airport Weather Minimums.* Unless otherwise authorized by the Administrator, an airport may not be specified as an alternate airport in an IFR flight plan unless current weather forecasts indicate that, at the estimated time of arrival at that airport, the ceiling and visibility at that airport will be at or above the following:

(1) If an instrument approach procedure has been published in FAR Part 97 for that airport, the alternate airport minimums specified in that procedure shall apply. If none are so specified, the following shall apply:

(i) For a precision approach—ceiling 600 feet and visibility 2 statute miles; and

(ii) For a non-precision approach—ceiling 800 feet and visibility 2 statute miles.

(2) If no instrument approach procedure has been published in FAR Part 97 for that airport, the ceiling and visibility minimums are those allowing descent from the MEA, approach, and landing under basic VFR.

Origin: § 91.83(a)(9), (b) and (c)
Changes:
1. The alternate airport rules have been separated from the flight plan section, and brough to this new section.
2. The weather conditions which must prevail in order not to need an alternate airport have been simplified. By changing from a ceiling of at least 1,000 feet above the lowest MEA, MOCA, or altitude prescribed for the initial approach segment to a ceiling of at least 3,000 feet, the new regulation may require a little better weather in a few cases and permit a little worse in a few others, but it is much easier to understand.

§ 91.213 Minimum altitudes.

Except as necessary for takeoff and landing, or unless otherwise authorized by the Administrator, no person shall operate an aircraft under IFR below:

(a) The applicable minimum altitude prescribed in FAR Parts 95 and 97. However, if both a MEA and a MOCA are prescribed for a route or route segment, a pilot may operate an aircraft below the MEA down to, but not below, the MOCA when within 25 statute miles of the VOR concerned (based on the pilot's reasonable estimate of that distance).

(b) If no applicable minimum altitude is prescribed in those Parts—

(1) In the case of operations over an area designated as a mountainous area in FAR 95, an altitude of 2,000 feet above the highest obstacle within a horizontal distance of 5 statute miles from the course to be flown; or

(2) In any other case, an altitude of 1,000 feet above the highest obstacle within a horizontal distance of five statute miles from the course to be flown.

Origin: § 91.119(a)
Changes:
1. Minor changes in language and organization with no substantive changes intended.

§ 91.215 Cruising altitude or flight level

Origin: § 91.121
Changes: None

§ 91.217 Course to be flown.

Unless otherwise authorized by ATC, no person shall operate an aircraft within controlled airspace, under IFR, except as follows:

(a) On a Federal airway, along the centerline of that airway.

(b) On any other route, along the direct course between the navigational aids or fixes defining that route.

However, this section does not prohibit maneuvering the aircraft to pass well clear of other air traffic or the maneuvering of the aircraft, in VFR conditions, to clear the intended flight path both before and during climb or descent.

Origin: § 91.123
Changes: None

§ 91.219 Climb enroute.

Climb to a higher minimum IFR altitude shall begin immediately after passing the point beyond which that minimum altitude applies, except that, when ground obstructions intervene, the point beyond which the higher minimum altitude applies shall be crossed at or above the MCA.

Origin: § 91.119(b)
Changes: None

§ 91.221 Instrument approach procedures for civil airports (Not applicable to Category II operations.)

(a) *Standard Instrument Approaches.* When an instrument letdown to an airport is necessary, each person operating an aircraft under IFR shall use a standard instrument approach procedure perscribed for that airport by FAR Part 97, ulness otherwise authorized by the Administrator (including ATC).

(b) *Use of Radar and Operation on Unpublished Routes.* (1) A pilot is authorized to use radar (where it is approved for ATC purposes) not only for surveillance and precision radar approaches, but also for instrument approaches predicated on other types of

radio navigational aids. Radar vectors may be authorized to provide course guidance through the segments of an approach procedure to the final approach fix or position.

(2) When an approach clearance is received, a pilot operating on an unpublished route or being radar vectored shall, in addition to complying with the minimum altitudes in § 91.213, maintain his last assigned altitude unless a different altitude is assigned by ATC or until the aircraft is established on a segment of an instrument approach procedure or published route. After the aircraft is so established, published altitudes apply to descent within each succeeding route or approach segment unless a different altitude is assigned by ATC. Upon reaching the final approach fix or position, the pilot may either complete his instrument approach in accordance with the procedure approved for the facility, or may continue a surveillance or precision radar approach to a landing.

(c) *ILS Approaches with Inoperative or Unused Components.* A pilot is authorized by FAR Part 97 to make an ILS approach when a certain component or components of the ILS system is inoperative, unusable, or not utilized. When an approcah is made under these circumstances, the straight-in minimums shall be raised in accordance with the appropriate table in Part 97. If more than one component or aid is not utilized, each prescribed minimum is raised to the highest minimum specified for the absence of any one of the aids not utilized.

(d) *Limitations on Procedure Turns.* In the case of a radar initial approach to a final approach fix or position, or a timed approach from a holding fix, or where the procedure specifies "NOPT" or "FINAL," no pilot may make a procedure turn unless, when he received his final approach clearance, he so advises ATC.

Origin: § 91.116(a), (f), (g) and (h); § 91.117(a) and (c).
Changes:
1. The conversion tables describing changes in landing minimums if ILS ground components are inoperative or unused have been deleted. We recommend these tables be placed in Part 97 and made available in other published material, as is done presently for helicopters.
2. Reference to use of radio ranges for ADF procedures is deleted.
3. Some changes in language with no substantive changes intended.

§ 91.223 Descent below minimum descent altitude (MDA) and decision height (DH); and IFR landing minimums at civil airports (Not applicable to Category II operations).

(a) Unless otherwise authorized by the Administrator, no person shall operate an aircraft using an instrument approach procedure prescribed in FAR Part 97 below the minimum descent altitude or continue an approach below the decision height unless:

(1) The aircraft is in a position from which a normal approach to the runway of intended landing can be made; and

(2) The approach threshold of that runway, or approach lights or other markings identifiable with the approach end of the runway are clearly visible to the pilot.

If, upon arrival at the missed approach point or decision height, or at any time thereafter, any of the above requirements are not met, the pilot shall immediately execute the prescribed missed approach procedure.

(b) No person operating an aircraft (except a military aircraft of the United States) in accordance with a standard instrument approach procedure prescribed in FAR Part 97 shall land that aircraft unless the flight visibility is at or above the landing minimum prescribed in that Part for the procedure used, unless otherwise authorized by the Administrator.

(c) *Comparable Values of RVR and Ground Visibility.* If RVR minimums are prescribed in an instrument approach procedure, but RVR is not reported for the runway of intended operation, the RVR minimum shall be converted to flight visibility using published tables, and observed as the applicable minimum visibility for landing.

Origin: §§ 91.116 (b) and (e), 91.117 (a) and (b)
Changes:
1. The adjective "flight" has been added to the visibility requirements. A pilot cannot legally land unless the *flight* visibility is at or above the landing minimum prescribed, and if RVR minimums are prescribed but RVR is not reported for the runway of intended operation, the RVR minimum is converted to *flight* visibility "in accordance with published tables and observed as the applicable visibility minimum . . .". Except in the case of converting RVR minimums, specifying flight visibility is not a significant change because decisions in several enforcement cases indicate that flight visibility, rather than ground visibility, is intended in the present regulations. In the case of converting RVR minimums, the regulation is specific in stating that it shall be converted to *ground* visibility. Changing this to flight visibility is a significant change.
2. Reference to landing minimums stated in terms of ceiling and visibility is deleted.
3. The conversion chart from RVR to miles has been omitted, with the recommendation that it be inserted in FAR 97 and made available to pilots in other printed material.
4. Some changes in language with no substantive changes intended.

§ 91.225 Military airports: takeoff and landing under IFR.

Unless otherwise prescribed by the Administrator, each person operating a civil aircraft under IFR into, or out of, a military airport shall comply with the instrument approach procedures and the takeoff and landing minimums prescribed by the military authority having jurisdiction on that airport.

Origin: § 91.116(d)
Changes: None

§ 91.227 Radio communications.

The pilot in command of each aircraft operated under IFR in controlled airspace shall have a continuous watch maintained on the appropriate frequency and shall report by radio as soon as possible.

(a) The time and altitude of passing each designated reporting point, or the reporting points specified by ATC, except that while the aircraft is under radar control, only the passing of those reporting points specifically requested by ATC need be reported;

(b) Any unforecast weather conditions encountered; and

(c) Any other information relating to the safety of flight.

Origin: § 91.125
Changes: None

§ 91.229 Two-way radio communications failure.

Each pilot who experiences a two-way radio communications failure while in flight under IFR shall comply with the rules of this section.

(a) *VFR Conditions.* If the failure occurs in VFR conditions, or if VFR conditions are encountered after the failure, the pilot shall continue flight under VFR and land as soon as is practicable.

(b) *IFR Conditions.* If the failure occurs in IFR conditions, or if paragraph (a) of this section cannot be complied with, the pilot shall continue flight according to the following:

(1) *Route.* (i) By the route assigned in the last ATC clearance received and acknowledged;

(ii) If being radar vectored, by the direct route from the point of radio failure to the fix, route, or airway specified in the vector clearance;

(iii) In the absence of an assigned route, by the route that ATC has advised may be expected in a further clearance; or

(iv) In the absence of an assigned rout or route which ATC has advised may be expected, by the route filed in the flight plan.

(2) *Altitude.* At the highest of the following altitudes or flight levels for the route segment being flown:

(i) The altitude or flight level assigned in the last ATC clearance received and acknowledge;

(ii) The minimum altitude as prescribed in § 91.211 for IFR operations

V 4 4 / 1 5 JAN 22 79 UMI

(converted, if appropriate, to minimum flight level); or

(iii) The altitude or flight level ATC has advised may be expected in a further clearance.

(3) *Leaving a Holding Fix.* If holding instructions have been received, the pilot shall leave that holding fix at the expect-further-clearance time received, or, if an expected approach clearance time has been received he shall leave the holding fix in time to arrive over the fix from which the approach begins as close as possible to the expected approach clearance time.

(4) *Descent for Approach.* The pilot shall begin descent from the enroute altitude or flight level upon reaching the fix from which the approach begins, but not before:

(i) The expect-approach-clearance time (if received); or

(ii) If no expect-approach-clearance time has been received, at the estimated time of arrival shown on the flight plan, as amended by ATC.

Origin: § 91.127
Changes:
1. Minor changes in language with no substantive change intended.

§ 91.231 Radio malfunction reports.

(a) The pilot in command of each aircraft operated in controlled airspace under IFR shall report immediately to ATC any of the following malfunctions of equipment occurring in flight:

(1) The loss of VOR, TACAN, ADF, RNAV equipment, or low frequency navigation receiver capability.

(2) Complete or partial loss of ILS receiver capability.

(3) Impairment of air/ground communications capability.

(b) In each report required by paragraph (a) of this section, the pilot in command shall include the—

(1) Aircraft identification;

(2) Equipment affected;

(3) Degree to which the capability of the pilot to operate under IFR in the ATC system is impaired; and

(4) Nature and extent of assistance he desires from ATC.

Origin: § 91.129
Changes:
1. RNAV has been added to reportable equipment.

§ 91.233 Category II operations.

(a) *General Operating Rules*

(1) No person shall operate a civil aircraft in a Category II operation unless:

(i) The pilot flight crew of the aircraft consists of a pilot in command and a second in command who hold the appropriate authorization and ratings prescribed in § 61.3 of FAR Part 61;

(ii) Each flight crew member has adequate knowledge of and familiarity with the aircraft and the procedures to be used by him; and

(iii) The instrument panel in front of the pilot who is controlling the aircraft has appropriate instrumentation for the type of flight control guidance system which is used.

(2) No person shall conduct a Category II operation in a civil aircraft unless each ground component required for that operation and the related airborne equipment is installed and operating, unless otherwise authorized by the Administrator. The ground components are localizer, glide slope, outer marker, middle marker, inner marker, approach lights, high intensity runway lights, touchdown zone lights, centerline lighting and marking, and a runway visual range system for the touchdown zone. A compass locator or precision radar may be substituted for the outer or middle marker. The inner marker is not required if the height above touchdown (HAT) is to be 150 feet or greater, or if the airplane has an approved radio altimeter as provided in Appendix A or this Part.

(3) No person may operate an aircraft in a Category II operation below the authorized decision height unless:

(i) The aircraft is in a position from which a normal approach to the runway of intended landing can be made; and

(ii) The approach threshold of that runway, or the approach lights or other markings identifiable with the approach end of the runway are clearly visible to the pilot.

If upon arrival at the authorized decision height, or at any time thereafter, any of the above requirements are not met, the pilot shall immediately execute the appropriate missed approach procedure. For the purposes of this paragraph, the authorized decision height is the decision height prescribed for the approach, authorized for the pilot in command, or for which the aircraft is equipped, whichever is higher.

(4) No person shall operate a civil aircraft in a Category II operation conducted by the holder of a certificate issued under FAR Part 121 unless the operation is conducted in accordance with that certificate holder's operations specifications.

(b) *Category II Manual.* (1) No person shall operate a civil aircraft of United States registry in a Category II operation unless:

(i) There is available in the aircraft a current approved Category II manual for that aircraft which meets the requirements in Appendix A of this Part; (ii) The operation is conducted in accordance with the procedures, instructions, and limitations in that manual; and

(iii) The instruments and equipment listed in the manual which are required for particular Category II operation have been inspected and maintained in accordance with the maintenance program contained in that manual.

(2) Each operator shall keep a current copy of the approved manual at its principal base of operations, and shall make it available for inspection upon request of the Administrator.

(c) *Category II Instruments and Equipment.* For Category II operations, the instruments and equipment specified in § 91.205 and Appendix A of this Part are required.

(d) *Authorization of Certain Category II Operations.* The Administrator may issue a certificate of authorization permitting deviations from the requirements of paragraphs (a), (b) and (c) of this section for the operation of small airplanes, identified as Category A aircraft in FAR part 97 (§97.3), in Category II operations, if he finds that the proposed operation can be safely conducted under the terms of that certificate. Such authorization does not permit the operation of aircraft carrying persons or property for compensation or hire.

(e) Except for paragraph (a)(4), this section does not apply to operations conducted by the holder of a certificate issued under FAR Part 121.

Origin: §§ 91.2, 91.6, 91.33 *(f), and* 91.34
Changes:
1. In proposed 91.233(a)(2) [present §91.6(b)], the term "height above touchdown (HAT)", is used instead of "decision height."
2. Minor changes in language with no substantive changes intended.

Subpart D—Special Flight Operations

NOTE.—This is a new Subpart D, not to be confused with present Subpart D, Operations of Large and Turbine-Powered Multi-Engine Airplanes.

Proposed Subpart D incorporates regulations in present Part 91 governing operations which go beyond the common, everyday kind of aircraft use. Aerobatic flight; aircraft flight test; flight instruction, simulated instrument flight, and certain pilot flight tests; towing gliders; and towing other than gliders are included in this Subpart.

§91.301 Applicability.

This Subpart prescribes rules in addition to those in Subparts A and B of this part for certain kinds of flight operations.

Origin: New

§ 91.303 Aerobatic flight.

(a) No person shall operate an aircraft in aerobatic flight—

(1) Over any congested area of a city, town or settlement;

(2) Over any open air assembly of persons;

(3) Within a control zone or a Federal Airway, except as specifically authorized by the Administrator;

(4) Below an altitude of 1,500 feet above the surface; or

(5) When the flight visibility is less than three miles.

(b) No person shall operate an aircraft carrying any person (other than a crew member) in aerobatic flight unless each occupant is wearing an approved parachute.

(c) Paragraph (b) does not apply to:

(1) Flight tests for pilot certificates or ratings; or

(2) Spins, or other flight maneuvers required by the regulations for any pilot certificate or rating, when given by—

(i) A certificated flight instructor, or

(ii) An airline transport pilot instructing in accordance with FAR 61.169.

(d) For the purposes of this section, "approved parachute" means—

(1) A parachute manufactured under a type certificate or a technical standard order (C-23 series); or

(2) A personnel-carrying military parachute identified by a military designation or specification number.

Origin: § 91.15(c), *(d) and (e);* § 91.71
Changes:
1. The word "acrobatic" is changed to "aerobatic".
2. The rules covering aerobatic flight in §§ 91.15 and 91.71 have been combined in one section.
3. The two (different) definitions of aerobatic flight in present §§ 91.15 and 91.71 have been omitted, with the recommendation that the definition is present § 91.15(c) be inserted in FAR Part 1 as the more specific of the two.

§ 91.305 Aircraft flight test areas.

No person shall flight test an aircraft except over open water or sparsely populated areas having light air traffic.

Origin: § 91.93
Changes: None

§ 91.307 Flight instruction, simulated instrument flight, and certain pilot flight tests.

(a) *Dual Controls.* No person shall operate a civil aircraft for flight instruction unless that aircraft is equipped with functioning dual flight controls, unless the person receiving instruction holds at least a Private Pilot Certificate with category, class, and, if appropriate, type ratings for that aircraft.

(b) *Simulated Instrument Flight.* No person shall operate a civil aircraft in simulated instrument flight unless:

(1) An appropriately rated pilot occupies the other control seat as safety pilot;

(2) The safety pilot has adequate vision forward and to each side, or a competent observer in the aircraft adequately supplements the vision of the safety pilot; and

(3) That aircraft is equipped with functioning dual controls, unless the pilot manipulating the controls is fully qualified to act as pilot in command of that aircraft.

(c) *Lighter-than-air Aircraft.* The dual control requirement in paragraphs (a) and (b), above, do not apply to airships and free balloons.

(d) *Airline Transport Pilot Tests and Instruction.* No person shall operate a civil aircraft for a flight test for an Airline Transport Pilot certificate or class or type rating, or an FAR Part 121 proficiency flight check unless the pilot sitting at the controls, other than the pilot being tested, is fully qualified to act as pilot in command of that aircraft.

Origin: § 91.21
Changes:
1. Dual controls would not be needed if the person receiving instruction holds at least a private pilot certificate with category and class (type, if appropriate) ratings appropriate to the aircraft being used.
2. Dual controls would not be needed for simulated instrument flight if the person operating the aircraft is qualified to act as pilot in command of the aircraft being used.

§ 91.309 Parachuting.

(a) *Parachute Jumps.* Except in an emergency, no pilot in command shall allow, and no person shall make a parachute jump from an aircraft within the United States, except in accordance with FAR Part 105.

(b) *Parachutes.* No pilot of a civil aircraft may allow a parachute that is available for emergency use to be carried in that aircraft unless it is an approved type and—

(1) If a chair type (canopy in back), it has been packed by a certificated and appropriately rated parachute rigger within the preceding 120 days; or

(2) If any other type, it has been packed by a certificated and appropriately rated parachute rigger—

(i) Within the preceding 120 days, if its canopy, shrouds, and harness are composed exclusively of nylon, rayon, or other similar synthetic fiber or materials that are substantially resistant to damage from mold, mildew, or other fungi and other rotting agents propagated in a moist environment; or

(ii) Within the preceding 60 days, if any part of the parachute is composed of silk, pongee, or other natural fiber, or materials not specified in subdivision (i) of this paragraph.

Origin: § 91.15 (a) and (b)
Changes:
1. The regulation is amended to require that a parachute available for emergency use be "certified" by the packer who has repacked it within 60 days. This is common practice, and is important to the condition of the chute.
2. The provision for longer packing periods for chair-type chutes is continued, although we are skeptical that any have been installed in airplanes for the past 30 years.

§ 91.311 Towing: Gliders.

Origin: § 91.17
Changes: None

§ 91.313 Towing: Other than gliders.

(a) No pilot of a civil aircraft shall tow anything with that aircraft (other than under § 91.311) except in accordance with the terms of a certificate of waiver issued by the Administrator.

(b) An application for a certificate of waiver under this section is made on a form and in a manner prescribed by the Administrator, and must be submitted to the FAA Flight Standards District Office having jurisdiction over the area where the towing operation will take place.

Origin: § 91.18
Changes:
1. The application for a waiver is submitted to the FAA office having jurisdiction over the area where the towing operation will take place, rather than the "nearest" office as in present § 91.18. It is unclear in the present regulation what the FAA office must be "nearest" to.

Subpart E—Special Regulations for Commerical Operations

NOTE.—This is a new Subpart E, not to be confused with present Subpart E, Operating Noise Limits.

This Subpart incorporates several regulations in present Part 91 with very few changes. The regulations in this Subpart are retained in Part 91 because some commerical operations are not covered by other parts of the regulations, for example, local sight-seeing flights. Therefore, the regulations regarding emergency exits, over-water operations, and landing lights for aircraft carrying passengers for hire must remain in Part 91. Also, air carrier aircraft occasionally engage in Part 91 operations, so the requirement for flight and cockpit voice recorders belongs in this Part rather than in Part 121.

§ 91.401 Applicability.

This Subpart prescribes regulations in addition to other applicable regulations of this Part and Parts 121, 123, 127 and 135 for holders of air carrier or commerical operator certificates, and for other person operating aircraft in passenger-carrying operations for hire.

Origin: New

§ 91.403 Emergency exits for airplanes carrying passengers for hire.

Origin: § 91.47
Changes: None

§ 91.405 Flight recorders and cockpit voice recorders.

Origin: § 91.35
Changes: None

V 4 4 / 1 5 J A 2 2 7 9 UMI

§ 91.407 Over-water operations.

Except as necessary for takeoff and landing, no one shall operate a powered civil aircraft with a standard category U.S. airworthiness certificate for hire over water beyond, poweroff gliding distance from shore without approved flotation gear readily available to each occupant, and at least one pyrotechnic signalling device.

Origin: § 91.33 (a) and (b)(11)
Changes:
1. An exception is inserted for airports where takeoffs and landings over water are a necessity on some runways.

§ 91.409 Night operations.

No person shall operate a powered civil aircraft with a standard category U.S. airworthiness certificate at night for hire unless it has installed at least one electric landing light.

Origin: § 91.33 (a) and (c)(4)
Changes: None
Comment: This is an excellent example of an archaic rule left over from the 1920's, when an electric landing light was really something, and there were few lighted airports. Maybe it is the sort of thing which should be pulled out on "zero-based" rulemaking, even though electric landing lights are nice. They are rather common today, and it would be very unusual to buy a new or recently manufactured airplane (which is to be used to carry persons for hire) without at least one.

§ 91.411 Formation flights with passengers for hire.

No person shall operate an aircraft, carrying passengers for hire, in formation flight.

Origin: § 91.65(c)
Comments: While this is a worthwhile regulation, a clarification is needed of what constitutes "formation flight." It is not uncommon for two or more aircraft carrying a large charter group to cruise in sight of each other.
Changes: None

Subpart F—Operation of Certain Aircraft

NOTE.—This Subpart incorporates the regulations in present Part 91 which relate only to the operation of some kinds of aircraft which the "average" pilot isn't concerned with. Unfortunately, or mabye unavoidably, reorganizing Part 91 with respect to the regulations placed in this Subpart is somewhat lacking in consistancy. For instance, the regualtion regarding operations of aircraft on water might logically be included in this Subpart, but it is in Subpart A. Also, all regulations relating specifically to helicopters might be included in this Subpart, but they aren't.

§ 91.501 Applicability.

This Subpart prescribes rules in addition to other rules of this Part for operators of non-standard category aircraft, transport category aircraft, turbo-jet powered airplanes, and certain other civil aircraft.

Origin: New

§ 91.503 Experimental aircraft.

Origin: § 91.42
Changes: None

§ 91.505 Limited category aircraft.

No person shall operate a limited category civil aircraft carrying persons or property for compensation or hire.

Origin: § 91.40
Changes: None

§ 91.507 Provisionally certificated civil aircraft.

Origin: § 91.41
Changes: None

§ 91.509 Restricted category civil aircraft.

Origin: § 91.39
Changes: None, except the date in present § 91.39(f) should be deleted.

§ 91.511 Transport category civil airplanes: weight limitations.

Origin: § 91.37
Changes: None

§ 91.513 Transport category airplanes: aural speed warning device.

No person shall operate a transport category airplane in air commerce unless it is equipped with an aural speed warning device which complies with FAR 25.1303(c)(1).

Origin: § 91.49
Changes:
1. Minor changes in the heading and language with no substantive change intended.

§ 91.515 Transport category airplanes: pilot heat indication system.

Origin: § 91.50
Changes: None

§ 91.517 Turbojet-powered civil airplanes: altitiude alerting system or device.

Origin: § 91.51
Changes: None

§ 91.519 Turbojet-powered civil airplanes: use of flaps.

Except when necessary for training or certification, the pilot in command of a civil turbojet-powered airplane shall use, as a final flap setting, the minimum certificated landing flap setting set forth in the approved performance information in the Airplane Flight manual for the applicable conditions. However, each pilot in command has the final authority and responsibility for the safe operation of his airplane, and he may use a different flap setting approved for that airplane if he determines that it is necessary in the interest of safety.

Origin: § 91.85(c)
Changes:
1. Deletion of an expired deadline date.

§ 91.521 Authorization for ferry with one engine inoperative.

(a) *General.* An air carrier, commercial operator of large aircraft, or a person operating a large aircraft under Subpart D of this Part [This references Subpart D of present Part 91, not proposed Subpart D] may conduct a ferry flight of a four-engine airplane, or a turbine engine powered airplane equipped with three engines, with one engine inoperative to a base for the purpose of repairing that engine subject to the following:

(The rest is the same as present § 91.45 beginning with § 91.45(a)(1).)

Origin: § 91.45
Changes:
1. Those operators governed by present Subpart D are included in this privilege.

§ 91.523 Sonic boom.

Origin: § 91.55
Changes: None

§ 91.525 Increased maximum certificated weights for certain airplanes operated in Alaska.

Origin: § 91.38
Changes: None

Subpart G—Aircraft Maintenance, Inspections, Preventive Maintenance, Alterations, and Equipment Tests

NOTE.—This Subpart incorporates all of the regulations in present Subpart C without substantive changes. The order has been rearranged a little. Also, the provision in present Part 43 that the holder of a private pilot certificate may perform preventive maintenance has been put in this Subpart.

§ 91.601 Applicability.

(a) This Subpart prescribes rules governing specific equipment tests, and the maintenance, inspection, preventive maintenance, and alteration of United States registered civil aircraft operating anywhere.

(b) Sections 91.607(a), 91.609, 91.611, 91.613, 91.619, and 91.623 do not apply to an aircraft maintained in accordance with a continuous airworthiness maintenance program as provided in FAR Parts 121, 127 and 135.

Origin: § 91.161
Changes:
1. The term "inspection" is removed from the overall definition of "maintenance." Parts 1 and 43 should be amended accordingly.
2. "Equipment Tests" has been added to the title and in the text of paragraph (a).
3. Minor changes in language with no substantive changes intended.

§ 91.603 General.

The owner or operator of an aircraft has the primary responsibility for ensuring that the aircraft is maintained in an airworthy condition, including compliance with required inspections and with the Airworthiness Directives prescribed in FAR Part 39. In addition, he shall ensure that maintenance personnel make appropriate entries in the aircraft and maintenance records indicating the aircraft has been approved for return to service.

Origin: §§ 91.163(a) and 91.165
Changes:
1. Minor changes in language with no substantive changes intended.

§ 91.605 Maintenance and inspections: who may perform.

(a) No person shall perform maintenance, inspections, preventive maintenance, or alterations on an aircraft other than as prescribed in this Subpart and other applicable FAR's including Part 43.

(b) The holder of a pilot certificate issued under FAR Part 61 may perform preventive maintenance on an aircraft he owns or operates which is not used in air carrier service. The items classified as preventive maintenance are listed in Appendix —— of this Part.

Origin: § 91.163(b) and FAR 43.3(h)
Changes:
1. The authority for a pilot to perform preventive maintenance is brought to Part 91.
2. List of items classified as preventive maintenance is to be added as an appendix to Part 91.
3. Minor changes in language with no substantive changes intended.

§ 91.607 Maintenance required.

(a) *Repair, Replacement or Overhaul.* The aircraft owner or operator shall ensure that known unairworthy conditions of that aircraft (including appliances) have been corrected as prescribed in FAR Part 43 before operating, or knowingly permitting any person to operate, that aircraft.

(b) *Rotorcraft Maintenance Manual.* No person shall operate a rotorcraft for which a Rotorcraft Maintenance Manual containing an "Airworthiness Limitations" section has been issued, unless the replacement times, inspection intervals, and related procedures prescribed in that section of the manual are complied with.

Origin: §§ 91.165 and 91.163 (c)
Changes:
1. The material in paragraph (a) has been reslanted toward maintenance and repair, rather than inspections. Inspection requirements are in proposed §§ 91.603 and 91.609.

§ 91.609 Inspections required.

Origin: § 91.169
Changes: None

§ 91.611 Progressive inspections.

Origin: § 91.171
Changes: None

§ 91.613 Altimeter system tests and inspections.

Origin: § 91.170
Changes: None, except revoked paragraph (b) should be deleted and paragraph (c) designated (b).

§ 91.615 ATC transponder tests and inspections.

(a) *Tests Required.* No person shall use an ATC transponder in a United States registered civil aircraft unless, within the preceding 24 calendar months, it has been tested and inspected and found to comply with Appendix F of FAR Part 43.

(b) *Who may Test and Inspect Transponders.*

[The remainder of this section is the same as present § 91.177(b).]

Origin: § 91.177
Changes:
1. A past deadline is deleted.
2. Reference to transponders "specified in §§ 91.24(a), 121.345(c), 127.123(b) or 135.143(c)" is deleted because present § 91.24 now encompasses all transponders in U.S. registered aircraft.
3. Minor changes in language with no substantive change intended.

§ 91.617 Carrying persons after repairs or alterations.

Origin: § 91.167
Changes: None

§ 91.619 Maintenance records.

Origin: § 91.173
Changes: None

§ 91.621 Rebuilt-engine maintenance records.

Origin: § 91.175
Changes: None

§ 91.623 Transfer of maintenance records.

Origin: § 91.174
Changes: None

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

[ER 1165-2-130]

PART 282—WATER RESOURCE POLICIES & AUTHORITIES FEDERAL PARTICIPATION IN SHORE, HURRICANE, TIDAL AND LAKE FLOOD PROTECTION

AGENCY: U.S. Army Corps of Engineers.

ACTION: Final Rule.

SUMMARY: This regulation provides policies to U.S. Army Corps of Engineers Offices describing the extent of Federal involvement in projects which provide shore, hurricane, tidal and lake flood protection. The regulation is needed to update previous regulations on the subject to reflect recent changes in legislation and policy.

EFFECTIVE DATE: January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert Kaighn, Department of the Army, Corps of Engineers, Wash., D.C. 20314, ATTN: DAEN-CWR-R (202-693-6807).

SUPPLEMENTARY INFORMATION: On January 20, 1978, there was published in the FEDERAL REGISTER (43 FR 3048) a proposed regulation prescribing the policies to be followed by the U.S. Army Corps of Engineers in determining the extent of Federal participation in shore, hurricane, and tidal and lake flood protection projects. Full and careful consideration was given to all comments received and the regulation has been revised accordingly.

Several commentors indicated that the regulation was lacking in environmental policies which guide the selection of projects to be recommended. The purpose of this regulation was not to define the requirements of the planning process or environmental legislation. However, it was revised to indicate that plans selected must best serve the public interest and consider environmental and social impacts as well as economic impacts. The regulation was also revised to indicate that project proposals must be consistent, to the maximum practicable extent, with approved State Coastal Zone Management Programs. Other comments indicated that too much emphasis was placed on intensive recreation use of beaches and on continued use of automobiles by beach users. The regulation has been revised to allow for low intensity recreational uses. In addition, it recognizes the problems associated with continued use of automobiles and allows for use of public transportation as an alternative for parking facilities for privately operated automobiles.

Dated: January 2, 1979.

THORWALD R. PETERSON,
Colonel, Corps of Engineers,
Executive Director, Engineer Staff.

33 CFR is amended by adding Part 282 to read as follows:

AUTHORITY: Pub. L. 84-826, 70 Stat. 702 (33 U.S.C. 426e-426h).

§ 282.1 Purpose.

This regulation provides policies and guidelines for determining the extent of Federal participation in potential Federal projects for shore erosion control, and hurricane, abnormal tidal and lake flood protection.

§ 282.2 Applicability.

This regulation is applicable to all OCE elements and all field operating agencies having Civil Works responsibilities. The policies and guidelines set forth in this regulation are applicable to all preconstruction studies (level C and Phase I GDM) including small project studies conducted under the authority of Section 103, Pub. L. 87-874.

§ 282.3 References.

(r) EM 1160-2-101.

§ 282.4 Definitions.

As used in these regulations:
(a) "Construction costs"—the project first costs associated with initial construction or periodic nourishment (section 282.7(d)) less the cost of the lands, easements, rights-of-way and relocations, but including engineering and design and supervision and administration (E&D and S&A).
(b) "Historical shoreline"—the most seaward position of the mean high water/mean higher high water position recorded by previous surveys or interpreted from previous photographs, other historical records, or other sufficiently reliable sources to permit comparison with the present position.
(c) "Hurricane and abnormal tidal flooding"—inundation from *abnormal* rises in water levels due to hurricanes, storms and tsunami waves.
(d) "Lake flooding"—storm-induced inundation superimposed on the ordinary fluctuations of the lake level.
(e) "Periodic nourishment"—placement of sand fill at intervals of time to replenish a beach erosion control project which is eligible for Federal participation as deferred construction. (§ 282.7(d)).
(f) "Investment costs"—the total costs of intitially constructing a project including E&D and S&A, interest during construction, and the costs of lands, easements, rights-of-way, and relocations. Interest during construction is not included when benefits accrue as the project is constructed or when project construction is two years or less.
(g) "Public use"—available for use by any and all of the general public on equal terms.
(h) "Publicly owned"—ownership by a State, municipality, or other political subdivision. Federal ownership is not included within this definition.
(i) "Shore restoration and protection"—works provided to restore the shore and prevent or reduce damages caused by erosion. The terms "beach erosion control" and "shore restoration and protection" are used interchangeably. Protection of bluffs and dunes as well as beaches is included.
(j) "Public benefits"—benefits resulting from public recreational use and the prevention of damage to publicly-owned facilities such as highways, buildings, parks, boardwalks, etc.

§ 282.5 Synopsis of program legislation.

(a) *Shore Protection.*
(1) Section 2 of Pub. L. 71-520 as amended by Section 103, Pub. L. 86-645, authorized the Chief of Engineers to conduct shore erosion control studies in cooperation with appropriate agencies of various cities, counties, or States.
(2) Pub. L. 79-727 expanded the Federal role by providing for Federal aid in the construction, but not maintenance, of works for the improvement and protection of publicly-owned shores of the United States.
(3) Pub. L. 84-826, enacted in 1956, further expanded the Federal role by authorizing Federal participation in the cost of works for protection and restoration of the shores of the U.S. including private property if such protection was incidental to the protection of publicly-owned shores or if such protection would result in public benefits. It also provided for Federal assistance for periodic nourishment on the same basis as new construction, for a period to be specified by the Chief of Engineers, when it would be the most suitable and economical remedial measure. Section 156 of Pub. L. 94-587 allows the Secretary of the Army, acting through the Chief of Engineers, to extend that period to 15 years after the date of the initiation of construction if desirable.
(4) Pub. L. 87-874 increased the proportion of construction costs borne by the Federal Government and made the total cost of preauthorization studies a Federal responsibility. In addition, it provides the Secretary of the Army, acting through the Chief of Engineers, with the authority for planning and constructing small beach erosion control projects within certain limits without specific Congressional authorization. Implementing policies and procedures for this authority may be found in ER 1105-2-50.
(5) Section 111 of Pub. L. 90-483 provides the Secretary of the Army, acting through the Chief of Engineers, the authority to study, construct, and maintain projects for the mitigation of erosion damages attributable to Federal navigation works. Projects for which the Federal cost does not exceed one million dollars do not require specific Congressional authorization. This authority applies to both public and privately-owned shores along the coastal and Great Lakes shorelines. Implementing policies and procedures for this authority may be found in ER 1105-2-50. Section 215 of Pub. L. 90-483 provides authority for the Secretary of the Army acting through the Chief of Engineers, to enter into agreements providing for reimbursement to States or political subdivisions for work to be performed by them at authorized projects. The amount of reimbursement is limited to $1,000,000. Unless specifically authorized by Congress, reimbursement for work commenced by local interests subsequent to 13 August 1969 may be made only in accordance with this authority. Implementing policies and procedures may be found in ER 1165-2-18.
(6) Section 55 of Pub. L. 93-251 authorizes the provision of *technical and engineering assistance* to non-Federal public interests in developing structural and nonstructural methods of preventing damages attributable to beach erosion.
(b) *Hurricane, Abnormal Tidal and Lake Flood Protection.* The Federal interest in projects to protect against hurricane, abnormal tidal and Great Lakes flood damage is not explicitly defined by legislation. Pub. L. 84-71 enacted 15 June 1955, authorized the Secretary of the Army, in cooperation with the Secretary of Commerce and other Federal agencies concerned with hurricanes, to make studies of the Atlantic and Gulf coasts of the United States to secure data on the behavior and frequency of hurricanes and to determine means of preventing loss of life and damages to property. It did not specify the degree of Federal cost sharing for construction of protective works. However, in authorizing projects proposed in the first three of these studies, the 1958 Flood Control Act established a precedent of limiting the Federal share of investment cost to a maximum of 70 percent. In June 1978 the President proposed that cost sharing for this type project be modified to require a cash or in-kind contribution equal to 20 percent of the project investment costs.
(c) *Multiple-Purpose Projects.* Pub. L. 87-874 introduced the multiple purpose concept in shore erosion control studies by providing for surveys of coastal areas of the United States and its possessions, including the shores of the Great Lakes, in the interest of shore erosion control, hurricane protection and related purposes. Generally, costs associated with each purpose are apportioned in accordance with applicable laws and policies. However, Section 208 of the Flood Control Act of 1970 provides discretionary authority for a Federal share up to 70 percent of the construction costs for combined hurricane protection and shore erosion control projects.

§ 282.6 Program policies.

(a) *General.* It is the policy of the Corps of Engineers to undertake projects to prevent erosion and flooding of the coastal areas when those projects best serve the public interest. Selection of the plan which best serves the public interest requires the evaluation of a wide range of alternatives. Plans will be developed, evaluated and selected in accordance with the multiobjective planning framework required by ER 1105-2-200. This framework provides that planning be directed to achieve National Economic Development (NED) and Environmental Quality (EQ) as equal national objectives. Using this planning process, the EQ objective is interpreted as being the same as the definition of environmental quality contained in the National Environmental Policy Act of 1969. Thus, plans to achieve the EQ objective shoud address the broadest scope of concerns pertaining to the natural and cultural environment. The degree of Federal participation in the selected plan will be based upon the policies and requirements given in the following paragraphs.
(b) *Geographic Applicability.* Shore erosion control, hurricane, and abnormal tidal flooding authorities are applicable to the shores of the Atlantic and Pacific Oceans, the Gulf of Mexico, the Great Lakes, estuaries, and bays directly connected therewith of each of the States, the Commonwealth of Puerto Rico, and the possessions of the United States. Authority for shore erosion control activites extend only the distance up tributary streams where it can be demonstrated that the dominant causes of erosion and damage are ocean tidal action (or Gulf of Mexico and Great Lakes water motion) and wind-generated waves. They will not address erosion at upstream locations caused by stream-flows or vessels. Lake flood protection activities are generally limited to the Great Lakes.
(c) *Coastal Zone Management Plans.* Project proposals shall be consistent to the maximum practicable extent, with approved State Coastal Zone Management Programs developed under the authority of the Coastal Zone Management Act of 1972, as amended.
(d) *Beach Creation.* Existing shore erosion control authority provides for "restoration" and "protection." It does not provide for Federal cost sharing in extending a beach beyond its historic shoreline unless the extension is needed for engineering reasons to provide protection from erosion.
(e) *Shore Categories.* Five general categories of shore, based on ownership and use, and incidence and type of benefits, must be considered in determining Federal aid toward the cost of shore restoration and erosion protection. These categories, and the levels of Federal aid applicable thereto, are listed in Table 1. There are no restrictions regarding shoreline categories for hurricane, tidal, and lake flooding.

V 4 4 / 1 5 J A 2 2 7 9 UMI

TABLE 1.—*Categories of Shore and Levels of Federal Aid*

Shore category [1]	Maximum level of Federal aid	
	Construction	Maintenance
I. Federally owned	100%	100%
II. Publicly owned parks and conservation areas [2]	[4] 70%	[3] None
III. Publicly owned other than parks and conservation areas	[4] 50%	[3] None
IV. Privately owned, protection will result in public benefits [3] [4]	[4] [7] 50%	[3] None
V. Privately owned, protection will not result in public benefits susceptible of evaluation [4]	None	None

[1] See § 282.9(a)(2) below.
[2] See § 282.7(d) below, concerning periodic beach nourishment.
[3] Privately owned shores under public control, as through a sufficiently long-term lease assuring realization of public benefits throughout the economic life of the project, may be treated as Category III shores in determining Federal aid.
[4] See § 282.9(a)(6) below, concerning incidental protection of privately owned shores.
[5] Indian shores do not usually fall within categories of shore provided. The status of such lands will depend upon the particular treaty provisions pertaining to the lands under consideration and will need to be examined in each instance. Specific cases should be referred to HQDA (DAEN-CWP-E, C or W) WASH DC 20314 for guidance.
[6] Cost-sharing percentages do not apply to lands, easements and rights-of-way.
[7] Multiplied by the ratio of public benefits along Cat. IV shore to total benefits along Cat. IV shore.

(f) *Public Use.* Public use is not a condition for Federal participation in hurricane, abnormal tidal or lake flood protection projects. However, current shore erosion control law provides that "Shores other than public (i.e., privately owned) will be eligible for Federal assistance if there is a benefit such as that arising from public use. . . ." In the case of beaches used for recreation, public use means use by all on equal terms. This means that project beaches will not be limited to a segment of the public. Unless the protection of privately-owned beaches is incidental to protection of public beaches (§ 282.9(a)(6)), they must be open to all visitors regardless of origin or home area or provide protection to nearby public property to be eligible for Federal aid. Items affecting public use are discussed below.

(1) *User Fees.* A reasonable beach fee, uniformly applied to all, for use in payment of the local share of project costs is allowable. Normal charges made by concessionaires and municipalities for use of facilities such as bridges, parking areas, bathhouses and umbrellas are not construed as a charge for the use of the Federal beach project, if they are commensurate with the value of the service they provide and return only a reasonable profit. Fees for such services must be applied uniformly to all concerned and not as a prerequisite to beach use.

(2) *Parking.* Lack of sufficient parking facilities for the general public (including non-resident users) located reasonably near and accessible to the project beaches may constitute a *de facto* restriction on public access and use of such beaches, thereby precluding eligibility for Federal assistance. Generally, parking on free or reasonable terms should be available within a reasonable walking distance of the beach. Street parking is not considered acceptable in lieu of parking lots unless curbside capacity will accommodate existing and new demands. Parking should be sufficient to accommodate the lesser of the peak hour demand or the beach capacity. In some instances State and local plans may call for a reduction in automobile pollutants by encouraging public transportation. Thus, public transportation facilities may substitute for or complement parking facilities. However, reports which consider public transportation in this manner must indicate how the public transportation system would be adequate for the needs of projected beach users. In computing the public parking accommodations required, the beach users not requiring parking should be deducted from the design figure.

(3) *Access.* Reasonable public access must be provided in accordance with the recreational use objectives of the particular area.

(4) *Beach Use by Private Organizations.* Federal aid to private shores owned by beach clubs and hotels is incompatible with the intent of P.L. 84-826 if the beaches are limited to use by members or paying guests.

(5) *Public Shores With Limitations.* Publicly-owned beaches which are limited to use by residents of the community or a group of communities are not considered to be open to the general public and will be treated as private beaches (Category V, Table 1).

(g) *Improvements for Recreation.* Improvements to enhance the recreational value of shore erosion control projects such as bathhouses, access roads, toilet facilities and parking areas are a local responsibility. Provision of those facilities is not eligible for Federal aid through the Corps of Engineers programs. Costs for those facilities are considered self-liquidating and should not be included as project costs.

§ 282.7 Federal role in project development.

(a) *Preauthorization Studies.* The Corps of Engineers may undertake specific studies relating to shore erosion and hurricane, abnormal tidal and lake flood problems with the authorization of Congress, either in response to resolutions adopted by the Committee on Environment and Public Works of the United States Senate or the Committee on Public Works and Transportation of the House of Representatives, or by an Act of Congress. Studies for small projects may be initiated without specific Congressional authorization under the authority of Section 103 of Pub. L. 87-874 and Section 111 of Pub. L. 90-483. Studies are 100 percent Federally funded.

(b) *Construction.* Construction of authorized projects is a responsibility of the Corps of Engineers. However, local interests may construct portions of projects, after they are authorized by Congress, and be reimbursed by the Federal Government within a one million dollar limitation if prior approval is obtained from the Chief of Engineers (reference ER 1165-2-18 for approval of procedures and policies). If local interests desire to proceed with construction of the project, they may do so with the understanding that:

(1) Federal participation would be limited to the Federal shares of the costs of the elements constructed which are in accordance with the authorized plan,

(2) Reimbursement will be subject to future appropriation of funds applicable to the project and shall not take precedence over other pending projects of higher priority, and

(3) Local interests provide assurances that they will bear any increased costs of measures which may result from advance work, unless there are extenuating circumstances which warrant omission of this condition.

(c) *Maintenance.* Maintenance is generally a non-Federal responsibility. However, if a portion of the benefited area is in Federal ownership the Federal maintenance responsibility shall be established as the same portion as the length of Federal shoreline is to the length of total shoreline. In the case of multipurpose projects providing for navigation, particularly those which involve complex operating procedures, operation and maintenance responsibility for the entire project might best be vested in the Federal Government. In such cases, non-Federal interests should be obligated to contribute their share of costs to the Federal Government on a scheduled basis throughout the project life or to make a cash contribution of the capitalized value of the non-Federal share of the maintenance cost. Future maintenance costs are to be capitalized using the authorized discount rate.

(d) *Periodic Nourishment.* Periodic nourishment is considered "construction" for cost-sharing purposes when in the opinion of the Chief of Engineers, such periodic nourishment is found to be a more economical erosion protection measure than retaining structures such as groins or when the nourishment is expected to be of benefit to shores beyond the project limits. Thus, projects recommending periodic nourishment should not include structures which materially reduce littoral drift from reaching downdrift shores. When sand replacement is proposed as a maintenance measure, as for example when it would serve to maintain protection accompanied by structures intended to confine the benefits of the sand within a beach compartment rather than serving as a full or partial alternative to such structures, Federal aid toward its cost should not be recommended, except to the extent warranted in § 282.7(c), above. Projects with short low-profile groins included to maintain a shore alignment, but not to materially prevent, littoral drift from nourishing downdrift beaches are eligible for periodic nourishment. Federal aid for periodic nourishment may continue throughout the economic life of the project, but a specified period of time, usually the economic life of the project, must be recommended in planning reports. If there is reason to doubt the technical viability of periodic nourishment for such a period of time, a shorter period may be recommended. After that period, the project should be reexamined to determine if Federal participation in periodic nourishment is the most efficient and economic solution. Continuation of such Federal participation or other modification of the project requires additional authorization.

(e) *Work for Another Federal Agency.* Work to protect lands under the jurisdiction of another Federal agency shall be accomplished by the Corps only on a reimbursable basis, upon request from the responsible agency. Protection of Army lands used for military purposes will be accomplished with military funds, not Civil Works funds.

§ 282.8 Plan formulation and evaluation.

(a) Projects shall be formulated in accordance with policies and procedures contained in ER 1105-2-200 and related regulation describing the planning process developed to implement the principles and standards, the National Environmental Policy Act, EO 11988, EO 11990 and other requirements. Consideration shall be given to both structural and nonstructural solutions. Plan formulation should be accomplished to arrive at the best solution, considering all factors, including engineering, economic, environmental, and social.

(b) As required by ER 1105-2-200, impacts will be determined to evaluate the alternative in terms of the planning objectives. Impacts normally associated with beach erosion control and hurricane, abnormal tidal, and lake flood protection projects are:

(1) Prevention of land loss and other physical damages,

(2) Reduction in maintenance costs of existing protection works,

(3) Reduction of emergency costs to residences, businesses, and governmental entities,

(4) Increased recreational usage, and where appropriate, relief of overcrowding for existing recreational usage,

(5) Changes in maintenance costs associated with navigation projects,

(6) Employment of unemployed or underemployed labor resources,

(7) Prevention of loss of historic and scenic aspects of the environment,

(8) Changes in shore processes and equilibrium conditions,

(9) Erosion along downdrift shores,

(10) Changes in floodplain development,

(11) Changes in the extent and quantity of wetlands, and

(12) Changes in water quality and ecology in the vicinity of construction activities.

§ 282.9 Cost sharing.

(a) *Beach Erosion Control.* Federal participation in the costs of beach erosion control projects is based on shore ownership, use, type and incidence of benefits as discussed below and summarized in Table 1.

(1) *Federally-Owned Lands* are protected at Federal expense. All costs allocated to restoration and protection are to be borne fully by the Federal Government.

(2) *Publicly-Owned Shore Park and Conservation Areas* are eligible for Federal cost sharing up to 70 percent of the construction cost if *all* the following conditions are met:

(i) It is publicly owned.

(ii) It includes a zone extending landward from the mean low water line which excludes all permanent human habitation, including summer residences but not including the residences of park administrative and maintenance personnel. This zone is construed to mean any segment of the park landward of the mean low water line subject to flooding by storm tides in which destruction of natural protective features of the shore area by development is prevented, and from which development for human habitation is excluded. The purpose of this requirement is to prevent development which would be vulnerable to damage by ocean or lake waters and to eliminate hazards to human life and property.

(iii) It includes a beach suitable for recreational use.

(iv) It provides for preservation, conservation and development of the natural resources of the environment. In accordance with the overall mission or purpose of the park, the areas must be developed, operated, and maintained in a manner which preserves the desirable features and the natural resources of the locale. These resources may include areas or features in their natural condition, game preserves, natural scenic beauty, or other natural aspects which are peculiar to the environment or locale. The character of these parks may vary from extreme wilderness areas with minimum development for use by naturalists or campers to areas of intensified recreational use with full comfort, convenience, safety, and recreational facilities.

(v) It extends landward a sufficient distance to include where appropriate protective dunes, bluffs or other natural features such as swamps or low-lying areas, all of which must absorb and dissipate wave energy and flooding effects of storm tides. The landward width must be sufficient to protect development or potential development of the uplands from damage during storms of severe magnitude. Park facilities, such as roads, parking areas, bathhouses, and picnicking areas, in the park area and subjected to occasional flooding, may be permitted. The purpose of this requirement is to provide a protective buffer zone between the sea or lake and the uplands which would prevent damage of upland property and development. The buffer zone may be developed and used for recreational purposes, provided that the natural protective features of the shore area within the zone are not impaired.

(vi) It provides essentially full park facilities for appropriate public use. The meaning of essentially full park facilities would depend upon the intended conservation and recreational

V 4 4 / 1 5 J A 2 2 7 9 UMI

mission of the area. In the case of recreational beach parks intended for mass usage, full park facilities must include suitable access and bathhouse, comfort, parking, and recreational facilities adequate to insure realization of anticipated recreational benefits. In the case of park areas intended for other types of recreational use such as hunting, fishing, picnicking, camping, or nature study, park facilities as a minimum should provide suitable access and parking. Some part of the park frontage must, however, include a recreational beach to meet the requirements of the Act.

(3) An area which meets the above criteria for one portion of the frontage, but not for the entire frontage, will be divided into separate sections for cost sharing. The Federal share will be computed separately for each portion as appropriate, and a composite percentage will finally be computed for the entire park.

(4) *Publicly-owned shores* are eligible for Federal participation up to 50 percent of the construction cost.

(5) *Privately-owned shores* may be eligible for Federal cost sharing of up to 50 percent if there would be significant public benefits arising from public use or from direct protection of nearby public facilities. Federal participation is adjusted in accordance with the ratio of public benefits to total benefits. Recreation benefits resulting from beaches not open for public use are considered to be private benefits for cost apportionment purposes.

(6) *Benefits to private shores beyond project limits* of shore protection works, if trivial in amount, may be considered as incidental and not involved in cost-sharing considerations.

(7) Any statement in a beach erosion control report as to the percentage of construction costs to be borne by local interests or the Federal Government must be qualified as tentative since the final apportionment will be based on the extent of shore in public ownership or use at the time of construction, or subsequent nourishment.

(b) *Hurricane, Tidal and Lake Flood Control.* For hurricane, tidal, and lake flood control protection projects, the Federal share of the project investment costs is limited to 80 percent. When the normal local costs of lands, easements, rights-of-way, and relocations amount to less than 20 percent of total first costs, the difference is required as a local cash contribution.

(c) *Multiple-Purpose Projects.* For multiple-purpose hurricane protection and beach erosion control projects, the Secretary of the Army acting through the Chief of Engineers, has discretionary authority to authorize a Federal share up to 70 percent of the construction costs. This discretionary authority will not be used unless normal cost allocation procedures produce inadvertent inequities in specific cases. Cases possibly warranting such adjustments are to be submitted to HQDA—(DAEN-CWP) WASH DC 20314 for consideration. If this discretionary authority is not used, the costs of the beach erosion control features required to stabilize the shore against wave action are considered to be joint costs and allocated between the hurricane and beach erosion control functions by the Separable Costs Remaining Benefits (SCRB) method (EM 1160-2-101).

§ 282.10 Local cooperation requirements.

Reporting officers must obtain a letter of intent from a public agency, authorized under State law, to fulfill the non-Federal obligations of water resource projects recommended for Federal participation. The letter will indicate that prior to construction, the sponsor will enter into a written agreement, as required by Section 221 of Pub. L. 91-611, to provide assurances of local cooperation satisfactory to the Secretary of the Army. Such assurances include the contributions computed from the policies given in § 282.9 and the following non-Federal responsibilities:

(a) Provide without cost to the United States all necessary lands, easements, rights-of-way and relocations required for construction of the project, including that required for periodic nourishment.

(b) Hold and save the United States free from claims for damages which may result from construction and subsequent maintenance of the project, except damages due to the fault or negligence of the United States or its contractors.

(c) Assure continued conditions of public ownership and use of the shore upon which the amount of Federal participation is based during the economic life of the project (normally 50 years).

(d) Assure maintenance and repair, and local share of periodic beach nourishment, where applicable, during the economic life of the project as required to serve the intended purposes.

(e) Provide and maintain necessary access roads, parking areas, and other public use facilities, open and available to all on equal terms.

(f) Specific cases may also warrant assigning other additional local responsibilities, such as providing appurtenant facilities required for realization of recreational benefits.

(g) Comply with the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646).

(h) Comply with Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352).

(i) In the case of single-purpose hurricane, tidal, or lake flood protection projects, the requirements of local cooperation will normally consist of §§ 282.10(a), 282.10(b), 282.10(d), 282.10(f) 282.10(g) and 282.10(h) in addition to the contributions required by § 282.9.

(j) The wording given in §§ 282.10(a) through 282.10(h) should be considered standard for all recommended plans which include shore protection as a plan purpose. Deviations from such wording should not be made unless the reporting officer has justifiable circumstances warranting such action.

(k) In addition to the above, all reports to Congress proposing Federal projects will include a requirement for an additional State contribution of five percent of the construction cost. Such contribution may be in cash or an in-kind contribution. Additional guidance regarding this item will be published at a future date. In the interim, this item should be coordinated with HQDA (DAEN-CWP-E, C or W) WASH DC 20314.

§ 282.11 Effective Date.

This regulation is effective 15 January 1979.

APPENDIX A

COMPUTATION OF FEDERAL COSTS FOR SHORE PROTECTION PLANS

A-1. *Projects Benefiting Only One Category of Shore.* The Federal share of the cost of construction of a project which will benefit only one category of shore, see § 282.6(e), if any, may be computed by multiplying the cost of construction by the appropriate percentage of Federal participation from § 282.9

A-2. *Projects Benefiting Several Categories of Shore.* The Federal share of the cost of construction of a project which will benefit more than one category of shore, defined in § 282.6(e), may be computed by assigning proportionate shares of the total construction cost to each shore category involved, multiplying the costs thus assigned by the appropriate percentage of Federal participation from § 282.9 and summing the products thus obtained.

a. When the cost of construction per unit of benefited shore length is reasonably uniform for the entire project area, the total Federal cost of construction may be computed as a percentage of the total construction cost by the following formula:

Federal share of total construction cost, in percent =

$$\left\{\left[\frac{\text{Category I shore}}{\text{Total shore}}\right] + \left[\frac{\text{Category II shore}}{\text{Total shore}} \times 0.7\right] + \left[\left(\frac{\text{Category III shore}}{\text{Total shore}}\right) + \left(\frac{\text{Category IV shore}}{\text{Total shore}}\right) \times \frac{\text{Public benefits along Category IV shore}}{\text{Total benefits along Category IV shore}}\right] \times 0.5\right\} \times 100$$

b. When the cost of construction per unit of benefited shore length is not reasonably uniform for the entire project area, the project should be subdivided into compartments within which this condition is met. For each such compartment, the Federal cost of construction may be computed as a percentage of the total construction cost for the compartment by application of the formula in paragraph A-2a, using ownership figures for the compartment rather than the project as a whole. The cost of construction for individual project compartments should be developed on a physical occurence basis, insofar as possible, by first assigning costs which are specific to individual compartments and then distributing costs applicable to more than one compartment on an ownership basis. The total Federal cost of construction is obtained by adding the Federal costs computed for individual compartments.
